STUDENT GOV'T.

From the President:

SGA is designed to protect the student's rights, assure proper allocation of money from Student Activities Fees, and represent the opinion of STI students on all matters concerning any facet of campus life which may even remotely affect our students. In order to improve communication between students and the SGA and increase the amount of direct student input into SGA matters, we have installed a suggestion box outside the main office of the Student Center, opened the SGA meetings to all students (Tuesday, 5:15 pm, room 119, Student Center, downstairs), and conducted a fairly lengthy student questionnaire concerning entertainment. We welcome any students to attend our meetings, participate in debate and discussion, or introduce new items of business to us. We would also like to appoint non-SGA students to be representatives on any committees that interest them. Just come by one of the offices (upstairs in the Student Center) and inquire as to which committees are presently active and what problems they are addressing themselves to. Get involved! In order for the Student Government to maintain a high level of accomplishment and achieve its maximum output, there must be input from the students. We must know the topics of problems that are most important to the majority of students and this cannot be done if we do not hear from you the student.

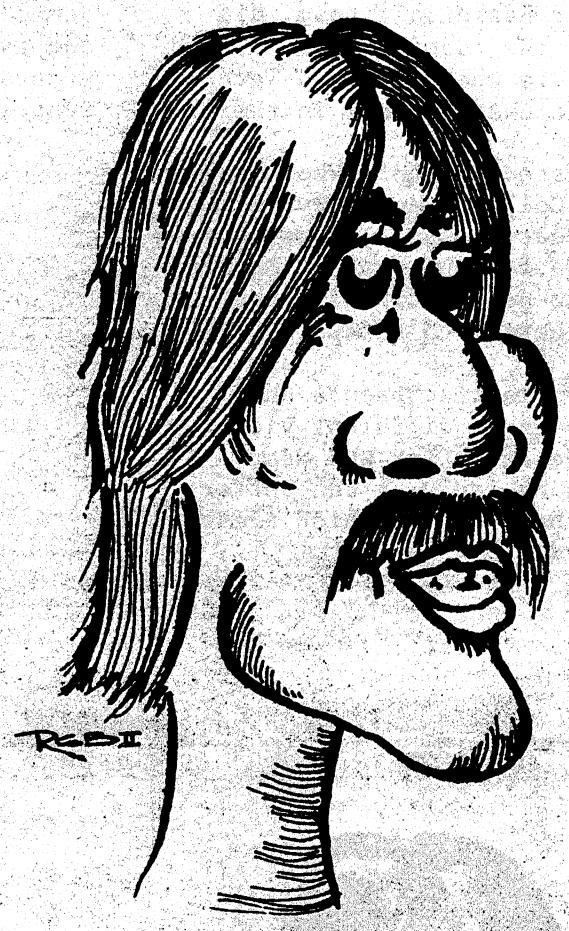
Off the Top of My Head

1. The first big blow-out of the year will be Oct. 27 at THE ROCK. For those of you who have attended this festival in the past, little needs to be said of it except that much more is being added to make this event even more spectacular. For those of you unfamiliar with this activity, suffice it to say that it will be a day of fun, not soon forgotten. A slight possibility remains that a keg or two may even be tapped off (unofficial inside tip). Don't miss it!

2. There are still open SGA positions:
   - Fire Science Representative
   - Apparel/Textile Representative
   - Mechanical Representative
   - Fall/Spring Co-op Representative
   - Representative At Large

   Petitions are now being accepted for these positions. Petitions are available on the door of any SGA office (there are three in the Student Center). Fill one of these petitions out and slide it under one of the doors or give it to a SGA member.
   The qualifications are:
   a) Must be enrolled the two (2) quarters prior to taking office (excluding summer).
   b) Must have and maintain a 2.0 Grade Point Average at Southern Tech.
   c) Must have 36 quarter hours at Southern Tech prior to taking office. This is a chance for you to become directly involved in Student Government.

3. Parking--As of next SGA meeting (Tuesday, Oct. 2) there will be an SGA ad hoc committee formed to study parking on campus and to propose reasonable changes or additions. We do not have the money to go out and build a parking lot at present. However, there is enought parking for every car to be legally parked at any time during the day even thought it is not always the most convenient for everyone. We



can only promise to attempt to come up with a viable solution to the problem as soon as possible.

4. Intramurals--This is an organization which probably boasts the largest participation of any on campus. Intramural Sports which will begin next week are football and bowling. It is still possible to get on one of these teams or to enter an entire team in one of these leagues. The intramural program has grown admirable in years past to accomodate students' needs and wants in lieu of a Physical Education Program.

5. Student Athletic Fee--A proposal will soon be made concerning the increase in the athletic fee from $5 to $8. I personally feel the increase is justified because:
   a) Cost of travel for athletic teams has increased drastically in the past nine (9) months due to rising gas prices.
   b) Inflation has increased the cost of athletic equipment.
   c) Tuition has increased, therefore scholarships must also increase.
   d) Recruiting expenses (travel) increased.
   e) Our present budget and fee is small in comparison to the NAIA teams which STI has dominated for the past two (2) years.
   f) In order to maintain this supremacy we must constantly improve our present program. This brings to mind the runner who is afraid to stop and turn around to see how he is farring because something might be catching up with him.
   g) Our sudden turn around reversal years ago of our athletic program has helped STI's overall image, taken our school's name to places where it might

(Continued on page 4)

INTRODUCING STUDENT GOV'T. MEMBERS

Michael L. Renfroe, SGA President

Mike, who graduated from McArthur High School in Hollywood, Florida, is now a senior EET major here at STI. In high school Mike was a four year member of the Basketball team and the Baseball team. He was a Representative for the Student Government in high school for his Junior and Senior years. He was also a member in the Key Club, the Interact Club, and the HI-Y Club.

Mike is a transfer student from Dekalb Junior College where he played on the Basketball team for two years. Upon his arrival at STI he joined our Basketball team. His last year on the team, 1977-78 school year, is when Southern Tech first won the championship in their division.

Mike is listed in Who's Who Among Students in Colleges and Universities. Last year he was a Representative At Large for our student Government. He also helped organize and play in Southern Tech's first Golf team.

Mike enjoys meeting people and listening to their different views. Living in the dorms for the past three years, he feels he can better understand the problems which arise on campus and in the dorms.

James Cochran, SGA Vice-President

James, a graduate of Cartersville High School, Cartersville, Georgia, is a Senior MET student here at STI. Mike is a very good guitar player and enjoys other hobbies such as Snow and Water Skiing, Golf, and cross country running. Mike has an associates degree in Mechanical Engineering from Floyd Jr. College. At Southern Tech he is involved in the IFC, SGA, and he is Chapter Chaplan for TKE.

His personal goals are to improve communications between the Student Government and the student body. James welcomes anybody to come by and talk about any problems or any general discussion concerning the school at anytime.

Allan Middleton, SGA Treasurer

Allan is a graduate from Cass High School in Cassville, Georgia. He is a junior majoring in MET here at STI In high school he was involved in the Beta Club, the band, a photographer for the school annual, and a Linebacker for the Varsity Football team.

Here at school he is a member of ASME, and he is a member of Lambda Chi Alpha. Allan's personal goals for this years SGA is for national recognition for Southern Tech as a very good Technical school.

Lisa L. Ramsey, SGA Secretary

Lisa, a graduate of McEachern High School in Powder Springs, Georgia, is a sophomore majoring in ATET. In high school she was involved in the Pep Club in which she was President her Junior year. She was a member of the God Squad and was involved in the Co-Ed Y Club for one year.

Here at Southern Tech she is Secretary of the Bathtub association, and Secretary of the Rotarict Club. She was a member of the BSU for two quarters, and she is also a TKE little sister. This is the start of her second year as SGA Secretary. Lisa was also an orientation leader for this years Fall quarter.

Lisa feels that being involved in campus organizations is just as important as the academic program here at school. "Involvement in campus organizations looks good on your resume when you go to apply for a job." If anyone has a problem and they do not know who they should talk to, they can come by her office in the upper level of the student center and she can refer them to the proper authority.

OTHER MEMBERS OF SGA ARE:

Dorm 1 Representative: Glenn Cooper

Representative AT Large: Diana Hargis

Representative At Large: Jean Cushing

Representative At Large: Janet Flynn

Representative At Large: Tim Moses

AET Representative: Bill Lindeman

CET Representative: David Charbonnea

EET Representative: Mike Warren

IET Representative: Barbara Ransom

MET Representative: Carl Patton

Night School Representative: Lewis Holland

Winter/Summer Co-op Representative: Steve Pochynok

ORGANIZATIONAL NEWS

AMERICAN INSTITUTE OF INDUSTRIAL ENGINEERS, INC.

"Increased Productivity Cuts Inlation" is the theme of a public lert campaign by Industrial Engieering Technologists at Southern ech during the month of October, ighlighted by "Productivity Improvent Week" October 1-7.

Robert George, president of Southrn Tech chapter of the American nstitute of Industrial Engineers, aid members plan to distribute colorul poster sheets carrying the theme o the Southern Tech campus as part f the campaign.

He also said Professor Bannerman, ead of the Industrial Engineering echnology Department has proclaimed bservation of Productivity Improvent Week and given the department's acking to the drive.

The STI chapter of AIIE is composed f students planning to enter Industrial Engineering in business, industry, government, other institutions, and even in consulting practice. All regularly deal with productivity improvement and believe, according to Robert, that, "a little more operational know-how applied by a lot more organizations could drop the inflation rate by several points overnight."

Beyond the outward promotion of the campaign, which is taking place simultaneously in AIIE chapters throughout the U.S., AIIE members are offering presentations to show small and large firms and other organizations how to implement productivity improvement programs. "We especially want to motivate those who believe the whole matter is too technical to tackle," Robert George said.

ENERGY MANAGEMENT TOPIC OF FIRST AIIE MEETING

With skyrocketing energy costs most appropriate topic for the irst meeting of the Southern Tech hapter of the American Institute f Industrial Engineers is ENERGY ANAGEMENT. Speaking to this issue ill be Mr. Frank Pucciano, a Comercial Energy Services Engineer ith the Georgia Power Company. Mr. ucciano's presentation will cover ome suggestions for energy effiient operation and highlight the uccessful story of one local manuacturing company that is saving housands of dollars a year in perating costs by practicing energy anagement.

The meeting is scheduled for noon, uesday Oct. 2. The AIIE will meet n room 119 of the student center. ll students are invited to attend.

AIA/CSI

HERE COMES THE SUN: PART I

The first part of the Solar Trilogy his quarter will be presented on ed., Oct. 3, in room 119 of the Stuent Center at noon. Mr. Glen Bellamy ill discuss current techniques as hey apply to residential construcion. Everyone is invited to attend. ee you there!

OTICE: TO ALL AET AND CET STUDENTS

On Tuesday, Oct. 2, Bob Myatt will resent to us the corriculum changes n the AET department. It will be eld in room 568 of the AET Building t noon.

All students are urged to attend!

BATHTUB RACING ASSOCIATION

There will be a night meeting of he BRA on Tuesday, Oct. 2 at 6:30 m, in room 119 in the student cener. Anyone interested please atend. All BRA members please remeber that your membership fees for he 1980 racing season are due now.

NOTICE TO EET, MET AND IET GRADUATES AND PROSPECTIVE CO-OPS

On Oct. 18, McDonnell Douglas Corp. from St. Louis will host a career night at the Sheraton-Atlanta Hotel, 590 Peachtree St., NW, from 7:00 until 9:00 PM. They have inviged graduating students and prospective co-op students from the EET, MET and IET departments who are interested in the St. Louis, MO. area. Interested graduates should sign up in Room 122; co-ops in Room 121.

NOTICE TO CET GRADUATES AND PROSPECTIVE CO-OPS

U.S. Corps of Engineers recruiter will be on campus Thursday, Nov. 8, to interview interested CET Graduates and co-op students. The jobs will be in their material labs in various locations. This is construction related work and co-ops will be given experience in all corps engineering programs. If you are interested, contact the placement or co-op office

ATTENTION

Wednesday, Oct. 3, there will be a meeting in the Student Center Ballroom at 8:30 AM for all returning co-op students.

Wednesday, Oct. 24, there will be orientation in the Student Center Ballroom at 12:00 Noon for students interested in obtaining information about the co-op program.

NIGHT SCHOOL STUDENTS CAN SEE MR. VANGORDER TO GET INTO THE PLACEMENT OFFICE AFTER 5:00 PM TO REVIEW JOBS. IF INTERVIEWING PLEASE FURNISH PLACEMENT WITH A RESUME.

Students graduating this academic year should turn in a copy of resume to Mrs. Howard in Placement Office. Also, come by and complete one of our registration cards and a class schedule.

SIGMA NU

The men of Sigma Nu would like to welcome all new and returning students to STI.

Fall of 79 is going to be a very active quarter for Sigma Nu. We would like to extend a hearty thanks to the rush committee for a very successful rush. We appreciate the fine turn out of enthusiastic rushees for our rush party. We would also like to thank our Little Sisters for their cooperation in making Fall rush a big success.

We would like to extend special thanks to Sue Konrad, Dean Smith, Patty Futrell, and Atlanta Beverage for their help with the IFC party. We would sincerely appreciate your continued support with future IFC functions.

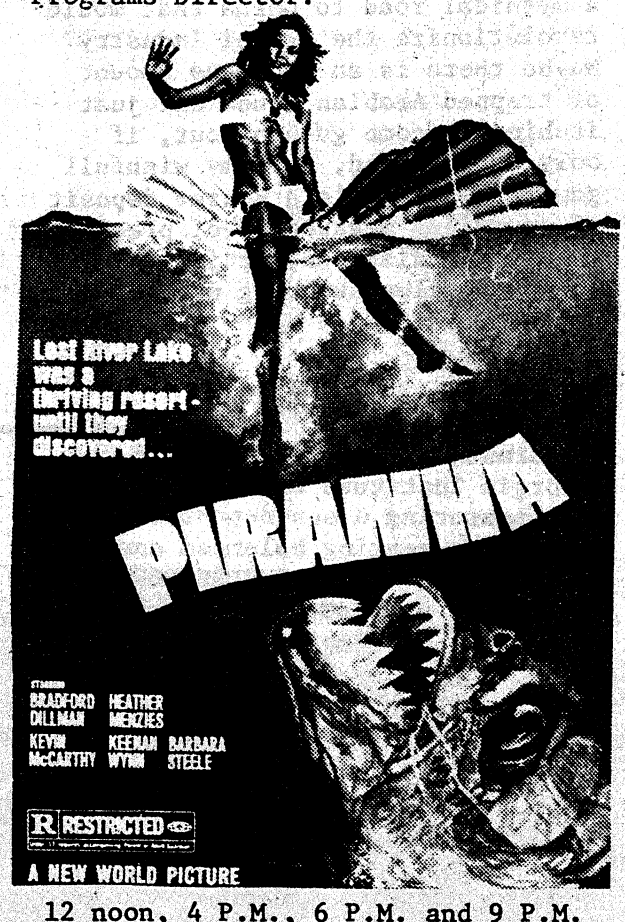
We would also like to remind all the brothers about Joe Gaskin's wedding October 6.

The brothers would like to invite all the rushees to our follow up parties; posters and schedules will be posted. If you have any questions about STI or Greek Life contact any brother.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

Will be taking a field trip to Scientific Atlanta to observe the assembly of radar equipment and space communication devices on Tues. Oct. 2. The group will meet at 6:15 pm in front of MET 626 (Welding Shop) For those who would rather meet at Scientific Atlanta at 7:00, the address is 3845 Pleasantdale Road. Doraville. Interested international students please contact mechanical department secretary. All interested students are invited to attend.

Elections will be held prior to the trip to fill executive offices recently vacated. The nominating committee has presented two candidates and further nominations will be accepted prior to voting. The vacant positions are Secretary and Programs Director.



12 noon, 4 P.M., 6 P.M. and 9 P.M. admission 50 cents, Student Center Ballroom. October 4, 1979

(CONTINUED FROM PAGE ONE)

never have been heard, and has performed, not only as s sort of ambassador from Southern Tech, but also as a common interest for every student on campus.

h) In order to incorporate minor sports into our program, we must increase our budget rather than try and spread it even thinner than it presently is spread.

i) Athletic Director George Perides has proven his ability to operate effectively on a small budget and has worked hard to raise our program to its present level. Let's not let it begin to decline by putting off a raise in the athletic fee.

Please let us know how you feel about these and other issues.

Mike Renfroe

Ernest Bennett

"BENEATH THE ROCK"
An Imaginative Essay

Has anyone ever questioned the possibility that "The Rock" in front of the Math Hall, in all its maroon and gray glory, may hold beneath its surface an unrealized oddity? Could there be, that under this cumbersome hunk of granite, lies a mythical road to China that would revolutionize the travel industry? Maybe there is an enormous amount of trapped Arabian crude oil just itching to come gushing out, if only tapped. And, it's my wishfull guess that there's a secret deposit of countless megatonnes of precious metal, raw diamonds, or just anything of value awaiting my greedy hands.

Any science buff would know there has been speculation of a periodic magnetic field, far below the surface. A field probably affecting the controversial, and unpredictable, Bermuda Triangle

Still it could be that, like my never working rabbits foot, that "The Rock" is merely an oversized pebble with ordinary worms, bugs, and slimmy urchins beneath it.

Finally, it may be a lost meteorite from Mars, Jupiter, or not unlikely a Russian Spy satellite.

In any case a team of Geologists will be meeting here in the spring to discuss possible excavation at that time, or later when the 1980 Federal Funds comein!

SGA MINUTES

The meeting of September 25, 1979, was called to order by Vice-President Cochran at 5:15 pm. The Roll was called and the minutes of the previous meeting were read and approved.

There was a motion by Ranson/Hargis to accept Jean Cushing's petition for Representative at Large. The vote was 7-0-0, motion carried.

The Council received a letter from Mr. Agee requesting that action be taken to replace the metal trash cans in the Dorms with plastic ones for sanitation purposes. Dean Smith informed the Council that plastic trash cans were a fire hazard and that action has already been taken to replace the trash cans with new metal ones with welded rather than overlapped seams.

There was a motion by Cushing/Moses to limit the discussion on each proposed SGA Goal to five minutes. There were no objections. After the discussion, each Council member was asked to vote for the three he thought most important during a roll call vote. The three SGA Goals for Fall Quarter are Parking for Students, Athletic Improvements, and Land Usage.

Vice-President Cochran appointed Allan Middleton Chairman of the Finance Committee and Barbara Ransom Chairman of the Internal Affairs Committee.

President Renfroe asked the Council to start getting student opinions concerning the possible increase of the Athletic Fee for STI. The formation of a written recommendation was tabled to the next meeting, Tuesday, October 2.

President Renfroe asked Dean Smith if the extra typewriter in the SGA Secretary/Treasurer's office could be used by WSTB for their correspondence. Dean Smith suggested that President Renfroe get in touch with the Librarian, Mr. Patillo, and see if it is needed in the Library because it is Library property.

It was suggested that the name "Goat Day" be changed to either Rock Day or Fall Festival due to the loss of tradition surrounding Goat Day. A Student Government ad hoc Committee was organized consisting of Jean Cushing, Diana Hargis, and Bill Lindeman (Chairman) to increase the SGA's participation in October 27's festivities.

The Campus Activities Board will be attending the NECAA at Peachtree Plaza between September 29 and Oct. 2 to review a variety of acts available to college campuses.

There will be an Executive Committee meeting after the meeting.

The meeting was adjourned at 6:25 pm.

ENERGY LECTURE SERIES

Fernbank Science Center and the Georgia Institute of Technology are co-sponsoring a seven-part lecture series presenting balanced energy information titled FUTURE POWER. Beginning Wednesday, Oct. 3 at 7:30 pm and continuing each Wednesday evening through November 14, FUTURE POWER will be held at the Blake R. Van Leer Electrical Engineering Building Auditorium on the Georgia Tech Campus. This program of free public events features seven speakers nationally known for their expertise concerning energy-related issues. The topics include:

Oct 3 "Energy as a Challenge to Democratic Governance" by: David Cohen, President of Common Cause

Oct 10 "The Engine of Destiny" by: Walter Sullivan, Science Editor, The New York Times

Oct 17 "Nuclear Energy: What are the Ethical Issues" by: George Pickering, Associate Professor of Ethics, Univ. of Detroit

Oct 24 "Whose Finger on the Switch" by: Earl Cook, Dean of Geosciences, Texas A & M Univ.

Oct 31 "Doing Better, Not Without" by: Lee Schipper, Energy & Environment Division, Lawrence Berkeley Laboratory

Nov 7 "Manufacturing the Crisis: Fifty Years of Power Politics" by: Walter Mead, Professor of Economics, Univ. of California

Nov 14 "Energy Self-Reliant Cities by: David Morris, Director, Institute for Local Self-Reliance

THE PRATER'S MILL COUNTRY FAIR

Dalton, GA.-Prater's Mill, the historic grist mill near Dalton, is the setting for the fall Prater's Mill Country Fair scheduled for Saturday and Sunday, Oct. 6 and 7.

Patterned after an old-fashioned country fair, the event showcases the works of 175 carefully chosen artists and craftsmen and offers live entertainment, homemade foods and special activities for family enjoyment.

During the two-day festival the water-powered grist mill grinds corn into meal and wheat into flour just as it did a century ago. Built in 1859 and listed on the National Register of Historic Places, Prater's Mill is maintained by funds generated from the semi-annual fairs held on Mother's Day weekend in May and Columbus Day weekend in October. The popular outdoor event is in its ninth year of operation.

Traditional crafts are emphasized. Demonstrations of blacksmithing by Jud Nelson, spinning by 90-year-old Mrs. Bessie Mae Adams, quilting by the Busy Bee Homemaker's Club and lacemaking by Esperanza Lotshaw add to the educational quality of the arts and crafts show.

A popular exhibitor is woodcarver Elvin King from Sewanee, TN, who carves delicate animals with a modern-day chain saw. A lumberman by trade, he has become so skilled he can peel an apple with his chain saw.

Good food is a tradition at the fair and includes hot vegetable soup with fresh baked cornbread, funnel cakes, homemade candy, churned ice cream as well as barbeque chicken and beef.

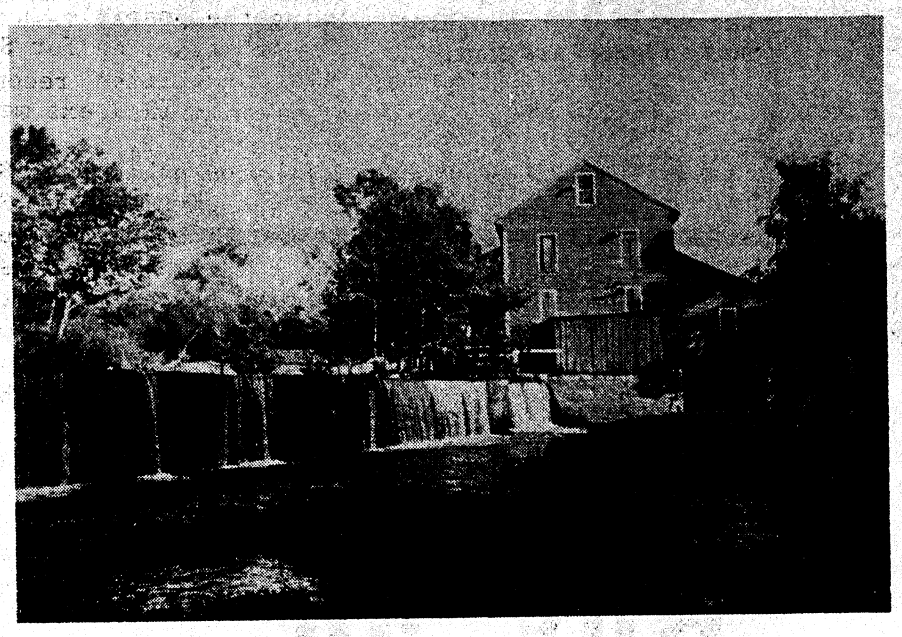
Lively entertainment on stage features country music, cloggers, square dancers, and gospel singers.

A popular addition to the fair is a barnyard animal display by the Whitfield County 4-H Club. Pony rides through the autumn woods for the youngsters or a family canoe ride up the Coahulla Creek add to the fun at Prater's Mill.

An authentic Civil War camp will be set up next to Prater's Store by Gene Parsons' 36th Georgia Artillery group.

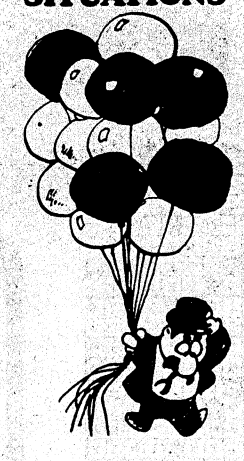
The fair opens at 10:00 am on Sat. and at noon on Sunday and closes at 6:00 pm both days. Admission is $1.50 for adults, children under 12 are admitted free. Visitors are urged to dress casually and wear comfortable shoes.

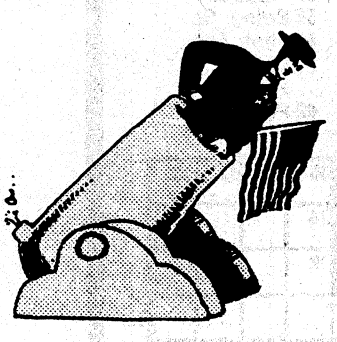
Prater's Mill is located on Ga. Highway 2, ten miles northeast of Dalton. Travelers should take I-75 to the Tunnel Hill (Hwy. 201) exit, drive north 4.5 miles to Ga. Highway 2, turn right and continue 2.6 miles to the mill.



Dalton, Ga.-Prater's Mill is the scene of this fall's Prater's Mill Country Fair Columbus Day Weekend, October 6 & 7. Hours are 10:00 a.m. until 6:00 on Saturday and noon until 6:00 on Sunday. Admission is $1.50 adults, children under 12 free. 175 artists and craftsmen, pony rides, homemade foods, canoe rides and continuous free entertainment make Prater's Mill one of the most popular arts and crafts shows in the Southeast.

SITUATIONS





Anyone interested in trying out for the Southern Tech Tennis Team see Professor Lee Tucker. Tennis practice is held between 2 and 4 pm. daily.

Southern Tech's Annual Tennis Tournament will begin Saturday, Oct. 20. There will be an "A" and a "B" Division with singles and doubles in each division. Entry forms can be obtained at the Student Center Information Center.

EXPANDED POLYSTYRENE INDUSTRY ANNOUNCES THIRD ANNUAL SCHOLARSHIP AWARD COMPETITION

The Expanded Polystyrene Division of The Society of the Plastics Industry has just rung the opening bell in its Third Annual Scholarship Award Competition. University students have the opportunity to win up to $1,000 for innovative and practical uses of the polystyrene foam material.

Previous winners have come from Pennsylvania State, Bridgeport University, M.I.T. and Michigan State. Imagination and skillful interpretation of an idea brought cash awards to students in schools of Architecture, Engineering, Industrial Design and Business Administration.

The material is most familiar as the white foam molded package that locks delicate merchandise into protected space, or as the foam cup that keeps drinks hot or cold. It lends itself to countless other uses, and the competition calls on all students' creative abilities to initiate new concepts.

Preliminary entries are judged on the basis of freshness and feasibility and students are advised to continue with worthwhile projects. Entry blanks are now available by request to The Society of the Plastics Industry, 3150 Des Plaines Ave., Des Plaines, IL 60018.

Final judging will be during the Expanded Polystyrene Division's Annual Meeting in March.

STI NATIONAL ALUMNI ASSOCIATION SCHOLARSHIP FUND

Enrolled students who demonstrate financial need and have completed at least one academic year of B quality or higher work in an accredited college or who are first time freshmen students that can provide documentation of potential B quality or higher work at college level are eligible to apply for this scholarship. An application for the academic year must be filed at the Financial Aid Office, not later than the preceding May 1. Applications for summer quarter must be filed separately prior to March 1.

SHORT-TERM LOAN RECIPIENTS

Those students who have applied for Short-term loans and will not be able to pay on the date it is due, must come by the Financial Aid Office to fill out a short-term loan extension request.

SWE

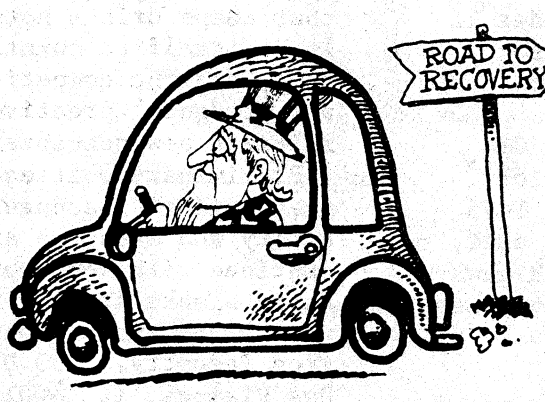
CAREER PLANNING

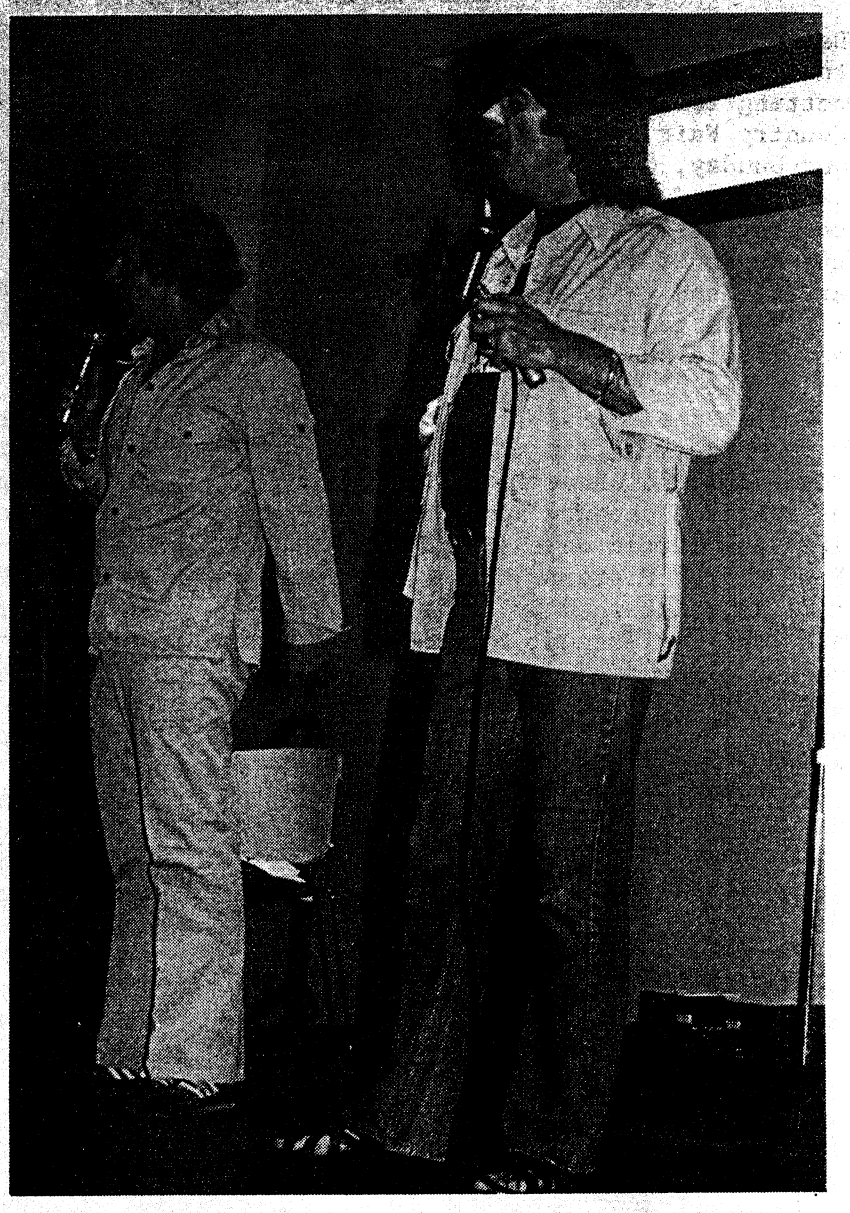
Jenny Worsham, Director of Personnel for Oxford Industries, will be on campus on Tuesday, Oct. 2. She will discuss career opportunities in management, problems often encountered, and solutions to such problems.

Oxford Industries are active participants in Southern Tech's Co-Op Program, and they also employ many STI Graduates.

This program will be held at 12 noon on the 2nd, in Conference Room A of the Student Center (Upper Level). It is sponsored by the Society of Women Engineers.

Students preparing for a year of intramural activities starting with flag football. Get involved, join an intramural team.





Edmonds and Curley caused the audience to rool in the asile with laughter. We can thank CAB for such a good program.
