Wimberly, Charles A.	IET
Wojnowiak, Paul	IET

The Sting would like to congratulate all of the faculty members who received distinguished service awards. These awards were made possible because of the generosity of Mr. Glenn Dewberry, Jr. Mr. Dewberry is Chairman of the Board at Atlantic Steel, and is an alumnus of Southern Tech. His concern and generosity is evident in the many projects that he has helped develop and provide financial support for.

Mr. Glenn Dewberry, Jr., Chairman, Southern Tech Foundation, and Dr. Walter O. Carlson, Dean/Executive Director, Southern Tech, presented awards to 17 faculty members who were selected as outstanding teachers and contributors to the development of Southern Tech during the past year. The awards were presented at a faculty meeting on Nov. 28.

The Distinguished Service Awards are given annually on behalf of the Southern Tech Foundation. The members of the Board and many members of the community served by Southern Tech contributed in order to make the awards possible. For this year's awards, the Foundation appropriated \$10,000.00.

*These six were also 1977-78 recipients.

LETTERS TO THE EDITOR

*The STING Monday, December 4, 1978

Dear Editor:

Recently, the majority of your segment of The STING has been consumed by pro and anti ISA factions. The contents of these letters strongly represent the ever-growing political strife on the STI campus.

This letter is not intended to advocate pro or anti ISA involvement. It is however, an attempt to awaken authoritative groups or persons to the severity of this problem.

It is apparent that some STI students have forsaken the real goals of this Institution and replaced them with their personal or organizational political advancement.

As one conducts his or her daily STI schedule, the presence of verbal or literary character assassinations against the opposing ISA faction is non-available. The problem is so embedded that numerous literary comments even appear on the walls of our rest rooms. A few of these comments go as far as "Send them back to the Shah", "Kill them", plus a few non-printable downgrades of the U.S. Citizenry and Government. It is these types of irrational feelings that could lead STI into a confrontation that ends in a repeat of the Kent State murders. I feel that some authoritative responsible person or groups should step forward to restore unity and understanding among all STI Citizenry so we can get on with our education.

My own off-the-cuff approach would be to hold a public forum. The participants would be obligated to present their views and to be able to justly prove the validity of these views, their actions, past and present; and even the validity of their personal or group existence on the STI campus.

In so doing, we would permit true and just democracy to squelch our campus strife and give us a better understanding of world social and political feelings. Truth normally prevails if given a proper chance.

But, alas, where are you, authoritative responsible group or person?

Robert Alcorn

CLEAN OUT
YOUR MAIL
BOX FOR
THE HOLIDAYS!

Dear Editor:

George Zimmerlee, it seems this battle with the Iranians and yourself has become a personal thing, more of an obsession with you. Why don't you write to them via the Post Office and quit using valuable space in our paper. I, personally, and a lot of other people, am sick of reading your letters and anything to do with Iran. We all realize there is a problem but we're here to go to school and learn to benefit our future. I can't say for sure but at the moment my future doesn't include fighting battles or overthrowing the Shah. Return your battle to your own fighting ground and leave us the space we need in our paper.

Diana Eros

Dear Editor:

The Koran is the holy book of Islam. The Sharia, the Koranic Law, describes the inalienable right of man to have access to the means of production and to ownership of his production (capital). The wording of the Sharia very clearly states that amputation of fingers and hands is the punishment for stealing the capital of another. Yet, to my knowledge, every anti-Shah Islamic organization hypocritically advocates Marxian collectivism and abolition of private property. Some people on campus are guilty of such hypocrisy and an obsession for patently erroneous information about the Iranian condition. But all of this upsets me less than the fact that some people don't care and some are opposed to having the truth known, Diana.

George Zimmerlee

AN OPEN LETTER TO THE STI FACULTY

Last week I received official notice that my name would be entered in the 1978-79 edition of Who's Who Among Students in American Universities and Colleges. This is indeed a most prestigious award for which I feel deeply honored. Along with the honor conferred upon me by the faculty, I also feel that I have made some real, altruistic friends. This, to me, is the most important accomplishment of all.

If a friend can be defined as one who goes out of his way to help another without regard for his own personal interests then I am confident that I could call every STI faculty member that I have come in contact with a friend. In nine quarters of attendance at this school I have yet to be refused help concerning any scholastic problem. This is in spite of some of the less than brilliant questions I have asked. To each of you I owe a great deal.

There are of course some among you to whom I owe more than a great deal. Professor Larry Aft, my student advisor is one to whom I owe a special debt. His advice has shaped my entire future. Another is "His Doctorship" Professor St. Germaine. He first gave me his own personal test by fire and water and the his friendship. Last but not least "His Exalted Doctorship" Professor Fischer. I have never before met a more personable or helpful a person than he.

To each of you who contributed to my nomination to Who's Who I would like to say thank you. Thank you for being what you are: The backbone, reputation, and essence of Southern Technical Institute.

CAMPUS ORGANIZATIONS

SIGMA NU

The "Honor Fraternity" will be ending this quarter's events on a very special occasion. December 4 marks the second anniversary of Iota Pi Chapter of Sigma Nu. The Alumni Chapter will get their national charter during these ceremonies. So this will be a good time to bring our alumni closer to the fraternity. The social committee has done a great job planning this party, but they still need the brother's help. If you have any food that you can bring, inform someone in the social committee. We extend a special thanks to our little sisters who are helping to prepare the food.

Initiation ceremonies will be on Thursday at 8:00 pm. The Anniversary Party is Dec. 2 at 8:00 pm. The dress will be semi-formal at the party. Please attend!

This quarter has gone very good for us. Work projects consisted of a car wash, selling cokes at the Falcon's game, a yard sale, and many doughnut sales. We had a very sucessful rush, Halloween Party, Goat Day, retreat, and novice class.

Future activities for Winter Quarter are rush on Jan. 11, ski trip, bathtub race, casino party, and trip to Savannah. So, be thinking about these things over the holiday.

Future goals are to be a "Rock Chapter", to work towards getting a house, and to start a yearly charity project!

We appreciate each and every pledge for the work that they have done and hope that this quarter has been very meaningful to them. Also, we hope that this quarter has given others a favorable impression of Sigma Nu and time to think about working together in brotherhood.

We had a winning football team this year. Congratulations to all the teams that we played this year. We are proud of the brothers that played for us this year!

Some of the brothers are going to the Ga. Tech-Georgia game. If you are interested in going, get in contact with Jim Guyton.

The Brothers of Sigma Nu would like to conclude this quarter by wishing everyone a safe and happy holiday!

ALPHA XI ALPHA

Congratulations to the New Sisters of Alpha Xi Alpha Sorority. Tuesday night we initiated Diane Smith, Sue Ellen Hiers, Debrah Inman, Jean Cushing, and Mary McCorkle. The Crest looks great and all the Big Sisters send a special thanks to their Little Sisters for their lap boards. Thanks Debbie and Mrs. Jordan for the use of your house and a great meal. We enjoyed helping at the Faculty, Staff, Student and Family Christmas Party Sunday.

Thanks to the Best Pledge Class for the Rock. It really looks great!

I.F.C.

By: Warren St. Clair

The IFC meeting of Nov. 29 was a lengthy one. The main reason for its length was a new constitution was brought up, read, and unanimously passed. A few of the highlights of the constitution are as follows:

- 1) A fraternity may not withdraw from the IFC and remain a recognized social fraternity on Campus.
- 2) Officers will be elected yearly; elections will be held the second week of Spring Quarter and taking their positions the following week
- 3) Each amendment added must have laid on the table 2 weeks before voted on. It will take a 3/4 majority of all members.
- 4) The most absences the fraternities representatives can have as a whole is four. For this to be in effect, all representatives of a fraternity must be absent four times.
- 5) Reinstatement into the IFC will consist of a \$50 fine, all financial obligations must have been paid and approved by a 2/3 vote of members of the IFC.

These are just a few of the highlights in a nutshell. There were a new set of rock rules brought up, and passed. Because of a time limitation this reporter didn't get to hear them.

LAMBDA CHI NEWS

The Brothers of Lambda Chi Alpha wish to congratulate our fantastic football team for once again winning the fraternity conference championship. The team worked very hard with Athletice Director Jim Fangman.

This year's Seaboard Conclave Convention is being held in Daytona Beach, Florida. Any Brother or Associate Member that wants to attend needs to see David Meyer.

Lambda Chi Alpha had it's Annual Christmas Party last week and as usual, it was a great party. The Winter Quarter Rush Party is set for Jan. 8, 1979.

Every brother and associate member should be getting ready.

Congratulations to associate member Steve Medlin for placing 3rd in the recent pool tournament held in the Student Center.

B.S.A.

We would like to thank everyone who contributed to our Thanksgiving Basket, for helping to make our cause a great success. With your help we were able to provide baskets for five needy families in the Marietta area. They are:

Ms. Carrie Moon- mother of six children
Ms. Beverly Barnswell- mother of eight children
Ms. Theresa Hill- mother of five children
Ms. Joan Harris- mother of five children
Mr. Hadi Sayahi- a student here at Southern Tech who is a very special case

We also would like to give a special thanks to Mr. Don Burger, Mr. Al Burrus, Mr. Kenneth Bennett, Mr. Jack Agee, Mrs. Barber, Terrie Mitchell, and Clarence Bailey for their unselfish efforts.

We wish everyone a Merry Christmas and an extremely Happy New Year

ADOPT - A - GRANDPARENT !

Would you like to bring a smile to an elderly person by brightening their day? An effort of kindness by you would take so little time yet give so much pleasure. And you and your students do have all the ingredients: a cheerful smile, an interest in the world around you, an ability to care for people, and a desire to be helpful. How can you bring these to the aging?

ADOPT - A - GRANDPARENT!

Yes, each student can "Adopt-A-Grandparent" through our Red Cross Youth Service Programs.

WHAT CAN YOU DO TO PARTICIPATE?

Depending on the size of your class or group, you may choose one or several of the following projects to do for a convalescent home. These projects are suggestions only. Please feel free to add whatever ideas you like. The purpose of all of these projects is to help ESTABLISH contact between the student and their "grandparent".

If you are interested, please call 874-1601, ext. 232.

GOAT DAY OR DOG DAY?

By: Sev Burkhalter

Well, Goat Day has come and gone... Thank God! This year's Goat Day has to rank among the worst I have ever witnessed, and I have witnessed most of the Goat Days since 1972. The organization of the day's activities was virtually non-existent. It was poorly run, poorly manned and very poorly brought off.

Now don't get me wrong. I think some people put forth a genuine effort to make it a success, but the majority of the people attending were the faithful fraternities. This shows me that there is still that ever present lack of interest within the school body, and that includes professors.

The day turned into a fraternity rivalry day, as always. The name should be changed from Goat Day to Fraternity Day or Beer Day. I'm not saying that the beer or fraternities should be controlled, because I see nothing wrong with "sipping some suds." But perhaps Goat Day as it was run this year lacked a focus that events of this kind should have.

Goat Day used to have a carnival atmosphere with candied apples, popcorn and "many" various booths of chance and skill such as a dunk the dean tank, playing cards against a computer, tossing rings over the necks of soft drink bottles, a basketball shooting booth, throwing softballs at weighted milk bottles, a painting booth where drops of different color paints are dropped on a spinning 5" x 7" card to form a design, etc., etc. If all fraternities and other organizations on campus were given the responsibility of a particular booth and they charged a minimal price such as 10 or 20 cents, I think the day would serve more of a purpose and be beneficial to everyone. The profits could then be donated to a local charity. This would surely give a better showing of the school rather than just a tired, greasy piglet and a lot of mad goats.

The greased pig contest was not exactly my idea of fun. Instead of having a poor 20 lb. piglet beating its head against the fence trying to get away, why don't you grease up a 60 or 70 lb. pig next time and then see how much fun

it is? The same thing holds true for the goats. I really don't see any purpose in bringing the goats and tying them to a tree all day. This is a hardship not only on the goats, but also on the people who are supposedly trying to care for them.

Well, so much for this year's Goat Day. Hopefully, next year's will generate more interest from the school and better activities for the day. This years was a dog!

REGENTS' TEST CHANGES

There are some changes in the policies concerning the Regents' Test coming up. First, for those who aren't familiar with the Regents' Test, it is an examination to assess the competency level in reading and writing of students enrolled in degree programs in University System institutions. It is required for graduation and is usually taken during the second year of study.

Students will be required to take the test after their 45th quarter hour instead of just being eligible for it. If, by the 75th quarter hour, it hasn't been passed, the student will be advised to concentrate more on remedial courses so that the Regents' Test will be passed.

The test must be passed by the time a student reaches his/her 105 hour. Students who haven't passed it by this time will be denied from further credit courses and be limited to taking only remedial review English, reading, and writing courses until they pass the Regents' Test.

These revised provisions came about at the Nov. 8, 1978 Board of Regents meeting. They will become effective July 1, 1979. The STI faculty committees are now developing new procedures to implement these policies. If anyone has any questions, contact Dean Stevens, Room 117 in the Administration Building or call 424-7238.

INTRODUCING CAREER OPPORTUNITIES FOR GRADUATING STUDENTS **\$12,000 to \$24,000**

Atlanta: December 15, 1978. You can meet — and interview with — 52 hiring companies, all with key engineering, business, sales, and management positions to offer in the Atlanta area and nation-wide.

These companies are coming to a central location in Atlanta for 24 hours only, to find and hire qualified students who plan to graduate this year, including those with degrees in engineering, business, the sciences, and more. And here is how you can meet them.

If you have ever wanted to know what key jobs are available to you as a graduate — then this is your chance.

It is called a Lendman College Conference, and by sending us your resume, you can register to attend and hear for yourself from 52 companies about every job they have to offer in your field.

You will be given the chance to arrange for your own interviews and to talk with as many of these companies as you want. You can even talk with the men and women you'd be working for about the jobs they offer

— and get valuable, first-hand information about the company, working environment, and your responsibilities for every job. There is no better way to fully evaluate and compare every important position you should know about in your field.

You can say goodbye to the aggravation of sending out resumes after resume, following up with letters and phone calls — all the time not even knowing if a job exists with the company you have contacted.

Instead, with Lendman's concentrated conference, you will learn about — and be able to interview for — every important job now available in your field. And immediate results are common (including invitations to visit companies and yes, EVEN JOB OFFERS!).

But please note: the majority of these openings cannot be found advertised in any other source. Most of these unlisted positions are filled through professional contacts like ours **only!** And this is your opportunity to take advantage of our unique relationship with these companies to learn about — and be offered — these positions.

IMPORTANT:

This College Conference is completely FREE, with NO OBLIGATION to you. The companies attending this conference pay the entire cost of the program just for the opportunity to meet and hire qualified students like yourself. You need pay only your personal expenses to attend the conference.

Don't miss out on this chance to get the job you have always wanted. Act now and mail your resume to the address below. In return, you will receive complete information about where this conference is going to be held, the conference schedule, hotel accommodations for out-of-town students, and what you can do to help make sure you get the job you want.

**Send five copies
of your resume' today, to:**

**Mr. Boyd Raines
Lendman Associates
1945 The Exchange
Suite 275
Dept. 1215
Atlanta, GA 30339**

Or call us at (404) 952-0822 Monday through Friday, 8:30 AM to 6:00 PM, for complete information on this important conference. **Act now.**

* Your resumes will be used to give you pre-conference exposure with the companies that are going to attend. Companies interested in talking with you as a result of seeing your resume, will notify you of their interest upon arrival at the conference, and will give you the opportunity to decide if you are interested in the positions they have to offer you.

ENTERTAINMENT

coming in January...

EDMONDS & CURLEY

Edmonds & Curley Enterprises

THE FAMOUS COMEDIANS
EDMONDS AND CURLEY
PRESENT...

The comedy team of EDMONDS & CURLEY, who have been seen many times on the Tonight Show, Mike Douglas, Merv Griffin, various PBS Specials and up coming appearances on Saturday Night Live will be appearing here.

In concerts, EDMONDS & CURLEY performed as the opening act for such stars as Melissa Manchester, B.B. King, John Denver, Harry Chapin, Billy Joel, David Bromberg Band, George Benson and many others.

On the college campus, EDMONDS & CURLEY during the past six years has become the number one comedy team in college appearances. Over 1,000 college performances in 46 states and Canada have kept EDMONDS & CURLEY in front of their favorite audience.

In night clubs, EDMONDS & CURLEY displayed their extraordinary versatility and appeal.

"(Joey) Edmonds & (Thom) Curley, originally from Oshkosh, Wis., draw constant jokes in their fast-paced Bottom Line debut. The duo, who've been performing together for about seven years, have usually appeared in colleges rather than cafes.

One of the top routines has Curley as pilot and Edmonds as copilot for a small airline. Another is daytime TV soap opera with commercials. This is followed by a good bit on commercials, including those suggested by auditors.

"Closer", about a first date, uses a youthful audience female as the gal, Edmonds as the guy and Curley as the guy's

friend and the driver of the car. Mouthed sound effects are appreciated tools that keep the set moving to the delight of the crowd. Edmonds & Curley is a funny act indeed."

-Kirb.

Curley and Brown will be appearing in the Southern Tech Student Center on January 4, 1979. They are just an example of what the Student Center has in store for you. They represent an extremely high quality entertainment value that all students and faculty are invited to come see.

Library Copy Machine Info

Effective immediately, use of the Library copying machines is restricted to students, faculty and staff of STI, Ga. Tech and Kennesaw College.

We regret having to place this restriction on the use of Library copying facilities. However, extensive off-campus use has many times made it impossible for Southern Tech users and those from colleges with which we have cooperative agreements, to have access to the machines.

Therefore, we have restricted use of the machines to give priority to those who should have it. We ask your cooperation in enforcing this policy. Thank you.

SPORTS

Hornets' Nest News

Nov. 17 marked the opening game for our Southern Tech Hornets. It was an exciting game until the very end. The Hornets left the court with a 68-65 loss to High Point who was ranked #10 in the Nation.

A very fine effort by Steve Jackson with 11 rebounds and 19 points kept the Hornets moving. Karl Kruer and Sinclair Keith were also valuable players in this game.

But the Hornets were not to lose their spirit as they came back Saturday night to beat Paine College 78-58. It was a close game at half time with STI trailing Paine 30-31. In the last half though, the Hornets showed Paine how the game should really be played and scored 47 more points. The Hornets were led in scoring by Steve Jackson and Mike Muller, both with 18 points. Bernard Wright pulled down a big 16 rebounds. Sinclair Keith was right behind him with 10 rebounds and 15 points.

And the Hornets kept on rolling! Monday night was a "see who can foul out first!" game against Daniel Payne of Alabama. But it was them fouling out, not us, as we sent them home with a 83-125 loss. Once again it was Mike Muller as high scorer with 18 points, but Tyrone Dean, a freshman, was not far behind him with 16 points and 10 rebounds.

Everyone, and I mean 15 players, played a fine game. Once they got started Coach Perides couldn't stop them. He played every player at least 9 minutes and the score kept rising. Steve Jackson scored 14 points with 10 rebounds. Sinclair Keith, Rodney Montgomery and Vincent Minor also played a very good game.

Steve Jackson, a 6-4 junior, is leading the Hornets in scoring this season with a 17.0 average. Sinclair Keith at 10.7 and Mike Muller at 14.0 are close behind him. Keith also leads in rebounding at 10.3 with Jackson following at 10.0.

CONGRATULATIONS TO THE SOUTHERN TECH BASKETBALL TEAM FOR WINNING THE COLUMBUS TURKEY TOURNAMENT!
GREG STEVENS WAS NAMED MOST VALUABLE PLAYER.

Billiards, Anyone?

By: Warren St. Clair

Congratulations to Rod Humphreys, Mark Rollins and Steve Medlin. They are the three top finishers in the Billiard Tournament held in the Recreation Room on Nov. 21 and continued on Nov. 27. There were many long and hotly contested games but it finally got down to the final three.

Trophies were provided by Pabst Brewing Co. The overall winner, Rod Humphreys will now go onto Ga. Tech to compete further toward the Pabst National Tournament. Good luck Rod!

POOL EXPERT!

By: Warren St. Clair

Nick Varner, a pool and trick shot artist, appeared at Southern Tech on Nov. 3. It was one of the few functions that was well attended. Those that got to see this exhibition seemed to enjoy it immensely.

Mr. Varner has been playing pool for the last twenty-five years, starting at the age of five.

When asked what contributed to his success, the answer was 1) an early start that included learning the fundamentals, 2) a lot of work and a real enjoyment of the game.

The longest run he has had without a miss was 208 balls. Most people who see him run a lot of balls think of him as a machine and that he'll never miss.

NICK VARNER
2-Times International Collegiate Champion

Which he didn't do much of that day. If anything he was consistent which amazed a lot of people.

Five or six hours a day for about two weeks before a professional tournament is the usual practice time he puts in. He is more relaxed when he isn't practicing for a tournament. He averages between eighty and a hundred exhibitions a year. He stated that about a hundred exhibitions are busy for about five months out of the year. When not playing pool he runs a billiard supply company, and has tournaments and leagues of his own.

His appearance was well received and appreciated by all. He serves well as an ambassador of the game. It is hoped that he will make a return appearance soon.
