To The Editor:

Last week's letter from Anonymous bears roughly the same relation to comedy as a Black dialect joke told by a redneck. I am myself a linguistic conservative, not from social or political motive, but from aesthetic considerations; terms like "chairperson" and "humankind" do violence to my aesthetic sensibilities. Still, I am well aware that all groups seeking to redefine their positions in a dominant culture have committed excesses of all kinds, most of them more destructive than feminist linguistic innovation. Far more important, I understand that linguistic denomination is a species of social sacrament: the outward sign of inward cultural conviction. As such, it is a far more significant and powerful tool for cultural change than would appear at first glance. Just ask a Black how she feels about being called Nigger, or even colored, to use an example that may have immediacy for many people who do not sympathize with feminist goals.

Any sentiment, ambition, or social movement can easily be trivialized, as Anonymous has trivialized the question of sexism in language; it is a cheap and facile trick. Frequently, as in this case, the technique has nothing to do with any inherent triviality in the problem considered. Rather, it has to do with the inability or unwillingness of the trivializer to come to terms with the complexity of the situation under consideration.

Since I am pleased that my name indicates my sex, and since I fear no such chauvinist as Anonymous, I am happy to sign my name.

Nancy P. McKee

Dear Editor:

Your article regarding "King Tom" lost its validity with the comment about the two candidates for President of SGA. To refer to the candidates as "two of Tom's honeys," makes a joke of their candidacy and Tom's credibility.

Tom has always presented a concerned responsible attitude towards the SGA, and Barbara and Pat should be congratulated for their concern and willingness to run at a time when STI is involved in the controversial separation question.

The lack of interest by the student body in SGA affairs is a very valid concern and worthy of comment. Next time, perhaps your news could be more objective and responsible when addressing the subject, and less flippant.

Davina Henderson

Dear Editor:

Once upon a time, there was a Camelot known as Southern Tech. To all who knew of its grandeur, it appeared as golden as the treasures of Solomon. To those that lived there, all that glitters is not gold.

The king appears as a wise and saintly old man. However, he is bewildered by past judgements and future uprisings. He should be less concerned with what he's descended from and more concerned with what he's descended to.

The king's court consists of a lot of Joneses and Smiths. One in particular has an interesting motto of philosophy, "Life, Liberty and the Happiness of Pursuit." He's a man of single purpose and double talk, and every time he opens his mouth, he puts his feats in. The list is endless.

As we look around at all the Dukes and Duchesses, we see a few who have and a few who want it.

The Duke of SGA-ville has done well for himself. He has a B.A., an M.A., and a Ph.D., but no J.O.B. (as of June, anyway). His Lords and Ladies are not complete failures; they've never been complete on anything.

The Earl of Studcenter is another anomaly. He's on the right track, but he's getting run over sitting there. He's always undertaking vast projects with half-vast ideas. His list, too, is endless.

We move now to the other colonies that are seeking independence. That's enough.

We now move back to the king, because he and his court are special cases indeed. One who is short, but never small, has fallen this past year due to unusual circumstances. Apparently the king's jester is also the king's decision maker.

The peasants of this sad little burg are divided into two categories: those that go through life with morose-colored glasses and those that don't.

The former believe in law and order, as long as they can lay down the law and give the order. The latter are as spineless as a chocolate eclair.

Being one of the peasants, it would be nice if we could recover our dignity and perhaps start a renewed feeling of responsibility and involvement on this campus. I, for one, am thoroughly ashamed of our self-image and think a recall or reconstruction is definitely necessary.

"SPY AND SMITH"

I'M DYING TO BE GREAT. IT JUST TAKES SOME PEOPLE LONGER.

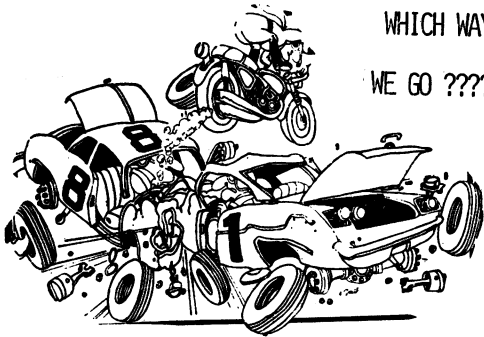

D.L.
IN YOUR
CASE, IT WILL
BE A LOOOONG
TIME.
ASSISTANT
ED.

Dear Editor:

Southern Tech ingenuity has struck again! To help ease the parking situation a large portion of spaces have been done away with. This gives the average student a chance to view the beauty of the campus as he (or she) drives around it 15 minutes trying to find a place to park. It also helps make classes shorter. Of course, a great advantage is that when you return to your car at dinner you're probably already at Dairy Queen or McDonalds.

So we are faced with a problem: What to do about the parking situation at Southern Tech? If decisions run like they have the last four years, the solution will be to stop parking on both sides of campus drive. Then everyone will park at K-Mart and ride a shuttle-bus or Marta.

WHICH WAY DO
WE GO ????????

Dear Editor:

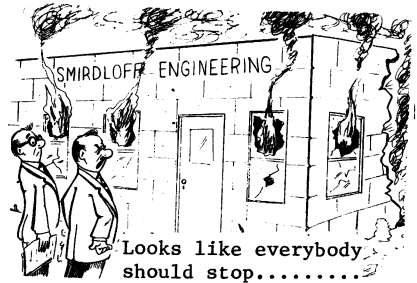

Ever try to find an ashtray in the Student Center? I've been here for two quarters and haven't found more than a dozen so far.

The carpet around the pool tables is being burned and cigarettes are being put out in paper cups in the dining area. These practices are sure to cause a fire sooner or later.

Futhermore, half-empty cups of coffee full of cigarette butts and cigarettes stamped out on the carpet makes it look like a bunch of bums attend our school.

Surely you can persuade someone to buy some ashtrays. If you're told that the ashtrays seem to disappear as soon as they are placed in the Student Center, may I suggest buying the throw-aways such as are used in fast-food restuarants.

Ray Short

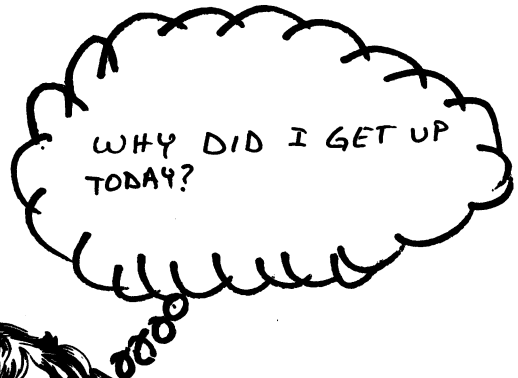

Looks like everybody
should stop.....

Dear Editor:

Wedding Announcement!
Congratulations Schlitz!

WHY DID I GET UP
TODAY?

CHANCELLOR TO SET UP SPECIAL STUDY COMMITTEE

By: Pam Thompson

At the May 10 Board of Regents meeting which was attended by SGA President Tom Samford, one of the items which resulted was the plan for establishment of a study committee to look at the many facets of the current proposal for Southern Tech to sever its ties formally with Georgia Tech.

According to Mr. Samford, Chancellor Simpson would like to set up a study committee made up of members from the administration, faculty, students, and alumni of both Southern Tech and Georgia Tech. He made it clear that the students and alumni would be called to several of the meetings, but not necessarily to all of the meetings. He reasoned that this possibility that some regent staff meetings would not require calling for the students and alumni to be in attendance was because of the nature of the business to be discussed.

A second limiting factor that he also brought out was the fact that the student and alumni members of this future committee would have no voting power. Exactly what their status will be in terms of input contributions and their advisory capacity remains to be seen.

The Chancellor stated that the main purpose of this committee would be to get the facts as they relate to the whole question of Southern Tech vs. Ga. Tech, and to report back to the Education Committee on all findings.

When asked by Tom Samford how the members of this committee are going to be chosen, the Chancellor would not commit himself except to say that he did not want the members to be elected because of the amount of confidential information involved, and because of fear of compromise being made with regard to this confidential information.

When asked if this subject had been discussed on the floor of the Regents meeting, Tom Samford replied that he had been informed of this action to create the committee after being called out of a committee meeting. The study committee decision was not brought to the floor for discussion.

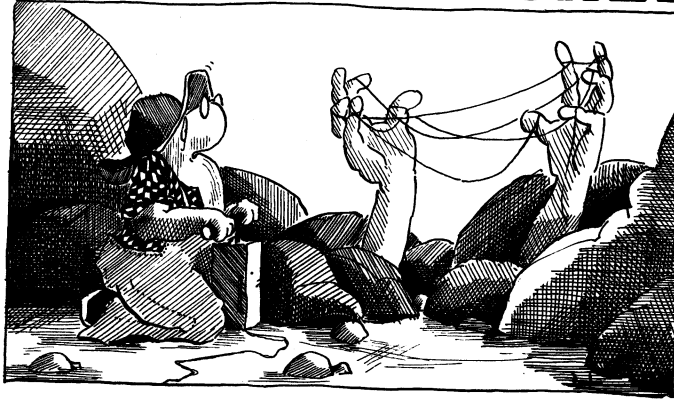

WHO WILL EMERGE THE
VICTOR???????

The Chancellor also gave some insights into his own background as far as experience in handling a separation study is concerned. He commented that he had had a similar task several years ago at Dahlonga when the college there was thinking of changing its mandatory ROTC requirements. At that time he worked with a study committee which did what this currently proposed study committee is supposed to do. Another situation involved Abraham Baldwin Agricultural College which is primarily involved in agriculture. The school was considering changing to a liberal arts format and this question, too, was studied in the same way.

How all of this will affect the future of Southern Tech as a separate entity remains to be determined. The current proposal for a study of the situation looks like a step in the right direction. The only problem is that the steps required to get from the current situation at STI to a future position of independence seem hindered by many obstacles.

THE STI FACT SHEET

1. SOUTHERN TECH SHOWED THE LARGEST INCREASE IN WINTER QUARTER ENROLLMENTS (7.8% INCREASE OVER LAST WINTER'S ENROLLMENT) THAN ANY OTHER SCHOOL IN THE STATE OF GEORGIA. THE AVERAGE FOR THE UNIVERSITY SYSTEM WAS 0.1%. THE SYSTEM SUMMARY, VOL. 14, NO. 2, FEB. 1978.
 2. THE AVERAGE DOLLARS PER STUDENT OF THE UNIVERSITY SYSTEM OF GEORGIA IS \$2996 PER STUDENT. THE SOUTHERN TECH STUDENT ONLY ENJOYS \$1927 PER STUDENT. GA. TECH HAS \$4967 PER STUDENT. THESE FIGURES WERE DERIVED FROM THE ABOVE SYSTEM SUMMARY AND THE FISCAL YEAR 1978 BUDGET AMENDMENT REPORT FOR THE MONTH OF APRIL, 1978.
 3. SOUTHERN TECH'S AMENDED BUDGET FOR 1978 IS \$4,028,618. GEORGIA TECH'S IS \$46,344,519. SOUTHERN TECH HAS THE SMALLEST BUDGET OF ALL THE FOUR-YEAR COLLEGES IN GEORGIA, WITH THE EXCEPTION OF MIDDLE GA. COLLEGE AND SOUTH GA. COLLEGE.
 4. ABRAHAM BALDWIN AGRICULTURAL COLLEGE'S BUDGET FIGURE IS CLOSE TO SOUTHERN TECH'S. THEY HAVE \$4,663,749 AND 2207 STUDENTS. WITH A 7.1% DECLINE IN STUDENT POPULATION FROM LAST YEAR, THEY STILL HAVE 15% MORE MONEY THAN SOUTHERN TECH. FROM SOURCES LISTED ABOVE.
-

S. G. A.
Pam Thompson

The Student Government Association met on May 10 at 5:15 PM in room 119 of the Student Center for its weekly gathering. After several gallant efforts by Vice President Butch Ballenger, enough members were rounded up to achieve a quorum and the meeting got underway.

The SGA Entertainment Committee had several interesting items to discuss. They are supplying sandwich fixings, pickles, and other assorted goodies during the week of June 6-9, Finals Week. During this time the Student Center will be open from 9:00 PM until 5:00 AM and all students are invited to take advantage of this last-minute cram session before finals. All of that studying which wasn't done most of the quarter can now be done at the hours and times mentioned.

The most current item which is about to take place as far as entertainment for students is concerned, the disco is planned for Friday, May 19. This is the evening before the weekend festivities of bathtub racing start. This dance is to kick off a time of racing and excitement. It starts at 10:00 PM and will be held in the Student Center Ballroom. Door prizes are being offered, as well as free refreshments for all. This disco represents just one of the many entertainment items planned for the student body.

The next special entertainment event also sponsored by SGA is a Coffee House on May 25 with a live performance featured from 8:00 PM until 11:00 PM. This will be held in the snack bar area. Once again, refreshments and snacks will be served. The featured performer is Bob Bakert, who is a very talented and amusing artist. He sings contemporary music and plays the guitar. This event should be very good.

Mr. Charles Smith, the Dean of Students, had some pertinent comments to make on items of interest to the students who are interested in holding parties in the Student Center where alcohol may be officially allowed, and to dorm residents. He asked that the SGA

present a formal write-up of the request for an area in the Student Center where parties which include alcohol may be held. He replied to a request for more dorm space and renovations for female students at STI by saying that this would be done in the near future, probably over Summer Quarter.

The third item that he spoke about concerned the dorm residents also. The washer and dryer situation as it stands now is this: a fifty cent charge for use of the washers will be collected in return for the installation of new machines. The current contract negotiation for a more adequate laundry situation is now in the works.

Funds for the insurance necessary to hold the Bathtub Race were approved. The money will come out of the Contingency Fund. The BRA representative, Court Dowis, requested that \$2220 be appropriated. The break-down for the actual expenses to be covered includes \$2070 for two days of insurance, \$100 for ambulance service, and \$50 for the equipment needed to administer breath tests as a check for alcohol. The breath test is required of all drivers in the race.

The meeting was interrupted by the timely arrival of President Tom Samford, who very briefly gave the SGA an account of what had taken place at the Board of Regents meeting held that same day.

The SGA has many exciting activities planned to enhance the end of Spring Quarter. These activities represent a great opportunity to take advantage of receiving benefits from all of those student activity fees. Plan now to attend these events and to let the SGA know, by way of student participation, that their efforts are appreciated.

ALL QUIET ON THE WESTERN FRONT

STUDENTS AND VA TEAM TO FIGHT LATE CHECKS

Students are creating more work than ever for Veterans Administration (VA) computer programmers, but Atlanta VA Regional Office Director V. Ralph White couldn't be happier.

"Over 160,000 GI Bill students filed address changes with the VA last month," White said. "That's a lot of work for us, but those address notifications keep the checks going out on time to the right people. It's the students who move and don't let us know that we worry about." White said that his office alone mails 21,788 checks a month to Georgia GI Bill students. Over a million a month go out nationally.

"A late check can be disastrous to a veteran-student's budget," White said. "The risk of missing a check can be avoided with a change of address notice.

"Students who move," the Regional Office Chief said, "and alert their VA on-campus reps or local VA office will get their checks at the new address."

The biggest problem in misdirected checks comes at the end of a semester. For example, if the semester ends in May, the student may leave campus before his check arrives. A change of address notice can solve this problem.

What is a Clamato?

Where is it found? Does it grow? Who invented it? Do you eat it, drink it, pickle it? Where do you buy it? In a hardware store, a supermarket, an apothecary shop? Is it sexy?

This unusual research challenge has been hurled at America's college students by a company that has an absolute interest in finding the most intriguing and humorous definition of a Clamato, whatever it is.

Mr. Ray Anrig, President of the Duffy-Mott Company, announces that \$1,000 will be rewarded to the college student creating the best description of the hybrid. Five hundred additional clams (hint, hint) will go to a runner-up and \$250 will be awarded to the person whose response is chosen third best.

A panel of famous judges will select the winners, according to Mr. Anrig, who said the competition will start on May 1, and will end on November 3, 1978.

The contest is open to any current full-time college student in the United States.

The answer to "What is a Clamato," can be submitted in the form of an article, short story, fable, a painting, cartoon, jungle, photograph or sculpture, or any other means a student may employ. Contestants may enter as many times as they wish and no proof of purchase is necessary.

All entries should be sent to:

What is a Clamato Contest
17th Floor
1212 Avenue of the Americas
New York, NY 10036

All entries and ideas cannot be returned and will become the property of the Duffy-Mott Company. Decisions of the judges will be final. Be sure to provide your name and address as well as the name of your college or university with your entry.

ALPHA XI ALPHA

Alpha Xi Alpha is back in town! We had a good weekend despite the rain. Don't forget to come to the race this weekend. We'll be selling cokes and chili dogs near the pits. See you there and remember —

We have open meetings Thursdays at 12 in Conference Room A. Be there!

I. F. C.

Greek Week is going along great. Results so far are: Sigma Nu 1st, Sigma Pi and Lambda Chi Alpha 2nd, Tau Kappa Epsilon 3rd, and Alpha Xi Alpha 4th. But a few events are left and the places may change. A full list of what fraternity or sorority did what next week.

Meets are @ 12:00 in the Student Center on Tuesdays.

TAU KAPPA EPSILON

The Tekes had a great time in Panama City on our annual Florida trip. Despite the rain, a lot of partying kept the weekend going. Everybody got wet in more than one way. Thanks to David Upchurch, Mark Wolfe and Gerald Taylor for their part in preparing the trip.

The softball team was beaten by a good Sigma Nu team 8-3. Congratulations to them on wrapping up the fraternity conference. The playoffs are shaping up and it's still close for second place which will be decided in our next game against Lambda Chi Alpha on Thursday.

Volleyball is going real well for TKE. TKE #1 beat Sigma Nu last week to extend their record to 3-1. TKE #2 is playing some good volleyball but can't quite get a win. The tournaments in volleyball are getting close also, so we need every win, fellows.

Greek Week went very smoothly with a lot of good, tough competition. The Greek System showed real determination and brotherhood. Congratulations to all the winners in each event. Greek life is really alive and prosperous at STI.

Everyone remember The upcoming events such as the Raft Race and Bathtub Race this weekend. All the TEKES will be involved so we invite everyone to take part with us and have a big race. Lets show the "Yankees" how to drive a bathtub.

SIGMA NU

Guess who's got the rock? If you answered Sigma Nu, then you're right. The Brothers are going to keep the rock for the Spring Bathtub Race and everybody else can forget about taking it.

The Spring Bathtub Race this weekend and the Iota Pi Chapter of Sigma Nu have three tubs racing this year. They are Brothers Rodney Bridges, Court Dowis, and Tom Preacher. The Brothers wish you and everybody else good luck. All other Brothers that are signed up to throw tires or be Track Marshalls, don't forget when and where you're supposed to be.

Well, another Greek Week has passed and everybody had a great time. The Brothers of Sigma Nu enjoyed competing with the other Fraternities and the Sorority.

The Spring Quarter Pledges presented Commander Jeff Taylor with a personalized gavel.

ORGANIZATIONS

SOCIETY OF MANUFACTURING ENGINEERS

Last week the SME Leadership Training Conference was held in Philadelphia. The Chairman, Chairman-elect, Vice-chairman-elect, Secretary-elect, and Treasurer-elect went to the conference. They learned many things. Some knowledge will be retained and some knowledge will be...oh well they'll get over it.

They, along with Professor Cuba, looked at and inspected some of the Philadelphia Bathtubs to enter the Great Southern Tech Bathtub Race.

SME needs all members and those wishing to get involved in bathtub racing to attend this week's meeting. The time (12:00 noon), the place (Room 626), and the day (Thursday) of this meeting are the same as before.

TENURE GRANTED TO FIVE INSTRUCTORS

At the May 10 meeting of the Board of Regents, five instructors from Southern Tech were granted tenure. Those professors included Dr. Richard L. Castellucis of the EET Department, Dr. Frank C. Taylor of the Physics Department, Mr. James W. Bannerman of the IET Department, Mr. Julian (Rod) Lee of the Physics Department, and Mr. Ben C. Sparks of the MET Department.

"The tool crib attendant told me she'd let me have it in a minute, and I misunderstood."

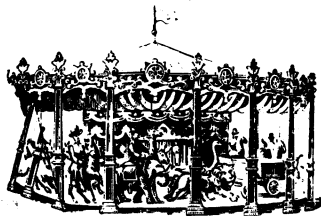

RPM

Subject: Boys in the Trees
Artist: Carly Simon

By: Tim Murphy

While this album has its share of the pretty ballads with which Simon has been most associated, it also includes some surprises: a delightful calypso number, a duet with husband James Taylor on the Everly Brothers' old "Devoted To You," and several super rockers. Among these are the first song, "You Belong To Me," which appeared on the last Doobie Brothers album and was co-written by Simon and Mike McDonald. The horn and string arrangements by Mardin lend a sometimes jazzy-r&b quality, as does the backup participation by the Brecker Brothers, Joe Farrell and Dave Sanborn. Taylor lends backup support on six of the cuts; John Hall guests on two.

Next week the soundtrack to the movie FM.

KENNESAW COLLEGE AND COBB COMMUNITY SYMPHONY, INC. WILL PRESENT THE COBB COMMUNITY SYMPHONY IN ITS 21st ANNUAL "POPS" CONCERT ON SATURDAY, MAY 20, AT 8:30 PM AT THE STUDENT ACTIVITIES BUILDING KENNESAW COLLEGE.

STUDENTS \$1.00

KENNESAW STUDENTS AND FACULTY FREE

SPECIAL ANNUAL PLANTS GROWN BY FREDERIC ROBINSON WILL BE FOR SALE FOLLOWING THE CONCERT, WITH PROCEEDS TO BENEFIT THE SYMPHONY.

GET READY FOR YOUR
DISCO AND COFFEE HOUSE

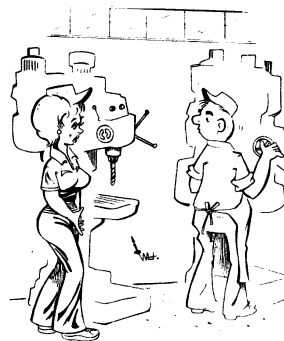

Your activities fee will be put to use soon. On the 19th of this month there is a disco planned in the ballroom of the Student Center. Those in attendance will be entitled to a chance at door prizes. Refreshments and munchies will be served. This should be a good chance to take a break from all that studying. It will last from 10:00-til....

Also on the calendar for this month is a coffee house on the 25th. It will be held in the snack bar area. Playing will be Bob Bakert, often seen at Crowley's. It will be a chance to hear a lot of good music and just to have a good time.

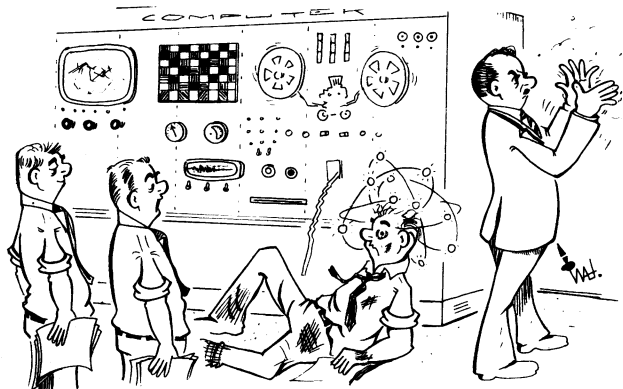

We hope to see a lot of people at both the disco and the coffee house, so mark the 19th and the 25th down on your calendar and come join us.

The Coca-Cola Co. has generously donated funds to the B.R.A. which will enable B.R.A. to print 5,000 programs for this Spring Bathtub Race.

"Would this be the third machine on the left?"

"Bet that's the last time he says 'garbage in, garbage out.'"

YOUR HOROSCOPE

LIBRA:

You are one in a million, and the other 999,999 are glad of it.

SCORPIO:

People are beginning to notice you. Try dressing before you leave the house.

SAGITTARIUS:

Spruce up for Spring! Have your feather boa cleaned.

CAPRICORN:

Make plans for the day while your mind is clear. Then begin drinking.

AQUARIUS:

You've been leading a dog's life. Stay off the furniture.

ARIES:

Travel important today; Internal Revenue men arrive tomorrow.

TAURUS:

Excellent time to become a missing person.

GEMINI:

Today you will think you're at wit's end. Not so. Your wit ended two years ago.

PISCES:

Help a swallow land at Capistrano

CANCER:

Good day for water sports. Take a bath with a friend.

LEO:

Start the day with a smile. After that you can be your nasty old self again.

VIRGO:

Glorious day for socializing in a swank spot. Too bad you can't afford it.
