## FM

Many people have been asking about the changes being made to the station and why. Here are the answers to a few:

Q. Why do I hear blasting and banging noises near the snack bar?

A. WSTB is changing the facilities of the present station by adding another control room and modifying the existing control room.

Q. Will I be able to hear WGHR-FM?

A. It depends. WGHR will cover Marietta and most of Cobb County. We will be able to raise power if we receive enough money to build additional amplifiers. All it requires is a modification of the FCC permit.

Q. Once the FM station is on the air, will WSTB-AM cease broadcasting?

A. No, the AM station will supplement the FM. While one station airs one type of program, the other can air something different. Also, new air personalities will be trained on WSTB-AM before going on WGHR-FM, keeping the FM station as professional as possible.

All students are invited to visit with the station and ask other questions.

## FRANKS' FOOD FACTS

We need to discuss business this week:

1. This is addressed to meal plan students. Your meal ticket is money; it pays for your food. If you do not have it with you, then you are "broke". Like any other commercial establishment, we cannot extend "credit" (Aw come on Frank, you know I'm on the meal plan.) You must have the ticket in order to eat. I have instructed my assistant and my cashiers in this matter that anyone without a ticket will have his tray pulled off the line. Please - do us both a favor -- bring the meal ticket with you.

2. There seems to be alot of waste going on. I mention this because it carries two implications, one narrow and one broad. The narrow one is the business consideration. Whatever is wasted on a tray adds to your cost. If you take a piece of pie and don't eat it, don't even touch it, and we then throw it out, it adds to the ultimate cost of your food. Maybe not right now, because you've already paid, but in the long run this kind of waste merely increases our costs of doing business with you, and this ultimately causes us to raise our prices.

## FOOD FACTS continued

So please, TAKE WHAT YOU WANT, BUT EAT WHAT YOU TAKE!

The broad consideration is something termed ecology. The world is not an unending source of raw materials; our usages of many things should be cut back, from energy and fuel all the way to food and paper. I think we all should keep conservation in our minds, if not as an active commitment, at least as a gentle reminder.

3. We have "used" a great deal of stainless flatware this year. Our budget year goes until July 1, 1975 and we will not be able to purchase anymore until after that time. I have checked and double checked our dishwashing and security procedures and everything is being done in the back of the house to conserve silver. So please be patient if you have to wait for silver to be washed, and if any of you should "find" any lying around, feel free to donate it back to us. Thank you.

# SGA

## Petitions due monday

Persons interested in seeking student government offices should have completed and returned their petitions by Monday, May 5. Petitions have been arriving slowly for several positions.

Petitions are available in the SGA office. You need the SGA --The SGA needs you.

---

## chess

Chess Club Meeting, Thursday May 3 at 12 noon in Mr. Hinton's office. All interested please attend. Mr. Hinton's office is in Building 2.

## pass/fail

In the January 22 issue of the "Whatsizname", appeared an article concerning the pass/fail rate in the physics department. Since that time one professor has taken it upon himself to do something about it. Dr. Fung, of the Phys. dept. has taken each unit of Physics 201 course and put them into lecture form on cassette tapes. These tapes are available in the library. Below is a summary of the units completed to date:

<u>UNIT</u>	<u>CHAPTER</u>
1	How to solve simultaneous equations. Sine & Cosine. Converting units.
2	Addition of Vectors. Friction. Solving problems of chapt. 2 & 3.
3	Detailed explanation of Lever arm. Solving equations of chapt. 4.
4	How to use equations of chapt. 5. Motion of a Projectile. Solving problems of chap. 5.
5	Mass and weight. Free-body diagrams. Probs. of chap. 6.
6	Work, Energies, power, momentum and impulse. Units for the above. Probs. of chaps. 7 and 8.

# SPORTS

All those interested in playing soccer for Southern Tech please contact Jeff Post, Box 8571. Practice every Friday and Saturday at 3 pm at Fair Oaks Park, Marietta.

## LOST

Lost Ladies Watch. Atomik - Black Band, Black face trimmed in gold. If found please return to Beth Turner, Box 8005.

Like a good neighbor,  
State Farm  
is there.

PLACEMENT AND CO-OP OFFICE NEWS

CO-OP STUDENTS WHO WORKED WINTER QUARTER must come by the Co-op Office and sign up for a personal interview with Mr. Smith during the week of May 5. Roster posted on bulletin board.

EDWARDS PIE COMPANY in Atlanta is looking for a co-op student (MET); however, they want someone who can begin working now on a part-time basis and begin co-op this summer.

UNITED PARCEL SERVICE (near 6-Flags) needs several students who can work the 11:00 P. M. to 2:00 A. M. shift. Come by Placement for referral.

Former co-op students who are graduating in June and want to receive a Co-op Certificate must sign up for it in the Co-op Office.

The Placement Office needs a Work Study Student who can type accurately and is available to work Summer quarter. If interested, see Ms. Glover in the Financial Aid Office to see if you can qualify for work study.

SPECIAL STUDIES STUDENTS

Each student taking special studies courses (Math 96, Math 99, Eng. 99 and Phys. 99) is required to obtain the Special Studies Coordinator's approval of their class schedule at the time of registration.

Commencing with pre-registration for the Summer Qtr., the Special Studies Coordinator will be on hand at registration to approve course schedules during posted registration times.
