

Director McClure Extends Greetings

I join the STI faculty and staff in wishing you the very best for Christmas and the New Year.

May you have Godspeed and safe conduct to your homes, enjoy the Holiday season to the fullest, and return with renewed incentive for the winter quarter.

H. L. McClure, Director

WINTER QUARTER CALENDAR

- January 4—Registration.
- January 5—Classes begin.
- January 6—Late registration fees apply.
- January 9—Last day for registration. Last day for adding a subject to study list.
- February 6—Last day for dropping a subject from study list without penalty.
- February 13—End of deficiency report period.
- March 19—End of term.
- March 20-27—Spring recess.

Dr. Raymond Cook (right), English Department, donates book to Library Director R. N. Edwards (left) and STI Director H. L. McClure. Photo by R. W. Hays.

Library in New Location Encourages Increased Use

Southern Tech's library, now operating in its new location in Building 23, is encouraging students' use of its facilities. Included in the new library are two reading rooms open for students from 8 A.M. to 8 P.M.

Immediately after its move to Building 23, the library received acquisitions which should prove valuable to students in the future. The two acquisitions are a book, donated by a member of the English Department faculty, and a tape recording, donated by a student in textile technology.

The book, entitled *How and Where to Look It Up*, was given to the library by Dr. R. A. Cook, part-time instructor in English. This volume is one of the most comprehensive reference works ever

printed in America. It includes detailed references to sources of information in all major scientific, technical, and literary fields.

The tape recording was given to the library by T. R. Jones, a senior student in textile technology. This recording was made of the winning speech in the national "I Speak for Democracy" contest this year. It offers an example of excellent delivery and careful organization in a speech, according to a member of the English Department.

R. N. Edwards, library supervisor, accepted both the book and the recording on behalf of the school. He stated that both should be made available for students' use as soon as cataloguing has been completed.

Dances and Banquet Climax Homecoming

December 5 presented a most unusual Saturday morning sight on the Southern Tech campus. Alumni, wives and families, and many out-of-state automobiles combined to bring an unusual, but pleasant, atmosphere to a normally dead weekend morning. Thus began festivities for the first annual homecoming for STI.

Mrs. Wilson's office, in the Administration Building, seemed to be the nucleus of a small mob as alumni gathered to pay their respects and to sign the guest and alumni register. The new library caught its share of visitors too, as new facilities and developments were being investigated around the campus. The school cafeteria drew many favorable comments as remodeling was being observed during the coffee-doughnut breaks. A new chemistry laboratory and the new library seemed to be the most impressive additions. The general consensus of a proud, noisy, and happy alumni seemed to be that the old school is certainly progressing and it's a great feeling to come back and greet old friends.

The climax of the big day was

IRE Needs You To Fill Quota

The IRE student chapter here at STI is in need of some help.

As stated in the by-laws for a student chapter, 15 students are needed. At the present time there are 14 students registered and only one more is needed.

It is to be pointed out that though the IRE is a national radio club, other forms of engineering are welcomed. You do not have to be in the E&C Department to join. In fact, other departments are invited to join. If you have an interest in radio, this is a good opportunity to talk with others who have the same interest.

If you are interested in becoming the fifteenth member, please see Mr. R. C. Carter in the ET building.

the annual Alumni Banquet and Dance that night in the Henry Grady Dixie Ballroom. Mr. Neel Hoskins, outgoing alumni president, presided over the lively affair which boasted about 255 guests.

Brief talks were given by Mr. H. L. McClure, director of Southern Tech, and Mr. L. V. Johnson, director of the Georgia Tech Engineering Extension Division. Of particular interest was Mr. McClure's resume of STI's growth, progress toward its accreditation with other schools, and its future move to Marietta.

Mr. Hoskins presided at a brief business meeting for the election of new officers, a review of the past year's activities, a treasurer's report, and the urging of an endowment program for the school. Officers elected for the coming year are: Mr. Lester Scott (Ind. '54), president; Mr. C. A. (Al) Burns (Ind. '55), vice president; and Mr. Paul Cobb (BC '50), secretary-treasurer.

STUDENTS FROLIC, TOO!

Not to be outdone, the undergraduates were also having their fun back on the campus. The annual student Christmas dance, sponsored by Iota Tau and the Civil Club, was a spectacular success. Two hundred students, faculty, wives, and girl friends joined to enjoy possibly the finest bit of entertainment to be offered this year on campus.

The Twilights, a very capable eight-piece orchestra, mixed a well-rounded variety of fox-trots, Latin-American dances, and rock 'n roll. Everyone with an urge to trip the light fantastic had a chance to perform. Fifty door prizes, donated by local merchants, were another of the affair's highlights. A great deal of originality was also obvious in the decorations. The old gym was proved just as efficient as a dance floor as it is for housing basketball games. It made one wonder why more campus-wide dances are not held throughout the year.

HATS OFF! IOTA TAU AND CIVIL FOR A JOB WELL DONE.

Sam P. Gilliam Is Student of Month

Samuel Paul Gilliam, better known to his friends and classmates as "Sam," was born May 3 in the year of 1925 at Elkin, North Carolina. He attended elementary and high school at Statesville, North Carolina, and was graduated from Statesville High School in June of 1942.

Sam entered Oak Ridge Military Institute in Oak Ridge, North Carolina, and completed one year before enlisting in the United States Navy in the fall of 1943. After completing "boot camp" and radio school he spent the remainder of World War II in the Pacific. He was given an honorable discharge from the Navy in April of 1946.

Sam enrolled at Wake Forest College, Wake Forest, North Carolina, in the summer semester of 1946 as a pre-med student, and was a member of the Sigma Chi fraternity while at Wake Forest. He left Wake Forest in June of 1947 and started a career as a traveling salesman which lasted until he entered Southern Tech.

Sam was married in 1948 to a girl from Charlotte, North Carolina, and they have one child, a daughter named "Beth," who was born in 1955. He has been a member of the B.P.O. of the Elks since 1950, and due to company transfers while he was traveling salesman, he has lived in Gastonia, N. C., Roanoke, Va., and Columbia, S. C. His family now resides here in Atlanta while he is attending Southern Tech.

As a Building Construction student and a member of Alpha Beta Sigma Fraternity, Gilliam is the past president of Alpha Beta Sigma and is now acting parliamentarian.

After graduating third in his class this month he will be associated with Ordway & Orvold Associates. His friends and fellow classmates feel sure that Sam will achieve his goal, which is to become an architect. He is known to be one of the best students in his field that Southern Tech has had a privilege to graduate.

September Grad Accepted As AIA Associate Member

Henry C. Cannon, a September graduate of the Building Construction department, was recently accepted as a Junior Associate member of the Georgia Chapter of American Institute of Architects. Assisting in Cannon's enrollment were Mr. Albert O. Ordway, STI instructor in building design, and Mr. Henry H. Smith, chairman of Committee of Affairs of Georgia Chapter of AIA.

The AIA, using a unique but practical arrangement, is giving guidance to numerous prospective architects throughout the United States. This particular plan has proven especially advantageous to STI Building Construction graduates who have migrated into the architectural field. After graduation, to first become a Junior Associate, the architectural potential must be employed by a member or firm associated with the AIA, and he must be sponsored by one of its members. This sponsor acts as counselor for the architect-in-training and gives him guidance in the acquiring of diversified experience. A permanent record is kept on the architect-in-training, and a copy of his work is filed at the AIA national headquarters in Washington, D. C.

After his training is completed the Junior Associate Architect may request the taking of an examination in any state of his choice. His

actual practice is not confined to the state in which his training was received; he may make his own choice. In Georgia, an architect-in-training is required to complete seven years of training before becoming eligible for state exams. This means a Southern Tech graduate would have to train for five additional years after graduation. Presently, six STI graduates are licensed Georgia architects.

Students in the STI Building Construction department are now attempting to organize a Student Architectural Society. Its purpose would be to broaden the undergraduates' knowledge and understanding of the practicing architect. All students in the BC department who are interested in the forming of an architectural society are invited to attend the regular meetings.

The Alumni Association of Atlanta will have a meeting on Tuesday, January 12, 1960. A letter announcing the meeting place and details will be mailed by December 20.

This includes the greater Atlanta area—Marietta, Chamblee, Decatur, East Point, College Park, and surrounding territory.

H. Lester Scott
Pres. Alumni Assn.

Many Nations Influence The Christmas Festival

By PAUL REED

"And she brought forth her first-born son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn.

"And there were in the same country shepherds abiding in the field, keeping watch over their flocks by night.

"And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them; and they were sore afraid.

"And the angel said unto them, Fear not: for behold, I bring you good tidings of great joy, which shall be to all people.

"For unto you is born this day in the city of David a Saviour, which is Christ the Lord."

ST. LUKE 2:7-11

There is no other day of the year like Christmas. In every Christian country of the world it is the most important and meaningful holiday of the whole calendar year. Commemorative of the birth of Christ it is also the anniversary of a new age, the era of Christianity. For on that day there came into the world a Great Teacher who was to bring light to countless millions, influencing whole nations and races of men. His birth is celebrated annually from one end of the world to the other in churches and great cathedrals, and in the homes and hearts of the people.

Although the true meaning of Christmas is its religious observance, there are numerous customs associated with this holiday's celebration that have been grafted on since its beginning. What would Christmas be without a Santa Claus? Father Christmas, Kris Kringle, Pelznickel, Yule Tomten, La Befana, Petit Noel, Christkindli—that indispensable and genial character who is Christmas to millions of little children all over the world has come into being through tradition that has grown with the centuries. In Spain where the weather is warm on Christmas Day and the whole world seems filled with flowers and music, there is dancing. In Roumania, boys carry bags along with them on their carolling to receive the gifts that are given them. Singers in Poland used to carry a star around with them; sometimes they dressed themselves to represent characters of the Nativity story. In Bagdad there is a custom of burning dried thorns in the courtyard of the home after the Christmas story has been read from the Bible. In Italy, Spain, Mexico, and other countries where the Yuletide season comes during the warm season, flowers are used for Christmas decoration instead of evergreens.

Every nation that celebrates Christmas seems to have some special dish for the Christmas feast. Long ago in Merrie England, boar's head and brawne, peacock and mutton-pies seemed essential to a successful Yule dinner. These mutton-pies were a forerunner to our own mince-meat pies. In Scotland it was the custom for some member of the family to rise before any of the others and prepare breakfast which had to be eaten in bed. Pfeffer kuchen, a hard spice-cake, is popular in Germany. In Denmark the thousands of tiny cakes baked for Christmas consumption are known as pepper nuts. The wafers that the Polish people make for Christmas, oplatki, are stamped with representative religious figures and blessed by the priests. Norwegians bake a special rice pudding for the Yule dinner in which an almond is hidden, and the one to get the almond will be the first married! Fish is popular in some of the European countries as a Christmas dish. A Mexican dish that is served exclusively on Christmas Eve has been named for the holy night—Ensalada de la Noche Buena. It is made from a mixture of many fruits and vegetables and garnished with gay-colored candies. While speaking of Christmas foods we certainly must not neglect the American roast turkey, the eating of which has become so truly an American custom. This delicious fowl was introduced to the Pilgrim Fathers three hundred years ago by the Indians.

Christmas customs in the United States vary according to the sections, depending upon the origin of the people who have settled there. In the valleys of Pennsylvania where the Pennsylvania Dutch have settled there will be found traces of German and Swiss customs. Out in the Middle West, particularly in Minnesota and Wisconsin, the Scandinavians have influenced Christmas observances. But there are some customs that are distinctly American. The Southern States, for example, have a practice of shooting off fireworks on Christmas. Unique, too, is the custom of trimming trees and shrubbery on the lawn with bright electric lights. Speaking of Santa, our Santa Claus is distinctly an American personality! In other countries he is pictured as a tall, dignified saint robed in all the official vestments of a bishop, while our patron saint of children is a fat, jolly, countrified-looking gentleman defying all the convention of the former Bishop of Myra (original Saint Nicholas) in his make-up! This purely American type of Santa is due to a great extent to a famous poem written in 1822. Dr. Clement Moore wrote "The Night Before Christmas" for his own children, but when it appeared in print, first in a newspaper and later in a collection of his poetry, it was instantly taken to the hearts of American children everywhere. This jolly St. Nick of reindeer and sleigh and a pack full of toys has brought joy to millions of boys and girls and has been to them for many years the only true Santa Claus. With his description as expressed in the famous poem, we close this story of Christmas.

Officers Are Elected For 1960 At Annual Business Meeting, Dec. 5

Alumni officers were elected at the annual business meeting December 5 with Mr. Hoskins presiding. Officers elected for the coming year are: Mr. Lester Scott (Ind. '54), president; Mr. C. A. (Al) Burns (Ind. '55), vice president; and Mr. Paul Cobb (BC '50), secretary-treasurer.

ALUMNI NEWS

JOHN W. COOPER, III, (H&A '57) is in New Britain, Connecticut, in the U. S. Army but will complete his military obligation in January, 1960. John, come by when you are discharged and we will find just the job for you. DONALD E. STOVER (E&C'56) is now employed by American Telephone & Telegraph Company, Atlanta—he likes his work fine and plans to attend Georgia Tech at night. HERSHEL L. WHITE (IND'59) is now employed by Celanese Fiber Company in Rock Hill, S. C., as an Industrial Engineer-trainee. . . . says he is enjoying the work real well and finds the people of Rock Hill to be very friendly. PAUL D. MULLEN (BC-CIVIL'58) is with Seaboard Construction Company,

Brunswick, Ga. C. E. GEORGE (ET'59), Sales Engineer for Applebee-Church, Atlanta, has just moved into a new home. . . . says it's taking all of his money and spare time too. George says he and his wife are looking forward to attending the banquet Dec. 5. JERRY DRYDEN (E&C'58) is once again sending greetings to the folks at STI from California. Jerry says he will never forget the wonderful people who make STI the school that it is. He is with Remington Rand in Sacramento, Calif. Most of his problems revolve around the magnetic tape handling and control units. The tape handling units are the new Uniservo II type and operate with a vacuum tape tension system which is servo controlled. The Uniservo II is designed to move tape at a rate of 100 inches per second and write information at the rate of 200 lines per inch. He says operating at such a rate can and does present strange problems. . . . that is an excellent instrument. . . . they have 20 of them at the installation where he is employed. By the way, Jerry's wife's maiden name is Ruth Bakken—a good old Norwegian name from

Minnesota. JIMMY MASTERS (IND'57), Field Representative for Aetna Casualty & Life Insurance Company, writes a very nice note—thanks, Jimmy, for "them kind words." DONALD E. GROVES, (E&C'56), with REA in Washington, D. C., has just returned from a three-week's trip to California—had a wonderful time—covered 7,200 miles. We are again appealing to those of you in the Washington, D. C.-Alexandria Va.-Falls Church, Va.-area to get in touch with Don if you are interested in an alumni chapter in that area. . . . Don's address is 1605 Overly Drive, Alexandria, Va. BILL OWENS (IND'59) is with Saco-Lowell Shops, Greenville, S. C., and is very much interested in starting an alumni chapter in the Greenville-Spartanburg area. . . . get in touch with Bill, 12 West Tallulah Street, Greenville, S. C., and help him get this started. Bill, maybe you can have your first meeting in December. ROGER L. JOHNSON (IND

(Continued on Page 4)

The Night Before Christmas

He was dressed all in fur from his head to his foot,
And his clothes were all tarnished with ashes and soot;
A bundle of toys he had flung on his back,
And he looked like a peddler just opening his pack.

His eyes—how they twinkled! his dimples how merry!
His cheeks were like roses, his nose like a cherry!
His droll little mouth was drawn up like a bow,
And the beard of his chin was as white as the snow;

The stump of a pipe he held tight in his teeth,
And the smoke it encircled his head like a wreath;
He had a broad face and a little round belly,
That shook when he laughed like a bowl full of jelly.

He was chubby and plump, a right jolly old elf,
And I laughed when I saw him, in spite of myself;
A wink of his eye and a twist of his head
Soon gave me to know I had nothing to dread.

He spoke not a word, but went straight to his work,
And filled all the stockings; then turned with a jerk,
And laying his finger aside of his nose,
And giving a nod, up the chimney he rose;

He sprang to his sleigh, to his team gave a whistle,
And away they all flew like the down of a thistle.
But I heard him exclaim, ere he drove out of sight,
HAPPY CHRISTMAS TO ALL AND TO ALL A GOOD NIGHT!!

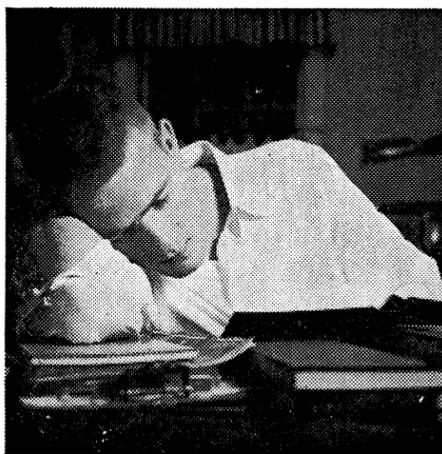

It's not too late to hop on the right one—before graduation time.

If you're interested in a business of your own and no limit on earnings, you should look into the advantages of a career in life insurance selling.

There's a lot that you may not have realized about this absorbing business. Let us show you what a career in life insurance can mean to you.

Does studying for exams make you want to zzz-zz-zz?

If hitting the books ever makes you drowsy, NoDoz is the fast waker-upper you need. NoDoz Stay Awake Tablets deliver an accurate amount of safe stimulation to keep your mind and body alert during study and exams. How? With caffeine—the same pleasant stimulant in coffee. But non-habit-forming NoDoz is faster, handier, more reliable. Buy some—and be in good company. Millions of times a year safe NoDoz helps busy people keep alert and awake.

P.S. When you need NoDoz, it'll probably be late. Play safe. Keep a supply handy.

NoDoz, the safe stay awake tablet—available everywhere

Let safe NoDoz alert you through study and exams!

ELECTIONS FOR CLASS OFFICERS—JANUARY 21

YMCA Seeks STI Affiliate Ga. Tech Cites Purpose

Are you interested in the formation of a YMCA campus unit at Southern Tech? If the answer is "yes," you are in luck; the Atlanta Y branch is definitely interested in helping you get started.

On November 19, the STI student council was honored by a visit from three representatives of the Georgia Tech YMCA Cabinet. Messrs. Steve Wilenchek, A. J. Land, and A. A. Marchant discussed the various functions and organization set-up of their unit at Georgia Tech.

No less than eight separate organizations got their start on the Georgia Tech campus through the sponsorship of the Y. A weight lifting club, a round-table group for development of industrial managers, a Ramblin' Reck Club—these are only a few of the Y proteges developed at Tech. If the need arises, the Y goes to work and usually comes up with an answer to fill the vacuum.

Of outstanding interest was Mr. Land's explanation of the Freshman Camp, an annual 2½ day orientation and pre-school activity period, for the benefit of incoming freshmen. Upperclassmen give up two weeks of their summer vacation each year to return to the campus and organize this very worthwhile endeavor. The freshmen are greeted by the Georgia Tech president and are thoroughly indoctrinated in campus life and enlightened as to the various functions of campus clubs and fraternities. This gives each newcomer the advantage of determining for himself, before registration, the merits of the available organizations and which ones can be of greater benefit to him.

Contrary to general belief, the YMCA is not a group of ministerial students, nor is it controlled by a group of religious fanatics. It is merely an organization consisting of ordinary young men who think and act according to Christian principles. A very devoted and commendable group, its main motive is to promote campus-wide good will and to encourage the leadership of young Christian-minded individuals.

Those interested in forming a YMCA unit at Southern Tech should present a petition to the student council or the Dean of Students. The Y unit at Georgia Tech and the main downtown branch stand ready at all times to assist you.

VOTE!!

Do you have aspirations of becoming the leading student in your class? File your application with the Student Council on the 7th of January during the club period. Your point average must be 2.0 or better.

Support your Student Council by voting for ratification and the candidate of your choice. Give the council your wholehearted cooperation and support. VOTE!!

What Christmas Means

By CHARLES J. RUFF

Christmas is to me a time of celebration; a time for us to remember the birth of Christ; a time when the family unites to exchange gifts. It is surely the most joyous time of the year.

Celebration at Christmas has almost lost its meaning to many people. To celebrate the twenty-fifth of December is to rejoice over the birth of Jesus. It is a time when we sincerely thank the Lord for the blessings which he has given us. Some people forget this and consider the Christmas season as an excuse to drink strong drink and to do other things which not only violate the Golden Rule but break each and all of the Ten Commandments.

The young children look forward to Christmas; Santa's visit is the most exciting event of the year because of the gifts he leaves.

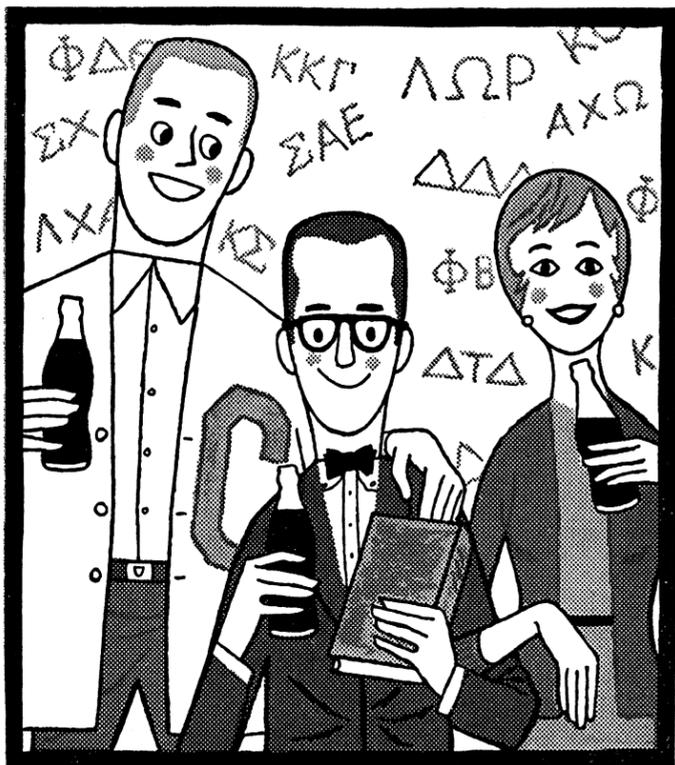

People should not overlook teaching children the true meaning of Christmas because otherwise they are so apt to think only of the birthday of Santa's coming.

Christmas to me means that the family will meet at a designated home to exchange gifts, for which we draw names beforehand. We have a wonderful meal and thank God for everything. Church attendance to me is a particular necessity for religious blessings are really needed.

Being the son of a merchant, Christmas has another important meaning to me. It is the most prosperous time of the year for my father. The increase in sales makes me even more thankful and deeply indebted to our Lord for his ever-increasing blessings.

Christmas, December 25, the birthday of Christ, is a momentous, joyous, and religious occasion.

Do You Think for Yourself?

(THROW THESE QUESTIONS INTO THE POT AND SEE WHAT COOKS*)

If your studies led you to believe you could strike oil by drilling a hole right in the middle of the campus, would you (A) keep still about it so people wouldn't think you were nuts? (B) sell stock in the proposition to all your friends? (C) get an oil man interested in the idea, even if you had to give him most of the profits?

A B C

"A watched pot never boils" means (A) the man who made such a statement never watched a pot; (B) if you don't want the stew to boil over—watch it! (C) you can't hurry things by worrying about them.

A B C

If you saw a girl perched up in a tree reading a book, would you say, (A) "Timber!" (B) "Is the light better up there?" (C) "Will that branch hold two?"

A B C

Assuming cigarettes could talk, would you listen to (A) a filter cigarette that talks only about its taste? (B) a weak-tasting cigarette that talks about its filter? (C) a filter cigarette that lets its advanced filter design and full taste speak for themselves?

A B C

the cigarette with the most advanced filter design of them all . . . the one cigarette with a *thinking man's filter* and a *smoking man's taste*.

*If you checked (B) in three out of four of these questions, you're a pretty smart cooky—but if you checked (C), you think for yourself!

Familiar pack or crush-proof box.

Hornets Beat Andrew Jr. In First Conference Game

The Hornets of Southern Tech won their first conference game of the season against Andrew Junior College of Cuthbert. Played in the Andrew gym, the final score was 76-68.

Tech led the whole game, with the biggest margin, 20 points, coming midway in the second half. After the reserves took over for

Tech, the Andrew team put on a determined rally, but it fell short by eight points at the final whistle.

Wayne Lisle again led the scoring with 23 points; Richard Tyler had 15 points, Grady Bentley 14, and Jack Beckham 10, as four Hornets scored in the double figures. Southern Tech led 45-37 at the half.

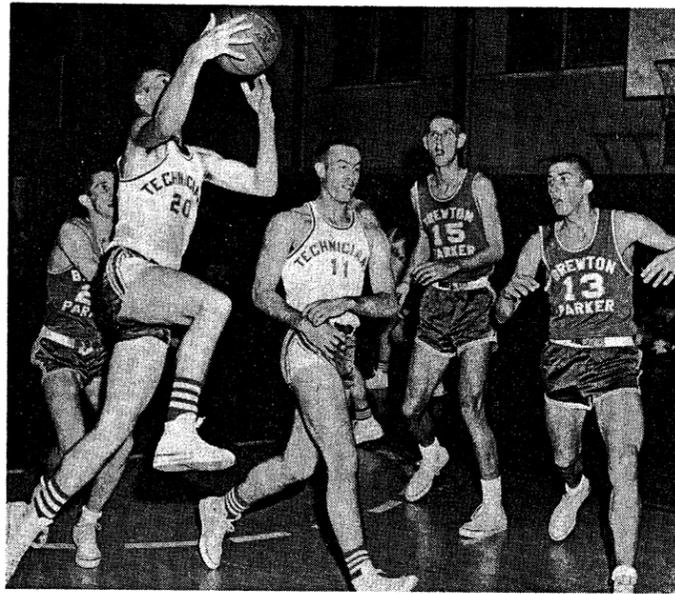

Brewton Parker College Spoils STI Home Opener

The Hornets of Southern Tech lost their opening game at home to the defending state champions, Brewton Parker College, by a score of 88-56. The Hornets scored first on a field goal by Grady Bentley and held a five point lead early in the game but the Barons of Brewton Parker came back to lead 42-28 at the half and went on to win 88-56.

Richard Tyler with 18 points and Wayne Lisle with 14 led the scor-

ing for Tech and Jack Beckham and Grady Bentley did an outstanding job rebounding against the much bigger Barons. Daryl Whitford led the scoring for Brewton Parker with 16 points.

Tyler	18	Nichols	0
Lisle	14	Owens	2
Bentley	4	Hice	0
Beckham	3	Garrett	1
Samples	6	Cross	2
Sheppard	6		

Richard Tyler with Jackie Dove drive for two points.

Southwestern Hands STI Its First Loss of Season

The Hurricanes of Georgia Southwestern handed Southern Tech its first loss of the young season on November 19, 98-78. The score was close for the first 15 minutes of the game, but the home team pulled out to an 11 point lead of 44-33 at half time.

Each team made 31 field goals, but Southwestern made 36 points from the foul line compared to 16 for the visiting Hornets. The game developed into a scoring duel between Billy Speck of Southwestern and Max Samples of STI. Speck wound up with 32 points while Samples had 30. Southern Tech lost five men by the foul route, as the game was officiated very closely against both teams.

Tyler acquired 10 points for the night, Beckham had 9, Bentley 8, Lisle 7, Dove 7, Nichols 3, Cross 2, and Garrett 2. These combined with Samples' 30 points gave STI their highest point total so far this season.

E and C Defeats Textile By 19-0

The first game of the year saw E&C win a hard fought game from a good Textile team, 19-0, but it was costly because E&C lost the service of two regular players. Guard Stacy and Fullback Steward were both injured and are out for the season.

The first touchdown came from a pass from Hurst to halfback Hill. Hurst threw to Milton, who made an outstanding catch, for the second score and the last score came in the last quarter when Hill intercepted a pass and, with a key block from Sam McKoy, went the distance for the final six points.

E and C Rolls Over Mech, 28-0

E&C, keeping their record intact of not being scored on, beat Mech, 28-0. E&C's passing attack was not to be stopped as all four of the touchdowns came by way of the air.

All four touchdowns were made by Hill, the longest being an 80 yard run of an intercepted pass in the last quarter. "Sack" Milton threw two touchdown passes and Peacock one as Mech was never in the ball game.

ALUMNI NEWS

(Continued from Page 2)

'58) is with Happ Manufacturing Co., Macon, Ga. Roger trained at the Rome, Georgia plant—FRANK WOOD (IND'57) is employed here. WILLIAM R. BRADFORD (BC '53) writes a note. . . Bradford is Assistant Director of Building and Zoning, Miami Shores Village, Miami Shores, Florida. . . Bradford, we're expecting you at the banquet this year because we sent our notice out over a month in advance. . . so hop a plane and come on up on Dec. 5. DALE M. HUDSON (E&C'59) writes from Eau Gallie, Florida, where he is employed by RCA. DON JANES (MECH'58) and his wife Daisy have purchased a home in Union City, Pa. Don, sounds very nice, especially the creek which runs along the back of your property which is good for fishing and swimming. I appreciate your invitation to visit you—maybe, I'll surprise you and take you up on it one of these days. Don says the maple trees in that section are a brilliant orange and very beautiful. Did you get your transcript? FRANKLIN CLOUD (H&AC'58) sends in his alumni dues and says "keep The Technician coming." Frank says he has a very nice job with Newcomb and Boyd, Atlanta. He does strictly design work on air conditioning systems. HARRY LOCKWOOD (H&AC'58) is on the team with Frank and usually work on the same jobs. The following alumni are also employed by Newcomb & Boyd: JOHN SIMPSON (ET'52), John has been here 7 yrs., WALTER DEERE

(H&AC'56), BRADLEY CONN (H&AC'59), W. F. ROESCHER, JR. (H&AC'59). GEORGE C. WARD (MECH '56), Project Development Technician, Southwire Co., Carrollton, Ga., says he certainly enjoys reading The Technician that he didn't realize what he had been missing by not paying his dues. . . he pledges to remain a "paid-up member" of the STIAA from here out. He sent in his reservations for the banquet too. Southwire has six of our alumni now. George, bring all of them with you to the banquet (including wives, of course). DON CARTER (E&C'54) is still with Lockheed, Marietta, Ga. GENE WEST (E&C '59) writes a very nice congratulatory letter. Gene, I appreciate it so much. He is very happy in his work with Wilson Electric Company, Macon, Ga., as a Sales Engineer. JAMES SATTERFIELD (E&C'58) sends his alumni dues from Orlando, Fla., where he is employed by Martin-Orlando. James says he is very happy with his job. . . he sends his regards to everyone at STI. JOHN A. MULLIS (MECH'59) is with Saco-Lowell, Greenville, S. C. John lives at Clemson, S. C. ALVIN D. HERNDON (ET'58) sends in his alumni dues. Dee and Betsy are very happy in New Orleans. Dee is an Assistant Engineer with New Orleans Public Service Co. His "boss" interviewed on our campus recently — and Dee, he said some very complimentary things about you and your work. Betsy, if Dee won't write—won't you?
