

MONTAGE
1969

MONTAGE '69

Dedication
of the 1969 Montage

The 1969 edition of the Montage is dedicated with respect, gratitude, and love to Mrs. Mary H. Swain, an instructor of English in the Division of Humanities of Kennesaw Junior College.

Mrs. Swain has dedicated her entire adult life — over twenty-five years — to teaching, to academic administration, and to educational work. She holds a Bachelor of Arts degree from the University of Georgia and a Master of Arts degree from Oglethorpe University. Mrs. Swain has two daughters: Miss Ryland Swain, who is employed by the federal government, and Mrs. Eleanor All, a teacher at Marietta High School. Her husband, a business man, is Mr. Frederick G. Swain. They live in Marietta, Georgia.

Mrs. Swain is interested in students, in their problems, in their achievements, and in their aspirations. She was the principal of Marietta High School for ten years; she also served as a Guidance Counselor, and was Curriculum Advisor of the Marietta School System. She has served in numerous positions of responsibility and leadership in Marietta, and in Cobb County; she has always served with honor and with distinction.

She has met and solved every challenge that has come into her life. Whether that challenge was the problem of a student, a school, a school system, a classroom, or her own life: she does not accept defeat. She is a living example of her own Christian faith. Her life is filled with courage, faith, determination, a strong will, charity for others, understanding and the pursuit of excellence.

Her life has been dedicated to young people — to teaching them the heritage of our nation — our literary, cultural, and artistic accomplishments — and the heritage found in all great writings of world literature. She has helped students to know themselves. She has travelled in Mexico, Ireland, Scotland, USA, and in England to enrich her own intellectual and emotional life.

Mrs. Swain has constantly sought the best in our past to transmit to the future. She is always ready to seek a newer world, to meet every challenge, but not to yield.

Come, my friends,
Tis not too late to seek a newer world . . .
To sail beyond the sunset . . .
Of all the western stars, until I die . . .
To strive, to seek, to find, and not to yield.

Ulysses, Tennyson

Presentation

The 1969 Montage is a record of the activities, events, social occasions, class-work, and life of the students at Kennesaw Junior College. It is a record of your academic life.

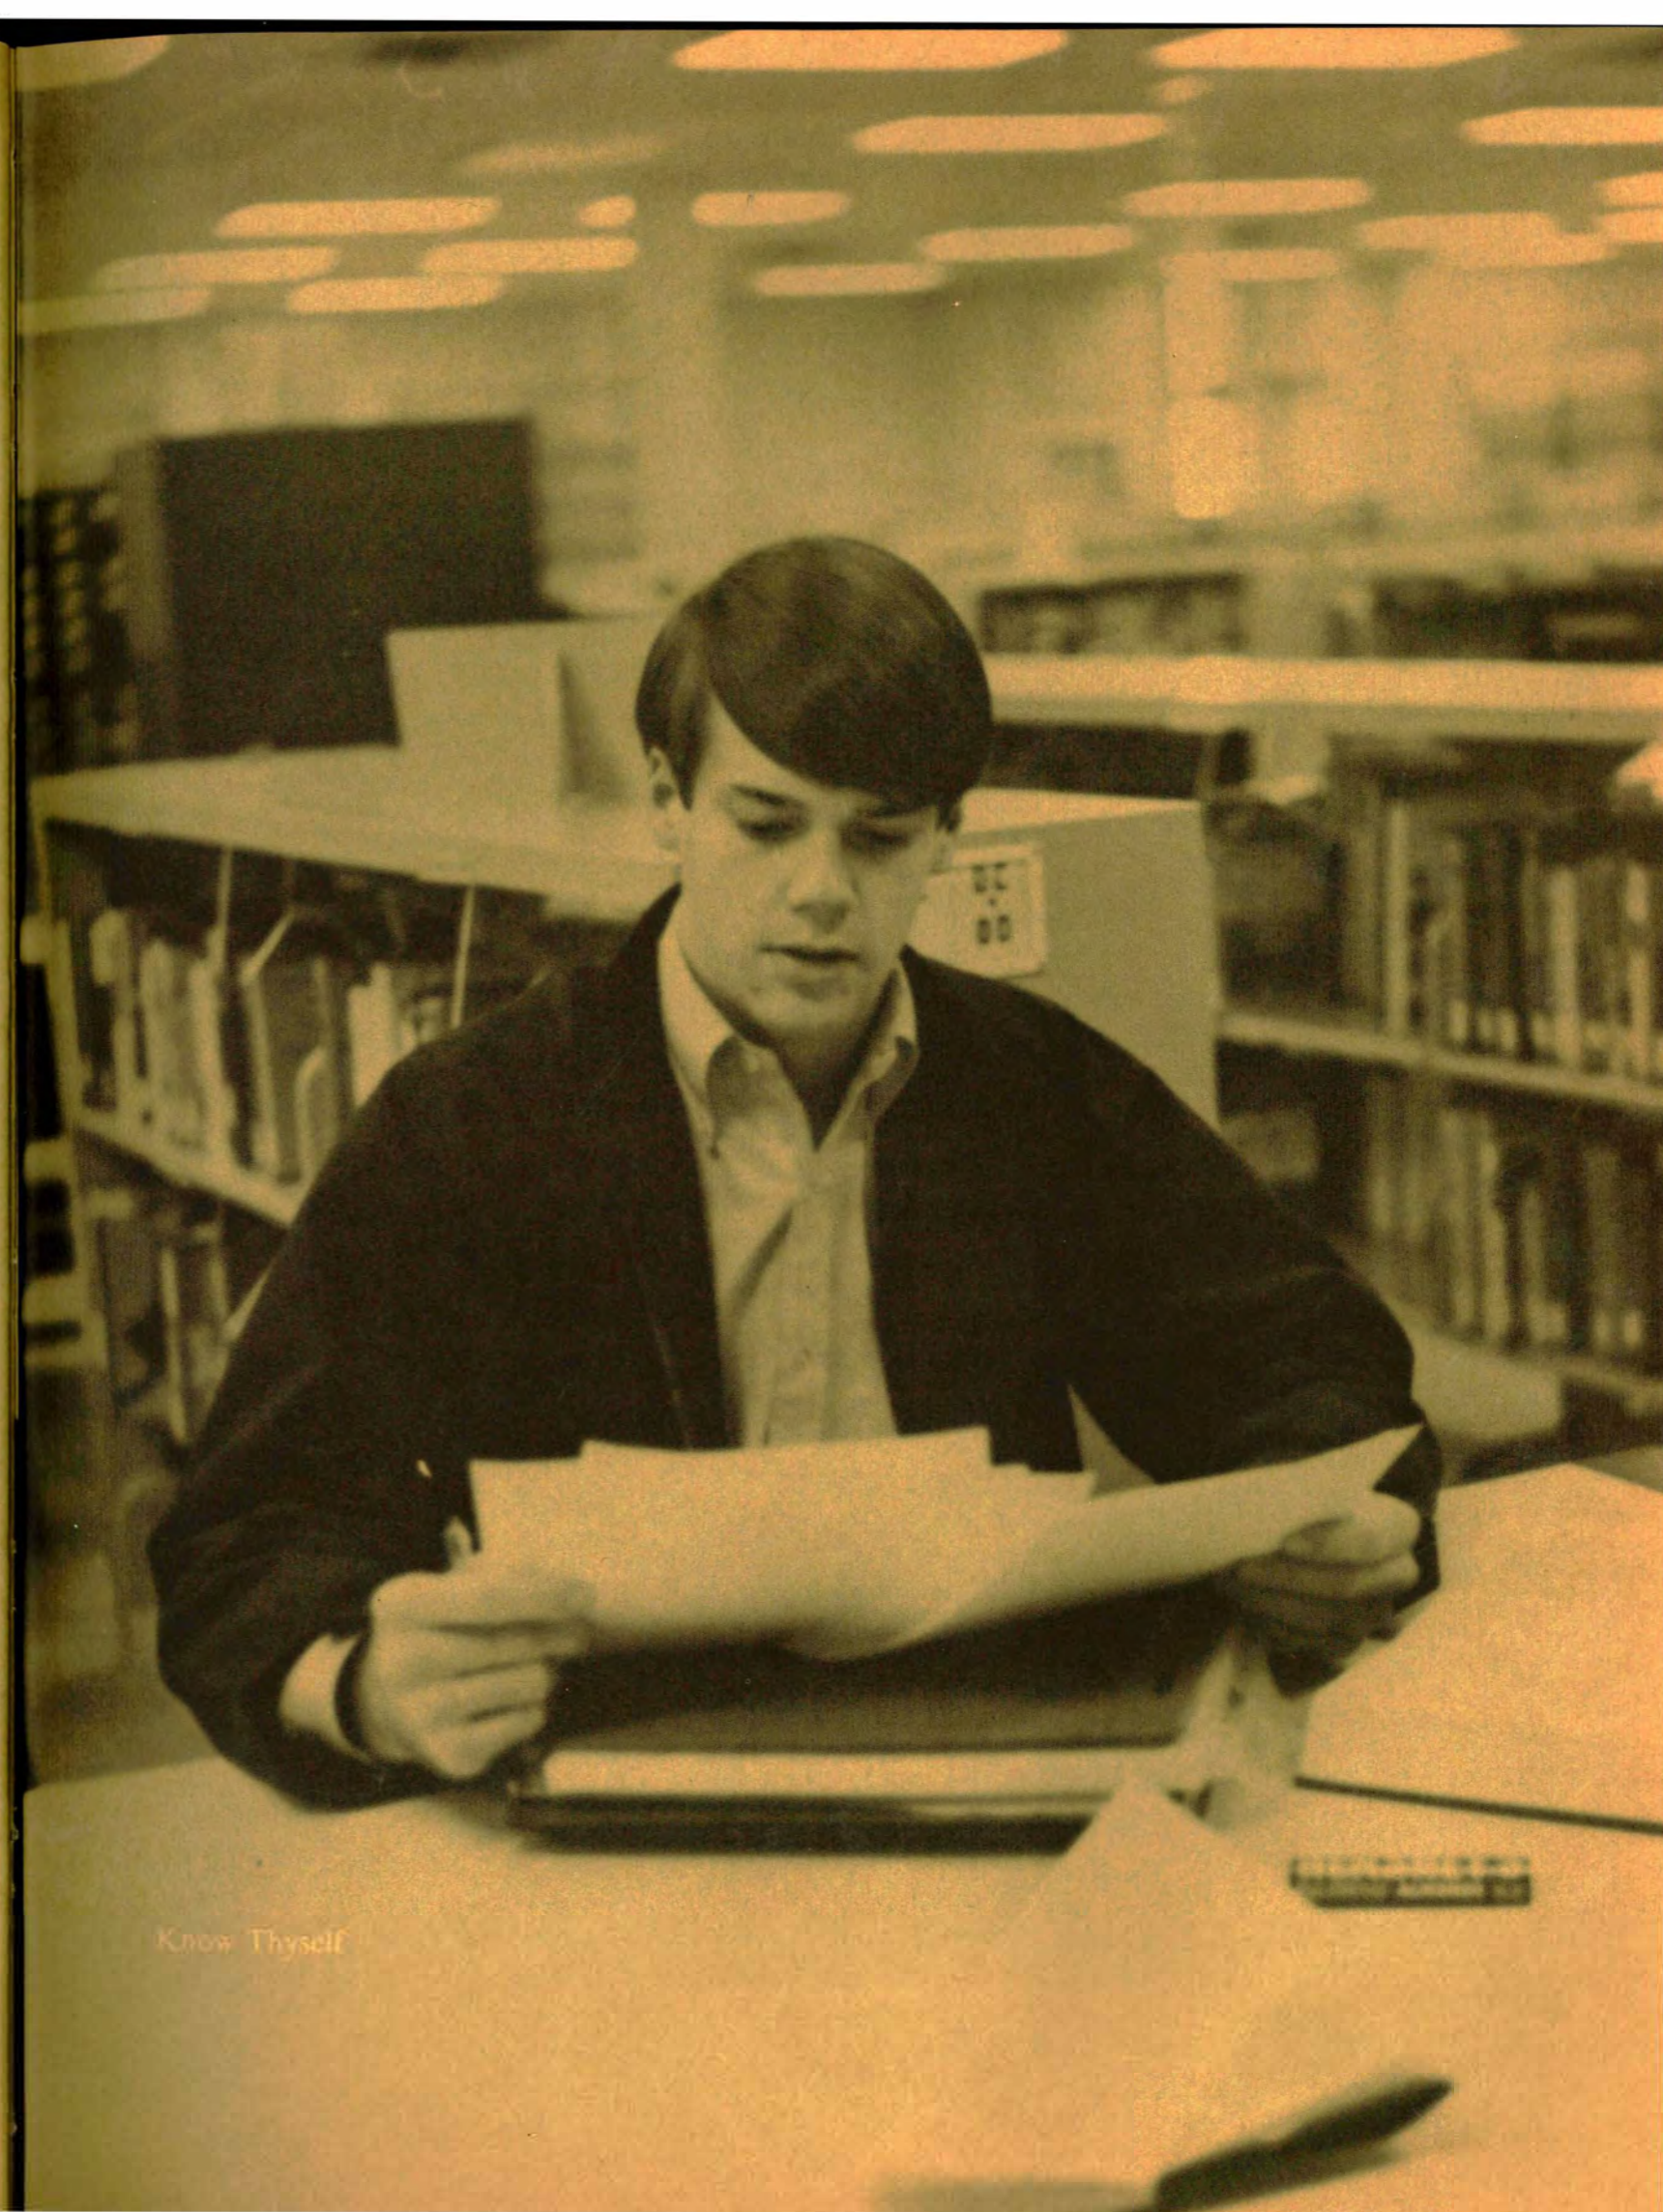

To the students – the staff of the Montage – we present this yearbook with admiration for what you have done, with respect for your accomplishments, with admiration for your achievements, and with hope for the future; hope that your future will continue to reflect an inquiring mind, an energetic spirit, moral responsibility, and the pursuit of knowledge.

May thou always proceed well
in the path which thou hast
commenced so well to tread.

Ovid

To the students at KJC, we also say: the real purpose of education is to achieve maturity. Not just physical maturity, but intellectual maturity, emotional maturity and above all moral and spiritual maturity. Education comes through experience and experience brings forth education: self-discovery is education. Through self-discovery comes maturity. We challenge you to study yourself. Knowing one's self is education: we should dedicate our lives to that end.

Know thyself
Socrates

Kennesaw Junior College
Marietta, Georgia

Kennesaw Junior College was approved by the Board of Regents of the University System of Georgia on October 9, 1963. The physical-plant, the actual campus buildings, was constructed in 1965-1966. The college was open to students in September 1966. The college has 152 acres of land located eight miles north of Marietta.

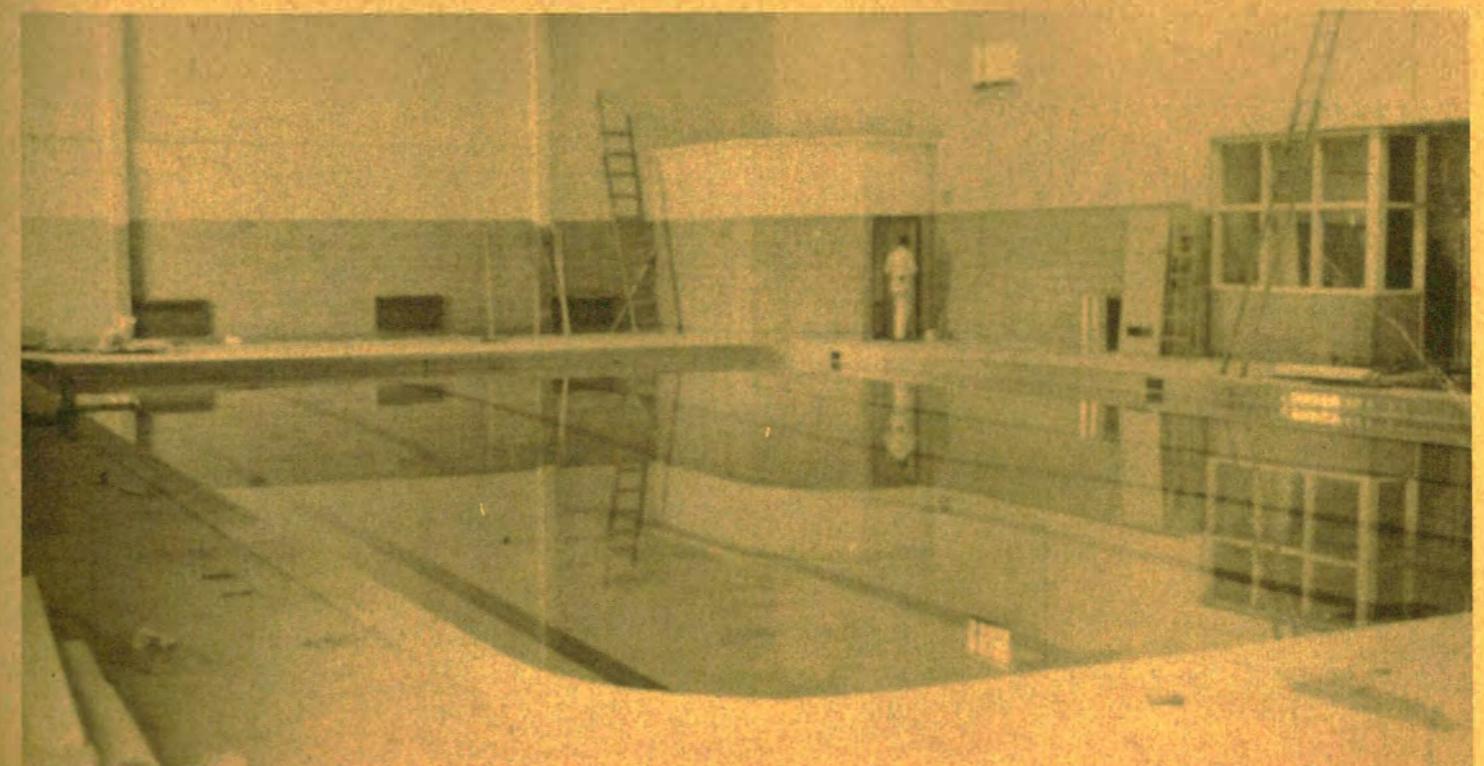

The college was established to provide students with the first two years of their academic program so that they could transfer to senior institutions and complete their requirements. Programs of adult education and community services are also offered in courses of continuing education.

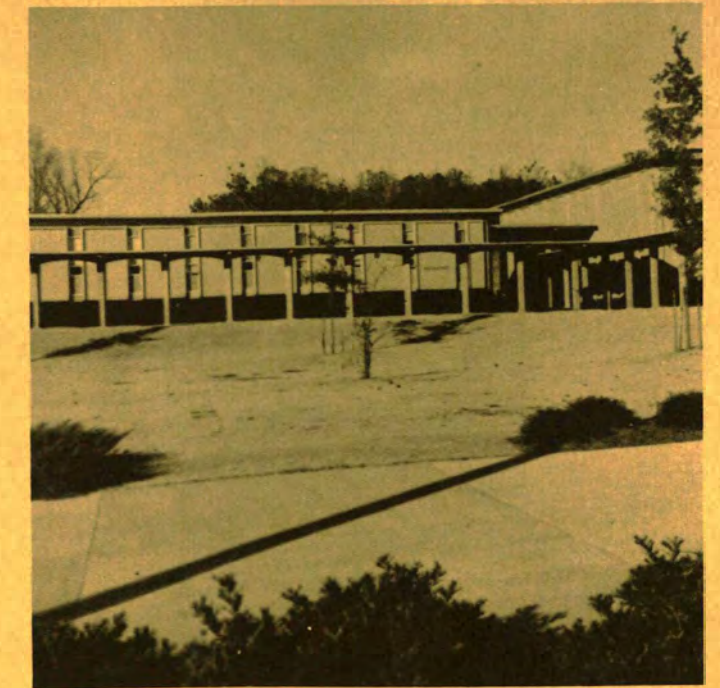

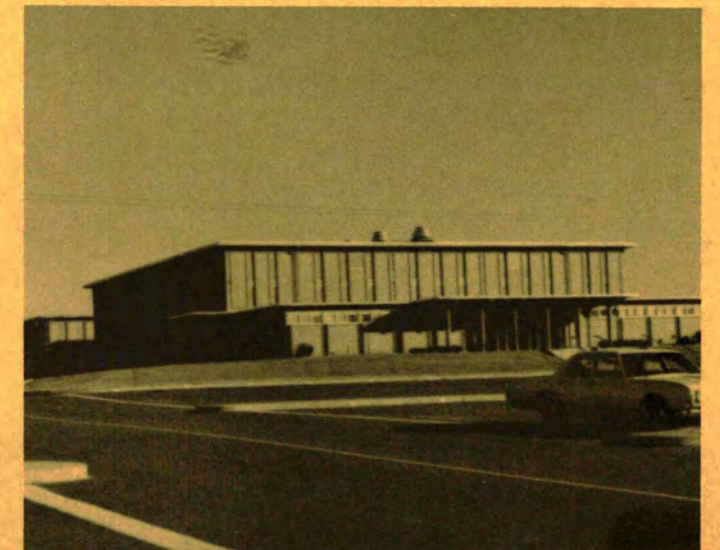

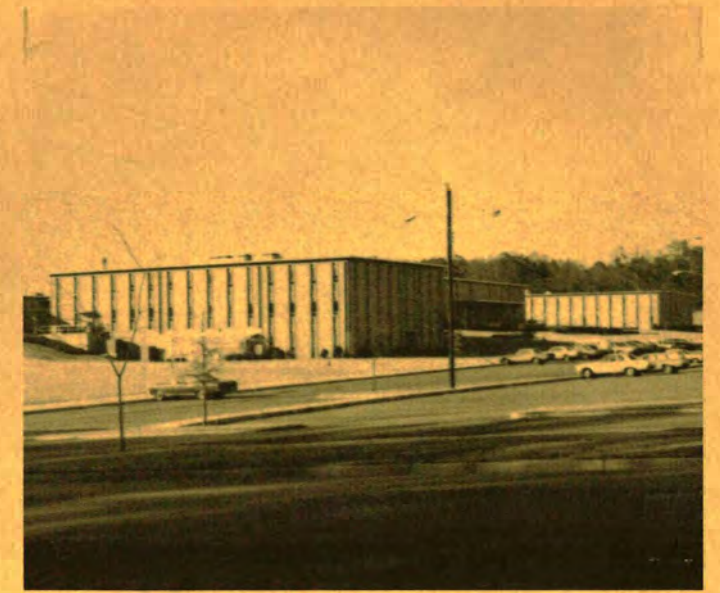

Kennesaw Junior College is divided into three divisions and one department. They are the Division of Humanities, the Division of Natural Science and Mathematics, and the Division of Social Science. The Department of Physical Education makes the fourth division of the college.

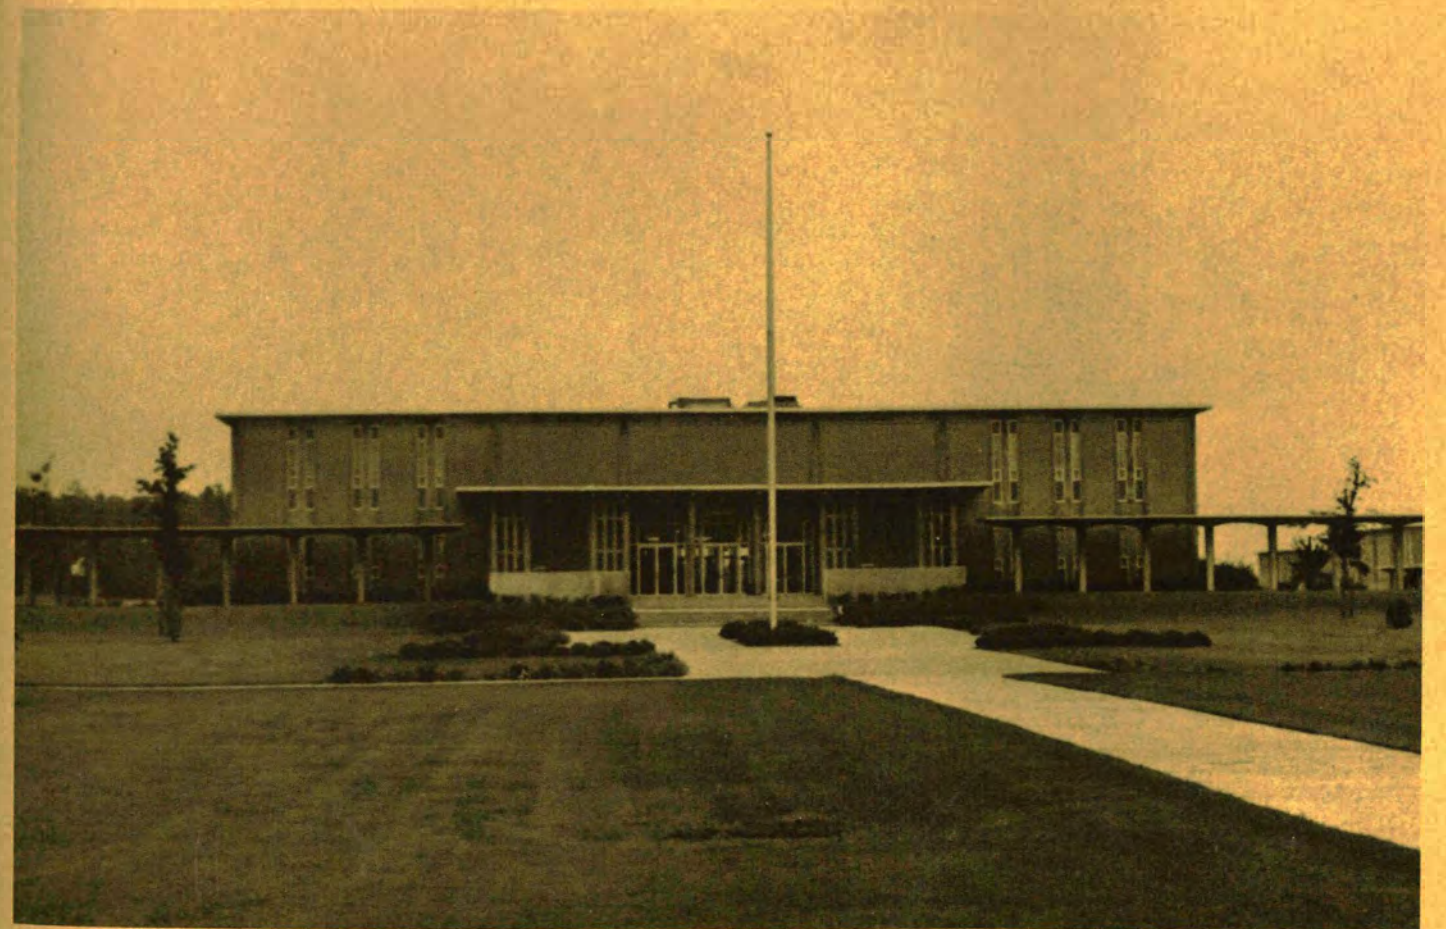

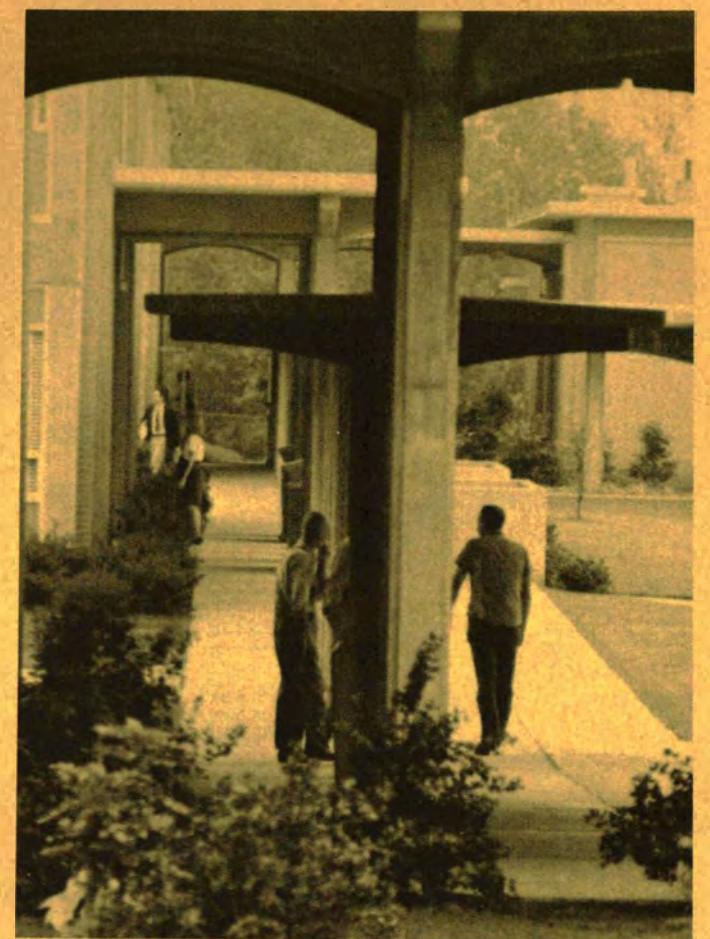

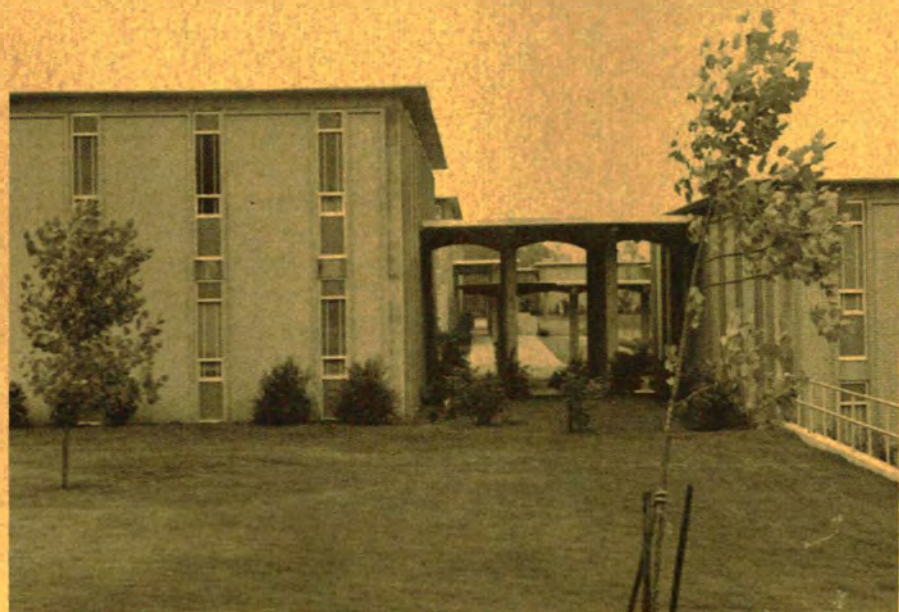

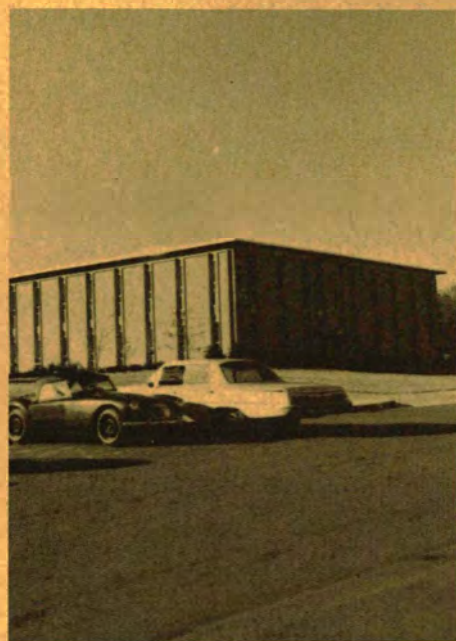

Kennesaw Junior College is meeting the academic, cultural, and educational needs of people — young and old — in Cobb County and in the greater Cobb County area. As a fully accredited institution in the Southern Association of Colleges and Secondary Schools, it is training young people for tomorrow; it is giving to them the knowledge they need in order to be and to become better citizens of the world.

The foundation of every state
is the education of its youth

Diogenes

Dear Student:

As you review this edition of THE MONTAGE in the years to come, I hope its pages will provide pleasant memories of the days you spent at Kennesaw Junior College.

It has been a privilege to share experiences with you, and I hope our college has made a significant contribution to your life.

The faculty and staff of the college join me in extending our best wishes for your happiness and success.

Sincerely yours,

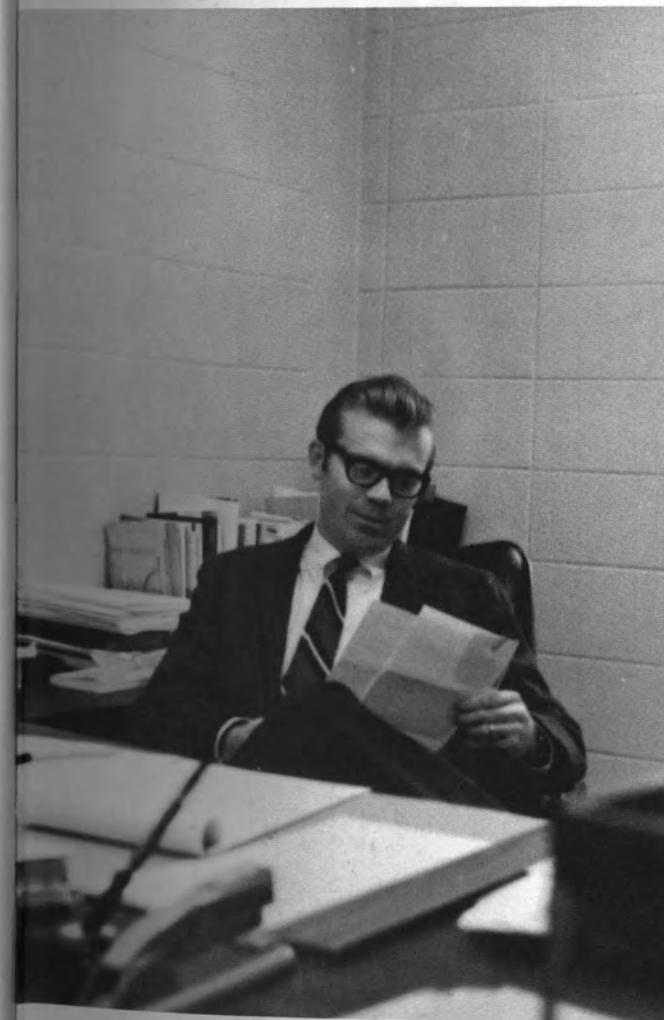

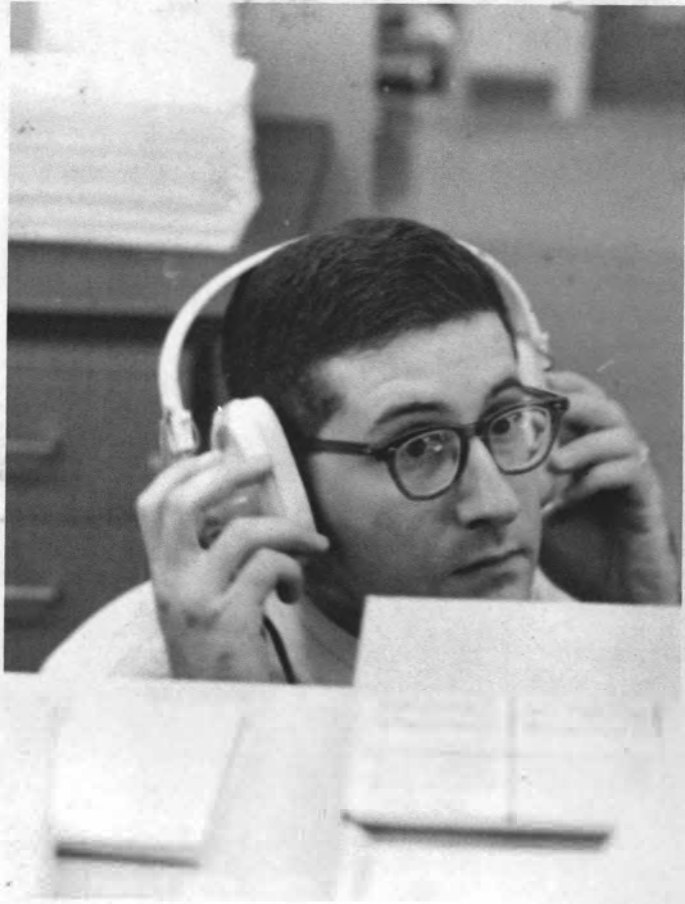

Horace W. Sturgis

Division of Humanities

The Division of Humanities seeks to help students know themselves through a study of art, languages, and the great works of literature. By a study of human experience — that found in great writings — we know ourselves better; our lives become richer, fuller, and our response to the needs of others more meaningful. Students who examine human actions, thought, emotions, and reflect upon earlier generations of man's development are better human beings; they know the working principles of life, they understand the process of thought, they can respond to beauty, to emotion, to life, and to love. They know themselves.

Know then thyself, presume not God to scan;
The proper study of mankind is man.

Essay on Man. Pope

Division of Natural Science

The Division of Natural Science and Mathematics attempts to explain to us the physical and mathematical structure of the universe. By understanding the physical world in which we live — and all of its complex relationship — we are better able to know ourselves. There is harmony in the universe, a pattern in the creation of galaxies, an unseen creator in the heavens by knowing, appreciating, and studying all natural phenomena man understands himself.

To see a World in a Grain of Sand
And a Heaven in a Wild Flower is to
Hold Infinity in the palm of your hand
And Eternity in an hour.

Innocence, Blake

Division of Social Science

The Division of Social Science explains to us the social environment in which we live; it attempts to tell through a study of the human experience what we have done through a knowledge of history, sociology, psychology, and economics. By knowing our past and present, we should attempt to know ourselves so that we can live our lives tomorrow triumphantly.

For mercy has a human heart,
Pity a human face,
And love, the human form divine;
And Peace, the human dress.

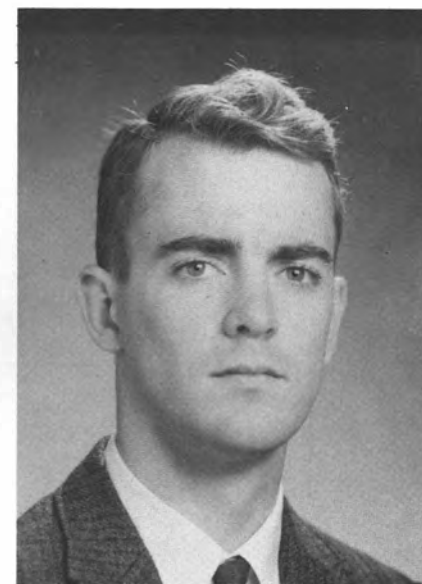

The Divine Image, Blake

Physical Education

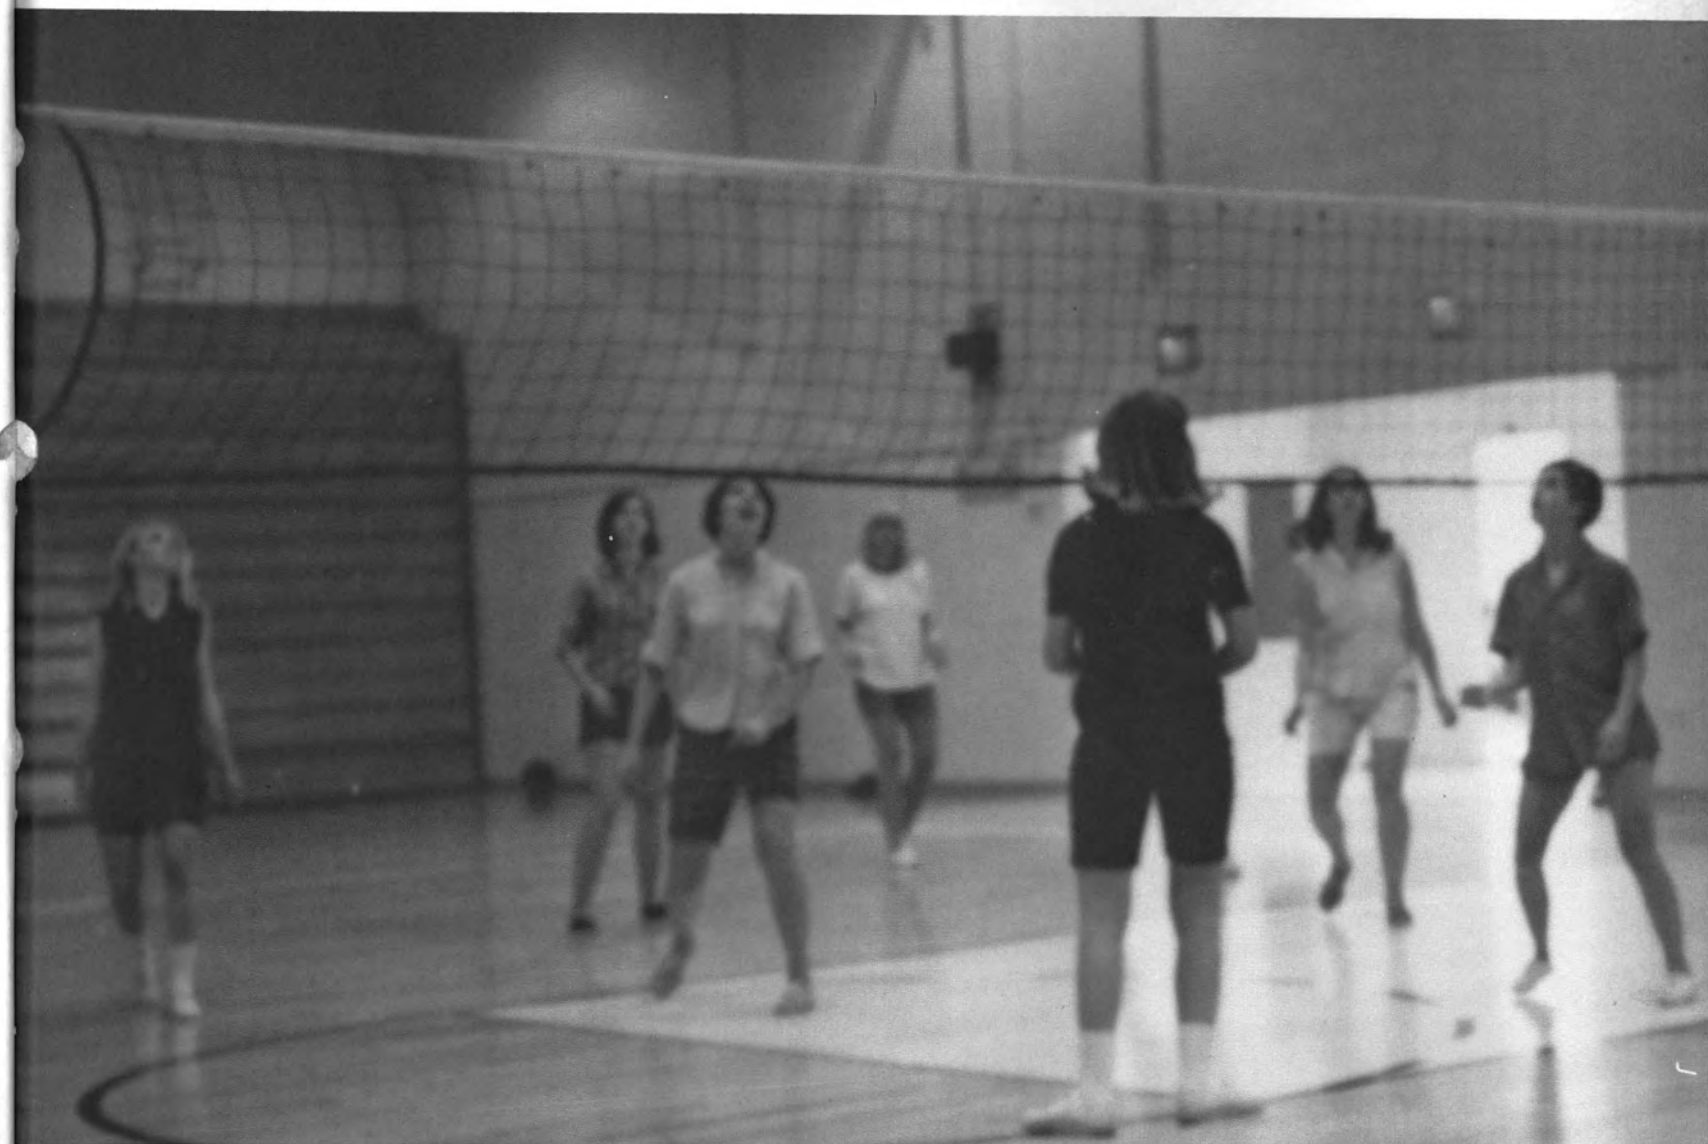

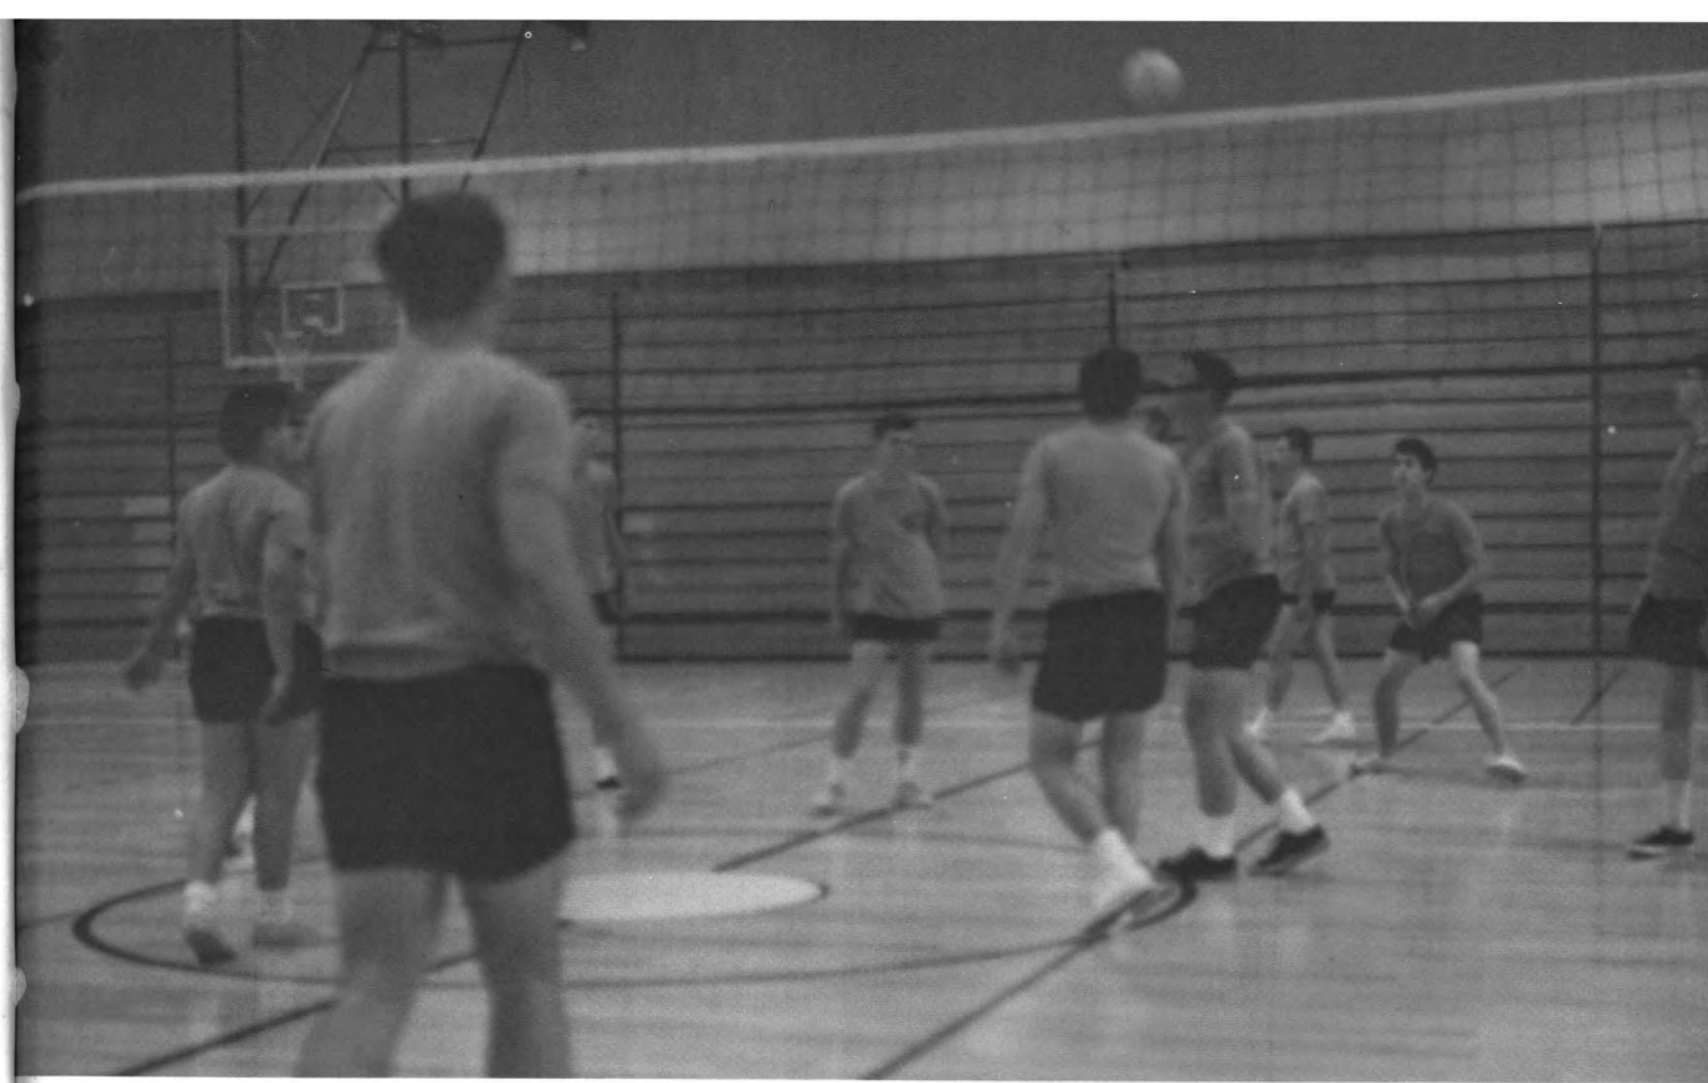

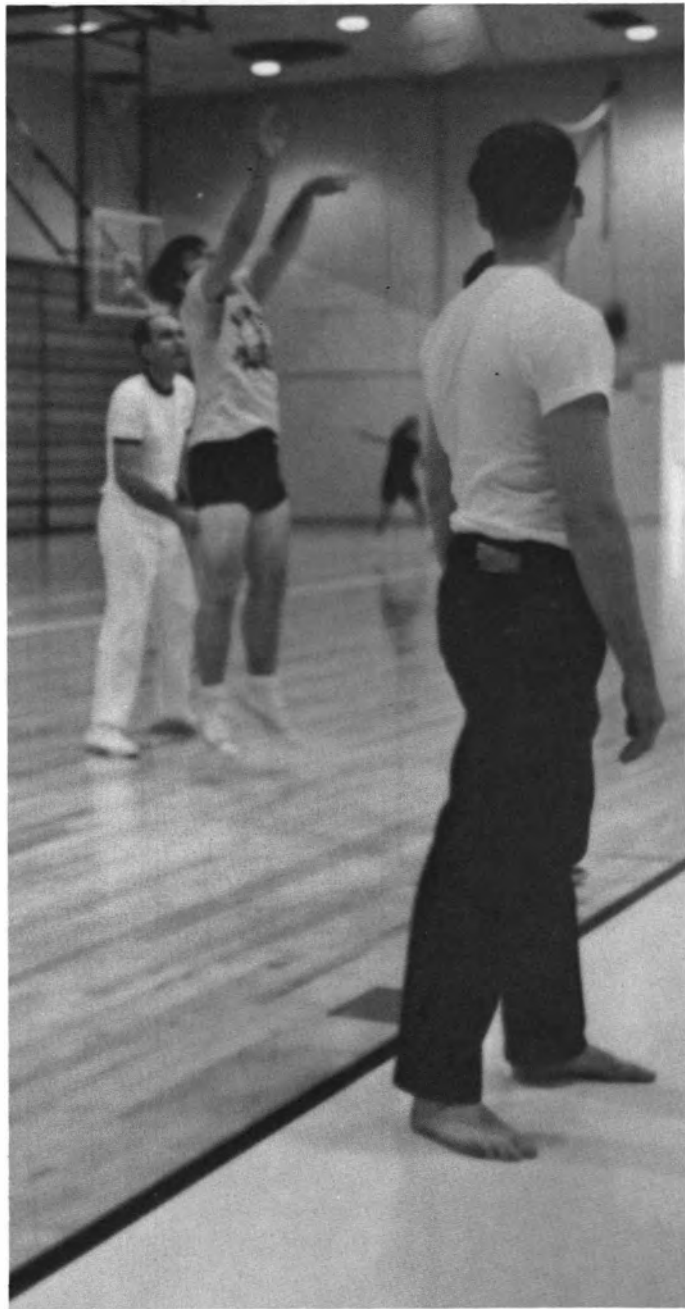

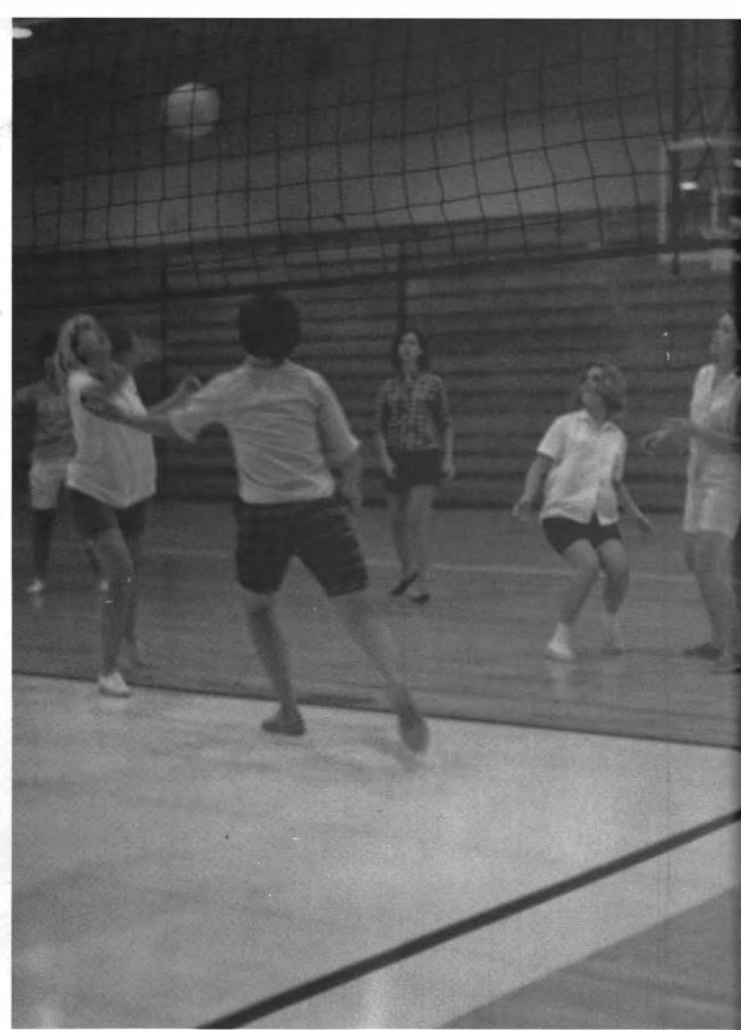

The Department of Physical Education

The Department of Physical Education is to discipline our bodies so that we may better understand their limits and abilities. By knowing the wonders, potentials, possibilities, and achievements of our bodies, we are better able to know how they should be trained and cared for — disciplined throughout life. The human body should be respected, cared for, honored, and trained. By understanding our body, how it operates and how it functions, we know more about ourself. The human body is a reflection of truth and beauty.

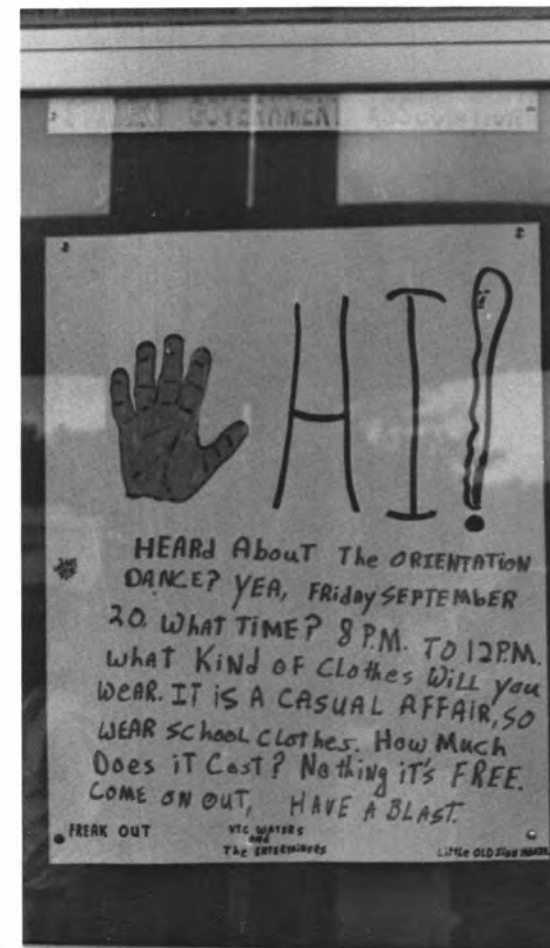

Beauty is truth, truth beauty — that
is all
Ye know on earth, and all ye
need to know.

Ode on a Grecian Urn, Keats

Why can't I be Editor?

Sports Car Club

Yes, we'll have to operate!

Collegiate Civitan Club

The purpose of the Collegiate Civitan Club is to emphasize the advantage of the American way of life, to promote good fellowship and high scholarship, to serve on the campus and in the community, to provide an opportunity for leadership training through service, and to encourage the daily living of Golden Rule in all human relationships.

Members listen intently to speaker

Mu Alpha Theta

Mu Alpha Theta, which is sponsored by the Mathematics Association of America, is a nonsecret organization whose purpose is the promotion of scholarship in and enjoyment and understanding of mathematics among high school and junior college students.

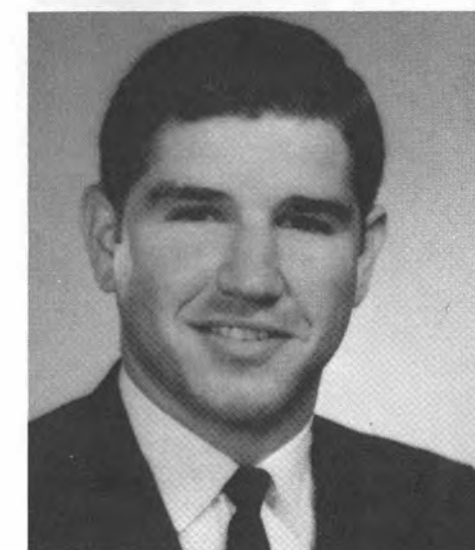

Mr. Sparks speaks at the initiation of members and officers.

Circle K

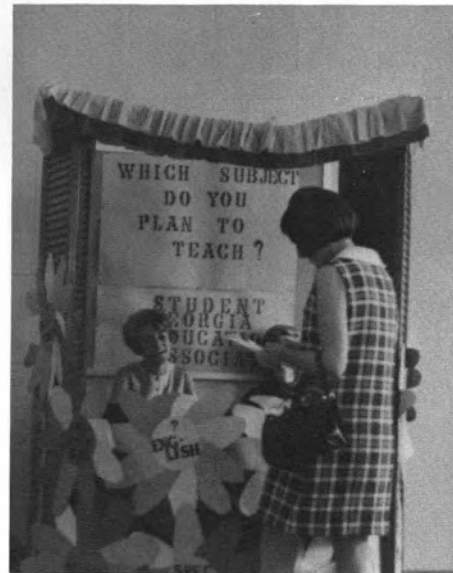

Circle K
The Circle K is a service club for college men. It provides the members with an opportunity to participate in many activities for the betterment of humanity and campus-community relationship. It affords the opportunity for self-expression, leadership, fellowship, citizenship, and the application of higher social, business, and professional standards.

Richard Wheeler -- President

As a preprofessional organization, the Student Education Association provides opportunities for students preparing to teach or who are interested in education to develop an understanding of and appreciation for the teaching organization. It also strives to stimulate the highest ideals of professional ethics, attitudes, and growth.

OFFICERS

Student Education Association

Baptist Student Union

The Baptist Student Union is a denominational religious organization established for the purpose of leading students in the development of leadership abilities, spiritual and social growth, missions and ethical involvement in the life and work of their community and in church loyalty.

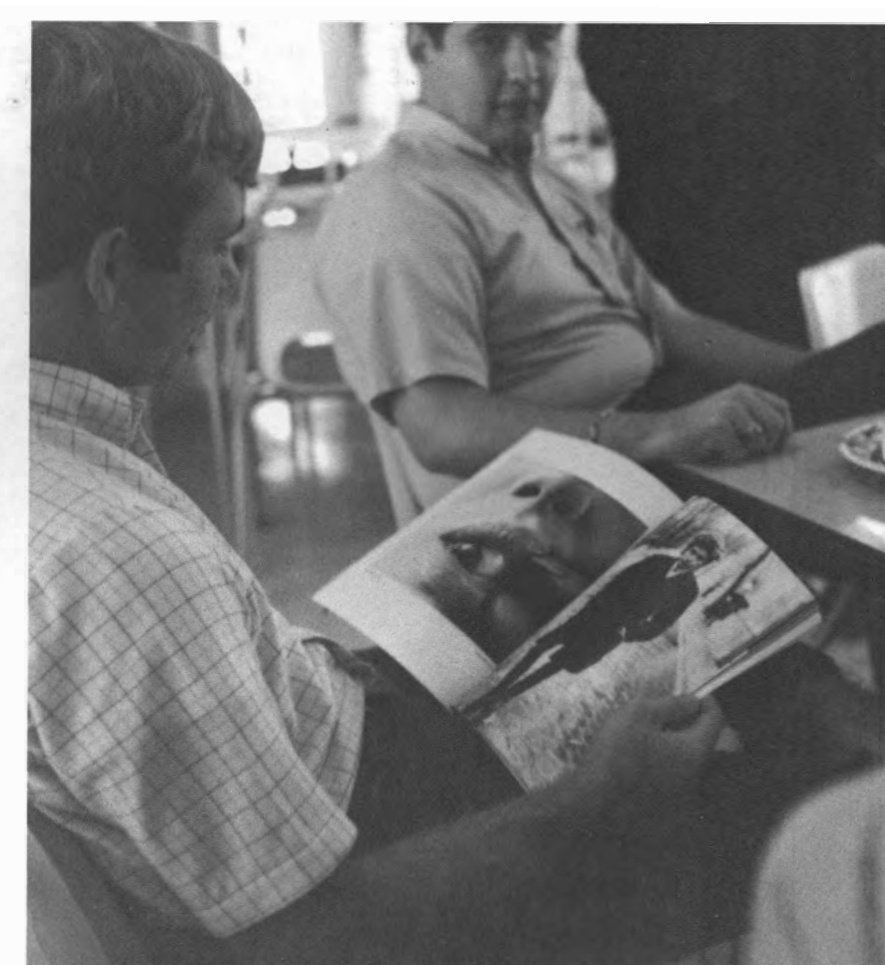

Student Activities Committee

The Student Activities committee co-ordinates the overall program of student activities including clubs, organizations, publications, cultural activities, the Student Government Association and all other Student organizations. The Committee also advises the Student Government Association the distribution of the student activity fees.

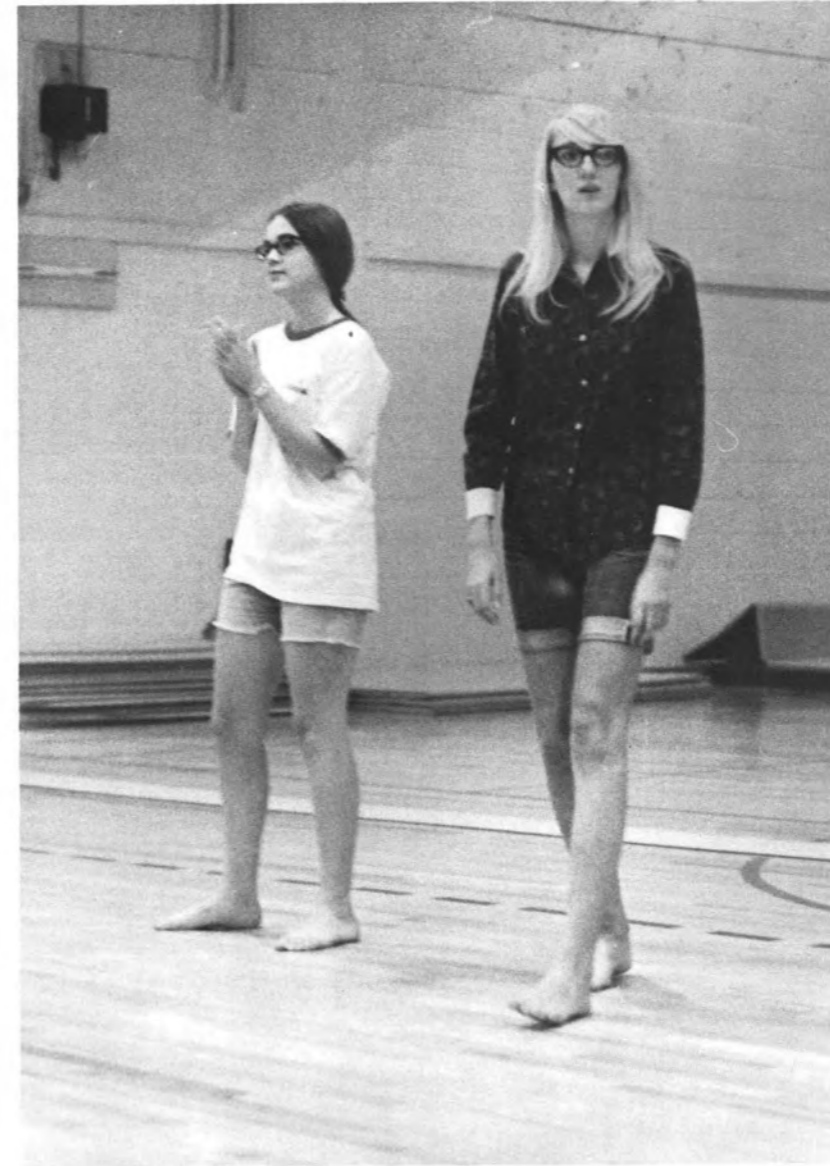

The Publications Board has the responsibility of instituting policies in regard to student publications and in controlling the operational procedures of the publications. The yearbook and the newspaper are the only two publications involved.

Three quarters have passed and the Montage is out. As editor of this year's Montage, I can only say "THANK YOU".

Special thanks should be directed to my staff and to Dr. Jere Roberson. Also, I am grateful to Mr. Ralph Whaley from the American Yearbook Company for the help he has given to me; to Dr. John C. Greider, Dr. Carol Martin, and to Mrs. Sandra Cargile I also owe a note of thanks for the help, encouragement, and assistance they have given to me and to the staff of the Montage during the production of this book.

I sincerely hope you enjoy this edition of the MONTAGE.

David Acuff
Editor, 1969 *Montage*
