KENNESAW JUNIOR COLLEGE

NOVEMBER 7, 1967

VOL. II NO. III

## Myatt Wins First Student Election

The results of the first Kennesaw Junior College Student Government Association elections are now official. The new officers for 1967-68 are Robert Myatt, president; Louise Bishop, vice-president; Margaret Smith, secretary; and Joyce McClure, treasurer.

October 23 was the date for the elections. Those running for office were:

For President: Ruth Beggs, Terry Hughey, Robert Myatt, and Billy Sutton

For Vice - President: Sandra Adkins, Louise Bishop

For Secretary: Maggie Smith  
For Treasurer: Joyce McClure, Freda Stewart

For Sophomore Senators: Larry Adams, Dianne Bryan, Cynthia Skidmore, Betty Thom, Lynda Bernard.

The absence of a clear majority between the vote tallies of the two leading candidates for president, Terry Hughey and Robert Myatt, necessitated a runoff for that office. The runoff was held October 26.

The Sophomore Senators were elected "in toto" due to the absence of any opposition to that office.

The Civitan Club was in charge of election polls.

Bob, who lives just across the lake from the college, was born in Raleigh, North Carolina. He was graduated from Georgia Military College, Milledgeville, and while in high school served as a representative to the Student Government, was in Drama Club, Glee Club, on the Rifle Team, and ran cross country. He was also a member of the Association of the U.S. Army.

During the summers he served with the Y.M.C.A., for three years as Counselor and one year as Tripping Director.

At Kennesaw Bob became a charter member of Circle K, Civitan Club, the Music Club and MSU, and served as President of the Drama Club. At present he is Business Manager of the Sentinel.

Dentistry is Bob's major.

Louise (Lulu), who is from Marietta, was born in Cartersville, Georgia. She graduated from Marietta High School, where she was treasurer of the band and on the Spirit Committee.

During KJC's first year, Lulu served as Feature Editor of the Sentinel, and this year she is serving in the capacity of Editor-in-chief. She is a member of the Civitan Club and MSU here at KJC, and is also a member of

**BOB MYATT**  
President

Roswell Street Baptist Church, where she is secretary of her Sunday School class. Lulu also works at Atherton Drug Company in Marietta.

Maggie, sophomore at Kennesaw was born in Danville, Vir-

**LOUISE BISHOP**  
Vice President

ginia. She graduated from Marietta High School, where she was a majorette, flutist, a member of D1-90's Social Club and a member of Beta Club.

Maggie is a psychology major.

**MAGGIE SMITH**  
Secretary

**JOYCE McCLURE**  
Treasurer

Joyce, who was born in Atlanta, graduated from South Cobb High School. While in high school she was active in Beta Club and Math Club, and played basketball, volleyball, softball, and tennis.

## Publications Present Swinging Medallions

The Swinging Medallions, the nationally celebrated rock group, will be the featured highlight for the Christmas Dance at Kennesaw Junior College this year. The Swinging Medallions, who hit the top of the nation's record charts with their single record "Double Shot," will perform on campus in the Student Services Building on Friday, December 1.

The dance will be semi-formal, cocktail or after-five dresses for girls and coats and ties for boys.

The theme of the dance will reflect the Christmas spirit and give the students an opportunity to celebrate BEFORE exams begin.

Admission to the dance will be free of charge on presentation of student I.D.'s. The joint efforts of the MONTAGE and SENTINEL staffs will sponsor this Christmas dance which will last from 8:00 P.M. to 12:00 P.M. It is hoped that student participation will be excellent.

## Students Plan Trip To Europe

Would anyone like to go to Europe?

A group of Kennesaw Junior College students will be leaving August 26, or shortly after the end of summer quarter for a European trip.

England, Copenhagen, and Rome are on the tentative itinerary.

This three-week tour is not college sponsored but is being arranged by Mr. James Keith. Any students interested should contact him in his office.

A sufficient number of interested students is necessary for the tour to be successful.

The intention is to keep costs as low as possible.

## Consult Advisor Before Registration Day

A new system of academic advisement will be initiated the week of November 13 through 17 for those students planning to enroll for the winter. The plans have been given as follows.

All sophomores planning to enroll winter quarter will be advised the first two days of the week, November 13 and 14. Freshmen will be advised the last three days, November 15, 16, and 17.

The freshmen who met an academic advisor at the Orientation Program before the fall quarter began will meet with the same advisors they met with at that time.

Students who have not been assigned advisors will have advisors assigned to them according to their particular program of study. Students uncertain of their program of study will meet with the staff of the Office of Counseling.

Students are urged to be prompt in taking part in these sessions. The time cards for registration will be issued only after the academic advisement procedures have been completed. Students who do not meet with their academic advisors will have last choice of a time to report for registration.

## THE TEMPEST COMES TO MARIETTA

On Friday, November 17, at 8:00 P.M. in the Marietta Fine Arts Building, The American Classical Theatre will perform William Shakespeare's, "The Tempest."

Performed by a professional company, the production has been directed to recapture the magic and beauty of this mature play. An enchanted island, a book of magic, strange and unnatural creatures, kings and clowns,

fools and wise men create an evening of "such as dreams are made of."

Featured members of the cast are Vic Cavallaro as Alonso, King of Naples; Maggie Peach as Miranda, Prospero's daughter; Eve Sigaloff as Ariel, an airy spirit; and Roland Chambers as Caliban, a savage and deformed slave.

Tickets are now being distributed free of charge in the Student Services Building. Everyone should make plans to attend now.

## ROTC Recruits On Campus

A team from the University of Georgia Air Force ROTC will be here Wednesday, November 8, to discuss and give details about your opportunity to get a commission in the U.S. Air Force through ROTC.

Now is the time to begin working toward that Air Force commission through the new Air Force Two-Year Program.

## May And Stapleton Teach Parents New Math

Kennesaw Junior College is offering an opportunity to parents of elementary school children. A course, "New Math for Parents," will be taught in the library for four evenings, beginning Nov. 7. Classes are scheduled from 7-9 p.m. on Nov. 7, 9, 14 and 16.

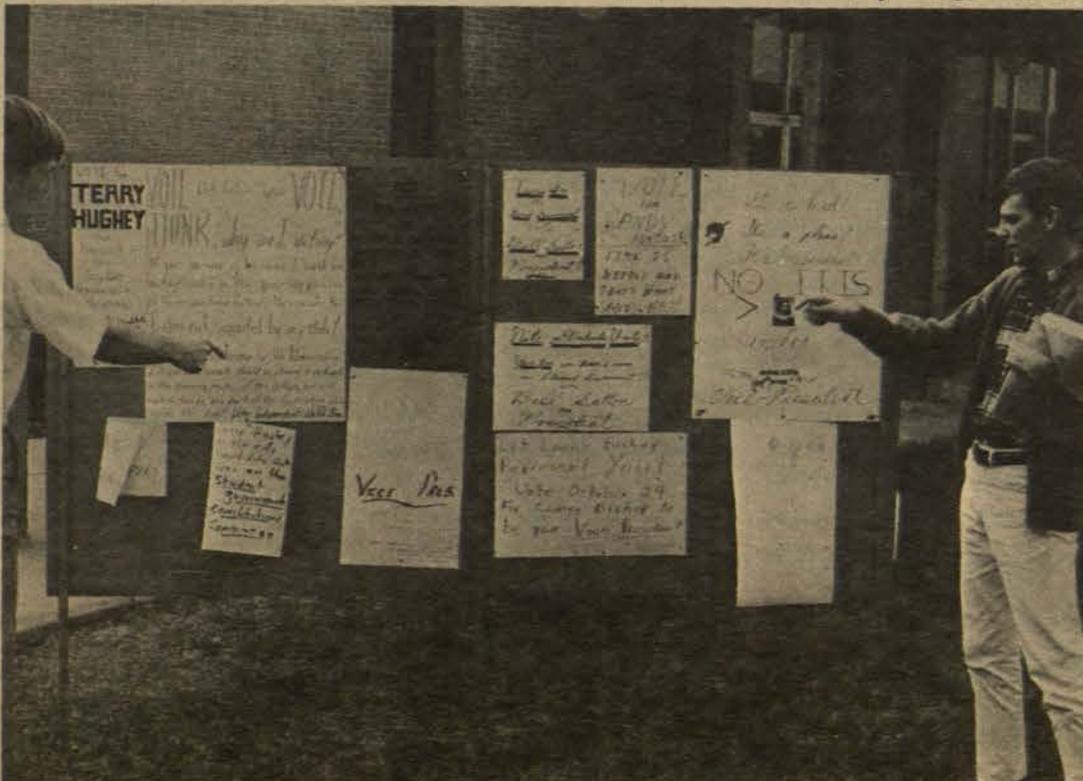

Mrs. Linda R. May and Morgan L. Stapleton, instructors in mathematics at Kennesaw, will teach the course. Charles Hardy, audio visual expert and math consultant for Cobb County schools, is to be guest speaker at the Nov. 14 session.

The course, a part of the College's continuing education program, is designed to cover aspects of mathematics with which

parents might not be familiar, according to the instructors. They hope that parents who complete the course will be able to understand what their children are learning.

"New math is really much the same as the old math," the instructors explain; "only the approach is different."

Therefore, parents who studied arithmetic before this time may want to participate in Kennesaw's modern math course. Advance registrations may be made by telephoning the continuing education office at the College. There will be no charge for the course.

Zane Pullian and Earl Reese decide for which candidate to vote.

Ruth Beggs

# Smaller Classes And Quality Education

Kennesaw Junior College is a community college and as such must draw its students from all walks of life. It attracts the teenager fresh from high school, the working man who has a desire to further his education, and the young housewife who needs a higher education so she can contribute to her community. These students may be going full-time or part-time but they have one element in common: they are attending a junior college.

Why a junior college? Cost and convenience are prime motives, but quite often the deciding factor is that the student desires a sound academic base on which to build his college career. And junior colleges offer this. That is, they are supposed to offer this.

But not if they cram forty-one students into a developmental math

class. These students are there for help. Will they get it if the student-teacher ratio is 41-1? Or consider sixty-five students in a beginning biology or chemistry class. Will they be able to obtain any assistance from their overloaded instructor?

Must students be denied their right to a quality education so the school can have a large number of graduates? The ordinary student beginning a college chemistry course is inadequately prepared. This is not the fault of the college, but must they compound the mistake by sending this unenlightened student merrily on his uneducated way?

Quality education has to begin somewhere, so why not here? Why not limit the size of the beginning math and science courses as they

Dwight Frisbee

## Mrs. May At Least You Tried!

The SENTINEL tries to be fair to all those groups of people with whom we find displeasure. So we direct this illustration to the faculty of Kennesaw Junior College.

For the past two weeks or longer, Mrs. Linda May of mathematical fame has been trying to organize an intramural team composed of faculty women. This, of course, was all in vain because, as some put it, "Me out there on the gym floor? You've got to be kidding!"

Faculty members can preach about apathy all they want, but it seems that they cannot see the

forest for the trees.

Mrs. May, out of some fifty educated people, is the only one who seems to have the foresight to know that faculty participation would not only improve faculty relations but also aid the competitive spirit of the students at Kennesaw.

Of course some members of the faculty have valid reasons such as conducting afternoon labs or afternoon classes, so no fault is found with them.

There is an old saying that goes, "If you haven't tried it, don't knock it!" Come to the gym on Tuesday or Thursday at 3:00 and play volleyball. At least you'll be trying!

Jimmy Pittman

## Pay For What You Get

Last spring when the cafeteria opened, students could go through the line and choose the food they wanted. However, with the beginning of Fall Quarter this year, students who went through the line were compelled to purchase a complete tray. Even if they chose not to get one item, they still had to pay for the complete tray.

Since this could cause a considerable strain on the student's budget, many students chose to patronize the snack bar. This in turn caused a rush on the snack bar and a reduction of patronage of the cafeteria.

Students all have an hour for lunch; but if they stand in line for forty minutes, this only leaves ten

minutes to eat. Under these conditions, the line of the snack bar ran out of the door, while the cafeteria received no business.

Because of the inconvenience, Mr. Howland decided that the best thing to do was to change this process. Although the snack bar and cafeteria must support themselves with no help from the school, we admire Mr. Howland and his staff for their consideration for the KJC students.

Even though the selection of foods is not as varied as last year, at least we now have a selection. As Mr. Howland says, "Get what you want, and pay for what you get."

11/1/67

Louise Bishop

## Apathy Strikes

"A dance at this school? Are you kidding me?" This was the statement of an apathetic freshman when asked if he was coming to the fall dance. This listless attitude exists in many of our students.

Where were you at our first dance? Were you out "raising hell" with the gang or sitting home alone with you little cup of "toddy"? Maybe your high school had a ball game that night! But I suppose any place is better than a dance at KJC.

What's the reason for this Kennesaw apathy? Is it the popular thing to do? Don't you care -- students and faculty? Yes, faculty, don't you care? Where are you at our dances and ball games?

In trying to secure chaperones for our fall dance, the SENTINEL asked seven teachers. The excuses ranged from not having a date to "some other plans." Hats off to Dr. Jere Roberson who was the ONLY teacher at our dance. The administrators at least cared enough to come.

Student elections are just over. Do you know it was a strain just to get two candidates to run for each major office? Oh yes, the Senators were all unopposed! Representation -- what's that?

Comments have been drifting around that the same people run for everything. This may be true, but these are the ones who care. These people want a good school.

Intramural sports competition began several weeks ago. Student turnout was good, but faculty -- where were you? Yes, Mrs. May, we appreciate your one-woman team!

Faculty, we know you have jobs to do; but so do we! Yet some of us still find time to participate.

Students, this is YOUR school. So you flunked out of some "tuff" university. So you can't afford to go to Emory. Or maybe you WANT to go to school here -- this is your school; enjoy it!

Students and faculty, let's have some spirit!

# SENTINEL SPOTLIGHTS

JOE EBSTER

STELLA MERRIT

The featured male student for this edition of the paper is Joseph Thomas Ebster, Jr., of 455 Fielding Lane, S. W., Atlanta. Joe was born on October 31, 1947, and transferred to KJC last summer quarter from Clark College. He came to KJC because he felt the school was highly recommended as a means for obtaining the background material for his chosen career. His major is pre-engineering, and he plans to enter the Navy as an officer, specializing in naval architecture engineering. As Joe states it, he will "...stop at nothing until he accomplishes..." that which he is striving toward.

Our featured student certainly has a wide field of interests.

Besides engineering, he enjoys assembling model ships, reading, swimming, weight lifting, interior decorating, and although he didn't list it, we of the Sentinel Staff can vouch for his dancing ability. He is affiliated with the Peyton Forest Community Club and is secretary of "Les Chevaliers."

As for Joe's opinion of KJC, he feels that the atmosphere, leadership, and training here are those that he needs to reach his final goal. The only way in which he would change his life would be to base it around the training needed for his major.

And for these reasons, we of the Sentinel Staff salute you, Joe Ebster.

Our featured female student for this edition of the paper is Stella Louise Merrit of Route 1, Davis Road, Marietta. She is 18 years old and was born on December 26, 1948.

Stella entered Kennesaw Fall Quarter, 1966, and plans to transfer to the University of Georgia next year. She came to KJC because "it has a beautiful campus and it is an excellent school with a friendly atmosphere".

Stella has been very active on campus and off. This friendly girl is a member of the Montage Staff, the Drama Club, the BSU, and the Civitan Club. At home she enjoys dancing, art, and outdoor activities, such as hiking, camping, and water skiing, and modeling. Besides all this, Stella is planning to major in psychology.

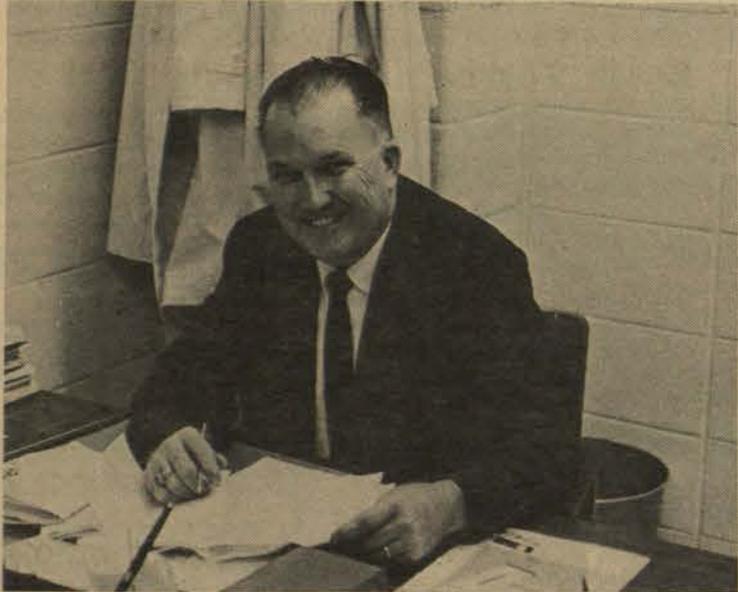

Stella's philosophy of life is that she looks "at life as a bargain, which owes us little, but we owe it everything. We must try to let the good of life outweigh the bad, and realize the importance of walking with a smile." Her goal is a good education and a profitable career, which will enable her to travel and meet people throughout the world.

For these reasons, we of the Sentinel Staff salute you, Stella Merrit.

If he could begin his life again, Mr. Howland says he would try to study harder and take advantage of every opportunity offered him.

As Mr. Howland explains it, Auxiliary Enterprises is operated to be a service to all, without being supported from any other Department than itself. "We cannot lose money and stay in business. We have a desire to serve you well and as inexpensively as possible."

Because of your efforts in serving us, we of the Sentinel Staff, the student body, the faculty and the staff salute and thank you, Mr. Lawrence E. Howland.

MR. LARRY HOWLAND

The Sentinel once again honors a member of the college staff who well deserves public acknowledgment.

Mr. Lawrence E. Howland of 1552 Cloverdale Circle, S.E., Marietta, is a man who, although he remains mainly "behind the scene", means much to the students, faculty, and staff members at Kennesaw Junior College, as he is the man who supplies us our food services and who is in charge Auxiliary Enterprises, which of course includes our book store.

Mr. Howland has a wife, Grace, and two children: Ann, 16, who attends Wheeler High School, and John, 6, who attends Powers Ferry Road Elementary School. He spent twenty years in the United States Navy, where he dealt with food service and various Navy Schools, and six years at Georgia Tech supervising the Print Shop, Office Supply Services, and the College Inn. He came to KJC July 1, 1966.

Mr. Howland is a member of the East Marietta Christian Church where he is an Elder, Bible School Teacher, and Chairman of Trustees of the Church. He also belongs to the Naval Fleet Reserve Association and the Parent-Teachers Association. He also enjoys sports and working on cars.

Our featured Staff Member states his philosophy of life as being "that man lives on this earth to prepare himself for Eternity", and his goal is "to serve God and to be helpful to (his) fellowman". This genial gentleman demonstrates these ideals by his help to us at KJC.

Mr. Howland feels that Kennesaw is exceptionally well blessed with Faculty and Staff that have the knowledge and ability to go forward. If he could change it, he would have better communication with the students as to their likes and dislikes, especially in food service.

## BABBLING BROOKS

"Come one, come all, and listen to the campaign speeches for the offices of our college."

No, that wouldn't have done it. Excuse me for wandering; I was merely trying to think of a more effective way to have announced the past election at Kennesaw Junior College. But its kind of a laugh, isn't it? I mean, who really cares who represents us --- certainly not you. How could you? Yes you with your 2.5 average --- you sitting there watching the world go by. And who will do the complaining when rules and regulations don't go your way? You guessed it ---- you will.

Do you realize that because of people like you, many of our candidates almost ran unopposed in the last election? But worse than that, where were you on election day? Voting? Surely not. You wouldn't want to ruin your record for voting over the past quarters or even years. You wouldn't want to make a tough decision that might mean you'd miss out on one hand of cards or that might make you five minutes late for lunch, would you?

Were you helping to keep the ballot box? Ha! That's another laugh. No, you were probably sitting in that same little corner of yours watching the same old world go by.

Or maybe you were even one of those cute little people who couldn't resist putting in a ballot with a write-in name on it. Well, at least you did voice your opinion --- but to what avail?

Or maybe you were one of those even cuter little children who voiced your opinion by marking up the campaign posters with drawings and obscene words. Yes, I'm talking about you.

Or maybe you voiced your opinion by telling your friends it would be silly to run for office. Did you? And in so doing, did it ever cross your mind that you were stealing from the school what might have been some very capable leadership --- or at least some very capable competition? Or maybe you didn't think about it, or maybe you just didn't care.

Well, there are those of us around campus who do care --- some of us who do care about the leadership and well-being of the college. And to those of you who don't care, we say to get out. It's kind of hard trying to walk down the hall or through the lounge without tripping over you.

\*\*\* \*\*

Mr. Jones, what's the difference between an olive leaf and a bunch? (Maybe Odysseus was a pigmy?)

I heard that the Physical Education Department is now offering underwater snake charming. No kidding -- it was a black water snake!

Doug Couch -- Will you please blow into this hat?

Who went to the Popeye Club? (I wonder if Dean Meadows watches T.V.?)

Did those hormone pills really make Kay Gillespie's hair grow out?

Mr. Studdard, did Alabama or Tennessee win the game? (Sore subject maybe?)

Could those be freshmen in their high school jackets, running to class before the first bell rings? Don't worry, you'll make it.

Overheard from Emma Bray in history class: "Dr. Roberson, I'm not stupid, I just make stupid statements!"

There will be no class today due to the flood. -- Noah Salter.

## Gone With The Wind Premieres Again

History again came to Georgia with MGM's presentation of the third premiere of "Gone With The Wind".

On October 3, many famous movie stars streamed into the City of Atlanta for this big occasion. Three of these are certainly well known to us all. Olivia de Havilland, Ann Rutherford, and Victor Jory arrived at the Atlanta airport early Tuesday and anxiously awaited the festivities of the next two days.

After a parade down Peachtree Street, the first day was climaxed by the Tara Ball at the Regency Hyatt House. Anyone there felt that he was again back in the Old South - in the days of Scarlet O'Hara and Rhett Butler.

Then Wednesday night came,

bringing with it more excitement, for this was the night to see Margaret Mitchell's historic movie.

Five points in downtown Atlanta was the scene of much confusion and tension, as it seemed that everyone in Atlanta had come to see the remaining stars take their places in front of the Loew's Grand Theatre. And then they appeared -- the few remaining people of that tremendous cast. And the whole city again relived not only the first two premieres, but also the Civil War itself.

The movie is slated to remain in Atlanta through Christmas, and information about tickets can be obtained by calling the box office of the Loews.

# Wheeler Urges Student Support Of GERAL DEAN BOGGS MEMORIAL FUND

On May 4, 1967, Kennesaw Junior College was grieved by news of GERAL DEAN (Gerri) BOGGS' fatal automobile accident while she was enroute to school. Upon learning of the tragedy, several of Gerri's classmates, with the approval of their instructor, made contributions to purchase flowers. A committee of three was selected to make the arrangements. Within a matter of hours, the committee had talked with many other people and had formulated an alternative idea. Before this plan could be acted upon, the committee deemed it necessary to present the proposal to the class where the idea had originated. With class approval the GERAL DEAN BOGGS MEMORIAL FUND was initiated.

At present the Memorial Fund is a program which allows any currently enrolled Kennesaw Junior College student to make application for a loan, provided funds are available and provided said student does not have a loan from this fund currently standing. The amount of the loan shall be limited to the amount of fees (matriculation fee, tuition fee, and student activity fee) assessed the student by the college for the quarter when the loan is made. Loans will be payable within 90 days from the date of the loan or prior to the beginning of the quarter following the one in which the loan was made, whichever comes first.

The loan does not require a co-signer. There is no interest charged for loans made under this program; however, a service charge of \$1.00 is assessed on each loan.

Application for loans from the GERAL DEAN BOGGS MEMORIAL FUND shall be made to the Director of Student Aid, Kennesaw Junior College.

Those students who originated the Memorial Fund had a three-fold purpose: to maintain a lasting tribute to the memory of Gerri DEAN BOGGS; to establish a loan fund which would allow any Kennesaw Junior College student to borrow money, interest free, in an emergency; and to establish over a period of years a scholarship program.

Today this fund has grown bit by bit through the donations of students, staff, and faculty, with much of the effort coming directly from the faculty. The Circle K Club organized a committee to assist in programs to raise money for the fund. The Kiwanis Club of Marietta assured the Circle K Club that the Kiwanis would assist in any way possible to further this worthy cause.

At this, I take the opportunity as both writer and student to ex-

press my fullest appreciation to students, staff, and faculty who have made contributions to the Memorial Fund. Without these contributions the fund would not be in existence. Be not satisfied with a small loan fund -- let us strive to achieve a scholarship program also. To achieve this will require several thousand dollars. If every student and every faculty member would contribute, the fund would be well on its way to assuring a program for loans as well as a scholarship program.

Anyone wishing to contribute please see any SENTINEL Staff member or Administration personnel. There will be a Fund box placed in the Student Services Building outside the Publications Office.

Thank you very much,  
Richard T. Wheeler

## Lucy Bird Visits Hawaii

"Marvelous!" is the way Lucy Bird, sophomore, who works in the Registrar's office, describes her recent week in Hawaii. Purpose of her trip was to visit her boyfriend, Denny Parker, who was on a Rest and Recuperation Leave from Viet Nam.

Lucy was there from October 10 - 17, which was Aloha Week - the Mardi Gras of Hawaii. This week, sponsored by the state, features parades, hula shows and other tourist attractions. "And we didn't miss any of them," Lucy says. While there, she and Denny went body surfing, took tours of Honolulu, Waikiki, and Pearl Harbor, visited Sea Life Park (where they train dolphins and whales), and took in a number of shows.

When asked about Denny's reaction to the Viet Nam situation, Lucy reported that he said neither the people here nor there

understand the true situation. The papers here are not giving a true picture, Denny feels; and the people there are so used to war, they don't really know what they're fighting for anymore.

"All those cars, and girls" took Denny's eye in Hawaii. "It wouldn't take me long to get back to civilization," he decided.

With her ukelele, mu-mu, and other souvenirs to remind her of a great time, Lucy is now looking forward four months to when Denny's tour in Viet Nam is completed.

## Theatre Atlanta Invites Students

For those of you who have not been to Theatre Atlanta, you have missed a rare treat. Theatre Atlanta is one of the city's oldest theatre groups and is now located in its new million dollar drama center at 1374 Peachtree Street. This is a living memorial to Atlanta's one hundred cultural leaders who were killed in the June, 1962 plane crash at Orly Airport, France.

Scheduled to open in November is "Who's Afraid of Virginia Woolf?" to be followed by a take-off of Alfred E. Newman. Student tickets can be purchased for \$1.50 per show. I.D. cards must be presented with purchase of tickets.

DANNY TURNER AND Pam Chapman dance to the music of the Soul Sensations.

## Soul Sensations Rock Out

KJC students made their way to the Student Service Building on October 2 for an unusual evening of merriment. On first entering the cafeteria, students were frisked for their I.D.'s; and after careful interrogation were told to proceed to the patio where they could obtain a luscious meal. Hark! Dean Meadows was the ill-fated chef! A swift breeze and one small grill made the cook-out an event to remember. The students

were served cold hot dogs, hot coke, and stale potato chips. However, the evening became an immediate success with the appearance of "The Soul Sensations," a versatile, eight-member band. The lead singer, Freeman Bachelor, a student at KJC, added much variety to the group. The importance of the evening was heightened by the appearance of Dr. and Mrs. Horace Sturgis.

## Miss Cullene Morgan Joins Staff

MISS MORGAN, New Public Relations Administrator for K.J.C.

The appointment of Miss Cullene Morgan as Coordinator of Continuing Education and Public Information Services has been announced by Dr. Horace W. Sturgis, President.

Miss Morgan is a native of Moundville, Alabama. She attended the Alabama College for Women, where she majored in speech, and The University of Alabama, where she obtained her B. A. degree in Journalism.

Miss Morgan has served as a reporter for The Plant City Courier in Plant City, Florida, and the Decatur Daily in Decatur, Ala-

bama. She served as a News Editor for The Franklin Citizen and Franklin County Times in Russellville, Alabama, and was the Assistant Manager of the Alabama Press Association and the Alabama Newspaper Advertising Service from 1961 until 1964. During this time Miss Morgan was an Instructor in the School of Journalism at the University of Alabama, where she assisted in conference planning and edited Extension Division news bulletins.

Prior to joining the staff of Kennesaw Junior College on October 16, Miss Morgan served for three years as the Director of Public Relations at Newberry College in Newberry, South Carolina, where she directed the news bureau, edited the alumni magazine, served as an advisor for the student newspaper and yearbook, and taught journalism.

Miss Morgan is a member of the Theta Sigma Phi, an honorary journalism fraternity for women.

## Myatt Plans Benefits For Students

Fellow students, I wish to thank all those who voted in the previous election for their support and interest in their student government. To all those who did not vote I wish to say VOTE in the Freshman Senator election which will be held November 16. I also would like to ask that every student read the college newspaper. This is the only method at the present time through which information can be relayed to the student body.

The student government is now working on plans for benefits to students such as city-wide student discount services, student insurance, social events, and national speakers. Also a work shop is being formed with the student government officials from Georgia Tech and Georgia State. Conducted here on campus, the work shop will coordinate projects between the colleges. In addition, plans are formulating on a procedure for the submission of student complaints.

## 1968 Cars - Safer?

Douglas Couch

Whether you realize it or not, with the advent of the 1968 automobiles, the Federal Government has finally put an end to the merciless slaughter on our nation's highways. The new safety standards now make it extremely difficult to have one's eye poked out by a protruding hood ornament. Ah, thousands of lives saved by that one regulation alone!

The new standards prohibit any "scalpel-like" body designs that may tend to decapitate a passing pedestrian. Thus end the fins that made Cadillac famous.

The government now requires that all automobiles have an almost womb-like interior, padded in every sense, so that in the event said automobile chances upon a large tree at 60 miles per hour the unfortunate occupants will not be bashed to death upon a protruding radio knob. They will instead only be broken in two by their safety belts.

With all the advancements made by the automobile manufacturers and the Federal Government in the name of safety, the average American can still maneuver like a bull elephant, unable to avoid anything suddenly placed in its

path (i.e. telephone poles, children, other automobiles.)

The point remains that while the new cars have, in theory, been made safer in the event of an accident, they are still quite unable to avoid a collision, which does not matter in the least because the average American driver couldn't avoid hitting a totem pole in the middle of the Sahara.

In the event that the Federal government does require manufacturers to build cars with better "evasive maneuverability capability" we will still be faced with the problem of the millions of drivers in the United States who only know how to steer a car, not how to drive it.

So now, we Americans can continue smashing ourselves into oblivion, content with the knowledge that we are protected by the "New Standards."

## LOST AND FOUND

For lost and found articles please contact the Security Guards in the rear of the library. There have been a lady's umbrella and a fleece lined jacket found. These may be picked up in the Security Guards' office.

## Library Announces Fall Hours

Mrs. Martha Ann Giles, Assistant Librarian, announces these hours for the Fall Quarter: Monday through Thursday, 8:00 A.M. - 9:00 P.M.

Friday, 8:00 A.M. - 6:00 P.M.  
Saturday, 9:00 A.M. - 12:00 P.M.

The Saturday hours will be in effect as long as ten or more students utilize the library.

Mrs. Giles stated, "The library is receiving approximately 100 new books a week this quarter." Students can find some of these books on the portable shelf in front of the desk.

The library is also in the process of binding back issues of national magazines. Mr. Greene announces that back issues of 1966 Time magazine are needed to complete the binding of that magazine.

The staff this year consists of Mr. Robert Greene, Head Librarian; Mrs. Martha Ann Giles, Assistant Librarian; Miss Lee Boyer, Clerk-Typist; and Ginnie Landsberg, Clerk-Typist.

## Boys Out

## Number Girls Three To One

How many of you have often wondered about the boy-girl ratio at this college? Well, gang, the girls have it made! The official Fall Quarter statistics that have been released from the Office of the Registrar show that there are 921 men to 357 women in the student body. It is a sure thing that the girls must be overjoyed at these figures, while the boys must be disgusted.

Many other figures appear in the release. For example, there are 227 married Freshmen to only 80 married Sophomores; the program of study with the most participants is business administration; the programs of study with the least participants are medical technology and pre-nursing; more men enroll in business administration than in any other program of study; more women enroll in liberal arts than in any other program of study; and there are a total of 317 married students.

Obviously, the most outstanding figure in the release is the boy-girl ratio. The result is evident, the girls cannot complain!

## X-Ray Technicians Train On Campus

Have you observed that in our student body this year there are nine students coming to us from Kennestone Hospital? These students are training to be X-Ray Technicians. At the present time, seven first year students are taking math and two second year students are taking psychology. The courses they are taking at Kennesaw Junior College are in addition to three, one-hour courses at the hospital. Some of the classes at the hospital involve actual experience in the X-Ray room working with fully qualified technicians. Different fields of study will be taken each quarter.

The nine students participating in this program are as follows: first year -- Sharon Graves, Cathy Watson, Betty Jo Reno, Lillie Shaw, Sue Galke, Bobby

Hughes, and Thomas McClendon. Students in their second year are Charlene Tatum and Pat Rape. This program of training started July 1 and will continue for two years. This course of study requires applications submitted to the hospital prior to February 1. Also a personal interview is required. The hospital then screens for acceptance, and applications must be made to enter Kennesaw Junior College. The students are enrolled as regular students of our college. The program is sponsored through Kennestone Hospital which assumes the cost as part of the fee for a technician.

Through their work at the college, these students are helping to broaden their minds by taking advantage of these special courses. When they become full X-Ray Technicians, their scope of knowledge will go beyond the realm of an X-Ray room.

Kennesaw Junior College provides this special assistance to Kennestone Hospital in order to make more efficient technicians.

## Mr. Salter Exhibits Art

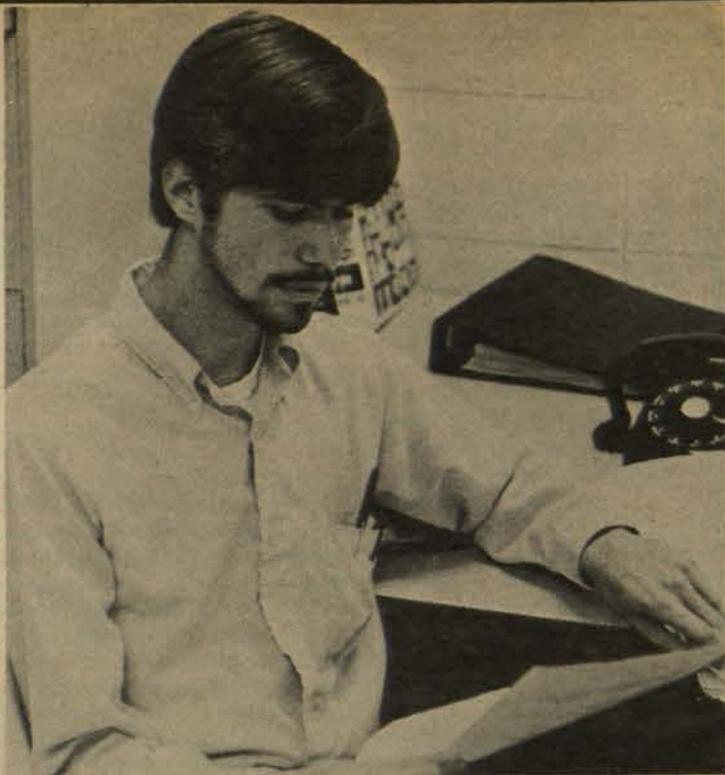

MARIETTA - An art exhibit featuring the work of Thomson Salter, assistant professor of art, will be held in the library seminar room at Kennesaw Junior College during November.

The public is invited to view the display at the following times: Mondays through Thursdays, 8 a.m. - 9 p.m.; Fridays, 8 a.m. - 6 p.m.; and Saturdays, 9 - 12 a.m.

Salter, a graduate of University of Georgia, studied painting with Lamar Dodd, Howard Thomas and Carl Holty. His work has been shown in local, state and regional exhibitions.

He has had one man shows at University of Georgia, LaGrange College, Oglethorpe College, Valdosta State College, Artists Associates Gallery and the Southwest Georgia Art Association in Albany.

Salter's paintings have been accepted in the Painting of the Year Show, the Southeastern Art Exhibition, the Atlanta Arts Festival and the Association of Georgia Artists Exhibitions. His work is shown regularly in Atlanta at the Artists Associates Gallery and the Art Shop of the High Museum of Art, and in Winston Salem, N.C., at the Gallery of Fine Arts.

## Jim Cahill Appointed Editor

The new editor for the school yearbook, the Montage, for the 1967-68 year is Jim Cahill. Jim took over this position at the beginning of Fall Quarter.

After Kennesaw, Jim plans to transfer to the University of Georgia Art School and pursue a career as an art instructor. He is presently employed by Volt Technical Corporation in Buckhead as an illustrator.

When asked about his plans for the Montage, Jim said: "We will try to surpass the excellent job which was done by last year's staff." He now has a total of fourteen members on his staff.

### Reader's Comment

## Hark Unto The Voice Of Wisdom

Dear Editor,

Hark unto the voice of wisdom crying in the wilderness! Carest thou not whither thou goest? Take heed of my warning lest your blindness should cause you to fall further into the darkness of passivity.

This deadly "let George do it" attitude is to be the death of our nation. We, the students of Kennesaw Junior College and other youth of America, are allowing the "Kiss of Death" to be planted on the forehead of our democracy by developing such an attitude. We should be young enough to think forcefully and actively of doing it OURSELVES. We should all want personally to see that a job is completed and done well. We should take pride in accomplishing something or even pride in just TRYING - a faster car, prettier girl kind of pride.

"I haven't the time" seems to be the standard excuse. Suppose the American colonists had been busy setting up homes, businesses and farmlands to worry about fighting a war. Suppose George Washington, Abraham Lincoln or Franklin D. Roosevelt had said, "I haven't time to consider running for the Presidency. Let someone else do all the work."

Arise now and find your place as a leader. Participate in school activities - the student government elections, clubs, sports. If you don't know how to go about doing it, ASK someone. But do it NOW.

Sharon Kent

Dear Editor:

This letter is addressed specifically to the students of KJC and I would like it saluted as such.

Students:

You are the most stupid, incoherent, and ungrateful group of high school misfits I have ever had the displeasure to associate with. It is alarming and disheartening to see how apathy and passiveness run rampant among this body which calls itself COLLEGE students.

Have you no sense of pride? It is easy to see you have no

sense of guilt. Yes, guilt! You are guilty of the greatest evil any campus could have -- YOU DON'T CARE! You just don't care about what happens to your school. And I ask you: Why not?

If someone said your high school alma mater was corny, what then? But on the other hand, how many of you know the words to the KJC alma mater?

Look here. Student Government Association elections came upon the 25th of October. You want to know something? You didn't have a choice. No choice of who would win. For president, granted, there was a choice, four candidates. Three were dark horses and the other already held as many offices as Nixon has run for! And what did you do? You voted for a candidate you knew nothing about (no offense to the candidates), or you voted for one who was already overloaded with work. And what about the other candidates?

There was one person running for each of the five seats for sophomore senator. How many votes did it take to put these candidates in office? One single vote. It seems like the number one is analogous to this student body and especially to YOU as an individual.

One-eyed, to see only what you want to see; one-sided, to be on the side of the rest and not form your own opinion; concerned with one thing, girls, to find a husband; boys, to stay out of the draft.

I am trying to tell you it is pathetic to see how each of you are being led around on a leash by those few students who CARE enough.

By using the elections as an example, I hope to reveal to you the very small concern that is shown by you, toward your school. Not only do I want you to take an interest in the school through the elections, but also the Newspaper, Clubs, and Organizations, Intramurals, the social functions, the academic progress and scholastic standing.

These offer a wide field of varying interest and I'm positive

there is one that interests you. Come on student body, look alive, anyway!

Steve Strickland

Dear Editor:

Recently I attended a meeting of the newly-formed Music Club here on campus in which plans for entertainment throughout the year were being discussed. This question was brought up: Why can't we charge admission to some of the performances? Personally, I feel it would be extremely beneficial to the various programs presented at the college if admission could be charged at certain functions. This would enable us to have more and better entertainment.

Another suggestion was made at the meeting: Why can't we give the money we raise on tickets to the Student Activities Committee? This is a great idea because the committee would be able to enlarge their budget to offer us a wider variety of entertainment. I'm sure many students agree that the administration should seriously consider the possibility of allowing us to charge admission to various campus activities. It would be truly beneficial.

Claire Beale

P.S.

Why don't we have a separate place in the cafeteria to buy soft drinks and coffee? This certainly would cut down on the length of the line. Often, many people are only in the line to get coffee and it surely does slow things down!

MEDALLIONS

ARE

COMING!

## Religious Emphasis Program Features Reverend Borders

On Tuesday, November 21, the religious emphasis program of Kennesaw Junior College will present Rev. William Holmes Borders, pastor of Wheat Street Baptist Church, as the featured speaker for the Fall Quarter.

Rev. Borders, whose father was pastor of Swift Creek Baptist Church near Macon, was raised in a Christian atmosphere which became a basis for his service to mankind. After graduating from Morehouse College in Atlanta in 1929, he was awarded a scholarship to Garrett Theological Seminary, Northwestern University, at Evanston, Illinois. Three years later, he received his bachelor of divinity degree and completed his study in 1933, when he received his master of arts degree. In 1937, Rev. Borders returned to Atlanta to accept a position as an instructor at Morehouse. On November 17 of that year, he became pastor of Wheat Street Baptist Church.

Rev. Borders is renowned for his active participation in the civil rights movement. His world travels have developed his belief that people who are scorned, abused, and ignored react similarly despite differences in race and in geographic location. He strongly believes that all men are created equal before God. His activities are always an object of national interest, and he is featured on the WSB-TV documentary "The Search." The book Handyman of the Lord by James W. English is a tribute to Rev. Borders.

A tentative schedule for the activities of November 21 has been proposed by the committee:

- 10:00 A.M. - Address to Kennesaw Junior College Student Body Physical Education Building (All classes will be dismissed for this lecture.)
- 12:00 noon - Luncheon with Student Religious Groups and Discussion
- 1:00 P.M. - Presentation and Discussion Seminar Room of Library
- 2:00 P.M. - Presentation and Discussion Seminar Room of Library
- 3:30 P.M. - Faculty Coffee Seminar Room of Library
- 7:30 P.M. - Address to Evening Students and Community Physical Education Building (All classes will be dismissed for this lecture.)

## Student Artist Attends Kennesaw

Versatile and very talented Frank displayed one of his Sophomore Frank Bramblett, Jr. paintings in the parking lot near Sanford Stadium in Athens after the University of Georgia. He graduated from Sprayberry High School in 1965.

He started painting during his earlier years of high school and then took a painting course at Lenlock Art Shop in Anniston, Alabama. As a sophomore at Sprayberry High School, he took an art course there also.

Frank exhibited three of his paintings in the East Alabama Art Exhibition, Junior Division, before he moved to Marietta. In 1963 he exhibited a painting of a clown in the annual Marietta Square Art Exhibition.

Frank likes to work in all mediums, but he prefers water colors, and pen and ink. His favorite themes are "people in action or something really different and unique."

It was here that he met the President of Georgia Textiles who asked him to paint a similar painting for him. The painting was of several football players in the action and excitement of the game against the background of excited people in the grandstands.

His other interests are participating in and watching the competitive sports games such as football and baseball, hiking in mountainous areas, working in his yard, and talking to people.

Plans in Frank's future are to major in art and, after graduation, work in an area that combines both art and public relations, preferably in sports.

# Club Requirements

1. A group of interested students decide that they wish to form a student club or organization.
2. The students seek a faculty member who will serve as faculty advisor to the proposed club or organization.
3. Students, with guidance from faculty advisor, prepare a written statement of the purposes of the proposed organization and draft a constitution for the organization.
4. Elect temporary (may become permanent) officers for the proposed organization.
5. Submit six (6) copies of the statement of purposes and constitution to the Dean of Student Affairs.
6. The Dean of Student Affairs will transmit the information concerning the proposed organization, with recommendations, to the Executive Committee of the faculty for the consideration of the faculty.
7. Upon approval of the Executive Committee and the incorporation of the minutes of the Executive Committee into the minutes of the faculty, the organization is officially approved and will be presented a charter by the Office of Student Affairs.

### SUBSEQUENT REQUIREMENTS

1. At the close of the academic year each organization must file a written report of their activities and accomplishments with the Secretary of the Kennesaw Junior College Student Government Association and the Student Activities Committee of the college.
2. At a date to be determined during the Spring Quarter each organization must submit to the Kennesaw Junior College Student Government Association a proposed itemized budget for the next academic year. Since some budgetary funds will be provided through the Student Services Fees, no organization shall charge a membership fee other than that required by the parent state or national organization.

## Music Club Plans Concerts

The Music Club, a new cultural group, is forming on campus. Under the direction of Mrs. Janice Schantz, meetings are held in the Music Room in the Humanities Building on Mondays at 5:00 P.M.

The main purpose of the club is to promote cultural education through music by providing all types of cultural events for the college. Plans for the year include a musical, concerts, and perhaps a hootenanny.

Singing ability, however, is not the only qualification for membership in the club. Anyone who is interested in music can join not only the choir but also various instrumental groups ranging from bands to combos which are now being formed.

It is hoped that enough interest can be stimulated among the entire student body to develop an active club. All interested students can contact Mrs. Schantz.

## Chancellor Simpson Visits Kennesaw

Dr. George L. Simpson, Jr., Chancellor of the University System of Georgia, visited the campus on Tuesday afternoon, October 17. Following a tour of the buildings Chancellor Simpson was honor guest at a reception given in the seminar room of the library.

Chancellor Simpson was born in Concord, North Carolina, and received his A. B., M. A., and Ph.D degrees at the University of North Carolina. Dr. Simpson was appointed Chancellor of the University System of Georgia in July, 1965, which was the same month and year that Dr. Sturges was appointed President of KJC.

## Old Club Gets New Name

There is a new club, The Fellowship, on campus. Actually, The Fellowship isn't a new club. It's just the old Methodist Student Movement with a new name. According to Student Director Bob Herrin, the name was changed because "we don't want a club of all Methodists, or any other group. What we want is an interdenominational, or non-denominational, group to gather once a week to discuss current topics dealing with things we are faced with now."

The group has started off with a bang, with a discussion on interracial marriage and premarital sex. The group is still sponsored by the Kennesaw Methodist Church, with Reverend Juel Sealey and Dr. Jere Roberson acting as advisors. The Fellowship meets every Tuesday from twelve noon till one o'clock. Any students interested in thought-provoking dialogue are invited to attend the meeting.

## Glee Club Performs

The Kennesaw Junior College Glee Club is being organized for this quarter. The club meets on Mondays and Thursdays from 3:00 to 5:00. A member attends one of the two rehearsals.

Under the direction of Mrs. Janice Schantz, the club will present its first performance on December 14. This concert will be given at Blackwell Elementary School at 7:30 P.M.

Besides the chorus, the Glee Club has a male ensemble. Members are Randy Carpenter, Jack Driscoll, Wayne Heaton, Bob Herrin, Kerry White, and Bob Myatt.

For a quarter of fun and learning through music, join the KJC Glee Club on Mondays in the Music Room!

## Mu Alpha Theta Formed

The National Junior College Math Club is being organized at Kennesaw at this time. Mrs. May will be the faculty advisor, and any student who meets the qualifications is welcome to join. Kennesaw is privileged to be the only junior college in this area with this organization.

The chapters of the club are provided with many services, including membership cards, The Mathematical Log, official journal of the organization, assistance in securing speakers, information on mathematical careers, insignia pins, and regional meetings are arranged.

Mu Alpha Theta, the Junior College Math Club, is sponsored by The Mathematical Association of America. Its purpose is to promote scholarship, enjoyment, and understanding of mathematics among junior college students.

Qualifications for the club are two quarters credit in college math, at least a B in each of the courses, and an over-all average of B (3.0). Anyone with these qualifications who is interested in joining the club may go by the main office in the natural science building to get an application form before Friday, November 17. In about six weeks after the club is organized, there will be a formal initiation held.

## SGEA Members Attend Conference

Representatives from all Georgia colleges attended the Leadership Conference of the Student Georgia Education Association held at Rock Eagle in Eatonton, Georgia, on October 20 and 21. Cheryl Chapman, President, and Pat Boone represented the KJC chapter and were accompanied by Mrs. Inez Morgan, advisor.

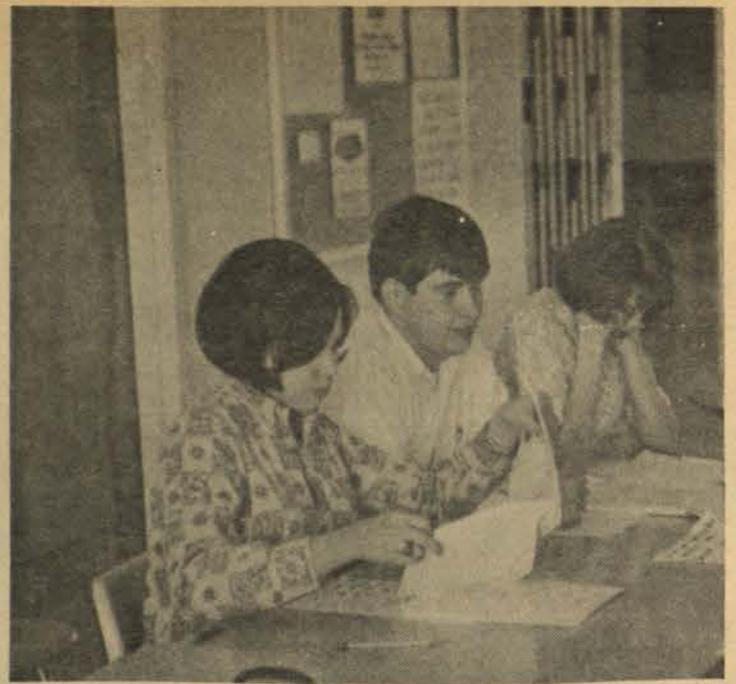

The purpose of the workshop was to give student leaders and advisors a better understanding of the organization and its relation to the teaching profession and to aid students in becoming informed, enthusiastic, and responsible leaders.

## Faculty Attends College Meet

MARIETTA - Three Kennesaw Junior College faculty members attended the annual meeting of Georgia Association of Junior Colleges Friday and Saturday, October 20, 21.

They are Dr. Mark E. Meadows, Dean of Student Affairs; Dr. Jere W. Roberson, assistant professor of history; and C. Grady Palmer, instructor in physical education.

The meeting was held at South Georgia Junior College in Douglas.

BETH COX, Bill Bird, Anita Goodson, Civitan members, conduct the voting polls.

## Civitan Runs Election Poles

The newly formed Collegiate Civitan Club elected its first officers at the October 12th meeting. They are Jimmy Pittman, President; Beth Cox, Vice President; Jackie Hudson, Secretary-Treasurer; and Bob Herrin, Sergeant of Arms.

The club's first fund-raising activity was a Halloween candy sale which helped the Kennesaw Club and the Marletta Civitan Club.

The Civitan Club conducted the voting polls for the student government elections which were held on Monday and Tuesday, October 23 and 24.

At the October 19 meeting, Dean Mark E. Meadows presented the president of the club with a charter which made the Civitan an approved club on campus.

The Civitans will perform several service projects throughout the coming year.

Interested persons should contact Jimmy Pittman.

## Miss Starling Visits

Miss Brenda Starling, admissions counselor at LaGrange College will visit the KJC campus on Tuesday, November 14, to interview students who might be interested in attending LaGrange.

Miss Starling will be in Dean Meadows's office from 10 o'clock until noon.

LaGrange is a four year college in middle Georgia, and is affiliated with the Methodist Church.

## Graffiti

Bob Herrin

One of the newest forms of American humor has arisen from the anonymity of the masses, who display their handiwork in public places; on subway and restroom walls, advertising posters, and anything else handy. This new art form has been dubbed "graffiti." For those of you unfamiliar with the Italian tongue, graffiti means "scribbles" or "scratchings."

And the new form has met with much enthusiasm! TIME recently sponsored a graffiti contest and displayed the best examples on posters in New York's Grand Central Station. At least one book is on the bookstands offering the latest in graffiti. Robert Beckwith, a Columbia University student, conducts a monthly radio show dedicated to the art.

The following is a list of some of the top graffiti offerings to date. Hope you enjoy them!

- "Drink Canada dry. Visit Expo 67." \*\*\*
- "Do the Chinese look in the White Pages?" \*\*\*
- "Goodnight, David. . . . . Goodnight, Goliath." \*\*\*
- "Hannibal's Elephants are messing up the Alps." \*\*\*
- "Xerox never comes up with anything original." \*\*\*
- "I dreamed I could wear a Maidenform bra"--Twiggy. \*\*\*
- "Adam Clayton Powell uses Man-Tan." \*\*\*
- "Orvil is a snake." \*\*\*

"Support your local police. Bet with a bookie who buys protection." \*\*\*

- "Ronald Reagan for umpire." \*\*\*
- "Lock up McNamara and throw away the Ky." \*\*\*
- "Jean-Paul Satre saves Green Stamps." \*\*\*
- "Zeus is dead." \*\*\*

And then there's the one about the two effeminate Braniff pilots, one of whom says to the other: "Look, Tony, you promised I could take the pink one up today."

Happy graffiti, everyone!

### Freshman Senator Elections Set For November 16

Dates of election for office of Freshman Senator are as follows:

- Oct. 30 - Nov. 3 - Nominations
- Nov. 6 - 13 - Campaigns
- Nov. 16 - Election
- Nov. 19 - Run off

Beginning freshmen students who are elected as senators must, after two quarters, have earned a 2.5 overall grade point average.

Continuing freshmen students who are elected as senators of the Freshman Class must meet the same qualifications as Sophomore Senators. These qualifications state: "Only full-time sophomore students who have earned a minimum of fifteen quarter hours at the college and who have a 2.5 overall grade point average may be elected as Senator from their class."

## Intramurals Schedule

Nov. 2 Gorillas vs. Cheetahs	Nov. 2 Aardvarks vs. Pandas
7 Eaglettes vs. Pumas	7 Eaglettes vs. Pandas--
9 Tigers vs. Cheetahs	Cross Country
14 Gamecocks vs. Apes	9 Aardvarks vs. Eaglettes
16 Roadrunners vs.	14 Aardvarks vs. Pandas
Gorilla:	16 Eaglettes vs. Pandas
21 Gamecocks vs.	21 Tug-o-War
Cheetahs	23 Holidays
28 Roadrunners vs.	28 All-Stars vs. Champions
Tigers	30 Rope Climbing
30 Gamecocks vs. Gorillas	

## Intramurals Get Into Full Swing

The gym takes on a new look on Tuesdays and Thursdays for the next seven weeks. Mens' and womens' intramurals sports started October 17. There are approximately 260 men and women participating in our schools intramural sports. The teams will participate in volleyball this quarter, basketball winter quarter, and softball spring quarter.

Coach Waters is in charge of the three womens' teams. Which have 15 women to a team. Eaglettes, headed by Shelia Estes; Pandas headed by Lynda Winters and Aardvarks headed by Nancy Blackwood. There should be a lot of fun for the coaches getting their teams together.

Coach Norman is in charge of the seven mens' teams with 24 men to a team:

NAME	CAPTAIN
Gamecocks	Larry Hames
Gorillas	Alton Jordon
Cheetahs	Ron Owenby
Apes	Randy McArthur
Pumas	Larry McElwany
Road Runners	John Boyd
Tigers	Marshall Morris

The competition has been a

wide spread variety. The mens-faculty team has given the other seven mens' teams a hard time. Our faculty really has something don't they? The womens' faculty has gotten a slow start. Mrs. May is about the only brave lady it appears. She holds an honorary membership on the Aardvarks Team. I'm sure any other female faculty members would be welcomed on any of the three teams. So why not give it a try?

One of the special events of the fall quarter is archery. Here are the highlights of the archery scene. Women's special events: Team winners. Pandas, first place, Aardvarks, second place. Individual winners and their teams. First place, MarySmith, Aardvarks; Second place, Linda Winters, Pandas; Third place, Janice Burns, Pandas.

Men's special events Archery, team winner, Gamecocks. Individual winners and teams. First place, Ron Tomlinson, Gamecocks; Second place, Phillip Johnson, Tigers; Third place tie, Mike Power, Gamecocks, Eddie Cook, Gorillas.

## Selective Service Laws Change

Recent changes in the Selective Service Laws concerning student deferment have been announced by the State Director of the Selective Service:

I. Students must have on file with the local Selective Service board an SS104 form completed subsequent to July 1, 1967. This form is a report for a 2-S (student deferment).

II. The college must complete an SS109 form which indicates that the subject is satisfactorily pursuing a full-time course of instruction.

To be considered as "satisfactorily pursuing a full-time course of instruction," an undergraduate student who is taking a four-year course should earn 25% after credit for his baccalaureate degree at the end of his first academic year, 50% at the end of his second academic year, and 75% at the end of his third year. An academic year shall consist of the 12 month period following the beginning of the student's course of study.

For the Kennesaw Junior College students, this means that a student must earn 45 quarter hours of credit each academic year. Night students who are taking only 10 hours of credit must attend the summer quarter and take a minimum of 15 hours of work at least one quarter in order to meet the 54 quarter hours required.

Kennesaw Junior College must notify the Selective Service Board when a student graduates, withdraws from school, or fails to re-enroll.

The Selective Service Board has announced that no undergraduate student will receive a II-2 classification beyond his 24th birthday.

For additional information concerning Selective Service regulations, see Mr. Thomas Rogers in the Registrar's Office.

## NEW — FIND SCHOLARSHIPS BY COMPUTER

Last year \$30 million in college scholarships went unclaimed — because no qualified persons applied . . . because no qualified persons knew of them.

• Now ECS engineers and educators have programmed a high-speed computer with 700,000 items of scholastic aid, worth over \$500 million, to permit students to easily and quickly locate scholarships they qualify for.

• The student . . . filled, confidential questionnaire and returns it to ECS, with a one-time computer-processing fee of \$15. In seconds the computer compares his qualifications against requirements of grants set up by foundations, business, civic, fraternal, religious, and government organizations, and prints a personalized report to the student telling him where and when to apply for grants for which he qualifies. Thousands of these do not depend on scholastic standing or financial need.
