Volume 5/Issue 15

February 4, 1980

## THE SEARCH IS ON!

The selection process for the first president of Southern Tech as the 33rd independent unit of the University system of Georgia is now underway. The Southern Tech Faculty Executive Committee, working with Dr. Vernon Crawford, acting chancellor of the university system, formed a slate of nominees for the presidential search committee in December. Dr. Crawford appointed the search committee in early January.

Search committee members include representatives from faculty and staff, students, alumni, a representative from the foundation and a representative of the community-at-large.

Faculty and staff on the Presidential Search Committee include Samuel J Baker, committee chairman, director of admissions and registrar; Lawrence S. "Larry" Wft, associate professor, IET; Kathleen Hall, associate professor, mathematics; Robert W. "Bob" Hays, professor of English and social studies; Lawrence V. Johnson, dean emeritus; Robert L. "Bob" Wyatt, head of the AET department; David S. Summers, head of the EET department; and Hans A. Troemel, assistant professor IET, and committee secretary.

Students on the search committee include Barbara Ransom of Marietta and Greg Stephens of Decatur. Representing

alumni on the committee are Mel Campbell of Carrollton and Sam White of Marietta. Jack Kelly of Atlanta is serving as foundation representative; and Jasper Dorsey of Atlanta is representing the community-at-large.

In the committee's first meeting January 18, Dr. Crawford outlined its responsibility to aid the chancellor and board of regents in search for Southern Tech's first president by identifying three to five candidates. The committee is to present the list, unranked as to preference, to the chancellor no later than May 15, 1980 or earlier if possible. The committee selected Sam Baker as chairman and Hans Troemel, secretary; and, the chancellor concurred with the recommendation and appointed the officers.

In a follow-up meeting January 22, the committee approved an advertisement for placement in the March issue of Engineering Education News and the late February issue of The Chronicle of Higher Education. The committee voted to send notices concerning the opening to numerous professional organizations across the country; to presidents of all schools with Engineers Council for Professional Development (ECPD) accredited programs in engineering technology; to deans of schools of engineering; to

the local chamber of commerce; the Georgia Business and Industry Association (GBIA), the Georgia Society of Professional Engineers, and to equal opportunity groups such as the American Association of University Women (AAUW) and the National Association for Equal Opportunity in Higher Education.

Committee Chairman Sam Baker emphasized the importance of input from the Southern Tech community in the selection process.

"The committee feels strongly that the best applicants for the job will come from suggestions made by alumni, faculty, students and other members of the engineering technology community," Baker stated.

Baker further emphasized that all individuals whose names are submitted will be contacted concerning their interest in the job; and, the identity of candidates will remain confidential.

The search committee established April 12 as the closing date for applications. It plans to initiate review of applications no later than Feb. 29. The dates have been set in concurrence with a target date of July 1, 1980 for conversion of STI to senior college status.

Those with recommendations may write:  
Presidential Search and Screen  
Committee  
STI, P.O. Box 403, Marietta, Ga.

## SHOULD AMERICA BOYCOTT THE OLYMPICS

The question facing many of the United States' best amateur athletes is should they participate in a boycott of the Summer Olympic Games in Moscow. The Olympic Games is a sporting event that takes place every four years. This event brings the best amateur athletes from around the world to compete with each other in a spirit of peace and friendship.

Although countries are given recognition by judges who keep scores, by some of the participants and by spectators, it is still the individual athlete or his team that wins the medals. No single country has ever won an Olympia Game.

Many great American Athletes have won medals in the Olympic Games. They've trained from four years to practically all their lives. Our government does not subsidize Olympia training. Contributions for this purpose comes from individuals and corporations. Yet, as an attempt to divert and deal with the Russian invasion of Afghanistan, elected members of our government have asked the American athletes not to participate in the Summer Olympic Games in Moscow. My opinion is that this small stand against Russia's attempt to enforce its political beliefs on smaller nations of the world will in no way

be effective. Lives have been and are being lost. Russia has gained strength and has made many political as well as defensive advancement in the Middle East. It is time for our political leaders to wake up and take a stronger stand against communist aggression. Boycotting the Olympic Games is one way to bring national attention to a world crisis, but it is not an effective method for preventing more attacks by Russia.

When we think about boycotting the Olympic Games, we should give consideration to those athletes who have been in training for the past four years. Think about the purpose of the Olympic Games. Think about how much support you or our government has given these athletes. How would boycotting the Games prevent more of Russia's attacks against the world? The Olympic Games is a sporting event and not a political one. Must everything always evolve around politics? Most certainly not. The Americans who have trained so hard for all these years should receive the glory they deserve. They should be allowed to wear their medal with pride. Maybe by participating in the games, Americans can prove their idealism better. They can be the best sportsman and the best athletes. In no way should

the Olympic Games, an event for bringing people of all nationally from around the world together under a banner of peace and friendship, be made a scapegoat against aggression and for the purpose of deterring political tactics. The Olympic Games is not a political event, but a sporting event.

# LETTERS TO THE EDITOR

Dear Editor:

An occurrence of recent, involving theft of an individuals work at STI has prompted me to seek out your help.

I am a senior AET student very near to graduation. Presently I am working and attending night school. During Spring Quarter of '79 I placed 2nd in the Precast Concrete Design Competition. By mere coincidence a friend informed me that he had seen my presentation at someone's apartment. This was just a few weeks ago at a friendly get-together.

I took my friends statement as a joke, until this week when I went to recover my project from my professor. It was no where to be found. My next step was to pay a visit to this apartment. What did I find? I found three witnesses that will vouch its presence at their apartment. One major problem is that the student who took the presentation was a foreign exchange student. He has since graduated and returned back to his native country of Thailand.

My project? I still don't know where it is--somewhat obvious?

I was told that he had a brother that was attending STI, but the registrar as of three days cannot find he or his brother on the roster!

I need your type of help to locate his phantom brother, also an article in the STing may reach someone who is knowledgeable to the whereabouts of my presentation.

Michael Garrell

Editor's Note: If anyone knows any information that may be helpful either contact the Sting or Mr. Garrell.

CLASSIFIEDS CAN REALLY PAY OFF FOR YOU. THE STING IS OFFERING ALL STUDENTS, FACULTY, AND ADMINISTRATION A CHANCE TO RUN CLASSIFIEDS WITHOUT ANY COST TO THEM; FREE!!!! LEAVE YOUR AD IN THE BOX OUTSIDE OF THE STING-LOG OFFICES BY WEDNESDAY AT NOON FOR YOUR AD TO RUN THE FOLLOWING MONDAY.

LETTERS CONTINUED ON PAGE 9

To: Michael Renfroe

Although I was appointed Director of Programming only hours before your complaint of Wednesday, Jan. 23, I must assume ultimate responsibility for the airing of the mini-concert in question.

As the Director of Programming, my principal duties include the selection and/or censorship of sensitive material. As a matter of policy, no song, public service announcement, live broadcast or commercial may be aired without my review and approval.

The mini-concert in question was produced (taped) during the period between the previous director's resignation and my appointment to the directorship. I did not know of the tape's existence until your complaint.

That mini-concert was erased two days later and will not be re-broadcast.

Unfortunately for you and other listeners, the mini-concert had been played a total of three times this quarter before its erasure.

Oddly enough, Jimmy Buffet's "Why Don't We Get Drunk and Screw" has been in our files for nearly three years and the entire album is well-marked from frequent playing. Hence yours being the first and only complaint in three years makes me less inclined to destroy an otherwise musically perfect album.

Therefore, I have decided to only restrict the airing of "Why Don't We Get Drunk and Screw" to the hours between 9:00 PM and 12:00 PM.

WSTB, I remind you, is an educational radio station, the purpose of which is to teach and acquaint students to the field of broadcasting. Its staff is made up of unpaid volunteers. Throughout each staff member's training, he or she is considered a novice and is al-

lowed to make mistakes in order to learn.

The severe punishment that you recommend for the announcer who aired the mini-concert is both unwarranted and wasteful of a talented young mind. Had his entire show consisted of lewd and suggestive music, his banishment from the broadcasting room would be warranted.

Because of the limited nature of his crime, a stern reprimand with additional drilling in FCC rules and regulations has been issued to the errant announcer.

In reference to the establishment of a Programming Review Board such a board or committee would be unnecessary if specific guidelines for censorship were injected into the by-laws of the radio station.

As for the four juveniles who were in the gameroom while their concert was aired, WSTB can offer only our sincerest apologies and reassure them and yourself that language heard on daytime program will stay within the confines of good taste and grammar.

Additionally, the staff of WSTB recommends that all Southern Tech students in the gameroom and cafeteria refrain from using profane language and lewd suggestion in public. It would be very embarrassing for our parents to visit the Student Center and hear the unrestrained swearing.

Finally, we at WSTB welcome all comments, suggestions and constructive criticism about the station. Any such response can be mailed to me, in-care-of the radio station, or delivered in person. A response is guaranteed and a solution is promised.

Lisbon Blaylock  
Director of Programming  
WSTB

Dear Editor:

I'm writing this article in response to Mr. Renfroe's complaint about the Radio Station Programming. First, of all I would like say that Mr. Renfroe complained of this song, one day later after it was played Mr. Renfroe walked into the Radio Station, located in the old craft shop of the Student Center, started yelling and screaming, and also told one disc jockey, "That I would not trust you as far as I could throw you."

Every Wednesday, at 4:00 PM is a WSTB Radio Station meeting. Instead of going off the air, we simply put on an album. On Wednesday, January 23, we put on the Jimmy Buffet album, when Mr. Renfroe heard at 4:15

PM the song "Why don't we get drunk and screw," The Radio Station should have someone monitoring what goes over the air ways at all times. was a mistake own the Radio Station behave, but the only way we learn by our mistakes.

There is a wide variety of music many people like certain songs which others don't. If anyone finds a song offensive a polite written request will have top priority. WSTB welcomes ideas, comments, and complaints and can be dropped by the Radio Station.

As for the 10 and 12 year olds, if this song is all they are exposed to on a college campus consider them lucky.

David Claywe

# HOME COMING 1980

1980 STI HOME COMING SCHEDULE

Feb 11 & 12 Homecoming Queen voting will take place at a table downstairs in the Student Center, approximately from 9:00 AM to 7:00 PM.

The Homecoming Basketball game will be played at 7:30 PM against the Georgia College Colonels. Support your team!

Feb 14 All Homecoming Queen Finalists will be notified at 7:30 PM by Jean Cushing.

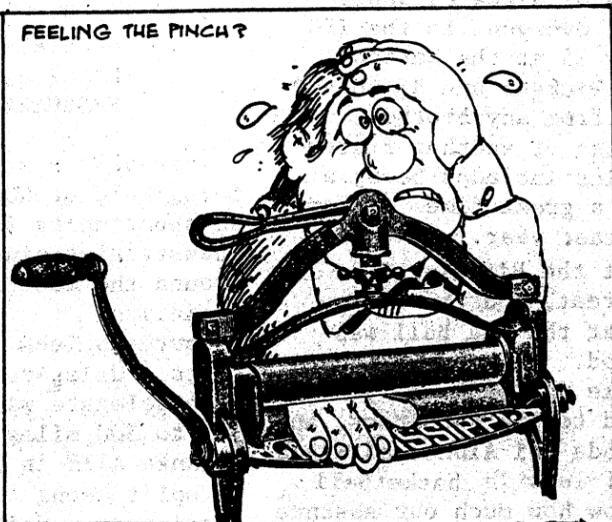

At 9:00 PM the Homecoming Dance will begin in the Student Center Ballroom. At approximately 10:00 PM the 1980 Homecoming Queen and her court will be presented. Also at that time the banner contest winner will be announced. A Rock n' Roll Band will perform. Dress will be semi-formal: no jeans.

Valentines Movie. CAB presents: "The Other Side of Midnight". Admission: 50¢ Student Center Ballroom, 4, 6 and 9 PM.

Feb 15 Tentative IFC Party in process of being planned.

Feb 16 At halftime of the Basketball game, the Banners will be judged. All Banners must be displayed in the gym.

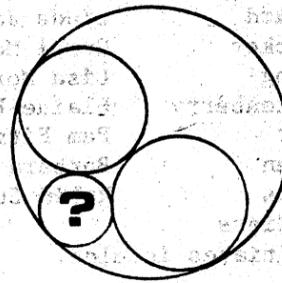

Feb 17 Winter Bathtub Race begins at 3:00 PM after the race, the IFC Leukemia Campaign will be "kicked-off" at the Press Party.

## STINGERS

from de Caux

Al E. Neuman, Bill Beebe and Gene Cole all correctly solved STINGER #2. Some readers have been asking for solutions. I'm against publishing these, but I would very much like the solvers to have the opportunity to present their solution to anyone who was interested. Let me know if you think that room 254 between two and half past on a Friday afternoon might be a good time and place to meet.

Three discs must be cut from a large disc which is 6 ft. in diameter. Two of the discs must have diameters of 2 ft. and 3 ft. How large can the third disc be in these circumstances? Solutions with clear explanations may be left as usual in my mailbox in the Mathematics Department or dropped by my office, 256b.

## microprocessors at factory prices direct from ETC WEST LTD

We specialize in amateur radio equipment, microcomputers, electronic music, and telescopes—

Touch the future now—introducing the Atari 400 at \$549

Where the age of the personal computer begins. The general purpose microcomputer that is not only easy to use but easy to afford. It's programmable in BASIC, the most popular language. Of course, it plays some of the most sophisticated thinking and action games available, with superior color graphics.

It can store, file and give you instant access to data for hundreds of small business and household applications, educational programs and computer games. Add the Atari 410 program recorder and then take advantage of pre-programmed cassettes or write and store your own programs. Applications include income tax, record keeping, algebra, accounting, mathematics, and statistics.

Compare the Atari 400 with the Apple II Plus. Both are 6502 cpu and 24 by 40 text. The Atari has 16 colors with 8 intensities, while the Apple has only 4 colors high resolution. The Atari 400 has a built-in RF modulator with both FCC and UL approval. Apple has neither.

For \$595 list, the Atari 400 (8K) has a 57 key monopanel Ascii keyboard while at \$1195, the Apple has a typewriter keyboard. Why pay the difference of \$646?

With our new RS/232 serial/parallel interface (\$150 retail) the Atari 400 becomes an inexpensive, smart terminal with a modern acoustic coupler. It can be used for time sharing or connected to a variety of parallel printers for hard copy.

For \$549, can you afford to wait?

Announcing *Creative Computing* magazine at 10 per cent off the regular price of \$2 per issue. Number one in providing practical applications and software for personal and business computers. Subscriptions are \$15 per year.

Why buy at a retail store when you can buy direct from the engineers who design electronic systems? We are manufacturer's representatives, systems consultants and wholesalers. We sell to dealers, large and small corporations, and are state and federal approved vendors. End user discounts are 10 to 15 per cent.

# ORGANIZATIONS

## GAMMA PHI BETA

The sisters of Gamma Phi Beta Sorority would like to thank the Lambda Chi's for the party last Friday night. All the sisters of Delta Omicron Chapter of Gamma Phi Chapter from Auburn appreciated your kind hospitality. A very special thanks to Ms. Sue Konrad who supplied the keg for that party. We can't begin to tell all the things that Sue has done for us, so from the bottom of our hearts we would like to say, "We love you Sue!"

As everyone knows, last Saturday night we received our charter. The women who were initiated as chartered members include:

Cindy Ballard	Linda Jascowski
Brenda Blocker	Carol Moore
Jean Cushing	Lisa Morgan
Alecia Fortenberry	Elaine Parker
Kaye Fowler	Pam Pitner
Sherry Green	Barbara Ransom
Diana Hargis	Robin Sutton
Sue Ellen Hiers	

Alumnae initiates include:  
 Diane Hays  
 Sue Knorad  
 Lynn Abernathy Sanders

Congratulations to all these women for their hard work over the past year in achieving our goal of becoming a national sorority.

Our installation banquet Saturday night at the Atlanta Athletic Club was absolutely beautiful. The Atlanta Alums and Grand Council expressed many warm and inspiring thoughts; challenging the Delta Omicron chapter to move into the 1980's with love, labor, learning, and loyalty. We were honored to receive a silver punch bowl set engraved with our chapter name and initiation date from the National Grand Council Officers. Diana Hargis received the Outstanding Pledge Award, and the Cindy Ballard/Jean Cushing due received the Hospitality Award for sharing their apartment with our collegiate consultants. The New Baby Chapter Award was presented to Delta Omicron which was a sterling silver baby rattle engraved with all the chapters in our province. All in all we received many thoughtful gifts from Gamma Phi Beta's everywhere.

Finally, a word of thanks to Dean Carlson for his positive and encouraging introduction as well as to all the members of the Southern Tech Community who attended the banquet. We look forward to doing out part in making Southern Tech a well-rounded and progressive institution, well-known and respected by its students.

## SIGMA PHI EPSILON

We the brothers of Sigma Phi Epsilon want to congratulate the people that were pledged last week.

We also want to remind you that we are holding a First Aid Course on February 26 and 27 in the Student Center Ballroom, please contact a brother or Sue Konrad if you are interested. We have several activities planned this quarter.

The men of Sigma Nu would like to congratulate the new pledges on their decision to accept bids to become a member of the Legion of Honor. The Winter pledge class looks like it will be one of the biggest and best pledge classes ever. Those who accepted bids are:

Steve Polino	Steve Tatum
Greg Shakade	Dan Hartley
Larry Lee	David Shirley
Jim Cooper	

The rush committee did an excellent job this quarter. We should be proud of them.

We would like to congratulate the Women of Gamma Phi Beta on becoming a national sorority. You've worked very hard to achieve this goal and you deserve it.

The ski trip was quite a TRIP this quarter. The snow was little and far between, however, a few found slopes. Everyone had a great time.

Let's everyone start thinking about the tub race and getting ready for it.

## SIGMA PI

The brothers of Sigma Pi would like to invite everyone to the IFC party February 15 at the National Guard Armory. Tickets are \$3.00 and are available from any brother, or any other member of another fraternity. This price includes beer, a live band and a great time. Ask anyone who went last year.

The party at the Hitching Post last Tuesday was great, and the free steak dinner at the Red Bull was equally as good.

We would like to thank everyone who gave blood to the Red Cross, and wish TKE, Lambda Chi Alpha and Sigma Nu the best of luck in basketball, because we know how much our absence will be missed this year, since we are usually the dominate power on the court. Make-up pictures will be Monday, February 4 in the Student Center.

To those who haven't hear, but have probably noticed, there are no paddles being worn this quarter by associate members. This long tradition has finally come to an end. Only the traditional Fraternity pin is worn.

Greek-week, the Leukemia Drive, and our annual destruction of Ft. Lauderdale is up-coming, Keep up with everything because time is getting short. Time and location of the mixer with Georgia State will be announced next week.

You don't know what you are missing if you aren't a Sigma Pi. Come to a meeting on Tuesday night at 8:00 PM in the Student Center. Good luck to everyone in school this quarter.

Congratulations to John and Diane, Donny and Sharon, Stuart and what's her name, on their upcoming marriages.

## TKE

It is time again for the TKE's annual Red Carnation Ball March 1. In order to make our RCB a success we need support. The brothers are raffling off a tank of gas for a \$1.00 donation. There is a 25 gallon limit and the drawing will be held at half time of the Homecoming game, February 16. Also we are raffling off a Timex L.E.D. five function watch. For more information call the TKE House (424-1979) or come to our meetings on Thursday at noon in room 358.

## PI KAPPA PHI

A 54.39% growth rate by Pi Kappa Phi from 1968-1978, is the greatest in the fraternity world. The nearest competitor was Delta Chi with a 36.54% growth rate during the same 10 years.

These figures are not subjective, but actual results of information provided by participating fraternities through a survey by the Fraternity Executive Association.

The top 10 growth fraternities are:

Pi Kappa Phi	54.39%
Delta Chi	36.54%
Alpha Gamma Rho	26.19%
Lambda Chi Alpha	26.09%
Sigma Nu	24.29%
Tau Kappa Epsilon	24.15%
Kappa Alpha	23.53%
Phi Gamma Delta	23.08%
Sigma Alpha Epsilon	22.52%
Sigma Phi Epsilon	22.16%

If you are interested in being a part of Pi Kappa Phi here at Southern Tech contact:

Chris Bridges (Vice-Archon)  
 428-6116; after 6:00 PM

## AIIE'S STUDENT REGIONAL CONFERENCE

NC STATE UNIVERSITY  
 RALEIGH, NC  
 FEBRUARY 21-23, 1980

This year's student regional is being held at NC State. It presents an opportunity for you to meet other industrial engineering students from around the country, share ideas, and socialize.

Southern Tech is permitted to send up to 8 delegates to the conference. Each delegate will be paid 4¢ a mile (up to 500 miles one way) and the Atlanta AIIE is providing \$75.00 to be split among the attendees. Car pooling is permitted! Registration for the conference is \$15. This includes lunch and dinner of Friday and breakfast on Saturday. Registration is paid for one delegate from STI. Rooms are available at \$34 per night for a one person room, \$17 for a 2 person room, \$14 for a 3 person room, and \$12.50 for a 4 person room (per person per night.)

The program includes a student paper competition (with a cash prize for the winner), with Norman Currey and Harold Whitaker from STI competing, presentations by practicing industrial engineers, a tour of the Harris Nuclear Site, a speech by past AIIE International President Sid Gilbreth, and an awards banquet.

If you desire to attend this conference, and it is really a great opportunity to expand your professional development, please see Professor Aft in room 267 to register **NO LATER THAN FEBRUARY 1, 1980.**

## KARATE CLUB

The Southern Tech Karate Club would like to invite anyone interested.

Membership cost a mere five dollars a month. The club meets in the recreation room, Howell Dormitory, every Tuesday and Thursday at 8:00 PM and Sunday at 2:00 PM.

The exercises in karate can improve ones health and state of mind, thus, making participation in the club beneficial to anyone.

ORGANIZATIONS CONTINUED ON PAGE 5

# SERVING THE WORLD AT THE OLYMPICS

ARA Food Services Company, which manages food services for Southern Tech in Marietta, will soon begin providing food services for over 8,500 athletes, support and media personnel attending the 1980 Winter Olympics February 12-18 at Lake Placid.

There's more to the Olympics than just racing events and awarding medals, according to John Scanlan, ARA project manager at Lake Placid. "We're talking about serving 21,000 meals a day at 100 service locations spread throughout a 100-square-mile area," he said. ARA will serve up to 30,000 meals and snacks on peak days.

Athletes from 37 countries will participate in the Games, and responding to the variety of their food preferences and diets requires a diverse and extensive menu.

"Meals must be familiar and easily accepted by individuals, and they must be nutritious and aesthetically pleasing," explains Lew Sprague, ARA's food production manager. "Strange foods may be rejected, so we have tailored the Olympic Village menu to meet a diversity of ethnic tastes."

Five international menus have been developed for each meal at the Olympic Village and will be offered on a rotating basis throughout the games.

Fish will be offered at all three meals for those athletes whose primary source of protein is seafood. Lamb and veal will be served frequently for Europeans who are not beef eaters. Sauces will be prepared with a taste for the European palate, while rice will be wet cooked in the traditional manner, as well as dry cooking for Europeans and Americans.

A typical breakfast will feature one fresh fruit, two hot and nine cold cereals, soup, four different styles of eggs, a Spanish omelet and french toast with steak, fish, ham, potatoes, noodles and Japanese style rice served as protein sources.

Three cafeteria-style meals will be served daily in seven major dining areas for athletes, media, support personnel and security forces. At the Olympic Village, where 2,200 athletes, coaches and team officials are staying,

dinner will be served both at noon and in the evening to accommodate cultural preferences in main-meal times.

Further compounding logistical problems of food service is the staging of several competitive events outside Lake Placid. Alpine and Nordic skiing, ski jumping and sledding events will be held on surrounding slopes.

To serve athletes in those outlying areas, a major part of the food service project will be a box lunch program. Between 4,000 and 7,000 lunches will be delivered daily to the sites. These lunches feature sandwiches, cheese, fresh fruit and vegetables. Because winter temperatures at Lake Placid can remain far below zero for extended periods of time, ARA is utilizing heating components in transport trailers to keep the box lunches from freezing.

For those athletes who have time for partying, the Olympic Village Disco menu features an intriguing smorgasbord of international cuisine ranging from cabbage rolls to poached turbot with Hollandaise sauce.

Scanlan said that ARA took advantage of its computerized food operations systems to pre-plan massive food and supply requirements.

A sample of the order: 54,000 pounds of strip steak, 5,000 pounds of coffee, 15,000 pounds of smoked ham, 20,000 pounds of pasta, 280,000 cookies and eight tons of bacon.

Fresh fruit is the most popular food at any major international sporting event, according to Sprague. Accordingly, ARA has 100,000 each of apples and oranges and eight tons of bananas on hand.

ARA Food Services Company is the food service management division of Philadelphia-based ARA Services, Inc., the largest service company in the world and no stranger to international athletic events. It was the first professional management company to provide food service for an Olympic games, beginning in Mexico City in 1968. The company repeated the feat for the 1976 Summer Games at Montreal and the Pan American Games last summer in Puerto Rico.

# HEART ASSOC.

Beginning and experienced runners from many parts of Georgia are warming up for the 3rd Annual Rockdale Heart Fund Race in Conyers on Saturday, February 23.

The Rockdale County Runners Club and C & S Bank of Rockdale are sponsoring the race to benefit the American Heart Association in the fight against heart disease.

Both a five-mile race and a one-mile novice event will be featured. Starting time is 9:45 AM at Rockdale County High School.

"The race has become an annual event that runners look forward to," according to race chairman Francis Cooke of the Rockdale Runners Club. "It gives us a chance to support the fight against heart disease while stimulating interest in the role exercise can play in cardiovascular disease."

"The Rockdale Runners Club is a community-minded as well as fitness-minded organization," Cooke said. "The club is open to anyone who wants help with a fitness or running program."

Contact club president Herb Snedden at 483-9787 or vice president Linda Addis at 483-4229. They'll be glad to help," Cooke said.

The entry fee is \$4 in advance and \$5 on race day. All finishers will receive 5-shirts, and awards will be presented to the top three runners in each division. Age categories for male and female runners are as follows: pre-teen, 13-18, 19-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54 and 55 and over.

Entry forms are available at a number of sporting goods stores in the Atlanta area or by contacting Francis Cooke or Jerry Dockery of the Rockdale Runners Club, P.O. Box 94, Conyers, GA, 30207. Phone numbers are (404) 483-8509 or (404) 922-5390.

Proceeds from the event will be used to fight the number one killer, heart disease, through research, high blood pressure screening, CPR training and education.

# 1980 ROAD TO ADVENTURE

DELA PLANE, Va, Jan 24--The trend for travel in the 80's will be toward outdoor recreation and creative low-cost trips, according to American Youth Hostels, travel planning specialists for 46 years.

The 1980 "Highroad to Adventure" a new brochure which is available free from AYH, describes a wide variety of trips for all age groups. Some have been specially designed for adults, others for youth and there is a category of trips open for both, domestically and internationally.

The trips are as diverse as the people who take them. They range in length from 5 to 48 days and in price from \$160 to \$1950. Adventures include snorkeling the colorful reefs off French Polynesia, cycling the green hills of Ireland, a crafts seminar in the Delaware Water Gap and tracking the great grey whale off the coast of California. Methods

of travel vary from cycling, hiking, skiing, sailing, canoeing and rafting to automobile and public transportation.

All the trips and tours share one element in common--hosteling. Hosteling is many things--living out of backpacks and saddlebags and staying in homes-away-from-home ranging from historic trust properties to farm houses, cabins in the mountains and castles in Europe.

In addition to pre-planned trips, the AYH travel department will design and make arrangements for special groups who wish to create their own tours.

The American Youth Hostels' "1980 Highroad to Adventure" brochure is available free from the AYH Travel Department in Delaplane, Virginia 22025 or by calling toll free 800 336-6019.

(CONT. FROM PAGE 4)

## TAU ALPHA PI

Tau Alpha Pi National Honor Society would like to welcome the following students who have been approved for membership:

Debra Curtis	Benjamin Mitchell
George Varn	Mitchell Stathan
Robert Flowers	Jonathan Summey
Jim Bailey	Fred Talley
Racy Sutton	Neil Zerbe
Lien Hollingsworth	

Tau Alpha Pi's next meeting will be Thursday, February 14 in room 77 at 12 noon.

# SPORTS

## Hornets Quiet Lions Roar By Ken Shaw

The Running Hornets journeyed to Demorest to play the Piedmont Lions last Wednesday, despite lackluster play during the first 30 minutes of the game; Southern Tech won going away 77-70.

Only Cyrus Hunter, who ended up with 20 points, provided any excitement with his super 5 for 5 field goal shooting in the first half. Tied up with two minutes to go in the half, the Lions held the ball for the last shot and got a tip in at the buzzer to make the score 34-32.

Slow tedious play characterized the start of the second half. Then with the strong board work of Vincent Minor and Steve Jackson the "Running Hornets" started living up to their nickname as they slowly gained a ten point lead. Thanks to the good floor leadership of Mike Jones and Mike Woods, the team held this lead until Piedmont was forced to foul. When Steve Jackson and Ken Shaw shot a total of 16 free throws and made 14 of them, the Lions could come no closer than the final seven point difference.

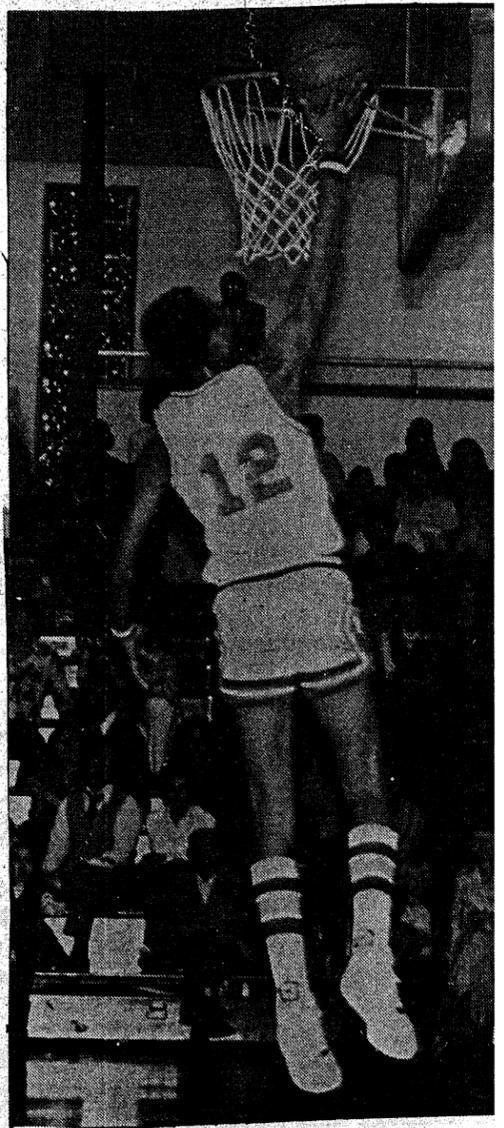

## Running Hornets Outrun Colonials By Ken Shaw

Last Saturday, Southern Tech visited Georgia College in Millgeville for an important conference game, at the time Georgia College was in second place in the conference but the Hornets knocked them down to third place with a 94-76 victory.

Once again Cyrus Hunter had a super night. He had 30 points with 61% shooting. In the first half when Cyrus had a hot streak the Hornets jumped out to a 24 point lead. Georgia College managed to close the margin slightly by the end of the half, the score being 46-28.

The trading bucket for bucket seemed to be the characteristic of the second half. Both teams played exactly even in a run and gun style and the Southern Tech team coasted to a 94-76 win.

The Hornets had fove players in double figures. They were Cyrus Hunter(30pts), Billy Bromell(16pts.), Baxter Thomas (13pts.), Vincent Minor(11pts.), and Steve Jackson(10pts.).

LETTERS TO...

: Mike Renfroe

"A long, long time ago, in a galaxy so very far away, an SGA president at Southern Tech and a general manager of the Radio Station also at Southern Tech, were engaged in a battle that would change the very nature of the communications media on this campus."

"The battle waged was due to the nature of programming activities at a radio station, heretofore referred to as WSTB, i.e., whether the management had the right to broadcast the SGA meetings' proceedings (live and edit-free), with-or-without the blessings of the SGA officers-in-charge. This battle continued for most a year, neither side originating any real, moral victory to speak of. The battle subsided, finally, in new SGA Representatives were elected."

The synopsis of the perspective in the above story is very simply that the goals and opinions dictated by the present administration in our "governing" body, i.e. the SGA, are by no means permanent and not-necessarily free from faults, no matter how well mentioned.

I refer directly to Mr. Renfroe's letter to Dean Smith, dated January 24, 1980, in which he attempts to dictate principles of programming, contrary to the United States Constitution, the Communications Act of 1934, the SGA Constitution and by-laws, and the Constitution of WSTB.

I will agree, that this is not the first time that member(s) of the SGA have tried to wield more sword than

they have hilt, but flagrant outcries of non-substantiated rhetoric such as this, is deplorable.

I also admit, that the same "bill of rights" that protects the freedom of programming of WSTB, also protects Mr. Renfroe's rights, not to listen. This is what Mr. Renfroe's referral to the "right of freedom of speech," so eloquently put, pitifully proclaims.

As far as the idea of a "Programming Review Board" is concerned, the SGA nor the Administration has the "supreme right" to undercut the powers of the Federal Communications Commission. The FCC has had 46 years to engineer rules and regulations that it, and it alone may police, and police them they do. If anyone has questions pertaining to this, they may call the FCC and ask about fines and imprisonment due to broadcasting obscene materials. Why, they've even derived the definition of obscene material down to seven (7) deadly little words. Screw, I'm afraid, is definitely not one of them. However, if Mr. Renfroe wished to become aware of these seven, he should seek me out, and I will tell them to him: using each appropriately in a paraphrase sentence, to further broadcast their meaning to him.

We are all aware that some parents, that are students, must bring their children with them in order to be able to attend classes. These children usually attended to, are probably brought into the Student Center to be entertained by television, pinball, or pool/ping pong in the recreation room. Sometimes, these little tykes

may wander off into other parts of the Student Center. Possibly in their treks they may wander into the ballroom, on Thursday's, and may see an "R" rated movie, without any restrictions to their age for admission. Or, the little tykes may wander into some other "room" or "office" where some alcoholic beverages are being consumed; again, without restriction.

Mr. Renfroe's panic is probably well founded in his mind, but quite alarmist as far as I am concerned. His punishment advice and subsequent "hours of broadcast freedom" are also in error, as far as "curfew" being before 6:00 PM. A vast majority of the youngsters that appear in the Student Center, do so usually after 6:00 PM, when mommy or daddy or both, are in classes at night. Contrary to campus activities, some people have to work for a living, and attend classes at night to better themselves. We don't need any "witch trials" on this campus in order to generate something for the SGA or Administration to do, separation will keep both on their toes, for quite some time.

In closing, I would like to use a favorite saying of mine that was originally dealt as a blow in a journalistic feud between WNBC and The NEW YORK TIMES:--"The written word is merely a tool, misused and abused by the blithering idiot, that can do naught, but drool."

Joey Watkins

ARE YOU NUTS ABOUT GEORGIA?

In a continuing effort to make citizens more aware of the value of our state's natural resources, The Georgia Conservancy asks in its 1980 membership drive, "Are You Nuts About Georgia?"

Do you want Georgia's rivers to be fishable and swimmable? Do you think safer energy sources and clean air are needed? Do you love our mountains and coast?

The Georgia Conservancy does.

The Georgia Conservancy is a non-profit environmental organization that merits your attention. As well as being currently involved with air and water quality, new energy sources, education and land use projects, the Conservancy has been instrumental in the protection of Cumberland Island, Panola Mountain State Park, the Chattahoochee River Park, the Okefenokee Swamp and numerous other vital projects.

The Georgia Conservancy is seeking new members and people who are interested in getting involved. Learn how you can make a contribution to the future well-being of you and your children.

# PARTY TIME

An independence celebration open to all students, faculty and staff, alumni and other friends of Southern Tech will be held on campus Friday, February 15 from 7 to 9 p.m. in the student center ballroom.

The independence celebration will be a semi-formal reception commemorating the Board of Regents December decision to make Southern Tech the 33rd independent unit of the University System. In addition to the Southern Tech community, presidents of other university system colleges, elected officials and other dignitaries, as well as other special friends of the college have been invited.

The reception will feature a brief presentation ceremony during which representatives from the Student Government Association, faculty and alumni will accept awards. Special guests will be recognized; and,

refreshments will be served.

Also slated for the weekend is the annual Winter Bathtub Race. Time trials for the race will be Saturday morning; and, the race is scheduled to begin at 3 p.m. Sunday (Feb. 17) After the race, a campaign by the Interfraternity Council to raise money for the leukemia research will be "kicked-off" at a press party in the student center. This will be the second year that IFC has cooperated with the Bathtub Racing Association to raise money for leukemia research.

The homecoming basketball game will tip off at 7:30 p.m. in the gym Saturday. The Runnin' Hornets will challenge the Georgia College Colonels.

After the game a homecoming dance is scheduled in the student center to begin at 9 p.m. The homecoming queen and her court will be presented. Admission is free.

# DANCE-A-THON

Have you ever wanted to participate in a real, honest-to-goodness dance marathon? Well, this is your chance because 'There Is Only ONE Easter Seal Dance-A-Thon' each year and the 1980 edition will be held February 15-16 at Cumberland and Southlake Malls.

This annual event, sponsored by Z-93 Radio, benefits the Atlanta Easter Seals Rehabilitation Center and has become so popular that devoted dancers started collecting their pledges as early as Thanksgiving in anticipation of the 24-hour long marathon. It is more than just a dance marathon: cloggers, clowns, professional dancers, Z-93 disk jockeys, and other celebrities join the dancers to turn the event into a real party that is looked forward to all year long.

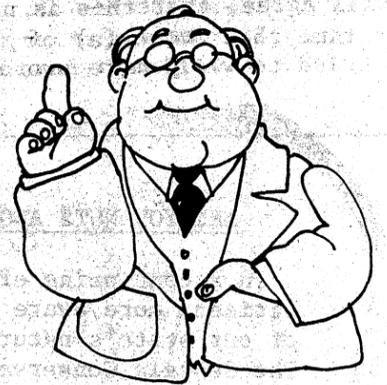

Prizes will be awarded to the dancers collecting the most money at each mall and dancing the entire

24 hours: First prize is an SDT-9310 Hitachi Stereo System, courtesy of CMC Stereo Centers and 25 albums; Second prize is 25 albums, courtesy of Turtles Records & Tapes; Third prize is a Polaroid One-Step Camera, courtesy of Wolf Camera. All dancers will receive a souvenir Dance-A-Thon t-shirt too. Food will be furnished for the dancers and volunteers by Krystal Restaurants.

Participants need to pre-register and may do so by picking up an entry blank at any CMC Stereo Center, Turtles Records & Tapes, Z-93 Radio, Cumberland and Southlake Malls, and mailing in the attached form. Each dancer must raise a minimum of \$3.00 per hour (total of \$72.00) to be eligible to participate. All donations will be collected by the dancer in advance and turned in at the Dance-A-Thon.

For more information on Dance-A-Thon details, or how you can get involved call: 266-1360.

# PLACEMENT

Some of the interviews scheduled this quarter as follows:

- Mon, Feb 4--Southwire Co.--EET, IET, MET
- Mon, Feb 4--TRW Bearings--IET, MET
- Tues, Feb 5--Westinghouse Electric Corp--EET, MET
- Wed, Feb 6--Blount International Corp.--CET, MET
- Wed, Feb 6--Industrial Risk Insurers--CET, EET, IET, MET
- Wed, Feb 6--McDonnell Douglas Corp.--EET, IET, MET
- Thurs, Feb 7--Levi Strauss--IET, TET, AMET
- Thurs, Feb 7--Square D Company--EET, IET, MET
- Fri, Feb 8--Milliken & Co.--EET, IET, MET, TET
- Fri, Feb 8--TWR Globe Motors, Inc.--EET, MET

All graduates using services of the placement office should complete a registration card and a class schedule. See Mrs. Howard in Room 122.

All graduates interviewing through the placement office should leave a copy of resume in the OPEN RESUME FILE in room 125.

Students looking for full-time day work or possible night shift work should check the IMMEDIATE JOB LISTINGS in bin in Room 125.

The next LENDMAN CAREER CONFERENCE will be February 12 and 13 at Century Center Hotel. Special conference for EET's morning of February 12. Additional information will be posted on this when received.

NIGHT SCHOOL STUDENTS can see Mr. Van Gorder to get into the placement office after 5:00 PM to review jobs. If you are using the office, please contact us about completing a registration card and leave copy of your resume in OPEN FILE.

## NOTICE

To assist students in their employment search and for this office and staff to provide this service within the legal guidelines of the Family Educational Rights and Privacy Act, all students using the placement office services are requested to sign a statement for releasing academic information to employers. This waiver statement does not prohibit a student from using the placement office; however, it provides said office the knowledge of whether to release such academic records to employers who are considering a student for employment.

This statement is printed on back of our registration card for graduates. Graduates who completed a registration card prior to winter quarter, should come by and complete a new one.

## CAREER VIDEO CASSETTES

The placement office has purchased three (3) video cassette films that will assist graduates in the interview process. It requires about one (1) hour to view all three tapes.

The cassettes can be checked out at the placement office. They should then be taken to the front desk in the Library where you obtain permission to use one of the two video playback machines. Instructions for proper use are posted at the machines.

Any student (day or night) who wishes to use the cassettes, please contact the placement office, administration building.

# 2 YEARS

education

When you're thinking about college you've got to be thinking about money. Lots of money these days. College is also a good reason to think about the Army. Yes, the Army. The Army's Educational Assistance Program is

available not only for 3 and 4 year enlistments, but now in special career fields you can do it in two. You can accumulate well over \$7,000 for college in that short time. Ask your Army Recruiter for the details.

Call 427-8411

## COLLEGE POETRY REVIEW

The NATIONAL POETRY PRESS announces

The closing date for the submission of manuscripts by College Students is **February 15th**

ANY STUDENT attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred because of space limitations.

Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well.

MANUSCRIPTS should be sent to the OFFICE OF THE PRESS.
