

WHAT'S IN A NAME??

SOUTHERN TECH

November 30, 1973

AT LAST, FRONT PAGE COVERAGE

Is it true Georgia Tech is changing its name to Southern Tech, South Campus?

SOMEONE LOVES US

The following broadcast editorial was made by Canadian TV and radio commentator Gordon Sinclair and appeared in the November 24, 1973 Atlanta Constitution.

This Canadian thinks it is time to speak up for the Americans as the most generous and possibly the least appreciated people on all the earth...

Germany, Japan and, to a lesser extent, Britain and Italy were lifted out of the debris of war by the Americans who poured in billions of dollars and forgave other billions in debts. None of these countries is today paying even the interest on its remaining debts to the United States.

When the franc was in danger of collapsing in 1956, it was the Americans who propped it up, and their reward was to be insulted and swindled on the streets of Paris.

I was there. I saw it.

When distant cities are hit by earthquakes, it is the United States that hurries in to help... This spring, 59 American communities (were) flattened by tornadoes. Nobody helped.

The Marshall Plan and the Truman Policy pumped billions upon billions of dollars into discouraged countries. Now newspapers in those countries are writing about the decadent, warmongering Americans.

I'd like to see just one of those countries that is gloating over the erosion of the United States dollar build its own airplanes.

Come on, let's hear it!

Does any other country in the world have a plane to equal the Boeing Jumbo Jet, the Lockheed Tristar or the Douglas 10?

If so, why don't they fly them? Why don't they fly them? Why do all the international lines except Russia fly American planes?

Why does no other land on earth even consider putting a man or woman on the moon?

You talk about Japanese technocracy, and you get radios. You talk about German technocracy, and you get automobiles.

You talk about American Technocracy, and you find men on the moon - not once but several times - and safely home again.

You talk about scandals, and the Americans put theirs right in the store window for everybody to look at.

Even their draft-dodgers are not pursued and hounded. They are here on our streets, and most of them - unless they are breaking Canadian laws - are getting American dollars from Ma and Pa at home to spend here...

When the railways of France, Germany and India were breaking down through age, it was the Americans who rebuilt them. When the Pennsylvania Railroad and the New York Central went broke, nobody loaned them an old caboose. Both are still broke.

I can name you 5,000 times when the Americans raced to the help of other people in trouble. Can you name me even one time when someone else raced to the Americans in trouble?

I don't think there was outside help even during the San Francisco earthquake.

Our neighbors have faced it alone, and I'm one Canadian who is damned tired of hearing them kicked around.

They will come out of this thing with their flag high. And when they do, they are entitled to thumb their nose at the lands that are gloating over their present troubles.

I hope Canada is not one of these.

To the Editor:

I am sure Southern Tech has had, and will continue to have, many outstanding students. However, may I call your attention at this time to Linnie Thomas. Linnie has given of his own time (many hours) to visiting the Marietta Merchants asking for gifts and contributions for our basketball game to be held on November 30th, which will be called "Merchants Night." There will be over eight hundred (800) in prizes given away on this night. Why??? because Linnie wanted to create more interest in our basketball games.

I have attended very few games but I will be there November 30th, not in hopes of winning a prize but in gratitude to one student Linnie Thomas for an outstanding job. Won't you give of your time and make a special effort to attend at least this game and let Linnie know how much we appreciate his efforts.

Stella: I hope you are proud of yourself! I've never been so embarrassed. How could you act so rudely,

Felix: Well, ah.....

Stella: Where were your manners?

Felix: I really.....

Felix: STELLA!! Knock it off! I love Thanksgiving. I wait all year for that wonderful day. After all, we have so much to be thankful for. Good friends, good food, and a comfortable life. Why not celebrate?

Stella: Look, Felix you're right, but why did you have to walk through my giblet gravey?

Felix: Because, Stella, your giblet gravey was between me and the turkey.

Stella: That's got to be the most ridiculous reason I ever heard of. Did I walk over your piece of pumkin pie? No, and you know why.

Felix: No, and I really don't care. B U R P !!

Stella: My Gosh, you really don't respect me at all, do you? You walk through my food, burp in my face, and heaven only knows what you do or say behind my back.

Felix: Well, do want me to tell you what I do behind your back?

Stella: NO. Positively no, never.

Felix: Well since you asked I'll tell you. I do absolutely nothing. Did you heard me I do nothing at all.

Stella: Ha, Ha, Ha, you remind me of the Goat Shed.

Felix: Stella, don't you think you are too hard on those people who work in the Goat Shed?

Stella: I am not talking about ALL the people, just those who are always in the middle of the confussion that they have usually caused. Did you hear the latest?

Felix: No, what?

Stella: It seems that the students, who were in need of special parking pernitjs have been misusing this privilege.

Felix: Oh, how did they do that?

Stella: Well, I'm really not sure. I heard that some idiot student was racing around the mall one day and he was reported and given a ticket.

Felix: Well, that seems very normal and it's only right the idiot driver should get a ticket. But what's the point?

Stella: Well, to make sure that the problem never happened again they took all the permits away from all those students who park on the mall. Why do they have to punish all the others?

Felix: Ya know, I wish I had paid more attention in Professor Hinton's logic class last summer, because I can't figure out the logic in their action.

Stella: Wouldn't it be nice if the same logic could be used on some of the Goat Shedders.

Felix: Yes, but for now the students are going to pay for another example of mismanagment. After all it is the Goat Sheds responsibility to manage the permits and decide who deserves or misuses the permit.

Felix and Stella: Why us Lord? What have we ever done to deserve even one, of the boners we've seen.....

BASKETBALL

The Hornets basketball team took a few days off for Thanksgiving but were back on the hardwood for practice Saturday night.

The following day the team met for a 3½ hour practice. The practice was concerned mostly about how to set up against a press and what to do when working for the good percentage basket.

Southern Tech has two basketball games this week, one at home and the other away. Friday is the first one at home against Berry College and a big crowd is expected. Then on December 1, Saturday, the Hornets travel to Gastonia, North Carolina to go up against Belmont Abbey.

This basketball season looks excellent for the Hornets, so come and see them play and bring a date or friend.

KOHOUTEK

Roughly between December 20 and January 5 Kohoutek's Comet will be visible, near the sun, during the daytime. Since the comet will be so close to the sun, one should not attempt to view it through telescopes or binoculars because if one should accidentally look at the sun through these instruments, instant blindness will result.

Before December 20, the comet will be visible just before sunrise. After January 5, it will be visible just after sunset.

AL UMI DONATES

The Southern Tech National Alumni Association has given the Library \$1000 for the purchase of books. This is not the first alumni gift to the Library this year. More than 900 alumni dollars have been used to purchase books and special library equipment during 1973. Through an arrangement whereby alumni may designate their contributions to the Association, more than 130 alumni have elected to give all or part of their contribution to the Library, thus providing additional books and equipment for students now and in the future.

J. W. Pattillo

At these times it is okay to view the comet but be sure the sun is below the horizon.

To view Kohoutek's Comet when it is visible during the day, hold up an opaque object to block out the sun and then only look with the naked eye.
