

Four Students Head Deans List Winter Quarter

Four college students finished their winter quarter at Southern Technical Institute with all-A averages, according to the honor-roll computations just released by the Southern Tech Registrar's office. In the official terminology of college registrars, the four future technicians "earned 4.0 averages."

The four all-A students at Southern Tech are:

R. J. Culpepper, Jr., son of Mr. and Mrs. Rossie J. Culpepper, Sr., of Lake Wales, Florida.

Walter C. Jautz, son of Mr. and Mrs. Gebhard A. Jautz of Rhinebeck, New York.

Johnny H. Pitts, Jr., son of Mr. and Mrs. J. H. Pitts, Sr., of Thomaston, Georgia.

Joseph F. Williams, Jr., son of Mr. and Mrs. Joseph F. Williams, Sr., of Thomasville, Georgia. Williams had also earned a 4.0 average at Southern Tech the preceding quarter.

SCHOLASTIC BREAKDOWN

A further breakdown on the scholastic averages shows that three students made between 3.80 and 3.99, seven had averages from 3.60 to 3.79, 16 made from 3.40 to 3.59, 24 grades were from 3.20 to 3.39 and 38 made from 3.00 to 3.19.

According to a study completed by the Southern Tech counselor's office, students who graduated from high school out of the state of Georgia made up 17 per cent of the student body in the winter quarter but they constituted 27 per cent of those on the Dean's list. Florida with five students, Alabama with three and Tennessee and Kansas with two each and led the list. Ten other states were represented and two foreign students, both from Columbia, were included.

High schools in the Atlanta metropolitan area furnished 30 per cent of Southern Tech's winter enrollment but they made up 28 per cent of those on the Dean's list. Three students graduated from North Fulton, two finished school at Marietta, Osborne, South Cobb and Tucker; and 14 other schools in the Atlanta area had graduates listed.

Georgia high schools outside the Atlanta metropolitan area gave Southern Tech 46 per cent of its winter quarter student body and 45 per cent of those on the honor roll. Savannah High School was represented by three graduates, and there were two each from Meriwether County High and Union High of Leslie. Thirty-five other high schools placed graduates on the Dean's list.

TRANSFER STUDENTS

Thirty-four per cent of the students who made the list were transfers from other colleges, and they made up 23 per cent of the Southern Tech enrollment in the winter quarter. Twelve different campuses were represented on the Dean's list, but Georgia Tech with 19 transfers furnished more than half of those from other colleges.

Of the transfer students at Southern Tech in the winter quarter, 17 per cent made the Dean's list. For the out-of-state students, 17 per cent were listed on the honor roll while nine per cent of the Atlanta area students were included. For Georgia students outside the metropolitan area of Atlanta, 11 per cent were on the honor roll. A total of 92 students, 11 per cent of the enrollment for the winter quarter, was on the Dean's list.

The requirements for the Dean's list are: no failures, at least 15 hours of credit work, at least a 3.00 average, and no conduct offenses.

Lockheed-Georgia Executive To Speak at Graduation

W. A. Pulver, president of the Lockheed-Georgia Company, will be the commencement speaker at the graduation exercises of Southern Technical Institute. The exercises will be held at 10 A.M., June 9, 1962, in the Fine Arts Auditorium of Marietta High School.

Mr. Pulver is a native of Milwaukee, Wisconsin, and a graduate of the University of Michigan. He joined Lockheed in July 1936 as an engineering detailer. In October 1936 he was appointed group engineer in charge of shop liaison and was later project engineer on the P-38 airplane and the Navy Constitution.

Mr. Pulver works as manager at Factory "C" in Burbank, California, (1952), chief tool engineer at

the Burbank plant (1954), and chief manufacturing engineer (1955).

In June 1956 Mr. Pulver came to Georgia as chief engineer-product design. He was appointed chief engineer in April 1958 and assistant general manager in February 1959. On August 13, 1959, he was named a vice president of The Lockheed Aircraft Corporation and general manager of the company's Georgia operations.

Mr. Pulver is a member of the Institute of Aerospace Sciences and the Society of Automotive Engineers, (local chapter, national committee on aircraft and missiles, and the SAE Technical Board for 1960).

He is married to the former Miss Jo Elizabeth Kitchen and has two sons and a daughter.

Display In Chicago By Gas Fuel Students

Professor W. L. Thomas and five students from the Gas Fuel Technology Department attended the National LP-Gas convention in Chicago from April 28 to May 3. The students attending were Roy Dodd, Bob Garrett, Atilano Rojas, Paul Thibodeaux and Davis Yaun.

Southern Tech had a display at this convention which received a great deal of attention and apparently is to be mentioned in several forthcoming magazine articles. This display was built by Gas Fuel students.

This convention gave students the opportunity of meeting and talking to some of the leaders in the gas industry. The students also viewed displays by various manufacturers.

Students at the nation's only college technical program in gas fuel

technology have selected an eighteen-year-old high school beauty as "Miss Modern Fuel of Southern Tech." The lads so honored is Barrie Lynn Bixler, Miss Modern Fuel of Southern Tech students.

Miss Bixler, who was chosen by Gamma Phi Kappa, professional fraternity, as Miss Modern Fuel, is a student at Tucker High School, Tucker, Georgia. Her parents are Mr. and Mrs. J. E. Bixler of Tucker. Miss Bixler will represent the Gas Fuel fraternity at campus functions during the school year 1962-1963.

Southern Tech students are engaged in earning Associate in Science degrees through a two-year program in Gas Fuel Technology. W. L. Thomas, head of the Gas Fuel Department, is also faculty advisor for the professional fraternity.

Graduation June 9 Offers 270 Candidates A.S. Degrees

At the graduation exercises at 10 a.m., June 9, 1962, 270 students will receive the Associate in Science degree from Southern Technical Institute. Of these 270 graduates, 106 are completing the requirements in June; the others have completed the requirements since the last graduation exercise in June, 1961.

The three scholars graduating with the highest scholastic averages are all majoring in the field of electrical technology. Joseph F. Williams, with a 3.85 point average, has the highest average in the class. Rossie J. Culpepper (with 3.77) and Danny I. Ward (with 3.74) are close contenders for the honor.

A General View of the Visitors in Front of the Speaker's Stand.

New STI Campus Toured By Officials, Alumni, Visitors

Industry, education, and community leadership joined hands Sunday, May 6, in the formal Open House ceremony of one of the nation's newest college campuses. This event occurred at Southern Technical Institute, a unit of the Georgia Tech Engineering Extension Division. The formal ceremony began at 3:00 p.m.

Assistant Chief Ellison, Marietta Police Department, estimated the crowd at about three thousand. The City and County Police departments, aided by Southern Tech students, managed the parking facilities for the visitors.

Featured on the Open House program were addresses by Robert O. Arnold, Chairman of the Regents of Georgia's University System; T. R. May, Vice President of Lockheed Aircraft Corporation's Georgia Division; L. V. Johnson, former director of Southern Tech and now head of Georgia Tech's Engineering Extension; and Dr. E. D. Harrison, president of Georgia Tech. Rev. I. B. Hall, pastor of Marietta's First Baptist Church, delivered the invocation.

The program also included citation of distinguished guests from the Cobb County-Marietta Community by Harold S. Willingham, state representative from Cobb County. The Marietta High School Band played before and after the formal ceremony.

TOUR OF CAMPUS

Following the ceremony the general public toured the new 120-acre, \$2½ million campus with its eight buildings. Southern Tech faculty

Bryant Attends Registrar Meeting

L. Y. Bryant, registrar at Southern Technical Institute, Marietta, Georgia, attended the 48th Annual Meeting of the American Association of Collegiate Registrars and Admissions Officers in Kansas City April 24-27.

More than 800 representatives of 600 colleges and universities of the nation attended.

Guest speakers featured on the program were Dr. Roger Finch, Director of University Relations of the Peace Corps; Major H. Roe Bartle of Kansas City; Dr. B. Hopkins Moses, President, Wyoming Seminary; and Dr. Louis T. Benetz, President, The Colorado College.

Receiving special attention in the general sessions of the meeting were the adjustment problems of foreign students, financial assistance programs for students and the professional growth of admissions officers and registrars.

and staff members explained Southern Tech's eleven two-year Associate in Science Degrees.

Southern Tech's new campus represents a dream fourteen years in coming true. The college opened in March 1948 on rented facilities at the old Atlanta Naval Air Station in Chamblee, Georgia. In March 1958, Georgia's then-Governor Marvin Griffin announced the allocation of \$2 million for a new Southern Tech campus. Immediately after Griffin's announcement a contest between DeKalb County and Cobb County developed over relocation of the college.

Final decision of a home for Southern Tech went to Cobb County. Southern Tech held first registration on its partially completed campus on October 2, 1961. Cobb County's civic leadership had sparked a drive to extend to the college services, such as streets, parking space, land, and utilities. In view of the community efforts to obtain Southern Tech in Cobb County, a key theme of the Open House was relations between the school and community. In his message Dr. Harrison challenged community and faculty to cooperate.

Citing the civic efforts to move Southern Tech to Cobb County, Representative Willingham stated before the Open House: "The relocation of Southern Tech in Cobb County is one of the two greatest events I have witnessed in our county. The only comparable event was the erection of Government Aircraft Plant Number 6 (Lockheed). We of Cobb County wish we could say 'welcome' to Southern Tech a thousand different ways."

Willingham, a leader in Cobb's drive to get Southern Tech moved, saluted during the ceremony many of the civic and professional people who worked with him. Representative Willingham also saluted former Governor Griffin, who was present during the ceremony.

Johnson's speech reviewed the Technician's position in industry and Southern Tech's role in training industry's "missing links."

Technician's Log Distributed Today

The 1962 edition of the Log is now being distributed in the Log office. A student who has been enrolled for three quarters must see the cashier and pay one dollar if enrolled for two quarters; or two dollars if enrolled for one quarter.

Faculty Promotions, Grants And Summer Activities Given

Six faculty members whose promotions have just been announced are wearing broad smiles. Although the promotions do not take effect until September, it is the announcement that counts.

The faculty promotions, as approved by Georgia's Board of Regents of the University System, are as follows: C. R. Orvold, from associate professor to professor (building construction); W. L. Thomas and R. P. Youngblood, from assistant professor to associate professor (gas fuel technology and electrical technology respectively); J. E. Dunn, Herbert Eller, and C. W. Cowan, from instructor to assistant professor (building construction technology, industrial technology, and electrical technology respectively).

EWING, SMITH, RICHARDSON GET SUMMER STUDY GRANTS

The National Science Foundation has selected two instructors from Southern Technical Institute for advanced study programs this summer. David L. Ewing, instructor in physics; and Harry V. Smith, Jr., associate professor of mathematics; will work in NSF Summer Institutes this summer.

A professor at Southern Technical Institute, has received an appointment to conduct business research at the University of Tennessee in Knoxville. G. M. Richardson, a Southern Tech faculty member for the past four years, will work with the Bureau of Business Research while studying for a doctorate in Economics at Tennessee.

Richardson joined the faculty of Southern Tech's Industrial Technology Department in 1958. He received his bachelor of science degree in industrial management from Georgia Tech in 1957. He has completed the requirements for the master of science degree in industrial management, and his field of specialization is economics. His industrial experience includes employment with Union Carbide Cor-

poration prior to joining the Southern Tech faculty. Richardson is married to the former Kathleen Loose of Cleveland, Ohio.

The Richardsons presently live in Chamblee with their two children, but they plan to move to Knoxville in September of this year. During his Ph.D. study he will be on leave of absence from Southern Tech.

TAYLOR TO ATTEND SEMINAR

L. H. Taylor, Southern Technical Institute professor and professional engineer, has been invited to attend a seminar given by an industrial concern on electronic controls and air distribution. The seminar which Taylor will attend will be held in Rockford, Illinois, from June 18 through June 22.

Party Held By Tech Annes

Under the leadership of Betty Gunzelman, Tech-Annes scored another success in their annual Benefit Bridge and Card Party. The Boston Homes Recreational Room was filled to capacity on the evening of Friday, March 9, where players enjoyed bridge, canasta, chess, and several other games and were served refreshments throughout the evening.

The following contributed donations to the Tech-Annes Party: Woolworth Company; Dunaway's Drug; Penneys; East Marietta Drug; Community Hardware Company; Western Auto; Schillings Hardware; Fox Jewelers; Athertons Drug; Florence's (Marietta); Diamond Jewelry; Saul's Department Store; Bryans Cut Rate Fabrics; Coggins Shoe Store; Fletchers Jewelers; The Holly Shop; Murray Shoe Store; Hollywood Clothiers; Leiters; Strand Theater; Cobb Theater; McLellan's Store; Lois Ashworth Style Shop; Card & Party Shop; East Marietta Hardware Store; Children's Shop; Miles Shoe Store.

Golf Team Participates In Junior College Meet

The golf team got off to a slow start, losing their opening match with Emory-at-Oxford by the close score of 6½ to 5½. In the return match, however, Southern Tech won the match by reversing the score and winning 6½ to 5½. The next match was played in Barnesville against Gordon Military College, and Southern Tech scored a decisive victory with the score being 13 to 2.

The following day Southern Tech played in the Jr. College Invitational Tournament and finished third behind the host team, Middle Georgia College and the second place team, South Georgia College.

Financially, that is! If you find yourself in a predicament where saving seems next to impossible, you'd be wise to get a head start on the future with a guaranteed savings plan—one with protection features, too!

Beginning your life insurance program now gives you the advantage of lower premiums. We'll be glad to talk with you about a variety of plans from which you can choose. Your plan can be tailored to your individual needs.

Life Insurance Company
of Philadelphia

In an individual match against the winner of the Jr. College Invitational, Southern Tech surprised the champs by defeating them 8½ to 6½. In the return match Middle Georgia came out on top winning by a score of 9 to 6. The Tech golf team played one more match, and again they came out on the winning side defeating Columbus College by the score of 12½ to 2½.

With at least one victory over all of the teams they have played, the Southern Tech golf team should rate as one of the favorites to win the state tournament that starts May 10 in Douglas, Georgia.

The team is composed of Frank Foster, number one man; B. J. Hatcher, number two man; Frank Garbutt, number three man; Ric Celedon, and Jack Tennell play the remaining three spots interchangeably.

Rebs Bow To STI, 11-4

The Columbus College Rebels' hopes of going to the state championship in baseball were smashed by a dominating Hornet team last night. The Technicians downed the Rebels 11 to 4 in the final game of the season.

The Rebels with only one prior loss during the season was dealt with, with the "strong arms" of "Socko" Stockwell and Jerry Linsey. Jim Battle led the offense with 3 hits, Linsey, Smith, Meeks and Ingraham followed with 2 apiece. The Technicians got off to a good start getting 5 runs in the first innings.

The Technicians closed out the year with 5 wins and 5 losses.

Fordham Holds Track Record

On April 19, the Southern Tech Track Team met Emory, Berry, and West Georgia in a track meet in which all first places go into a record book for the standing STI track records. The strong Emory team won the meet with 79 points, finishing in order were Berry 42 points, West Georgia 34½ points, and Southern Tech 17½ points.

Ernest Fordham, STI's high jumper, won the high jump and will hold the record until broken. Mike O'Shea continued his outstanding performances for the "Thin Clads" taking second in the 440 dash. Doug Dooley and Cary Treadwell finished second and third in the shot-put while Robert Godwin threw the javelin to a fourth place. Dooley and Murrey took third and fourth in the discus to round out the scoring for the "Techsters".

The following Seniors will receive their Award Jackets for track: Shuttlesworth, J., Dooley, D., Godwin, R., Law, L., Sams, M.

The following Freshmen will receive Letters for their participation in track: O'Shea, M., Rainey, S., Murry, M., Bragg, B., Fordham, E., Hodges, F., Dillinger, D., Laurito, T.

Circle K Is Sponsored By Marietta Kiwanis Club

The Southern Tech Chapter of Circle K International has recently been reorganized under the leadership of Mr. W. S. Newman. The first meeting of the club was held May 10, 1962, at 7:00 p.m., and officers were elected. The new officers are: President, John Russell; Vice President, Bill Poulos; Secretary, Glenn McKenney; Treasurer, Arlyn Solo-

mon and Parliamentarian, Larry Hall.

Circle K is the college counterpart of the high school Key Club and the Kiwanis Club. This is primarily an organization to serve on the campus and in the community, to provide an opportunity for leadership training in service and to develop aggressive citizenship and the spirit of service for improvement of all human relationships.
