The Sting

The March Is On

On Monday, the Runnin' Hornets began the march that hopefully will lead to another District 25 championship. A crowd of over 3000 saw the Hornets get off to a shaky start against Covenant College of Tennessee. The first half saw the visiting Scots take an early lead over obviously nervous Southern Tech. The first also saw coach Perides play ten players. At the end of the first 20 minutes the Hornets led by a score of 42-31. Although the halftime score was surprisingly close, the overflow crowd still expected the Hornets to break the game open in the second half. In this reporter's opinion, there were three significant positive signs during the first half. Angelo Anthony put an end to coach Perides' search for the complete point guard. He exhibited leadership, quickness, outside shooting, and great defense. Jerome Powell came off the bench to collect 8 rebounds in the first half. A fact that even had to bring a smile to coach Perides. The third positive sign was that ten players contributed in the first half in a relatively

close game. The second half opened with Allen Payne hitting his first three shots of the half before the "Scots" called timeout. The Hornets were now displaying the type of defense that Hornet fans have been accustomed to. The Hornets limited the visitors to twenty-five second half points while scoring fifty-five themselves. The Hornets shot 59% during the first half while stifling 33%, due mostly to a great defensive effort by the Hornets. The final score 97-56-Hornets. Leading scores were Allen Payne with 18 points, Randy Ridley with 16 and Rodney Carter with 13. Jacobey Simmons also hit in double figures with 11 points. Jerome Powell hit the boards with 14 rebounds for the game. A fine effort was turned by reserve Rodney Carter who collected 5 rebounds and also shot 11 out of 12 from the free throw line. Point guard Anthony along with Payne led the team with 6 assists apiece. The largest cheer of the evening occurred when Marietta's Ron Porter entered the game with six minutes

remaining. The freshman calmly contributed 5 assists in six minutes with no turnovers. The crowd also responded loudly when popular reserve E.T. uhh pardon me E.J. Abood recorded his first points in his career as a Runnin' Hornet.

In words of coach Perides, "not bad for opening night. Once we got past the opening game jitters we jelled into a team. We'll be alright!" This reporter agrees.

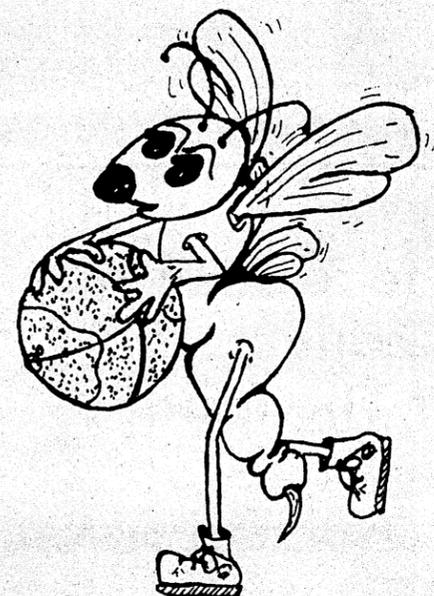

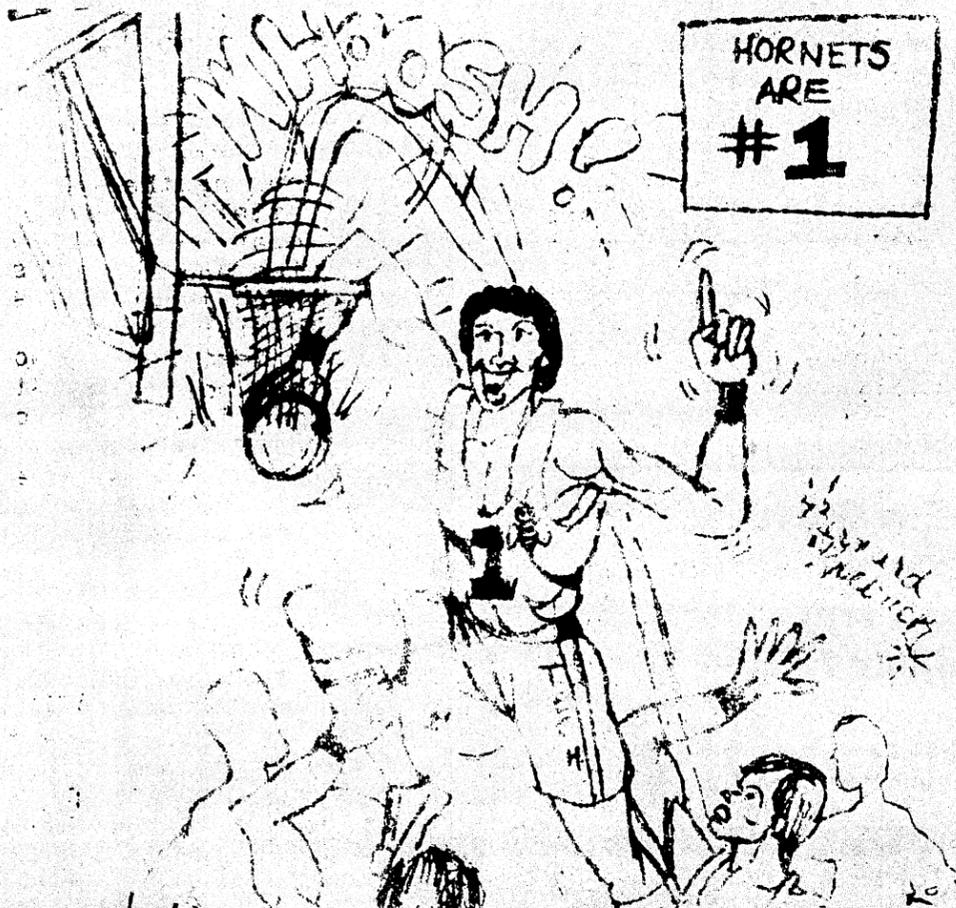

Highlights: Tied record for steals with 25; great second half defense; outside shooting highlighted by Randy Ridley hitting 7 in a row during a six minute stretch during the second half, all from the downtown range; the rebounding of Powell, with help from Carter and Simmons; 27 assists Bench help; we won.

Lowlights: Allowed Covenant to collect 12 offensive rebounds; inside defense, allowed Greer and Coogler to score 37 points and collect 14 rebounds.

Athanks to everyone who help make Hornet Holiday Youth night an overwhelming success. A special thanks to Mr. Porter for supplying the Hornets with buses full of screaming enthusiastic fans.

Next game: Friday Nov. 19th at 7:30 against District 6 power Allen University of Columbia S.C. who recorded an impressive 98-91 victory over District 25 power Florida Memorial.

THE NEWS

CPR Saturday

The Metropolitan Atlanta Chapter of the American Red Cross will conduct a one-day CPR (Cardio-pulmonary Resuscitation) training event on Feb. 12, 1983. The Red Cross' goal is to train up to 3,000 Atlanta citizens in CPR during that one day.

The course, "Race for Life," takes approximately three to four hours to complete. Students will learn to perform the lifesaving techniques of artificial respiration and one person CPR.

Locations are: Clayton Jr. College, Morrow; DeKalb Community College, Clarkston; Southern Tech, Marietta. Time will be 9:00 a.m.-5:00 p.m. There is no cost. Mail-in registration will be accepted beginning January 3, 1983. Mail to: "CPR Saturday," American Red Cross, 1925 Monroe Dr., NE, Atlanta, Georgia, 30324. Phone registration will run from Jan. 17-28 at 881-6667. Affiliate organizations are: Georgia Heart Association, WGST Radio and WXIA-TV. Be sure to sign up in January and bring a friend.

This organization needs volunteers to assist them with clerical operations on Feb. 12, 1983. Any group or individual interested in providing this service should contact Mark Kozera at 881-9800 ext. 449; they are willing to offer a separate training session for the group that helps them.

Growth of Small Colleges

Small colleges today are being better known to the world as a whole. More and more small schools today are turning out more students than some major schools. A lot of kids today would rather attend a small college than a large university; therefore, I think the smaller schools are getting a lot more people than they expected. Students are looking for a school with a small environment. I think myself that in a school with a small atmosphere you will be able to know everyone who's around you, and you will feel more at home. Students will be able to concentrate more on their studies without being interrupted by the wild campus life that occurs at most larger universities. For students at a smaller school, the teachers will get to know all of their students and be able to remember their names instead of their faces.

In my opinion the smaller schools have a big advantage over the larger schools because students at a small college will be able to communicate better in the atmosphere that surrounds them.

Outstanding Faculty Award

It is that time of the year when you have the opportunity to nominate a member of the teaching faculty for the outstanding faculty award.

Last year's recipients of this award have prepared a list of nomination requirements, and those requirements are listed on the back of the attached nomination form. Only those nominations that are completed according to the instructions listed will be considered. Last year's recipients will screen the nominations and provide a list of candidates to the Academic Dean, who will make the final selection.

For nomination forms, please contact the Academic Dean's office. All nominations must be submitted to the Dean's office by 5:00 pm on December 1, 1982.

Greek Life

IFC

The life of a college student is a unique one. For about four or five years a college student's life is preoccupied primarily with classes, labs, and tests. When not studying, a student is usually looking for something to fill his spare time. A student's college career can be best fulfilled through active participation in a Greek organization. Fraternities and sororities offer students the opportunity to get involved in academics, athletics, service projects, fund raisers, campus activities, and social functions.

Greek organizations promote academics through study sessions and test files. Athletics are promoted through participation in intramural football, basketball, volleyball, and softball. Since projects are designed to help the community, not necessarily by raising money, but by doing work that some deserving organizations cannot afford to do themselves. A good example of this is Lambda Chi Alpha's project to lay brick and concrete for steps and a walkway at St. Jude's Church or Pi Kappa Phi's project to raise money for play units for Severely Handicapped Children. The fund raisers are projects that fraternities and sororities do to raise money to finance their other activities. An example of a successful fund raiser is Sigma Nu's House of Horror. Campus activities are supported by Greeks through participation. The bathtubs sponsored by Sigma Nu, Tau Kappa Epsilon and Lambda Chi Alpha, five clubs all together, is a visible example of this.

Social functions, by far the most popular Greek activity, are exemplified by parties, road trips, and formals.

Another important aspect of Greek life is the fact that Greek organizations offer its members the opportunity to use their leadership potential. Some facts that prove the leadership ability of Greeks are: 59% of all fraternity men persist to graduation, compared to 45% of all non-members; 76% of the U.S. Senators are fraternity men; of the 750 largest corporations, 70% of the officers are fraternity men; 71% of the men listed in "Who's Who in America" are fraternity men; and only two presidents in the last century were not fraternity men.

November 19, 1982

It is obvious that participation in a Greek organization is not only beneficial to a student's college career, but it is a benefit that they can be used for the rest of their lives.

Southern Tech
Interfraternity Council

Gamma Phi Beta

Gamma Phi Beta has been very busy this quarter with Rush, Goat Week, Socials, and the Bathtub Race. **RUSH !!!** We had a successful Rush Fall Quarter thanks to all the help we received from the Sisters and our Alumnae. A very warm thanks goes to Randee, our Rush Chairman. Congratulations on a good Rush! Our new pledges are:

Kim Bailey DeeAnne Gasaway
Chris Bomeisl Louise Gattis
Shelley Cagle Cathy Kanney
Sandy Cole Mitzy Summers

SOCIALS !!! Gamma Phi has been having fun, fun, FUN!!! Oct. 8th Gamma Phi got together with Sigma Phi Epsilon for a night of Southern revival. Everyone came dressed in Civil War period clothing and danced till dawn. On Oct. 20th Gamma Phi changed into our P.J.'s and headed for the TKE house for a great party! You should see what some of those guys wear to bed! We had a great time, Thanks Guys!! **GOAT WEEK** Another Goat Week has come and gone. We would like to congratulate all the people who participated in the talent show, it took a lot of courage! Gamma Phi would like to spot-light Barbara, Wanda, Chris and a special friend, Pam, for representing Gamma Phi with their GO-GO medley. It was cute!

Gamma Phi teamed up with Pi Kappa Phi for the Anything Goes competition. Together we took the **THRID PLACE TROPHY!** Way to go!!

We would like to extend a very special thanks to Erik, for placing his body in our hands for the reverse beauty contest. Second place is great!!

BATHTUB RACE The Bathtub Race zoomed by Halloween afternoon. Gamma Phi kept people well fortified with food and drink.

Our pledges would like to thank everyone who supported their bake sale on Sunday and Monday.

COMING EVENTS Gamma Phi Beta will be celebrating our 108th Founder's Day Anniversary Sunday, Nov. 7th. We would like to thank our Alumnae for making this day special for us!

We are looking forward to a Social with the Pi Kappa Phi's on November 18th.

And how was your week?

Stacey Hisey, P.R.

TKE

Fall quarter is really going well for the brothers of TKE. We had a very successful rush, thanks to William Gatling our Rush Chairman.

Congratulations to our Associate members. They are: Bill Scalia, Cliff Leatherwood, Doug Carter, Kennety Holloran, Lamar Owen, Steve Dunn, David Fussell, Clay Moore, Jack Pierson, David Millen, George Yates, Bill Beacham, Ty Coleman, Tony Garcia, Robert Akin, Tim Riley, Jim Hamlin, Bill Gural, Richard Thode, Dwayne Lassiter, and Mike Strauss. Good luck in TKE.

TKE would like to thank the sisters of Tau Beta Alpha for making our TKE-TBA rush party a success. Ask K.D. about the full moon on that night.

TKE would also like to thank the sisters of Gamma Phi Beta for making our pajama (hunch-punch) party a success. A special thanks goes to Barbara Johnson.

The talent show was a real blast. TKE was represented by Tim Murphy. Murphy was up to his usual antics. Way to go Murphy.

The TKE-Alumni Football game was held Saturday, October 30. Many TKE alumni returned and really showed the undergrads how to play football. Good luck next year undergrads.

The TKE Annual Halloween party was on Friday, October 29. Many people showed up in the most unusual costumes. The pumpkins in the yard were great. Many of the costumes were outrageous. Alumni Eddie Nix came as a Hershey Kiss, and Associate Jack Pierson came as Frankenstein. The house really glowed in the color of TKE red. Where are the white light bulbs George?

The TKE football team is really having a fine season. Way to go team.

TKE has many more activities planned for this quarter. The wild turkey party and the TKE-TBA toga party. So guys, hit the books and make good grades.

Harry Sailors
Communications Committee

Pi Kappa Phi

The brothers of Pi Kappa Phi will be attending the dedication of the newest P.U.S.H. unit at the Georgia Retardation Center. P.U.S.H. stands for Play Units for the Severely Handicapped -- Pi Kappa Phi's national philanthropy.

The girls of Gamma Phi Beta really know how to shake a leg -- thanks for making our wine and cheese party such a success.

Kreg Harrison
Historian

SPORTS

Sporting Outlook at Southern Tech

The sports program at Southern Tech is different from that of a major college because Southern Tech only provides three sporting activities in which one can participate. These sporting games are basketball, baseball and tennis. Even though they have only these three, they have very good teams at Southern Tech. The basketball team has been to the national

Intramurals at Southern Tech

Intramural athletics at Southern Tech are growing better and better every year. The program is providing some athletic activities for the students who are unable to participate in one of the organized sports fields such as baseball, basketball and tennis. The Intramural Department, run by intramural director Ron Wofford and assistant Tyrone Dean, is providing games such as flag football, basketball, volleyball and softball. These intramural games are held so that there will be at least one sporting event going on each quarter. During the fall quarter they have flag football and volleyball to entertain all students who wish to participate in the activities. The winter quarter is the quarter in which the basketball team is having games. During this time the intramural department provides basketball for all who are interested in playing. The Intramural Department uses the same rules as all official basketball games use.

When spring comes around, then it's time for intramural softball. Softball is really an enjoyable game, and the Intramural Department makes it much more fun for everyone. At the end of the softball season, there is always a state tournament sponsored by the Intramural Department where teams from many schools in the Georgia area participate and make a little more competition for the game, but the best part is that the Intramural Department provides trophies for the best teams in the conference and all-star t-shirts for all the tournament players on the teams, which are given at the Intramural Banquet at the end of spring quarter.

tournament for the past five years. They have won the district championship five years in a row and the conference championship four times in a row. This is all due to the coaching of George Perides.

The baseball team, which seems to improve every year, is coached by Charlie Lumsden. Coach Lumsden's team is still on the verge of winning the district title and making it to the baseball national tournament. The 1983 season looks as if it will be a real interesting and productive season

for the baseball Running Hornets, so if you have the time or can make the time, support them, for this could be the year of the Hornets.

The tennis team coached by Coach Tucker has not been at it that long, so they haven't yet been able to win the big tournaments, but under Coach Tucker they are definitely getting to be tournament material. This could also be the year for the tennis team, so all of your support to the tennis team is needed so they can go all the way.

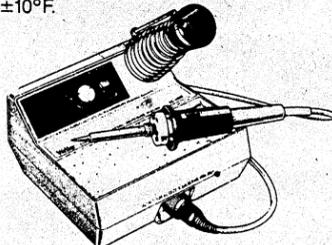

PLEASE DON'T FORGET TO SUBMIT YOUR ENTRIES FOR THE FACULTY AWARD NOMINATIONS!!!! THIS IS A VERY IMPORTANT OPPORTUNITY FOR YOU TO RECOGNIZE THOSE FACULTY MEMBERS THAT YOU FEEL HAVE DONE A PARTICULARLY OUTSTANDING JOB THIS YEAR.

NOMINATION FORMS MAY BE OBTAINED FROM THE ACADEMIC DEAN'S OFFICE AND MUST BE SUBMITTED BEFORE 5:00 pm ON DECEMBER 1, 1982.

For Your Information

From
Edward M. Elmendorf, Deputy
Assistant Secretary for
Student Financial Assistance

Newspaper, radio, and television reports of substantial cuts in Federal financial aid to college students have triggered a barrage of phone calls to the U.S. Department of Education in Washington, D.C.

Caller, both students and parents, are often confused by misleading or incomplete information. Many have expressed fear that the government has let them down; that college is no longer affordable.

It is true that student financial assistance programs have undergone considerable change in the past two years. There have been some reductions. Most of the changes, however, reflect an effort to return the aid programs to their original purpose, which was to help students cover the cost of a college education -- not to carry the whole burden. A successful return to original intent will help ensure the survival of these aid programs for future students.

Federal financial assistance is divided into three categories. "Grants" are awards of money that do not have to be paid back. "Loans" are borrowed money which a student must repay with interest. "Work-Study" provides the chance to work and earn money to off-set college costs while attending classes.

The Pell Grant Program is one of the best known of the Federal student aid programs. Formerly called the Basic Educational Opportunity Grant, Pell is often the first source of aid in a package which may be composed of other Federal and non-Federal sources. In the 1982-83 school year, 2.55 million students share \$2,279,040,000 in Pell Grants.

The U.S. Department of Education uses a standard formula to determine who qualifies for Pell Grants. Students should contact the college financial aid administrator to apply on the free "Application for Federal Student Aid." This is the form used for all Federal student aid programs. The Department guarantees that each participating school will receive the money it needs to pay Pell Grants to eligible students.

The Supplemental Educational Opportunity Grant provides another mechanism for making awards to students. SEOG is different from the Pell Grant in that it is managed by the financial aid administrator of each participating college. Each school receives a set amount of money from the Department and when that money is gone, there are no more SEOG funds for the year.

In 1982-83 the Dept. of Education will provide 440,000 students with \$278,400,000 in Supplemental Educational Opportunity Grants. Stu-

dents will get up to \$2,000 a year under this program.

Grant programs are designed to help the most needy students get a college education. The Pell Grant, in particular, is targeted to help those students whose families earn less than \$12,000 per year. Grant aid is not meant to cover all college costs but is expected to be combined with a reasonable contribution from the student's family and individual self-help, generally in the form of loans, private scholarships, and work.

Another type of student financial assistance is the College Work-Study Program. Designed to provide on- or off-campus jobs for undergraduate and graduate students who need financial assistance. Work-Study is usually managed by the college financial aid administrator. Some 950,000 students will receive \$528 million under this program in 1982-83.

A great deal of publicity has been generated lately on Federal student loans, particularly the National Direct Student Loan Program. Although all colleges do not participate in the NDSL program, 3,340 of them do. This program makes available low interest (5 percent) loans that students must begin repaying six months after completing school (either by graduating, leaving, or dropping below half-time status). Up to 10 years is allowed to repay the loan. Application is made to a school's financial aid administrator who manages the loan fund. The fund is a revolving account, designed to allow a school to continually make new loans as existing loans are repaid. About 800,000 students will receive NDSL's in 1982-82; 10,000 more than in 1981-82.

Recently, Secretary of Education T. H. Bell signed a regulation which provides incentives for an institution to reduce the default rate of its NDSL program fund. A college which has a default rate over 25 percent is asked to turn responsibility for collecting the debt over to the Federal government. If an institution is not prepared to do this, and the default rate remains 25 percent or more, the Federal government will cut off NDSL funding.

The Guaranteed Student Loan Program, much in the news lately, makes available low interest loans to students, with the Federal government paying the interest while a student is in school. These loans are made by a lender (such as a bank, credit union, or savings and loan association) and insured by either the Federal government or a State Guarantee Agency. This, the largest student aid program, will make available over \$9.5 billion in loans during

the 1982-83 school year.

Undergraduate students can borrow up to \$2,500 a year and graduate students can borrow up to \$5,000 under GSL. The total debt an undergraduate can carry is \$12,500. For graduate or professional study this figure is \$25,000. A student borrower whose family income is less than \$30,000 automatically qualifies for an interest-subsidized loan. Students whose family income exceeds \$30,000 may still be eligible for GSL interest benefits if the college's financial aid administrator determines that the student has demonstrated financial need.

A new loan program started in 1981, called the Auxiliary Loan (or PLUS) Program, allows parents, independent students, and graduate students to borrow up to \$3,000 a year. There is no income cut-off for eligibility. The interest on PLUS loans will be lowered from 14 to 12 percent sometime in Oct. as a result of lower average U.S. Treasury bill interest rates.

As the economy continues to recover, we can expect a continued lowering of interest rates, thus easing student repayment costs and reducing Federal expenditures. In addition, the Reagan Administration has embarked on a major initiative to college delinquent and defaulted loans under the National Direct and Guaranteed Student Loan Programs. It is anticipated that \$80 million will be collected in 1983. Congress has been asked to allow funds collected on delinquent loans to be recycled in the loan programs; under present law, such funds are returned to the Treasury. Returning money to the loan funds would make more money available to future college students.

Student aid reforms proposed by the Reagan Administration re-establish the fundamental principal that a student and his or her family share the primary responsibility for meeting college costs. The Federal and State government have a role in bridging the gap between what a family can reasonably contribute and the cost of attending college. Only by maintaining its fiscal integrity can the Federal government continue to play its part in bridging this gap through student aid programs.

HAVE A SAFE AND HAPPY

THANKSGIVING DAY!

FROM THE STING STAFF!

FEATURES

The Parking Prescription

I've got the answer to our parking fee problem.

Everybody I know has been grumbling about the cost of parking fees going up, so several of us got together to thrash it all out. Now nobody in their right minds would take on hard labor without fortifying themselves first, so we took up a collection and one of the guys went down to the Bottle Shop for a little nourishment.

About thirty minutes after he got back with a gallon of just what Dr. Jack Daniels ordered, the ideas started trickling down. The first thing we all decided was that we needed to find some other way to pay for the purchase of the theatre lot.

This was a real milestone.

So we had a dose of medicine to celebrate.

Well, like good little students, we kept right on trying to define our problem. After all, that's what they teach us. Define your problem and you're over half the way there.

Mike "Hounddog" Cranston said that whatever it was ought to be "fun," not work. That left out car washes, selling doughnuts on street corners, and even bathtub races. We all wanted to know why Mike put in bathtub races, so we asked him. Mike answered us, without even bothering to open his eyes or sitting up, "cause somebody's got to move them tires." Ol' Mike always did have a nose for work, he could smell it a mile off and that's as close as he ever got to it.

You know we couldn't pass that up, so we had a dram of medicine just for luck.

I'm a firm believer that Dr. Jack's medicine promotes innovative thought and cures rusty brains. Just think what we could do with the Middle East situation if we sent them 20 or 30 cases.

Geno "Choo-Choo" Arcolla said if it was going to be fun, that it had to have something to do with both cars and girls. Geno is my favorite Italian; I can always trust him to bring up wheels and women.

It sounded good to us, so we all had a shot of medicine.

Tommy "Specks" Wilson stuck in a sober thought. He said, "since it is for the school, we really should insure that all aspects occur on the premises." Translation: It's gotta happen on campus. Tommy is really a good ole boy, he just can't use one word when he can use three.

We all took a big gulp of medicine to make sure we wouldn't wind up like Tommy.

Larry Allgood (he's from California) spoke up. "It's gotta be relevant, man. If it's paying for the drive in parking lot, it's gotta happen there."

Here's mud in your eye.

And all of a sudden the ideas stopped. Nobody could think of anything else. We all just sat around looking mournfully at Dr. Jack's medicine bottle. There was only about three good slugs a piece left. We had to come up with a really good idea.

After about ten minutes of uninterrupted silence, during which we all looked at each other with the same whipped pup expressions, Jill Larsen walked by. Now that may not sound like much to you, but then you may not have ever seen Jill Larsen either. If you see her from the back, you instantly think about Underalls and a whole litter of puppies wrasslin around in a feed sack. If you see her from the front, you think of Barbi Benton, watermelons, and California girls. I mean that this gal is a menace to navigation any way you look at her.

Not one of us moved an inch till after she walked by for fear of stepping on somebody else's tongue. When we all started breathing

again, Tim "Runt" Waller breathed, "Man, that woman outta be x-rated!"

You couldn't have gotten our attention quicker with a load of rock salt.

By now, the ideas are getting fast and furious. We are all having trouble pouring medicine into our paper cups fast enough to toast each one.

J. J. Rogers says, "It's gotta have rhythm man or it ain't gonna pay." Right on J. J. Here's to your health.

John Paul "Frenchy" says, "we must have women, sex, and art." Here's lookin' at you kid.

Scotty McTavish puts in his two cents worth. "It can't cost much or students can't afford it."

Aye, Scotty. Here's to you, too.

"X"

"Rated"

"Movies"

It's got sex, women and rhythm, it is a kind of art and we could watch it from our cars on campus so it would be cheap.

That sho' nuff called for a snort. So we did. Now we've only got one problem. Nobody can seem to recall just how we were going to get the goat Shed to approve it.

"A terrifically engaging, high-spirited screwball comedy."

OPERATION NATIVE SON AND DAUGHTER

Graduates from the west-
ern North Carolina area may
wish to attend the annual
"Operation Native Son and
Daughter" program sponsored
by Western Carolina Industries.
The program will be on Dec.
21, 1982, at the University
of North Carolina-Asheville.
About 30 employers will be
participating and there is
no charge to the student. If
interested, come by the place-
ment office for more infor-
mation.

UPS will be on campus again
Monday, Nov. 29, 11a.m.- 3p.m.
in the Conference Room A,
Student Center, to interview
students for jobs at the
Fulton Industrial facility.
Interested students should
go by and see the UPS recruit-
er.

November 19, 1982

Join us for a fun-packed weekend
of skiing in the North Carolina
Mountains. Included in this ski
package will be all ski equipment,
lift fees, instruction, and all trans-
portation and lodging. Come get a
natural high on some real snow at
Boone, North Carolina. We'll stay
at the Green Park Inn and ski at
the Ski Valley Ski Resort.
