## KJC Student Guide

# TO ALL NEW STUDENTS - WELCOME - TO ALL RETURNING STUDENTS WELCOME BACK!!

by Frank Wilson

As Coordinator of Student Activities, I was asked to submit an article for this issue of the SENTINEL. I am pleased to do so and would like to take this opportunity to outline some of the programs which come under the "umbrella" of Student Activities.

A recently completed media show to be used at Orientation concludes with the phrase "But when all is said and done, KJC is a state of mind created by you." I think that there is a lot of truth in that statement. KJC will be what you, the students, make it. Activities should reflect your interests, and they will reflect your enthusiasm for them.

I like to think that the range of Student Activities, as much as possible, reflects a microcosm of the larger society off campus. I hope that students not only derive a great deal of enjoyment from them, but can gain valuable experience as well. Before attempting to summarize the program, I wish to emphasize that new groups with new interests are encouraged to organize. The procedure is simple and outlined on Page 24 and 25 of the Student Rules and Regulations.

The present program consists of Student Government, various journalistic pursuits, intramural athletics, cultural events, and more—all supported by Student Activity fees. I will not use a lot of space here to discuss each aspect of the program (all are outlined in the catalog), but I would like to simply highlight a few.

First, Student Government can and has been a viable organization. All elected members sit on the Student Affairs Council of the college, and some serve on the Academic and Administrative Councils. Further, they are or should be the voice of students and student concerns.

Secondly, the three campus publications represent a wide range of journalistic endeavors. They are the school newspaper, the Sentinel; the school yearbook, the Montage; and the crea-

tive/literary magazine, Share.

With regard to intramural athletics, a multitude of sports programs are sponsored throughout the academic year. A copy of the Intramural Handbook explaining all rules, regulations; procedures, and a calendar of events may be obtained in either the Physical Education Building or the Office of Counseling and Placement.

The remaining organizations include pre-professional groups for Physical Education, Recreation and Nursing majors, the Canoe Club, the Photography Club, Life Science Club, Math Club (Mu Alpha Theta), KJC FORUM, Drama Club, Music Club, International Club, and the

Black Student Alliance. Other activities funded from Student Activities funds include the Annual Leadership Conference and Honors Day Program.

The key phrase to making your experience here truly rewarding and profitable is to get involved. If you are interested in joining a particular club or organization, find out who the faculty advisor or student leaders are in the group. If the information does not seem easily accessible elsewhere, stop by the Office of Counseling and Placement and ask. If you are not satisfied with the quantity or quality of entertainment programs, so say. Seek out one of your SGA Representatives. Better yet, if you want to participate in the

planning of entertainment, get on the SGA Entertainment Committee. Again the point is—get involved. Things will only happen if you make them happen.

I would like to close this article by extending to you my best wishes for a good year and that you will remain here as a part

of the KJC community. Again, if you have any questions about the Student Activities Program, feel free to drop by my office which is located in the Office of Counseling and Placement, James V Carmichael Center.

## From The President

Dear Student:

I am pleased to have this opportunity to welcome you and greet you on behalf of the faculty and staff of Kennesaw Junior College.

It is hoped you will find enjoyment and success in all of your endeavors and I look forward to the occasions that will bring us together in the days ahead.

With best wishes.

Cordially yours,

*Horace W. Sturgis*

Horace W. Sturgis  
President

The Counseling & Placement Office is located in the James V. Carmichael Student Center.

Service areas are:

Student Activities

Educational Counseling & Testing

Vocational Counseling & Testing

Personal Counseling

Improvement of Study Habits And Skills

Resolution of Personal-Social Problems

Career Decision Making

Job Placement Counseling

Institutional Testing

Job Interview Preparation

Human Growth Counseling

Orientation

Selection Of Program Of Study

Student Employment

Transfer Counseling

# Attention Students

Your Student Government organization wishes to welcome you back to school. We hope to make this the best year ever at KJC. This can only be accomplished by your active support and interest in SGA.

The office is located on the second floor of the James V. Carmichael Student Center and everyone is welcome to come in and offer suggestions to your Student Government officers or senators. We have the place for you to voice your complaints, compliments, information or ideas.

The SGA meetings are held on Tuesday at 5:00 p.m. to accommodate both day and night students.

Let me offer a personal plea to you. Get to know your Student Government. Make us earn our money. Let us help you with any problems you may have and together we will accomplish the goal of making this the best year ever at KJC.

Officers For The Current Year Are:

Patricia Ashcraft, President; Howell Swain, Vice President; Susan Carson, Secretary; Paul Parker, Treasurer.

In planning a schedule of classes, one of the first things you must decide is how many classes you plan to take. To be a full-time student, you must carry twelve or more credits. To graduate in six quarters (two academic years) you would have to carry sixteen credits — three academic courses at five credits each and one P. E. course at one credit each quarter. Special permission from the Dean of the College is required to carry more than sixteen hours. This permission is usually given to students who are in at least their

second quarter and who have shown by their performance here that they can carry the extra load.

Several things should be taken into consideration in deciding how heavy an academic load to carry. Most successful college students spend two hours outside of class for each class hour. Other activities which consume large blocks—work hours, extra-curricular activities, volunteer work, duties at home, dating activities—all should be considered in planning your schedule. This means that with a sixteen credit schedule,

you need sixteen class hours plus thirty-two out of class hours, or forty-eight hours devoted to college work each week. That's more than a full-time job!

Your previous academic performance should also be taken into consideration. What grades did you get in high school? How hard did you work for them? How hard (realistically and honestly) are you willing to work now? Remember—if you schedule yourself for more work (classwork) than you are really willing to do, you will get the resulting grades!

# Academic Load

## EDITOR'S NOTE

The Editors wish to extend a welcome to both new and returning students this 1976-77 academic year. It is our hope that each student will realize his full potential while attending Kennesaw. One of the first frustrations a student encounters at any institution is registration. The process of hunting for the right building, finding the right advisor, choosing last minute class changes, and filling everything out in triplicate seem endless. More often than not a student emerges from this paper shuffle wondering if the learning process is really worth it. Fortunately it is and there are many capable people druing registration to assist you. Their job is to see that you find your building, advisor, class rooms etc. Most of these people are eager to find the solution or often the best alternative to a problem which a student has encountered.

The editors hope this special edition will also assist you throughout the quarter. This edition contains information concerning dates to remember, a calendar of events, information on who to contact if a problem arises, as well as introductions to student services, auxillary enterprises, veteran aids, and of course entertainment dates throughout the quarter. While we don't suggest this issue will solve all academic difficulties that might arise, we do feel it has a place of importance in your newly acquired paper collection.

## Steering Comm. To Guide 4 Yr. Transition At KJC

"Planning for the future" is a phrase that has taken on new significance this year at Kennesaw Junior College.

Since the Board of Regents' decision in April to convert the college to a four-year institution, KJC officials have been focusing attention on proper planning for the transition. A steering committee, composed of teaching faculty and administrative personnel, has been appointed to give in-depth study to implementing the changeover.

"Through committees, the faculty will be giving further consideration to such issues as the statement of purpose for the college, curriculum offerings, degree requirements, exit examinations, library holdings, public services and other topics directly related to the academic and service functions of a senior college," explained President Horace W. Sturgis.

Some decisions involved in transition already have been made, Dr. Sturgis said. "We know, for instance, the kinds of degrees we plan to offer. As a senior institution, Kennesaw will offer A.B. and B.S. degrees in English, music, history, business administration, teacher education, biology, mathematics and possibly chemistry."

As planning progresses, committees will remain cognizant of the fact that the college will be providing educational opportunities for the unserved areas of the Seventh Congressional District, locations which will become increasingly accessible to the Kennesaw campus when Interstate 75 is completed in 1978.

College officials also will be planning with the awareness that presently 62 percent of students

## Parking Decal

All students who operate a vehicle on campus must have a parking decal affixed to the left rear bumper of the vehicle. This decal should be purchased at registration. The parking fee is pro-rated as follows:

Fall Quarter Through Summer Quarter	\$4.00
Winter Quarter Through Summer Quarter	3.00
Spring Quarter Through Summer Quarter	2.00
Summer Quarter Only	1.00

**4 Year Transition Cont from Page 3**

attending KJC in the fall of 1975 were working either part or full-time in their local communities. Courses of instruction and time scheduling will be planned for continued accommodation of the many individuals who cannot afford to take time from their employment to attend college in other locations, officials said.

Since approximately one-third of KJC students attend evening classes, planning committees will keep in mind the needs of this group, Dr. Sturgis said. Statistics show that students attending evening classes usually are employed in the daytime on a full-time job or in many instances are married women who have daytime responsibilities at home. Nearly 50 percent of KJC students are women, and of these more than one-third are married, the KJC President pointed out.

Growth certainly is an expected trend, according to KJC officials, who anticipate an enrollment of 5,450 by 1982. Other enrollment trends are foreseen. Officials expect an increase in the percentage of KJC students who are enrolled in transfer programs and actually complete requirements for baccalaureate degrees. Presently, records indicate that, although more than 90 percent of KJC students are following transfer programs of study, a relatively low percentage of individuals actually continue their education to a baccalaureate degree.

The inconvenience and added expense of transferring to senior colleges in other locations likely are major factors in discouraging students from pursuing four-year degrees, many officials believe.

Meeting the educational needs of the large number of individuals who live in the service area of the college and cannot afford to attend senior colleges in other areas is the foundation for transition to four-year status for Kennesaw Junior College, officials said. Through careful planning for the future, KJC faculty and administration hope to put feet to that purpose.

**Girl Escapes Drowning**

By JANE LAWING

When Ed Hart, a second year Kennesaw Junior College student, completed his intermediate swimming course at Kennesaw, he received much more than simply a one-hour PE credit; he attained the knowledge, skill, and endurance necessary to save lives. Fate wasted no time in posing a challenge to Ed's recently learned life-saving skills, for on Saturday, August 14--the day after Ed's swimming class ended--his life-saving techniques were put to a supreme test as he dove into the water at Lake Jackson in Jackson, Georgia to save the life of a sixteen year old girl. Ed said that he "couldn't possibly have known what to do" had he not taken swimming courses at Kennesaw.

Twenty-one year old Ed Hart and three friends were spending the weekend of August 14 at Lake Jackson. On Saturday, Ed and his friends were swimming and diving around the deck. Three girls were swimming about 20 to 25 feet from the dock, with their mother watching. Ed heard one of the girls scream "Mama!" and her mother yelled, "Karen, don't do that unless you're playing." Then one of the other girls screamed, "She's not kidding!" At that moment, Ed saw the girl disappear under water. He thought immediately about the drills and practice sessions in swimming class and he dove instantly in attempt to save 16 year old Karen Ledbetter. By the time he reached Karen, she had again disappeared below the water's surface. From his knowledge of life-saving, Ed knew that he would have to descend deeper into the murky water to find her. He delved downward ten feet under water. The water was dark, thus making it hard for him to see the girl. Finally he spotted her by her white bathing suit: "She was falling like a rock." Ed caught her between his legs, assumed that she was unconscious, and brought her to the surface where he found that she was very much conscious. At this moment, Ed felt his only real tinge of fear, for the girl was thrashing and clutching for her life, making it impossible for him to rescue her (and himself) to shore. But Ed knew what to do--he applied a sharp blow to the back of her neck, which settled her down considerable. Ed then proceeded to get her into a chest pull and swim her and himself safely to shore. Upon reaching shore, Karen was unconscious and her stomach was swollen from lake water. Ed did not need to administer mouth-to-mouth resuscitation, but he laid her on her side to get the lake water out of her system. It was there on shore that Ed believes he got the greatest reward and the most gradification for his

REGISTRATION	SEPTEMBER 20-21
CLASSES BEGIN	SEPTEMBER 22
LATE REGISTRATION	SEPTEMBER 22-24

For those students who, for some reason, were unable to register on September 20-21 and have permission of the Registrar to register late.

CLASS CHANGE PERIOD	SEPTEMBER 23 - 24
---------------------	-------------------

Also referred to as "Drop/Add", this process takes place in the Student Activities Room of the Student Center and is the time when students have an opportunity to make changes in their academic schedule. (Students should make every effort to secure a satisfactory schedule during the regular registration process.)

LAST DAY TO WITHDRAW WITHOUT PENALTY FROM A SINGLE COURSE OR FROM ALL COURSES	OCTOBER 28
---	------------

A student may withdraw without penalty (receive a grade of "W" from a single course or from all courses up to this date. Withdrawals after that date will be routinely denied by the Dean of the College who is authorized to consider only documented medical or other evidence of serious hardship. Leaving college without officially withdrawing from courses results in "F" grades.

HOLIDAYS	NOVEMBER 25-26
FINAL EXAMINATIONS	DECEMBER 7-10
END OF FALL QUARTER	DECEMBER 10

International Publications

is sponsoring a

**National College Poetry Contest**

-- Fall Concours 1976 --

open to all college and university students desiring to have their poetry anthologized. CASH PRIZES will go to the top five poems:

\$100 First Place	\$50 Second Place	\$25 Third Place	\$10 Fourth \$10 Fifth
----------------------	----------------------	---------------------	---------------------------

AWARDS of free printing for ALL accepted manuscripts in our popular, handsomely bound and copyrighted anthology, AMERICAN COLLEGIATE POETS.

**Deadline: October 25****CONTEST RULES AND RESTRICTIONS:**

1. Any student is eligible to submit his verse.
2. All entries must be original and unpublished.
3. All entries must be typed, double-spaced, on one side of the page only. Each poem must be on a separate sheet and must bear, in the upper left-hand corner, the NAME and ADDRESS of the student as well as the COLLEGE attended.
4. There are no restrictions on form or theme. Length of poems up to fourteen lines. Each poem must have a separate title. (Avoid "Untitled"! Small black and white illustrations welcome.
5. The judges' decision will be final.
6. Entrants should keep a copy of all entries as they cannot be returned. Prize winners and all authors awarded free publication will be notified immediately after deadline. I.P. will retain first publication rights for accepted poems.
7. There is an initial one dollar registration fee for the first entry and a fee of fifty cents for each additional poem. It is requested to submit no more than five poems per entrant.
8. All entries must be postmarked not later than the above deadline and fees be paid, cash, check or money order, to:

November 17	Wednesday	Seminar: Reality Orientation For Geriatric Patients, 7-9:30 pm Seminar Room.
November 17 18	Wednesday Thursday	Pre-registration for Winter Quarter (Currently enrolled students only)
November 19	Friday	Movie, "Stepford Wives," 11 a.m., 2 p.m., 7:30 p.m., Activities Room.
November 25 26	Thursday Friday	THANKSGIVING HOLIDAYS
November 30	Tuesday	Seminar: Legal Aspects of Nursing, 7-9:30 p.m., Seminar Rm.
December 3	Friday	World Civilization Film Festival, 11 a.m. and 2 p.m., Activities Room.
December 7	Tuesday	KJC Community Chorus Concert, 7:30 p.m. Activities Room.
December 7-10	Tuesday thru Friday	FINAL EXAMS
December 9	Thursday	Growth Seminar, "Robert Frost On Life," 1:30-3:00 p.m., Seminar Room.
December 10	Friday	End of Fall Quarter.

# Definition of Terms

- Academic Load** - The number of credits that a student is taking at one time.
- Corequisite** - Required at the same time as taking a course. Often before taking the course is also acceptable.
- Grade Point Average [GPA]**  

$$\text{Your grade point average} = \frac{\text{Total Number of Quality Points Earned}}{\text{Total Credits Attempted}}$$

You need to maintain a 2.0 or "C" average to be in good academic standing.
- Prerequisites** - Required **before** taking a course.
- Program of Study** - A program of study is the planned set of courses which a student must take to earn an associate degree from Kennesaw Junior College. It is analogous to a major at a senior institution. The programs of study typically include courses in humanities, natural science and math, social science, and an Area IV set of courses which are specific to that area of interest. The programs of study are on pages 39-87 of the catalog.
- Quality Points** - Quality points are a measure of academic achievement. They are the way a college figures your grade average. Kennesaw is on a 4 point system:  
 A = 4 quality points per credit  
 B = 3 quality points per credit  
 C = 2 quality points per credit  
 D = 1 quality point per credit  
 F = 0 quality points per credit  
 Thus, for an A in a five-credit course, you receive four quality points X five credits = 20.
- Quarter Hours, Credit Hours, or Credits** - These terms are used interchangeably. They refer to the value of a course. Most courses at Kennesaw are five-credit courses. A course usually meets one class period (50 minutes) for each credit, or three periods in the laboratory per credit for one quarter.
- Transfer vs. Career Programs** - A transfer program is designed for students planning on transferring to a four-year institution to complete a bachelor's degree. A career program prepares a student for employment in his area after his associate degree.

## Summary Of Area II

Five hours of mathematics are required in Area II. An additional five hours may also be taken in Area II. Some students, because of Major Field requirements in Area IV or because of four-year college requirements, must take this additional five hours in mathematics anyway. The following recommendations are made by the math faculty.

### A) Pre-Calculus Fields

Some 4-yr. colleges require these fields to have calculus. Check your 4-yr. college.

- a) Ma 101 and Ma 102
- or b) Ma 101 and Ma 116
- or c) Ma 116

Agriculture  
 Biology  
 Forestry (Ma 107 req'd in Area IV)  
 Pre-Dental Hygiene  
 Pre-Medical Technology  
 Pre-Medicine & Dentistry  
 Pre-Pharmacy  
 Pre-Veterinary Medicine  
 Sec. Education (if planning to teach in Nat'l Science area)

### B) Calculus Fields

- a; Ma 101 and Ma 102
- or b) Ma 101 and Ma 116
- or c) Ma 116

Agricultural Engineering  
 (4 qtrs. of Calculus req'd)  
 Chemistry (2-4 qtrs. req'd)  
 Mathematics (4 qtrs. calc.)  
 Physics (4 qtrs. calc.)  
 Pre-Engineering (4 qtrs. calc.)

### C) Business Fields

- a) Ma 101 & Ma 236
- or b) Ma 101 & either 107, 141, or 236

Business Administration  
 Business Education

### D) Educ. & Social Science Fields

- A) Ma 111 & either Ma 107 or Ma 141 (If NOT planning advanced work)
- or b) Ma 101 & Ma 107 (if planning advanced work in area requiring statistics)

Elementary Education  
 Physical Education  
 Sec. Education (if NOT planning to teach in Natural Science area)  
 Social Services  
 Social Science

### E) Humanities & Phys. Ed. Fields

- a) Ma 111 & either Ma 107 or 141

Art  
 Criminal Justice  
 Journalism  
 Language & Literature  
 Pre-Law  
 Recreation  
 Speech & Drama

### F) Nursing

- a) Ma 099 (if the student does not have 2 yrs. of high school math **excluding** business or general math)
- b) Ma 101 or Ma 107 or Ma 111 if expecting to transfer to a 4-yr. college (check for specific requirements).

## Girl Escapes Drowning Cont from Page 4

heroism: Mr. Ledbetter, Karen's father, spoke the emphatic words, "I'm glad you knew what to do, because nobody else did."

Ed said that he does not feel like a hero--he simply did what he was "supposed to do." (However, he will receive a Presidential Award for his act of heroism.) Ed remarked that when Karen recovered from shock, she was "very happy." Incidentally, Ed and Karen are now enjoying a dating relationship.

Now, Ed Hart heartily recommends swimming and life-saving classes to all. The PE Department at Kennesaw has been pushing to have swimming required for KJC students, but action has been delayed because of the four year plan. By taking the beginning and intermediate swimming classes at Kennesaw, Ed learned the basic strokes of swimming and he acquired knowledge of life-saving and the endurance it takes to save a life. Ed highly commends his swimming instructor Dr. Hudson--who just recently left Kennesaw--for her great motivation and excellent teaching. Ed said, "she really worked us" in class. He said the swimming Dr. Hudson's required 18 laps before and after class contributed greatly to his endurance on August 14. Ed admitted that he formerly believed that life-saving was just for life guards; "I never thought I could actually use it." The swimming classes emphasized to him the importance of water safety. In fact, he said, "I wouldn't go swimming now without someone who knows life-saving."

Ed remarked that any one in his swimming class could have done what he did on August 14. And he realizes that the outcome of that day would have taken a probable tragic turn if he had not enrolled and participated in KJC swimming classes. Great going Ed Hart!

# Core Curriculum

All of the programs at KJC, with the exception of those designated as Career Option, show requirements in four areas: I. Humanities, 20 credits; II. Natural Science and Mathematics, 20 credits; III. Social Science, 20 credits; IV. Major Field, 30 credits, total - 90 credits.

These areas represent a Core Curriculum. If a student completes the core curriculum and graduates from KJC, and transfers to a senior institution in the University System of Georgia, that school must accept his core curriculum as completing their core curriculum requirements. This applies when the student goes, for instance, from our Business Administration program into Business Administration at the senior institution. But this does not necessarily apply if he/she changes majors. This means that they may not

require further general education courses of the student.

If the four-year school requires some courses in a core curriculum for a particular major that Kennesaw does not, they may require a student to take them, but they may not add them to his overall program; they must substitute for something else so that no more hours are required for graduation.

This acceptance of the core curriculum as a unit if completed (Associate in Arts Degree earned) makes it an advantage to complete a program and graduate from KJC. If a student does not complete the Associate in Arts degree, courses taken for core curriculum requirements here must be accepted by senior institutions for those areas; i.e., Art 101 meets Area I requirements at KJC, and must be allowed by a sen-

ior institution. That school may, however, decide what other courses are to be required to complete that area of the core. Therefore, it might be to the advantage of students not planning to graduate to choose their courses to meet the requirements of the institution to which they plan to transfer, not KJC's requirements.

If a Kennesaw Junior College student has difficulty getting his work accepted at a senior institution, he should seek assistance from the Dean of the College, because senior colleges are expected to accept the work according to these guidelines.

## Auxiliary Enterprises

Auxiliary Enterprises is a service organization composed of a bookstore, a snack bar, a cafeteria, parking, and vending activities. Operated by the college, any profits are placed on reserve to replace obsolete or ineffectual equipment.

The snack bar, serving sandwiches, soups, hamburgers, hot dogs, and snacks, is open from 7:30 a.m. until 8:30 p.m. Monday through Thursday, and 7:30 a.m. until 4:00 p.m. Friday. The cafeteria serves a hot lunch between 11 a.m. and 1 p.m. daily.

Ordinarily, the bookstore is open from 7:30 a.m. until 6:30 p.m., Monday through Thursday, and 7:30 a.m. until 4 p.m., Friday. Students can buy all necessary books for courses in the bookstore. The first week of the quarter, the bookstore is open until 8:30 p.m. If, in the first two weeks of the quarter, you find you do not need a book which you have purchased and you have **not made any markings** in the book, the employees can refund the full amount upon **presentation of a receipt**. If you should not have your receipt, or if you have marked in the book, the bookstore may buy such books back at half the original cost. (However, this applies only to books which will be used in courses the following quarter.) the bookstore again stays open from 7:30 a.m. until 8:30 p.m. the last week of the quarter and will buy back used books, at this time. It is recommended that you buy all your books at the **beginning of the quarter so that new books can be reordered if needed**.

## Veterans Corner

Veteran Students have certain obligations to the school and the Veterans Administration to ensure timely receipt to their monies due.

To be eligible, a veteran or dependent attending under the "G.I. Bill" must attend classes. In the event that a recipient receives a failure at the end of the quarter and has not been attending classes his V.A. money will be terminated retroactive to the date of last attendance. This often created a large overpayment by the V.A. This same attendance policy applies to those students who drop a course or withdraw from school.

All veterans who desire to draw the G.I. Bill must notify the Office of Veteran Affairs at registration or within the first 10 days of the academic quarter that they are here and wish to draw or continue under the G.I. Bill. (Forms will be provided to ensure the proper number of hours are recorded, etc.) Students previously certified who do not accomplish these forms will be terminated retroactive to end of the previous quarter, or date of last attendance.

Veteran students will be paid by the V.A. only for those courses required by their curriculum. This control is also applicable to those remedial courses offered by this institution and a student should insure that he is authorized to be paid for remedial courses before he enrolls.

All changes in number of hours being taken must be reported promptly to the Office of Veteran Affairs so that it can be reported to the V.A.

Full time students may be eligible to work part time under the Veteran Work-Study Program. Jobs are limited and more information can be obtained from the Veterans Coordinator or the Veterans Representative on campus (Vet-Rep).

Pay problems will be handled by the Vet Rep on campus who will be at this institution in room 208, Student Center as follows: Monday and Wednesdays 11 a.m. - 4:15 p.m. Thursdays: 10 a.m. - 12 noon. Fridays: 11:30 a.m. - 2:30 p.m.

Evening students may turn in a pay inquiry, either by phone (422-8770, ext. 253) or by stopping by the Registrar's office, which is normally open until 8:30 p.m. each school day.

In the event any student calls the Atlanta Regional V.A. office on a problem, it is very important that the student obtain the name of the counsellor who answers their inquiry.

Payments that must be repaid to the V.A. through the Central Accounts Receivable Division (CARD) at Ft. Snelling, Minn., should always show the V.A. claim number on the check or draft so that credit can be made correctly and without delay.

## Regents Test

It is the responsibility of each institution in the University System of Georgia to assure the other institutions, and the System as a whole, that students obtaining a degree from that institution possess the basic competence of academic literacy, that is, certain minimum skills of reading and writing. The University System of Georgia Regents' Testing Program has been developed to help in the attainment of this goal.

To meet the objectives of the Testing Program, which is coordinated by the Dean of the College, Kennesaw Junior College has adopted a policy which contains the following elements:

1. Passing the test is a requirement for graduation.

2. Students enrolled in degree programs who have successfully completed 45 hours, including English 101 and English 102, are encouraged to take the test at this time.

3. The total number of quarter hours successfully completed appears on the student's quarterly grade report.

4. All students who successfully complete remediation for the Regents' Test may take the test during the following quarter, even though not enrolled. All other students must be attending Kennesaw Junior College during the quarter in which they take the test.

5. The test is administered twice on one day

each quarter, once during the day and once during the evening.

6. Students are excused from classes to take the test.

7. A brief preparatory session is offered each quarter for those students wishing a review.

8. Upon request, students whose mother tongue is not English are exempted from the test.

The test, although consisting of more than one part, is considered a single unit and is administered as such; passing the test is defined as scoring about the cutoff on **each** of the parts of it at the **same** administration.

10. Students who fail any part of the test must retake and pass the entire test. These students are required to take the Regents' Test Remediation Course the next quarter they are enrolled at Kennesaw Junior College. Passing this course is prerequisite to retaking the test.

11. Successful completion of the test is noted on the student's permanent record card.

12. Students eligible to take the test should register for the test in the office of the Assistant Dean at designated times prior to administration of the test. At this time, students pick up a Regents' Test Admission Form. Both the Admission Form and the student identification card are required for admission to the test.

# Adult Education

Meeting the educational needs of adults through community service programs is one function of Kennesaw Junior College showing rapid growth in recent years, records reveal.

Enrollment in 1975-76 reached 8,480, the largest in the nine-year history of adult education at the college. The figure reflects a gain of 52 percent over the 1974-75 enrollment. Some 132 short courses, workshops, conferences and seminars were offered.

Programs for older people were expanded and professional growth courses were broadened in community service outreach efforts.

Programs for 1976-77 will continue the expansion of public service offerings with 16 short courses and seven seminars and mini-symposia scheduled for fall quarter. Most programs begin in October, with registration currently open through the Community Services Office.

Fall short courses include Advanced Photography, Adventures in Attitudes, Ardenics: the New Fit-Bit, Assertive Training: introductory and advanced, Behavioral Management, Building and Learning to Play the Appalachian Dulcimer, Coping with College, Georgia Handbook on Wills.

House Plants, Interior Decorating, KJC Community Chorus, Marital Enrichment Workshop, New Beginnings for Singles, Property and Casualty Insurance Agents Preparation Course, and Psychology and Religion.

Other fall programs include two mini-symposia: Psychology and Religion, October 7, and Psychology and Medicine, December 2. Seminars will include Saturday for Singles, October 2, The Middle Years: A Time for Growth, Oct. 19 and 26, The Challenge of Living with Children in Divorce and/or Remarriage, Nov. 9 and 16, YES! Conference (Youth Encounters Senior Citizens), Nov. 4, and GROWTH Seminar (for retired persons) Nov. 11.

To facilitate registration, the community services office this year will accept registrations by telephone, 422-8770, ext. 333 or 334.

Scheduled during 1977 are other mini-symposia: Psychology and Law, and Psychology and Education. In April, Symposium '77 will examine "The Human Response," and Paul Ehrlich will lead a Self Survival Seminar in the spring. Other programs will include the Georgia Bankers Association Audit Session for Banks, more GROWTH seminars for older adults and a January conference in Offender Rehabilitation Volunteer Training.

# KJC Foundation Scholarship

Kennesaw Junior College Foundation Honor Scholarships will be awarded this year to 30 students, an increase from 25 scholarships offered last year.

According to the 1976-77 Foundation budget, some \$14,940 will be awarded in individual scholarships of \$498 each. The scholarships are given on the basis of academic potential, according to Tom Patterson, director of student aid and assistant director of admissions.

In addition, eight music scholarships totalling \$2,400, will be given. This figure reflects an increase from four the previous year.

During 1975-76, Foundation Honor Scholarships were awarded to the following students:

Robin Adelman, William S. Annandale, Diane Baker, Cynthia Butler, Donna Crawley, Pamela G. Croke, Barbara McKinley, Sandra Smith, Judy Stephens, Diane Swanson, Nancy K. Tapp, Susan Todd, Laurie Underwood and Catherine K. Lee, Marietta.

Cynthia B. Chandler, Douglasville; Vallyn, Cowan, Janet M. Hall and Joan M. Jordan, Smyrna; Susan M. Goggins, Powder Springs; Michael Hogan, Austell; Cynthia Holt, Dallas; Lee Ann Hughes, Atlanta; Linda F. Mooney, Canton; Joan Payne, Kennesaw; and Toni R. Shepherd, Cartersville.

# Physical Facilities Expanded

To keep pace with an expanding enrollment, Kennesaw Junior College continues to add new physical facilities to the 152-acre campus.

Recently approved was a 21,000 square foot Humanities Building, which will be erected beside the present Social Science Building. Present humanities facilities will be converted to house business administration and mathematics, officials said.

With the opening of the James V. Carmichael Student Center in October, 1975, the former student center was vacated. Space in the old 13,000 square foot structure is being renovated as an administration annex to accommodate admissions, data processing, student affairs, veterans affairs, financial aid, library audio-

visuals, nursing faculty offices and classrooms, according to Controller Roger Hopkins.

The contract for the renovation has been awarded to Macrow Construction Company, 1397 Fairview Road, Atlanta, with the stipulation that construction will be completed in 150 calendar days. Officials expect the administration annex to be ready for occupancy by spring, 1977.

A new 9,500 square foot physical plant building is nearing the bidding stage, according to Hopkins. Plans are to remodel existing maintenance facilities to house the music program.

Other space needs are being studied, particularly in the library area, officials said.

# 6 Men Needed

The Agnes Scott College Blackfriars need six men for a production of "Ring Round the Moon," a romantic comedy by Jean Anouilh translated by Christopher Fry. Auditions are Sept. 27 and 28 at 7:30 p.m. in the Winter Theatre of the Dana Fine Arts Building. Performances will be Nov. 12, 13, 18 and 19. For more information call the Agnes Scott Theatre Department at 373-2571, extension 257.

The central male role is a tour de force for one actor playing identical

twin brothers, Hugo and Frederic, of very different personalities. Hugo, a cynical man-about-town, attempts to extricate Frederic, a shy, kindly dreamer, from a love affair.

The rest of the male cast are zany men, most of whom are involved in clandestine romances. The roles include a melancholy millionaire in his 50s, the millionaire's private secretary who must be able to dance, an aging patron of the arts, a butler and a non-speaking General who must dance well.

# Creative Writing

Writers: You can win \$100; \$50; or \$25 for best short story, humorous essay, or other short pieces between 250 and 1000 words-with free copy of winning COLLEGE CONTEMPORARIES Magazine for all-if

you enter the Collegiate Creative Writing Contest whose deadline is November 5. For rules and official entry form, send self-addressed, stamped envelope to: International Publications, 4747 Fountain Ave., Suite C-1, Los Angeles, CA 90029.

# Notice To All Students

Reserved parking spaces are available for handicapped students. To obtain a reserved parking space it is necessary to see the Dean of Student Affairs. It will be necessary to follow this procedure each quarter.
