FUTURE OF ENGINEERING:

— APRIL 13 —

H. Bard Allison, chief engineer, research and technology at Lockheed-Georgia, will be the speaker in the concluding session of Southern Technical Institute's community dialogue series on Tuesday, April 13.

Mr. Allison will speak on "Technology and the Future of Engineering" at 8 p.m., in the Southern Tech gymnasium.

The sixth speaker in the series, Mr. Allison joined Lockheed-Georgia in 1956. He transferred to the Lockheed Missile and Space Company as a senior research engineer and returned to Georgia in 1962 for the C-141 airplane program. In 1965, Allison served as a division engineer, chief flight science engineer. And in 1971, he was promoted to his present position.

Allison, a native of Indiana, received his B.S. in Mechanical Engineering from the University of South Carolina and his masters in Mechanical Engineering from Ga. Tech. He also attended the Emory University Management Development Program and the Harvard Advance Management Program.

Free and open to the public, the community dialogue series, titled "Technology and a Free Society," is sponsored by the Cobb County Chamber of Commerce and the Southern Tech Student Government. Prior to Allison's speech, there will be a band concert by the STI "pep" band.

The community dialogues are designed to acquaint the citizen with the challenges of an increasingly technological society, according to Dr. Amos St. Germain, STI history professor and coordinator of the series.

"The intention of the community dialogue is to create a true interchange of ideas between the college and the greater community," St. Germain said.

"We hope to answer the question: Where are we now and where are we going as we enter our third century as a nation?" St. Germain added.

Other speakers in the series have been former Vietnam prisoner of war Quincy Collins, 7th district congressman Larry McDonald, Ga. State professor Michael Mescon, WSB general manager Elmo Ellis and University of Georgia ecology professor Dr. Eugene Odum.

LIBRARY

Beginning Spring Quarter, 1976, the Library will resume Saturday hours. New weekend hours will be 2-6 p.m. both Saturday and Sunday.

POLL RESULTS

Results of the poll taken the week of March 10th, indicate that 273 students would like the heading of the diploma to stay the same, 801 would like to have "Georgia Institute of Technology" added to the heading of the diploma. Sixty-nine abstained from voting.

720 students feel that intercollegiate athletics benefit Southern Tech, 394 do not, and 29 feel indifferent. The feeling on increasing the fees four to five dollars stands at about 50/50: 590 want the increase and 536 do not. 17 students abstained.

The Southern Tech Arts and Craft Show will be April 26 thru 30th

All students, faculty, staff alumni and their families are invited to participate in the arts and craft show so -- come one, come all and make this show the best yet. You can sell or display your handmade items. So bring whatever you think others will enjoy seeing and really make this a big one

Registration date -- April 26 from 10:00 am to 8:00 pm. No show

Actual show days: Tues - Wed - Thurs 10:00 am to 3:00 pm.

Fri. Show closed. Pick up items from 1:00 pm to 5:00 pm.

REMEMBER -- 10% of your sales buys (?) for our new student center.

Thank You

The vets book club would like to thank all the students who bought or sold their books through the club. The club saved the students over \$1000 on their textbooks this quarter.

Any student who has not yet picked up his or her money for sold books may do so on April 6 and April 8, Tuesday and Thursday from 8:30 to 5 in the Veteran's Affairs office in the administration building.

Any books not sold will be stored and placed on the shelves next quarter when the book club reopens.

Pat McNew
President

ONLY THE BEGINNING

The big clean-up and campout is this Saturday, April 10th. We start work at 10 am.

For those who don't know already-- this is an effort by a group of students called the Unknowns to do something around here to improve our campus. They will be clearing and cleaning up the woods between Dorm #2 and the gym. Bring your tents and your energy and join us. Those involved will be camping out that night.

For the unknowns and those who are just as interested -- this is only the beginning.

LETTERS

Editor:

Why didn't I think of that?

It's been suggested that we at Southern Tech change the heading on our diplomas to read Georgia Institute of Technology. Now that's a terrific idea. So what if we don't actually attend Georgia Tech? It doesn't really matter that the type of academic programs offered at Southern Tech and Georgia Tech aren't the same. What puzzles me is why plagiarise a third rate school like Georgia Tech? I think we should adopt M.I.T.'s title instead.

Hey as long as we're revising the wording on our diplomas, we could even change it to read MASTER or DOCTOR OF PHILOSOPHY. Now that would indeed be a fine looking diploma.

Sincerely,

Larry Ansley

EDITOR'S NOTE: An interesting suggestion but lets try to be serious for a minute. The poll is suggesting that "Georgia Institute of Technology" only be added to the heading. It's purpose was to only get an' immediate reaction of the student body and a more definitive poll will probably be forthcoming.

Editor:

The recent poll concerning funds for administering our new student center surprised me a bit. Granted, funds must be available for a full-time coordinator but I hope the Administration and hopefully the students realize the nature of the Student center.

By its nature, a Student Center should incorporate activity from the students. The new center could generate many new student organizations providing that the coordinator has enough imagination to originate such programs and students offer enough help for these organizations.

I hope that Doug Laird has gathered some ideas to help in the selection of a co-ordinator director.

What has been stated may be wishful thinking for a campus this size, but the fact remains that we have a new student center forming. Its facilities and programs will only be as good as the effort we as students, faculty and administration make it!

Think on it!

George Eckel.

POEMS WANTED

THE GEORGIA SOCIETY OF POETS is compiling a book of poems. If you have written a poem and would like our selection committee to consider it for publication, send your poem and a self-addressed stamped envelope to:

Editor '76 log.

If you are graduating Spring or Summer quarter and would like your yearbook mailed to your home, please come by and fill out a yearbook request form.

 REVOLUTION IMSA STYLE

The fastest touring cars in the U.S. professional road racing square off April 10-11, when Road Atlanta hosts "round three" of the explosive Camel GT Challenge Series. They'll be dueling for over \$47,500 in prize money and contingency awards.

The weekend of competition will feature separate 100-mile sprints for three unique racing series. Two of these, the Camel GT and the Goodrich Radial Challenge, have already established their reputations on the demanding 2.52-mile Road Atlanta circuit.

The third, and newest, series is for cars competing for the Formula Atlantic Championship. Their Road Atlanta debut will mark the first U.S. appearance of these quick, open-wheeled machines which have generated tremendous spectator enthusiasm for the Canadian, John Player Series in which they normally operate.

The Camel GT Challenge is actually a race within a race. While all Camel GT cars run in the same event, they are competing in two separate classes -- each with its own points standing and championships for drivers and manufacturers. Cars with engines displacing more than 2.5-liters race for overall finishing positions; those having less battle for GTU honors.

To give the Camel GT a truly international flavor, IMSA has devised a supplemental set of specifications that recognizes certain small American sedans in an "All American GT" category. These homegrown thunderbolts benefit from fewer restrictions in permitted modifications techniques, and pose a definite threat to the previously unchallenged dominance of the European thoroughbreds.

The Goodrich Radial Challenge is open to volume-produced stock cars recognized by IMSA as being marketed to the American

public and able to seat four adults. Engine sizes are limited and permitted modifications few for these "Racing Stock" or RS vehicles.

IMSA RS cars must adhere to the most unusual requirement imposed on any competition category. They are required to race on genuine street radial tires made by the B.F. Goodrich co.

Formula Atlantic cars comply with rules identical to those established by the Canadian-American Sports Car Club for the John Player Series. They cost approximately \$16,000, weigh 1,000 lbs., and develop over 200 horsepower from their highly modified, production engines. Familiar names include March, Lola, Chevron, Brabham and Tui.

Practice, and qualifying heats for Formula Atlantic and RS cars will be held Saturday, April 10. The three 100-mile feature races are slated for Sunday, April 11.

Sunday, April 11

7:30 am - 12:00 pm	- Registration
8:15 am - 9:00 am	- Warmup practice - GT and RS
9:15 am	- GT Qualifying Heat #1
10:00 am	- GT Qualifying Heat #2
10:45 am - 11:00 am	- Warmup practice- Formula Atlantic
11:00 am - 12:30 pm	-- Lunch
12:30 pm	-START-Goodrich 100 race - (40 laps)
2:00 pm	- Start - FORMULA ATLANTIC RACE- (40 laps)
3:30 pm	- START - CAMEL GT 100 race - (40 laps)

Specific schedule to be published at Road Atlanta and may be amended to accommodate local conditions.'

LET'S DO IT AGAIN

Southern Tech's mattress stacking world record of 72 students will go on the line Friday, April 16, when the Atlanta Braves will sponsor a special night for the colleges and universities featuring a mattress stacking competition. Colleges from throughout the southeast have been invited, and a \$500 cash prize will be awarded to the winning group. Officials will be in attendance should a new Guinness World Book Record be set.

According to STI history professor Nick Wynne, coach of the Southern Tech Mattress Stacking Team, Southern Tech will enter the competition. Therefore, all students interested in joining coach Wynne's mattress stacking team and defending STI's number 1 spot, please sign up with coach Wynne.

In addition to the mattress stacking contest immediately following the Braves - Dodgers game, there will also be a rock concert featuring The Rock Mountain Band, and Beer on tap for the participants.

On this evening, full time college students will be admitted at the reduced prices of 50¢ for general admission, \$1.50 for upper level and \$3.00 for field level. This makes a \$2.00 saving on all reserved seats.

By the way, Southern Tech stacked 72 students on a 72 x 54 double bed mattress in 19.9995 seconds. The 72 students included two girls. Total weight of the 72 bodies was over 10,800 lbs. One of the girls remarked: "Wait till my mother reads I was on a mattress with 70 guys."

**Washer & Dryer for sale -- Heavy duty,
G.E., Avocado green. Like new, \$160.00
Box 8933.**

HAVE AN INSURANCE PROBLEM OR WANT
INFORMATION ABOUT INSURANCE?

Georgia Tech Dean of Students Office and the Interfraternity Council, along with the Moyer Financial Associates are again sponsoring a seminar to help students understand the problems and pitfalls of buying insurance.

The seminar will be held April 20 in Room 227 of the Georgia Tech Student Center.

All students having questions or who are just interested are welcome and urged to attend.

Wrestling

Intramural wrestling begins in April; sign up sheets are located on the bulletin board by the coaches office in the S.T.I. Gym. Students may compete as either independents or as representing a group. Weight classes will be 121, 129, 137, 145, 153, 161, 170, 180, 193 and heavyweight. Awards will be given to individual weight classes, most outstanding wrestler and best team.

Practices will be held Mondays and Wednesdays from 6:30 p.m. till 8:30 p.m. Groups or individuals may use the mats for practice anytime the gym is open.

Special coaching from S.T.I. team members may be arranged through Coach Martin.

OFFICIAL SCHOOL CALENDAR

April	13	(T)	General Faculty Meeting 12 Noon - Library Seminar Room Curriculum Committee Meeting, 2 p.m. in Adm. Conf. Room
April	15	(Th)	Standing Committee Meeting, 2 p.m. in Adm. Conf. Room
April	30	(F)	Last day to withdraw from a subject or withdraw from school without penalty
May	4	(T)	General Faculty Meeting 12 Noon - Library Seminar Room
May	7	(F)	Last day to file graduation petitions with the Registrar's Office for Summer Quarter 1976
May	19	(W)	Advance Registration for Night Students for Summer Quarter 1976
May	20	(Th)	Advance Registration for Day and Night Students for Summer Quarter 1976
May	25	(T)	General Faculty Meeting 12 Noon - Library Seminar Room
June	1	(M)	Last day for applications from new and transfer students entering Summer Quarter 1976
June	4	(F)	Copy of Final Roll with graduating seniors grades only must be in Registrar's Office by 10 a.m.
June	8-11	(T-F)	Final Exams
June	11	(F)	End of Quarter. Final grades for all students other than graduating seniors must be in Registrar's Office by 5 p.m.
June	12	(S)	Graduation

FROM THE POLICE DEPARTMENT TO ALL STUDENTS,
EMPLOYEES, AND FACULTY

We have several items in our lost and found department including coats, rings, books, watches, and calculators. If you have lost any of these items, check by the Police Dept. to see if we have it. On items of value, such as calculators, serial numbers or proof of ownership will be necessary before the item can be returned to you.

All student cars have to be registered by April 12. If your car is not registered by this date, you will receive a \$5.00 fine.

The police dept. has a program called Operation Identification in which items of value are marked with an engraver. If you have any valuables you want to mark, come by the police dept., and check out an engraver. This program is for all students, employees, and faculty.

REGENTS' TESTING PROGRAM EXEMPTIONS

At a meeting on March 5, 1976, Dr. George L. Simpson, Chancellor of the University System of Georgia, notified the presidents of all institutions in the System that the "grandfather" exemption clause for the Regents' Testing Program, also called the Rising Junior Exam, had been terminated. He indicated that students whose native language is other than English will continue to be exempted in compliance with the policy of the Board of Regents.

This notification by the Chancellor means that any exemption previously granted is now null and void. All students, except foreign students, graduating after Winter 1976 must pass the Regents' Test. Any student whose Petition to Graduate for the Spring Quarter 1976 was approved by the Registrar based on the student's previous exemption from the Test, will now be required to pass the Regents' Test in order to graduate.

The Regents' Test will be administered next on Tuesday, April 20, 1976. The Test will be given once in the afternoon and once in the evening. The English Department usually schedules a two-hour help session prior to the administration of the exam. The exact times for the examination and for the help sessions will be posted across campus and printed in the student newspaper.

MIND BOGLER

At 12:13 p.m. on Wednesday, March 31, 1976, the Southern Tech switchboard received a call from a woman inquiring whether the operator could give her some information. Upon the affirmative, she wanted to know if it was true that her husband had donated his body to Southern Tech. She stated he had attended school at Southern Tech shortly before their recent marriage. She further stated that he had told her he had donated his body to the school so that upon his death, it could be used for research. She felt her husband had been sincere when he told her this. She said she didn't want anyone to have his body after he died except her. The operator stated that he had not heard of any such donation and felt it would not be likely since Southern Tech is not a medical or biological school. The woman then restated that she thought her husband had been sincere, but she would ask him again. She thanked the operator and hung up.

CLINIC NOW OPEN

The Southern Tech Clinic, located in Norton Dorm (Dorm I) near the Police Station, is open Monday thru Friday, 8:30 a.m. till 1:30 p.m. The clinic is staffed by Mrs. Barbara Haire, a registered nurse, who was previously employed at Kennestone Hospital for five years. All students who need medical attention should go to the clinic or call Mrs. Haire at 424-7366. If an emergency arises when the clinic is not open, students should contact Dr. Beasley at 422-4555.

New Book News

There's a story about a man driving along a narrow country road behind a big truck. The road was so narrow that he couldn't get by. After a while, the truck stopped, the driver got out, and began to beat the truck all over with a two by four. Then he climbed back in and drove on. Pretty soon, he stopped again and beat the truck all over. When he stopped a third time it was too much for the man in the following car. He got out and walked up to the truck driver.

"Friend," he said, "I've seen you beat that truck with a two by four three times now. What gives?"

The truck driver answered tiredly, "This is a two ton truck, see? And I'm carrying four tons of canaries. I have to keep half of them flying or I'm overloaded."

That's creativity. It often looks ridiculous to the people watching, but it gets the job done.

The story is from the book, SUCCESS CYBERNETICS, by U.S. Anderson. Anderson, incidentally, is quite a guy and I think you'd enjoy his books.

AGNES SCOTT HOLDS

— FREE CONCERT —

A mixed bag of American music will be performed April 8 by the Glee Club, Madrigal Singers, Opera Workshop and the Recorder Society of Agnes Scott College. The free, public concert is at 8:15 pm in Presser Hall at Agnes Scott.

The Glee Club will sing such works as a multi-media motet for chorus, organ, tape recorder and lights, a 20th-century Renaissance style motet by Randall Thompson, a minstrel song adapted by Aaron Copland, spirituals and other folk songs. The Madrigal Singers will perform 20th-century songs, including the 1940's pop tune, "Boogie Woogie Bugle Boy."

The Glee Club is directed by Dr. Theodore Mathews, assistant professor of music. The Madrigal Singers, a student-run organization, is directed by Marguerite Booth, a sophomore from Dallas, Tex.

The Opera Workshop, made up of Agnes Scott voice students and Glee Club members, will perform selections from George Gershwin's opera, "Porgy and Bess." Directing the Opera Workshop is Janet Stewart, professional singer and Agnes Scott voice instructor.

The Recorder Society will play early American songs arranged for recorder ensembles. The ensemble is directed by Catherine Lance of the Agnes Scott music faculty.
