

LETTERS TO

Dear Editor:

I apologize to anyone who may have been misled by my letter of 23 Oct. That letter was censored without my authentication.

The difference between the argument that I present and that of the Iranian Students Association (ISA) is that I have the pride, moral integrity, and guts to sign my own name to my work and have The STIng print that good name so everyone can read it. Also I do not make irresponsible character assassinations upon individuals, but expose their organization. In addition, I am willing and able to produce documentation from reputable sources to support my side of the argument. By reputable, I do not mean such revolutionary organs as The Militant or Resistance.

I may not agree with everything the ISA members say, but I will defend (to the death, if necessary) their right to say it.

No, I am not a CIA operative. Since the CIA is controlled from the top by the treasonous Council on Foreign Relations (CFR), I would be hamstrung and prevented from doing anything effective in the agency. What the ISA members may not know is that Ambassador to Iran, William Sullivan and Secretary of State, Cyrus Vance are both members of the CFR. As long as this situation exists, Iran cannot go from oligarchy under the Shah to anything but subjugation under Communism.

Those who think Afghanistan is not under Communist tyranny have not kept up with current events. Nur Mohammed Tarakki was installed by KGB after the Communist takeover of 27 April 1978 and the new Communist regime was immediately recognized by Cuba and Russia.

I believe that when people understand the issues and the truth about the Iranian People's struggle, they will defy it.

The ISA (U.S.) is linked by membership, activity or allegiance to the following: Committee for Artistic and Intellectual Freedom in Iran (CAIFI) which is a Trotskyite Communist front; the Socialist workers party, the U.S. section of the Communist Fourth International; the Maoist Revolutionary Communist Party (RCP); the Pro-Peking Communist Party Marxist-Leninist (CPML), and the Organization of Iranian People's Fedayee

Guerrillas (OIPFG), an Iranian Marxist terrorist group with close ties to Cuba and the Palestine Liberation Organization. Also OIPFG has been linked to Kristina Berster and Brigitte Folkerts of the Baader-Meinhof terrorist group of West Germany. With the preponderance of association with pro-Communist and terrorist (murder) organizations, who can have anything but abhorrence and contempt for the ISA?

George Zimmerlee

Dear Editor:

Recently, my signature appeared in place alongside friends of mine in a letter to the STIng newspaper in response to a letter the previous week by the ISA. I wish now to clarify further my own opinions...

The political papers of the ISA, that have saturated this campus recently, have all been comprised of the same anti-Shah rebellious articles written by the Iranians. I don't understand why the Iranians need a new organization to voice the same old stands.

I believe in our rights to free speech, but that right extends only so long as it does not infringe upon the rights of others. I, and other STI students, have the right to an education without interference by political, religious, or racial obstacles and uprisings.

The problems in the Middle East are not the responsibility of the STI Student to solve. I don't advocate ignorance of the problem, but I do advocate the abolition of political activism to the point of obsession and violence. The knifing in the student center last year is only one act that requires remembering and reckoning.

I ask simply for a curb to activism and let's get on with why we are all here, education.

Joey Watkins

3*The STIn*Monday, November 13, 1978

THE EDITOR

Dear Editor:

Mr. George Zimmerlee's attack on Iranian students and his intentions to harrass our movement is of no surprise to us. What is really surprising is his false information about the American people's view on democracy. In his letter (Oct. 23, 1978) he attacks people who solicit support for democracy, because to him, democracy is the "law of the lynch mob," and whoever solicits democracy is trying to create such an atmosphere. Moreover, he does not like the idea of democracy because it is the rule of majority.

Actually, it is Mr. Zimmerlee who is trying to create a lynch-mob atmosphere and distort the goals of our movement here in the U.S. He is trying to harrass us, believing that he could stop our movement here by harrassment. In Iran those who speak out against Shah's regime are faced with imprisonment and torture, here this takes many different forms; Mr. Zimmerlee's letter being an example. In his letter he urges "sane, moral Americans" to turn Iranians in to the police, Immigration and ect., if those Iranians solicit democracy. He continues his letter by saying that he does not "wish to infringe upon the right to speech or press!" This "wish" is contrary to his later remarks. He tells the reader to turn in the anti-Shah Iranians who "persist in disseminating their own propaganda." As a point of information, it should be noted that the Iranian Students do not need a green card, blue card, or any card to solicit democracy for their country- here in the U.S. or anywhere in the world. Furthermore, he should be well aware that it is our basic right to distribute our publication (Free Press), and no agency could lawfully stop us from practicing our basic rights. Moreover, if Mr. Zimmerlee intends to harrass us (which seems to be the case), he must be informed that anyone takes the chances of facing the Shah's prisons and his torture chambers, will not be frightened by Zimmerlee's harrassment. Why would he want to harrass Iranian students? The majority of students outside Iran are organized into various student organizations and work to expose the Shah's regime, his supporters, and the true news about condition in Iran to the rest of the World. Through educational and other activities, the Iranian students have played an important role in disseminating information about Iran. As a result of these activities, the repression of the Iranian regime has been even beyond the borders of Iran, and many students are under threat of long imprisonment when they return to Iran.

It is clear why Mr. Zimmerlee and all the fascists are joining with the Shah to suppress the Iranian students. The students here are a source of information and political movement in opposition to the Shah's dictatorship and any other dictatorship. It is notable that Mr. Zimmerlee's resentment for democracy resembles that of fascists. The only people who are afraid of majority rule (democracy) and solicit one man dictatorship are either related to Nazis, Ku Klux Klan, SAVAK (Shah's notorious secret Police), or some similar organization. We do not believe that the majority of American people are anti-democracy as Zimmerlee is trying to make us

believe....Editor's note: Due to space limitations the rest of this letter had to be condensed. The final paragraph follows:

And much to Mr. Zimmerlee's dismay, we will continue our struggle against the fascist Shah here in the U.S. In many cases our struggle has been fully supported and aided by American people. We ask all freedom-loving people to condemn such attacks (Mr. Zimmerlee's letter) on Iranian Students movement and continue their support of democracy.

"Long live the solidarity of American, and Iranian people."

Roozbeh Sayyar

Dear Editor:

In response to Grier Sowell and Jan Gross whose letters appeared in last week's issue I would like to make these comments. Those of us on the Log staff will be the first to admit that the 1978 Log left something to be desired. Last year our staff didn't have anyone experienced in producing an annual until Tony Chupp volunteered his services in Spring Quarter. Tony did most of the final layouts himself under the pressure of deadlines and graduation. Enough said about 1978.

This year there are two of us who gained experience from working on last year's book. (We have a long list of things that people didn't like.) We also have four staff members who have worked on high school yearbooks (all freshmen) and four willing photographers for this year.

We are off to a good start on the 1978 Log but we can always use more people, especially with experience. We know that there are students who qualify out there because they have told us. But, so far, only one has volunteered (on an irregular basis) to help us. We need people to create copy and to work on the sports section. We are also looking for a new faculty advisor.

Log staff meetings are at noon on Tuesdays in our office in the Student Center. If there are things that you would like to see changed in STI's annual, please come by and see us.

Mike Liebergesell
Associate Editor, Log

Vince Hewitt

Dear Editor:

This school needs some official transportation, either two vans or a mid-sized bus (two vans would be ideal).

Stop and think about it. Wouldn't it be nice to have school vehicles that could be chartered for your next plant tour, field trip, or organizational retreat? And, wouldn't it be nice if our basketball and baseball players didn't have to drive their own cars to away games?

Did you know that Southern Tech is the only school in the University System that doesn't have a vehicle available for student use?

Well, we want to change this unfortunate situation. The SGA is sponsoring a Vehicle Fund with a target amount of \$13,000 although we probably will need more. I have received many suggestions for fund raising; raffle off a stereo, keg party for the floor that raises the most money (Residence Hall) and Piggy banks for staff member's desk, to name a few.

The SGA's coke stand donated the total profit to this fund. The following people are the charter contributors to this fund and I thank each one for his/her participation. Maxime Parham, Larry T. Brown, Grier Sowell, Warren Levine, Mark Wolfe, Billy Brackett, D. Hall, Ben Mitchell, Mark Gernazian, Reed Hurley, Mickey Dunn, Bill Winters, Mike Muller, Professor Eller.

Please forward any suggestions to the SGA Office.

Barbara Ransom
SGA President

CAMPUS ORGANIZATIONS

IFC

The IFC wishes to thank everyone who participated in the Greek Roundtable. Advisors, Presidents, and other members of the fraternities and sorority are encouraged to attend the next meeting of the Roundtable. The date will be announced later.

The IFC also wishes to thank everyone who gave the gift of life on Nov. 7. during the Red Cross blood drive in the Students Center.

ALPHA XI ALPHA

Another Goat Day has come and gone, but this was not just another Goat Day. It was distinctly different with many new activities which we all enjoyed. Thanks, Goat Day Committee, for a great success and a job well done. Congratulations, Sigma Nu, for your Goat Day Victory.

We want to thank everyone for your contributions at our Bake Sale Thursday. We hope you all enjoyed it as much as we did. We hope to see everyone in the gym Friday night to cheer the Green Hornets on in their opening game of the season. See you there!

Sigma Nu Little Sisters want to congratulate our brothers for scoring the most points Goat Day and finally breaking Pi's winning streak.

We're proud of you and want you to know it!

SIGMA NU

We had an excellent Goat Day! The brothers that participated placed in every event to give Sigma Nu first place in Goat Day. Thanks to the pledges for the great job of keeping and painting the rock. We would like to congratulate all of the fraternities that participated.

The brothers would like to congratulate the brothers of Sigma Phi Epsilon for their instant success on campus. They are a hard working fraternity. We have enjoyed working with them this quarter. We wish them well in the Winter Rush!

Our football team has an excellent offense this year. Brian Galloway and Bubba Franklin have done a good job in organizing the offense. The defense is getting better every game. With the enthusiasm that we are showing, we have a good chance of winning the fraternity division.

Pledges will have a car wash on Nov. 17. So if your car needs washing, be sure to find out where to take it.

Everybody, be sure to thank Alumni Brother Joe Gaskin. He made the first donation to the fraternity!

BATHTUB RACING ASSOCIATION

There will be a very important night meeting on Nov. 14, at 6:00 pm in room 119 of the Student Center. All members please attend.

ASCE

This last year Georgia suffered the tragic experience of the Toccoa Dam failure which claimed almost 30 lives. Since that time there have been numerous studies on other existing dams so that this type of disaster can be avoided.

Tuesday, November 21 the ASCE will give a presentation on "Dam Failures" at 12:00 noon in room 568 of the CET building. Professor George Sowers of the Georgia Institute of Technology will be the guest speaker for this presentation. Professor Sowers has done research in this area for many years and is well educated on the problems that engineers are faced with in a dam's design.

This is an area which all CET students should be interested in because the subject includes structural design, hydraulics, and soil mechanics. If you would like to learn more about dam failures and some of the problems that engineers are faced with, then the ASCE would like to invite you to attend this presentation. Like always, there will be free coffee and donuts for those who sacrifice lunch.

T.K.E.

The football team is presently working its way toward a wildcard place in the playoffs. Hard work and determination has given a young team a chance to still make the playoffs. Keep up the good work Brothers! The next big game is TKE vs. Sigma Pi (Monday, Nov. 13). This is a must game, so let's go out and get it.

I want to remind everyone that Brother Keith Hendrix is tying the knot Nov. 18 (Saturday) at 2:00 at Dunwoody Methodist Church. Everyone is invited. A reception will follow.

Thanks to all brothers that participated in our annual Alumni vs. Brothers Football game. Tough luck Alumni... Size and age can't keep up with speed. I hope everyone enjoyed the cookout and keg party following the game at the TKE House.

Another date to keep in mind is composites - Tuesday (Nov. 14). Don't forget your pre-assigned time for pictures.

Southern Tech's first home basketball games will be Nov. 17 and 18. They need everyone behind them as they tip-off another season that we hope will match last year's NAIA Championship Contenders.

We still invite everyone to our meetings at 12:00 noon on Thursdays in room 358. Come by and see what we have to offer.

Wrestling practice will be held from 4:30-6:00 on Tuesday and Thursday. Our first practice is Tuesday, Nov. 14. All interested students are welcomed to attend.

CHESS CLUB NEWS

This week has seen a barrage of games played for the leading positions in the Club's ladder tournament. Jeff Ting was victorious in a match against Red Phillips on Friday to regain first place and defended his lead against Dan Watson in a game on Monday that ran over four hours, lengthy by anyone's standards. This sixty-six move marathon chess match is on display on the bulletin board in the bottom of the Student Center for lovers of quality chess.

Anyone interested in playing chess in a free manner with the other students involved in the club and the ladder tournament is reminded that we welcome new members at anytime.

The opening of the week is the Dragon variation of the Sicilian Defense, which offers a sound and quite aggressive defense to Black.

White	Black
1 P-K4	P-QB4
2 N-KB3	P-Q3
3 P-Q4	PXP
4 NXP	N-KB3!

The positional move that identifies the Dragon, with an eye towards P-Q4. Any other move may land Black in positional difficulty.

5 N-QB3 P-KN3

White must defend against P-Q4 and develop as well; Black intends to fianchetto his bishop and so dominate a long diagonal.

6 B-K2	B-N2
7 O-O	O-O

Black is now in a highly defensible array with good chances for attack.

White, although a piece better developed, must be careful in his next moves. Try it and see!

WHERE: Room 119 of the Student Center
WHEN: 12 Noon, Tuesday, Nov. 14 & 21.

What is the function of a sales representative? How does his/her background relate to success in this field? Come to the SWE on Tuesday, November 14 and hear Ms. Beth Terwillegar, a sales rep. for industrial construction products for the Johns-Manville Corporation.

And on Tuesday, Nov. 21, we will sponsor a "Dress for Success" presentation given by the owners of Today's Woman. They will discuss dressing within a budget while maintaining a fashionable, versatile, and appropriate wardrobe.

On Friday, Nov. 17, we will have our SWE picture taken for the LOG. We'll meet on the top level of the student center at 12 noon.

5*The STIing*Monday, November 13, 1978

MEET PROFESSOR deCAUX

The math department has a new member on the faculty, Mr. Peter A. de Caux. He is teaching Algebra and Calculus this quarter.

Professor de Caux was born in London. He has worked and traveled in the Middle East and Africa. He enjoys traveling. I asked where he had been in the Middle East and he rambled off so many places my long-hand couldn't keep up. I didn't ask what he had seen in Africa.

The travelled Professor has lived in Atlanta for 12 years. Since here he has gained a B.S. and Ph.D. in Mathematics from Emory University. He devotes his time now to teaching. He is a very interesting person and enjoys teaching math, his main interest now.

Mr. de Caux is impressed with Southern Tech and the campus. He chose STI because of location, convenience, and opportunity. He seems pleased and content with us now.

Many people on the Southern Tech campus are confused about the issue of separation from Ga. Tech. They say, "If we separate no one will know who we are. We'll fade away into anonymity." They are afraid of losing the umbrella that's been over our heads for the past 30 years.

I think these people underestimate Southern Tech's impact on the world of industry. Last year over 300 companies contacted our Placement Office and many were turned away because there simply were not any graduates available. The strength of the professional societies is another indicator of our reputation in industry, also the number and prominence of guest speakers and the ease with which plant tours are arranged. A random sampling of potential employers, both in-state and out-of-state, revealed that Southern Tech graduates are identified as valuable employees who require less training than the average engineer-

ing school graduate. A few personnel managers did connect Southern Tech with Ga. Tech, but most company representatives were aware of the difference in

Another difference in the two schools is the curriculum. Southern Tech doesn't offer junior level engineering theory, it offers engineering technology - the practical application of engineering theories. Southern Tech is geared toward achieving tangible results. What good is a theory if it is never applied to anything except a dusty shelf in a bookcase? At this school we learn how to work, not theorize. A common tendency in analyzing the issue of separation is to compare Southern Tech and Ga. Tech as if they were teaching the same subjects.

I think this tendency to compare the schools is a result of the ambiguity of engineering technology itself on a national level. Although Southern Tech was begun by a request of the Georgia Business and Industry Assoc. to the Board of Regents, at the time there wasn't a good name for what they wanted; they only knew that Ga. Tech wasn't giving them what they needed. Other Engineering Technology schools have sprung up around the country, yet there is no strong national organization of Engineering Technologists to aid in defining and bolstering the profession. So, we struggle along, riding the fence with engineers on one side and technicians on the other and, at Southern Tech in particular, fighting the image of a second hand engineering school in much the same shape as our lab equipment.

Which brings us to another point on separation: Money. If we were a separate institution in the true sense, our budget would be submitted to the Board of Regents without encountering Ga. Tech's paring knife first. We would have to clamor for funds with all the other schools and come out from under Ga. Tech's shelter. This could mean more funds for Southern Tech to bring us up to the level of other four-year institutions of comparable size. Separation would also mean that we would have to depend on our own political saving to get things accomplished; no more passing-the-buck to Ga. Tech.

To me, the issue of separation is

very complex and filled with "what if's" and maybe's. It merits careful consideration and objectivity in discussing finances, job security, school image, and, most important, the needs of the students. There are many needs you may see that I don't see and your views may not coincide with mine. I challenge you to respond to the issue of separation before Nov. 13 at 2:00 pm. The committee to study separation will be meeting then, and I want to be able to present the student's views to this committee. So, write it down, let me know what you think.

Barbara Ransom
SGA President

Separation

Good news about auto insurance for college students.

We'd like to insure your car. Why? Because we specialize in providing auto insurance for young drivers.

Who are we? Criterion Insurance Company is a dependable, financially strong company offering important benefits like: convenient payment plans, country-wide claim service, driver training discounts and a wide choice of coverages to protect you and your car.

Like to know more? Call or visit us today for a free, personal rate quotation and complete information.

Yes! Please send me a free auto insurance rate quotation.

A Christmas Suggestion

What is the "PERFECT CHRISTMAS GIFT", has your name beautifully printed on it, and includes a complete Restaurant Directory together in one handsome and convenient carry case? THAT'S RIGHT! A Carriage Trade Dinner Club Membership.

Let us solve your CHRISTMAS shopping worries this year and give the GIFT that keeps on giving long after the Holidays are gone. YES... The Carriage Trade Membership is truly the "PERFECT CHRISTMAS GIFT".

Now is the time to think of ALL your friends, relatives, business associates, and loved ones and give them THE GIFT FOR ALL SEASONS & REASONS.

The PERFECT GIFT, for only twelve dollars & fifty cents (\$12.50), now more than ever is a tremendous value and as a current Member you are entitled to purchase as many GIFT Memberships at the \$12.50 price as you like. Included with each GIFT Membership is a Personalized Gift Card which will be inscribed as you indicate and sent directly to the Gift Recipient or back to you if you prefer.

To order your "PERFECT CHRISTMAS GIFT" just fill out the convenient postage-paid envelope, enclose your check, and MAIL. Please remember to indicate all GIFTS.

At last, shopping can be easy... "THE CARRIAGE TRADE WAY".

Pleasant dining to all and to all a Good Night! The Carriage Trade Dinner Club

7*The STIn*Monday, November 13, 1978

STANDINGS

SPORTS

There are a lot of considerations that go into choosing a Team of the Week. Some of them are: who wins the most games that week, who plays the most impressive game, a win over an unbeaten team, sportsmanship, surprising victories, etc.

Obviously, it is possible for more than one team to possess more than one of these qualities. At the end of the week the team with the majority of these qualities is picked as team of the week.

And speaking of team of the week, there was no doubt about the Junior Varsity team as they started out their season last Friday night in Milledgeville with an impressive 68-62 win over Gordon Military College! They set a great example for the varsity team whose first game is coming up on Nov. 17. After last year's record, the varsity team has a lot to live up to, but from the looks of its power and skill, that should not be hard to do.

Congratulations, Junior Varsity, for your first win, and may the rest of the season go just as well!

The 1978-79 STI Basketball season begins on the weekend of November 17-18 with games against High Point College and Payne College respectively. As we prepare for the season openers I wish to inform the campus of the new admission charge policy for all home games. This policy was recommended by the Athletic Advisory Board last May and has been approved by Dr. Carlson and myself.

The following admission charges will be in effect:

1. Southern Tech Student with ID and guest FREE
2. Non-STI student with student ID \$1.00
3. Adults over 12 years (including faculty and staff who are not booster club members) \$2.00
4. Children under 12 \$.50
5. Alumni members with membership card and guest FREE
6. Press with ID FREE
7. Special guests appearing on team guest list approved by coaches FREE
8. Booster Club members with card FREE

Booster Club Membership: This year the Booster Club will have two types of membership:

1. Individual Membership \$10.00
2. Family Membership \$15.00

This communication will inform all of the new charge policy at home basketball games and will thus avoid any embarrassment at the front door. All admission receipts at home basketball games are used to assist with the expenses of the athletic program. Booster Club membership dues are also used to assist with the expenses of the athletic program.

TYPING DONE AT REASONABLE RATES.

Call 424-9536 between the
9:00 a.m. and 10:30 p.m.

WILL YOU JOIN
US FOR Breakfast?

BREAKFAST WITH THE PRESIDENT
November 16, 1978 at 8:00 am

A breakfast program that parallels the current "Breakfast with the Dean" program will begin Nov. 16. The purpose is to allow students and faculty members to discuss issues concerning Southern Tech with the SGA President.

A sign up sheet is posted on Barbara Ransom's SGA Office door. Unfortunately, participants will have to buy their own breakfast as the SGA can't afford to "treat."

The representative from Herff Jones will be at the Bookstore on Wednesday, Nov. 15 from 11:00 to 2:00, to take orders for rings.

The next scheduled Standing Committee Meeting will be on Tuesday, November 14, at 1:00 P.M.

I would like to thank the following people for their help, participation, and cooperation during GOAT DAY 1978.

Jean Cushing	SWE
ASCE	BSA
Grainger Morrison	James Wascher
Steve Green	String and Log
John Andrews	Mike Liebergesel
Mitch Wilkerson	WSTB
Edward Jordan	Sue Konrad
Dean Charles Smith	Joe Geshling
Chuck Powers	Joey Watkins
Lee Thomas	Cecil Gary
Dean Jackson	Alan Middleton
Myron Lassiter	Mark Jones
Larry Panetta	Police Dept.
Warren St. Clair	Physical Plant
Richard Shields	Sigma Nu
Sigma Pi	Tau Kappa Epsilon
Lambda Chi Alpha	
Alpha Xi Alpha	

Thank you again.

Barbara Ransom
SGA President

BASKET BALL SPIRIT

On Friday, Nov. 17, The Southern Tech Hornets will host its first Varsity Game for the 78-79 season. The Southern Tech Cheerleaders will also be making their first appearance for the season.

We are asking for full participation and cooperation from everyone (including fraternities) to cheer along with us, and cheer the Hornets on to a victory and another Championship. Realizing that we are last year's champs we are also asking that we convey ourselves as such.

Lets cheer the Hornets to VICTORY once more. Your cooperation is very much appreciated.
