DR.

CARLSON

RESIGNS

Dr. Walter O. Carlson, dean-executive director of Southern Tech for the past nine years, has submitted his letter of resignation to Dr. Joseph Pettit, president of Ga. Tech. The letter was presented to Dr. Pettit early Monday morning.

Dr. Carlson requested that his resignation as dean-executive director become effective June 30, 1980, or "that such other time that the Board of Regents feels that an orderly transition can be brought about."

In his letter Southern Tech's chief administrative officer reviewed the progress that has been made on the college campus during his administration, including enhancement of academic programs, provision of more effective administration of campus functions and quality leadership and development of student services and activities.

He stated: "The baccalaureate programs have been well assimilated and major curricula changes have been made toward greater academic quality. Enrollments have grown considerably with the advent of the four-year degree, and there has been a concomitant increase in numbers and quality of faculty. Southern Tech

has not only one of the largest engineering technology programs in the United States, but it also has a national reputation as a leader in engineering technology education.

Dr. Carlson went on to say to Dr. Pettit "The administrative changes you made in January 1976 by which I reported directly to you as Executive Director and assigning the responsibility to Southern Tech for the operation of its own auxiliary enterprises and physical plant greatly enhanced the campus operation. The Board of Regents now has under consideration alternatives for the status of Southern Tech. Whatever the outcome of these deliberations, Southern Tech will continue to grow and prosper.

"For some time I have been considering rounding out this chapter in my academic and administrative career. Now that a resolution of the status of Southern Tech by the Board of Regents is imminent, I feel it is propitious for me to announce my intention to resign as Dean/Executive Director of Southern Tech, to become effective on June 30, 1980, or at such other time the Board of Regents feels that an orderly transition can be brought about."

PETTIT

By- Steve M. Thornton

In last week's edition of The STing was an article from our Student Government President, Mike Renfro, accompanied by a petition of proclamation concerning separation of Southern Tech from Georgia Tech. The proclamation stated reasons why the S.G.A. felt separation is the best and only formidable interests of Southern Tech's

PROPOSES

present and future concerns in both administration and education. Mr. Renfro's stand for separation is a beckon for S.T.I. students to get involved and express their interest in the vital matter.

Students will now be able to read a letter from Georgia Tech's President, J. M. Pettit, to the chancellor of the University System of Georgia, concerning absorption of Southern Tech by Georgia Tech. Mr. Pettit's letter, better referred to as "a working draft for discussion and consideration", states benefits to be derived from Southern Tech's vicissitude to Georgia Tech's College of Engineering Technology.

"For our own situation," states Mr. Pettit, "our second campus would be called Georgia Tech-Marietta."

Mr. Pettit continues by stating, "The academic structure would be somewhat the same as it is now. Georgia Tech-Marietta would continue to be accredited by the Southern Association as an operationally separate entity, and by E.C.P.D. for its programs in engineering technology. The academic operation at Marietta would comprise a College of Engineering Technology, presided over by a Dean. Although at present the positions of Executive Director and Dean are combined

ABSORPTION

in a single person, it would be preferable that these positions be separated. Georgia Tech-Marietta would need a full-time chief Executive officer, and the College of Engineering Technology would need a full-time Dean. Each should be a strong, dynamic leader."

Many students on campus have expressed concerns over the use of Georgia Tech's name on diplomas from Southern Tech. Mr. Pettit suggests, "...the use of the present name, the Southern Technical Institute or Southern Tech...is a good name, but would have to be phased out if the new identification as Georgia Tech were to become fully significant. A transition period should be set, allowing time for changing catalogues, signs, etc. New diplomas would be made available to former graduates."

A complete copy of Mr. Pettit's letter along with the SGA proclamation are on public display in the library, the administration building information booth and at the student center information booth and bulletin boards. We at the STing exhort each student to take ten minutes to read both manuscripts and make their voices heard about our institution's future.

WILL SOUTHERN TECH SEPARATE FROM GEORGIA TECH SOON?

From the President:

A matter of vital importance to Southern Tech's future as a growing and contributing force to industry in the Southeast is now being presented before the Georgia State Board of Regents. For several years the question of sovereignty between Southern Tech and Georgia Tech has perplexed teachers and students alike.

For the benefit of each student, instructor, and administrator, we are reprinting last week's proclamation from the S.G.A. It is our deepest desire to reach all parts of Southern Tech's environment and hopefully receive reader response.

The issue of Southern Tech's separation from Ga. Tech has come before us once more and possibly for the last time. The committee assigned by the Board of Regents to study this relationship proposed three possibilities: 1) separation of the two schools; 2) status quo, or remaining as we are now a division of Ga. Tech; 3) absorption by Ga. Tech of Southern Tech (the name of Southern Tech would not be heard of ever again).

The second of these possibilities is not believed to have any substantial support. Most of those involved generally are in favor of either separation or absorption. Southern Tech proponents favor separation. Ga. Tech would love to see Southern Tech absorbed and for us to become their College of Engineering Tech-

nology department.

The Board of Regents is meeting October 9 and 10 in Atlanta but the separation issue is not expected to come onto their agenda until the November meeting. It is highly probable that a final decision concerning our fate will be made at this meeting.

Your Student Government Association has formulated a resolution which states our stand concerning this all-important issue. To show once and for all that our students are not apathetic toward separation we are petitioning for as many student signatures to accompany this resolution when it is presented to the Board of Regents. Please seek out a Student Government representative so that your signature can be used to strengthen our stand on separation.

Mike Renfro

SGA PROCLAMATION

Whereas: There remains the unfounded assumption that the Southern Technical Institute's student body remains apathetic toward the issue of separation from Georgia Institute of Technology; and

Whereas: The re-evaluation and subsequent reorganization of the Southern Tech--Georgia Tech relationship sanctioned by Ga. Tech President Joe Pettit was in effect a move toward more isolation rather than closer relationship; and

Whereas: The success of this reorganization lends proof to the argument that complete separation would greatly increase Southern Tech's ability to increase in stature in the field of engineering technology; and

Whereas: Southern Tech graduates do not "use" the name of Georgia Tech to obtain jobs after graduation, but industry, after receiving capable and dependable professionals for thirty-one years, continues to hire Southern Tech graduates on the basis of their ability to move directly into their chosen field with a minimum of training; and

Whereas: The increasing lack of communication between the two institutions is due largely to the fact that Southern Tech in its present state is virtually self supporting; and

Whereas: Georgia Tech maintains a stranglehold on Southern Tech due to the layers of Georgia

Tech administration between Southern Tech and the Board of Regents, because Southern Tech tenure is decided at Georgia Tech, because our budget requests are subjected to scrutiny by Georgia Tech before reaching the Board of Regents; and

Whereas: The present organizational structure retards many efforts to improve Southern Tech since our top administrator is responsible to the higher level of administration at Georgia Tech; and

Whereas: The existing attitude of Georgia Tech toward Southern Tech includes a lack of respect and lack of confidence in Southern Tech; and

Whereas: Students at Southern Technical Institute receive an entirely different education than Georgia Tech students; and

Whereas: Southern Technical Institute produces a highly marketable product, the graduate, who meets the demands of the State of Georgia's industries for engineering technologists; and

Whereas: It is not the purpose of separation to jeopardize the areas of co-operation that now exist between Southern Technical Institute and Georgia Institute of Technology; now

Therefore: We the Student Government Association of Southern Technical Institute pledge our full support to all efforts to complete the separation of Southern Tech from Georgia Tech.

ERIN ISAAC

Erin Isaac is, quite simply, one of the finest singers and writers in America today. She is not one of the best known--not yet. Erin has been bubbling beneath the surface for some time now, constantly putting her experiences into song.

When she comes up for air she will be seen for what she is--a seasoned, finely honed, contemporary artist.

Erin started out playing the ski resort circuit in Aspen and Boulder. Although she developed a warm and loyal following there, her ambitions far exceeded so limited a scene. She started playing the night club circuit which led her to current college appearances, all of which has given her exposure to a wide range of audiences.

Erin's passion for song writing has led to some impressive awards along the way. Her song, "Winter Moon" was a winner in the 1977

American Song Festival. The NECAA has selected her to showcase at their National Convention in New Orleans. She has played with Steve Martin, Steve Goodman, and Leo Kotke. Kotke, the consummate guitarist, was quite taken with Erin's unique, left-handed guitar playing style.

It seems to be coming full circle for Erin. She is now recording her first album at Shade Tree Studio in Lake Geneva, WI.

Erin Isaac is a singer, a writer, and a musician whose waves will soon be felt. Erin is singing for you--listen for her.

Look for her on October 17, at 8:00 p.m. in the Student Center Snack Bar Area.

If you like to laugh, see Playfair

Imagine going to a theater with a group of strangers and leaving with a laughing, thriving community of friends. That's what's in store on Saturday, October 27 at 12 noon at The Rock when Campus Activities Board presents the audience-participation comedy show PLAYFAIR. PLAYFAIR is a show where things happen on stage, and they happen in the audience too!" says Matt Weinstein, the show's director. "We want everybody in the audience to get involved. So in addition to our comedy routines we play a lot of games with the members of the audience. These are games that the PLAYFAIR staff has invented, games that nobody has ever played before--in fact, games that nobody has ever heard of before! They are games that have no winners or losers at all--games that are designed to get the people in the audience to know each other and to laugh high about each other!"

In addition to Matt Weinstein, the PLAYFAIR troupe includes Jerry Ewen, Joel Goodman and Jeanie Cochran. One member of the PLAYFAIR family comes to campus and the PLAYFAIR company has more than one hundred of these solo performances every year at campuses all over the United States. "PLAYFAIR is hard to describe because it's so new and so different from any other kind of

show," admits Jerry Ewen. "Mostly it's people laughing a lot and feeling really good about the other people in the audience with them. What's so different about PLAYFAIR is that we try to create a sense of community among the people watching us, so that when people leave the show they've had a great time and they've also made some new campus friendships."

Joel Goodman explains the "play" part of the show: "PLAYFAIR gives adults a chance to meet each other by playing together, by sharing the joyful and the laughing side of themselves. When we were young we used to form 'play communities'. We used to get together with our friends and our main activity was to play together and have fun. As adults, we never get the chance to do that any more, and that's what PLAYFAIR is all about."

When the PLAYFAIR company first started playing with groups of adults they soon found that most traditional games would not work at a PLAYFAIR performance because they all involved winners and losers and competition among the players. "We wanted to play games with people where everybody feels good," says Jeanie Cochran, "but in working with traditional games we found that someone always wound up feeling bad because they were left

out or weren't fast enough or smart enough or were unfamiliar with the skills involved." So the PLAYFAIR leaders began changing old games and inventing their own games, games that allow all the players to feel good because they are playing with each other instead of against each other.

"Can you imagine what a powerful experience it is to be together with hundreds of people who are laughing and cheering and feeling good about you?" asks Matt Weinstein with a grin. "We're arriving on campus with the greatest party of all time. Come on out and party with us!"

October 18, 1979
CAB Cinema presents "THE FURY" in the Student Center Ballroom at 12 Noon, 4:00 p.m., 6:00 p.m., and 9:00 p.m. Admission: 50¢

- Fri., Oct. 19, Lithonia Lighting--EET,
IET, MET

- Ga. Power--Thursday, October 25--CET,
EET, MET
- Southwire--Friday, October 26--EET, MET

Come by Co-op office to sign up for interview.

If you plan to interview any of these companies, sign up early; companies will cancel if response is not good. NOTEBOOKS FOR SIGNING UP ARE POSTED ONE WEEK BEFORE THE INTERVIEW DATE.

Graduates interviewing through the Placement Office should turn in a resume and come by and complete a registration card and a class schedule. Night school students should also register; if you can't come by, call Mrs. Howard at 424-7224.

U.S. CORPS OF ENGINEERS will be on campus Thursday, November 8, to interview interested CET graduates and co-op students. The jobs will be in their material labs in various locations. This is construction related work and co-ops will be given experience in all corps engineering programs. If you are interested, contact either the Placement Office or Co-op Office.

**ENGINEERING AND COMPUTER
SCIENCE SENIORS**

**Come
to
our
OPEN
HOUSE**

McDonnell Douglas Corporation is having an Open House for Engineering and Computer Science Seniors interested in learning more about career opportunities. This is your opportunity to:

- Talk with recent graduates presently working with McDonnell Douglas Corporation.
- See movies of Fighter & Commercial Aircraft, Spacecraft, and Missile Programs.
- Receive brochures of all programs and career opportunities.

**Thursday,
October 18**

**7:00 to 9:00 P.M.

An equal opportunity employer.
U.S. Citizenship required.

CAREER NIGHT

On Thursday, October 18, McDonnell Douglas Corp. from St. Louis will host a Career Night at the Sheraton Atlanta Hotel, 590 West Peachtree St., NW, in the Georgia Ballroom West, 7:00 PM to 9:00 PM.

EET, AET, MET and IET students are invited; dress will be casual and refreshments will be served. You will have the opportunity to talk to their representatives about career opportunities and see movies of fighter and commercial aircraft and missile programs. Brochures available in Placement Office.

If you plan to attend, sign up with Mrs. Howard in Room 122 if you are graduating or with Mrs. Kearney in Room 121 if you are interested in co-op.

ORGANIZATIONAL NEWS

ASCE

The ASCE Student Club officers and chairmen will meet Tuesday, Oct. 16, at noon in the Civil Building.

The ASCE National Convention will be hosted by the Georgia/Atlanta Chapters in Atlanta, October 19-26, 1979. The Southern Tech ASCE Student Club will be providing assistance to the conventioners. They will provide the conventioners with various information concerning lodgings, car rentals, and city maps. If you are interested in helping and having the opportunity to meet civil engineers from across the nation, please see ASCE President, Chris Hewlett or ASCE Advisor, Professor David Hornbeck. If you are interested in attending any of the ASCE convention sessions or lectures, which include the latest developments in all facets of civil engineering, see Professor Hornbeck for details.

Elections for 1980 ASCE Club Officers will be held on Tuesday, Nov. 6. A nominations committee is being formed now, and if you're interested in serving see a club officer.

The Atlanta Journal Sunday Magazine (Oct. 7) Recently did a feature story on our continuing Kennesaw Mountain surveying and mapping project. Project work for Fall quarter has resumed and all those interested in surveying and historical documentation of the battle site, please see the project chairmen Janet Flynn or any club officer.

SIGMA PI

The brothers of Sigma Pi would like to thank everyone involved in our fantastic rush. We would also like to congratulate our new prospective brothers:

Lee Pickard	Bill Elton
Steve Gleaton	Keith Wynn
Chris Cox	Dave Campsolines
Greg Mayo	Keith Peavy

Our congratulations go out to our football team for their dramatic victory over the BSA. Keith Sands led our team to victory with the back up help of Stacy Scott and David Clark.

Up-coming events to keep in mind are:

1. Elections are presently underway. Give some serious considerations and support the most qualified candidate.
2. Goat Day will be October 26-27.
3. Blood Drive is coming up in Nov.

If you are interested in Sigma Pi, our rush is still open. We invite you to come to our meetings on Thursdays at 12:00 noon in room #505 of the Architectural Building.

BSU

On Tuesday, October 16, Rev. Eugene Briscoe, a true man of God, will bring a message to us. We will meet in the Student Center Ballroom at noon. Come, and let us worship the one God together.

BATHTUB RACING ASSOC

The BRA will hold its regular weekly meeting in Room 119 of the Student Center. Everyone interested is invited to attend. All Tub Drivers please remember that membership fees are now due.

A.I.E.

As part of its activities for Productivity Week, October 1-7, 1979, Marietta Mayor Dana Eastham issued a proclamation stating the importance of productivity improvement in fighting inflation. Representing the Southern Tech Chapter of the American Institute of Industrial Engineers at this ceremony were Chapter Vice-President Neal Gilstrap and senior member Norman Currey. AIIE supports the position that the best way to beat the inflation demon now plaguing our country's economy is by increasing productivity in the workplace. AIIE also believes that IE Technologists will be in the forefront of this fight.

ROTARACT

There is going to be an organizational meeting of the STI chapter of ROTARACT. It will be on Monday, Oct. 15, 1979, in the Student Center. This is to inform everyone about Rotaract. If you have any questions see Prof. Fausett in the AET department.

TKE

TKE would like to congratulate the 23 men that accepted bids from our fraternity. They are as follows:

Ward Chapman
Stuart L. Adams
George W. Galloway IV
James C. Zeigler Jr.
Jeffrey S. Flanagan
William B. Baker
Michael R. Carswell
James T. Tuch
Phillip B. Adams
Bert Ogletree
Andrew C. Martion
Russell P. McCoy
Michael J. Guthrie
Thomas S. Crumley
Charles Edward Nix
Paul E. Hachey
David W. Claywell
John R. Minor III
Robert K. Sanders
Edwin C. Harmon
Steve Thompson
Kevin P. Spake
Dan Brooks

TKE operates an open rush policy so anyone still interested in joining is welcome. Come by our house at 1420 Canton Highway or come to our meetings in Room 358 in the lab building every Thursday at 12:00 noon

TKE activities include:

- | | |
|---------|-------------------------------------|
| Oct. 20 | Alumni Football Game and Open House |
| Oct. 26 | Halloween Party |
| Oct. 27 | Goat Day |
| Nov. 20 | Charity Dance |
| TBA | Work Project |

ATTENTION

All information on this page is submitted by various clubs and organizations. Anyone wishing to have material printed in the newspaper should place their articles in the Sting Staff box, located outside of the office of Student Publications, by twelve o'clock every Wednesday.

SIGMA PHI EPSILON

We wish to congratulate everyone who accepted a bid with Sig Ep. Our Rush went very well.

Our thanks to the Sig Eps at G.S.U. for inviting us to their parties.

Our meetings are Thursday at noon in Conference Room A of the Student Center. Stop by. We would be glad for you to attend.

SIGMA NU

We would like to remind all the brothers and all new pledges about the pledging ceremony Sunday at 8:00 pm. We would like to extend our congratulations to all the new men who accepted a bid and wish them continuing success with Sigma Nu.

The football team is doing an outstanding job. We have a 2-0 record so far. The fraternity would like to see everyone out there supporting the team.

TAU ALPHA PI

The Alpha-Alpha Chapter of Tau Alpha Pi will hold its second meeting of the quarter at noon Thursday, Oct. 18, in room 277. We will be planning a party and discussing the operation of the Bookstore. We urge all members and people interested in joining to attend. You must have an overall grade point average of 3.0 or better and have been on the Dean's list for the past two quarters.

GAMMA PHI BETA

The sisters of Gamma Phi Beta would like to congratulate the following women who received and accepted bids to join our sisterhood.

Becky Barber	Linda Jaskowski
Janet Flynn	Pam Pitner
Sherry Green	Robin Sutton

These women will contribute to the growth and success of Gamma Phi Beta.

We would like to extend a very special thank you to Gil Warwick for all his help during the last couple of weeks.

All sisters remember to get your old tests and book list to Sissy for the file.

CSI & AIA

Solar Energy III will be presented on Thursday, October 18 at 12 noon in Room 119-120.

Mr. Bob Balke of T.V.S. & Associates will talk about the commercial applications of solar techniques and will have a slide presentation accompanying his program.

We urge everyone interested in energy alternatives to attend.

THE MUSIC BUSINESS INSTITUTE

**Open House Oct. 20th
Call For Reservations**

Our staff of Music Business Professionals invite you to discover how you can pursue a career in the Music Recording Industry. *Special Free Seminar 10 AM Saturday Oct. 20th. Meet industry executives. Tour our unique facility. Refreshments.*

The Music Business Institute offers a Music Marketing Program taught by Industry Professionals which includes:

- ★ Recording Studio Production
- ★ Artist Representation
- ★ Retailing and Wholesaling
- ★ Record Promotion and Marketing
- ★ Legal
- And More.

ST1015

TENNIS TEAM

Anyone interested in trying out for the Southern Tech Tennis Team see Professor Lee Tucker. Tennis Practice is held between 2 and 4 PM daily.

Southern Tech's Annual Tennis Tournament will begin Saturday, Oct. 20. There will be an "A" and a "B" Division with Singles and Doubles in each division. Entry forms can be obtained at the Student Center Information Center. Lets try to make this years Tennis Team the best one we have ever had here at STL.

SKIING ANYONE?

Anyone interested in a weekend ski trip to North Carolina this winter, contact Phil Haxton, Box 8796. If there is enough response we can charter a bus, and get group discounts on lift tickets and lessons.

playfair IS COMING!

So what.
You never heard of it, right?
And how good can it be if you never heard of it?
It can be very, very good.

In fact **PLAYFAIR** is so good that in the first month of this year it played at more than 50 different campuses, making it far and away the most popular campus attraction in the country. So... what is it?

Well, that's the hard part. **PLAYFAIR** is almost impossible to describe, because it's not like any other show you've ever seen. Mostly, it's a joyful explosion of laughter and playfulness. If you like to laugh, if you like to feel good (and who doesn't!) then you're going to love **PLAYFAIR**.

PLAYFAIR is a totally new kind of comedy show where the audience members get to meet each other and feel good about each other while the show is going on! Imagine going to a theater with a group of strangers and leaving with a laughing, cheering community of friends. That's what happens at every **PLAYFAIR** performance!

Sounds like something special? You bet it is! Come find out for yourself what all the excitement is about.

PLAYFAIR.
You've just been invited to the greatest party of all time. Be there!

PLAYFAIR WILL BE AT THE NEW GOAT DAY
AT 12:00 NOON ON SATURDAY AT THE ROCK

FERNBANK: ENERGY LECTURE

Wise Use of Energy will be presented as an open forum by Mrs. Margy DeGeorge, Use and Educational Services Manager for the Georgia Power Company, on Friday evening, October 19 at 7:00 p.m. at Fernbank Science Center.

This program will provide an opportunity to better understand how electricity is used in the home and to help users more accurately analyze their personal electric bills. A diagram of a modern home will be shown. This will provide some seventy examples of electrical usage and participants will have an opportunity to identify the large and small users of energy.

On Saturday, Oct. 20 at 1:30 pm a 25-minute film entitled "Now that the Dinosaurs are Gone" will be shown at Fernbank. This film is a probe into the reasons for the accelerated development of nuclear power plants. It faces head-on the controversial issues surrounding the use of nuclear fission in power production, including the effects on the environment,

Mrs. DeGeorge and her family live on a farm in Walton County and, in addition to her professional interest in conserving energy, she is well able to identify with the problems of home users and their need to economize.

storage of nuclear wastes and employee and public safety. This is the most current statement available of the case of nuclear power, taking full account of critics' challenges.

This lecture and film are part of a continuing series on energy that is co-sponsored by the Atlanta Area AAAS and Fernbank Science Center. All lectures and films are offered to the public on a first come, first served basis, free of charge.

For more information on the energy series, please contact the Dekalb School System's Fernbank Science Center at 378-4311.

GOAT DAY?

Friday

Halloween Dance 8:00 PM

WANTED - VW Bug, mechanical condition unimportant. Will buy wrecked VW for spare parts. CALL 973-1226 or Box 8670

The smile says 'go ahead, challenge me.'
It says strength, vitality, and the sureness of success.
It's today's Republic Steel.

We're a vital, forward-looking company in an industry that goes to the heart of American life. For the men and women of Republic, challenges are frequent, sometimes unexpected, and demand all the imagination they have, and a little more.

One of the reasons for the vitality of Republic Steel is our commitment to excellence in management. We are not the largest steel company. But our continuing priority is to be the best managed. And this is a plus for you. Because at Republic, we've refined the practice of management skills to a science. You'll learn our sophisticated methods as you advance in your chosen field.

Entry-level management opportunities are open to all who qualify. Equally, judged on merit alone. We would particularly like to talk to graduates in industrial, mechanical, metallurgical, electrical, and mining engineering, and in accounting, and computer sciences.

We'd like you to meet today's Republic Steel. It has a vitality to match your own. See your Placement Officer for an interview when we visit your campus. Or write Supervisor, College Relations and Recruitment, Department 406, Republic Steel Corporation, P.O. Box 6778, Cleveland OH 44101.
