# THE BLIZZARD OF 1977

"The forecast for Marietta and vicinity is for fair skies, continued sunny weather, and a high temperature today of 68 degrees. The chance of precipitation is 0 today. Weather experts and the utility companies predict this will be the warmest winter in the last forty years. Nothing but sunshine in the forecast for the next five days."

## A RENAISSANCE MAN

Alfred James Hunkin, Associate Professor of English and Faculty Advisor to The Log, has worked diligently and patiently to provide the students of Southern Technical Institute with the best exposure to learning possible. His interest in WHO the students are, WHAT they need and want in the way of education, and HOW these needs and desires can best be met has attracted the attention of all members of our campus community. His interests have also escaped the narrow confines of the classroom and permeated into every area of endeavor at Southern Tech. Al Hunkin represents the best traits of the Southern Tech faculty.

It is in the classroom, however, that "Hunkin, A. J." provides his greatest service to Southern Tech. The terrors lurking behind names like Homer, Voltaire, Ibsen, Blake, and Shaw seem less threatening when confronted by a Hunkin witticism. The mysterious prose of the great and near great becomes crystal clear when explained in everyday term by the Grey Ghost. Many Southern Tech students, forced to take literature as a requirement and certain that no benefit is to be derived from the study of "junk," find their perspectives changed when they discover that the "junk" was not junk after all - at least, not when Hunkin got through with it.

Yet, the world of the classroom is not the only world that Hunkin functions in. He has been a member of many communities. Alfred James Hunkin combines realism with a romantic view of the world, theoretical knowledge with practicality, and a broadness of vision with a perception of the capabilities of mankind.

THE STUDENTS PICTURED ON THIS PAGE HAVE SHOWN THEIR CONCERN FOR THEIR FELLOW STUDENTS BY PARTICIPATING IN ALL AREAS OF CAMPUS LIFE.

# GOAT DAY

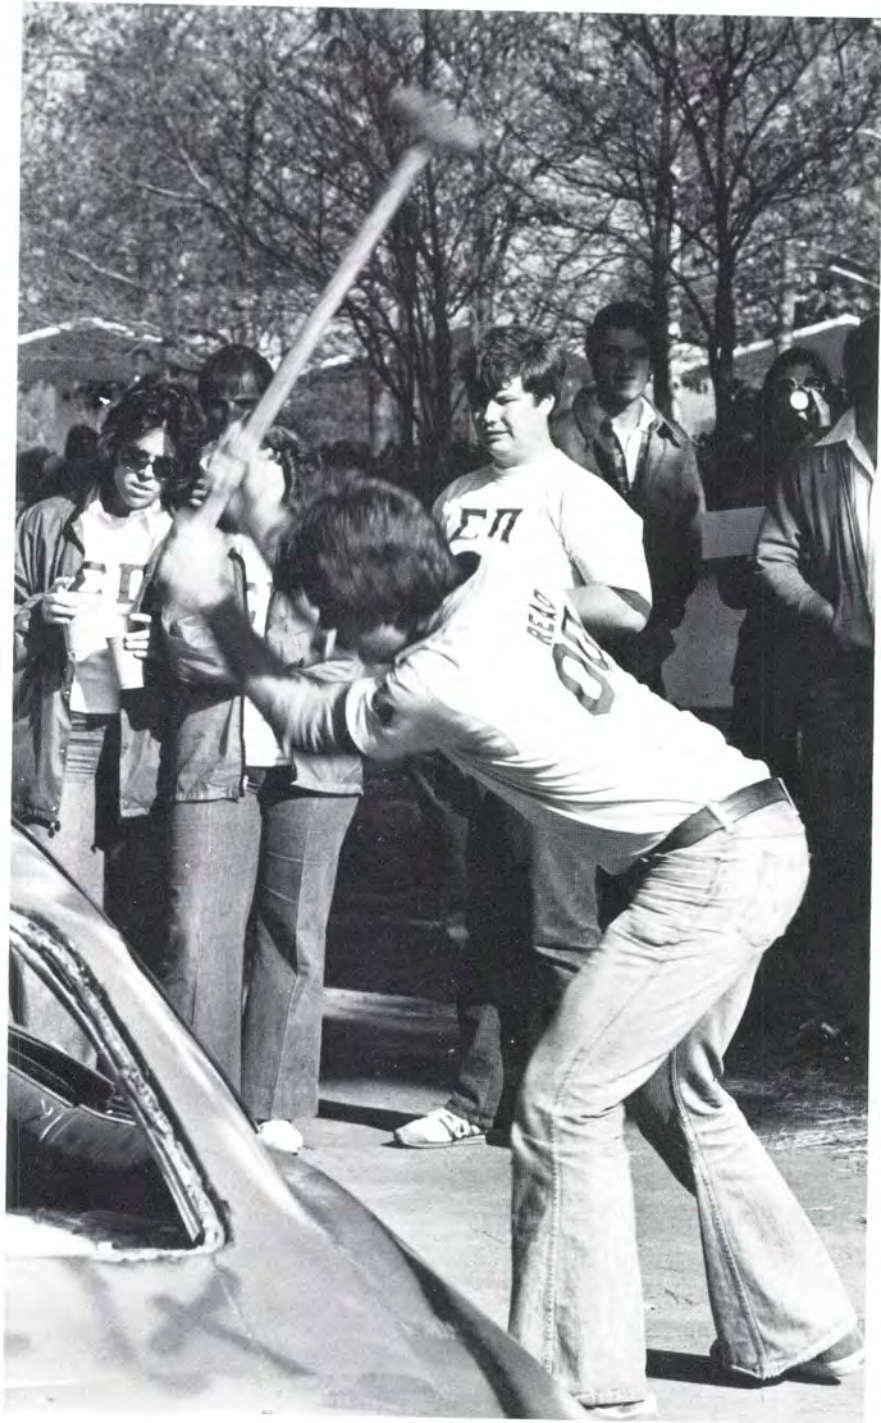

Once upon a time, about four years ago, the students of STI decided to hold a special festival to show their appreciation to their mentors for the wonderful job of educating the less fortunate that had been done. Searching through scorched parchments and dusty old documents (left by the last occupant of the third stall on the right), these enterprising young persons decided that proper respect to the illustrious leaders of academe would and could be properly shown only through an intellectual pyrotechnic display of abject dedication to the one mammal that embodied the diverse traits (wanted and unwanted) of all members of the staff, faculty, and administration. So . . . the budding young scientists and engineers decided to build a living creature (a bathtub baby) to demonstrate all they had learned and which would show the world the good things about the STI power elite.

They huffed and they puffed, they mixed and they stirred and produced - a CAMEL! However, Camel Day didn't sound so good so back they went to the lavatory for more work. Soon they brought forth their issue - a JACKASS! Jackass Day had possibilities but . . . Finally in a flash of pure inspiration, the students produced the last, and some say the perfect answer although it really depends on YOUR brand of funny cigarettes, - the GOAT. Thus was born - Aardvark Day!

CAR BASH

FOR SALE: 1965 Chevy Coupe. Cherry. Used only by a few students for school work. Unusual paint job. Easy on tires. Very efficient gas usage. Body in so-so shape. Needs a little work. Great for parking at drive-in.

## LADIES OF THE NIGHT ARRESTED DURING DAY

(Marietta) - In one of the most unusual cases ever reported in this city, Marietta detectives hauled in a large number of well-known local characters who regularly frequent a well-known dive in a well-known section of this town. This reporter is disgusted at having to include the names and addresses of these well-known persons in this family newspaper. Quite frankly, this well-known reporter feels that listing names and addresses of these well-known faces only leads to these well-known people becoming more well-known. It's well-known what these well-known people do.

Well, at least I know. That's a well-known fact.

It's also well-known that I use a lot of well-known words and some adjectives. I'm so disgusted by this fiasco that I'm giving you a list of well-known facts and words and let you write your own story. (This is a well-known tactic of well-known sports writers also.)

# BEFORE THE RACE

"So when does it start?"

Kim's looking for Gary.

The cowboy thought it was horse-racing.

They just saw Tom Samford.

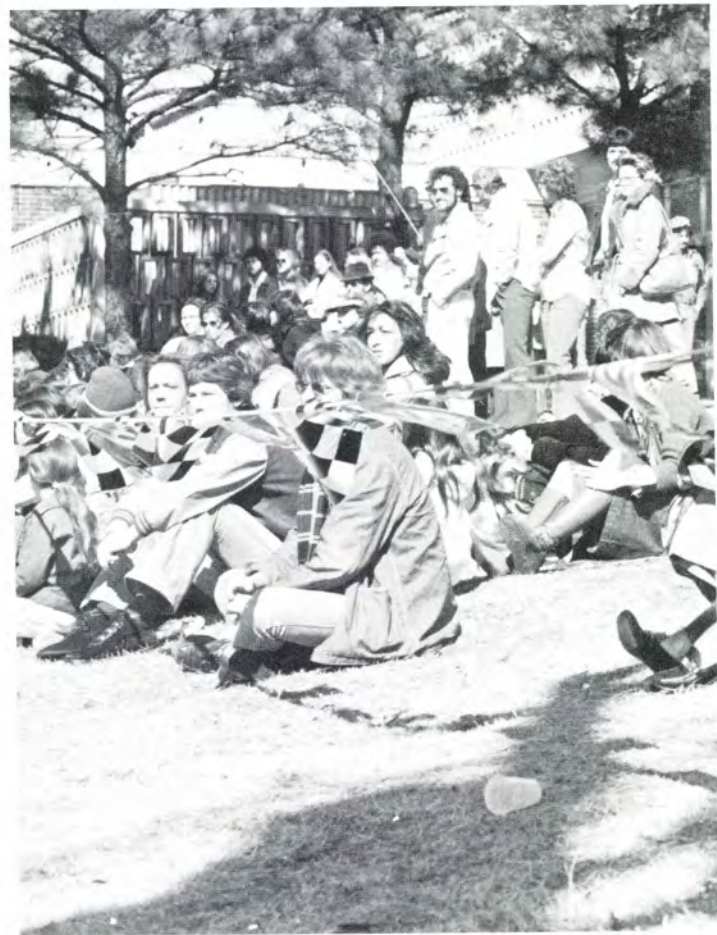

Here they come . . .!

Not bad.

Stay cool, Robert!

# SPRING RACE

The Annual Spring Bathtub Race is the main event on the Southern Tech campus. Each year thousands of people come to watch twenty or so tubs scream around the 1.1 mile campus track at speeds of sixty to seventy miles an hour. This year twenty-two tubs were entered in the 11th Annual Race. What took only slightly more than an hour from start to finish took hundreds of man-hours to prepare for, additional hours in practice, and the labor of untold numbers of people to co-ordinate, publicize, and direct the race. What the public sees is only the finished product. Very few people know the battles over insurance, the disagreements over rules, the admonitions and fears of the Administration, the allocation of concessions, or the incessant meetings that take place before even one tub is allowed on the track.

It wasn't always so complicated. Certainly the pledges of the fraternities who started it all fifteen years ago had no idea that what had started as a race between two tubs filled with iced beer, pulled by pledges, and navigated on a muddied track, would become an internationally known sporting event. The members of the BRA not only enjoy each race, but during each race they are considering how they can make the next race even better and safer.

Planning for the race is an educational experience in addition to being fun. Consider this problem: How many used tires does it take to cover the perimeter of the inside and outside of the track? Or, how many policemen and track marshals are necessary to insure the safety of 10,000 people? Or, how many hotdogs will a crowd of 10,000 people consume during a three hour period? How many Cokes will a crowd of 10,000 people drink during a three hour period if the temperature is 88 and the humidity is 80%?

The end result is worth all the headaches and heated discussions, the hurt feelings, ruffled egos, and the uncertainty. The high pitched whine of finely tuned engines revving in the pits and the throaty roar of the same engines as they wind through the tortuous track causes the long hours to fade into oblivion.

The Bathtub Race is not only a source of pleasure for the 10,000 or so people who turn out for the excitement every year; the Race has also done much to make Southern Tech known across the country.

The members of the Bathtub Racing Association and the other people who help with the race deserve the thanks and appreciation of the rest of us at STI who derive so much pleasure from the efforts of a few people.

# STUDENT OF THE YEAR

Tom Samford was presented with the Elizabeth and Calvin Hays Award by Professor Jo Pevey. The award is presented annually in memory of the parents of STI Professor Robert W. Hays. Tom is a junior; he is a member of the Lions Club, and Tau Alpha Pi Honor Society; he is past vice-president of the SGA and president-elect for 77-78. Tom also received the Student of the Quarter Award for Spring Quarter and a special SGA Award.

Brent Williams - Student of the Quarter - Fall Quarter, 1976

Rose Snow - Student of the Quarter - Winter Quarter, 1977

# SGA AWARDS

Scott Dobslaw, president of the Southern Tech Student Government Association, presented five special awards to individuals on the Southern Tech campus who had contributed time and effort to making STI a better educational institution.

# BLACK STUDENT ASSOCIATION

Some of the officers of the Black Students Association are shown with some of the food which is part of their annual contribution to needy families at Thanksgiving. We think this organization and its members deserve special recognition for its participation in campus and civic activities.

The following awards were given by the Black Student Association this year:

Betty Moran

Dot Cochran

Special Recognition:

David E. Summers Electrical Engineering Technology Department

Jack Agee Physical Plant Director

Robert Myatt Architectural Engineering Technology Department

Another year gone. Recognition for those who have worked hard. Families proud of members who have earned the gratitude of the institution and of colleagues. A change in leadership. A change in direction. The formal ceremony and then - refreshments. Time to mingle with friends. Congratulatory flow. Laughter and fun. Was it all worth it? You bet! See you next quarter.

Top: Jeff Taylor receives the Chamber of Commerce letter writing award.

Left: John Stiles and his winning drawing in the Design Competition.

Right: Cynthia Vaughan receives the A.I.I.E. Award from Professor Aft.

# BASKETBALL

1976-1977

1976-77 was no disaster . . . Some green players proved they could play basketball . . . A new coach worked to provide us with a winning team only he was battling the odds. We had a fine group of players though. Why a bad record? Too many close games . . . not much support . . . Depth problems . . . \$\$\$ . . . or was it a matter of being outclassed?

"Twist E-Z Head"

MATCH THE CAPTION AND THE PICTURE

A. "Ya missed me! Ya missed me! Now ya got to kiss me!"

B. "Hot diggety! My first day on the job!"

C. "Me and my typewriter. The only person I can trust to never stop loving me (hic!)."

D. "Duh, the big hand is on the three and the little hand is on twelve, so the correct time is fifteen o'clock."

CORRECT ANSWERS ON PAGE 365.

Secretary - AET

"Why, I haven't had a picture made in five years."

Ann Westlake  
Secretary - DOS

"Yabba, yabba! That's all, folks!"

I would like to thank those people who did help with the yearbook. In particular, I would like to thank Carl Lewis, Tommy Miles, Pam Williams, Clive Rountree, Harold King, and Jim Hunter for their efforts in trying to get enough pictures together for the deadlines. David Pollock of Taylor Publishing Company deserves an award for patience; I hope he gets a more experienced editor next time.

It's impossible to please everyone, however, a lot of time and effort was spent trying to make this yearbook representative of the students at STI. I hope you like it.

Rose Snow
