Southern Technical Institute, Marietta, Georgia, June 9, 1964

No. 10

EDITOR'S COMMENTS

By Lewis A. Edge, Jr.

Students and faculty approach me and say "You're the Editor, why don't you do something about the

 Snack Bar . . . complain about the service and lack of silverware and the dirty tables . . . Complain about the high prices and lousy food."

The Snack Bar manager and employees probably think I'm out to ruin their business and get them fired.

I haven't been trying to run a petty gripe sheet and the things which have been mentioned editorially in this paper were things I felt seriously needed attention. The Snack Bar is one of them.

The incidents leading to complaints about the Snack Bar are quite involved with students as well as Snack Bar employees being at fault.

Lack of silverware . . . especially spoons, has been a major complaint lately. The Snack Bar spoon you have in your office or at home may be one of the 175 or more reasons that there just aren't any spoons in the silverware tray.

STEAL?? Did I say steal? No! None of the Southern Tech students and faculty would steal. We aren't a bunch of thieves . . . even though we're acting like it now. The spoons, coffee cups, knives, forks and other assorted Snack Bar hardware was just "borrowed."

All of this stuff should be returned now before we're eating off the bare tables with our fingers or drinking scalding hot lousy Snack Bar coffee out of the palms of our hands or from the spout itself.

Assuming that some of you will "forget" to return your share of "goodies" to the Snack Bar, the Snack Bar management should periodically purchase a new set of hardware to replace that which was "lost."

Restaurants do have silverware "misplaced" and they just mark it up as an operating expense and replace it.

EMPLOYEES COMPLAIN

The Snack Bar employees complain that they are not getting paid enough and that they don't have enough help. They say that the tables could be cleaner if there was enough help to keep them that way.

The Snack Bar's business might increase enough to pay the extra help if the students weren't driven to eat elsewhere by the filthy tables. The students and faculty can help by not making an unnecessary mess when they eat and by not doing childish things like mixing salt and sugar together, or using twenty napkins to do the job for which one would be sufficient.

NOT LILY WHITE

I'm not taking the defensive for the Snack Bar. They have a lot of room for improvement. We must keep in mind, before we get too critical, that we aren't "lily white" ourselves. We, as customers, could stand improvement too.

SNACK BAR MANAGER

Mr. Davenport, the Snack Bar manager, seems to be trying to do a good job, and has been complain-

(Continued on Page 2, Col. 3)

Southern Tech Athletes Win Awards At Banquet

The 1963-64 athletic awards banquet was held at the Marietta Country Club on May 27, 1964. At the annual fete, which was sponsored by the Monogram Club, the following Southern Tech athletes won awards:

Most Valuable Basketball Player
and

Outstanding Senior Athlete
Robert L. McCoy

McCoy, a senior in the Building Construction Department, placed on the All-Region basketball team in both his freshman and senior years. He is from Smyrna. For his "Outstanding Senior" award, McCoy was presented with the Parlett Memorial Trophy.

Most Valuable Baseball Player
Jim Stancil

A senior in the Civil Department, Stancil was on the All-State baseball team in his freshman and senior years. He was an unanimous choice this year. Stancil is from Snellville, Georgia, and will graduate in June.

Outstanding Freshman Athlete
Award

Robert Jordan

The leading scorer for the 1963-64 basketball season in Georgia Junior College competition was Robert Jordan. He made the All-Tournament and All-State Teams in this, his freshman, year. Jordan was presented with the Parlett Trophy. Jordan is majoring in Industrial Engineering Technology. In addition to his basketball accomplishments, he was a regular pitcher for the baseball team. He is from Ball Ground, Georgia.

Outstanding Scholastic Achievement Award

Stan Butler

This award, presented to a letterman in any sport, was won by Butler for his average of 3.18. He was a winter-quarter graduate. Butler won his letter on the golf team.

Most Outstanding Athlete in A Minor Sport

James M. O'Shea

O'Shea, a senior in the Building Construction Department, won this award for his achievements in track. He is from Rome, Georgia.

John Hudson Memorial Award

Richard Wilkes

A recently established award, the John Hudson Memorial Trophy has a two-fold purpose: First, to perpetuate the memory of John Hudson, a member of the class of '65, who died in April of this year. Secondly, the trophy is given to honor the Southern Tech athlete who best demonstrates the qualities of loyalty, selflessness, and sportsmanship for which John Hudson was known.

Wilkes, a senior and co-op student from Thomaston, Georgia qualified for the award. He was placed on the All-State Baseball team this year. He is in the Textile Department.

The Booster Club was responsible for presenting the "Most Valuable Basketball and Baseball" awards. The club also presented the "Scholastic Achievement" and "Most Outstanding Athlete in Minor Sports" award.

Pontiac Combats Pole: Student Is Loser

A white 1961 Pontiac Ventura, which had been driven to STI by Marvin Young, an Industrial student here, rolled down the hill behind Buildings three, four and five shortly after 8:00 a.m. May 28, and crashed into a power pole near the shop building.

Young, who, according to the campus security officer on duty, left his car parked illegally behind Building three, told Marietta police patrolmen Carter and Tribble, that he had left the car in "park" and that it must have become disengaged in his absence.

The vehicle, while rolling down the hill, ripped up a "visitor's" parking sign, tangled it underneath the floorboard, causing the floorboard to be pushed up into the passenger area of the car, almost ran down a student, and crashed into a power pole causing a temporary power failure in the maintenance building.

The "Haulin' Hornet", STI's giant wrecker, attempted to go to the rescue by pulling the vehicle away from the power pole so the power company men could repair the damage to their equipment, but it ran out of gas before it was of any use, and the physical plant employees were unable to operate their gasoline pump because of the power failure. A jeep was finally used for the job.

Damage to the vehicle was estimated by the police to be in excess of \$1000. The power company's pole and equipment suffered only minor damage. No charges were made by police.

Students Take Chicago Trip

Thirteen S.T.I. students from the Gas Fuel Department went to Chicago, Illinois last month to attend the "National Liquefied Petroleum Gas Association Convention." The convention is held every year to display new products and ideas in the gas fuel industry.

Southern Tech was given a free booth to display a project that two S.T.I. students had built. The students, Steve Zeis and Raymond Johnson, constructed the project, "Compressible Fluid Flow Distribution Computer," which can be used to regulate the flow of gases in a maze of pipes. The convention was held from May 3 through May 6.

Campus Scenes

Student with striped life preserver around his neck wading through heavy downpour between Buildings 3 and 4.

Drenched student running out to flagpole during heavy rain and briskly taking down the flag.

Student driving big black hearse on campus with big green SOUTHERN TECH sticker on the side windows.

Security jeep seen following an attractive school secretary through the parking lot as she walks to her car.

Security officer exclaiming that he had made a thorough investigation of a wreck on campus, and had even called the mother of the student involved. But when someone asked the officer who the student was, he said that he didn't get the student's name.

Student demonstrating how far he could squirt a stream of blood from his pricked finger at the recent bloodmobile clinic.

Photo by W. E. Burton

Neville and Boswell Fill 1964-65 Editor Positions

George B. Neville has been chosen Editor-in-Chief of the Engineering Technician for the 1964-65 school year. Neville takes over the Editor's position from the departing Lewis A. Edge, Jr., who began as Editor in February of this year.

Neville is a fifth-quarter senior from East Point. An electrical engineering technology major, he will begin work in this new capacity with the preparation of the September issue of the Engineering Technician.

A new staff position of Associate Editor was created for Steve Boswell, 6th quarter senior from Atlanta. Also a member of the EET Department, Boswell has worked with the newspaper staff since the beginning of this year. During the 1964-65 year, Boswell's duties will consist of editorial and feature writ-

ing for the nine scheduled issues.

Steve Dean will return in the fall as Managing Editor. He is from Palmetto, Georgia, and is majoring in EET.

Bob Bailey and Glenn Martin will fill the photographers positions for the coming year. Bailey, majoring in civil engineering technology, now has a year's experience with the newspaper staff. Martin, a rising senior from Columbus, majoring in EET, will come to the staff with four years of professional photography work.

Butch Copp, Robert Good, Jr., and Lee Winde will fill yet undetermined positions on the newspaper staff. Copp has served on college publication staffs before coming to Southern Tech. Both Good and Winde also have had newspaper experience before.

Most of the courses will be offered on the Georgia Tech campus because the downtown campus is most convenient for the majority of the students. Some courses will be offered at the Marietta campus, because only the Southern Tech campus has the labs needed for some courses.

The registration for the summer quarter will be from 9:00 a.m. until 9:00 p.m. Monday, July 6; and Tuesday, July 7, at the Administration Building, Southern Tech, Marietta. Late fee charges will begin at 9:00 p.m. on July 7; and the first classes will meet on July 8, 1964. S.T.I.'s book store will be open both registration nights.

On Monday, May 18, from 5:30 until 9:30 and Thursday, May 21, from 6:00 until 7:30, pre-registration will be held for the summer quarter.

Staff Comments

EXPULSION

A student was recently expelled from here for stealing books from another student.

Even though we detest any form of cheating or stealing, we realize that the student will have to carry the awful burden of his actions and expulsion throughout his life. This is a big price to pay for a few dollars.

The student should carefully consider the possible consequences, even if he has no character, before he cheats or steals to get a passing grade or a few extra dollars. If he does, he will see that any benefit he might receive from his dishonesty would fall far short of equalling the misery he can bring upon himself and his family.

-PIPE DREAMS OR WHAT WE'D LIKE TO SEE NEXT YEAR

- ... a more active student council
- ... better and cheaper coffee, of course
- ... cheaper prices in the bookstore
- ... campus-wide fraternities allowed
- ... more coeds (attending STI)
- ... more student interest in campus activities
- ... responsibilities for class officers
- ... a vote for the class officers in the Student Council
- ... better school spirit

FLAG PRESENTATIONS

We recognize and commend the actions of two excellent groups on campus for service to Southern Tech, Epsilon Pi Chi fraternity for their presentation of a Georgia State flag and the Circle K for the much needed 50-star U. S. flag. Well done.

CLASSROOM DESKS, STICKY AND SLIMY

The idea has been mentioned several times that a bit of elbow polish on the desk tops in most of the classrooms needs to be administered by our very able janitorial men. Many of the desks have been in use for quite a number of years and have become sticky and slimy. They are very much in need of a bit of soap and steel wool.

COFFEE, COFFEE EVERYWHERE AND NOT A DROP WORTH A ...

We notice that the Snack Bar's Coffee is still lousy and still a dime.

VANDALISM ON CAMPUS

One of the campus wide dances was being advertised by a large balloon flown over the campus last week. A student downed the balloon by hitting it with a rock. That action was not indicative of the behavior of a college student. It was more like that of a vandal.

Several students went to considerable trouble working on that project, only to have the balloon knocked down after it was up only a few hours. If the student that burst the balloon with a rock enjoys doing things like that, he should have stayed in high school.

Have shoes and socks really gone out of style?

WHO IS RESPONSIBLE FOR MISS STI?

One of the things we'd like to see done next fall is for someone or some group to take over the responsibility of Miss STI. She should be invited and escorted to all campus-wide activities, including sports events and campus tours. We feel that the Student Council should designate someone to be responsible for her, if the nominating fraternity fails to bring her to these functions. We are aware that she has attended some sports events and campus-wide activities. But some of us on the staff believe that she should be placed in view of the student body more than she has been. If she lives too far away to be brought to these events, then whoever selected her as a contestant should have thought of this before she was nominated. We think that she is a very attractive Miss STI and are sure that the student body would like to see her more often.

NO PROTECTION

The 55 who gave blood have protected themselves and their family for a full 6 months, against not being able to get blood when needed.

The Bloodmobile needs to have at least 100 donors to make a visit worthwhile, so next time they come on campus, don't run from the needle.

Letters To The Editor

Ed. Note—Letters to the editor are welcomed. All letters must be signed, but names will be withheld on request. Deposit them in Box 8073 or leave them at room 265.

To the Editor:

From a "bipartisan" viewpoint, I'd like to add my two cents worth, too, on the issue between the Southern Tech students and the University coeds.

Knowing members of both parties, I think both could be a little less critical and spend a little more time making an effort to be friendly.

I know some of the coeds, and have found most of them very nice girls who have some legitimate gripes as far as a few of the boys are concerned. None of the girls appreciate hearing the boys use filthy language or crowd around the restroom doors and make "cute" remarks when they come out.

On the contrary, a Southern Tech student neither admires or appreciates a girl who walks by and doesn't so much as look up, much less smile and speak.

I think both parties were overly critical and made a quick, overall judgment based on a few distasteful encounters.

Personally, I've found that other people are a mirror of myself—a smile begets a smile, a frown begets a frown.

Your Choice: Faculty Bulletin Or Student Newspaper

By Ted McClure

The Engineering Technician, official newspaper of Southern Technical Institute . . . This statement seems to indicate that the newspaper is the primary organ of communication on campus. Surely, we have on campus the Weekly Bulletin, but does it represent students complaints, opinions, and desires? It does not. The truth is that the students of Southern Tech have only one real outlet for their feelings about student life here on campus.

But does the student body really desire such a publication? Often during the past year, I know that the staff of the Engineering Technician has wondered if the student body really cares.

The Editor and the rest of the staff cannot sit down and conjure up features and news articles every month for a full three quarters without running out of things to say. They cannot possibly do the complete job of representing the thoughts of the student body unless YOU the student body cooperate with them, by giving them news ideas, editorial ideas, and feature ideas. In the coming year, the students will have to take their pick: a dull, drab faculty news diary or a really vital and interesting student paper. I am sure the staff sometimes wonders too if the students have any vitality at all. I wonder myself sometimes.

The newspaper is not a social tabloid. The organizations who turned in routine news this year and who did not see it in the next issue will have to realize this. The staff next year hopes to have relevant, challenging articles, but they need help to do it. Producing good issues is a two-way affair—the staff will do its part if the students will do theirs. After all, how can five or six men reflect the views of the whole campus?

The change of the Engineering Technician from a social recap of the month's news events to an interesting, and sometimes rather stormy, newspaper was brought about by Lewis Edge, Jr., the Editor-in-Chief. I have the idea that the students have enjoyed the paper since the first of the year. I also believe that the students should personally thank Lewis Edge for the job he has done; most of the time he did it without help.

The staff next year hopes to continue this change. So help them out. If you are unhappy, are being taken advantage of, or are in possession of interesting material, tell the staff: You will see it in the Engineering Technician, the official newspaper of South Technical Institute.

what state were you born?) was divided into 4 geographical regions of the United States, (N.W., N.E., S.E., S.W.) to see whether or not there were any regional tendencies.

Of the 237 students polled, 8.9% were for integration, 24.4% were neutral, 66.7% were for segregation.

Regionally speaking, those for integration were mostly southerners with 64.5% having been born in the Southeastern United States and 91% who now make it their home.

Twenty five point eight percent of those for integration were born in the Northwestern United States.

Those in favor of segregation repeated the trend only more so, with 83.2% having been born in Georgia alone, and only 3.6% having been born in the North. Ninety two point five percent of the segregationist

were born in Georgia their home.

The neutralists likewise continued the trend with 79.1% having been born in Georgia and 98% now making this state their home.

The majority of those polled were familiar to some degree with the Civil Rights Bill, only 11.8% were not.

Sixty six point seven percent of the integrationist were in favor of the Civil Rights bill, but only 5% of the segregationist and 29.6% of the neutralists were in favor of it.

When asked if they would favor the bill if the public accommodations section were removed, 48.5% of the integrationists answered yes and 51.5% answered No. The segregationists answered 22.3% Yes and 69.5% No, with 8.2% giving no answer.

The neutralists voted against the bill if the public accommodations section were removed 48% against and 33.4% for it. Eight point two percent were undecided and 10.5% gave no answer.

Lock Your Car Foil The Thieves

by a. d. monishment

There has been a rash of thefts in the large parking lot in front of the school and items such as tachometers, books, slide rules, hubcaps and other things of value have been lifted from the cars.

Southern Tech students, many of whom are car enthusiasts, have installed or attached accessories which are easily removed, and which have a large trade-in value in proper circles.

STI's campus security officers cannot maintain a continuous patrol of the parking lot area so it is up to the students to do a little self-patrolling, and self-protection.

Report anything missing to the Dean of Students. Report any irregularities or strange actions you see on campus, and LOCK YOUR CAR TIGHTLY.

If you have expensive or decorative hubcaps that are likely to be stolen, install hubcap locks. The hubcap locks are not burglar proof, but they could delay a hubcap thief long enough so that he might be spotted by a student or campus policeman.

Hide anything of value which you leave in your car, under the seat, in the glove compartment, or in your trunk. Most thieves aren't going to the trouble to break into a car if they don't see anything of value.

Photo by Bailey

Casual Campus-wide Dance Is Successful

The Interorganizational Council, which represents 14 departmental and campus-wide groups, sponsored a dance that was open to all Southern Tech students and their dates free of charge. Two hundred or more students participated in the festivities.

STI Grad Moves Up

A band (pictured partially above) and a female vocalist provided the musical entertainment.

According to an officer in the Interorganizational Council, the dance was a success and more such occasions are planned for the future. The I.O.C. also wished to express its appreciation to Mr. Jack Peteet and Mr. Bill Osteen of the Physical plant for their assistance in making the dance a success.

TAP Officers Tapped

The fall and summer quarter officers for Tau Alpha Pi, Southern Tech's own national honor society, will again be under the faculty advisory of Mr. Hurst.

Officers for the two quarters are to be as follows: Summer quarter president, James Davenport; vice-president, W. D. Koempel; secretary-treasurer, Bruce Bridges. Fall quarter officers will be the same as summer except that Charles Wimpy will be the fall quarter vice-president.

At the beginning of summer quarter Tau Alpha Pi will again make bids to those students eligible for membership in this honor society.

QUALITY AND SERVICE

ET Student Stages His Romance

Southern Tech ET student Bill Poulos, who played one of the lead characters, Max Halliday in "Dial M for Murder" presented by Theatre Atlanta several weeks ago, is engaged to marry Dorothy McConkey, who played the part of Margot Wendice, the leading lady of the play.

Their romance on and off stage is real enough for them to have scheduled their wedding for June 20.

Poulos, who will graduate from here this quarter, met Miss McConkey a year ago during Theatre Atlanta's production of "Ondine" and has been dating her regularly since March of this year.

Miss McConkey is a graduate of the University of Georgia, where she majored in drama, and has been employed as a job analyst at an Atlanta bank.

Poulos accepted a position with Minnesota Mining and Manufacturing Company and plans to live in Atlanta.

EPiX And Circle K Present Flags

On Thursday, May 20, S.T.I. was presented with a Georgia State Flag and a new fifty-star American Flag. The state flag was given to school by ETTX, and the American Flag was given to the school by the Circle K Club. These two flags are intended to replace the 49-star American Flag now being used by the school.

Tech Annes Holds Annual Banquet

The Tech Annes held their annual banquet on May 2, 1964 at Johnny Reb's Dixieland. The program was opened with a word of welcome by the President, Doris Ware. Grace was said by Mr. W. S. Newman. After dinner, Mrs. Ware introduced the retired, current, new sponsors, and the present board of Tech Annes.

Mr. Hoyt L. McClure accepted on behalf of Southern Tech, a monetary gift to be used in the Music Room of the new Library. This gift was presented by Pat Newman. Mrs. Ware then presented a gift to Mrs. Robert L. Myatt, retiring sponsor and to Mrs. Hoyt L. McClure, permanent sponsor. Pat Smith presented a gift to Mrs. Ware, retiring President.

The program was turned over to Mrs. L. V. Johnson who installed the new officers and sponsor who are as follows:

President—Brenda Broome
1st Vice-President—Daphne Bryant
2nd Vice-President—Dorothy Glisson
Recording Secretary—Danna Smith
Corresponding Secretary—Brenda Riddle
Treasurer—Merrill Moss
Parliamentarian and Publicity Chairman
—Lucy Willis
Sponsor—Mrs. W. J. Glenn

Special guests at the Banquet were Mr. L. V. Johnson, Director of the Engineering Extension Division, and Mr. Hoyt L. McClure, Director of Southern Tech.

Retired and current Sponsors and their husbands who attended the banquet were Mr. and Mrs. L. V. Johnson, Mr. and Mrs. L. H. Taylor, Mr. and Mrs. H. L. McClure, Mr. and Mrs. R. L. Myatt, Mr. and Mrs. W. S. Newman.

What's New and Worthwhile

BOOKS

THE STATUS SEEKERS: VANCE PACKARD

This book is a sociological study of class behavior in America today. The author brings to light many facts unknown to the average person. If you are interested in what makes status so important in our daily life, read this book.

ISLAND: ALDOUS HUXLEY

Pala is a tropical paradise beyond man's wildest dreams. There is no poverty, no war, and no neurosis. The inhabitants of this island lived only for the pleasure they could get from their world of sensual delight. The story is about the men who attempt to destroy this paradise.

TELEVISION: THE FUGITIVE

Viewers must like "The Fugitive" to put up with the same old train wreck week after week. This five-minute scene and the dramatic voice of the narrator make the program look and sound as if it came out of the forties, the time of all those "smaltzie," now-on-TV movies.

Just a couple of weeks ago, the fugitive and attractive partner-in-escape washed ashore after a long night's journey in rough, shark-infested seas, and not twenty minutes later, the ever-pursuing cop washed up in exactly the same place, also after spending the night in rough, shark-infested seas; only the cop pitched over into the drink. After the fugitive had pulled him out (Hippocratic Oath, you know), the cop came to and said, "Let me take you in." The fugitive said nothing and only looked up at the convenient highways on the cliffs by the sea.

Summer Quarter Academic Calendar

July 6—Registration.
July 7—Classes begin.
July 8—Late registration fees.
July 10—Last day for registration.
Last day for adding a subject.
July 24—Last day for dropping a subject without penalty
August 14—End of deficiency report period.
September 7—Labor Day Holiday.
September 18—End of term.
September 28—Registration for Fall Quarter, 1964.

Pictured above is attractive Miss Paulette Brand, "Miss Engineering Technician of 1964" and runner-up in the "Miss STI" contest. Miss Brand is an employee of Lockheed and is one of those University of Georgia Extension coeds. She's a friendly one though.

New Courses For EET Dept.

Two new courses are being planned for the Electrical Department in the near future according to Mr. Goodwin the head of the Electrical Department.

One of the new courses will be ET-134, a basic electronics course to be used as an introductory to electronics. It will replace an old ET-130 introductory electrical course that has been discontinued.

The other new ET course will be ET-225. This course will be the study of wave forms that are not sinusoidal. Calculus and other forms of math will be used extensively in this course to analyze many different kinds of wave forms used in electronics.

Professor R. C. Carter will teach ET-225, which will be offered starting the summer quarter. It will replace ET-266, which is a course in television. ET-266 will be offered as an elective. ET-225 will be a required course for Electrical students in the ET option.

RCA Color Man Speaks To IEEE

The officers of IEEE continue to extend an invitation to all students in all departments who are interested in electricity and its uses.

June 4, a guest speaker from RCA explained the principles of color television to a capacity crowd.

The talk presented new information to the advanced electronics students and professors, and most of it was explained well enough to be understood by guests who had no background in electronics, according to Professor Robert Carter.

SPRING QUARTER SPORTS

By Johnny Cook

BASKETBALL

The Southern Tech basketball team won 12 out of 25 games last fall quarter. They ended the season by upsetting Brewton-Parker in the state basketball championship play-offs. The next night, Southern Tech lost to Georgia Military College; this defeat officially ended the season.

Robert Jordan was named to the All-State and All-Tournament teams, and Bob McCoy was named to the All-Region team. Southern Tech is in Region 8, which includes Georgia and Florida.

BASEBALL

Southern Tech won 11 out of 12 conference games this year which earned them the title of Western Division Champions. The team lost to Brewton-Parker in the state baseball championship play-offs which made their overall record 14 wins and 6 losses.

Date	Opponent	Won or Lost
April 1	Ga. Military College	Won
April 4	John Marshall University	Won, Lost
April 7	Columbus College	Won
April 11	Ga. Southwestern College	Won
April 15	Gordon Military College	Won, Lost
April 18	Columbus College	Won, Won
April 21	Gordon Military College	Won
April 23	Ga. Tech Freshmen	Won
April 25	Ga. Military College	Rain
April 29	Ga. Southwestern College	Won
April 30	Ga. Tech Freshmen	Lost
May 4-5-6	Brewton-Parker	Lost, Lost

Mike Pope	0.000		

TENNIS

The tennis team, on their trip to Statesboro, won two singles matches and two doubles matches. Julio Schiffino was the outstanding player in the singles tournament, winning his first two matches.

James Hubbs and Manuel Durini comprised team one in the doubles matches. Team two was composed of Bill Mabrey and Ed Samples. Both doubles teams won their first match and lost their second match.

Scores	Won	Lost
Singles		
Hubbs	0-6, 4-6	
Mabrey	4-6, 5-7	
Farmer	3-6, 5-7	
Schiffino	1st mat. 6-1, 6-3	3rd mat. 1-6, 6-8
Doubles	2nd mat. 6-0, 6-1	
Hubbs-Durini	1st mat. 6-1, 6-3	2nd mat. 2-4, 4-6
Mabrey-Samples	1st mat. 6-3, 6-3	2nd mat. 3-6, 6-3, 3-6

TRACK

The Southern Tech track team scored 64 points to overtake the University of Georgia Extension by 17 points. Mike O'Shea was high-point man of the meet with 12½ points.

The Southern Tech 440 yard relay team composed of Ronald Frye, Steve Bomar, Mike O'Shea, and Ed Hagan set a school record with a time of 46.9 seconds. Counte Cooley set a new school record in the high jump of 5'10". The old record was 5'9" set by Ernest Fordham in 1962.

STI Men Chosen For All-State Team

Southern Tech placed 4 men on the all-state baseball team this year. These 4 men were Tim Matthews, Ed Perkins, Jim Stancil, and Richard Wilkes.

Matthews, who is a freshman in the ACET Department, is from Decatur, Georgia. He had a batting average of .417 which was the highest in the state. Matthews was the team's catcher.

Perkins, the second baseman, was noted for his alertness and exceptionally quick throws. He is from Jacksonville, Florida, and is a senior in the Industrial Department.

Stancil, pitcher, is from Snellville, Georgia. He had the best earned run average in the conference and his record was 5-0. He is said to be one of the best pitchers in the conference. Stancil is in the ACET Department.

Wilkes, the third baseman, is a senior in the Textile Department. He leads the region in stolen bases. He is from Thomaston, Georgia.

Bloody-Poor Showing Made By Students

Out of the approximately 900 students faculty, and staff at Southern Tech, only 58 offered to give blood at the recent bloodmobile on campus May 14. Three were rejected for various reasons such as recent illness, leaving 55 who actually donated blood to the Red Cross.

There is still an opportunity for STI students to participate in the group plan offered by the Red Cross if the total number of pints donated in a 12-month period equals 40% of the total number in the group.

Alpha Beta Sigma Wins Track Meet

Alpha Beta Sigma won the Intramural Track Meet by a margin of 20 points over the second place team. The first four teams were: 1st place, Alpha Beta Sigma; 2nd place, Varsity Baseball; 3rd place, Alpha Mu Sigma; 4th place, Electrical Department.

Team	Points
Alpha Beta Sigma	44
Varsity Baseball	24
Alpha Mu Sigma	17
Electrical Department	5
Event First Place Winners	
330 yd. Relay Clyde Hallmark, Mike O'Shea, Ed Hagan (ABE)	
Mile Run Gary Duncan (ABE)	
100 yd. Dash Mike O'Shea (ABE)	
Shot Put John Baisden (AMC)	
880 yd. Rune Gary Duncan (ABE)	
Broad Jump Mike O'Shea (ABE)	
440 yd. Dash Steve Bomar (Baseball)	
Discus Counte Cooley (Electrical)	
50 yd. Dash Mike O'Shea (ABE)
