THE WORLD FAMOUS BATHTUB RACE

Bathtub racing is a fine old tradition here at Southern Tech. It all started 19 years ago when two fraternities, using tubs mounted on wheels as a means of carrying beer, spontaneously began a race. Other clubs and fraternities soon picked up on the idea and bathtub racing as an organized sport was born. The original tubs were pieced-together racers with little more than ropes to guide them and powered by the energy of unfortunate pledges. The track consisted of a series of man-made obstacles such as opened fire hydrants, mud puddles, and water balloons. Despite its crude beginnings, the idea took hold and grew. It has evolved into a major racing attraction that draws national attention.

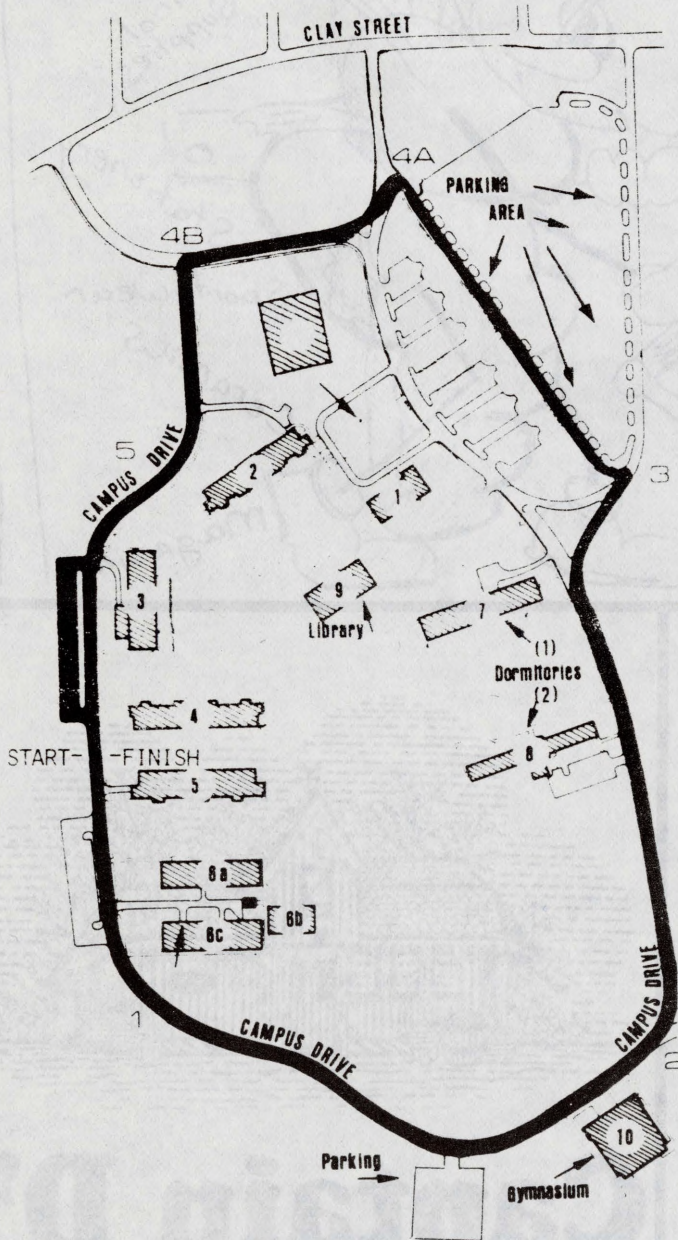

The formula for a bathtub racer is simple: take any cast iron, rolled rim bathtub four feet in length, acid-dip or grind it to the minimum 140 pounds, mount it on a lightweight frame, attach a 175 cc motorcycle engine, devise a steering system, install dependable brakes, and mount the whole thing on low profile Go-Kart racing slicks and you're in business.

SOUTHERN TECH BATHTUB RACEWAY
1.1 MILE TRACK

The current track record is held by Edward Jordan with Bathtub #15. Edward smashed his own record by one full second with a lap time of 62.7 seconds. The tubs have been clocked by radar and are believed to attain speeds in excess of 90 MPH.

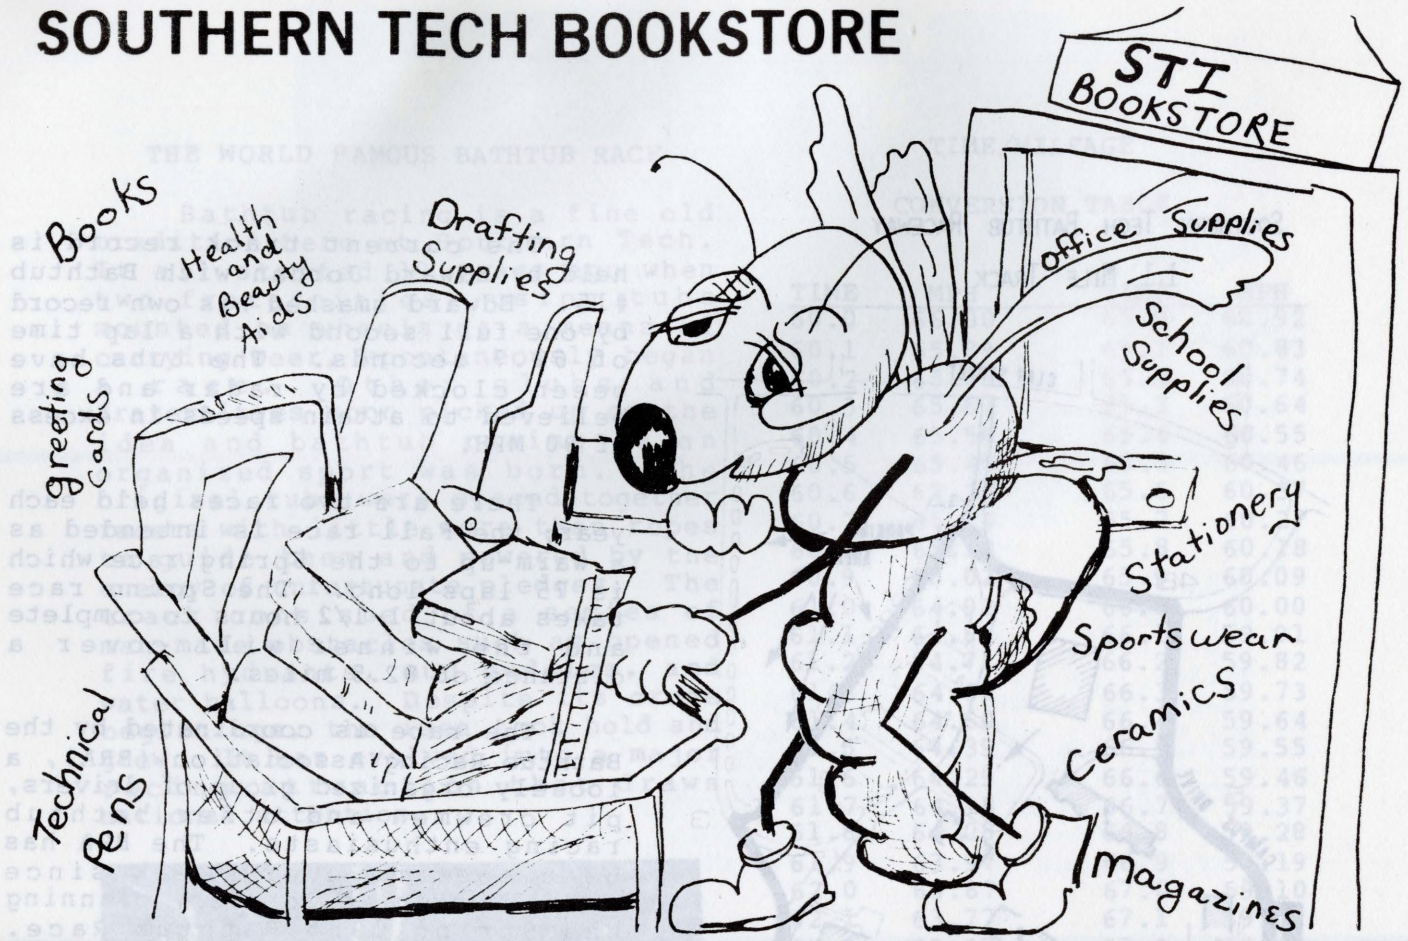

There are two races held each year; the Fall race is intended as a warm-up to the Spring race which is 75 laps long. The Spring race takes about 1-1/2 hours to complete and the winner will cover a distance of 82.5 miles.

The race is coordinated by the Bathtub Racing Association (BRA), a loosely organized group of drivers, pit crewmen and other bathtub racing enthusiasts. The BRA has been meeting every week since school began in October, planning the Spring 1985 Bathtub Race. Besides building their racing machines and finding sponsors to finance them, the BRA must handle every aspect of the race: safety communications and flags, track marshalls, tire throws, etc..

The BRA would appreciate if you would cooperate by staying behind the yellow safety ropes and by crossing the track only at the bridges. Traffic during race weekend is requested to travel in race direction only until after the race on Sunday.

The BRA gives special thanks to all Bathtub Race sponsors, for their generous support of the Bathtub Race.

IN TODAY'S ARMY, THERE'S UP TO \$25,200 FOR YOU IN COLLEGE MONEY.

It's like getting a scholarship for being a good, smart soldier and serving your country well. Here's how it works:

*You contribute \$100 a month from your first full 12 monthly Army paychecks. It's not difficult. Your food, lodging and medical are all paid for.

\$ 1,200

You.

*The New GI Bill contributes \$9600 for a 3- or 4-year enlistment.

9,600

New GI Bill contributions.

*Then the New Army College Fund contributes \$14,400 for a 4-year enlistment.

14,400

New Army College Fund.

*Effective July 1, 1985.

\$25,200

Yours for College.

Of course, there are qualifications you must meet, tests to be passed, but if you intend to go to college someday, the best possible route could be the Army. You'll gain knowledge, experience and a sense of self-worth that will be with you the rest of your life.

To find out more about this new way to get to college, see your local Army Recruiter today.
