

Mitchell Named Log Editor; Taffe For Business Manager

William S. Mitchell, last year's associate editor of *The Log*, and of *The Technician*, has been appointed the editor of the 1958-59 *Technician's Log*, and Jon R. Taffe as the business manager.

The class pictures have been

William S. Mitchell
The Log Editor

taken and as soon as all the students who desire reprints have notified *The Log*, the process of being classified and titled will begin. The lay-out and the theme are the next objectives in sight. All students are reminded to bring pictures or snapshots which they wish to be in *The Log* to *The Log* office.

William Mitchell attended high school at Georgia Military Academy in College Park, Georgia, and is majoring in Electrical Technology. He has been a consistent member of the honor roll since entering Southern Tech in September, 1957. He is a member of the Tau Alpha Pi Fraternity. Mitchell has also served two quarters as a member of the Student Council.

Jon R. Taffe from Cordele, Georgia, is majoring in Heating & Air Conditioning. He was business manager last year and proved to be a most "super salesman."

Technician Wins First Class Honor Rating Of ACP Critics

Southern Technical Institute's campus newspaper, "The Technician," has received a first-class rating as a student publication.

The Associated Collegiate Press at the University of Minnesota gave the newspaper a rating of "excellent" on content and "superior" on coverage. This is the sixth time in nine years that "The Technician" has won the first-class rating.

As Southern Tech begins her eleventh year of training technicians, *The Technician* begins its eleventh year of publication with Gerald Ervin as editor for the second consecutive year.

In the first issue, the following faculty members were the original advisers: Mr. G. L. Carroll, chief adviser; Mr. L. Y. Bryant, editorial; Mr. F. J. Johnson (now at Lockheed), activities; and Mr. C. R. Orvold, art adviser. Mr. Muller, Drawing Department, designed the name plate that is used on the front page of *The Technician*. Under the very capable direction of these advisers, Volume 1, Number 1 of *The Technician* was published September, 1948.

Since the first publication, *The Technician* has strived to maintain

these objectives: to inform and entertain students and alumni of STI; to present opportunities for self expression in creative writing, art, and philosophy; to build and maintain school spirit and morale; to keep industrialists of our nation informed of STI's work, progress, and graduates; to advertise Southern Tech to the public; and to help high school graduates select Southern Tech as their school of higher learning.

CIRCULATION INCREASES MONTHLY

Besides the circulation of *The Technician* on campus, *The Technician* has a circulation over 1,500. Copies are sent to other colleges that are members of Associated Collegiate Press, high schools in Georgia and neighboring states, to the Board of Regents, to members of Associated Industries of Georgia, to Chambers of Commerce, to anyone requesting a copy of *The Technician*, and to alumni of Southern Technical Institute.

The original staff room was Room 6 in Building 24, equipped with desks, chairs, file cabinets and two typewriters. During the week of October 6 *The Technician* and *The Log* moved into new quarters with facilities adequate for two fast growing publications. These publication offices now occupy part of the previous Reading Room, Room 4, Building 24.

Gerald L. Ervin
The Technician Editor

The Technician and *The Log* will each have a private desk, filing cabinet and a working desk, also for the first time. *The Technician* and *The Log* will have a secretary to do all the typing and correspondence work. Mr. Sojourner, faculty adviser for *The Technician* and *The Log*, maintains his office in this room.

Now, with great pleasure, we present the staff for *The Technician*:

G. L. Ervin, Editor in chief from Alachua, Florida, Electronics Department; William Sutton, Asso- (Continued on Page 4)

STI Represented By Staff At Junior College Meeting

At the annual meeting of the Georgia Association of Junior Colleges held during the week of October 6 at Middle Georgia College, Cochran, Georgia, Southern Tech was well represented by the following staff members: Mr. L. Y. Bryant, Registrar; Dean G. L. Carroll, Dean of Basic Studies; Mr. J. J. Defore, Head of the Physics and Chemistry Department; and Mr. R. W. Hays, Head of the English Department.

Although this association is primarily for junior college membership, there are some four year schools that are members. Southern Tech is the only technical institute that is a member of Georgia Association of Junior Colleges.

During the meeting, new and improved methods of teaching were discussed for each school program. Mr. Bryant attended the Administrative Discussion Program; Dean

Carroll and Mr. Hays attended the English Discussion Program; and Mr. Defore attended the Science Discussion Program. It is through the dedicated efforts of Southern Tech's Staff that standards of presenting subject material are kept the highest.

New School Library Opens To Student Body Nov. 1

During the past two quarters, the students of Southern Tech have been conducting campaigns to collect books for the school library. Their efforts have met with some success and will soon be rewarded with the opening of the new Southern Technical Institute Student Library in November.

The library will be housed in

the newly-acquired fire-proof building near the Administration Building, where the reading room is already established.

The major obstacle to be overcome before the library may be (Continued on Page 4)

Re-Accreditation For STI Is Announced

Mr. L. V. Johnson, Director, received notification during the week of October 12 that Southern Tech received accreditation for all eligible programs. This accreditation is valid for the next five years, and is made by the Engineers' Council for Professional Development (ECPD).

Of the eleven associate in science degrees in technology presented at Southern Tech, only three have not received accreditation. These three programs have not met the three year requirement for accreditation eligibility.

Director Johnson, welcoming the announcement of re-accreditation, said, "Southern Tech offers more accredited programs than any other technical institute in America, our re-accreditation affirms my confidence in our faculty."

Southern Tech is the South's only accredited technical institute and has received the Engineers' Council for Professional Development's accreditation for the third time.

Welcome To Southern Tech

By J. GERALD COTE and WILLIAM W. MORRIS

As co-presidents of the Freshman Class, we wish to take this opportunity to extend a warm welcome to all students enrolled at the Southern Technical Institute. It is a pleasure to see so many of the old students returning and the large class of 378 freshmen.

We want to welcome especially the incoming Freshman Class. You will find all of the students and instructors friendly and eager to help you. Even though schedules may at first seem confusing, professors very exacting, and college life different from any you have known before, you will soon become adjusted to this vital change. Here on the Southern Tech Cam-

pus, you will find that each department has its own club, and you are urged to participate in your chosen department's club.

There are also various other activities such as the Glee Club and Intramural sports.

The Student Council is provided for the benefit of the students, and it is only through whole-hearted support from you, the students, that these programs will be successful.

Southern Tech is a special school with a special purpose, and you will find that it has a cordial and cheerful atmosphere. If you take advantage of its many opportunities your college life is destined to be a happy one.

Gerald J. Cote

William W. Morris

Mrs. Nancy Wolfe Elected President Of Tech Annes

The Tech Annes held their first meeting of the school year at 8:00 P.M., October 9, in the Green Room at Southern Technical Institute with an attendance of forty members.

Nancy Wolfe, Club President, called the meeting to order and welcomed the students' wives and sponsors. Secretary, Nell Gilmer, read the minutes of the last meeting—they were approved as read.

Club treasurer, Gene Platt, gave her report and presented a budget for the year.

PROGRAMS ARE OUTLINED
First vice-president, Ann Long, gave highlights of the programs for the coming year, some of which are: a program on Civil Defense, a Christmas Party, a Bingo Party, hints on beauty and personality, and a movie of European Travels (Continued on Page 4)

From left to right: Mrs. Loette Burdette, second vice-president; Mrs. Gene Platt, treasurer; Mrs. Nell Gilmer, recording secretary; Mrs. Ann Long, first vice-president; Mrs. Nancy Wolfe, president; Mrs. Faye Carpenter corresponding secretary; Mrs. Gwen Joe, parliamentarian; Mrs. Sue Holling, publicity chairman.
Back row, left to right: Mrs. W. W. Vaughn, Mrs. George Lawson, Mrs. Lawrence Cuba, Mrs. Lawrence Johnson.

YOUR FIRST IMPRESSION WAS—?

By R. W. STRICKLAND

A group of first quarter freshmen were interviewed over the campus to get their opinion toward the student body, the school, the administration and their course of study during their first days at Southern Tech.

LEON WILKES of the Civil Department from Sandersville, Georgia, said, "I found everyone cooperative and friendly. During registration I lost part of my registration blank and was forced to leave a line to look for the material. A professor helped me get through that step of registration without having to wait in line again. I sure appreciated this, because those lines certainly were long."

EDWARD BRAGG, a civil student, from Sandersville, Georgia, said, "I found everyone friendly and willing to help. My course of study will require hours of study."

RONNIE CLARY, a Mech student, from Gainesville, Georgia, said, "I found the student body at STI very friendly and cooperative. The faculty was very considerate to me during registration. This Mech course will cause many 'females' to miss my charm."

BILL SMITH, a civil student from Gainesville, Georgia, said, "I found everyone friendly and congenial, but I would like to say the food in the dining hall has not the same taste since I received a box from home."

FAYETTE HANCOCK, a BC student, from Camilla, Georgia, said, "I found the boys in my department especially thoughtful and

the student body very friendly. Now I can plan my 'Love Nest' by being a BC student.

RONALD DAVENPORT, a Mech student, from McCaysville, Georgia, said, "I found the students and faculty very cooperative and friendly. Also, I think we need more than one ping-pong table at STI. Doubt if I will have time for playing."

SEGRIED WISHAM, a civil student, from Moultrie, Georgia, said, "I found everyone friendly and cooperative. I shall enjoy the great 'open spaces' during this course."

RICHARD McGUIRE, a Mech student from LaGrange, Georgia, said, "I found everyone friendly, but I have not been able to find very many extra-curricular activities—doubt if I would have time to participate."

RONNIE GRAY, a civil student from Valdosta, Georgia, said, "I did not know quite what to expect when I first came to STI, but I found everyone so helpful I did not have a hard time finding answers to any of my questions or problems. Will be able to lay-out my fish pond when I return home."

Drawing conclusions from the statements of the freshmen interviewed, it would be safe to say the Southern Tech student body and administration have something of which to be very proud, that of making every person feel as though he is wanted and welcomed at Southern Tech, and that his course of study will be interesting. Let's try to maintain this attitude throughout the year.

Parking Problems Solved

Southern Tech's increased traffic and parking problem has aroused the need for a full-time policeman. He may be seen at various times throughout the day, patrolling the parking areas and driving on the campus, and keeping an eye for parking and speeding offenders. Our new officer is G. A. Smith, a member of the Chamblee Police Department.

The appointment of a policeman to the Building and Grounds Department of Southern Tech was not intended as a revenue raising

measure, but as a measure for controlling parking congestion and dangerous speeding on the campus.

Perhaps if everyone is conscientious about his driving, an introduction to Officer Smith would be friendly and unofficial.

A campus policeman is but one improvement to our campus accomplished by our Building and Grounds Department. Other accomplishments listed are: STI's new library building, and renovation of many classrooms.

Fire Technology Course Approved

Two years ago a Fire Technology course for Southern Tech was set up and approved by the Board of Regents, and funds were made available by Governor Griffin for its organization and operation.

This course was established at the request of the Georgia Fire Association, and in the beginning at least, was to consist entirely of off-campus fireman training. So far, Mr. Quigley, Director of Industrial Education for the Engineering Extension Division, has operated the course as needed.

Now it is necessary to set up an office and hire a director who can devote full time to the program.

Since the course was approved for Southern Tech, the director's office will be located on our campus, although he will probably be traveling a great deal of the time. The course is not expected to develop into a two-year full time program for many years.

If anyone is interested in more detailed information on the course a prospectus on it is available in the office of Mr. Johnson, Director of Southern Tech.

The Saga Of A STI Student

I'm a student here at Southern Tech,
With a slide rule on my hip;
Didn't come up here to study,
Thought the school was just a Crip.

My waist-line was a '32,
When I paid tuition fees,
Now I have a hard time keepin',
My belt up from my knees.

Line up my hairline,
With a fruit-stand weighing scale,
And you'll never get a reading,
'Cause I'm skinny as a rail.

My instructor called me in one day,
Said, "You need a big review.
'Cause your over-all point average,
Is the small square-root of two."

I thought that I would quit this school,
But that thought left right away,
'Cause then I'd have to go to work,
Diggin' ditches for my pay.

I've weighed some rocks in physics lab,
And boiled some water, too—
With a few more pipes and tubes at hand,
I could've made some brew.

I've been to lots of "ET" labs,
Each day at two o'clock—
And all I ever got from them,
Was a big electric shock.

Raise me to a power,
A power less than three.
Then divide that by my total weight,
And you'll get infinity.

Alumni Are Urged To Attend Dinner November 15

A Letter from The President

Dear Fellow Alumnus:

You have been hearing "annual banquet" now for some time. Plans have finally been completed for the 1958 banquet. They are:

1. Date—Saturday, November 15, 7:30 P.M.
2. Dinner-Dance.
3. Place—Naval Officers' Club, Naval Air Station, Chamblee.
4. Price—\$2.90 per person. This includes dinner (Smorgasbord), tax, tip, and all other club facilities.
5. Orchestra for dancing (included in fee).
6. This is the date of the Tech-Alabama game. We understand a few seats are still available in the south stand.

Again, this year the emphasis will be on fraternizing and socializing—no long-winded speakers.

There will be a short business meeting immediately following the dinner. You will also hear about the plans for our new campus which will be located at Marietta.

Please send in your reservations as soon as possible. Checks must accompany your reservations and should be made payable to STI Alumni Association. No refunds will be made because of the involved process of bookkeeping and, too, we have to guarantee the Naval Officers' Club a definite number of reservations.

Reservations should be in the placement office, Southern Tech, by Friday, November 7.

Fraternally yours,
James O. Stewart
President
STI Alumni Association

HOWARD CALLAWAY (E&C '58) is in Utica, N. Y., where he is in Remington - Rand's training school. The school is on the Univac File Computer, Model 1—he says it's quite a machine.

DEE LATIMER (Ind '58) says sometimes he wishes to be back at school. He is with Indiana Gear Works in Indianapolis in the Production Department.

DAN MISCAL (E&C '58) writes that he likes his job with Melpar just fine. He's in Arlington, Virginia.

R. H. CHARLES (H&AC '55) sends in his dues and says "Please put my name back on the mailing list for the newsletter and Technician and let me catch up on news from STI." Charles is in Jacksonville, Fla.

WALLACE COLE (Mech '58) is now in the Army at Fort Jackson (for awhile).

BEN F. HUFF (E&C '56) is to be discharged from the Army this month. Be sure to stop by and let us help you, Ben.

The STI Annual Salary Survey will be conducted soon. Help us make this our best survey ever by returning your cards as soon as possible to the placement office. As always, this information is strictly confidential and is used only in statistical form. No names are ever given.

CURTIS E. COMER (Mech '53) is now working for IBM as a Resident Customer Engineer in the Electric Typewriter Division in Hickory, N. C.

THOMAS GUY (H&AC '56) writes from Birmingham, where he is employed as a Sales Engineer for Westinghouse, that he likes his job fine. He sees Jack Sumner and Raymond Wells often—in fact, he roomed with them for awhile.

Holladay Honored

C. T. Holladay, of the Civil Technology Department has been serving for the past year as Secretary-Treasurer of the Georgia Association of Registered Land Surveyors, was elected vice-president for the 1958-59 term beginning July 1. This organization is composed of licensed land surveyors over the state of Georgia who conform to a code of ethics guaranteeing good surveys. The purpose of the organization is also to promote better understanding between the surveyor, landowners, and developers of land in creating better designed and more pleasing subdivisions working ultimately toward better planned communities. Mr. Holladay is also president of the Atlanta Chapter of the Georgia Association of Registered Land Surveyors.

Mr. Myatt and Mr. Reese of the Civil Department are also licensed Surveyors in the State of Georgia.

"Hey! Got A Complaint?"

Every two or three days someone makes a statement such as "I don't like the way something is managed." Can you think of some way for him to remedy this situation?

One of the best ways yet found is to have the support of an organization or club.

On this campus, there are many student organizations which are ready and willing to listen to any suggestions for improving themselves and the school; but these clubs are only as strong as their membership rolls make them.

The next time you hear a complaint ask the speaker if he belongs to his departmental club or to any of the many campus wide organizations. Chances are that he doesn't. BE SURE YOU BELONG BEFORE ASKING.

CLUB NOTES

Glee Club

THE STI GLEE CLUB is back in full swing again for the fall quarter with Mr. Harry Smith, director; Andy Martin, president, and Edgar Chambliss, secretary. At present there are thirty-seven active members. The club is planning a party for the members to be held the first week of November. Plans are also being made for the club to go on a tour in the spring. In the past the Club has sung for churches and schools while on tour and locally.

All new students as well as old are cordially invited to come out Thursday evenings and join the good times. If you like to sing, come along.

Alpha Mu Sigma

THE ALPHA MU SIGMA (Mech Club) holds a lot in store for its members this fall. Initiation is being planned for the 23 new members.

The club has plans for various activities other than the one previously mentioned. A tour of one of the greater manufacturing firms in this vicinity within the very near future has been organized. This tour will be open to anyone who desires to go. Ample time will be given after the announcement date for students to make plans to go.

The fall season is a wonderful time for outdoor activities: hot dog roasts, hamburger fries and picnics. We plan to have one of these activities this fall.

All of these activities are a part of student association and help develop better rounded school spirit.

These club officers were elected at the last meeting: president, William P. Edmondson; vice-president, Harold Simmons; secretary, Charles Puckett; treasurer, David Crump; chaplain, James Cook; sergeant-at-arms, Larry Clark.

The Alpha Mu Sigma extends a welcome to all students who wish to join. Any student in the Mechanical Department may join simply by attending a meeting.

H and AC Club

THE HEATING & AIR CONDITIONING DEPARTMENT welcomes all H&AC freshmen. All new H&AC students are urged to join the H&AC CLUB.

The H&AC Club is one of the foremost Clubs on the Southern Tech campus. We are promoting better fellowship and participation in intramural sports. The football team of H&AC will be stronger than it was last year. As Wally Butts would say, "It looks like another good season."

Social activities are at an all-time high. More parties have been planned in which all the members can take part.

The new officers of the club are: president, John Martin; vice-president, Gerald Patterson; secretary, Joe Mabry; treasurer, Roland McBride. Student council representatives are Landis Pippin and Wayne Rose. With these capable leaders it looks like another big year for H&AC.

Gas Fuel

THE GAS FUEL CLUB has elected new officers and is on a campaign to increase enrollment and activities. The new president is Glenn Rhoads; treasurer, Gene Parks; and public relations, Bill Johnson.

The head of the Sports Department is Ronald Moses. Two students were appointed to represent the Gas Fuel Club on the student council. They are John W. Crocroft and Itzhak Ben-Moshe.

BSU Club

The BSU, which has been struggling for survival for the past quarter, is trying again to enlist new support from the students at STI. The weekly meetings are being held on Thursday evenings. At the first meeting this quarter, Frank Brown was elected to serve as president of the Union. Other officers were elected to serve temporarily, until a full scale election could be held later on in the quarter.

The Annual Baptist Student Convention will convene at Rock Eagle in Eatonton, Georgia, October 31. The Convention will continue through Sunday, November 2. Students are invited to attend this meeting. A well-balanced program has been set up for a week end of devotion and fellowship. A copy of the Convention program has been posted on the bulletin boards around the campus for your inspection.

The BSU always extends an invitation to all students to attend their regular weekly meetings. Consult the weekly bulletin for time and place of BSU meetings.

Epsilon Pi Chi

EPSILON PI CHI, largest fraternity on STI Campus, held its first meeting October 9. At their first meeting, Epsilon Pi Chi elected the following new officers: Carey Waldrip, president; Jerry Goralczyk, vice-president; Lewis Croxton, secretary; Sam McKoy, treasurer; Bob Matthews and Larry Matthews, sergeants-at-arms, and Robert Joe, historian. Carl Carter and Gerald Cote were elected freshmen and senior representatives, respectively, to the Student Council as representatives for the Electrical Department.

Textile Club

The second year students of the DEPARTMENT OF TEXTILE TECHNOLOGY visited the Textile Exposition at Greenville, South Carolina, October 6. This is a show which is held every two years by the manufacturers of textile machinery, supplies and processing materials. They show most of the new developments of the preceding two years.

The emphasis in textile machinery for the past few years has been on better materials handling, and simplifying of the job of the operator, making it possible for him to handle a larger work load and minimizing or eliminating the necessity of oiling the machinery.

The students made the trip in cars in one day. They came back to STI tired, but impressed with the greatness of the industry they are studying to enter.

HAM Club

THE SOUTHERN TECH RADIO CLUB held its first meeting for the fall quarter, October 2. New club officers were elected and plans were discussed for presenting interesting and informative programs during the quarter.

The new officers for the Southern Tech Radio Club are: Hugh Faulk, president; Jim Kinnard, vice-president; Harold Roberts, secretary; Sid Manning, treasurer; Joe Woodcock, communications manager; and, Franklin Brown, publicity manager.

A cordial invitation is extended to all new students to visit the "ham shack." Membership in the club is open to all students interested in amateur radio and to those who would like to learn more about becoming an amateur radio operator.

SAM Begins Fifth Year Of Service

By H. L. McClure, President, Georgia Chapter of SAM

The Society for the Advancement of Management is the recognized professional organization of management people in industry, commerce, government, and education with national, regional, and chapter activities.

The Society was formed in 1936 by the merging of The Taylor Society, organized in 1912 to forward the ideas of Frederick W. Taylor and his associates who developed the concept of scientific management, and the Society of Industrial Engineers, formed in 1917.

A third organization, the Industrial Methods Society, merged with the Society for the Advancement of Management in 1946. Thus, by dating its existence to the formation of the Taylor Society, which was the guiding influence of the present organization, the Society for the Advancement of Management is the oldest operating group of its kind in the United States today.

HAYS AND McCLURE ORGANIZE CHAPTER

Southern Tech has a student chapter of the Society for the Advancement of Management which was organized in 1954 by Mr. McClure and Mr. R. W. Hays. It is the only student chapter existing on the technical institute level of education. It is composed of students from all departments who have demonstrated an interest in management. At the present, Mr. McClure and Mr. Edwards are co-faculty advisers. This student group is the one now engaged in trying to build the new library for Southern Tech.

The purposes of this Society as outlined in the Constitution are, through conferences, seminars, research, publications, and other appropriate means to:

Develop efficiency through the study of scientific principles and methods of management.

Promote and accomplish the various mutual interests of management, investors, labor, government, and the public in improved management.

Provide direct means whereby executives, engineers, teachers, public officials, and others concerned, are aided in applying scientific methods to management problems, and promoting the common interest.

Inspire in manager and employee a constant adherence to the highest ethical standards for their individual and social responsibilities within their companies and in their communities.

CLAIRMONT BAPTIST CHURCH at 3542 Clairmont Road extends a warm invitation to all STI boys to attend services on Sundays. The Church has a very active Young People's Department which we feel sure you will enjoy. Won't you PLEASE visit with us next Sunday?

Church	11:00
Training Union	6:15
Evening Service	7:30

"ALL WORK-NO PLAY"

By Carey Waldrip

"All work and no play made Jack a nervous wreck, But all play and no work helped Joe flunk out of Southern Tech."

Prior to my enrollment at Southern Tech in the Fall of '56, I had not heard of the famed "nervous wreck from Southern Tech," but after seven quarters at this institution this character has become a familiar sight to me. I had, however, heard of the poor soul, who through no fault of his own, had been literally given the "ole academic boot." At least, this was the story he cried out to the cruel world.

I could see a problem—a problem that to many people seemed of little importance, but to me appeared as a critical obstacle in the path toward graduation. Just how should I ration my valuable time? Should I play the part of the precarious bookworm and not take time from my studies to enjoy life just a wee bit, or should I wisely play the part of a well-rounded person and manage to lightly sprinkle my college life with a bit of extracurricular participation? I, being opposed to all work and no play, chose the latter.

PLEDGE PROGRAM INITIATED

In the Fall of '56 I joined Epsilon Pi Chi, the departmental fraternity of the Electrical Department. At that time the fraternity was rather small and somewhat unorganized, but as the quarters passed the fraternity acquired more and more members who, like myself, felt the need for well organized extracurricular activities as part of their college life. Through the cooperation of these members, Epsilon Pi Chi has been completely reorganized, and at

present is looking forward to the most successful quarter in its history. A new Constitution has been drawn up which gives significance to the existence of Epsilon Pi Chi. A Pledge Program has been initiated to give new members a goal to strive toward and thereby become a valuable part of the fraternity.

The fraternity clubroom has been painted, cleaned and fixed up, and fixtures such as a coat of arms, a membership roster, and a coffee cup rack have been added to somewhat personalize the clubroom. There has been a proposal to encourage scholarship by initiating a fraternity-sponsored slide rule class that would be taught by qualified members to whoever wishes to participate. Of course, this list of activities would not be complete without a proposal for a good quarter of social activities. Two parties are being planned for this quarter and with the cooperation of each member both parties will be successful.

Our plans are big, our expectations are high, yet our treasury is relatively low. How have we been able to accomplish what we have? The secret is in the personal dedication of each pledge and member to give freely of his SPARE time and very best effort to work toward the goal of making Epsilon Pi Chi the kind of a fraternity that they can be PROUD of.

We challenge other departments to follow suit. A better group of departmental fraternities at Southern Tech would mean more school spirit. More school spirit would mean a better school.

DON'T JUST SIT THERE FAT, DUMB, AND HAPPY—DO SOMETHING!!!!!!

Cheerless leader

Not a "rah rah" left in him! He's just discovered there's no more Coke. And a cheer leader without Coke is as sad as a soap opera. To put the sparkle back in his eye—somebody!—bring him a sparkling cold Coca-Cola!

SIGN OF GOOD TASTE

Bottled under authority of The Coca-Cola Company by

THE ATLANTA COCA-COLA BOTTLING COMPANY

Intramural Football Is Scheduled By Departments

There has been a lot of kicking and running lately at Southern Tech's Dust Bowl. If you look on the field, the boys of our school are participating for their department in intramural football. The teams are represented by eight departments. They are Industrial, Textile, Civil, Building Construction, Electronics and Communications, and Mechanical.

The teams will play on Mondays, Tuesdays, Wednesdays, and Thursdays at 5:20 P.M. till dark. The schedule has been posted on the bulletin board beside Coach Lockhart's office in Building 24.

The teams are playing "flag football" with each boy having a strip of cloth stuck in each side of his belt. When this flag is removed by the defensive team the play is over and the next down

begins from this point.

According to reports, our intramural football will be stiff competition with plenty of action. ALL STUDENTS, PLEASE SUPPORT YOUR DEPARTMENT.

by a Southern Tech professor. She also announced that there would be free door prizes given at each meeting. Mrs. Long slated special events for the year: Square Dance, Turkey Raffle, Valentine Dance, Fashion Show and the Annual Tech Anne Banquet.

Second vice-president, Loette Burdette, who is in charge of club membership, asked for a committee for visitation.

Tech Annes have had approved a diploma which would be given a wife upon the graduation of her husband. Each student's wife will receive a PHT (Putting Hubby Through) degree. Corresponding secretary, Faye Carpenter, explained that each student's wife, whether Tech Anne or not, would receive her diploma upon her husband's graduation. She announced that plans for the presentation of the degree would be studied by her committee and be brought before the club.

Parliamentarian, Gwen Joe, who corrects parliamentary procedure and interprets the Tech Anne Constitution, selected an amending committee.

Sue Holling, Publicity Chairman, reported on publicity for the Square Dance to be held November 1.

After the officers' reports, the meeting was adjourned and turned over to the program chairman, Ann Long. A movie about the origin and function of Southern Tech was shown. Many learned interesting and informative facts about the school.

FOUNDER GIVES HISTORY OF CLUB

Mrs. L. V. Johnson, founder of the Tech Annes, told the history of the club and how it had grown from a handful of members into a well organized, permanent part of Southern Tech's activities.

The door prize, a lovely planter was won by Jean Williams. Refreshments were served by the officers and old and new members got acquainted. The Tech Annes would like to urge all students' wives to attend.

LIBRARY

opened is the cataloguing of approximately 3,000 books which have been donated. This task will be completed as soon as possible; however, experienced personnel are needed and should contact Mr. Edwards, library supervisor, if interested in this work.

ADDITIONAL BOOKS ARE NEEDED

A concentrated drive for more books will soon begin. Absolutely no books will be turned down, but reference books in all fields are a great necessity for a complete library.

**COLLEGE LIFE REPRESENTATIVES
ARE CAREER LIFE INSURANCE MEN**

The College Life Insurance Company of America employs full time representatives only. Each is proud of his profession and a specialist in his field. You can rely on your College Life representative for sound advice on your life insurance needs.

Just as you would not call on a part time doctor to cure your ills—you are also entitled to the service of a full time specialist in helping you plan your insurance program.

Ask your representative from The College Life Insurance Company of America about your "Select Risk" rating with substantial benefits.

BEST'S—Nation's Leading Insurance Reporting Service says: "The College Life Insurance Company of America is conservatively and capably managed, has reputable backing, and has made substantial progress since organization. The results obtained by the company have been very favorable—We recommend this company."
