

Technician Takes Backward Glance as STI Reaches 9

By BENNO FRIEDRICH

On March 24, 1957, Southern Tech will celebrate its ninth birthday.

It was only nine short years ago that our school, with a faculty of ten, opened its door to 118 students. At the time there were only three labs in operation with a few nearly completed. The name of the school then was "The Technical Institute." The name was later changed to "The Southern Technical Institute" to give the school some individuality and avoid confusion with other technical schools.

Accredited In 1949

It was in October, 1949, that the Engineers' Council for Professional Development, the national agency which accredits technical institutes and engineering curricula throughout the United States, accredited all the courses offered by Southern Tech. With his recognition the reputation of the school spread to all parts of the South. A movie made by and about Southern Tech has been shown in places as far away as Pakistan.

The first graduates had to hunt for job opportunities and sell themselves to industry. It is encouraging to note that industry was quick to discover the value of a well-trained technician. Soon companies from all over the United States began to interview our graduates. Today our graduates can look forward to good job opportunities at fine starting salaries. The finest tribute to our first nine years are the more than 1200 graduates we have prepared for industry.

Improvements Made

During this the ninth year of our history, we have seen the addition of a new dorm, the publication of a student handbook, and the introduction of the three-digit system of numbering subject offerings, plus many additional improvements. It was in September that our enrollment was around 750 students as compared to the original student body of 118.

In the near future, we can expect to gain the remainder of the Naval Air Station; and through

(Continued on Page 2)

STI to Offer Preparatory Quarter To Those Lacking in Math, Science

Southern Tech officials have sent a special notice to high school counselors, principals, and students announcing that STI will offer, in the 1957 summer term, a special, preparatory quarter of work for the benefit of high school graduates who cannot meet college entrance requirements because of deficiencies in mathematics and science.

This special program will consist of a five-hour preparatory course in mathematics, a five-hour course in physics, and college-credit courses in freshman English and mechanical drawing.

Open To All

It will permit students who plan to attend Southern Tech in the fall to meet entrance requirements, earn five hours of credit, and reduce their study load slightly for the next two quarters to provide increased study time.

The special work is also open to students who need to strengthen their background in math and science but who may be attending college other than Southern Tech. STI officials invite these students to come here for the remedial work if they choose.

STI students presently enrolled are urged to inform high-school graduates at home that such preparatory work is being offered, if they know of young men in need of it.

Yearbook Staff Pitches a Tizzy Meeting Deadline

Examination week found the yearbook staff busily trying to finish the copy for the 1957 Technician's Log to meet the deadline of Monday, March 18. Preparing for examinations and completing the yearbook at the same time caused some hardship and probably much confusion for the staff members.

Editor Dave Morton probably turned in a layout page or two with some of his finals, and if any instructor found a stray photograph among papers turned in by Associate Editor E. W. Clifton; staff members James W. Brittain, Charles E. Cox, George W. Cruselle, or photographer Robert E. Moore, he should return the picture to Mr. Clifton, who really intended to send it to the printer.

Business Manager Bill Carlson, so far as he knows, has not misplaced any ad contracts, but if anyone finds a slip of paper that looks like a contract, Mr. Carlson would be glad to check it to see if it is.

Tyler Seymour and Chris Crenshaw were all disturbed because the camera went haywire while intramural sports pictures were being made. Seymour was last seen on Wednesday, March 12, loaded with photographic equipment. He probably took pictures of his Physics 122 exam. There's no telling what James O. Massey turned in for snapshots. There will probably be much surprise and some consternation when the yearbook is delivered about the last of May or early June.

If the point averages of staff members Joe Anderson, Marvin Hearst, Charles Knox and Ronnie Little wavered a bit, their instructors are asked to be lenient at this particular time, for their intentions were good, and they were working for dear old STI.

625 Predicted for Spring; 60 New Students Expected

Fifty-nine Complete Work on March 16; Three Staff Members Will Not Return

Registrar L. Y. Bryant has predicted an enrollment of 625 students for the spring quarter. Fifty-nine of the 674 students enrolled for the winter term graduated and 30 were expected to drop or be dropped from school. Sixty new students are anticipated.

After the spring recess—March 17 to 24—the term was scheduled to open on Monday, March 25. The same registration procedure was to be used as that in the past.

There were no additions to the staff for the spring quarter. Three members, however, will not return. Mr. C. B. Duke, who has handled the special Telephone Company classes for several years, will not remain at Southern Tech because these classes have been discontinued. Mr. Dewey H. Har-

bin, instructor in the Mechanical Technology Department, resigns to re-enter industry, and Mr. William L. Roney will not return because of the reduced instructional load in physics and mathematics.

Calendar for the spring term follows:

- March 25—Registration.
- March 26—Classes begin.
- March 27—Late registration fees apply.
- March 30—Last day for registration. Last day for adding a subject to study list.
- April 27—Last day for dropping a subject from study list without penalty.
- May 4—End of deficiency report period.
- June 8—End of term.

Plan to Attend The Spring Fling Friday, April 26

Have you heard about the Spring Fling?

Do you like entertainment? Prizes? Dances? If you do, then be sure to come to the Spring Fling on April 26.

The Spring Fling is being presented by the Alpha Mu Sigma, and will be held in the Southern Tech Gym from 8 to 12 P. M. on Friday, April 26. There will be door prizes and entertainment during intermission.

Tickets will be on sale soon, but don't let money bother you; it's only \$1.50 stag or drag.

See you there!

Welcome to STI Fellow Students

We, the student body of STI, take this opportunity to welcome you most heartily. May this phase of your formal education be most happy and profitable. We remind you that the students and faculty stand ready to aid or advise you in any way possible. Please give us the opportunity.

Take advantage of the many extracurricular activities available here. The departmental clubs offer a fine social outlet. Formal organizations such as Toastmasters offer fellowship and invaluable training. Athletics will be very rewarding to those participating.

You are now entering upon one of the most important phases of your lifetime. Make the most of it.

Tech-Annes' Fashion Show Is Colorful Event; Club Makes Plans for Banquet

Models in Fashion Show

L. to r., Elenita Holiday, Lee Babbitt, Anne Herrington, Barbara Rowland, Dolly O'Quinn.

The Oglethorpe University auditorium was the setting on the evening of March 13 for the annual fashion spectacular presented by the Tech-Annes. Modeling the newest spring creations, furnished through the courtesy of the Casual Corner in Buckhead, were five Tech-Annes, along with professional models. Many valuable door-prizes, donated by local merchants, were given away at this event, which was attended by around 200 people.

The last business meeting of the Tech-Annes, scheduled for April 11, will bring to a close three years of successful club life for Southern Tech students' wives. Club officers for the coming year will be elected at this meeting, which will be held in the STI Green Room. A committee consisting of Jewell Webb, Dewese Evans, and Pat Yeager will suggest possible changes in the club's constitution, which was drawn up

TECHNICIAN EDITORIALS

Journal Editorial Suggests Some Effects of College Entrance Exams

The Atlanta Journal

High school students with sensitive antennas should be getting a clear signal that hard study and good marks can't be laughed off as unimportant any more.

A mere passing grade may be a serious handicap to the student who wants to continue his education in college.

Increasingly, institutions of higher learning are screening their applicants, and insisting on quality rather than quantity. Entrance examinations are being used to eliminate those students who are least desirable scholastically.

Such a system will make it pretty tough on a student accustomed to coasting along and not worrying too much about absorbing knowledge.

Successful applicants will have to know how to spell, work mathematics problems and exhibit other scholastic skills that haven't always been the mark of a college student.

Family influence, money or social standing will tend to figure less prominently in whether a student is accepted for a college berth.

With such prospects facing the teenagers, it may even become stylish for them to study. For

parents and teachers this would mean that the millennium had arrived.

A Little Initiative Can Uncover More Job Opportunities

"Nothing ventured — nothing gained." This is an old quotation that applied to many of us who are graduating.

Certainly everyone has a desire to live and work in a particular community. Then why not go to the community, if it doesn't come to you? By waiting for the jobs that come through the placement office, a person limits himself to the people who are familiar with Southern Tech. By seeking a town of your choice, you stand to gain for yourself, as well as familiarize other industries with Southern Tech. This will help the placement office and graduates of future classes.

Therefore, pick up your pen and paper and use the tools acquired at STI. Write these companies and let them know that a good technician is available. Your initiative and ambition can open the doors to a larger number of desirable jobs.

Some Facts and Figures Revealed As School Observes Its Ninth Birthday

Southern Technical Institute began actual operation — teaching students, that is — on Monday morning, March 24, 1948, though much preliminary work was essential before the doors could be opened to students.

One hundred and sixteen students took the chance and enrolled for work. Since that quarter 3281 have enrolled and taken work lasting in time from one day to graduation, sometimes a matter of 12 quarters. STI's largest enrollment was the 735 in the fall of 1956.

Of these 3281, 1280 men and women have received degrees in the eight fields taught. This means that only 39 per cent of all who have studied at Southern Tech graduated. It must be added that the 1280 includes many students who remained to obtain two degrees.

Though Southern Tech has enrolled a number of women students through the years, only four completed all requirements and received a degree. Two of these, Miss Barbara Hudson and Miss Elizabeth Melton, graduated in Building Construction Technology. Mrs. Elizabeth Newbury qualified for her degree in Electronics and Communications with one of STI's highest point averages. And Miss Marian Tsai, native of Formosa, did her work in Gas Fuel Tech-

eral other national committees concerned with educational policies. Miss Hudson and Miss Melton acquired husbands as well as degrees in their stay at STI.

The smallest number of graduates finished work in June of 1949, when seven students qualified for diplomas. STI's largest graduating class was that of June, 1956, when 90 men were awarded degrees.

Number of graduates by departments divides up like this:

Building Construction	212
Civil Technology	87
Electrical Technology	111
Electronics & Communications	284
Gas Fuel Technology	110
Heating & Air Conditioning	149

The CORN CRIB

A true music lover has been defined as a man who puts his ear to the keyhole when he hears a girl singing in the tub.

Vocational Adviser to young man: "Your vocational aptitude test indicates that your best opportunities will lie in a field where your father holds an influential position."

"Why, didn't you get a hundred per cent on your exam?" asked the disappointed mother.

"I had a period upside down," explained the annoyed son.

Glorious Opportunity to Get Rich

We are starting a cat ranch in Lacon with 100,000 cats. Each cat will average 12 kittens a year. The cat skins will sell for 30c each. One hundred men can skin 5,000 cats a day. We figure a daily profit of over \$10,000. Now what shall we feed the cats? We will start a rat ranch next door with one million rats. The rats will breed 12 times faster than the cats. So we will have four rats to feed each day to each cat. Now what shall we feed the rats? We will feed the rats the carcasses

Faculty Sketch What They Think STI Needs Most

A great deal has been said about Southern Tech's achievements over the past nine years, maybe not enough concerning the needs of STI in the future. Your Inquiring Reporter approached several members of the school's staff with the question, What Does Southern Tech Need Most? Some interesting answers were obtained.

Dean Maddox states that a permanent campus and adequate facilities come first on his list. Included are modern classrooms, labs, and living accommodations; an athletic field; a modern gym and more parking space.

Dean Carroll feels that better salaries for teachers would assure keeping STI's good men and making possible employment of better-qualified teachers.

Mr. Wilkinson thinks that there should be among STI students less emphasis upon high salaries, fringe benefits, overtime pay, etc., and more upon doing high quality work with the job at hand.

Mr. Carter wishes for a higher quality student scholastically — one capable of learning with less effort the fundamental principles of mathematics and science.

Mr. Steinkamp thinks Southern Tech's greatest need is better student morale and school spirit. He too feels that too much emphasis is put upon high salaries and not enough on individual growth and quality of work done.

Industrial Technology	133
Mechanical Technology	194

TOTAL1280

Ten instructors and two administrative officers were on hand in March, 1948, to handle the teaching and other school affairs. Now the faculty and the administrative staff number 50.

Eight of the original 12 staff members are still in service at Southern Tech. These men are Director Johnson, Registrar Bryant, Dean Carroll, Dean Maddox, Dean Crawford and Department Heads Arnston, Orvold and Taylor.

of the cats after they have been skinned. Now Get This! We feed the rats to the cats and the cats to the rats and get the skins for nothing.

The Colonel had called a private up for a dressing-down.

"Yesterday, when I passed you on company street," asked the Colonel, "why didn't you salute me?"

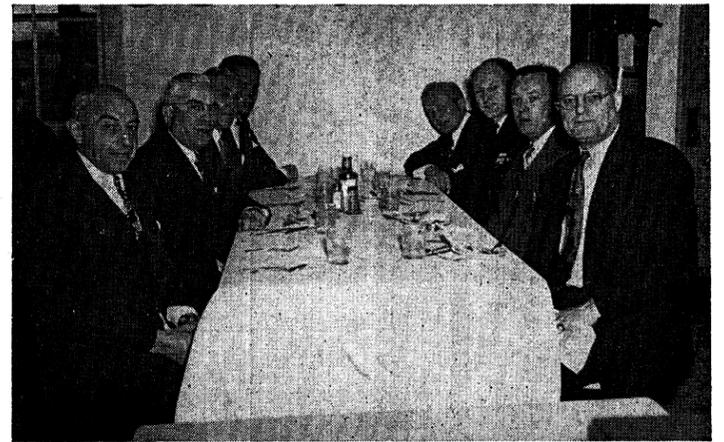

"Well, sir," said the private, "I guess I just didn't see you."

"Thank heavens!" said the Colonel acidly. "I was afraid you were mad at me."

Posted at the Pentagon: If you could kick the person responsible for most of your troubles, you wouldn't be able to sit down.

The village blacksmith had just hired an assistant, and was instructing the boy in his new duties. "Now," he said, "I'm going to bring this horseshoe from the fire and put it on the anvil. When I nod my head you hit it with this big hammer."

The assistant did just what he was told, and now he's the village blacksmith.

Birthday Luncheon On March 24, 1948

Technician Takes Backward Glance as STI Reaches 9

(Continued from Page 1) this increase in our campus we will be better prepared to handle the growing number of students coming to Southern Tech.

Seldom if ever has a school grown so fast, done so much, and gained as good reputation as Southern Tech has in its nine-year history. The reasons for our success include the need for technicians, the support of industry, the excellence of our staff and

Mr. Bryant is of the opinion that a closer transportation tie-in with the City of Atlanta would be of tremendous benefit.

equipment, and the sound, specialized courses offered.

But remember that no matter how good our school or what its reputation, you can get all that it offers to you only if you work for it and yourself. If our school is to continue to grow and improve, we must match and improve upon the job done by those who have gone before us.

So on this ninth birthday of the Southern Technical Institute, let us all resolve to work toward a finer school and hope that on future birthdays our record will stand as a goal to the classes to come.

Survey Shows Camels Are Nation's Favorite; STI Likes Chesterfields

By James Bullington

A spot-check of the various kinds of cigarettes smoked on the campus by STI students shows that Luckies are the leading brand, with Camels coming in second, Philip Morris third, Pall Mall fourth and Chesterfield fifth.

Actually Chesterfields were being smoked more than the other brands, but this was not the regular brands smoked by the students. Recent cigarette sales on the campus were responsible.

Most of the students do not have what you call a regular brand. Most prefer to swap around to get the benefits of all types of cigarettes. Of course, they always go back to a certain brand, which is what the survey is based upon.

Camels Lead Nationally

The National Survey shows that the five leading brands in the nation are Camels, first; Luckies, second; Pall Mall, third; Chesterfields, fourth, and Philip Morris, fifth. However, when we made comparisons with local tastes, this order of preference did not hold true.

Last year the cigarette industry regained the set back in sales it suffered from the 1953-1954 period. During that time, after 21 years of uninterrupted growth, domestic sales dropped from 394.9 billion in 1952 to 368 billion in 1954. A government study showed the reason for this decline and estimates that 1.5 million people stopped smoking because of possible injurious effects.

Recent trends are toward filter

smoking. The biggest percentage of STI students, however, prefer the non-filter type or the king size. According to national standings the filter types are here to stay, or so industry says.

Winston's continued its sensational gain by jumping from 20 to 30 billion, displacing Brown and Williamson's Viceroy, the long-time leader. Liggett and Meyer's L & M took third place with an increase in sales of 54.2% which, by the way, is the third year in a row for L & M. Fourth place went to Philip Morris' Marlboro, which had the biggest gain and a larger percentage, with a jump from 6.5 billion to 13.1 billion, a percentage change of 107.7 per cent.

King-Size Lose

Only two of the king-size brands held their own overall and there was a drop of 6% for the first time, and for the first time more filters than kings were sold. All kings showed a loss except Pall Mall with 2.7. Raleigh held their own. All others showed losses to confirm the trend toward filters and bear out industry views that filters are here to stay.

However, with the losses in king sized sales the increase in filter offset this, and for the first time kings and filters accounted for about one-half of the cigarette sold. Of course, these are a lot of facts and figures taken on a national basis; and as far as STI smokers go, they just do not hold true to the survey.

Toastmasters at Recent Banquet

Toastmasters Hold Term Banquet Invite New Men To Share Benefits

The Southern Tech Toastmasters held their quarterly banquet at the Piedmont Legion Post No. 3, adjacent to Piedmont Park, on Saturday night, February 16.

Most of the members brought their wives or dates. A short familiarization program was presented, which was thoroughly enjoyed by guests and members.

According to the club's officers, the Toastmasters have made much

progress this quarter, and the coming quarter promises even greater strides forward.

There is room for approximately 15 new members who are interested in improving their speech and leadership abilities through sincere effort, since these two points are the main objective of this organization, recognized as one of the most beneficial on the STI campus in terms of concrete results.

STI Glee Club Looks Forward To Spring Tour

All 20 members of the Southern Tech Glee Club, accompanist Reynolds Nelson, and their director, Mr. J. J. Defore, are looking forward with much enthusiasm to the spring tour being planned by the group.

Their itinerary is not definite yet, but the tour will take the Singers to a number of high schools principally in the southern part of the state. Dates are rapidly being confirmed and arrangements made.

The Glee Club features a quartet made up of Gerald I. Thompson, Morris McClure, Bill Smith and Prof. William Hurst. Gerald Thompson is also the club's baritone soloist and appears in this role in several numbers.

45-Minute Program

The planned program is 45 minutes in length, encore time additional. In their repertoire are a trio of spirituals—"Dry Bones," "The Begat," and "Walking My Baby Back Home"—sung by the quartet, and many other favorites:

(Continued on Page 4)

Mech Department Achieves Clean Sweep in Elections

A Clean Sweep!

L. to r., Landers, Massey, Kown, Snow.

The Mech Department made a complete sweep of the class officer elections held here at Southern Tech in late February. This fact indicates the full participation accomplished by the Mech De-

partment in backing their candidates.

All of the newly elected officers are active members in the Alpha Mu Sigma Fraternity. They are Jim Massey, senior president; Richard Landers, senior vice-president; W. J. Kown, freshman president; and Ronald Snow, freshman vice-president.

Jim Massey is from Bowman, Ga., and now in his fifth quarter. He is an officer in the Mech Club and a member of A.S.T.E.

Dick Landers is from Atlanta, Ga. He is a past officer of the Mech Club and now holds office in the A.S.T.E. He is also a member of S.A.M.

William Kown is from Cartersville, Ga. He is a member of the Mech Club, A.S.T.E., and the Student Council.

These officers will serve for the remainder of the school year.

MORE CORN

A woman doesn't have to chase a man, to share his name. The mouse-trap doesn't chase the mouse, But it gets him just the same.

"I shouldn't have eaten that missionary," Said the cannibal with a frown. "For this gastritis tells me— You can't keep a good man down."

She: "You remind me of the ocean."

He: "Wild, romantic, restless?" She: "No, you just make me sick."

Woman driver to companion after parking car: "That's close enough—we can walk to the curb."

They call it "legal tender," That green and crackling stuff. It's tender when you have it. But when you don't it's tough.

Wolf No. 1: "Stay away from that girl. She has nothing upstairs."

Wolf No. 2: "Maybe not, but what a staircase!" In Transit

The dentist told the millionaire Texas oil man that his teeth were in perfect condition. "But I feel lucky today," pleaded the Texan, "drill anyway!"

Iota Tau Honors Winter Graduates

Members of Iota Tau and their wives gathered on March 8 at the American Legion Post No. 1 for a dinner in honor of the Industrial Department's graduating seniors.

The faculty members, students and their wives and dates gather each quarter for the farewell social. The graduating seniors—J. S. Davis, Ralph Keller, J. C. Rushin, and Pat Milikin—each made a farewell speech. The dinner was concluded by a talk from Mr. Hoyt L. McClure, Industrial Department Head.

After the dinner, part of the group attended a dance which featured Billy DeCoats and his orchestra.

ASTE Elects New Slate of Leaders

Members of the STI chapter of the American Society for Tool Engineers elected a new slate of officers at their dinner meeting held March 6 at Verillo's Restaurant.

The Society's new chairman is Gene Yoham, who will preside at meetings and lead in the affairs of the group for the coming year. First vice-chairman is John Tucker and second vice-chairman is Wilson Kown. Jim Massey was elected secretary and Herbert Cole treasurer.

All Life's Problems Solved Through Taking Advice of High-Powered Ads

Do you have a problem?

Is it girl trouble? pink toothbrush? loss of social prestige? 5 o'clock shadow? midriff or hindriff bulge? aching corns? balky car? tooth decay? loss of pep? pain in the neck? sleepless nights? a rough puff in your smoke?

Well, take heart, my friend; stop worrying! Life can be sweet, simple, and beautiful—if you will do just one thing; to wit, purchase (if you are able) a recent copy of an up-to-date magazine of approximately 342 pages (300 of ads and 42 of reading material), thumb through its contents, and discover a pictorial, technicolored solution to your every problem.

Girl Trouble

If it is girl trouble that's worrying you, perhaps you should change your razor blade, style of shirt, or shoe polish, or slick your hair down with Vaseline Hair Tonic, or use Mennen's, or sprinkle your coat collar with dandruff-removing Listerine (perhaps a couple of swigs of it would put you more at ease, too). Barbasol has been known to attract to a guy an avalanche of beautiful, scantily clad women.

If it's boy trouble, all a gal has to do is to get a few bars of Lux, Life Buoy, Palm Olive, Sweetheart, Camay soap (it doesn't seem to

make much difference which make), give the lovely carcass a going-over, and she's established. If these fail, though, Arrid might help. And if she definitely wants to be engaged, Ponds, of course, is the answer. Duz might be simpler, however, because "Duz Does Everything." And remember, girls a hand that hasn't been lotionized with Jergens just isn't worth holding!

And isn't it amazing what preservation, salvation, conservation the cigarettes offer. Camels protect the T-zone (not a single case of throat irritation, you know), Pall Malls give greater length and guard against throat-scratch, Marlboros are growing hair on the chest of weaklings, filter tips are snatching men and women from the grave, Kools and others are giving the refrigerated smoke.

If you have lost your zip, there's nothing to it. All-Bran will get you going; Pep, Wheaties, Cream-O-Wheat will keep you that way. Florida grapefruit juice, they say, will have women sitting on your lap. If you need exercise, shake on a few drops of Vitalis and get that "60-Second Workout." If it's sleep you need,

try a shot of Ovaltine. Or jump between a pair of Pepperell sheets and you won't have to count sheep. Tums ("for the tummy") are also a well-known soporific, if acid indigestion is the robber.

But this could go on for 300 pages—or forever. You get the idea, though. If you have problems, get that magazine, recline on the couch, thumb through its pages, and let the advertisements make life sweet, simple and beautiful for you.

H&AC Club Enjoys Varied Activities

Eta Alpha Gamma, the Heating and Air Conditioning Club, recently held an enjoyable party at the Officers Club at the Naval Air Station . . . Officers for the Spring Quarter will be elected at the first meeting next quarter. . . The club basketball team defeated all opponents in the Intramural League . . . Some members of the department recently took field trips to Rich's and Frigidaire . . . Pictures and paintings have been put up in the lounge along with a bulletin board.

Tau Alpha Pi Accepts 11, Chooses Smith President

The green and gold ribbon some of the students were wearing around on the campus recently was an indication that they had been granted membership to Tau Alpha Pi Honor Society.

John G. McDaniel, H&AC; Powell M. Davis, H&AC; Richard M. Barksdale, Civil; Gene A. Yoham, Mech; Marion J. White, ET; Paul E. Beecham, BC; C. C. Yeager, BC; Jerry M. Wheeler, Civil; E. D. Bass, E&C; R. A. Walling, ET; and R. L. Collins, GF, were the 11 members formally accepted into Tau Alpha Pi on the evening of February 21.

The new members were sworn in and received a key to the fraternity. After the ceremony, the fraternity invited all the mem-

bers out for dinner at one of the local restaurants. While everyone was waiting for the food to be served, Mr. Dane Lane had a wonderful initiation program. Each new member was given a prepared topic to give a speech on. Two less fortunate members had to sing the text of a menu to the tune of "Love Me Tender." Speeches, music, and dinner were enjoyed.

New officers of the fraternity have been elected. Joseph V. Smith was chosen president; Donald E. Holliday, vice-president; Joseph C. Stepanek, secretary and treasurer, and Walter W. Walker, public relations officer. The new officers have agreed to promote and carry out the interests of the members of Tau Alpha Pi for the coming year.

Baseball Practice Begins; Promising Squad Reports

All But Four 1956 Lettermen Back;
12-Game Tentative Slate Announced

STI's baseball team has already begun their spring workouts in preparation for the coming season. A good team is expected, as all but four of last year's lettermen are returning, along with many good-looking freshmen prospects. Because of bad weather, the try-outs were held in the gym, with a surprisingly large group on hand.

STI's conference record last season was 9 wins and 4 defeats, to

place second in the state.

All home games will be played in the Dust Bowl behind the STI gymnasium. Because of the large attendance last year, plans for obtaining seating facilities are now being made.

If anyone is still interested in trying out for the baseball team, contact Coach Lockhart in Building 24.

Listed below is a tentative schedule of the 1957 season.

Sat. March 30	Middle Georgia	Cochran
Tues. April 2	Truett-McConnell	Home
Fri. April 5	Middle Georgia	Home
Tues. April 9	West Georgia	Home
Fri. April 12	Abraham Baldwin	Tifton
Sat. April 13	Norman	Norman Park
Fri. April 19	Norman	Home
Sat. April 20	Berry (2 games)	Rome
Tues. April 23	West Georgia	Carrollton
Fri. April 26	Truett-McConnell	Cleveland
Tues. April 30	Gordon	Barnesville
Wed. May 8	Gordon	Home

Bunting Practice in Spring Drills

Young Harris Wins JC Cage Title; Hornets Eliminated in First Round

Southern Tech's basketball team was edged out by Truett-McConnell 80 to 79 in perhaps the most thrilling game of the State Junior College Tournament opening round. The tournament was held in Macon February 19-23.

Truett-McConnell led Southern Tech 47 to 44 at halftime, but STI took the lead early in the second half and held it until the final second of the game, when Truett-McConnell scored to edge out STI 80 to 79 to end the game.

Don Smith, of Southern Tech, and Howell Tatum, of Truett-McConnell, put on a torrid scoring duel, each getting 33 points.

Top-seeded Brewton-Parker, seeking its fourth straight State title, bowed to No. 5 seeded Young Harris, which went on to defeat

Georgia Southwestern to become the State Junior College champions. Young Harris won the junior college title in 1953; in both 1954 and 1955 they finished second.

Tech-Annes Express Thanks for Prizes

The Tech-Annes wish to express their appreciation for the many valuable gifts which added to the success of their fashion show on March 13.

Those making donations were The Casual Corner, Hair Styles by Howells, Flowerland Greenhouse, Cherokee Gift Shop, Wilson's Appliance Center, Castle-

Don Smith Sets New STI Scoring Average of 22.1

Big Don Smith, 6' 4" center, set a new Southern Technical Institute scoring record with a 22.1 point average per game during the 1957 season. The old record was 19.6, set by C. H. McDaniel in 1952.

Don has an effective one-hand jump shot, and has a hook that is hard to guard. He was graduated from Thomasville High School and is a member of STI's Industrial Department.

Complete scoring statistics follows:

Name	Pts.	Games	Average
Smith	531	24	22.1
Causey	281	25	11.3
Ebbitt	256	24	10.7
Herrington	252	25	10.2
O'Quinn	127	16	7.8
Davis	176	24	7.34
Larkin	54	7	7.72
Akins	12	6	2.0
Mullen	6	5	1.2
McWilliams	9	9	1.0
Seabolt	0	9	0
Cameron	0	5	0

All of the players named above earned a letter in basketball.

berry's, Walker's Beauty Shop, Davison's, Big Apple Super Market, McCoy's, Clairmont Pharmacy, Dogwood Ceramics, Allen 5 & 10c, Dogwood Dining Room, Community Grocery, Skyland Pharmacy, Economy Auto, Haverty's Furniture, Magic Carpet, Inc., Buckhead Hardware Co., Holiday House, Miller's Book Store, Buckhead Department Store, Charm Shop, and Tuxedo Mart.

Fashion Show Colorful Event

(Continued from Page 1)

by club members under the supervision of Mrs. L. V. Johnson, wife of STI's director.

Plans will also be made for the Annual Banquet which is to be held in May at the Officers Club of the Naval Air Station in Chamblee. This affair is considered the most outstanding social event of the year.

On March 7 the Club enjoyed having Mrs. Patterson of the Flowerland Greenhouse in Chamblee discuss and demonstrate "Corsage Making." Each wife amateurishly assembled a corsage from a variety of spring flowers furnished by Mrs. Patterson.

If you are looking for a helping hand, you will find none better than the one at the end of your arm.

Glee Club Looks Forward To Tour

(Continued from Page 3)

"Barcarolle" from Tales of Hoffman, Fred Waring's arrangement of "Battle Hymn of the Republic," "Autumn Leaves," "April In Portugal," "Let Every Tongue Adore Thee," "Come Where My Loves Lies Dreaming" and the Club's feature number, "Seeing Nellie Home."

Rehearsals will be held Tuesday, Wednesday, Thursday and Friday nights of this week in preparation for the tour and for the Glee Club's first off-campus

appearance scheduled for Thursday night, April 4.

Lockwood Shoots 22 As Hot Air Downs All-Stars

Hot Air, the Intramural Basketball champs, met a strong All-Star team in a hard fought game to officially end the basketball season. Hot Air retained their un-

defeated crown by downing the All-Stars 42 to 32.

The All-Star team was made up of the 10 best players from the other intramural clubs. They took the lead in the first quarter, but Big Bill Bauknight and Slim Greer started controlling the rebounds, and Harry Lockwood started hitting from all over the court to capture the lead for Hot Air, which they kept for the remainder of the game. Lockwood was high scorer of the game with 22 points.

Players for the All-Stars were Summerford (Macon), Rushing (Macon), Hovey (Mech), Barksdale (Civil), Brooks (Civil), Willis (E&C), Davidson (E&C), Kelly (Macon), Cook (Mech), and Drakulis (Mech). The managers were Howell (Macon) and Powell (Circle K).

STI To Compete In JC Tennis, Golf, Track Meets

Coach Harry Lockhart announces that a Georgia Junior College track meet will be held in Macon on April 4 and that a tennis-golf meet will be held in Barnesville on May 10-11.

Southern Tech, according to Coach Lockhart, will be represented in these events. The plan is to hold departmental elimination tournaments in golf and tennis and track events on the campus. The participants to attend the junior college meets will be chosen from the winners in the campus events.

"COKE" IS A REGISTERED TRADE-MARK. COPYRIGHT 1957 THE COCA-COLA COMPANY.

It's a puzzlement:

When you're old enough to go to college,
you're old enough to go out with girls. When
you're old enough to go out with girls, who needs
college? Oh well, there's always Coke.
