

Conference Panel At Work

L. to R.—Dr. H. P. Rodes (President, Ohio Mechanics Inst.), Miss Rita Berong (Counselor, O'Keefe H. S.), W. R. Halstead (Head, ET and E&C Departments, STI), Moderator Charles F. Hudgins (Professor of Education, Univ. of Ga.), C. M. Clarke (Associated Industries of Ga.), F. J. Johnson (Supervisor, Lockheed Aircraft), Dr. Joe E. Moore (Head, Psychology Dept., Ga. Tech). Director Johnson at mike.

Counselors' Clinic Hailed As Outstanding Success

The Counselors' Conference, sponsored by the Georgia Institute of Technology and Southern Tech and held on the STI campus on February 12, was regarded by many of the 120 guests and STI staff members as an unqualified success.

Director L. V. Johnson states that he has received many letters, comments, and opinions concerning the affair, and all are in accord that the events of the day were most interesting, enjoyable, and profitable.

Purpose of the Conference was to acquaint counselors fully with the technical institute level of training by answering many questions asked of them by students interested in technical education.

Four Means Used

Four means were employed during the afternoon and evening to convey information to the counselors, school principals and superintendents, teachers, and personnel men present: a discussion panel

composed of seven authorities, a showing of the STI film "The Technician in Industry," an inspection tour of the Southern Tech campus and facilities, and an address by Dr. Lawrence L. Jarvie, Executive Dean, State University of New York, on "The Future of the Technical Institute and Its Product in America."

The panel was composed of Dr. H. P. Rodes, president of Ohio Mechanics Institute; Miss Rita Berong, counselor, O'Keefe High School, Atlanta; Mr. W. R. Halstead, head of STI's ET and E&C Departments; Moderator Charles F. Hudgins, professor of education, University of Georgia; Mr. C. M.

Log Put to Bed; Editors Re-Live

By the time this issue of The Technician is released the school annual, the Log, should be at the printer's office for final layout and printing.

The staff have completed their work and expect this Log to be the best yet. The ad campaign has been successful, and there seems to be no reason to hold up actual printing work. Students can expect their copy of the Log to be ready by the end of the spring quarter.

If a student has been here three quarters or longer, he will not have to pay for his copy. If he has been here only two quarters, a fee of a dollar must be paid.

The staff, under the editorship of Ernest LeDuke, has put out plenty of hard work to make this a yearbook that STI students and faculty may all be proud of.

Prospects for STI Band Extremely Good as Active Group Organizes

At last a successful attempt appears to have been made to organize an STI band. Earlier attempts had failed, due largely to the school's smaller student body. But now, with nearly 500 students, there should be ample talent for an instrumental music organization that Southern Tech can well be proud of.

Several people have been working harmoniously on the subject. D. P. Jones, Profs. D. I. ("Hot Lips") McCool, B. B. ("Harry J.") Herms, and W. W. ("Tommy") Vaughn have contributed considerably of their time and talents (?) towards organizing and planning, and a very faithful nucleus of student musicians, namely Curtis Crawford, Charlie Hightower, "Mac" McClure, Willard Prince, Bill Parks, Jim Henson, Ray Bridenbaugh, and William Trimble, deserve a lot of credit for persevering through the initial phases of the band's development.

To Be All-Purpose

Plans are for not only a dance band, but also a concert band for the purposes of public performances and furnishing needed atmosphere

Selective Service Warns of April 22 Qualification Test

All eligible students who intend to take the Selective Service College Qualification Test in 1954 should file applications at once for the April 22 administration, Selective Service National Headquarters advised today.

An application and a bulletin of information may be obtained at any Selective Service local board. Following instructions in the bulletin, the student should fill out his application immediately and mail it in the special envelope provided. Applications must be postmarked no later than midnight, March 8, 1954. Early filing will be greatly to the student's advantage.

Results will be reported to the student's Selective Service local board of jurisdiction for use in considering his deferment as a student, according to Educational Testing Service, which prepares and administers the College Qualification Test.

Clarke, assistant to the president (Continued on Page 3)

STI Glee Club Presents Pinafore a Second Time

The Southern Technical Institute Glee Club has scheduled for presentation on Thursday, Friday, and Saturday, March 4, 5 and 6, performances of the Gilbert and Sullivan operetta H.M.S. Pinafore. Curtain time each evening will be eight o'clock.

The current production will mark the second time Pinafore has been offered by the Glee Club; last year's production was so enthusiastically received that the same music is being rescheduled.

Southern Tech students featured in the cast are Charles Barr as Ralph Rackstraw, Raymond Eckman as Sir Joseph Porter, Blake Thomas as Captain Corcoran, Thomas Fiorentino as Bill Bobstay, Norman Talley as the Carpenter's Mate, and Jack Wynn as Dick Deadeye. Other members of the Glee Club play supporting roles, and all members sing in the chorus.

And Girls . . .

Pinafore's feminine leads have been double cast for the performances. Barbara Brim will sing the part of Josephine on Thursday and Saturday evenings, Thressa Senkbeil will sing this part on Friday; Buttercup is to be played by Claudette Thomlin on Thursday and Saturday, and by Zella Burgreen on Friday; Hebe, Sir Joseph's cousin, will be sung by Jane Greer each evening. Supporting feminine roles are played by Jimmy Avery, Dorothy Glendenning, Mary Weldon, Ruth Wise, Martha Wise, and Barbara Senkbeil. In addition to the girls on stage, a dozen others will sing with the chorus.

Mr. Defore Directs

The production is under the direction of Prof. Jesse J. Defore

and Communications are still in demand, but there are not as many openings as existed in previous quarters.

The placement office has not received answers from some of the business firms as yet. Mr. Wilkinson said his office is going to mail a personal letter to each of these businesses to find the reason why they have not been heard from.

and Prof. J. P. Goodwin; the accompanist is Jean Poe.

Southern Tech students will be admitted free to the performances upon showing student activities card; regular admission is seventy-five cents.

Council Effects Parking Relief; Scott New Head

The new officers and members of the Student Council, with the help of the STI administrative staff, have acquired a portion of the Naval Base for student parking. This should be a great help in cutting down the congestion of parking automobiles on the campus. Each car shall be registered with the main office and decals will be issued. The Chamblee police will not come on the campus except by permission of proper authorities. Violators of parking will have to appear before the Student Council.

The Student Council is sponsoring a blood drive, and the Bloodmobile will be brought to Southern Tech on March 10, from 12-6. The club with the largest participation will be awarded a prize of \$25.00 for their club treasury.

The new officers of the Student Council for this quarter are Lester Scott, president; Jack E. Dalton, vice president; and Brady E. Drummond, secretary and treasurer.

Notice, Alumni!

This issue of The Technician is the last which will be sent to graduates who have not joined the STI Alumni Association and paid their annual dues of \$1.00.

Graduates can continue to receive the monthly schoolpaper and the newsletters from the Placement Office by sending a check for \$1.00 to the STI Alumni Association, Southern Technical Institute, Chamblee.

Demand for March Graduates Good

The demand for March graduates is, in general, very good, according to Mr. R. L. Wilkinson, STI's placement director. Opportunities are especially good for the Industrial Department, which has four graduates and many times that number of job openings.

The graduates of the Electrical and Mechanical Departments are also finding many good job opportunities. Graduates of Electronics

Here Are World Almanac's Ten Major Events of 1953

Of all the events which took place in 1953, which would you select as being the 10 most significant, major ones from the world-wide viewpoint?

Leave it to experts, you say?

OK; we'll do that. Here are the 10 selected and printed by *The World Almanac*, the \$1.00 encyclopedia published by the New York World Telegram and The Sun.

1. Signing of the Korean armistice on July 27, 1953, which halted three years of war resulting in 137,051 U. S. casualties and started long negotiations with Chinese Communist enemy and bickering over prisoners who refused to return to China.
2. Death of Stalin, premier of U.S.S.R., on March 5, 1953, and the rise to power of his successor, Georgi Malenkov.
3. Attorney General Brownell's charge that Democratic administration appointed to high office men accused by FBI of subversive activities in Government.
4. H-Bomb explosion in Russia, announced by Washington and verified by Premier Malenkov.
5. Conquest of Mount Everest, 29,002 feet above sea level, highest point on earth's surface, by Edmond P. Hillary, Briton, and Tensing Norkay, Nepalese, on May 29, 1953.
6. Death of Sen. Robert A. Taft of Ohio, leader of conservative Republicans, architect of Taft-Hartley Labor Relations Act, influential figure in uniting party behind President Eisenhower.
7. Fight on racketeering on New York and New Jersey waterfronts, initiated by Governor Dewey (N. Y.), Governor Driscoll (N. J.), and A. F. L.
8. West Germany's big majority vote for Chancellor Adenauer, friend of West, over Communist opposition, and ratification of European Defense Community pact.
9. Vaccine found effective against paralytic poliomyelitis announced by Dr. Jonas E. Salk and associates of University of Pittsburgh.
10. Upheaval in Iran, which brought Mossadegh, dictator, briefly into full power with Communist support and sent Shah fleeing country. Army arrested Mossadegh and suppressed revolt. Upon return of Shah, Mossadegh was placed on trial for treason.

February—Interesting Month, Full Of Prominent Events, Birthdays

Of all our months, February—short though it is—is one of the most interesting, most American, and most crowded with important events and birthdays of famous people.

In fact, February's length wins for it much favor because the March payday seems to hurry around after the 28-day wait. Also this shortest of months is the only one in the calendar that varies in length, depending upon whether Leap Year is involved.

This month brings Ground Hog Day and much good old American hokum connected with the weather; Saint Valentine's Day, when love messages are sent openly and comic cartoons are delivered secretly; and the founding date of the Boy Scouts of America, that great organization which has contributed so much in sterling character, democracy, and Americanism to the youth of our land.

Great Persons Born

Perhaps greatest of all its contributions are the true American men and women who came into the world during this month. Most prominent of these are Thomas Edison, who symbolizes the inventive genius which has placed the United States at the top in science and technology; Susan B. Anthony, who stands as the champion of that great cause, women's rights; Henry W. Longfellow, perhaps the best loved of all American poets; George Washington, who, though of the aristocracy, fought the fight for independence which set the States free and won for him the cognomen, "Father of Our Country"; and Abraham Lincoln, who, though of humble birth, rose to the position of greatest prestige in our nation and was destined to lead in the war which abolished slavery and preserved the Union.

These are some of the people February gave to us — men and women who helped make America great and whose fruitful, enviable

DAFFYNITION

"Having one wife is called monotomy."

—STI—

College Football Coach: What's the matter with you fellows? You look like a bunch of amateurs.

lives and immortal achievements live on to inspire us and continually remind us that we too can achieve higher, better things if we but put forth the effort.

Longfellow himself once wrote Lives of great men all remind us We may make our lives sublime, And, departing, leave behind us Footprints on the sands of time.

THE TECHNICIAN APPLAUDS

Mr. E. J. Muller and his able assistants, Jimmy Foxworthy, Carl Bagby, Ken Mellott, Harry Kent, Ralph Reynolds, and Vincent Villaseñor, for the splendid job of caring for the concession stand at the recent DeKalb County Basketball Tournament. Hats off to these industrious people!

The staff and faculty of STI for doing such a fine job of promoting and helping put over the Counselors' Clinic held on the campus on February 12.

College Enrollment Over Nation Shows Increase for Second Year

According to an announcement by S. M. Brownell, U. S. Commissioner of Education, "College and University enrollment in the United States has shown an upturn for the second consecutive year. Enrollment figures reported to the Office of Education by the Nation's 1,871 institutions of higher education, including those in Alaska, Guam, Hawaii, Puerto Rico, and the District of Columbia, indicate a total enrollment of 2,250,701. The 1952 fall enrollment was 2,148,234." In addition to the overall increase of 4.8% this year, the number of new students has increased 6.5%, the number of men students, 3.3%, and the number of women enrolled, 7.5%.

New York University has the highest enrollment with 38,912 students, followed by the University of California (all campuses) with 33,382; City College of New York, 28,862; Columbia University, 24,870; University of Illinois, 21,164; University of Michigan, 19,800; Ohio State University, 19,074; and Northwestern University, 17,977.

The following table shows the total 1953 fall enrollment in higher educational institutions by type of institution and the number and percent of change from the 1952 fall enrollment:

Type of Institution	Fall 1953	Change	
		Number	Percent
All Institutions	2,250,701	+ 102,417	+ 4.8
Universities	1,042,563	+ 38,630	+ 3.8
Liberal Arts Colleges	568,864	+ 32,657	+ 6.1
Independent Prof. Schools:			
Teachers Colleges	196,220	+ 22,680	+ 13.1
Technological Schools	101,130	+ 4,209	+ 4.3
Theological Schools	27,577	- 3,344	- 10.8
Other	54,080	- 13,170	- 19.6
Junior Colleges	260,267	+ 20,755	+ 8.7

The Corn Crop

By BOVAY & PARLETT

There was a sudden knock on the door. She jumped up and said to her lover, "Quick! 'It's my husband. Jump out the window."

The lover gasped, "But we're thirteen stories up!"

She: "This is a fine time to get superstitious."

Covering the Campus

With Larry "Yank" Parlett

Flash! The out of state Yankee gangster, Alan Saffair, was apprehended by Georgia State police for buying gas and not paying for it. Local boys also frisked, all Savannahians of course — Billy Mitchellson, Billy Fogarty, Arthur Jordan.

The newly found mascot is fast becoming a favorite of everyone. Main keepers for Dorm 20 are Dick Reeve and Don Law. Dorm 19 keepers are Mack Garmany and Jimmy Poe. Due to excessive noise, "Useless" has been asked out of several classes.

Yankees aren't particular who they go out with, eh Harvey?!?! Went with Bob Switzer on an assignment from WBGE to a "Saving" meeting and came away with a date lined up.

Talk about Ernest Hemingway in Africa hunting a story, let me tell you about Ernest LeDuke hunting a dead snake at the Tech "Y" Camp with a kerosene lamp. Remember anything, Ernie? ? ?

A date to remember—March 10. That is the day when the Blood-

mobile will be at Southern Tech. A \$25.00 donation is being given the club that has best turnout. Would help nicely toward a party. Sign up for time that best suits you.

Woodie's is becoming the hang-out for some of the local boys, it seems. Joe Godley, "Spot" Veatch, and Charles Morris can be found there anytime after sundown.

Arthur Jordan is now the lover boy of the team. Was supposed to have a date with slick chick at South Georgia but he ran and he ran. Afraid of a shot gun blast he claims.

To the thirty-three graduates in March—may you have every success in the world and remember to come back and see us in the very near future.

Basketball season is about over, and the team is to be congratulated for their fine work. Will be a real threat in the tournament. Should also be one of the favorites in Southern Tech tournament.

Honor Roll of Donors to School's Alumni Scholarship Fund Published

Sixty-seven STI alumni have contributed a total of \$541.50 to the Southern Technical Institute Alumni Scholarship fund, begun in June of 1953.

Since this is the last issue of *The Technician* which will be sent to all alumni, editors of the paper are publishing the names of the donors with the amounts contributed so that everyone will know who helped in this most worthwhile cause.

Perhaps this Honor Roll of Donors will remind other alumni that they have made no contribution and move them to do so.

These are the generous faithful:

Harold L. Anderson, \$3.00; J. D. Arnsdorf, Jr., \$10.00; W. L. Adamson, \$10; James S. Adams, \$10.00; James F. Andrews, \$5.00; Blanton E. Alaxander, \$10.00; J. E. Barnard, Jr., \$5.00; Jack Byrd, \$5.00; Jack Bentley, \$10.00; Aubrey H. Bone, \$10.00; Clark J. Butterworth, \$5.00; J. S. Bailey, \$5.00; Robert O. Bowen, \$5.00; Frank A. Boykin, Jr., \$5.00; George W. Bruning, \$25.00; Frank Blair, \$5.00.

W. M. Creel, \$5.00; W. O. Carter, \$10.00; W. C. Carr, Jr., \$10.00; Thomas S. Craig, \$50.00; Frank Creel, \$10.00; L. G. Dewberry, \$10.00; Harry T. Davis, \$10.00;

CLUB NEWS ROUNDUP

CLUBS ENRICH LIFE;
SAM CHAPTER FORMED

By D. P. JONES

SAM

A student chapter of the Society for Advancement of Management (SAM) is being formed at Southern Tech. SAM is the national professional society for management personnel. It is felt that a student chapter will fill a void now existing in STI extracurricular activities. The school now has active extracurricular organizations in scholastic achievements, sport activities, and social clubs, but no organization to benefit men who have managerial qualities and are sincerely interested in the field of management.

STI Is Fortunate

Southern Tech is very fortunate in being offered a charter in the SAM, as this particular activity usually is reserved for four-year schools. Southern Tech's student chapter should be through its initial stages of organization by the end of the winter quarter and ready for active operation by the beginning of the spring quarter. Since this club will be exclusive and membership by invitation only, it will pay you to take stock of yourself and begin developing those leadership qualities that have been lying dormant all these years.

IOTA TAU

The Industrial Club is very proud of its successful dance held in December, the First Annual Christmas Dance at the STI gym, and the members are still reveling in the dreams of the wonderful time each and all had. The dance was the most successful one that has ever been held at Southern Tech and attracted people from as far away as Columbus, Albany, Macon, and other cities within a 200-mile radius. One very attractive feature was the presence of Miss Lucia Hutchinson, "Miss Georgia of 1953." The dance was very successful, both financially, and socially.

Improvements In Progress

Iota Tau is busy this quarter rearranging the lounge room, re-decorating, and securing magazine covers for its library. The club's outing for this quarter consists of a steak dinner held for members and their guests.

The Industrial Club, although enjoying a large membership, urges all members of the Industrial Department to join the department's club and enjoy all the fine activities and fellowship now enjoyed by the membership.

MECHANICAL CLUB

The Mechanical Club members are hard at work this quarter and have shown much progress. At a meeting held the first of the quarter, new officers for the winter quarter were elected as follows:

President—Marvin Potts
Vice President—Jimmie Sutherland

Treasurer—William Ogletree
Public Relations—Vincent Villarsen

Club Advisors—"Coach" Arnston and Mr. C. R. Freeman

The club has selected the key for the department, and keys have been ordered.

Members here have been trying to gain permission of the school to produce a directory that would list each person connected with the school, his home address and telephone number. If permission is granted, the directory will be their project for this quarter.

The Mechs are planning a party and dinner to be enjoyed later in the quarter, and urge all Mech students to join the club and participate in the good fellowship and fraternal fun now being enjoyed.

POWER CLUB

The newly formed Power Club is a campus-wide organization formed for the benefit of those men who are interested in the subject of LP GAS Carburetion. The officers elected for this quarter are as follows:

President—Tommie Fiorentino
Vice President—Fred Thomas
Secretary and Treasurer—Harvy Macklin

Public Relations—Lindol Carter

The boys you see wearing the coveralls with the bright colored letters "Power Club" are the fellows who are now interested in the promotion of LP Gas Carburetion, and they are holding up operations pending approval of their charter by the Administrative Council. After the preliminaries are complete, they invite all who are interested to join their organization.

GAS FUEL CLUB

The Gas Fuel Department is still on the ball, and the projects scheduled for completion are almost finished. The model gas bulk plant lacks only minor details, and plans are made to enter the model in the convention to be held in Chicago in the near future.

The club, aided by school activity funds, has purchased and installed a new sink in their kitchen, and are now ready to put the boys on "K. P." duty on Sunday evenings, after the delicious dinners are served. The Gas House boys are becoming quite famous for their culinary art and are enjoying those Sunday evening meals. The boys are trying to dig up a "Frat" name for their club, but as yet they have not arrived at a decision. (Is it that the kitchen force and the line crew can't agree on the subject?)

STICA

A strong purpose dominates this new club.

"They that honor Me, I will honor." These words of God are clothed with the eternal truth of Him who cannot lie, and backed by the arm of inexorable justice, which will sooner or later verify them.

So it can be seen with the newly formed STI Christian Association that this club stands without apology for the fundamental principles of the Bible, and has as its purpose the service of God, our Creator, and Jesus Christ, the Saviour of mankind. All other accomplishments are incidental to this end.

STICA Grows

Because of its irrefutable purpose, God has honored this organization as can be evidenced by its steady growth and increasing spirit. As an outgrowth of its founding, the students with the highest principles may belong to this club, finding not only support for their convictions, but aggressive encouragement.

It is not the aim of the STICA to promote social activities, but many are brought about through the natural course of events, as with any organization that has a definite purpose for existence.

Those who are unfamiliar with the activities of the Christian Association are given a friendly invitation to visit during its weekly meetings at 8:00 each Wednesday night. Until membership becomes too large, these are held in room 144, dormitory 19.

Many of us are in the metallic age: gold in our teeth, silver in our hair, and lead in our pants.

148 Graduates Become Members
Of STI's Alumni Association

When this issue of The Technician went to press, 148 graduates had become members of the STI Alumni Association by paying their annual dues of \$1.00.

STI officials point out that it is these loyal alumni who will continue to receive issues of The Technician and the newsletters prepared and sent out by the school's Placement Office. And it is to these 148 former students that STI officials express their sincere appreciation for helping to support these activities, which seek to benefit the grads.

As a small tribute to them, the names of all 148 contributors are published below. It is hoped that many more will send in their dollar, because no more Technicians or newsletters will be sent to graduates who are not members of the Alumni Association.

John S. Anderson, Hubert O. Adamson, Frank Alexander, Jr., Frank H. Allen, Jess G. Bagwell, Jr., W. D. Baker, Joyce S. Bailey, J. E. Barnard, Josh D. Barrow, H. A. Batastini, W. D. Behlmer, Jack C. Counselors' Clinic
Proves Success

(Continued from Page 1)

of the AIG; Mr. Frank J. Johnson, supervisor, Lockheed Aircraft; Dr. Joe E. Moore, head of Psychology Department, Ga. Tech.

In attendance were representatives from such varied agencies as the Veterans Administration, Vocational Rehabilitation, State and Federal Employment Services, high schools, and other colleges, who came from Alabama, South Carolina, Florida, and all parts of Georgia to participate in the program. They carried away with them much firsthand information and a clearer conception of a technical institute, its work, its product, and the place of the engineering technician in industry.

Director Johnson expressed his gratitude over the splendid way in which the conference was accepted, attended, and executed.

James L. Stephens
Shows Spirit All
Grads Should Have

Here's the kind of spirit that STI wishes all of its 613 graduates possessed. This man Stephens, school officials believe, wants to stay on the list as badly as they want him and 612 more.

9 Feb. '54

Hi Everybody,

Please put me back on the mailing list of "The Technician" and the newsletters. I neglected sending my membership fee in before 1 Jan.

I always enjoy reading news of the school and of the things they are accomplishing.

Enclosed is my membership fee.

Thanks,

Though Hornets Suffer Slump They Still Hold 14-9 Record

By RALPH N. JONES

After the Christmas holidays were over and the basketball season fully underway, STI stock was soaring to what seemed an all-time high. But just recently depression set upon the "Hornets" and has left them high spirited but at the same time crest-fallen.

With only two more games left in this season before the "Hornets" enter the tournaments, they have a 14-9 record, losing six very close games and one more by 20 points, while winning seven.

The "Hornets" stopped Oglethorpe, 77-55; Young Harris, 77-64; UGAD, 88-76; West Georgia, twice, 70-69, in an overtime period and 76-69; Columbia Theology Seminary, 87-49; and Armstrong, 68-49. They fell before Armstrong, 63-69; Brewton-Parker, twice, 53-73, and 82-85; ABAC, 100-106; South Georgia, 87-91; and Berry, 72-79.

Through the first 13 games the "Hornets" had a 10-3 record and had scored 960 points to the opposition's 895. This is an average of 73.8 points against 68.8 points per game. These records, by far,

are some of the best that the "Hornets" have set in previous years for early in the season.

In past seasons the "Hornets" have started slow, dropping several games at the start, but never really falling behind in the standings. After the holidays, they would snap out of the slump and finish going away for the rest of the season.

At the halfway point, the "Hornets" looked as if they were on the way, but beyond this point, their stock seemed to drop steadily, and they lost six of their next 10 games. To date their record is 14-9, and they still hold an edge in the points per game average. To date, with two games remaining, they have scored 1,638 points against 1,555 for a 71.2 average against a 67.6 average.

Of the nine games that they have lost, seven of these were by less than 10 points, being beaten severely only once, and that at the hands of Brewton-Parker, the "Hornets" biggest headache in the past years.

The top five scorers on the team are Bobby Anderson, with 375 points in 23 games for a 16.3 average. Arthur Jordan runs a close

second in the averages, with 341 points in 21 games for a 16.2 average. Running in the third spot is Pete Day with 195 points in 22 games for a 15.8 average. Dropping to fourth place is Bubber Woolf with 199 points in 19 games for a 10.5 average. Alan Saffair finishes out the top five scorers with 195 points in 21 games for a 9.4 average.

"B" Team Defeats All But Chamblee

The STI "B" team has fared a little better than their more experienced varsity brethren, as they have met and downed their opposition, finding only rough going against the Chamblee High School five.

The "B" team, led chiefly by Doug Wall and Larry Hartsell, has played six games since the holidays, winning four of the six. They stopped Oglethorpe "B's," 64-31; UGAD "B's," 59-37; Tucker High School, 48-46; and the Berry "B's," 45-37. They dropped two to Chamblee High School, 35-47 and 39-46.

Southwest Girls Clarkston Boys DeKalb Champs

Clarkston High School captured top honors in the boys' division of the DeKalb County Basketball Tournament at the Southern Tech gym Saturday night, February 13. Southwest DeKalb was in the final spot for the girls' championship.

Druid Hills, runners-up for the boys, went down to Clarkston 43-34. Clarkston's tight zone defense made it almost impossible for Druid Hills to get a shot away, causing the latter team to hit only two field goals until midway of the second period. Druid Hills was able at one time to cut the score down to 26-23, but Clarkston pulled away again to an easy win.

Stone Mountain Downed

In the earlier girls' game Southwest DeKalb upset the favored Stone Mountain sextet 47-44, by a carefully planned defense made to hold down the Stone Mountain high scorers.

The tournament was held again this year in the Southern Tech gym from February 9 through the 13th and was participated in by eight boys' teams and eight girls' sextets.

Gas Fuel Five Leads Intramural League; Civil in Second Place

At the midpoint of the STI intramural basketball season Gas Fuel leads the league, with Civil following closely in second place and BC in third.

Gas Fuel won a tight game over Civil by the close score of 43-42. From the first of the game until into the last quarter Civil held around a 10-point edge on Gas; then the Gas boys began to narrow the margin and finally won by one point. Other teams losing to Gas Fuel were Mech and Protons.

Civil's closest game besides that with Gas Fuel was with the BC department. Although Civil won 52-34, BC was a constant threat until the final minutes.

If BC wins the game when they play Gas Fuel, the lead will be thrown into a three-way tie. De-

pending on this game is the future intramural basketball championship.

At this time fourth place goes to the Protons, with one win, one loss, followed closely by Mech with one victory and two defeats. Industrial has no wins and two losses, followed by the Electrons with a 0-3 record. Either of these teams could still upset any of the top three and should not be taken lightly.

HORNETS TO PARTICIPATE IN TWO TOURNAMENTS

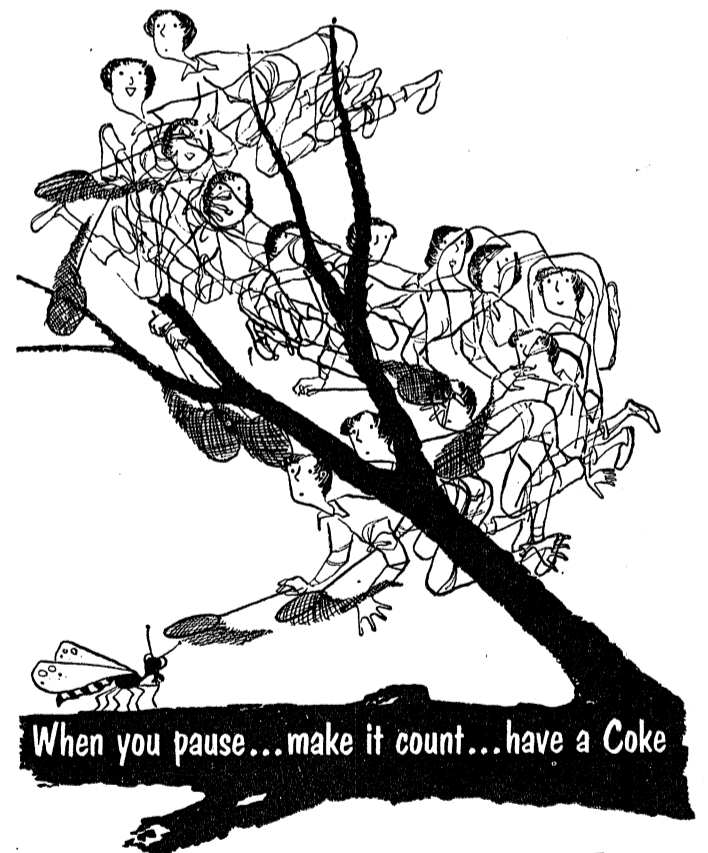

The Southern Tech Green Hornets, while scheduled to end their regular basketball season on Saturday, February 20, will participate in two state-wide tournaments.

The first will be the Georgia State Junior College Championship Tournament to be held on February 24-27. No place has been definitely picked for the event, but Glenwood, North Georgia College, and Clarksville have been mentioned as possibilities.

Twelve teams will participate in the playoffs, and such top-seeded teams as Brewton-Parker, Middle Georgia, and South Georgia are expected to be in the limelight throughout the competition. All the participating teams have shown good records, and the games will certainly be worth watching.

The second tournament, closer to home, is the Georgia Invitational College Basketball Tournament and is sponsored by Southern Tech and the North DeKalb Kiwanis Club. This is the fourth year such a tournament has taken place, and this year it will be held at the Southern Tech gym on March 1 and 2.

To date, there will be four teams to compete for the championship trophy. They are Southern Tech, Oglethorpe, Atlanta Division University of Georgia, and Berry College. Each team will play the other twice, once in the semi-finals and then again in the finals and the consolation game. Prizes will be given each participating team. These prizes range from a large gold trophy for the first-place team down to the game ball for the fourth-place team.
