

WHATSIZNAME??

SOUTHERN TECH

May 28, 1974

"Mayor" Cirelli discusses replacement of specific administrative positions.

The following article is the result of an interview session between representatives from the WHATSIZNAME and Southern Tech's newly elected mayor, George "Rocco" Cirelli, which touched on many topics relating to Mayor Cirelli's plans for his administration.

Q. What was your first reaction, Mayor Cirelli, to the announcement of your sweeping victory?

A. Knew it was comin' all th' time.

Q. What will be your first official act as Mayor of STI?

A. I plan to shake down the . . . I mean ask the SGA for more funding for intramurals.

Q. Do you see any need for changes in personnel over in the Goatshed . . . that is, the, ah, Administration (snicker)?

A. Yeah. We're workin' on gettin' 'em some shoes from Portland Cement.

Q. Where will your administrative assistants come from?

A. From Jersey, Chicago, Miami, and New York.

Q. Mayor Cirelli, do you plan to change your on-campus image?

A. Yeah. I plan to wear three-piece suits so's I can carry an executive model heater.

Q. What is your favorite day of the year?

A. Saint Valentine's Day.

Q. How will you improve relations between Ga. Tech. and Southern Tech?

A. I'll make 'em an offer they can't refuse. To this end, I've purchased a horse for Dr. Pettit to cuddle with.

Q. (Snicker).

KISS OFF EDITION !

This will be the last edition of the "Whatsizname" for this school year. It has been a pleasure serving you and we hope to see you in September. Have a great summer!

LIONS

To the Southern Tech Community and Friends of Southern Tech.

Dear Friends. Thank you very much for your outstanding support of the various Lions Club projects centered around the Bathtub Race Weekend. Your enthusiastic purchase of Bathtub Race decals and tee-shirts proved that there is a Southern Tech spirit. At this date, the club has a profit on this project of \$230.06 to be divided between the Hays Foundation on campus and the Kennestone Hospital Building Fund.

Your hunger and thirst on Race Day provided us with a concessions stand profit of more than \$400.00. This also will be divided between the Hays Foundation and Kennestone Hospital.

The results of the Lap Sponsor program initiated by the Lions Club and sponsored by the Presidents Club, are not yet known. All proceeds from this particular project will go to Kennestone Hospital.

Your support has provided needed assistance to students on campus and has promoted the image of Southern Tech's involvement in the local community. We in the Lions Club appreciate it and so does Southern Tech.

Officers and members of the
Southern Tech Lions Club

OPINION

Southern Tech is becoming increasingly well known for its academic quality. However, to the students that go there, it is not known for the quality of its college life. Some of that feeling may have changed after the Great Bathtub Weekend.

The organizers of the activity were extremely pleased with the turnout for the event. During Friday night's party, observers estimated the crowd to range in size anywhere from 300 to 700 persons, depending on the degree to which the observer was inebriated. In any event, the crowd was larger than any previous crowd for a similar event.

Actually, though, there were no previous examples to go by. This was the first experience STI has had with the new "alcohol-on-campus" rule in a major, school sponsored activity. For the most part, the crowd was well behaved on both nights.

I am personally very happy that the events took place, and I hope that we have more of them. From this example, the Administration should be able to anticipate the student's desires and provide even better events next time. This was, by far, the best activity ever put on by the SGA.

The staff of the "Whatsizname" wishes to thank you for your patronism through the past year. Thank you not for only your support as students, but as concerned citizens of the Southern Tech community. A special thanks to those students, faculty, SGA members, and administrators who took it upon themselves to do something far beyond their normal obligations to Southern Tech. It is through your efforts that Southern Tech is on the move forward. This year SGA deserves acknowledgement for the continual effort to improve STI and for acting as a liaison between the students, administration and board of regents. Next year the SGA will have an even larger responsibility. The responsibility to carry on what has been done and to make even further progress in the continuing effort to improve STI. The "Whatsizname" wishes the best of luck to the SGA in the coming year and hope you will serve STI in the best manner you can.

BLOOD ?

Last Wednesday, May 22, Sigma Pi fraternity sponsored a blood drive here on campus. Student response was more than expected. As chairman of the blood drive I was overjoyed to see that the students cared enough to come out and give their blood to a worthy cause. Our goal for the drive was 100 pints. We had 136 persons consisting of 132 students and 4 faculty members to turn out for the drive, with 114 pints collected. From these figures, I can only ask one question: where was the rest of the faculty? Since giving blood is a virtually painless task, why didn't more of our faculty care enough to come out of their offices for 30 minutes to give? I would like to thank Mr. Jess Ellington, Mr. Al Hunkin, Mr. Walt Burton, and Mr. Gillian Haddle, our four faculty members, for giving of themselves.

The blood that was collected was donated to Zeila Sellers, to aid in her recovery from an accident. I would like to thank everyone who showed up for making this part of our drive a success.

Although we exceeded our goal, we should have had more donors. I would like to challenge everyone who donated blood to bring a friend along with themselves to the next blood drive, which will be Fall Quarter of next year. I would also like to challenge more faculty members to come down from the Goatshed and offices to donate.

As I said before, our drive was very successful, and I would like to thank every club and fraternity as well as the large amount of independents who donated blood. We had good turnouts from each group, but I know there could be more. Thank-you for making the drive a success, please help to make the next one an even better one.

SNOW SKIING!

NOW IN ATLANTA

YEAR-ROUND

Vinings Ridge Ski Area
 ... overlooking Atlanta skyline ... artificial snow surface that skis just like real snow ... 500 ft. slope ... lift ... racing program ... lessons ... bar with beer, wine & specialty drinks (Easy Rider, Snow Bird, etc.) ... open year round ... day & night - - 12 noon to 10:30 ... 432-9563

PR office

The Professional Engineers-in-Education, a division of the Georgia Society of Professional Engineers, will hold its quarterly meeting at Southern Technical Institute, Thursday, May 30.

Invited are representatives from each department of Southern Tech, Georgia Tech and the Department of Agricultural Engineering at the University of Georgia. At least 35 persons are expected to attend from the three colleges.

"What we are trying to promote," says Professor J. Rod Lee, a STI faculty member and PEE Secretary, "is more membership in GSPE of more educators." Lee is soon to be installed as President of the Sandy Springs Chapter of the Georgia Society of Professional Engineers.

The program will begin at noon with a luncheon and welcoming speech by Dr. Walter O. Carlson, head of Southern Tech.

track !

Southern Tech's track team captured second place in the Georgia Intercollegiate Athletic Conference's championship track tourney and received the first trophy ever won by the team.

Tech competed against Berry College and Oglethorpe University in the conference meet at Rome, May 9. LaGrange and Georgia Southwestern were scheduled to show but did not appear.

This year marked the first time that Southern Tech has been able to field a full team according to track coach Clancy Head. There are 16 students on the team.

"I've been working four years to reach this point," said Head.

Tech grabbed all three spots in the spot and discus events. Individual honors went to Barry Jiske, first place, who received a plaque, George Cirelli, second place, who received a silver medal and Stan Ellard, who took third place and a bronze medal.

In other events, Ellard took fourth place in the javelin and Dan Smith received a silver medal in the 120 yard high hurdles. In the 440 yard and mile relays, Tech took third place and each runner got a bronze medal. Tech also won fifth place in the long jump and triple jump. The future of track at Tech looks good according to Coach Head.

"Probably in about two, maybe three years time we will have a real championship team and I'm sure we'll capture first place in the GIAC conference championships then."

In regular season meets, the Hornets won five and loss nine against such teams as DeKalb College, Mercer, Oglethorpe, Gainesville Junior College, Georgia Southwestern, Emory and Bainbridge Junior College.

First Place in this year's Georgia Intercollegiate Athletic Conference tourney was chosen to be Berry College.

Public Relations Office

softball

Well, its the last week of school and it's the last week for intramural softball. It looks as though three teams could still win the championship.

Delta Phi has one game remaining and if they play like they did in their last game against the Freaks, they will have a tough game. Rocco's Raiders are in second with three games to play. The last of the three are the Surprisers, who won the Intramural football championship this year. But they are going to need a little something different to win it in softball.

Good luck to all the teams and have great summer!

Linnie Thomas

Week #6

| | |
|-----------------------|-----|
| Delta Phi | 9-0 |
| Rocco's Raiders | 7-0 |
| Surprisers | 6-1 |
