In Reply

To be sure, the Student Council has its problems, several of which are expressed in Student Council President Billy Robert's letter elsewhere in this issue.

There seems to be little interest shown in the Student Council by some of its members and by much of the student body. In the recent election, the Industrial, the Mechanical, and the Textile Departments did not bother to submit either a freshman or a senior candidate to run for Student Council; and the ACET, the AET, and the EET Departments lacked either a freshman or a senior candidate. This is unfortunate, simply because the respective department heads will now have to appoint someone to these unfilled positions and that someone may or may not be interested in being a member of or working for a better Student Council.

The Council could make itself more accessible to the student body (i.e. suggestion boxes, reports of actions taken and rules passed) and bring itself more to the attention of all of us. They could let everyone know what they are doing which is something that they have not done recently.

On Disinterest

Disinterest in campus activities is rampant on this campus as anyone who tried to sell tickets to the Valentine's dance well knows. What to do about it poses no easy problem. There really isn't much that can be done about it unless a good many people around here decide (at long last) to wake up. You can lead a horse to water but you can't make him drink!

We now have a "Southern Technical Institute" sign in front of our school, but from all appearances it is not complete, for it should read "Southern Technical Institute, Home of the World's Most I-Don't-Give-A-Damn-What-Happens-Around-Here Students."

Of the approximately 924 students registered here only a small percent take any ACTIVE interest in anything other than their classes. The majority of the work of getting anything done is left to those few who feel that it is worth their time and effort to try and better their school—to add something of value, to do more than just attend classes and play follow the leader.

A Word On Trying To Steal Exams. DON'T.

New Addition

As of the March issue we will have a new Associate Editor to fill the long vacant position. Richard (Rick) Shaw recently elected Freshman Class President has decided to take on the job.

Financial Report

The Sponsors of the Valentine's Dance, Alpha Beta Sigma, report that the dance was a financial success. A total of five hundred and sixty-five tickets were sold; these alone covered all but a small amount of the almost \$2,000.00 tab on the dance.

Two hundred dollars was spent on decorating the Dinkler Plaza Ball room which was filled to overflowing all night long.

Technician's Day Set For Late April On Campus

It has been announced that Technician's Day will be held on Sunday, April 25. Its purpose, according to Professor William S. Newman, will be to promote a general knowledge of the work students do at STI, and to familiarize the Marietta community with STI.

Professor Newman told the Technician that only one or two departments have begun actual construction on their projects. All of the departments with the exception of Textiles have plans compiled.

The Mechanical Department, which has already begun construction of its project, plans to give a tour of Building 6. They will have the following displays:

- (1) Machine operators at work with a sequence of operations.
- (2) Precision instruments used in testing and measuring, etc.
- (3) Heat treatment display with microscope set up.
- (4) Machine design display of quick-return mechanism.
- (5) Dynamometer on an automobile engine.

The Electrical Department will have the following on display:

- (1) Television operation.
- (2) STTV will be in operation so that it may be observed by visitors—they will be able to see themselves on it.

The Architectural Department will have student work on display. Other departments have not divulged their plans.

U. of Seven Seas Accepts Parlett

Larry Parlett, instructor in the Industrial Department, has been granted admission to the University of the Seven Seas for the school-year 1965-66. Parlett, who will study toward a master's degree in Business, has applied to the Board of Regents for leave of absence from Southern Tech beginning with the fall quarter.

The University of the Seven Seas, unlike a normal stationary college, is located on a ship which makes two complete tours around the world. The university makes stops in such cities as Lisbon, Rome, Istanbul, Bombay, Bangkok, Manila, and Tokyo. Classes begin in October and end in June of the following year.

According to Parlett, students of the University of the Seven Seas attend classes six days a week when they are on board ship. Field trips and leisure time highlight stops in the major cities.

Parlett hopes to complete his M.A. degree during the summer after returning from the university. He will work on his thesis at that time.

Run-off Election Decides Winners Of Class Offices

A run-off election, held on Wednesday, February 17, has finalized the 1965-66 STI class elections.

The three class offices left unfilled by the first class election on February 10 were the vice president of the senior class and the president and vice president of the freshman class.

In the run-off election, J. Dennis Daniel, AET Department, defeated Charles E. Lee, GET Department, for the senior vice presidency.

Rodney A. Morgan won over James Tyson in the freshman presidential contest. Richard Shaw defeated Mickey Chadwick for the freshman vice presidency.

Boswell Elected President Of Senior Class For 1964-65: Other Class Races Deadlocked

Stephen D. Boswell, senior in the AET Department, was elected as senior class president by a light turnout of voters in the annual class election on February 10.

Boswell, who is also editor-in-chief of the campus newspaper *The Engineering Technician*, is from Chamblee, Georgia.

The new president stated in an interview shortly after the election results were in that he hoped that the new Student Council would officially give the class officers a wider range of responsibilities during the coming year. He added that he would be willing to represent the senior class of Southern Tech at any community function where a member of the student body of STI would be welcomed.

In the other elections for class officers—for vice president of the senior class and both president and vice president of the freshman class—run-offs were required. The contests for these offices were held on Wednesday, February 17. These results were not available for this article.

J. Dennis Daniel, senior in the

AET Department, and Charles E. Lee, GET Department, battled in a contest for the vice presidency of the senior class.

Rodney A. Morgan, EET Department, and James O. Tyson, AET Department, were candidates for president of the freshman class. The students vying for the vice president office were Mickey G. Chadwick, CET Department, and the AET Department's representative Richard W. Shaw.

The departmental representatives who were elected to the Student Council are senior—ACET, Tim Matthews; senior—AET, William L. Little; senior—CET, Phil Garnto; freshmen—CET, Mickey Chadwick; freshmen—EET, James W. Barre; senior—GET, John A. Kamps; freshmen—GET, Gregory S. Kane.

Several departments did not nominate students as representatives from both the senior and the freshman classes. According to Dean Cyrus Maddox, these departmental representatives will probably be chosen by the various faculty departmental chairmen.

Miss Sue Griffiths Now Wears Golden Crown of Miss STI

Miss Sue Griffiths, eighteen-year-old DeKalb College coed, won the title of "Miss Southern Tech of 1965" at the annual Valentine Dance on Saturday, February 13. Miss Griffiths was crowned at the intermission of the dance, which was sponsored by the campus club Alpha Beta Sigma and held in the main ballroom of the Dinkler-Plaza Hotel in downtown Atlanta.

The new "Miss STI," who was "Miss Tucker, Georgia, of 1964," was selected by a panel of judges in competition with five other candidates. The judges traditionally choose "Miss STI" on the basis of beauty, personality, and poise.

Miss Griffiths was sponsored at the dance by the campus newspaper, *The Engineering Technician*. She was escorted to the dance by editor Stephen D. Boswell.

Miss Ginger Ray, "Miss Southern Tech of 1964," officially ended her year's reign by crowning the new brown-haired campus queen. Miss Ray, who is from Atlanta, was sponsored last year by Epsilon Pi Chi.

Miss Griffiths is the daughter of Mr. and Mrs. Lee W. S. Griffiths, Jr., of Doraville. She is in her freshman year at DeKalb College.

The first runner-up in the contest was Miss Margorie Smith, sponsored by Alpha Beta Sigma. Miss Smith, who is twenty years of age, is a secretary at a C & S Bank in Atlanta. She graduated from Massey College. Her escort at the dance was Hal Crowder.

The second runner-up and candidate from Circle K was Miss Kay Barnes. Miss Barnes is from Marietta and is a secretary at the Peoples Financial Corporation in Marietta. She was escorted to the dance by Jimmy Holland.

Other candidates in the Miss STI contest were Miss Linda Ayers, twenty, from Marietta, and sponsored by Sigma Chi Tau; Miss Sallee Ricketson, eighteen, Iota Tau candidate, from Marietta; Miss Jo Lynn Jackson, also eighteen, from Marietta and sponsored by Epsilon Pi Chi.

Miss Ayers was escorted to the

dance by Bill Orange; Miss Ricketson, by Larry Rape; Miss Jackson, by Tommy McMahon.

Professor Gus Thomas, Gas Fuel Department, was the Master of Ceremonies at the Miss STI contest. Thomas presented the new "Miss STI" with a spray of roses at her coronation.

Hank Ballard and his orchestra provided the music and entertainment for persons attended the dance. He was backed, instrumentally, by a group headed by band leader Simuel Evans. Ballard was hired out of New York City by Alpha Beta Sigma.

According to Phil Altman, president of Alpha Beta Sigma, this dance was probably the best-attended dance ever held by an STI club. He estimated that over 2,000 individuals were present at the dance.

Miss STI Judges Were Veterans Of Other Contests

Most of the judges at the recent Miss STI contest had taken part in previous beauty contest judging, according to Phil Altman, president of Alpha Beta Sigma, sponsoring club of the February 13 Valentine's Dance and Miss STI Contest.

The chief judge was Mr. Walter Brown, who is City Manager of Marietta. He was formerly a judge in the Miami, Florida, Miss America Contest.

Another judge of the contest was Mr. James Davenport, Manager of the Radio Station WFOM in Marietta. Davenport has twice been a judge of the Miss STI contest.

Other judges were Mr. James Wynn, Mrs. Eolyn Smith, and Mrs. Marilyn Eastham.

Wynn is Editor of the Marietta Journal. Mrs. Smith is an experienced fashion model.

Mrs. Eastham, part-time instructor in the STI English Department, was formerly Mrs. U. S. Savings Bonds. She was also runnerup for a previous Mrs. America Contest.

Staff Comments

A PLACE TO CASH CHECKS DIRELY NEEDED

We think that the policy of not cashing checks on campus is unfair. While we realize that some students may often be irresponsible where money is concerned, we still believe that rule now in effect should be irradiated.

The present policy of dealing with bad-check writers from STI is a good, strong one. If a student writes a bad check anywhere in the community, he is given a certain amount of time to correct his error and make good the check, and if he doesn't, he is in trouble with the Dean of Students.

We don't see why this same rule cannot be applied to cashing checks in the administration building. The possibility of getting stuck with a bouncing check is always present, but with such a stringent policy, this occasion would be rare and what a good service would be provided to students!

We think that students would support this point of view enthusiastically.

The old, weak excuse which we get that "Georgia Tech sets up the policy" is ridiculous. Maybe true . . . but ridiculous.

The newly elected Student Council should request that this rule be erased so that STI could have what many other college campuses already have—a convenient and certain place to cash checks.

Georgia Tech has a bank at which their students can cash checks. We have no such facility; therefore it would seem only equitable that the rule concerning the cashing of checks on the STI campus be abolished!

WHY NOT HAVE A HOMECOMING?

Other colleges have Homecoming games and Homecoming dances; some have this traditional day during the football season, as does Georgia Tech; some have it during the basketball season; as does Oglethorpe College.

As far as we know, no one has considered having a Homecoming day at Southern Tech for several years. Although the opportunity has passed for this school year, we hope that some sort of Homecoming affair can be established next year during the basketball season.

This sort of thing could be coordinated with a home game, since we will have our own genuine gymnasium. Perhaps the alumni could set up their annual banquet earlier in the same evening. It is a fact that many of the Southern Tech alumni even now residing in Atlanta have never seen the new campus.

With the new dorms and new gym, the old STI spirit should begin to stir, and we can think of nothing better to arouse it more than a Homecoming.

THANKS TO AN EX-EDITOR

We want to thank ex-editor George Neville for the fine job that he did in aiding the publication of the September, October, and December issues of the *Engineering Technician*. The editor's job is tough and time consuming; George did the job well.

LA CAFE

We have observed that the coffee in the snack bar is about 99% better than it was last year . . . but it's still a dime.

PLANS FOR TECHNICIAN'S DAY STILL VAGUE

If the plans for Technician's Day have not progressed beyond the planning stage in a week or so the whole thing will probably be called off. One reason for this is that time is needed to print the cards which tell who is doing what; these will be given to visitors on T-Day.

GOT ANY SUGGESTIONS?

The first Technician suggestion box is up. Its located in the lobby right in front of the sloop shop.

TURN IN THOSE USED BOOKS

Students have been requested by Circle K members to turn in used books for sale for their "Book Exchange" before the beginning of the spring quarter so that students will have more selections to choose from. Students wishing to sell books should contact Circle K members.

GET RECOMMENDATIONS NOW

Students who are planning to graduate sometime this year should begin to gather letters of recommendations for themselves—especially students who have worked hard enough to earn academic recommendation. Many students find themselves needing references years after graduation. This is especially true if a student plans to enter other colleges for work toward a higher degree, and it may apply to a student changing jobs at some distant date.

A good transcript may not be enough; and even so, something extra—like a letter of recommendation—may be the very thing that may get one into another college or into another job.

Instructors—those who may be your major professors now—have a habit of moving on, or maybe just disappearing as the year's go by. And these people, whom you know well now, may even forget you.

So get a letter of recommendation now and file it away for future reference.

A MISTAKE IN NAME-CALLING

We gave a misnomer to the Architectural Engineering Department last issue—We called it the Building Construction Department. We understand that the new title was hard-earned. So we gladly admit the mistake.

COMMUNICATE NOW WITH STAFF MEMBERS!

Now that we have an *Engineering Technician* suggestion box up, we hope that students will take advantage of it to communicate with us. We could say that we'll print anything, but we can't . . . only 99 per cent of what we can get our mits on . . . and some what we make up.

On Cashing Checks

By a. d. monishment

Someone sent a letter to me last week; it was unsigned and stuck in a beer can. And it was about the disheartening student problem of cashing checks on campus and in Marietta. In sympathy, I reproduce the letter here:

Dear a. d.:

Maybe you can help me out. I'm broke. Nobody will cash a check for me around here. I paid for my room in the dormitory and for my books in the bookstore, and then didn't have any more money.

No spending cash, if you know what I mean. All the guys living with me go out on the weekends, bring back lots of good food and drinks to eat and here I sit with no money.

I've got lots of money in the bank back home (\$49.50), but it just stays there gathering dust because I can't get it out.

I tried to cash a personal check on campus at the Treasurer's Office; they told me that it was Georgia Tech policy to cash no personal-type checks.

I said to them—this isn't Georgia Tech, is it?

They said—No, this is Southern Tech.

And I said—Well?

Then they had to explain that Georgia Tech had a hand in saying what went on with the money around there, and that it was just a rule.

I asked another administrative official, and he said that it was true; there was a rule: No Personal-Type checks can be cashed.

So then I went to the bookstore and tried there. They said that not any personal checks were cashed there either, except for special friends.

When I asked how one got to be a special friend, they said that I had to hang around there a lot.

So as a last recourse, I went to a bank in Marietta. They wouldn't cash my check either, because it was out of state. While this is probably a good policy, I showed them a letter from my bank at home and said that I was a student at Southern Tech. This didn't make any difference, they said.

So here I am, a. d., without money. My feet are tired from walking around trying to find places to cash my check. Others gave excuses like they didn't have the cash right now or that they had had a couple of STI student checks bounce.

What I'm getting at, a. d., ole buddy, could you loan me a five spot until I can get this thing cashed?

In hopes,
A destitute and hungry student.

I would have loaned him the money if I had known who he was. Only one thing bothers me: Why was the beer can empty?

I guess he found it grubbing around in trash cans.

Student Council Problems And Bad Language Subjects Of Letters To The Editor

Mr. Editor:

Yes, we have a Student Council. Although some of the departments have not elected a representative or the ones they elected are just not interested in coming to the meetings, there are still some representatives of the other departments who are loyal to the Student Council.

For those students who are not interested in coming to the meetings, the council is open for suggestions on what to do about them.

You say that irresponsible action of a member of the council should be acted on. I agree with you on this matter, but in what way? Since one does not attend, he will not care if he is removed from the council. He probably did not want the job of representing his department any way.

How do you make the departments elect a representative, and how do you get the students interested in representing their departments? If you will look at the ballot on election day, you will see what I mean by student interest.

Now, Mr. Editor, I do not remember when the student body has met in mass since I have been at school, and in the last two quarters I cannot recall any activities of the student body that the council has not acted on if it was supposed to.

I am sure that the majority of the students know their representatives from their department. For those who do not know their representatives, the *Engineering Technician* could be of great help by publishing the pictures and names of the representative of the departments.

I can not agree with you when you say that little has been done by the council in the past few quarters. Since I was present at the meetings, I know first hand what the council has done. Your knowledge of the meetings must have come from hearsay because in the last two quarters the Technician has had no reporter to sit in on the meetings.

So, Mr. Editor, if you would like to know what really goes on at a Student Council meeting, please feel free to come or send someone to attend the meeting.

Billy Roberts
President of the Student Council

Dear Editor:

I'd like to sound off in complaint. In a predominantly male college, one must realize that profanity is inevitable. It surely does "get old," however, to hear every other word profane. I can take some of it as I'm not beyond reproach myself for uttering some unlady-like adjective, but why make it a point to "lay it on so thick?"

No one seems to notice whether or not there are visitors, secretaries, or coeds around, and practice a bit of common courtesy. Instead, it's a contest to see who can curse the most in one sentence.

Many students have expressed their desire to see more coeds on campus. I feel sure, however, that once a female applicant detects the uncouthness of the students when she visits the campus, she immediately has a change in plans.

The number of coeds will not increase, nor the reputation of the school improve, until the students begin to exhibit some maturity, intelligence, and courtesy. (This includes showing a tad of respect for feminine presence.)

Also disgusting is the childish filth that's written on the classroom desks. It remind me of my junior high school days.

I'm appreciative toward the many students who "save it for outside the door." Unfortunately, though, there are enough students with enough rudeness in their language and behavior to cast a mighty dark shadow over the rest of the student body.

Sincerely,
Lucia Nelson, IET

PROFESSION: BY DAVE MATHENY A.C.P. STUDENT

...In conjugation two cells of different mating type pair. The macronucleus in each individual degenerates and the micronucleus undergoes meiosis. Three of the haploid nuclei so formed degenerate; the fourth undergoes a mitotic division. A cytoplasmic bridge forms between the conjugants, and one haploid gamete nucleus from each migrates through the bridge to the conjugant. The exchanged gamete nuclei next fuse with the stationary gamete nuclei to form a new diploid micronucleus in each conjugant. At this time the two individuals break apart...

Waters Heads March Grads With 3.66 Point-Average

The Registrar's Office has announced that Thomas J. Waters, a major in Gas Engineering Technology, is leading the list of March graduates scholastically with a point-average of 3.66.

Waters, who is from Savannah, Georgia, entered Southern Tech in the winter quarter of 1963. He is married.

Jon P. Hoialmen is just behind Waters with a point-average of 3.56.

Hoialmen is from Atlanta and is a co-op student. He entered Southern Tech in September of 1962 and is majoring in Architectural Engineering Technology.

Edmond P. Daniell, from Smyrna, Georgia, is third in scholastic averages with a 3.45. He entered Southern Tech in March of 1964, having transferred from Georgia Tech.

A list of the March graduates follows:

AVERAGE AND RANK OF MARCH 1965 GRADUATES

RANK	NAME	COURSE	POINT AVERAGE
1.	Waters, Thomas J.	GET	3.66
2.	Hoialmen, Jon P.	BC	3.56
3.	Daniell, Edmond P.	IET (MO)	3.45
4.	Temple, John T.	EET (EO)	3.33
5.	Thomas, J. Fred	IET	3.25
6.	Thompson, Damon C.	BC	3.12
7.	Morgan, William C., III	MET & IET	3.04

STI Flying Club May Organize

The possibility of creating a Southern Tech Flying Club is being investigated by two STI students—Lee P. Johnson and Rick Johnson, both freshmen in the Industrial Department, Management Option.

According to Rick Johnson, they checked with both the Peachtree-DeKalb and the McCollom airports to determine the rates for flying lessons. Johnson stated that the reduced fee at the Peachtree-DeKalb airport is \$15.00 an hour for instructor and plane. The airplane is a Cherokee 140. The rates at McCollum Airport are \$13.00 an hour for instructor and plane. There is a possibility that the rates could be lowered even farther if enough students were interested.

Even students who are now permitted to solo could join the Club and fly at reduced rates.

Another possibility, according to Johnson, is that a large group of students could purchase a plane and thereby fly at cheaper prices than when using a rented plane.

Johnson added that any students who might be interested could contact him through Box 8746 or Lee Johnson through Box 8012.

Photo by Jenkins

Remains of Larry Bell are pictured above.

Larry Bell Reduced To Ashes: Cause of Fire Unknown; Intramural Program Ceases

Larry Bell Recreation Center is no more—a fact quite evident by simply driving up Clay Street. While the old place was not quite the "real thing" for Southern Tech, it did serve as the center for Southern Tech athletic events since first the student body came to Marietta.

Now Southern Tech will have to wait for its new gym—to be completed this year on campus—before athletics will be in full swing again.

When Larry Bell burned on January 29, STI's intramural basketball program came to an abrupt halt; the bowling teams had to move to a new location; the varsity basketball squad had to play—what would have been home games—in a local high school gym.

An investigation is underway to determine the cause of the fire; at

the time of this printing, no definite or official opinion had yet been announced.

But whatever the cause, Larry Bell is no more. There are now no sounds of basketballs striking the hardwood floor, no sounds of mingled, cheering voices.

Foreign Students Hold Dinner

The International Club, consisting of STI foreign students, held a dinner for club members and their guests at the Plantation Restaurant on Sunday, February 21.

Southern Tech has 26 foreign students registered as full-time students this quarter. Some fifteen or sixteen are active members of the club.

STI Coed Is Speaker At Luncheon

Miss Ana Maria Vegas, STI coed from Peru, was guest speaker at a meeting of the Y-Hi-Noon Club in Marietta on Wednesday, February 10, 1965.

The Y-Hi-Noon Club, which meets at the Marietta YWCA, consists of a group of housewives of all ages from the Marietta area.

Miss Vegas spoke about the customs of her country, including the status of women in Peru. She held a question-answer session after her talk.

Miss Vegas was also the speaker to a group of girl scouts on Monday, February 22.

Mech Club Sees Fisher Plant

Alpha Mu Sigma members were visitors to the Fisher Body and Chevrolet Plant in Atlanta on Wednesday, February 3.

ASTME was invited as guests on the field day. Approximately twenty-five students attended the tour.

The visit to the plant included observation of the complete body assembly line and the automation that goes into the automobile body construction.

Students also toured the chassis assembly area, the truck division of the plant, and testing areas for the assembled automobiles.

The club has plans for a future trip to Delta Airlines, according to Robert Floyd, member of the club.

STI Yearbook Is On Schedule

The Technician's Log, Southern Tech's yearbook, is on schedule this year. According to Jimmy Lee, the annual's editor, progress is being made in all areas of work on the Log.

Lee stated that the yearbook should go to the printer—Foote and Davies of Atlanta—sometime in late March. Students should have the yearbook sometime in early June.

In addition to Lee, the Log staff consists of John Jenkins, assistant editor; John Ward, photographer; Roger Rozelle, business manager; Terry Goodwin, sports editor.

Professor Marion Blair is the faculty adviser for the Log.

According to Lee, casual campus shots could still be placed in the annual; students wanting to turn in such photos should bring them by Room 265.

Losing Streak Continues; Young Harris And Augusta Swat Green Hornets

Young Harris College plastered STI, 116-75, on the Young Harris home court on Wednesday night, February 17.

The game represented a revenge victory for the Young Harris cagers, since Southern Tech defeated them in Marietta, 100-82, in mid-January.

In winning the game, Young Harris continued their monopoly of the twice-a-year court battles with Southern Tech. Young Harris now has 32 victories over the years against STI, who has won only four games.

Robert Jordan led the STI squad in scoring with 18 points. Dick Waters had 15 points; Jim Vaughn, 14 points; and Don Morris, 17 points to back up Jordan's scoring.

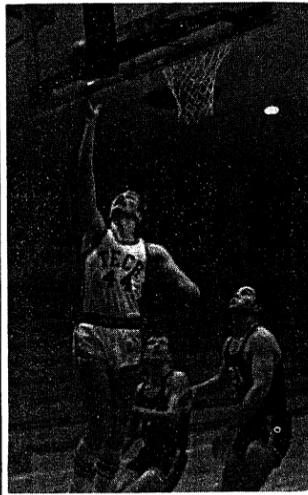

Young Harris led STI at half-time by a score of 56-34.

The Southern Tech basketball squad was stopped cold for the second time this season by Augusta College, 112-96, on Friday, February 12.

The game was played at the Osborne Junior High School gym since no other gyms were available to the squad at the time. Southern Tech's "home" court was destroyed when the Larry Bell Recreation Center was burned.

Dick Waters led the scoring with 26 points, followed by Robert Jordan and Don Morris with 23 points. Jim Vaughn scored 14 points in the losing cause.

The event was marred also by the loss of Dan Burge, a guard, who suffered a head concussion when he ran against the gymnasium wall in pursuit of a loose basketball.

Waters in action

Waters Leads State In Scoring

Southern Tech freshman Dick Waters is leading the Georgia Junior College basketball scoring race. Waters, who has appeared in twenty-two games this season, is averaging 23.6 points per game. His nearest competitor Butch Watts, from Georgia Southwestern, is averaging 21.64 points per game, with only the tournament games left to play.

Waters came to Southern Tech from DeKalb County's Cross Keys High School, where he was a starter for a team that twice reached the state high school championship flight. Waters was chosen to play in a state all-star game in his senior year.

He has scored, in the twenty-two games, 222 field goals and 84 foul shots for a total of 518 points.

Waters has 189 rebounds to his credit; he has averaged 8.6 rebounds per game.

Robert Jordan, STI senior, is in fifth place in the conference scoring with an average of 19.5, also in 22 games. Jordan was the leading scorer in the conference in the 1963-64 basketball season. He was named to the All-State Junior College Squad during that year, when he averaged 20.9 points per game.

Jordan has collected an average of nearly 15 rebounds per game during the present season.

STI Team To Compete For Junior College Basketball Championship

Southern Tech's basketball team will travel to Statesboro this week to take part in the Georgia Junior College Championship Tournament on February 24-27.

According to Coach Harry Lockhart, any one of the first eight teams in the season standings has a chance to bring home the championship trophy — including Southern Tech.

The Georgia Junior College Conference has fourteen teams in it; all will compete for the title at the Georgia Southern Gymnasium. Georgia Southern is a four-year college which annually contributes its facilities to the junior college cagers.

The first two teams in the conference standings, undetermined at this newspaper's press time, will draw a bye and thus will not be in competition during the first-day activities of the tourney. The number three team in the league will play the 14th ranking team in the first round of competition, as will the number four team play number 13 team, and so on.

Such features as choosing the All-

Tourney Team and the most valuable player award will highlight the closing of the tourney on February 27.

Robert Jordan, STI forward, was a member of the All-Tourney Team last year, as well as being named to the All-Conference Team for the 1963-64 season.

Lockhart stated that the team would probably leave STI on Tuesday, February 23, and remain in Statesboro as long as the team could stay victorious.

STI Wins One, Drops One, Back-to-Back

By Rick Johnson

The day of the win, February 5, STI won over Armstrong 112 to 100. Although Armstrong's leading scorer, Steve Weeks plugged 31 points for the opposing team, STI retaliated strongly in the first half to gain the lead.

Robert Jordan scored 11 points along with Dick Waters who scored 24 points. Don Morris, the leading scorer of the night pulled 25 points.

The day of the loss, February 6, Augusta defeated STI 105 to 88. One of Augusta's top players Bill Domen—No. 44—scored 38 points to help Augusta to victory. STI's Robert Jordan scored 23 points. Jim Vaughn also gave a supporting score of 18 points. The STI squad pulled most of its points the first half but seemed to fade the second half.

Hornet Squad Is Riddled With Injuries

Southern Tech will enter the Junior College basketball tourney at Statesboro without two of the team's players. Another team member is listed as a doubtful member of the squad, which will leave February 23 for the state tourney.

Walter Anderson, a guard, suffered a knee injury when playing against Georgia Military College. Fred Smith, also a guard, has a serious illness in his family which requires that he does not leave the area. Dan Burge, who is the third guard on Coach Harry Lockhart's team to be injured or unable to play, may not see action because of a head injury.

According to Lockhart, he believed that before the team was riddled with injuries, STI had a chance to make a good showing in the Statesboro tourney, but that now he was not so sure.

Goldfingers Have King Midas Touch: Lead Bowling League

The Goldfingers, a team made up of Southern Tech bowlers John Glassey, Joe Kern, and Larry Rape, are leading the STI bowling league. The team has a record of 22 wins against only 6 losses.

In second place during the week of February 15-20 is Team No. 9, whose record is 17-11. Other teams and their records are as follows: The Upsetters, 16-12; The Luck-Outs, 16-12; The Bowl-Evils, 14-14; The Untouchables, 14-14; Team No. 7 (no name), 13-15; The Wee Three, 12-16; Team No. 2, 9-19; and The Alley Kats, 7-21.

The high individual three-game series for the season is held by Harry Hawkins, who bowled a series of 556. Wayne Shigley closely follows with a series of 553.

The season's high game remains at 209, bowled by Harry Hawkins.

The highest team scoring for a single game is held by Team No. 2 with 664 pins. The same team

bowled 1830 for the highest season, three-game, team series.

Calendar of Events

- February 24, 25, 26, 27 — State Basketball Tourney at Statesboro
- March 19—End of Term
