

No Classes Will Be Held On Tuesday January 15, 1985!

STING

STING Vol.2, No.5

News for Southern Technical Institute Marietta, Ga. January 15, 1985

New University System Chancellor Elected

Dr. H. Dean Propst, executive vice chancellor of the University System of Georgia, has been elected, by majority vote, the eighth chancellor of the University System.

He was chosen for the position by the Board of Regents of the University System at the November 14 meeting in Atlanta.

Propst, who will assume his duties on July 1, 1985, will succeed Dr. Vernon Crawford. Crawford is scheduled to retire on June 30, 1985, after serving as chancellor for five years.

The announcement of Propst's selection as the chief administrative officer of the University System and chief executive officer of the Board led a nationwide search process begun in March, when Crawford announced his intention to retire.

Board of Regents Chairman Sidney O. Smith said, "Propst has a record that shows the ability to prevail in the face of challenges." Smith continued, "He is a committed individual with an understanding of the problems we face, a depth of experience, a grasp of the issues, and a keenness of mind."

Speaking of Propst and of the other final candidate, University of Georgia President Fred C. Davison, Smith said that the two were "able candidates, both of whose credentials were outstanding."

While serving as executive vice chancellor, Propst directed a comprehensive statewide academic assessment; developed a productivity/management review procedure for System institutions; developed amendments to the 1978

desegregation plan; and negotiated on behalf of the chancellor, the Regents, and the Governor, a settlement relating to the Regents' Test with the U.S. Department of Education and the regional Office for Civil Rights.

Propst, who was born on February 7, 1934, in Newton, North Carolina, received the M.A. degree and the Ph.D. degree in American literature from Peabody College and the B.A. degree in English from Wake Forest College.

Prior to joining the staff of the Board of Regents, Propst taught at both the high school and college levels. While at Radford College from 1962-69 he was an assistant professor, an associate professor, and a professor of English and served as Chairman of the Department of English.

He then joined the faculty of Armstrong State College in

1969 as dean of the college and professor of English. In 1976, he was named vice president and dean of faculty and professor of English. Propst joined the Board of Regents' staff in 1979 as vice chancellor for academic development. He was named vice chancellor in 1981 and has served as executive vice chancellor since 1983.

He has worked with the Governor's Committee on Post-Secondary Education and is currently a member of the Committee on Accreditation for the American Association of State Colleges and Universities.

Propst is the author of several publications and articles dealing with American novelists and with higher education.

Augusta Tech

The Board received information that Southern Technical Institute and Augusta Technical School have entered into an agreement wherein graduates of two associate programs from Augusta Tech are able to transfer to Southern Tech with a minimum loss of credit that might be applied to a higher degree at Southern Tech.

The agreement was completed after a review of course offerings at Augusta Tech and includes the requirement that the Regents' Test be successfully completed prior to the transfer.

The current academic year is the first in which students from Augusta Tech have transferred to Southern Tech. An evaluation and analysis of the performance of the first group of transfers will be conducted at the end of this academic year.

DeLorean To Lecture The College Circuit

NEW YORK, N.Y. (CPS) -- Former auto industry magnate John DeLorean is planning to join the campus lecture circuit soon.

Once General Motors' "golden boy," DeLorean recently was acquitted of charges he smuggled cocaine to raise money to bail out his underling DeLorean Motor Company.

Supporters insist he was set up and framed by the Federal Bureau of Investigation.

Now DeLorean is booked tentatively to give seven lectures to tell his side of the story, says Bill Stankey of New York's Greater Talent network agency.

"John has agreed in principle to the tour," Stankey says.

"We're waiting for him to okay the dates."

The initial tour dates include "primarily colleges," but Stankey thinks there are only a few schools that can afford DeLorean's \$12,000 to \$15,000 speaker's fee.

If he finalizes the schedule, DeLorean's first post-acquittal lecture is Nov. 27 at Michigan's Schoolcraft College.

"He has a natural involvement with the Detroit area," says Pat Newman, Schoolcraft's coordinator of student activities. "He started his career here."

DeLorean gained auto industry prominence in the mid-sixties as the creator of GM's

Pontiac Firebird, and later established his ill-fated auto company in Ireland.

Newman expects good student and community response to DeLorean.

"There are lots of people who want to come see the famous," he contends. "People are very interested in how he got into his situation with the FBI."

DeLorean has told his agent the lecture will detail the FBI's surveillance of 90,000 business people, Newman says.

Greater Talent's Stankey confirms that DeLorean's "corporate espionage" topic covers government investigation of private business.

"Government scrutiny of foreign and U.S. companies is

a brand new thing," he adds. "It elicits a lot of interest."

Stankey admits DeLorean's drawing power depends on "A CERTAIN MYSTIQUE, AND THE PUBLIC'S FASCINATION WITH PEOPLE IN THE PUBLIC eye."

If DeLorean confirms the tour, he will join politician John Anderson, Watergate figure G. Gordon Liddy, "gonzo" journalist Hunter S. Thompson, and Chicago Seven co-defendants Abbie Hoffman and Jerry Rubin, billed as "Yuppies vs. Yuppies: Sixties Idealism vs. Eighties Realism," as a major draw on the campus lecture circuit this season.

Parking Decals

Parking Decals should be purchased by Friday, January 11, 1985 (that's last Friday).

The decal should be displayed according to directions that are supplied with the decal. Fines will be assessed for any vehicles not displaying a valid parking decal.

Speaking Persuasively

David Barnhardt, *Asst. Editor*

Most of us aren't inclined to read textbooks merely for pleasure. We do, however like to read things that we consider important or interesting, and occasionally one will run across a textbook that actually does have something of value in it. Rather unexpectedly, this happened to me last quarter. While meticulously laboring over some totally trivial English 220 assignment, I stumbled upon a rather profound chapter in an obscure text on communications.

The book was by Mortimer J. Adler, and was called *How to Speak, How to Listen*. The title of the chapter was "Aristotle on Salesmanship", and its content was quite in-

formative.

Using three simple Greek words, the author outlined the principles for an effective sales speech--indeed, for effective selling communication of any kind. The three words are ethos, pathos, and logos. Their meanings are almost self-evident, because they constitute the roots of very similar words we use today. Ethos is almost the same word as ethics, and the meaning is still the same. Pathos is perhaps a little more difficult to visualize, but basically means sympathy or passion. Logos is simply logic or reason.

The format for communication which Mr. Adler put forth was that one should

begin by establishing one's character or ethics. Regardless of what we are selling, we must establish our character as someone who is trustworthy and knowledgeable about the subject at hand. This step must come first in order to gain the listener's ear and keep his attention for the next step.

Pathos is the arousing of the passions of the listener. This is the motivating portion of the speech. The speaker must, after having established his character, bring forth the listener's sympathies for whatever is being sold. An appeal to the listener's patriotism or some other strong emotional appeal is an

example of this. An emotional mood must be established that is receptive to the final step--logos.

Logos is the "marshalling of reasons" (to quote the author). This last step is very important, because it is here that we site our reasons. Having aroused the listener's sympathies, we must give the listener logic with which to act. Why should the listener buy what you are trying to sell? He needs reasons.

The order of these words is important and that is part of what makes this such a straight-forward and easily remembered guide for selling. First we establish our ethos

(character), then we proceed to arouse our listener's pathos (emotions), and finally we give our logos (reasons). Each step builds upon the other in succession, making the speaker credible and effective.

Although the author was referring to the spoken form of communication, there is no reason that these guidelines can't be followed when writing--in fact, for many they will probably be more effective when used in a written form. Armed with this particular format for selling properly executed, one should be able to sell anything--be it product, an idea, or simply one's self. So remember! Ethos, Pathos, Logos!

As I See It

James Sakers, *Special to the STING*

Christmas has come and gone, New Year's Day, too. Time has flown by, and already it's 1985. The beginning of a new year has always been a time of reflection, and this has been no exception.

1985 has brought, for me, a change in schools, majors, and homes. There is no more Southern Tech, no more AET, and no more dorm life.

Many people at Southern Tech were quite pleased to hear of my departure. For them, my leaving meant no more "As I See It" articles, full of controversy and irritating statements.

Others were sorry to see me go, some for the same reason, but also because they always knew that there was at least one other person at STI who saw things differently.

I do, however, have a few last comments, and the faculty and staff of the *Sting* has been kind enough to grant me this one last soapbox.

First of all, there are many people to whom I owe quite a lot. Dr. Carol Barnum, was, is and I hope, will always be, a positive and powerful influence in my life. Also, Drs. Kelly, McCoy, and Gates have earned my unending respect, and I hope I have earned theirs.

My friends here know who they are, so I won't embarrass them by listing a bunch of names.

But now to the point. In my articles, I tried to offer a different point of view on sensitive, if not down right touchy subjects. I did not do this just to cause a controversy, although that is often what happened.

My reason for those articles was twofold.

First, I believe that, given any issue, one can see most clearly by having an understanding of all sides. In Architecture, designers do not simply draw one view of an object; this would not create an accurate view. Likewise, in dealing with issues of our times. We must strive to see these conflicts from all possible perspectives, or else the whole picture will be distorted, and honest, fair decisions or opinions could not be made.

My second reason was a bit less philosophical. When I arrived at STI, opinions and all, two and a half years ago, I fell under the impression that either no one else held the same opinions that I did, or else no one was brave enough to voice them. Well, both of these beliefs were at least partially correct. (Not many people had the same beliefs, and not many who did were willing to speak them openly).

So, being the egotistical, big-mouthed, opinionated, liberal-minded, (I've been called other things too) person that I am, I took it upon myself to drag STI, kicking and screaming all the way, into the 1980's.

That's where the problems started. You see, the problem is, much of STI's student body is still firmly footed in the bigotted, narrow-minded fifties and sixties, and a quantum leap over two or three decades is difficult, even for engineers, to accomplish.

Thus, I bid my adieu to Southern Technical Institute, with but one more small piece of advice.

This is Nineteen Hundred and Eighty Five; our world is

full of many different ideas and ideals. Religion, abortion, communism, nuclear arms, women's rights, gay rights, and civil rights are all topics that have a profound effect on the lives we lead today, and the lives our children will lead tomorrow. They are sensitive issues; not to be taken lightly, not to be thrown up in graffiti on bathroom walls, not to be run away from, and definitely not to be ignored.

If, in the future, another kid with different ideas starts writing for this paper, LISTEN!

His or her ideas may not agree with yours, but if you really are what you say you are, mean what you say you mean, and live according to your own beliefs, then what possible damage could be done by hearing and considering an alternative viewpoint?

Well, that's "As I See It," one last time. Thanks again to my friends, and to my enemies...I'm sure you'll forget all about me, but I hope I don't forget you.

P.S. Five of the nine eggs missed my window, and one of the three words written on my door was misspelled. (Yes, I kept score. One for ME

I-(Can't Drive) 285

Joe Gambill, *Staff Writer*

What do you think about when you drive 285? Last Friday afternoon after a Chemistry test, I jumped in my trusty pinto "The Stone Pony" and headed for I-285. The first trick is just to get on that big bad superslab. Why do I always seem to get a guy behind me who just can't wait for the acceleration lane to merge with the highway before he jumps on the road? You know the type; the guy who cuts around in back of you and then blocks your access to the right lane. Some people have no pity on a slow car.

Then there are those people who want to drive 60 in the right lane. This is okay to most of you, but I like to drive 55 in the right lane. No, I am not a model citizen; it's just that my car is twelve years old and pushing the second flip on the odometer.

One thing I strongly dislike is one of those drivers who is too chicken to change lanes. There

can be four empty lanes and these guys will still be right on my tail in the slow lane. If they stay behind me too long, I slow down to about 45 mph. This is very dangerous in a Pinto. "Danger--Flammable!" would be a good bumper sticker for a Pinto.

It is always fun to top the hill eastward bound on I-285 at Buford Highway and look down upon the infamous mess of "Malfunction Junction," sometimes known as the I-285, I-85 interchange. When I admire the massive construction going on, then chances are, I am not stuck in a traffic jam. When do get stuck in a massive traffic jam, all that wonderful technology begins to look like a sinister plot to make "Malfunction Junction" even worse.

When will we wake up to the benefits of mass transit systems? One person in each car can't go on forever.

Regents Exam

IMPORTANT THINGS YOU SHOULD KNOW ABOUT THE REGENTS' EXAM

1. You should take the Regents' Exam as soon as you complete English 101 and 102.
2. The test is FREE.
3. You are required to take the test until both parts (reading and essay) are passed, however you are only required to re-take the part failed. You may take the test as many times as needed.
4. Everyone with 75 or more credit hours who has not passed both parts of the Regents' Exam is automatically scheduled for remediation in Developmental Studies DS 025 Reading and English, a five hour course.
5. You will save yourself time and money if you take the Regents' Exam as soon as you are eligible.

The following companies have scheduled campus interviews for winter quarter 1985:

COMPANIES SCHEDULED TO PRE-SCREEN:

- Jan. 25-Lockheed-ECET, IET, MET
Pre-Screen Deadline is Jan. 11 Noon
- Jan. 31-Northern Telecom-ECET, AET
Pre-Screen Deadline is Jan. 11 Noon
- Jan. 31-SCI-ECET
Pre-Screen Deadline is Jan. 11 Noon
- Feb. 1-H. D. Lee Co.-IET
Pre-Screen Deadline is Jan. 11 Noon
- Feb. 4-Kimberly Clark Corp.-MET, ECET
Pre-Screen Deadline is Jan. 14 Noon
- Feb. 5-Oxford-IET, APET
Pre-Screen Deadline is Jan. 14 Noon
- Feb. 5 & 6-Texas Instruments-IET, MET
Pre-Screen Deadline is Jan. 11 Noon
- Feb. 5-Carlson SE Corp.-AET, CET
Pre-Screen Deadline is Jan. 14 Noon
- Feb. 6-Hartmax-IET, APET
Pre-Screen Deadline is Jan. 14 Noon
- Feb. 7-Photocircuits-ECET, IET, MET
Pre-Screen Deadline is Jan. 15 Noon
- Feb. 8-Southern Bell-(info posted late)
Pre-Screen Deadline is Jan. 15 Noon

6. Co-op students or any Southern Tech student who is eligible to take the Regents' Exam, may take the exam at any State College. You do not have to be enrolled in school in order to take the exam. You must request a letter from our Regents' Coordinator here at Southern Tech, stating your eligibility and school code, to be sent to the college where you wish to be tested.
7. Again, you do not have to be in school the quarter you take the Exam. Call 424-7367 if further information is needed.
8. The next Regents' Exam will be given February 4 and 5, 1985. Sign up for the exam in Developmental Studies, January 17 through January 25, 1985.

- Feb. 11-Emerson Electric Co.-ECET
Pre-Screen Deadline is Jan. 15 Noon
- Feb. 12-General Telephone Co. of SE-ECET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 12-Campus Sportswear-IET, APET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 13 & 14-Schweber Electronics-ECET, CIST
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 14 & 15-Milliken-ECET, IET, MET, TET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 14-Rosser White-(info posted later)
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 15-Southwire Co.-ECET, IET, MET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 15-Cut Art Stone-AET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 19-Plantation Pipeline Co.-ECET, MET
Pre-Screen Deadline is Jan. 18 Noon
- Feb. 25-Morse Industrial Controls-IET
Pre-Screen Deadline is Feb. 4 Noon

Know Your Place-ment

The Southern Tech Placement Office provides a centralized placement service for graduates and also assists students seeking full-time or part-time employment. The primary objective of the Placement Office is to assist students in developing career plans and helping them obtain employment most suited to their career goals and aspirations. Services offered by the Placement Office include:

1. assisting in resume preparation and printing
2. career advising
3. interview skills preparation
4. job search advisement

In addition, the Placement Office maintains a library of employer and occupational in-

formation as well as a part-time job opportunities reference file.

To ensure productive career decision making, students are encouraged to make use of the Placement Office as early as possible during their stay at Southern Tech. Degree candidates should begin the job placement process three quarters prior to their graduation.

Students interested in part-time employment should visit the Placement Office and survey the jobs listed. Some of the jobs require technical expertise; however, many require no experience. Most students seeking part-time employment are able to find suitable work in the metro area.

Financial Aid News

The Financial Aid Office would like to welcome all new and returning students to the Southern Tech Campus. Of the many services available through the Southern Tech Financial Aid Office is Financial Aid Counseling. Financial Aid Applications for the 1985-86 academic year will be available at the Financial Aid Seminar to be held in the campus gymnasium on the following dates:

- Monday January 21, 1985 12 noon
- Tuesday January 22, 1985 5 p.m.
- We encourage all students to attend the Financial Aid Seminar entitled "Planning Ahead."
- Should you desire further assistance or information regarding Financial Aid, please contact the Financial Aid Counselor, Ms. Betty Hilton, between the hours of 8:00 a.m. to 6:00 p.m. or by appointments.
- THE FOLLOWING COMPANIES WILL NOT PRE-SCREEN:
- Jan. 24-USAF-AET, ECET, IET, MET
- Jan. 24-Georgia Dept. of Transportation-CET
- Jan. 28-Garan; Inc.-IET, APET
- Jan. 29-MCC Powers-ECET, MET
- Jan. 22-Lithonia Lighting Co.-MET
- Jan. 24-Burlington Northern Railroad-CET, ECET, MET
- Jan. 30 & Feb. 15-Georgia Marble Co.-(info posted later)

The following movies are shown in the Student Center at 4:00 and 8:00 PM. Some movies may have an admission price of \$.75.

- Jan. 17..Network
- Jan. 31..Rocky
- Feb. 14..Electric Dreams
- Feb. 21..Poltergeist
- Feb. 28..Say Amen, Somebody

Northern Telecom ...A Rational Career Choice

The merger of computer technology and telecommunications has made our industry THE growth field for the 80's and beyond. As a dynamic company that deals in communications technology, we can offer a wealth of challenges to graduates in Engineering, Computer Science, Marketing, Finance, Accounting, Business Administration and Personnel. With facilities in 14 major U.S. cities, we can probably match your desires with an area that offers the climate and amenities you want.

Since we believe in promotion based on achievement, you can set your own pace for advancement. We offer industry-competitive compensation and our benefit program ranks among the best in the industry. Talk to our recruiter during his or her next visit to your campus. We will be happy to answer all of your questions about locations, project assignments, and our projected growth.

See your placement office to schedule an interview with our division representative from DSS/Raleigh on campus January 31.

Professor Preston White
Worked in industry during spring quarter as an electrical engineer in the video communications division of Scientific Atlant. Under contract as a consultant to provide CAD Software for Scientific Atlanta.

Attended Globcom in November, 1984.

Professor Julian Wilson
Served on an ABET visitation team to Chattanooga State Technical Community College in October.

Professor Charles Bachman
Worked in industry during summer quarter as an engineer in the protection division of Georgia Power Company.

Professor Janice Haber
Received her MSEE from Georgia Tech in December, 1984.

Dr. Irving Kosow
Is in the process of writing a Circuit Analysis text for John Wiley and Sons.

Professor Paul Wojnowiak
Worked in industry summer quarter as an electrical engineer in the research and development at Lockheed-Georgia.

Professor David Zimny
Worked as a consultant engineer with WABE-Radio in Atlanta during summer and fall quarter.

Professor Terri Speake
Has resumed teaching after taking leave during fall quarter.

Dr. Richard L. Castellucis
Was the advisor for a group of ECET students who won first prize in the Southeastern Robotics Championship in Boca Raton, Florida.

Presented paper "Theory of Dark" to Pop Culture Society of the South - Knoxville, Tenn., in september.

Elected "President-elect" Metro-Marietta Kiwanis, 1984-85.

Spoke to Sprayberry Key Club on "Careers in Computers," October, 1984.

Larry Aft, IET, has been approved by the Education and Training Board of the American Society for Quality Control (ASQC) to teach two new areas included in their Education and Training Institute. Professor Aft's areas of expertise include Statistical Opportunities for QC/QA and SQC Process Control.

Jo Lundy Pevey, English and History, presented a paper at the Popular Culture Association in the South Convention, entitled, "Dress for Success?" in which she challenged the John Malloy standards for success. She also has had published an article, "Activity-Based Writing," in the fall issue of *Exercise Exchange*.

The American Business Communication Association Bulletin has accepted for publication, "Preparing for the First Consulting Assignment."

Eddie McLeod is the new Serials Librarian, replacing Dory Stamps who now heads up the Library's new Reference and Bibliographic Instruction Department. Eddie has her B.S. from the University of Alabama, her M.Ed. from North Georgia College and the M.L.S. from the University of Alabama. She has taught in Georgia public schools and worked as library assistant at the University of Alabama. She is a resident of Dahlonga where her husband is on the faculty of North Georgia College.

Professor Yardy T. Williams Worked in industry during the spring quarter as project leader for the development and design of a microprocessor-based computer to emulate the fire-control computers used in military weapons systems. Attended Southcon in Orlando, Florida.

Professor Walter E. Burton, Jr.

Along with **Dr. Sandy Pfeiffer, English and History**, attended the International Business Appreciation Reception in June.

Professor David E. Summers Was elected vice chairman of the National Electrical Engineering Technology Department Heads Association in June.

Appointed to the IEEE-EAB Technology Accreditation Criteria Committee. The charge to this committee is to advise the IEEE Board of Directors and the IEEE delegates to the TAC concerning needed changes in the criteria for accreditation.

Served as an ABET visitor to Tri-county Technical College in October.

Served as an educational consultant to Nunnelley State Technical College in Childersburg, Alabama during fall quarter.

Currently serving on the DeKalb Community College Advisory Committee and the Georgia Curriculum Advisory Council for Engineering Technology Programs.

Dr. Stephen R. Cheshier has been nominated to serve as Chairman of the Professional Interest Council II of the American Society for Engineering Education (ASEE). Dr. Cheshier was among the slate of candidates chosen by the nominating committee and accepted by the Board of Directors for the 1985-86 election of ASEE officers. Official ballots will be furnished by ASEE to individual members by March 1, and must be returned March 31, 1985. You are urged to vote during this important election, and any support on Dr. Cheshier's behalf would be greatly appreciated. Dr. Cheshier's election would provide the only engineering technology representative on this board.

Virginia H. Hein delivered a paper on "Power Politics and Early English Zionism," on November 3 at the Southern Conference on British Studies which met with the Southern Historical Association at Louisville, Kentucky.

FREE TRANSPORTATION! GENEROUS VACATIONS!

More than 300,000 Americans — not including members of the armed services — are now living overseas. These people are engaged in nearly every possible activity...construction, engineering, sales, transportation, secretarial work, accounting, manufacturing, oil refining, teaching, nursing, government, etc.-etc. And many are earning \$2,000 to \$5,000 per month...or more!

To allow you the opportunity to apply for overseas employment, we have researched and compiled a new and exciting directory on overseas employment. Here is just a sample of what our **International Employment Directory** covers.

(1). Our **International Employment Directory** lists dozens of cruise ship companies, both on the east and west coast. You will be told what type of positions the cruise ship companies hire, such as deck hands, restaurant help, cooks, bartenders, just to name a few. You will also receive several Employment Application Forms that you may send directly to the companies you would like to work for.

(2). Firms and organizations employing all types of personnel in Australia,

Japan, Africa, The South Pacific, The Far East, South America...nearly every part of the free world!

(3). Companies and Government agencies employing personnel in nearly every occupation, from the unskilled laborer to the college trained professional man or woman.

(4). Firms and organizations engaged in foreign construction projects, manufacturing, mining, oil refining, engineering, sales, services, teaching, etc., etc.

(5). How and where to apply for overseas Government jobs.

(6). Information about summer jobs.

(7). You will receive our **Employment Opportunity Digest**...jam-packed with information about current job opportunities. Special sections features news on overseas construction projects, executive positions, and teaching opportunities.

90 Day Money Back Guarantee

Our **International Employment Directory** is sent to you with this guarantee. If for any reason you do not obtain overseas employment or you are not satisfied with the job offers...simply return our **Directory** within 90 days and we'll refund your money promptly...no questions asked.

ORDER FORM

International Employment Directory
131 Elma Dr. Dept. T21
Centralia, WA 98531

Please send me a copy of your **International Employment Directory**. I understand that I may use this information for 90 days and if I am not satisfied with the results, I may return your Directory for an immediate refund. On that basis I'm enclosing \$20.00 cash.... check.... or money order.... for your **Directory**.

SCHOLARSHIPS AVAILABLE

Over \$100,000,000 in college scholarships are available from business and industry, professional associations, trade unions, religious and civic groups, and thousands of other sources. As college costs escalate at a double digit pace, you will want to know of all available scholarships, loans, grants and how to obtain them. Your chances of receiving full or partial scholarships are excellent if you know where to look and **start now**.

Our publication "**Scholarships Are Waiting**" will introduce you to thousands of sources that have scholarships, grants and other forms of assistance and will instruct you on how to contact them. For your personal copy, send \$7.95, check or money order, to:

*Don't just
get a job with
your special skills.*

*Get an
advantage!*

A specific job guarantee, accelerated promotions and a possible bonus are just the start. With our new College Enlistment Program, your high school diploma and special skills training pay off from the beginning, proof that your special skill means something to the Corps.

For example, your specialized training could guarantee you a job such as metal worker, electrician or construction surveyor just to name a few of the 260 select jobs you could qualify for.

Also, by getting accelerated promotions, you'll be making more money from the day you finish recruit training. Your first

rank will be private first class. Within 6 months you'll be promoted to lance corporal. If you qualify, you could make corporal within 13 months. Higher rank, higher pay.

Another advantage of our College Enlistment Program is the chance to get a bonus. Whether you qualify for one depends on the MOS you choose.

The advantages add up quickly in our College Enlistment Program. And if you qualify, you'll have an advantage for life few others can claim—the self-confidence and respect that come with earning the title United States Marine.

Call 1-800-423-2600. In California, 1-800-252-0241.

The Marines are looking for a few good men.

ROTC

Three of Southern Tech's Army ROTC students had diverse and exciting summers during 1984. Buddy Jones, Executive Officer, of the STI-Kennesaw College ROTC Detachment spent six weeks honing the skills to be a Lieutenant in the Army upon Graduation at Fort Bragg, N.C. but the exciting part began after his Graduation from ROTC Advance Camp. Buddy was selected to participate in Cadet Troop Leadership Training. This program allows selected ROTC Cadets to live day in and day out with an active unit to get a taste of what the Army is all about. Buddy spent his time with a military police unit that has personnel in Grenada. He spent about a week on the Caribbean island observing and learning from the

soldiers still there.

Jones stated that it really made him proud to be an American. The citizens of Grenada were overwhelmingly Pro-American, according to Buddy. "Only one person, out of about 20 that I talked to, didn't like the soldiers being on the Island," said Jones.

John Blanck, a Junior, had a different, maybe more daring summer, at Fort Benning, near Columbus, GA. John attended one of the most physically and mentally demanding schools in the Army today- Airborne. The three week jump school requires that one possess a strong mental attitude because of the continual stress placed on the candidates by the "Black-Hats," those selected to train people to successfully exit C-130's and C-141's by

parachute. In all Blanck successfully made five jumps, one of these at night, to earn the Coveted Jump Wings, which make him part of a special breed.

Cobi Simmons, another Junior, attended ROTC Basic Camp at Fort Know, KY. ROTC Basic Camp is designed so that students that have not taken the required ROTC courses during their first two years of college may "catch-up" during a six-week training period. Although it is similar to basic training in course content, there is much more leadership training. Cadets are expected to perform individual tasks as well as demonstrate leadership potential. Almost all basic camp attendees are rising juniors from colleges and universities

throughout the United States. "According to the feedback from the instructors at Fort Know, Simmons did a very good job. If his academics were just a little higher, he would have been a strong candidate for a scholarship," said Maj Wingard, Assistant Professor of Military Science at the Kennesaw/Southern Tech ROTC Program.

Anyone looking for a little something out of the ordinary for the upcoming summer and the potential for a commission upon Graduation into the National Guard, The Army Reserve, or The Active Army can get further information by calling Major Wingard at 429-2929 or Captain Watson at 894-4760.

PRODUCTION SCHEDULE

The following is a list of production deadlines and issue dates for the **STING** for the remainder of the 84/85 school year.

Deadline/Issue Date

Jan.21 / Jan.29
Feb.4 / Feb.12
Feb.18 / Feb.26
Mar.4 / Mar.12

Apr.7 / Apr.15
Apr.22 / Apr.30
May13 / May21
May27 / Jun.3

Please take note of this schedule and submit any materials before the respective deadline!

TO: Students, Faculty and Staff
FROM: Charles E. Smith, Dean of Students Affairs
SUBJECT: Student Activities and Intramural Replacements

I am very pleased to announce that Mr. Barry D. Birkhead has been selected to replace Ms. Sue Konrad as the Director of Student Activities/Student Center. Mr. Birkhead will join the staff early in January. Mr. Birkhead has been serving as the Assistant Dean of Students/Fraternity Advisor at Georgia Tech for the past six years. Mr. Birkhead holds a Masters Degree in counseling psychology from West Virginia University where he was also employed as a resident assistant and a residence hall director. Mr. Birkhead has completed his course work for the PhD in Educational Administration at Georgia State University.

I am also pleased to announce that Mr. Carl Staber will join the student affairs staff early in January replacing Mr. Ron Wofford in the position of Director of Intramural Sports and Recreation. Mr. Staber is currently the manager of Sports World of Lexington, a privately owned recreational facility in Lexington, Kentucky. Mr. Staber has also had experience in collegiate intramural management at East Kentucky University and the University of Kentucky. Mr. Staber holds the Masters Degree in Sports Administration from Eastern Kentucky University.

Please join me in welcoming these two new staff members to the Southern Tech community.

Continuing Education

It is a pleasure to introduce two new members of the Continuing Education staff. Ms. Rodgers is the department's senior secretary and is responsible for department business operations and clerical support for courses. Ms. Rodgers has been a part of the Southern Tech community for some time now, and comes to the department from Financial Aid. Gwen Bennett is new to Southern Tech. Her position is

joint-staffed equally between World Technology Center and Continuing Education. Ms. Bennett will provide all clerical support for WTC. Her responsibilities for Continuing Education include providing clerical support for program development and course implementation.

Please join me in welcoming these fine people to Southern Tech.

CAREER CENTER BULLETIN

January 3, 1985

PLACEMENT ORIENTATION:

Tuesday, Jan 8
12:00 Noon
Student Center
Ballroom "A"

All seniors using services of the placement office should attend this meeting.

DEADLINE FOR REGISTERING WITH THE PLACEMENT CENTER TO INTERVIEW THIS QUARTER IS: FRIDAY, JANUARY 18.

All graduates interviewing must complete a registration card and class schedule and turn in a resume by this deadline. See Mrs. Burr in the placement center to obtain a card and schedule blank.

POLICY STATEMENT is required reading for all graduates and alumni using the placement center. Copies are on the counter in our office (green sheet).

Three informative video tapes on interview skills are available in our office. It takes little more than an hour to view all three.

Video tapes also available on: Lockheed, Texas Instruments, Milliken, Norfolk Southern Railroad, Industrial Risk Insurers, Florida Power & Light Co.

Part-time jobs are posted on bulletin board in career center. Make direct contact on these jobs; not necessary to register for part-time placement.

Information on resume preparation is available in our office.

CAREER CENTER HOURS:
8:00 a.m.-4:30 p.m. Mon-Fri
CAREER CENTER STAFF:

Well, it was a great Christmas, and I am just tickled to death about the lifetime of cologne I received. Why is it that all people give cologne when they can't think of an appropriate gift? It's either that or those stupid cheese packages. They smell like they were aged for an extra, extra long time.

Overall, I'm sure all of the brothers had a good Christmas. I just hope it was as good as the Christmas party we had. As of the guys just got "loose and wild" at that one. I can still hear the management of the party location saying, "Hey, the people can hear the music five streets up. Turn the music down!" What a party crasher!

Our winter rush parties were different than the average parties this year. We had a crazy "Shades" party where everyone had an excuse to cover up those bloodshot eyes (from studying of course!) Next on the agenda was a slob party. Everyone just came like they were, whether they were in their pants with holes in the butt, or they came to the party in their greasy work uniforms-like me. And of course our infamous D.J. party goes without saying-we danced our *** off!

I would like to extend a warm welcome to all of the brothers, and a warm welcome for a cop A. M. Richard Isabell. Great to have everyone back!

John A. Fisher
"Fish"

SME

The student chapter of the Society of Manufacturing Engineers (S.M.E.) will be having their annual "Smoker" January 15, at 12:00 in Ballroom A. There will be free lunch along with speakers from the Senior Chapter and a slide show.

All students are welcome to come and see what the S.M.E. is all about.

Pi Kappa Phi

Welcome back to all returning students, faculty and staff! Also, PI KAPPA PHI wishes a warm welcome to all new STI students, faculty and staff. We hope that everyone had a great holiday season and are looking forward to a great 1985. "85" has started out great for Epsilon Kappa in many ways. Three great RUSH parties took place last week. More information on these parties in the next issue of the *Sting*. Our Founder's Day Dinner/Dance will be held on Saturday, January 19, at the Sheraton Century Center. Joining in with Epsilon Kappa in the celebration will be Beta Kappa chapter from Ga. State, Iofa from Ga. Tech, as well as many Atlanta area alumni. The speaker for the dinner will be PI KAPPA PHI President, David Jaffee.

Have you bought your PI KAPPA PHI raffle ticket yet? If not, time is running out! The drawing to be held Jan. 30 includes such prizes as one

quarter's in-state tuition (or equivalent), one quarter's books (up to \$75.00 or equivalent), plus more! Tickets can be purchased from any PI KAPPA PHI brother or pledge.

Epsilon Kappa has planned a ski trip for Jan. 24, 25, 26 at Sugar Mountain, N. C. Everyone is really looking forward to having a blast on the slopes as well as the all-night parties.

Area III Conclave will be held in February in Tallahassee, Florida. Conclave is an annual meeting of all PI KAPPA PHI chapters in area III. Epsilon Kappa will be in attendance for the fun and festivities.

One last note: Good luck to all of the pledges and alumni who will be initiated this Friday, Jan. 19, 1985!

N.S.E.T.U.A.G.B.O.F.
Clint Flynn
Historian

AIIE

Dear Fellow IE's:

Welcome back! At this time I would like to invite all industrial engineering students to join the American Institute of Industrial Engineers (A.I.I.E.). The membership is only \$12.50. Application forms are available at the IET office, Professor Aft's office (Room 359) the IE bulletin board upstairs in the classroom building, Chris Ordway, and Neal Cordelle.

Graduating seniors should join now before they graduate because it only costs \$12.50 the first year instead of \$60.00 after you graduate. So take advantage of the savings now before you graduate. In addition become active in your professional organization now.

Sincerely,
Christopher Ordway
STI A.I.I.E. President

Sigma Phi Epsilon

The brothers of Sigma Phi Epsilon have started a great New Year with new officers. These new officers are:
Sid C. Miller, President
Andrew L. Berry, Vice President
Adam W. Rodenberger, Secretary
Lamar Bevil, Controllor
Chuck Adams, Recorder
Greg Rodgers, Chaplain

We feel confident that these new officers will do a great job and, we wish them the best of luck.

We would like to wish Chuck Adams (slush) and Michael Sims a Happy Birthday! Also, a belated Birthday wish to Robin Rodebush whose birthday was January 14th.

I would like to remind the brothers and pledges that monthly dues are due today.

Good luck to:
Allan Gagnon
Bob Jansen
Ken Hatcher
Tom Beard
Micheal Sims
David Owens
Ricky Morris
on their upcoming initiation of January 19th.

Sigma Phi Epsilon, Georgia Eta Chapter (that's us) is having its 5th Annual Founder's Day Banquet. Georgia Eta will be 4 years young. Georgia Eta is a strong and proud young chapter, and is growing everyday.

TKE

tau kappa epsilon

The brothers of Tau Kappa Epsilon would like to welcome all new students, returning students and faculty back from the (short) holiday season. We would especially like to welcome back Don "Boy" Jones. Good to have you back Don.

At this time I would like to congratulate the sixteen men who were initiated into the bond of Tau Kappa Epsilon. These men are:

Brian Carter
Jeff Causey
Dan Crowley
Billy Curtis
Steve Davis
Brian Eberhardt
Brian Ebersole
Stuart Hatcher
Joe Hayes
Jimmy Hullett
Jay Kogan
Chris Lindsey
Bobby Dean McAlister
Dennis Pigg
Scott Smith
Greg Woodiff

The TKE Winter Rush consisted of several good parties at the TKE house. Our first party, Snow Jam '85, has become an annual winter quarter rush party. Next, was a BBQ at the house, a dry rush

BSU

ATTENTION! Entering and returning students. The Baptist Student Union would like to take this opportunity to welcome you to or back to Southern Tech. We would also like to tell you a little bit about the Baptist Student Union; what it is and how you can become a part of it. Despite popular belief, YOU DO NOT HAVE TO BE A BAPTIST to be a part of this organization. The word baptist is there simply because the organization is partially funded by the Southern Baptist Convention. The Baptist Student Union (BSU) is a student organization for christian students of any denomination. It allows students to gather with other christians for fun and fellowship without having to shell out bucks for membership. There are NO DUES.

party. Finally, there was the Founders Day party which celebrated Tau Kappa Epsilon's National Founders Day.

The TKE Cystic Fibrosis Run For Breath will be held on February 2. The run consists of brothers running individually in shifts from STI to North Georgia College where the STI Runnin' Hornets will play North Georgia in basketball.

In the next few weeks, brothers and little sisters will be asking people to pledge money per mile for our fund-raising event. A check to Cystic Fibrosis will be presented at STI's Homecoming on February 9. This fund raiser is dedicated in memory of Tommy Crumley, a brother who died of Cystic Fibrosis.

The third annual TKE Sk Trip to Boone, North Carolina, will be soon. The Tekes from STI will be partying with the Tekes from Appalachian State that weekend. A good time is expected by all.

Watch out Garrett and good luck Vicki!

T.R.H., H.Y.!
Cliff Leatherwood
TKE Historian (223)

Anyone who wishes to attend the meetings may do so. Weekly meetings are Monday at 7:30 in rm. 119 downstairs in the Student Center. Our popular Thursday luncheons are held in Ballroom A, top floor Student Center. These luncheons are free to anyone who wishes to attend. Also, there is the IMPACT Team which meets after the Monday meeting. The IMPACT Team ministers to groups and churches upon request by means of drama, song and personal testimony. If you have talent or simply wish you did, there is a place for you on the IMPACT Team. Regardless of your church background, the BSU wants you to be a part of the group. See you at the next meeting.

WGHR

What is WGHR?

WGHR is the Southern Technical Institute radio station-non-commercial/educational FM.

Where is WGHR?

In the lower east corner of the Student Center.

Who is WGHR?

WGHR is solely comprised of and operated by Southern Tech students.

How is WGHR?

Fine. Thank you. WGHR is financially supported by student activities appropriations (no commercials!).

Why is WGHR?

WGHR was organized by students with a strong interest in radio, music, and live radio broadcasting. They've struggled for years with the FCC and the Southern Tech Administration to create WGHR as it is today. We're still struggling as we're not nearly as powerful as we need to be to complement a large commuting student body. But we are strong enough to serve the STI campus and the immediate Marietta community with music, school information, and public service.

Listen to WGHR-102 FM-Marietta for music, information, and giveaways to sports events, movies, and local clubs.

Remember, WGHR is your radio station. Come by and be a part of it.

...Another reminder from your friends here at 102 FM!
