PHOTOVOLTAIC?

What is a photovoltaic cell? What is biomass conversion? On Friday, July 28, at 7:00 p.m. at Fernbank Science Center, you will find the answers to these questions and more when Mr. Ronald Henderson, Information Officer with the U.S. Department of Energy, presents a lecture on "SOLAR ENERGY: QUESTS AND THE QUESTIONS."

Mr. Henderson plans to introduce the subject of solar energy technologies by covering applications of solar power for residential hot water, heating and cooling, photovoltaic conversion, wind energy, tidal power, and biomass conversion.

If you are interested in how you may be able to use solar energy in your home, you won't want to miss this lecture. This lecture is offered to the public free of charge on a first come, first served basis. It is part of a series which is co-sponsored by the Atlanta Area AAAS and Fernbank Science Center.

Following the lecture you will have plenty of time to view the exhibits, take in the planetarium show, or visit the observatory.

For more information call 378-4311.

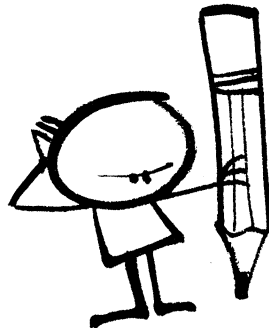

SGA Quorumed

After a short delay to search for enough members, a quorum was established and the SGA held its scheduled meeting.

The planned entertainment for July 20, a Coffee House, was discussed briefly. The necessary ground work had been accomplished and the event was very successful.

A motion was passed requesting that the SGA accept the concept of a Programming Board to manage the combined entertainment funds of the SGA and the Student Center. A motion was also made and passed to accept and establish the Southern Tech Accessibility Committee. The committee presented its constitution and the key persons involved were also named. Dr. Frank Taylor is the advisor for the committee whose main purpose is to act in the interests of handicapped students on the STI campus. The president of the committee is STI student Rose Snow.

It was also announced at this SGA meeting that Professor Sparks has scheduled a "Question and Answer" session for students in the MET Department on August 17 from 4:00 p.m. to 6:00 p.m.

MAIL

(Editor's Note: Material in this letter is in reference to events which occurred at a recent Regents meeting.)

Dear Editor:

Attention All Department Heads:

If any of you plan to step down soon (this seems to be a common occurrence at STI) and resume your teaching career, you should be aware of a new practice by the Board of Regents which enables Department Heads to receive their salary during their leave of absence (?). You should check on this because you may be eligible.

Dr Hooper's response to Regent Maddox's question as to the reason for the apparent high turnover rate at STI (with regard to new Department Heads being approved frequently and the change in staff) was primarily due to retirement! Maybe Dr. Hooper should receive an award for presenting inaccurate information to the Board of Regents.

NAME WITHHELD

SUMMER CINEMA
SOUTHERN TECH STUDENT CENTER

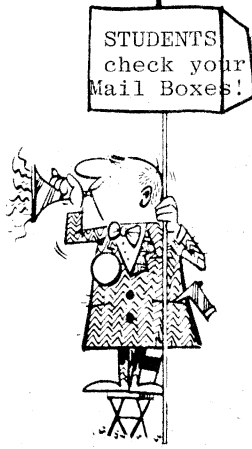

- July 26 "PAT GARRETT AND BILLY THE KID". Outlaw turned lawman (James Caan) tracks down Billy the Kid (Kris Kristofferson) in a tale from the old west.
- Aug. 2* "THE CONVERSATION". Francis Ford Coppola's thrilling tale of a professional wiretapper-an introspective view of a man and his craft. Gene Hackman gives a brilliant performance.
- Aug. 9 "BUTCH CASSIDY AND THE SUN-DANCE KID". George Roy Hill's classic film featuring Robert Redford, Paul Newman, and Katherine Ross. Winner of 4 Academy Awards.
- Aug. 16 "A DAY AT THE RACES". The Marx Brothers bring chaos and side-splitting laughter to the race track.
- Aug. 26 "THE DUTCHESS AND THE DIRT-WATER FOX". Laugh with Goldie Hawn and George Segal while they conquer the West!

*"THE CONVERSATION" will not be shown at Noon, due to the Red Cross Blood Drive that will be held in the Ball-room.

GOOD MAN

Dr. Taylor Heads Physics Department

It is a pleasure to announce that the Board of Regents at its meeting on July 12, 1978, appointed Dr. Frank C. Taylor as head of the Chemistry and Physics Department, the appointment to become effective on July 13, 1978.

"The boss went wild about it! I guess in all the excitement of my promotion, I forgot to mention that the idea was yours."

WANTED:

Student to do yard work-moving shrubs, trimming bushes, etc. Near Kenesaw College (#117 off I-75). \$3.00 per hour. Contact R. Gates, Room 275 in the Classroom Building.

Tau Kappa Epsilon

Tekes at STI are enjoying a great quarter as the only active fraternity on campus this summer. There is entertainment nightly at the Teke house as the Tekes never seem to quit. Come by the house, 1420 Canton Highway, any night after 8 p.m. and experience the unique Teke way of life. There is always something happening. End summer boredom. Come and see us.

Jonathan Hudson
Teke Rush Chairman
