

Honoree Berl T. Tate

## Log Staff Honors Tate In Yearbook Dedication

By FRED HOON, Log Editor

Each year the yearbook staff solicits the opinion of the student body on whom they deem the outstanding faculty member on our campus to be. This person is selected on the basis of his willingness and unselfishness in giving the student whatever help he can. To this person we dedicate our yearbook, which represents the student body. We are, therefore, proud and privileged to dedicate the 1956 Technician's Log to Mr. Berl T. Tate, who we, on behalf of the student body of Southern Tech, believe to measure up to these standards set forth.

Mr. Tate has been with Southern Tech for over five years. He joined the staff on February 1, 1951, as assistant superintendent of Buildings and Grounds. Soon, however, his teaching abilities were discovered, and he has been called upon nearly every quarter in the last three years to carry

either full or part-time teaching loads. Most important, however, is the fact that he has throughout this time been not only an excellent teacher but also a helpful, understanding, unselfish friend and wise counselor to his students. Those who know him love him for his genial personality, admire him for his abilities, and respect him for his judgment and advice.

In previous years the Technician's Log has been dedicated to the following current members of the faculty: Mr. G. L. Carroll, 1951; Mr. C. V. Maddox, 1953; Mr. R. L. Wilkinson, 1954; and Mr. E. A. Clifford, 1955. The traits which earned these gentlemen this great honor are inherent aspects of each of these persons. We are now happy to add Mr. Tate to this elite group.

Gentlemen, the student body thanks you for your wonderful efforts.

## TECH-ANNES NAME LEADERS MAKE PLANS FOR BANQUET

The Tech-Annes, wives of Southern Tech married students, in business session on April 2, elected a slate of eight officers who will conduct the affairs of the club in 1956-57.

Mrs. Phyllis Aloisio was chosen president; Mrs. Barbara Heaton, first vice president; Mrs. Elenita Holliday, second vice president; Mrs. Jewell Webb, parliamentarian; Mrs. Reinza Boyd, recording secretary; Mrs. Anne Herrington, corresponding secretary; Mrs. D'Ann Perry, treasurer; and Mrs. Pat Hulse, publicity chairman.

In the absence of President June

Haven, Mrs. Joyce Salmeier, parliamentarian, presided over the meeting, which was held in the STI Green Room.

Several other important matters of business were presented, discussed, and settled.

Plans were made for two remaining important events of this school year. One was a tour of Atlanta, which was scheduled for Saturday, April 14, when several cars of members were to visit beautiful, interesting points in and around the city.

The Tech-Annes will climax the  
(Continued on Page 4)

## All Graduates Urged to Attend Annual Alumni Banquet at STI

Southern Tech's Annual Alumni Banquet will be held, and all STI graduates are urged to make plans to attend.

The Technician regrets very much that all details had not been completed by the time this issue went to press so that alumni would know the who, when, where,

what, and how of this enjoyable event.

However, a committee is now at work on plans for the banquet,

and definite information will be forthcoming soon. A letter with full details and a reply card will be in the mail perhaps by the time this issue of the paper reaches the alumni.

The banquet will in all probability be held in the Green Room of the Southern Technical Institute dining hall, as has been the custom in past years. The nature of the program is yet to be determined.

Since the Association president, W. P. Beauchamp, is employed out of the state and cannot be in as close touch with the school and other officers, Alton P. Jensen, STI graduate and now a student at Georgia Tech, is working with a committee to get all plans completed and notices in the mail.

The third officer of the Alumni Association is Harry Kent, Industrial Technology graduate of 1954.

## Awards Winners To Be Honored, Feted on June 1

Southern Tech's Annual Awards Day will be held on Friday night, June 1. This year's event will be very similar to the one of 1955, in that a banquet will be held in honor of students who have excelled in extracurricular activities, science, scholarship, and leadership throughout the years. The banquet will be held in the Green Room of the school cafeteria and will probably be MCed by an outstanding STI student.

By Special Invitation

Students whose work, leadership, and participation merit the awarding of keys, trophies, medals, etc., will be sent a special invitation to attend the event. Included in this group will be members of the Student Council and Dormitory Council, staff members of the Log and The Technician, science, scholastic, leadership, and athletic awards winners; and best-all-around award winner.

School officials especially look forward to making the Awards Day Banquet an outstanding event of the year, to which all winners of honors throughout the year will be invited as guests of the school.

W. P. Beauchamp  
Alumni President

## Ga. Engineering Society Sets Up Award for Outstanding Graduate

Mr. L. V. Johnson, Director of Southern Tech, reveals that the Georgia Engineering Society plans to make an annual award to the outstanding graduating senior of the Institute. This news is viewed by school authorities as a step forward for Southern Tech, as the award is tantamount to the Society's seal of approval being placed on the school's training program.

The award will be presented to the best all-around student, and although an extremely high point average will be helpful, it will not be an absolute pre-requisite. Other factors such as participation in

school activities, ability to get along with people, leadership, and certain other standards set up by the Engineering Society will play a large part in the selection of the student to whom the award will be given.

A committee composed of faculty members will select the outstanding student of the year, who will receive his award at commencement exercises each June.

The award is in the form of a certificate and a \$25.00 gratuity.

Director Johnson, Mr. Hays of the English Department, and Mr. Vaughn of the Building Construction department are members of the Engineering Society.

## 90 Members, School's Largest Class, Eye Graduation, Degrees on June 9

Southern Tech's largest group of seniors ever to graduate in one quarter is making plans and hoping to receive degrees at exercises on Saturday, June 9.

The spring quarter's total of candidates numbers 90, which outnumbers the large class of 62 in the spring of 1952 and last year's spring quarter class of 71.

Of course, these 90 will represent only one of the four groups of graduates to complete their work at Southern Tech within the year. The total number to receive degrees in June is 226, provided all of the spring quarter candidates complete requirements satisfactorily.

In numbers of graduates, Electronics & Communications leads the June class of 90 with 23. Building Construction follows with 16, and Mechanical is third with 15. Other departments follow in this order: Electrical and Heating & Air Conditioning, nine each; Industrial, 8; Civil and Gas Fuel, 5 each. W. H. McBrayer is scheduled to receive a degree in BC and in Civil.

John W. McCullough, a member of the ET department, leads his

89 classmates scholastically with a point average of 3.83, all grades but those of the last quarter in-

## Year of Algebra New Requirement

Southern Tech officials announce through the new 1956-57 catalogue and The Technician a very important change in entrance requirements, effective in September, 1956.

Beginning in the fall quarter, a student who is accepted for admission must (1) be a graduate of an accredited high school or have passed satisfactorily the GED tests and (2) must have to his credit at least one year of high school algebra. Heretofore, Southern Tech has not required this unit of algebra for admission.

Furthermore, the student who enters with only one unit of algebra must take T. Math. 10 (Remedial Algebra) after he enters STI, or prove through passing a rigid examination that he is ready for college algebra.

cluded. Lewis W. Goodman, of BC, is not far behind with 3.79.

Other members who possess high averages and should finish "with honor" or "with highest honor" are Jerry R. Kirk, BC, 3.73; Robert L. English, BC, 3.72; Lewis W. Klinger, E&C, 3.62; Raymond W. Miller, BC, 3.42; Treston E. Vause, Civil, 3.42; Roger D. Stephens, Mech, 3.40; James L. Holbrook, E&C, 3.29; Roger T. Frost, 3.28; Ralph E. Godfrey, ET, 3.27; J. O. Pennington, E&C, 3.23; and Paul F. Hambrick, ET, 3.18.

Names of the June class, listed by departments follow:

### BUILDING CONSTRUCTION

James G. Akins, James H. Cowart, Raymond P. Dale, Robert L. English, Jr., Lewis W. Goodman, Max W. Johnson, Jerry R. Kirk, Carl D. Long, William H. McBrayer, Raymond W. Miller, David D. Morris, William W. Nowell, Carl W. Pearson, Benjamin F. Rogers, Bobby R. Sheheane, and Tommy L. Sutton.

### CIVIL TECHNOLOGY

## Technician Editorial

### Return of Alumni to Employ Grads Is Distinct Compliment to School

Mr. R. L. Wilkinson, STI placement director, announces that business is booming in his office—with many of the nation's outstanding firms calling every day concerning graduates, personnel men visiting at the rate of sometimes a two dozen a week, and many interviews being arranged and held.

One most interesting observation about those calling to interview graduates, Mr. Wilkinson reports, is the number of Southern Tech alumni who are returning to their Alma Mater, as representatives of their companies, to employ more STI technicians.

Mr. Wilkinson sees several major developments in this fact: these returning alumni who have been at work in industry for several years have proved their

worth, have been advanced to positions of greater importance and responsibility, have been entrusted with the duty of recruiting more technical help, and have faith enough in what they got here to return for more products of the school that trained them.

What better tribute could industry pay Southern Tech than this one!

The Technician feels that it all goes to prove that the school has eight sound, substantial, well-designed technical courses; the facilities and the faculty to present the curricula effectively; and leaders who have firm faith in what they are doing, the integrity to hold to a set of worth-while standards, and a high regard for fair play in all their dealings with students. Furthermore, this school holds a promise of an excellent, profitable, secure future to those who have the intelligence, the ambition, and the stamina to see a course through to its successful completion.

### Singers Is What Glee Club Ain't Got Plenty Of

The first meeting of the STI Glee Club for the spring quarter was climaxed with a "Coffee and Donut" snack at Director J. J. DeFore's home on Buford Highway. After the regular Tuesday night rehearsal in the Green Room approximately 20 members of the Glee Club gathered at Mr. DeFore's for a general gab fest and bull session which lasted well into the night. Coffee, donuts, and soft drinks were furnished as refreshments.

Work has begun on a new choral number, "Where or When," as arranged by club member Bob Boyd (BC) of Brunswick, Georgia. This pleasing arrangement of an old favorite is Bob's first attempt at choral work, but he has done orchestration in the past.

#### Throw Out Lifeline!

Director DeFore has again issued a plea for new members for the Glee Club, which is in danger of folding from lack of student participation. The greatest need is for second tenors and baritones, although any voice range is welcomed.

The choral group meets every Tuesday night at 7:30 in the Green Room. Any one who likes to sing, regardless of ability, is invited and urged to attend rehearsals and to join the Southern Tech Glee Club.

### Alpha Beta Club Elects Stringer, Goes Skating, Drives for Members

The first meeting of the spring quarter for the Alpha Beta Society (BC Club) was held April 5.

These officers were elected for the term: Lee Stringer, president; Jerry Kirk, vice-president; Jim Cowart, secretary; Harold Lee, treasurer; and Robert English, secretary of public relations.

The first social held this quarter was an ice-skating party at the Figure-Eight ice skating rink on April 13. The BC and Civil clubs

combined forces for this social to rent the skating rink. A social committee was formed to plan the socials for the spring quarter.

Each member was urged to solicit for new members. The prize for the member responsible for the greatest number of additions for the quarter is to get his dues refunded.

The expectations for the success of the club in membership and activities is great.

### Southern Tech's Spring Quarter Enrollment—603

Total registration for the spring quarter at Southern Tech was 603. This enrollment figure is a 4.8 per cent increase over the 575 who registered for work in the spring of 1955.

Forty-three of the total registration were new students. Nearly half of these are non-residents of Georgia, a rather high percentage, according to Registrar L. Y. Bryant.

Non-veteran students outnumbered veterans by 310 to 293. Only one P.L. 346 veteran remains in school.

#### 42 Graduate

Three reasons help to explain the smaller enrollment than was anticipated: graduation of 42 seniors, failure of a number of accepted students to enroll, and dropping from the list a number of students who had failed to do satisfactory work over the past two quarters.

However, 25 students who had attended Southern Tech at some time prior to the winter quarter, 1956, returned to continue their studies.

### Radio Club Elects Huckeba President

Walt Huckeba, a resident of Sandersville, Georgia, has been selected to lead the Amateur Radio Club during the present quarter. He has been a member of the club for several quarters and has served as president once before. Walt expects to graduate in September.

Other officers elected were: Vice-President, Roger Frost; Secretary, O. P. Hardy, Jr.; Treasurer, W. E. Treadwell; Communications Manager, J. G. Melton; Publicity Manager, C. M. Crawley.

All persons interested in "Ham" radio are urged to attend meetings of the club. The only prerequisite qualification is an interest in amateur radio.

## WITH STI ALUMNI

### Nolan Reed 'Plugs' STI to Others

Robert I. Morgan and Harry Williams, recent graduates of E&C and H&AC respectively, write the Placement Bureau interesting letters about their jobs. And Ted Medernach, of Savannah, informs us of a plan to organize an alumni chapter in his area of the state.

But the letter we choose to print in our "Alumni Doings" this month is a nice one from Nolan Reed, BC grad of several quarters ago. Here 'tis:

Dear Mrs. Wilson:

You may recall that after leaving Southern Tech, I accepted a job as Sales Engineer with the Robertson Company, and I am happy to report that I couldn't be

more satisfied. I certainly feel indebted to the "Alma Mater" for such fine training.

Actually my reason for writing isn't to rave about how satisfied I am with the education (I could carry on about that indefinitely). My real reason is due to the fact that I have unexpectedly found myself in a good position to do a little promotion for placing some of our graduates.

At present my job is to work with architects, contractors, and engineers in designing with Robertson Products, and my territory consists of Alabama and portions of Tennessee, Mississippi, and Florida. On several occasions, during the course of business, I have had an opportunity to discuss the school with my clients. I find that they are deeply interested, and want to know more about the school and its curriculum; therefore, I would certainly appreciate it if you would forward several of your current catalogs for distribution.

Also, aside from the above subject, I have a small confession to make. I'm afraid that I have been extremely negligent in keeping up with alumni dues. In an effort to make amends, and try to live like a good Southern Technician, I am attaching my personal check, which I hope will be sufficient to remove me from "the

Wife: "My husband is not as big a fool as he used to be."

"Getting smarter?" a friend asked.

"No, getting thinner."

Mrs. Jones: "I'm worried about my husband. He keeps dreaming that he's an electric refrigerator."

Psychiatrist: "That's nothing to be alarmed about. A lot of people dream they're something or other."

Mrs. Jones: "I know, doctor, but he sleeps with his mouth open, and that little light shines in my eyes."—Two Bells

And there's the one about the psychiatrist who met another psychiatrist on the street one beautiful morning. Said one to the other—"You're fine. How am I?"

First Comedian: "You know, I passed your house last night."

Second Comedian: "Thank you."

"I shall now illustrate what I have on my mind," said the professor as he erased the black-

Found quite a large mouse in his stew.

Said the waiter, "Don't shout,  
And wave it about.  
Or the rest will be wanting some, too."

### New Catalogue Appears April 13; Subject Numbers Made 3 Digits

Southern Tech's 1956-57 catalogue appeared on the campus on Friday, April 13.

It was dressed in a light brown (Sepia) cover with ripple finish and printed in dark green ink. The new bulletin is the same in size and number of pages as that of 1955-56.

Aside from changes in curricula, not many others appear. Naturally a new calendar was included; some pictures were changed; and in the text a few minor matters were brought more up to date.

The feature of the new book which will perhaps interest—and confuse temporarily—students most is the complete changeover from the two-digit system of de-

signating subject offerings to a three-digit system.

English II, for example, will no longer be designated T. Eng. II; it has become T. Eng. 111. The first "1" indicates that this English is a first-year subject; the second digit indicates the subject area in which it is (Comp. & Rhet.); and the third digit indicates its specific place in the series or subject area.

#### Further Explanation

To further illustrate, T. Eng. 21 (Comp. & Rhet.) becomes T. Eng. 112, because it is the second course in Composition and Rhetoric. T. Eng. 52 (Pub. Speaking), however, becomes 221 because it is a second year subject, the second kind of English offered, and the first course in the second type of English. Likewise, T. Eng. 62 (Tech. Writing) becomes T. Eng. 231—a second year subject, the third kind of English course offered, and the first and only subject of this kind in the English curriculum.

And so on through all the offerings.

To designate better the nature of subjects, a number of descriptive titles have also been changed; course and subject content remain very much the same, however.

red." It will certainly be appreciated if you will direct this check to the applicable fund to enable me to start back to receiving literature and job listings.

Thank you very much for your attention on these matters.

Very truly yours,

J. Nolan Reed, Jr.

7:45 AM

## CLUB NEWS ROUNDUP

### STI Gets Flag, Flagpole Through Toastmasters, Buildings and Grounds

There is no sight more awe inspiring than the American Flag waving gently through the breeze. It reminds us each day that we are still a free nation with rights and freedoms that, unfortunately, are not available to many people in the world today. Our flag is like a badge of courage serving as an everlasting memorial to the

many thousands of valiant men who have laid down their very lives that we might live free of tyranny.

Thanks to the Toastmasters Club and Mr. J. M. Davis, of the Building and Grounds Department, a flagpole has been erected in front of the Southern Tech Administration Building, and on April 19 the U. S. Flag was raised for the first time on the STI campus. This action was wholeheartedly supported by the officials at STI, who welcome this opportunity to show our school spirit.

#### Officers Elected

An installation of officers was held by the Toastmasters Club on April 20. Mr. Fred M. Roughton, the area governor of the Toastmasters, was guest speaker and was in charge of the installation ceremonies.

Carl Carr was installed as the new president; Raymond Bagley, the new first vice-president, Dan Hitt as the second vice-president, Charles Bell as the treasurer, and Tom Sheppard as the secretary. The ceremonies were held at the Delta Restaurant, where dinner was served.

Roy Powell, a member of the local chapter, gave an interesting speech based on his study of Japanese swords. Roy spent many years in Japan and is considered locally to be an authority on the subject of the Japanese sword.

### Mr. Allen Rejoins Institute Staff

At the first meeting of Iota Tau this quarter the following officers were elected: President: Edwin E. Hawkins; Vice-President, Robert C. Gary; Secretary, Willie R. Hampton; Treasurer, Raymond G. Bagley.

The club has initiated a membership drive whose objective is to induce the entire membership of the Industrial Department to join the organization. This is indeed a worthy goal, and it has the wholehearted support of the club membership.

#### To Present Plaque

Enthusiastic plans are underway to secure more chairs for the Industrial lounge and to refinish the present chairs. It is admirable that Iota Tau feels morally obligated to care for the lounge and reflects their fine sense of responsibility and duty.

Beginning this year a plaque will be presented to the outstanding senior. This plaque will be a lasting tribute to the fortunate senior who receives it.

#### Sign Language

Sign on a new lawn: "Your feet are killing me!" Slogan of a venetian blind company: "We stand behind every blind." Name of home of Richard Crooks, famous tenor: "Sing Sing, The Home of the Crooks." Sign in a drug store window: "Try our cold cure. You'll never get any better."

### 90 Seniors Look Forward To Graduation on June 9

(Continued from Page 1)

ton E. Vause, and Donald B. White. **ELECTRICAL TECHNOLOGY** William C. Daniels, Jr., Walter K. Devaney, Jr., Ralph E. Godfrey, Paul F. Hambrick, Jr., Frederick H. Hoon, John W. McCullough, William H. McMurray, Roy T. Powell, and Luzarn A. Turlington.

## 92 Students Make Honor Roll; Archer, Dryden Tops With 4.00

Southern Tech's winter quarter Honor Roll consists of 92 students who achieved this high scholastic distinction by having no failures or conduct offenses and passing at least 15 hours of credit work with a 3.00 average or better.

Two of these outstanding students—William P. Archer (H&AC)

### Iota Tau Chooses Hawkins; To Give Senior a Plaque

Southern Tech welcomes Mr. W. P. Allen back to its faculty. Mr. Allen has been away for the past three years, working with Philco. His work with this company was chiefly concerned with radar missile guidance equipment.

Mr. Allen, who received a B.S. degree in physics from Millsaps, Jackson, Mississippi, feels that his work for Philco has given him a better background as an instructor in microwaves.

#### Here 3 Years Ago

Mr. Allen taught microwaves here at STI in 1951 and 52. At present he is teaching Electrical Technology 59, a construction laboratory course for radar equipment, and Electrical Technology 68, a course in microwaves. Both of these are Electronics and Communications subjects.

Mr. Allen's home-town is Jackson, Mississippi. His hobbies are hunting and fishing with his wife and two boys—Steve, 2, and Preston, 4.

and Eugene D. Dryden (Mech)—outdid all others by attaining perfect records of 4.00. This is about as good as a guy can get.

Many others, however—too many, in fact, to list separately—achieved excellent grades and averages. That all may see and envy, the entire list, with courses and averages, is presented below.

#### MEMBERS LISTED

E. L. Albitz, GF, 3.73; A. R. Allen, E&C, 3.30; Charles Anderson, IT, 3.23; Harry B. Anderson, GF, 3.75; William P. Archer, H&AC, 4.00; Billy E. Bates, IT, 3.00; Albert L. Battle, H&AC, 3.00; Robert C. Beard, E&C, 3.35; William J. Bennett, BC, 3.04; Clifford C. Blaisdell, ET, 3.06; Harold Bonilla, Mech, 3.00; William K. Brinson, E&C, 3.52.

William E. Calhoun, H&AC, 3.42; James T. Ceman, GF, 3.57; Henry A. Chambliss, Civil, 3.00; William G. Clarenbach, GF, 3.21; Charles R. Clayton, E&C, 3.00; Clifton L. Coleman, GF, 3.21; William G. Cooper, E&C, 3.19; Paul M. Counts, H&AC, 3.17; William C. Daniels, ET, 3.00; Norman David, E&C, 3.93; Pearl K. Davis, E&C, 3.41; Wallace N. Davis, E&C, 3.23.

John B. Deans, H&AC, 3.15; William W. Deere, H&AC, 3.18; Ben DeVane, Civil, 3.22; Eugene D. Dryden, Mech, 4.00; Jack E. Edwards, ET, 3.64; Billy B. Elton, BC, 3.33; Robert L. English, BC, 3.63; Roger T. Frost, E&C, 3.85; Ralph E. Godfrey, ET, 3.55; Lewis W. Goodman, BC, 3.76; George F. Green, BC, 3.22; Harold W. Haddie, H&AC, 3.00.

Paul F. Hambrick, ET, 3.94; Robert N. Harding, E&C, 3.36; Johnny L. Hartley, ET, 3.14; Donald E. Holliday, E&C, 3.61; David C. Hornady, H&AC, 3.05; Robert B. Horne, E&C, 3.95; Arthur K. Howard, E&C, 3.66; Robert L. Huguen, ET, 3.90; Charles Z. Hull, E&C, 3.42; Bernard M. Jenkins, E&C, 3.38; Fred H. Johnson, H&AC, 3.20; Roy D. Johnson, BC, 3.30.

Edward E. Jones, E&C, 3.77; Ray A. Jones, H&AC, 3.68; W. R. Kellum, E&C, 3.58; James L. King, H&AC, 3.52; Jerry R. Kirk, BC, 3.88; Louis W. Klinger, E&C, 3.70; Richard D. Landers, Mech, 3.00; George T. Larson, Mech, 3.15; William M. Lasky, E&C, 3.57; Delmar W. Lindberg, E&C, 3.35; Jerry Limer, BC, 3.62; William M. Lindstrom, Mech, 3.10.

Sanford O. Lovely, BC, 3.16; John W. McCullough, ET, 3.84; W. H. McMurray,

ET, 3.50; Raymond W. Miller, BC, 3.42; James E. Moss, E&C, 3.84; Abraham Newfeldt, GF, 3.00; Ray V. Nichols, ET, 3.23; William W. Nowell, BC, 3.00; Stephen M. O'Brien, Mech, 3.60; James O. Pennington, E&C, 3.11; Lloyd E. Perkins, E&C, 3.33; James G. Quakenbush, E&C, 3.33.

William C. Ray, E&C, 3.94; Gayle Riggsbee, Mech, 3.06; B. Franklin Rogers, BC, 3.05; Glen D. Rust, H&AC, 3.00; Walter T. Sheppard, E&C, 3.09; J. Volney Smeeth, E&C, 3.23; Robert A. Smith, Mech, 3.40; J. C. Stepanek, BC, 3.47; Roger D. Stephens, Mech, 3.61; Frank E. Strickland, BC, 3.10; Carter D. Swanson, BC, 3.27; John E. Tomlinson, Civil, 3.00.

Treston E. Vause, Civil, 3.68; Hugh B. Wakefield, E&C, 3.11; George C. Ward, Mech, 3.38; Leonard W. Webb, E&C, 3.00; Don White, Civil, 3.42; Hoyte A. White, E&C, 3.88; Bernard A. Winch, Civil, 3.45; James L. Wood, Mech, 3.06.

### Medernach Hopes To Start Alumni Club in Savannah

Ted Medernach, Jr., graduate of Building Construction in 1955 and now a member of the firm Medernach and Company, of Savannah, indicates through letter to Registrar L. Y. Bryant his desire to start an STI Alumni chapter for the benefit of Southern Tech graduates in the Savannah area.

A list of these graduates has been sent to Ted, as well as a list of the Savannah boys now in school at Southern Tech.

The Technician feels sure that the large majority of these Savannah—STI boys will favor Ted's idea and would like to come together into an organization which could be of much benefit and fun.

Those who are interested might like to call on Ted at 505 Waters Avenue or over the phone at Adams 6-4481.

'Tis a good idea and one Southern Tech hopes will catch on and spread to other cities and communities.

#### GAS FUEL TECHNOLOGY

Kerry D. Estes, Timothy H. Ferris, Carl B. Salmeier, Carl F. Strub, Phillip D. Sullivan.

#### HEATING & AIR CONDITIONING TECHNOLOGY

## Hornets Drop Two Games, Beat Brewton-P'ker, GSWC

### Seymour, Kelly Sharing Pitching Job; Causey, Moog Lead Mates in Hitting

By JAMES KELLY

With wins from Georgia Southwestern and Brewton-Parker and losses to ABAC and Norman Park, the Southern Tech baseball team now holds a 2-2 record.

In the first game of the season the winning pitcher for STI was Tyler Seymour. Though the visitors laced Tyler for 10 hits, the Technicians had two better, while scoring 11 runs to Georgia Southwestern's 6. The leading hitters for STI were Bernard Moog and Fred Trogdon, both hitting safely twice for four times at bat.

With 13 runs and 12 hits Southern Tech won its second game of the season from Brewton-Parker. Max Young was the starting pitcher and allowed only one hit in 5 2/3 innings. He was relieved by Tyler Seymour, who was credited with the win. Leading hitters were Moog and Stringer with 3 safeties each.

In the wildest game this season ABAC defeated Southern Tech

with 10-6-3 as opposed to 8-4-7 posted by the losers. Bryan was the winner, while Seymour took the loss.

#### Bailey Beats Technicians

In the fourth game Southern Tech could not keep up the pace set by Bailey, the Norman Park pitcher, who struck out 13 men during the game. Bud Kelly started for STI and allowed only three hits and one earned run in 5 2/3 innings.

The leading hitters for Southern Tech are Moog with 8 safeties out of 17 times at bat for an average of 0.470 and Causey with 7 for 17 for a 0.412.

This year's squad is made up of Frank Babbit, Bobby Causey, Robert English, Morgan Hollis, Troy Howell, Roy Johnson, Merideth Kelly, Bernard Moog, James Nix, Tyler Seymour, Lee Stringer, Al Summerford, Fred Trogdon, Billy Walker, and Maxwell Young. Chris Crenshaw and Jules Dis-  
muke are the managers.

## Epsilon Pi Chi Club Elects Keith Davis, Plans Busy Quarter

The Epsilon Pi Chi Club held its first meeting of the spring quarter on April 5. Twenty-five members and visitors were present.

Officers for the spring quarter were elected at this meeting. They are:

President, Keith Davis; Vice-President, Richard Dendy; Secretary, William Lynch; Treasurer, Walter DeVaney; Sergeant at Arms, Garrett Jones.

Plans were made for a club social, an initiation of new members, and of the past president, Mr. Jerry Schell and the very talented entertainment, Maduro and Davis from our own campus. Mr. A. L. Steinkamp was guest speaker and made an excellent talk.

Plans are being made to make the Spring Banquet the most successful ever.

## Regents Approve School's Ninth Curriculum—Management Option To Serve Industry's Needs Better

Southern Tech announces a Management Option to their existing course in Industrial Technology. It has been in the planning stage since last September and was approved by the Board of Regents earlier this month.

The new option has several application management courses and background management courses substituted for some courses now existing in the present Industrial Technology curriculum. The purpose of these substitutes is to provide a better background for graduates who may have the opportunity to advance beyond the foreman or primary level of supervision.

A number of STI graduates have advanced well beyond the lower levels of supervision, well beyond the scope of the man-

agerial training that they received at Southern Tech. In fact, at least one Industrial Technology alumnus is well up in the top executive ranks of his selected company. Men showing the personality and aptitude for this degree of advancement should have adequate training available to them.

#### Industry Starts It

Last September several representatives of local industry came to Southern Tech looking for a combination of technical and management training which their foreman could take in order to advance further. Mr. H. L. McClure, head of the Industrial Technology Department, and Mr. R. W. Hays, head of the English Department, conferred with these representatives many times in an attempt to formulate a study program which would be mutually acceptable.

Finally the new curriculum emerged, a curriculum which the Southern Tech administration believes will fulfill both the needs of supervisors already in industry and also the men being trained here for future positions in industry and management.

#### 5 Substitutions Made

The new option substitutes five new courses for old ones. The new courses are Basic Industrial Psychology, Labor Management, Organization and Management, Personnel Training, and a second course in Industrial Safety. These have been substituted for Chemistry, Industry Analysis, Industrial Sales and Purchasing, Seminar, and Small Business Management.

While the only basic science eliminated is Chemistry, those remaining have been rearranged so that only one appears each quarter.

The Management Option will be formally offered to students at Southern Tech and at Georgia Tech Night School next fall, even though it does not appear in the new catalog.

record Mr. Bost has made and hopes it will be an incentive for other STI graduates to attempt this goal.

Good luck, Walter Bost!

## Bost Gets Professional License—School's First

By LEWIS W. GOODMAN

Walter L. Bost, of Kannapolis, North Carolina, a graduate of Southern Tech in March, 1950, has the honor and distinction of being the first graduate of Southern Tech to receive a certificate of registration for the practice of architecture. Mr. Bost received his license in January of this year after successfully passing all the examinations required to obtain the certificate.

After graduation from Southern Tech, Mr. Bost was employed by

#### Topper vs Trulove.

The ping pong doubles will be played on the same order as the singles. The preliminaries must be completed by May 4; the semi-finals by May 8; and the finals by June 1.

In the first round of play McCord and O'Quinn meet Martin and Holbrook; Herrington and Paula take on Farmer and Daniel; Trulove and Ling face Stephens and Rushing; and Smith and Blake play Hooks and Lee.

A. G. Odell, Jr., and Associates, architects of Charlotte, North Carolina, and he is still associated with this company. During the last six years, his experiences have covered various phases of the architectural field. Mr. Bost participated in the designing of Charlotte's new City Auditorium and Coliseum. The Coliseum has gained world recognition, as it is the world's largest unsupported dome, the height of which is comparable to a ten-story building.

Concerning the Building Construction Course at Southern Tech, Mr. Bost thinks the structural courses offered here, when combined with practical experience, are adequate for the architectural profession.

Mr. Bost's advice to Building Construction students who have hopes of becoming architects is to work hard while at school and even harder when on the job. He says you can't learn too much.

Southern Tech is proud of the

## Intramurals Liven With Slate of Spring Sports

With the beginning of the spring quarter at STI several different intramural activities have been provided for the students. These include volleyball, doubles ping-pong, singles ping-pong, and tennis. Tennis is the only remaining activity for which the schedule has not been completed. Anyone desiring to play may sign the list on the bulletin board, Building 24.

In intramural volleyball two contests have already been completed. The winners were Civil and Geechee over Gas Fuel and BC. Mr. Muller, director, states that this year all games are to be played in the Hood Street gym.

The schedules for all intramurals are as follows:

#### Volleyball

All games will be played on Tuesdays and Thursdays or the date indicated.

April 10—BC-Civil  
April 12—Gas Fuel-Geechee  
April 17—Hot Air-Mech  
April 19—Civil-Gas Fuel  
April 24—Geechee-Hot Air  
April 26—Mech-BC  
May 1—Gas Fuel-Mech  
May 3—Geechee-Civil  
May 8—Hot Air-BC  
May 10—Mech-Civil  
May 15—Hot Air-Gas Fuel

## Mrs. Aloisio Leads Tech-Annes in '56 Banquet Planned

(Continued from Page 1)

year's activities with their annual banquet, which will be held on May 19 at the Officers Club on the Naval Air Station. This event is regarded as the most outstanding of the year, when members and their husbands, sponsors and their husbands come together for an excellent dinner, music, and dancing.

Several changes in the club's constitution were approved at the April 2 meeting. One of these was a change in the club flower—from yellow rose to red rose.

A number of new members were received into the club, and a repeated invitation was voiced to all wives of STI students to visit the club and become members.

May 17—Geechee-BC  
May 22—Hot Air-Civil  
May 24—Gas Fuel-BC  
May 29—Geechee-Mech  
May 31—Round Robin Tournament  
Ping Pong Singles

In these contests the games will be played at the convenience of both parties, but the preliminaries must be completed by May 4; the semi-finals completed by May 18; the finals by June 1.

The winner of the semi-finals must win two out of three games. The winner of the finals must win three out of five games.

In the pairings which have already been worked out the first round matches Abraham against Blake, Boyd vs Holbrook, Herrington vs Hooks, Ling vs McCord, O'Quinn vs Paula, Rushington vs Smith, Sheheane vs Stephens, and
