Tau Alpha Pi

Tau Alpha Pi is a national collegiate honor society which series to bestow upon qualified engineering technology students lifetime recognition of superior scholastic achievement.

Founded in 1954, on the campus of Southern Technical Institute, Tau Alpha Pi has grown to encompass twenty chapters throughout the United States, with over 5,000 student and alumni members.

Membership in Tau Alpha Pi is open to all students who can meet the following prerequisites:

1. Hold an accumulated grade point average of 3.5 or better.
2. Have been on the Deans list two consecutive quarters prior to initial membership.
3. Have fifty or more hours remaining at Southern Tech.
4. Have no record of a failure while at Southern Tech.

If you meet these qualifications, I urge you to seek this honor by submitting your name, box number, department, and class standing for evaluation. Please leave this information with the post office in my box.

Chris J. Welty

HERE'S YOUR CHANCE to see, sell or buy some attractive hand made displays done by our very own students and faculty. Come to the Arts and Crafts show in the Seminar room of the library and be pleasantly surprised. We really have some very good talent on our campus. Don't forget, April 21-25.

FRANKS' FOOD FACTS

In an effort to keep all campus members aware of what is happening in the food service areas here, I shall take some of your time in this space each week to answer questions, explain what has occurred, announce any future changes, and at times just tell you about food and food-service.

Meal plan students have asked me what more they will get for their additional \$11/qtr. In a letter distributed under my signature, several reasons for the increase are listed and explained. Quite frankly, the meal plan was priced too low in the Fall and Winter Quarters and we are trying now to adjust. So my answer is that the additional \$11 is not buying more; it is just an adjustment to try to make your purchase price more reasonable for me to operate within.

That thought makes me want to explain something to everyone at the same time. Foodservice on this (or any) campus is regarded as a money-generating enterprise. We are expected to charge enough and manage these incomes in such a way that we show a 5% return annually. In any other operation this 5% would be called profits; the state prefers "replacement fund," because all "profits" go back into new equipment, major repairs, etc. The state does not subsidize foodservice. On the contrary, we are expected to return money to the state. I hope you all understand and appreciate the different positions this profit-making puts foodservice in. We are members of the staff on campus but we must "turn a profit" on our fellow campus members. Many of you appear not to have understood our position prior to this. I hope this makes matters clearer and our relations smoother.

Frank Jahelka
Foodservice Mgr.

PROGRAM FOR EDUCATIONAL AND CAREER STRATEGIES

4/4/75 - 5/30/75

STUDY SKILLS WORKSHOP

4/4/75 - 5/2/75

Friday: 9am - 10am (or)
5pm - 6pm

Library Seminar Room

TOPICS:

- SQ3R
- Scheduling
- Notetaking
- Textbooks
- Preparing for and taking exams
- Special areas (math, science, etc.)

OPEN TO ALL
STI STUDENTS

IF YOU PLAN TO ATTEND CONTACT RAY CARVER (RM. 115, ADM. BLDG.).

CAREER SKILLS WORKSHOP

5/9/75 - 5/30/75

Friday: 9am - 10am (or)
5pm - 6pm

Library Seminar Room

TOPICS:

- Psychology of career choice
- "Where do I go from here?"
- Creating a career plan
- Reaching your goals and re-vising your strategies

OPEN TO ALL
STI STUDENTS

IF YOU PLAN TO ATTEND CONTACT JACK SELTER (RM. 100, ADM. BLDG.).
