

## Four STI Students Achieve 4.00 Average In Fall Quarter

Reynolds, Disharoon, Hamrick, Capps\*  
Top Honor Roll of 75 Superlatives

Information from the Administration Office reveals a bumper crop of names on the STI Honor Roll for the fall quarter of 1953. Heading the list were John W. Capps, Mervin S. Disharoon, David E. Hamrick, and Ralph Reynolds, all with 4.00 averages. Following closely behind were Wesley E. Cantrell in second place with 3.82, William M. Parks and Roy D. Pennington tie for third place with 3.76, Kenneth W. Carmon and Russell Turner in a tie for fourth with 3.75, and Clarence A. Burns completing the top five with 3.73.

Altogether, a total of 75 men had

3.00 or better averages for the quarter. The total list follows, though not necessarily in order of point averages.

Jack E. Alexander, H&AC, 3.16; Leonard Allison, ET, 3.09; Wyndle L. Bates, H&AC, 3.70; Milton Bolcom, BC, 3.66; William H. Boulleneau, IT, 3.21; Carl Bovay, GF, 3.16; Richard B. Bridges, Mech, 3.00; Clarence A. Burns, IT, 3.73; Wiley J. Busbin, CT, 3.05; Hiram R. Cannon, BC, 3.45; Wesley E. Cantrell, E&C, 3.82.

John W. Capps, E&C, 4.00; Kenneth W. Carmon, E&C, 3.75; Pat Colston, ET, 3.42; Ernest W. Dailey, BC, 3.06; Harold G. Davenport, H&AC, 3.17; Marvin S. Disharoon, GF, 4.00; Phillips Dodd, MT, 3.50; Hiram H. Doster, E&C, 3.11; Henry J. DuPree, BC, 3.12; Herbert D. Edwards, BC, 3.12.

Paul H. Emerson, E&C, 3.00; Charles R. Englert, GF, 3.36; J. A. Foxworthy, GF, 3.10; Robert Getty, GF, 3.35; Kramer Griffin, ET, 3.06; Sheldon Hammond, ET, 3.47; David E. Hamrick, ET, 4.00; Carol R. Henry, IT, 3.23; Charles V. Hightower, E&C, 3.42; Roscoe T. Holder, E&C, 3.33.

W. Ben Holt, E&C, 3.64; Dana H. Jobson, E&C, 3.25; James H. Johnston, E&C, 3.41; Arthur Jordan, IT, 3.29; Orbie W. Joyner, BC, 3.00; Joseph J. Lane, MT, 3.25; Ernest LeDuke, GF, 3.60; Charles A. Luke, GF, 3.52; Johnny Malone, MT, 3.42; Marion F. Maner, E&C, 3.50.

Keith D. Mellott, GF, 3.11; James E. Metzger, E&C, 3.75; John A. Miller, E&C, 3.25; Melvin Mitchell, GF, 3.31; George B. Morris, ET, 3.00; William L. McCord, H&AC, 3.50; Russell A. McDuffie, IT, 3.16; Maurice E. McMican, BC, 3.12; William T. Ogleton, D. C.

## 15 Southern Bell Men Study Here

For the fifth time the Southern Technical Institute is conducting a special course for a picked group of 15 telephone employees. These men are all employed by Southern Bell Telephone and Telegraph Company and come from widely scattered points throughout the Southeast. The current group embodies students from Tennessee, Louisiana, Kentucky, Alabama, Mississippi, and, of course, Georgia.

These men will spend the next six weeks studying for their second-class commercial radio-telephone operator's license. They are sent to STI by Southern Bell for this purpose.

While at Southern Tech these students will study under the direction of Mr. Cleborn Duke. Mr. Duke graduated from STI with highest honors in March, 1952, and prior to his return to the campus he was affiliated with the Hopkins Engineering Company of Washington, D. C.

## Council Elects Parlett As Pres. For Third Term

Six new members—three seniors and three freshmen—were recently elected to the STI Dormitory Council by the students. Seniors were Delmas Fletcher, Dick Englert, and Larry Parlett. Freshman representatives chosen were Arthur Jordan, Don Pennington, and Bubber Woolf. These men will serve two quarters on the Council.

Election of officers was held at first meeting of the Council after new representatives were chosen, with Larry Parlett, Gas Fuel, from Mechanicsville, Maryland, being re-elected to serve his third quarter as President. Delmas Fletcher, ET student from Adel, was reelected Vice President, and Charles Hightower, E&C, from Macon, was elected Secretary and Treasurer.

Council was formed to try and improve the students' life in the dormitories and help govern it. Main objective for this quarter will be the repairing of the parking lot at the dormitory and getting more activities. Council meets on Tues-

day night of each week and will gladly consider any legal gripes offered by students. Inform the Council representatives and they will bring it to the Council's attention.

LARRY PARLETT

## PANEL DISCUSSION AND DINNER PLANNED AS CLINIC ACTIVITIES

February 12 Set As Clinic Date, Invitations Sent

"The Role of the Technical Institute in a Technological Age" is the theme of the Counselors' Conference to be held on the campus of the Southern Technical Institute on the afternoon of Feb. 12.

More than a thousand invitations have been sent out to vocational counselors all over the Southeast. These counselors represent such varied agencies as public high schools, Veterans Administration, U. S. Employment Agencies, and Vocational Rehabilitation Divisions in Georgia, Florida, Tennessee, Alabama, and the Carolinas.

First on the day's agenda is a panel discussion before the visiting counselors. This panel, moderated by Mr. Charles Franklin Hudgins, associate professor of education, University of Georgia, Athens, will have as its purpose informing the counselors as to what they should know regarding the function and purpose of the technical institute. There are five members of this panel in addition to Mr. Hudgins.

### DISTINGUISHED PANEL

Miss Rita Berrong, vocational counselor of O'Keefe High School, Atlanta, Georgia, will be a member of the panel and will pose a number of questions designed to bring out exactly what the vocational counselor should know regarding the nature of technical institute education.

Another member, Mr. Charles Dudley, President of the Associated Industries of Georgia, will speak regarding the need for engineering technicians in Southern industry. He will discuss such matters as the industrial growth in the South as regards diversity, extent, capitalization, and development of new areas, and the direct relationship between the progress of Southern industry and the need for technicians.

(Continued on Page 3)

## \$1500 Scholarship Goal Set by Alumni

A recent plan of the STI Alumni Association is to raise \$1,500 for the purpose of giving some deserving student a full scholarship. This scholarship will be awarded on a competitive basis.

The Alumni Scholarship Committee will meet some time this month to discuss a possible scholarship but as yet there are not enough funds available.

Out of the 600 graduates of STI only 100 belong to the Alumni Association. The dues for one year are \$1.00 and with the Association membership every graduate is mailed a weekly newsletter, monthly newsletter, and *The Technician*. The newsletter gives all the job openings available to the school.

Graduates wishing to join the Alumni Association or contribute to the scholarship fund should contact Mr. R. L. Wilkinson, Alumni Coordinator, Southern Tech.

## Thirty-Three Seniors To Complete Work In March

When the winter quarter ends on March 20, STI will send forth a total of 33 men into the world with brand new sheepskins in their pockets. All eight departments are represented in this group, paced by Electronics and Communications with 10 and ranging down to Civil, which boasts of a lone graduate.

Listed here are the names of the men who will say their farewells in March.

Electronics & Communications—Kenneth W. Carmon, James M. Hamilton, Henry D. Harrison, Ray Jones, Marion F. Maner, James E. Metzger, John A. Mills, Norman M. Talley, James A. Thompson, and Edward R. Wright.

Heating & Air Conditioning — Don S. Aaser, Charles Barr, Thomas H. George, George M. Stiles, Charles T. Wright, and Hoke S. Yarbrough.

## School Paper Is Entered In ACP Contest

Mr. L. Y. Bryant, *Technician* adviser, announces that the STI monthly newspaper has been entered in the annual Associated Collegiate Press rating competition. This is the sixth straight year in which *The Technician* has been entered in the judging. In previous years, the paper has received four first-class awards and one All-American, the highest.

The papers entered are rated by experts in the field of journalism, and the judges' criticisms help individual staffs to be able to evaluate their work more carefully with the end result of a better overall newspaper. The four major items on which the paper is judged are (1) News Values and Sources, (2) News Writing and Editing, (3) Headlines, Typography and Makeup, and (4) Department Pages and Special Features.

Mr. Bryant also states that since hundreds of other college papers are being judged at this time, notification of *The Technician's* rating will probably not arrive until about April 15. He feels confident that *The Technician* will again win a place among the top school papers of the country.

Mechanical—Carl F. Bagby, Ray F. Bridenbaugh, Phillips A. Dodd, Montgomery P. Lane, and William O. Taylor.

Industrial—Russell A. McDuffie, Albert Pinter, Lester Scott, and Robert M. Solomon.

Gas Fuel—Carl E. Bovay, Jimmy Foxworthy, and Charles A. Studdiford.

Building Construction — Troy Bouy and Charles DeVore.

Electrical—Pat W. Colston.

Civil—James A. Long.

## 55 New Enrolled, 479 Registered

A total of 479 students enrolled at Southern Tech for the winter quarter. This is the same number that enrolled for the previous quarter. Of the 479 that enrolled 55 are entering for their first quarter at Southern Tech. Of these 55 new students, 45 are from Georgia and 10 from out of state.

Over 48% or 231 of the students are veterans. This means that non-veterans outnumber veterans by only 17 students. Eighty-nine students come from states other than Georgia, which leaves 390 students from the "Peach State." The enrollment is about evenly divided between freshmen and seniors.

Enrollment by departments shows Electronics and Communications well in the lead with 130 students. Mechanical follows in second place with 77, and Building Construction in third with 63. The other five come in this order: Electrical, 52; Heating and Air Conditioning, 49; Gas Fuel, 42; Industrial, 33; and Civil, 32.

## !!We Need Men!!

The STI Glee Club recently advertised for girls to assist in staging the annual STI operetta. It now has 35 girls and only 20 boys. Please come over to Lawson Chapel Tuesday night at 7:30. Anyone needing transportation contact Prof. J. J. Defore at the Physics Building at once. "Will to work" and desire for fun essential. Stage parts still available. (Snatched from bulletin board.)

## "March Of Dimes" Drive Deserves Full Support Of American People

Is a dime too much to ask to help save a life?

Dimes are what the National Foundation for Infantile Paralysis is asking in their annual drive for funds. The March of Dimes this year should be a live string around the world. Polio last year was partially halted by a drug called gamma globulin and may prove to be the killer of polio.

Tornadoes took their toll in money, but polio takes its toll by leaving in its wake crippled children who may never walk again or may remain maimed for life, requiring constant treatment and care for their remaining years.

The National Foundation spends 70 cents of every dollar it gets for

such care. Research with the disease is the second biggest item on the budget. This cheering news that a drug has been found that might end the dread of the word Polio is more reason why we should give generously this year.

The goal of a lasting preventive that will place polio in the same category with diphtheria and other killers that once were a constant source of worry to parents is gradually being realized. Your dimes will help to advance that happy day when polio is finally eradicated; they will also help ease the suffering of those who were not so fortunate as to escape, in the past, the ravages of this crippling disease.

## "Letter To The Editor"

TO WHOM IT MAY CONCERN:

Since the Fall Quarter of 1953, when the enrollment of Southern Tech came close to being over 500 the problem of parking student automobiles on the campus has been discussed everywhere from the coffee shop to the Administration Building.

This could soon become a very grave problem both for the students and the school board unless some solution is soon found to take care of the overflow of automobiles on the campus. A student coming to class late in the day finds that it is impossible to park his car in a legal space, either marked off for instructors or posted with no parking signs. Rather than park his car blocks away from the school or leave it in the middle of the street, he will park in the no parking zones. As soon as this is done by the student, someone will call the local police force to come to the campus and immediately place a "pink" ticket on the car. This in turn will mean that we now are supporting the local government. Many of us are on a rather limited budget while we are in school and could probably find a much more useful item to spend this money on than a parking violation.

Instead of each time some student violates one of these laws, and the local government is called in to enforce what should be a campus rule, there could be some committees formed and the violator brought before the Student Council and let the students decide what penalty should be brought forth. This is only my suggestion, which, I'm sure, could be improved with other suggestions.

So with this I say let us all try to find a solution to this problem, keep the informer from calling the local strong arms, and retain our dollars in our own pockets.

TED MEDERNACH

## Attendance Good, Don't Let Down

The Green Hornets of STI are now entering the home stretch of their basketball season. Attendance hasn't been poor, but it could be better. Those who have gone to most of the home games know STI has a fighting team, and that it is a team that can't be counted out in any game until the final buzzer.

Spirit is not lacking for Southern Tech at the games. You as a student get a free passage, and the cost of a game is low compared to other means of entertainment. Let's all give our full support to the Hornets in the remaining games by keeping the seats well filled at every game.

## Two New Profs. Join STI Staff

To the teaching staff of Southern Tech this quarter comes Mr. James Tootle, a native of the Geechee Land down in Savannah.

Mr. Tootle, an instructor in math and physics, graduated from Savannah High School, attended Armstrong College, and graduated from Emory in 1951 with an AB degree in physics.

After graduation he went back to Savannah and taught math and physics at Armstrong, and was employed by the U. S. Corps of Engineers from 1951 until he came to the faculty of Southern Tech.

Yardy Williams, a recent graduate of STI in E&C and James M. Galley of San Antonio, Texas, and a graduate of Georgia Tech, are two new instructors that are doing part-time instructing in the physics and Industrial subjects.

Baby sitters are girls you hire to watch your television set.

—STI—

The difference between a bachelor girl and an old maid is nobody's business.

## Education --- A Refining Process

By D. G. McINTIRE

Student Counselor, American School

Of all the synonyms the dictionary gives for education, the word "refinement" seems to convey, better than all the rest, what education does for us—and TO us.

Refinement is a process to improve quality, and to increase value. There would be no automobile were it not for the refinement that turns crude oil into gasoline. Even gold must be refined before it appears in its most valuable forms. And the many thousands of uses we have for iron and steel are possible only after many stages of refinement.

Let's take a bar of plain iron valued at \$5.00. With a little processing we can make that bar into horseshoes worth \$10.50. We carry the refining process further and produce sewing machine needles that will sell for \$3,285.00. Up to this point our refining process has paid off tremendous dividends. But we can go still further and make balance springs for watches. Now, our \$5.00 iron bar is worth — hold your breath—\$250,000.00.

Astonishing, isn't it?—what a tremendous difference this refining makes in the worth of a piece of iron. But look what it does to the student who adopts education as a personal refining project. Not only does he get the tremendous dollars and cents value — education has paid off a lot more than \$250,000.00 in the lifetime earnings of many a student—but there are many other rewards, some of them too great to be measured in dollars and cents.

Let's take a look at just a few of the invaluable by-products of home-study refinement.

**Initiative**—The power to start something to lift you out of the class of those who must be told what to do next.

**Honor**—The fulfilling of the obligation to yourself to complete your course.

**Courage**—Overcoming the obstacles that stand in the way of your study program.

**Will Power**—Something you must delegate to every purpose in life —and which you strengthen with every obstacle you overcome.

**Loyalty**—To yourself to complete the project you have embarked upon. ("To thine own self be true . . . thou canst not then be false to any man.")

Truly, these are "pearls of great price," but of such great price that no one would attempt to set the figure. If you would try, just consider which one you would give up in exchange for \$250,000.00. That will give you some idea of the power of refinement that is education.—American School News.

## The Corn Crop

By BOVAY & PARLETT

Frantic hotel keepers sent out urgent call for the electrician when it was noticed that "ES" was out in the neon sign of The Essex House Hotel in Chicago.

—STI—

Fair Trade

The little boy dashed in and breathlessly informed his father that he had just sold the mongrel puppy for \$50,000.

"For cash?" asked his amazed father.

"Well, practically," replied the boy. "I swapped him for two \$25,000 kittens."

—STI—

He: "There's a certain reason why I love you."

She: "My goodness?"

He: "Don't be absurd."

—STI—

Outraged Wife: "Couldn't you think of anything better than coming home in this drunken condition?"

Erring Husband: "Yes, M'dear, but she's out of town."

—STI—

Double Features

"The Time of Your Life" with "The Weaker Sex."

"Boy Meets Girl"—Bingo—"Four Daughters."

"The Fleet's In" and "Julia Misbehaves."

—STI—

Who stole the drawers from little Audrey's dresser, and didn't leave a thing for her behind?

—STI—

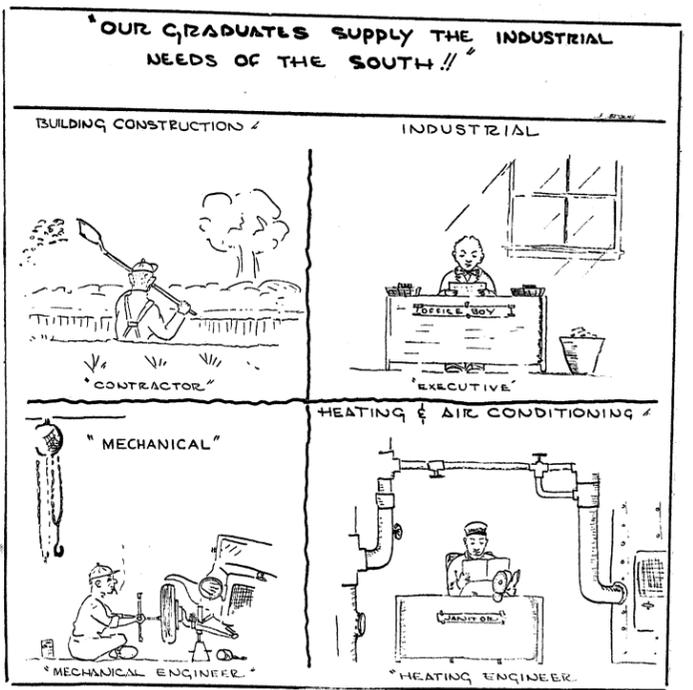

Shall We Tell Her?

A young man took his city-bred girl friend to a night club in Las Vegas, a place which was decorated elaborately in cowboy style.

They were there a short time when the girl arose and excused herself to go have her face made-up. She returned a moment later, her countenance a blushing red.

"Ted," she said, "you'll have to help me. Am I a heifer or a steer?"

—Parts Pup.

## Covering the Campus

With Larry "Yank" Parlett

If when you finish a class you find your car is missing, maybe the blue coat boys from Chamblee can help you locate it for a slight fee, say a \$5.00 towing charge. You're lucky if you just got a ticket.

\* \* \*

It has been reported that Lester Scott has become quite a dance artist, with the jitterbug being his specialty. Needs a little priming to get going though. Could be gasoline or some other beverage.

\* \* \*

Marian Tsai has a new gleam in her eye since she visited New York City over the holidays. Seems to be catching on to the latest American fashions, too.

\* \* \*

Basketball support seems to be on the upgrade and is becoming a fine example of what school spirit should be like. Congratulations are in order to our new cheerleaders, "Cats," Billy Greenway, and Teddy Medernach.

\* \* \*

Charles Lathram had to bachelor it for awhile while his wife was visiting home. Thought his car was spotted at a certain tavern near Piedmont Park. Please don't tell his wife, though.

\* \* \*

Congratulations to Ed Woolf and the former Miss Claire Herbert, who got hitched on October 31. Ed keeps a secret pretty well but couldn't take the pressure any longer; so he confessed his deed.

\* \* \*

Jimmy Fogarty's new love from Savannah can't afford stationery, so she mails him an envelope with little love notes on the back. Saves money anyway—but oh! so public.

\* \* \*

Bill Leverette is yet to spend

a weekend at STI. Claims he has to go see his girl, who has him really tied up. Will be rough to take when he gets his saddle via the pony express.

\* \* \*

The newest fad to hit STI seems to be dressing up for the basketball game. Delmas Fletcher gets the praise of oddity this month with coon-skin cap and his moose horn. Norman Talley gets "nosiest" award with his waste paperbasket and drum sticks.

\* \* \*

Bubber Woolf is receiving love letters from two different girls, Charlotte at West Georgia and Beverly at University of Georgia. Lord help him if West Georgia should meet with Georgia for a chat.

## THE TECHNICIAN APPLAUDS

Mr. C. A. "Coach" Arntson, the essayist-coach, who recently won first prize in the Les Henrickson TV Show Contest, "Why I Like to Bowl." His prize was, of course, a bowling ball. We of *The Technician* extend our most hearty congratulations.

The STI Green Hornets for the fine exhibition of sportsmanship and player ability. Keep up the fine work, men, and Southern Tech will have another championship team.

Many a guy who dashes out the back door as though he wanted to catch a bus, does so because the guy coming in the front door just missed one.

—STI—

A coed is a girl who didn't get her man in high school.

Club News Roundup

CLUB MEMBERS BUSILY PUSH WINTER PROJECTS

By D. P. JONES

The departmental club members seem to have welcomed the new quarter with all the old usual vim, vigor, and vitality. The clubs that had projects continued from the last quarter have returned to those projects with the determination that they will be completed and new ones started before the winter quarter is over.

IOTA TAU

The Iota Tau, Industrial department, had their first meeting of the quarter in the school cafeteria at 8 p.m., January 12, reviewed the accomplishments of the fall quarter, and made plans for the winter quarter. These plans include a club outing and a steak dinner, possibly during the month of February. Other discussions were of another highlight event, which they were not ready to reveal.

All the old officers from the last quarter were continued in office, with the exception of Mr. B. S. Temples, whose office expired at the end of the fall quarter, the office of Student Council representative. Mr. S. L. Warren was elected to succeed Mr. Temples.

The members of the Iota Tau welcomed four new members into its fold at the first meeting of the quarter, and extend an urgent invitation to all industrial students to come into the club.

GAS FUEL

Members of the Gas Fuel department are still enjoying their Sunday evening dinners. Boys, what better inducement could anyone use to secure and hold members? The report is that the miniature bulk gas-fuel plant started last fall will be completed this quarter. It is located at Peachtree Street and Carroll Road. The Gas Fuel boys plan to enter their project for exhibit in the Southern Gas Fuel Convention, to be held in Atlanta, and also in the National Gas Fuel convention to be held in Chicago. We of *The Technician* are sure that they will win much recognition.

The new officers elected at the first meeting of the Gas House boys are as follows:

- President—Ivan Tatum
- Vice President—Mervin Disharoon
- Secretary & Treasurer—Marion Tingle
- Public Relations—David Mathews
- Club Advisor—Mr. Earl Clifford

MECH CLUB

The Mechanical Club, the Heating and Air Conditioning, the Electronics, the Monogram Club, the Civil Club, the Building Construction Club, and the newly created

Power Club have not had their first meeting as we go to press, but I am sure they are ready for a full calendar of activity and fun.

S.T.I.C.A.

The newly created Southern Technical Institute Christian Association is holding meetings each Wednesday evening at 8:00 p.m., and invite all who will to attend these meetings. They send out an urgent appeal for membership in this worthy club. Their cause is the oldest cause that man has tried to accomplish, and just as the Church is the pillar of any community, The STICA is a righteous pillar of the Southern Tech campus. The Club plans several visitations to Young Peoples' meetings in this area, and would appreciate a large representation of the STI students when they visit in this community.

STI BAND

The group of musicians, who are working on a constitution to form a school band, have not finished their survey, but promise more news, music, and noise by the time of the next issue of *The Technician*.

All the departmental clubs sorely miss the old "CLUB" hour which used to exist on Thursdays from one to two p.m. They all join in hoping the staff can find it convenient to restore this activity hour, as it would enable the clubs to have a much larger representation at their meetings.

1954-55 Catalogue Expected Feb. 1; Helpful Hints Listed

The 1954-55 STI catalogue, which should be ready February 1, will give a clearer explanation of the technician's role in industry. All of the eight courses will be clearly defined and the technical institute level of education will be explained to a greater degree.

All of the faculty will be listed according to their professional and departmental rank. Their degrees and colleges will also be given.

The catalogue will also give prospective students more general information about Southern Tech. A new section of helpful reminders will answer many of the questions concerning dormitory life, draft exemptions, how to reach STI, payment of fees, etc., often asked by prospective students.

February 12 Set As Clinic Date, Invitations Sent

(Continued from Page 1)

ians will also be emphasized.

Dr. H. P. Rodes, president of the Ohio Mechanics Institute, the third member of the panel, will discuss the characteristics and objectives of the technical institute. He will define concisely the terms Engineering Technician, Assistant Engineer, Engineering Associate, and Associate Engineer. Dr. Rodes will attempt to answer the question, How does technical institute training in engineering fields differ in course content and objectives from the four-year college engineering program?

Professor William R. Halstead, head of the Electrical and Electronics Department here at STI, will discuss the technical institute and its product, the engineering technician. He will tell of the curricula here, the division of the student's time over classes and laboratories, and the costs of attendance here as compared with those of a regular engineering college. He will outline the current trends in engineering education, both in the technical institute and the four-year engineering college.

JOHNSON SPEAKS

Mr. Frank J. Johnson, supervisor, Lockheed Aircraft Corporation, Georgia Division, will discuss utilization of engineering technicians in this major Georgia industry. The extent and diversity of Lockheed's operations in this state and its experience with technical institute graduates will be fully explained.

Dr. Joseph E. Moore, head of the Psychology Department, Georgia Institute of Technology and a panel member, will review the qualifications for a student's success at a technical institute and the manner in which these requisites differ from those of an engineering college as regards mathematics, aptitudes, and general IQ. He will outline exactly what sort of high school course should be followed by a student whose aim is eventual enrollment in a technical institute

All-Stars Win Over Oglethorpe 7-6 In Thriller

Intramural football came to a close when the STI All-Stars played the Oglethorpe All-Stars to 7-6 victory on the Petrels' home field on December 12.

The touchdown for STI was made when linebacker James Reeves intercepted a pass and ran the ball back for a touchdown. Point after touchdown proved to be the margin of victory in this closely contested battle.

All-Stars chosen from STI departmental teams to participate in the contest were co-captains and backs Jeff White and Rufus Rogers, James Reeves at center, John Carmichael and Bobby Wiggins at ends, Harry Whitworth and Paul Emerson at guards, Sam Buttrill and Robert Perry in the backfield.

Substitutes were Chuck Thomas, Edwin DuBose, Robert O'Connor, Raleigh Cannon, and James Alexander.

A Cape Cod native's daughter fell into a newly dug well.

Was the native perturbed? Not an old Cape Codder like him. He simply drove to the nearest bookstore and ordered a copy of "How to Bring Up Young Girls."

Bowl Decides Number One Selection By Local Fans

By "TOP" O'CONNOR

In years gone by the New Year's Day Bowl games have laid King Football quietly in his grave for the season. But this year a football controversy has been set up by a bowl game, and will continue until next fall. It is all due to the mythical football championship.

The championship is decided by polls taken by the AP and the UP. Both ranked Maryland as the No. 1 team in the nation, and now both are out on the limb. Cries of "murder" went up from South Bend ends, the home of the Irish of Notre Dame, at Maryland's choice.

Maryland, sparked by quarterback Bernie Falone, went through its schedule undefeated. They rolled up impressive scores against Alabama and Mississippi, but many critics charged that Maryland played a comparatively easy schedule.

ROUGH SCHEDULE

Notre Dame went undefeated, but was tied by Iowa, in the upset of the year. Notre Dame's schedule was a killer with no "breathers"; yet the Irish never tasted defeat, and in the eyes of many were the tops in the nation.

Since Maryland and Notre Dame

didn't play each other during the season, the only way to compare them would be to compare their scores against a common opponent, Oklahoma. Notre Dame and Oklahoma met at Norman, Oklahoma, in the first game of the season for both. Notre Dame was triumphant 23 to 21. Maryland and Oklahoma met in the Orange Bowl January 1. Maryland was a 7-point favorite, but they just didn't have the guns for Oklahoma that day and came out on the short end of a 7 to 0 score.

Which leaves us over a barrel. Maryland is the mythical champ according to UP and AP but simple math makes Notre Dame a 14-point better team than Maryland. And what about Oklahoma? They beat Maryland 7 to 0!

So with this thought in mind, the inquiring reporter began collaring students to get their opinions.

Jimmy Richards, Ind., "Notre Dame, because of the schedule, and the Iowa game was just one of those things."

Will Madison, B. C., when asked held true to form, said "I don't know."

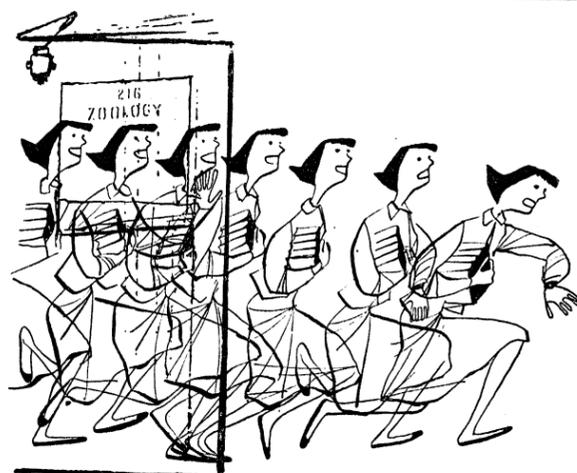

John Diamond, Civil, "Notre Dame. I previously thought Maryland was No. 1, but after their loss New Year's Day my opinion was changed in favor of Notre Dame."

Dick Englert, "Oklahoma, because of their outstanding record during the regular season and their bowl victory over Maryland."

Ed Wright, E&C, "Notre Dame; they played a tougher schedule. Maryland met only one tough team and then they got beat."

Jim Metzger, "Michigan State, because they won the Big Ten and in the Rose Bowl."

Henry Harrison said "I agreed with Deacon Andy Griffin, "What it was, was football."

# Green Hornets Roll, 10-3 Record To Date

By RALPH N. JONES

The STI "Green Hornets," showing midseason form, shook off their first loss of the season and regained their balance to win the next five out of six games, before the school closed down for the Christmas holidays. When the team returned, they put on an amazing last quarter drive to continue on in their winning ways.

Falling before the Hornets were Columbia Theology Seminary, 71-43; Georgia Southwestern, 85-75 and 73-63, the last being on overtime game. Their only loss was at the hands of Middle Georgia by the slim margin of two points, 62-64.

Against Columbia Theology, STI held the upper hand all the way, and in the end wore down a spirited team as they poured in 27 points in the last quarter. In this game, 12 men played with Co-Captain Bobby Anderson leading the way with 23 points. Arthur Jordan trailed Bobby with 11 points for runner-up honors.

## DEFEATS TOCCOA FALLS

Following this easy win, STI ran up against Toccoa Falls, which played STI down to the wire, but they fell short, due mainly to STI's third quarter surge of 23 points. Leading the attack was, again, Bobby Anderson with 21 points. Pete Day ran second with 14, followed by "Bubba" Woolfe and Ralph Reynolds with 12 each.

Against Oglethorpe, STI moved, and on the strength of a 27-point second quarter coasted in, playing Oglethorpe point for point. Pete Day, who poured in 18 points during the first half, finished out the night with 29 points. Bobby Anderson was runner-up with 12 points.

Leaving the confines of the STI gym, STI invaded South Georgia and put down a highly regarded Southwestern, 85-75. Relying on a third quarter onslaught, STI held on by matching fourth quarter points and coasted home for their sixth win of the season. Pete Day and Arthur Jordan led the attack with 21 points apiece, with Jerry Wilhelm dumping in 18 points.

Bobby Anderson finished the night with 16 points.

Moving to Middle Georgia, STI suffered their second defeat by the slim margin of two points, after blowing a 36-25 half-time lead. Middle Georgia dumped in 21 points to STI's 10 points in the third quarter, and STI was never able to regain their poise. Arthur Jordan got 17 points in their losing cause, with Pete Day and Bobby Anderson runner-up with 15.

Returning from the holidays, STI met Georgia Southwestern again, and in the best-played game of the year so far, STI won out in an overtime period, 73-63. STI gave the large home crowd a scare, when they lost a half-time margin of 27-24 and slowly fell behind, waking up in the last three minutes to knot the count at 52-52. Just before the game ended, Pete Day dropped in a foul shot to tie the game 60-60 and sent the game into overtime. Personal fouls were too much on the Southwestern bench and STI coasted in to win by scoring 13 points. Arthur Jordan hit for 23 points, and was followed by Pete Day with 18.

Southern Tech's 1954 Varsity Basketball Squad

## Six Departments Will Compete for Basketball Honors

Intramural basketball opens its 1954 season on January 19 in the Southern Tech gym, with six department teams competing.

The teams playing this year are Builders, Gas Fuel, Mech, Civil, Electrons, and Protons. The games will be played every Tuesday and Thursday, the first game at 6:00 and the second at 7:00.

The 1954 schedule is:

- January**
- 19 Civil vs Electrons
  - B. C. vs Mech.
  - 20 Gas Fuel vs Protons.
  - Electron vs Mech.
  - 23 B. C. vs Civil.
  - Gas Fuel vs Electrons.
  - 26 Mech vs Civil.
  - Protons vs B. C.
  - 28 Gas Fuel vs Mech.
  - Electrons vs Protons.
- February**
- 2 Civil vs Gas Fuel.
  - Mech vs Protons.
  - 4 B. C. vs Gas Fuel.
  - Mech vs Protons.
  - 9 B. C. vs Electrons.
  - Gas Fuel vs Protons.
  - 11 Civil vs Electrons.
  - B. C. vs Mech.
  - 16 Electrons vs Mech.
  - B. C. vs Civil.
  - 23 Protons vs B. C.
  - Gas Fuel vs Mech.
  - 25 Electrons vs Protons.
  - Civil vs Gas Fuel.
- March**
- 2 Mech vs Protons.
  - B. C. vs Gas Fuel.
  - 4 Civil vs Protons.
  - B. C. vs Electrons.

## THE SPORTS FRONT

By Ralph N. Jones

This month, I would like for you to meet two freshmen who are playing now on the STI basketball team.

The name "freshmen" applies only to their scholastic standing, not to their basketball abilities. I say this in reference to their performances on the hardwood floor, because in games that I have seen them play in, they would be classified as senior members. The two in question are "Bubba" Woolfe and Jerry Wilhelm.

"Bubba" Woolfe, the second tallest player on the team, came to STI from Mercer, after graduation from Lanier High in Macon, Ga. While at Lanier High, he didn't make basketball his major sport, as he lettered only in baseball his senior year. After coming to STI, he was pressed into service and at the present time is improving and is expected to be of great value to the team. Because of his transfer from Mercer, he wasn't able to play in the conference games, and this is the reason why you haven't seen him take the floor as often as he could.

Turning to the guard slot, you can find an able replacement in

Jerry Wilhelm, although each game that he plays, he is being thought of more and more as a regular.

Jerry is also a freshman, coming to STI from Lafayette, Georgia. While at Lafayette High, he lettered in the big three, football, basketball, and baseball, both his junior and senior years. In his senior year, he was the basketball team captain and won honors for All-Region in 1953.

If Jerry develops as much as he has in the last few games, he will find a lot more action as the season progresses.

When you come out to the games, watch these two in action, because being both freshmen this year, means that next season, these will be the students that you will be reading about.

## "B" TEAM UNDEFEATED

The "B" team completed a double-headed defeat with the Oglethorpe "B" team by the count of 53-32, for their second win in as many starts. From the start the outcome was apparent, as the "B's" pleased the home crowd. Doug Wall hit 16 points and was closely followed by Jim Hall's 15 points.
