

WHAT'S IN A NAME??

SOUTHERN TECH

April 16, 1974

ATTENTION, ONE AND ALL !

Southern Tech is having an Arts, Crafts, and Hobby show in May. All students, faculty, and their families are invited to participate.

When: May 8, 9, 10 2 - 8 P.M.
Place: Southern Tech
Room 470 Electrical Building

Please bring or send the articles you wish to exhibit to room 470 Electrical Building on May 6 or May 7 between 10:A.M and 4 P.M. The exhibit will have tables for articles to be shown, or sold.

Mark your items with your name, table on which to be exhibited, and price (if applicable). Please mark the items clearly

Let's all participate and show we have the good ole STI spirit. With your help we can make the show a tremendous success.

We need your help. Let's all pitch in and work together to produce a good Exhibit.

Any questions callLouise Taylor
422-6888
Adele Galke
422-1800 Ext.204

Yours for the STI spirit,
Louise Taylor

SAFETY AND COMMUNICATIONS

We desperately need safety, communications and flag people for the Bath tub Race. If interested contact Denver Hough P.O. Box 8335 or come to the safety and communications meeting Wednesday, April 10th, at 6:00 in the T.V. room of Dorm I. Thank you.

ARCHITECTURAL REGISTRATION

Those AET students who plan to become Registered Architects in the near future, well just forget it. Southern Tech graduates that is, and in the near future that is. Many students simply don't know what the score is, and one reason is because they don't attend AIA meetings. AIA helps bridge the gap between Education and the real world of Architecture as a profession. If you care about the profession which you expect to be your livelihood (you must think you do because you came to this facsimile of an ACCREDITED ARCHITECTURAL SCHOOL) then AIA is the start of professionalism, it simply could be too late.

Come to the AIA meeting Wednesday night at 7 P.M., April 17, in the Library Seminar Room and hear Mr. Ralph Pettit Registered Architect, AIA, and yes, he is actually a graduate from this here School of Architectural Engineering Technology. Mr. Pettit has been working in close connection with this Student Chapter of the AIA and with members of the Ga. State Board of Architectural Registration. He has helped tremendously in obtaining the amount of credit we receive for our 4 years of Education here at STI. Come and ask your questions about Registration to Mr. Pettit and discuss problems in Architecture at this school.

AIA MEETING

APRIL 17, 1974

LIBRARY SEMINAR ROOM

7:00 P.M.

SPEAKER: MR. RALPH PETTIT
REGISTERED ARCHITECT
MEMBER OF AIA
SOUTHERN TECH GRADUATE

COMMON SENSE
by Thomas Payne

During the past year, many things have been said and written about various topics on the Southern Tech campus. But there are many who have not really received proper gratitude from any source. Those to whom I refer are our department heads and faculty.

The students of Southern Tech enjoy a tremendous privilege of having a most cordial relationship with the faculty and department heads. The majority are sincerely concerned about Southern Tech's "limbs" status, and are sincere in their efforts to help students achieve high standards of professionalism in their chosen vocations. Our department heads are constantly under pressure and limitations because of the Georgia Tech monarchy, not to mention both faculty and department heads being amongst the lowest paid among other colleges in the southeast. However, Southern Tech is something more to them than just a teaching position, and they constantly continue to give the students the best they can in every way, both academically and, in helping the students to help themselves in accomplishing goals and student programs and events which are vital to the continued success and growth of Southern Tech. They keep themselves open minded and are willing to discuss honestly with any student about any issue. Our faculty, to some extent, even invites students to call them at their homes if there

an
any problems occur in their studies. At some campuses, students have problems just seeing any professor outside of class for help.

Many faculty members are interested in various student activities, and devote a tremendous amount of time to various activities. Faculty advisors to the fraternities established on campus, advisor to the student organizations such as the newspaper, radio station, the SGA, the faculty involved with the Lions Club, etc... have helped in great proportions to accomplish the great accomplishments of the past year.

The students involved in the school's activities are grateful for the leadership

provided by our faculty and department heads, and the students of Southern Tech express a sincere THANK YOU.

Please continue your support and attendance at the school's functions and activities, and encourage those not involved to become involved. Due to many examples of the success of many of our past alumni, I don't think you will be let down by the alumni of the future.

Letter to the editor:

Now that streaking is not a fad anymore. It appears that the students actions were not heard. It was brought out in the meeting we had with Dr. Carlson that the streaking was done for a reason. That reason is simply to have a full-time public relations department here on campus. He agreed and that's all we have heard about this subject.

The many articles written about this have yet to be answered in the WHATSINAME for all the students to read.

I would wish Dr. Carlson would answer one of these letters.

Thankyou.

One more thing I believe the WHATSINAME this year has been the greatest. Hats off to the staff for doing such a great job.

(Name withheld on request.)

Letter to the editor:

Once again, the hungry wolfpack is ominously circling the hapless shepherd and his flock, howling for blood. Yes, poor fee payers, it is once again time for the SGA to try to administer the student activity fee to the organizations which it funds.

According to the estimate prepared by Mr. Baker's office, about \$65,535.00 will be collected from the student body in student activity fees during the 1974-75 fiscal year. However, the total amount requested by the budgeted organizations is \$77,916.65. The difference is a whopping \$12,381.65.

Clearly, it is obvious that there is far from enough money to go around. But each of these organizations would not have asked for the amount contained

in its budget if it did not feel that it did not need it.

The SGA has a tremendous problem in reconciling this dilemma. How should it reduce the budgets? Should it try to cut them item by item? Or should it refuse to fund one or more organizations? Or . . . ?

The organizations would probably not like any of these methods. There just isn't any way to satisfy everyone.

Only 84.11 per cent of the money requested is available. For now, the only truly fair thing to do is appropriate 84.11 per cent of the amount requested to each organization. No one will like the result, but at least everyone will receive a major portion of their request.

Of course, the Athletic Department would receive the biggest cut under this program. Its allocation would be reduced from \$43,445.00 to \$36,541.93. This just isn't fair, but for the short term, it's the only fair (for all) thing to do, if the SGA wants to keep funding all the presently budgeted organizations.

The final solution to this problem would be to find some sort of supplemental funding. The Athletic Department could seek other funds, either from the school, the alumni, the students, or the government. The four "media" could also seek funds from the same or other sources. There are many alternatives. We owe it to ourselves to explore them all.

Supplemental funding is the only answer. For now, we can only grin and bear it.

Mike Rophone

**ALL I WANT IS
AN UNFAIR ADVANTAGE**

FOR SALE

A 1969 Sentry Mobile Home. Includes drapes, some furniture, lawn building and skirting. Only \$3600.00!! For more information call 422-1415.

'STI SPIES'

FELIX & STELLA FLY

BY

Stella: Well I am certainly happy to see that the streaking fad has faded. It has got to be the most disgusting thing I ever heard of or seen.

Felix: Ah, don't get so upset. It wasn't that bad.

Stella: What!!! What are you? Some kind of pervert?

Felix: I can't believe you! Everywhere we go, we streak.

Stella: You stupid...we never wear clothes. But anyway who wants to look at those people with all those bouncing parts.

Felix: I don't know either. Why don't you ask some of those people who came out of the administrative building to see two streakers ride by on bikes. They laughed their heads off. Ask them why they went out to stare.

Stella: I don't care what they did! I'm just glad everything is back to normal. Why every newspaper I landed on had something about streakers.

Felix: Yes, the T.V. and newspapers are back to normal. It's back--- all back on the front page, people are still killing one another, Nixon's still in trouble, cost of living is still going up, and STI is still manipulated from down South. Yes, our society is back to normal.

Stella: Whoopee, what a fancy speech! The point is that those people are immoral for running around naked. There's too much freedom in America; the young people are going to ruin our whole society.

Felix: My, my, my. I certainly hope the students don't find out the power they have?

Stella: What the hell does that mean?

Felix: Well, with all this freedom to ruin their society maybe they will start passing out guns to the children like they do in

Northern Ireland or maybe start a war like in Viet Nam. Hey, do you think Nixon and the boys ever streaked or anything else? They seem to have had a lot of freedom.

Stella: What, does all that mean? They aren't students.

Felix: No, they're not, but who damaged America? Those radical, immoral students who streaked or those honest, upstanding, very moral, gentlemen. Instead of people worrying about the young people they better straighten out the old.

Stella: I think you're finally getting to me. But don't you think those people who streaked will regret it later in their lives?

Felix: Don't you remember the beginning of the Viet Nam war. Congress jumped both of our feet in. But after fooling around for 10 years they decided that it was all immoral and a waste. Do you think they will regret it for all those who were killed and wounded?

Stella: I understand now Felix. America made it through a revolution, a Civil War, WWI, Korea, Race Riots, student protests, Viet Nam, and we'll make it through Watergate. But of greater importance we'll make it through that dread immoral act of streaking.

Felix: Exactly.

If you are graduating Spring or Summer quarter of this year be sure to come by the yearbook room and fill out a request form. The 1974 Log will not be coming out until registartion day of Fall quarter.

March of Dimes Walkathon

Have you thought about donating some of your time so that all children can enjoy a life without birth defects? The annual March of Dimes Walkathon is quickly coming to a start April 20th for those who are willing and able to offer their services for a worthy cause. If you have not registered the time is now, because sponsors must be secured before Saturday. You can obtain registration forms in the SGA office. Each sponsor, businessman or friend, pledges a certain amount for each mile completed by the walker. The Walkathon is planned over a designated route and distance beginning and ending at the Marietta High School. Funds from the March of Dimes Walkathon will be used for research, medical services, and education in the fight against birth defects. Your participation and hardwork will open the door toward the betterment of future generations.

ZEKE
CHAPTER

Along with ZEKE the Brothers of Tau Kappa Epsilon invite you to our Spring Rush. Spring Quarter is one of the best quarters to pledge TKE, because the fraternity takes it's Florida trip, it's active in the Bathtub Race and plays in Intramural Sports. So if you want to pledge the best, come to TKE's Spring Rush. It will be held Wednesday April 17, 1974 at 8:00 PM, At Chimney Hill Apts. Club House.
