Battlo Iron - Works;

Together With

Battho Iron - Works

at the forks of Little Egg-Harbour siver, one of the most healthy foots in New Jerfey, 38 miles by land from Philadelphia, and within a few floor's this of New York.

The river, communicating eith the fea by the beft inlet on the Jerfey coad, is navigable for veilels of 200 tons within a few miles of the works; those of the too the terfey within one mile: flats and knows, carrying to or 12 tons, load and unload at the works. The utilal freight to New York or Philadelphia is 10 fibilities per toin. The turnace flream affords pleasing of the works, and the works are utilated to the large the same ty of water, in the dry the fastor, to 7 or 4 pair or mill flones, hediest jupplying the iron works.—An excellent dam, which has been increasing in strength man, years by the cindel from the furnace, is well fecured from the danger of firelies, and the works are feared; extentioned to the favored the formatter than the danger of firelies, and the works are feared; extentioned to delayed by elther ice or hacks water, though the tide fwells to the 1 out of the dam smills may threefore be creeded at a monerate expender. This being a part of the country in which many popile and many threefore be creeded at a monerate expender. This being a part of the country in which many popile and many terms are necetifarily employed in collecting and preparing for marked the iron and lumber will which it is abounds, and at the fam, fine lily adapted to the cantinue to be, a demand for large quantities of midlings, cornell, thots and brad, at advanced prices and the connecinent of conveying flow at a slight capence, either to New York or Philadelphia, or 16 more distant mas kets, will not be overlooked nor confidered the family most and prices and the connecinenc thrist to almost any other mills now in being.

The FOR N at GE, which by the fact and convenience thrist to almost any other mills now in being.

The FOR N at GE, which by the trainfing and kindig as well as Excellent bar from.

A FOR N GE, wi

the furnace, on another fine flream which affards pleud ty of water.

A SLITTING and RULLING MILL; having been diffed for the laft two or three years, may wans fome repairs to prepare it for ute; but the tonibays and gates are in perfect order, and being in the proper just for grift mills, may be appropriated to that ute.

Two SAW MILLS in good order, and a final Grill Mill.

The MANSION HOUSE is elegantly fittinated about too yards from the fulnace, on an height which commands a view of the whole works, and of the two villages formed by the furrounding buildings belonging to the eflate, fuels as barns, thables, cout houfes, workhops, thorhoutes and the delians for work near. Adjoining the manifon house is a large and routitul garden, offording plenty of vegetables, and well flored with those in front trees: allo a young bearing orchard, containing near 2000 apple trees, mollify gratted.

Trivile excellent accommodations for extensive and profitable uranufactories, as: offered to fale at a very low rate, and on terms in payment calculated for the eafe of the potentiales, who may pay the greater partie the produce of the Iron Works, at a price to be agreed upon; and they use capable of producing more in one year, than will pay the whole pitce dunanded. For particulars, opply to WILLIAM SICHARDS, at the fash Works, JOHN COX at Bloomfoury, neaf-
