

The image shows the front cover of a book. The cover is a vibrant red color with a marbled pattern of dark, swirling lines. In the lower center, there is a rectangular silver-colored metal title plate. The word "LOG" is embossed in large, bold, serif capital letters on the plate. Below the plate, the year "NINETEEN SEVENTY-FOUR" is printed in a smaller, red, serif font.

LOG

NINETEEN SEVENTY-FOUR

ALL THE
NECESSITIES FOR
THE STUDENT

Now, today's Army offers extra rank to people who already have a skill.

The Army's new Stripes for Skills Program makes it possible for young people with a skill to step right into a good job. One with a quick promotion. A good salary. A choice of location. And a chance to try out their talent on some of the best equipment in the world.

Here's how it works.

To qualify, an applicant must have at least two years of working experience, or an equivalent combination of training and experience. Waiting for the right person are jobs in everything from electrical repair to telephone installation to computer technology. Over 150 in all.

We recognize the value of their training and experience. That's why we promote them almost immediately to the rank of E-4. With a salary to match of \$392.70 a month. Plus the Army provides their meals, housing and medical care.

And since our needs for good, skilled people exists in Europe, Alaska, Hawaii, the Canal Zone and across the U.S.A., they can choose not only what they'll be doing, but where they'll be doing it.

Today's Army

We have a lot more to offer.
