The STING

Southern Technical Institute
Marietta, Georgia 30060

21 NOV 77

DEAR MOM: NOBODY CARES

D.A.N.A. SPEAKS

Well, this is the last issue of the quarter. I hope the STing has kept you well informed on campus happenings.

I would like to thank everyone who wrote to the STing and expressed their views. These people have shown that apathy is not entirely rampant on this campus and that students do care what goes on. Thanks, again!

A warm welcome to Diane Hays as the STing's new typist. I'm sure she will be a great asset.

It's hard to believe that the holiday season is near. Joe Taylor and I wish everyone a happy and healthy holiday season!

See you next quarter.

Dana Lange

MAIL

Dear Editor,

The Office of Development that was created by Dr. Carlson will have profound affects on all students at Southern Tech. By the creation of this office the student and alumni placement, co-op, and the Public Relations/Alumni Association department will be under the control of one man. This person will be able to coordinate effectively the school's efforts to place students and the never ending battle of fund raising, a great idea right? WRONG!

The problem is that the position was created, approved by the Regents, and filled without any input from the people affected the most, the students and alumni. We were not allowed to voice our opinion as to who would be the best possible administrator of this important position. We were not even directly informed about the change. Well, as mere students our thoughts don't count. BULL!

I, for one, feel that my opinion does count, that I should at least have a chance to voice an opinion and have it considered. We are the ones this school is suppose to serve. The administration's object should not be just to please Dr. Pettit at Georgia Tech.

If you feel that your voice should be heard, make an appointment to see Dr. Carlson and make your opinion known.

Mike Reeves

CO-EDITORS: Dana Lange and Joe Taylor
 ASST. EDITORS: Diane Hays and Stan Otts
 REPORTERS: Warren St. Clair, David Dearman,
 Karen Fichtner, Steve Gailey,
 Vincent Hewitt, Don Perry
 GUEST REPORTER: Bill Strickland

THE STING'S DEADLINE IS WEDNESDAY AT 12 NOON
 There are NO EXCEPTIONS.

All letters and articles submitted to The STing must be signed. They must have both signature and box number or department. Please leave them in the box at the student center.

The STing needs you, if you're interested in helping leave your name and box number in the STing box.

Dear Editor,

This is simply a student's opinion, but if I don't have the initiative to make mine public no-one else will for me.

I feel the organization layed out recently by Dean Carlson for Paul Smith has its values and its limits. Paul Smith is designated to manage five organizations-three of which Robert Azar has headed for several years doing a fantastic job. The Office of Development is too diversified having to deal with student related activities and Robert Azar's jobs. I am not familiar with Dean Smith's abilities, but I am with Robert Azar's. I have been associated with Robert Azar through campus organizations and that man works like a Banshee to get and have activities for US, not himself. He is the only administrator I ever see here on weekends or after hours.

If we lose Mr. Azar, we can kiss a lot of nice things goodbye. Think about it and express an opinion.

Joey Watkins

Dear Editor,

We would like to comment on the two articles in last week's STing concerning the promotion of Paul Smith.

We believe that people are being too hard on him. They act like he promoted himself instead of being promoted by the administration. If he were not qualified, he would not have been given this new position.

Robert Azar has done a fine job and has gone beyond his normal job to help students-Paul Smith has, too. Since students aren't able to see all that is accomplished by either men, such accusations, in last week's STing should not be made.

We think Paul Smith will do a great job with his new position. Either Azar or Smith has the ability to do it. Both can't have it, so one had to lose.

Congratulations, Paul Smith!

Eddie Wright
Keith Fields

Dear Editor,

The first I had heard of the new position of Director of Development (which Dr. Carlson appointed Mr. Smith to head) was after reading last week's STing.

Why was this new position kept secret until after it had been done? Why was the best person not appointed to the position through committee like all other offices on campus.

This new appointment of Mr. Smith, who will be over Robert Azar, could mean a great loss to our campus, if Mr. Azar loses his battle.

Since I have been going to school here, whenever you wanted to find out something in the Goatshed, you either went to Robert Azar or Jack Selter. These two men could either give you the answer and help you with your problem, or tell you whom to go see. They would follow up with you to get your answers. Jack Selter is no longer here to help us students and that only leaves Robert.

So, if you ever want to get some straight answers from the Goatshed stand behind Robert Azar and help him. He could be leaving, if he loses this battle.

Help us help ourselves on campus now, and when we graduate. We need a strong individual, so-HELP SOUTHERN TECH.

Edwin Sawyer

Dear Editor,

In light of all of the rumbling and resignations of the past few years, isn't it interesting that the one resignation that would help Southern Tech the most hasn't come about.

Brent Williams

Dear Editor,

For the past three years, I have watched from the sidelines as this school floundered around under its administration. Suddenly, it has dawned on me that as a paying student, I and everyone else at this school deserve an explanation of the questionable activities of our administration.

Let me clarify some issues at hand:

- a) It is rumored that a vigilante group of professors went to Georgia Tech and demanded Dean McClure's resignation for the loss of the money returned to the state.

This group had the right idea, but got the wrong man. Remember that McClure is under Carlson. Like most vigilante groups, they went off half-informed and half-cocked.

- b) Half of the operative branch of this school has been combined into a "Development Office." This includes the Co-op, Placement, Public Relations, Alumni and Foundations Office.

This would put Paul Smith over the Foundation and the Alumni Association and Robert Azar under him. Mr. Smith has no authority over those two organizations since Mr. Azar is the Executive Secretary over BOTH. Further, it is also common knowledge that Mr. Smith and Mr. Azar do not get along very well. This could cause a huge lack of harmonious operation of the "Development Office."

The hugeness of these decisions becomes apparent. Paul Smith is now in charge of about half of the administration of this school. (At least on paper; who really runs this school?) He is good for co-op, but lacking in experience for Public Relations.

I believe that Dr. Carlson is opposed to the Bathtub Race. Mr. Robert Azar considers the race to be a major contributor to the publicity of our school. Mr. Azar is now under Paul Smith who is under Dr. Carlson. Goodbye, Bathtub Race.

As far as I'm concerned, Dr. Carlson hasn't been the backbone of this school. With Dean McClure gone, we should look forward to a severe cut-back in our fine Police Services, Physical Plant Maintenance, and other operating services that McClure supported. At most, we can look forward to re-absorption by Georgia Tech.

To you Dr. Carlson: What's going on?

To the students: You'd better stand up while you have the chance, or get used to being a Ramblin 'Reck of Georgia Tech.

To the future: We can see a scene of

Dr. Carlson being introduced to his successor---Paul Smith.

Sincerely,
Joseph W. McConaughy

Dear Editor,

Who is going to leave next? Well from what I hear, it may be Mr.

Robert Azar.

It seems that as soon as someone starts getting a job done and done efficiently, suddenly you hear of a resignation. Then, of course, the job is open and there goes Paul Smith into the position. It seems strange that the resignations are followed by Paul Smith taking over the position. As in the case of Mr. Robert Azar, I can not see how the department can be run more efficiently than by Mr. Azar.

How can he do a better job? He tossed the job out of his office and behold he is just dying to pick it back up to do the students a favor, and give them his time and effort to make the office much more efficient.

I'm sure it will be more efficient. There will be no more Bathtub Race and once again, everyone will ask where and what is Southern Tech?

If this is what the students want, so be it. If not, let's tell Paul Smith where his position is.

Jean B. Aldridge

Dear Editor,

NAME GAME-Will my four-year degree from STI this spring have printed on it, Bachelor of Science-Mechanical Engineering Technology, or Bachelor-Mechanical Engineering Technology?

Thanks again.

Joe Lallande

Bachelor-Mechanical Engineering Technology--Ed

Dear "Disgusted,"

The STIing would love to print your letter but we need to have your signature on file.

Thanks.

Ed.

"THE FOX"- IN LIVING COLOR

Karen Fichtner

No, not a female fox--the Atlanta Fox Theatre! On Thursday, November 10, architect Burt Mathews showed a slide presentation in the Student Center ballroom on the Fox Theatre.

Have you ever seen the Fox--I mean really seen the Fox? Have you noticed the Egyptian decor, the crenellated castle walls, the ceiling? Heck, no. The building itself is beyond description.

The Fox has a really interesting history. It was originally commissioned in 1927 by the Shriners to be a Shrine Hall to end all Shrine Halls. They wanted to imitate Baghdad as closely as possible--but that got to be a very expensive idea. Halfway through construction, the Shriners realized that they had bitten off more than they could chew. They decided to lease the theatre portion of the building to William K. Fox, head of the Fox theatre chain. Fox paid three million dollars for the right to use the theatre only. He added the Peachtree Street entrance (the building was originally designed to have its main entrance on Gilmer Street.)

Fox's wife was a compulsive shopper, and a compulsive traveler. In her travels, she picked up a few odds and ends to decorate the Fox. She had the ticket booth (the one at the Peachtree Street entrance) especially made in France, almost entirely out of brass and marble. The ticket chopper in the lobby was custom-made in Italy.

Some of the decorating ideas for the building came from the Shriners, and Fox himself. Almost \$25,000 worth of gold leaf was used in decorating the Fox (that's 1929 dollars!) There are three-inch crystals embedded in the ceiling forming the pattern of a constellation that one would see if one were in Arabia looking up at the sky at night. The walls are decorated as though you were looking at the outside of an Arabian fortress with stucco "stones" on this fortress that look so real, even up close you would swear it was stone. There is a "tent" ceiling over the balcony--if you look up, you would swear that there was a canvas tent above you. The construction of this "tent," though, is actually steel and concrete. Even if you got close, you

would still swear it was canvas (a fact which has given a few fire inspectors a jolt!) A few of the bathrooms and the ballroom are done in Egyptian decor-- complete with intricately carved, Egyptian-throne style chairs. Most of the original furniture is still in use at the Fox.

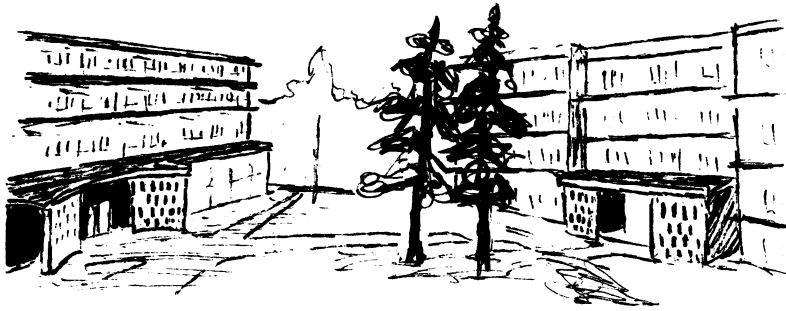

Though it was constructed in 1929, the Fox was built with the following amenities: central air-conditioning, a central vacuuming system, gas heat, intercom telephones, and a 35-foot long lighting console. Even today, the console is one of the best in Atlanta.

The amazing Fox organ can be raised or lowered--but did you know that the entire orchestra could be raised or lowered, also? There are five other lifts in the stage area--which makes this building one of the best equipped public concert halls in this area, in addition the Fox is acoustically perfect! If you go to a concert there, every seat is a good one.

In 1974, the Fox was bought by Atlanta Landmarks, Inc. for \$1,800,000. This works out to (with approx. 200,000 sq.ft.) about nine dollars per foot. Do you know what it costs to build a modern theatre, today? About \$50 per square foot! How much more of a bargain can you ask for?

The Fox, in it's present economic state, is self supporting--as far as operating costs go. But, it doesn't make enough to make payments on the one million, eight hundred thousand-dollar debt. That is why they are always running around, yelling "Save the Fox!"

If you would like to contribute, just mail in a contribution (tax-deductible) to: Atlanta Landmarks, Inc.--Fox Theatre--Atlanta, Georgia 30308

A CONVERSATION WITH DEAN MCCLURE

Don Perry

The answers for this week's series of questions are provided by Mr. H.L. McClure, Associate Executive Director for Southern Tech:

- Q: What plans exist for future improvement of the dorms?
- A: At the present time, there are no plans for future improvement of the dormitories except for improved maintenance.
- Q: Have potential areas of dorm improvement been identified? Explain.
- A: The present plans call for closer supervision of the shower and toilet areas, to be sure that everything is in working order, and to make increased efforts to keep the buildings cleaner.
- Q: Why was there an increase in dorm fees for the fall quarter 1977?
- a. How much was the increase?
- b. How will the increase be used?
- A: The increase in dormitory fees this quarter was dictated by the rising costs of dormitory operation and the deficit that has been occurring for the last several years. While this sum alone did not wipe out the deficit, it did reduce it.
- Q: How are maintenance priorities for the dorms established?
- A: In the past, maintenance priorities for the dormitories have been established simply by attempting to meet the requests of students and of dorm supervisors. This procedure will be continued. However, a program of preventive maintenance will be established, and specific job requirements for each janitor will also be established.

Q: How long should it take to correct a properly reported discrepancy in the dorms?

A: Exactly how long it should take to correct a properly reported discrepancy in the dormitories depends largely on the nature of the discrepancy. If it is a simple thing, such as a broken window in a room, repairs should be accomplished within 24 hours or less. If it is a broken heating unit or air conditioning unit in a room, this should take 24 hours to two weeks depending on the availability of parts. Generally speaking, the size of the job and the availability of parts will determine the total length of repair time. However, any repair work should be started within 24 to 48 hours.

Q: Parking for dorm residents has long been a topic of discussion. What plans exist to provide parking for the dorms that will be closer to the dorms and insure adequate security of vehicles and their contents?

A: The provision of parking closer to the dormitories has been a subject of controversy for some years. The basic design of the campus included the philosophy that there would be no parking beside the circle of Campus Drive. Because of the shortage of parking spaces at this time, however, and the obvious need to attempt to expand parking facilities, it is reasonable to attempt to provide any additional parking in better proximity to the dormitories. No specific plans have been developed however.

Q: How many people, male and female, currently reside in the dorms?

A: At the present time, there are approximately 430 persons residing in the dormitories and approximately 30 of this number are women. This occupancy represents about 85%.

Q: What is the potential for converting existing dorms into classroom areas and building a new and modern dormitory complex?

A: In my own opinion, the possibility of converting existing dorms into classroom areas and building new dormitories is very remote. If money were available, it would be used either to build new classroom areas or to convert existing dormitories.

Q: Why must Southern Tech students who reside in the dorms walk through inclement weather to the student center building to get food and drink?

a. What happened to the kitchen facilities in the dorms?

b. Why are the rooms designated as cooking areas in the dorms used for storage?

A: The kitchen facilities in Dormitory #1 are intact, as they were when they were in use. This facility was shut down for the simple reason that students did not patronize it enough to allow for a break even operation. Our break even point in that building was around 250 meals a day and last spring, we were serving around 75.

Q: The dorms are now fully occupied and with enrollment expected to approach 3,000 in the immediate future, what is being done to insure adequate facilities for this student increase?

A: There are no plans at the present time to increase Southern Tech's dormitory capacity, because the dormitories must be self supporting and at least part of the money used to build the dorms must be repaid. Dormitories cannot be considered until the need is actually there.

Q: Are the dorms competitive compared with local rentals?

A: It is the opinion of the school that the dormitory rentals are competitive with space available in the community. Periodic comparisons are made. In fact, the local rental market acts as a restraint to the amount that can be charged for a dormitory room.

STI'S NEW OFFICE OF DEVELOPMENT

At their November 9 meeting, the Board of Regents approved a change in the administrative structure at Southern Tech. To better coordinate related activities, a Development Office has been set up to include the following activities: student and alumni placement, cooperative education, public relations, Alumni Association, and Foundation.

The Board also approved the appointment of Mr. Paul Smith as Director of Development. It will be Mr. Smith's responsibility to more effectively utilize existing personnel and fiscal resources. In addition, one of Mr. Smith's responsibilities will be to assist the Dean/Executive Director with special campus projects.

MAIL, MAIL, MAIL

MAIL, MAIL, MAIL. This is what is found in STI mailboxes. The facts are very conclusive, STI students are NOT checking their mailboxes. The fall quarter is nearing completion and hundreds of mailboxes have not been checked one time during the quarter. The biggest offenders are those registered as freshmen for fall quarter '77.

Students! Something has to be done with this unclaimed mail. Will you help by picking up what is rightfully yours? If not the Post Office will dispose of it as directives permit.

It is my understanding that ID cards with current validation stickers are required to cash checks at the cashiers office, check out library books, utilize student center facilities (games etc.), and make purchases from the bookstore. How can so many students use these facilities with current validation stickers still in their mailboxes?

PLEASE CHECK YOUR MAILBOXES REGULARLY!

AL HUNKIN DAY

Monday, November 21, 1977 is Al Hunkin appreciation Day. Congratulations Professor Hunkin!

ROTARY CLUBS SEEK GEORGIA STUDENTS

Annually for thirty years now, the Rotary Foundation of Rotary International has been making grants to students throughout the free world to live and study for a year in a country other than their own. Over 11,000 students have participated and over 100 countries have been directly involved in sending or hosting these young people. The purpose is to promote international understanding and goodwill and in this way make a contribution to world peace.

There are over 100 Rotary Clubs in Georgia and they are now seeking Georgia applicants for 1979-80 awards in three categories: Graduate Fellowship Study, Teachers of the Handicapped and Professional Journalists. An award covers transportation, educational and living expenses for one academic year.

The nature of these awards requires early planning. The deadline for 1979-80 applications is March 1, 1978, and awards will be announced in September, 1978. Information and application material for any one of these awards may be obtained by contacting any local Rotary Club or by writing directly to Ben F. Johnson, Emory University School of Law, Atlanta, Georgia 30322. ALL applications must be submitted endorsed initially by the Rotary Club in the applicant's home town. Persons interested should begin now on their applications.

PHT DEGREE OFFERED

Graduating seniors who wish a "PHT Degree" for their spouse, should see Mrs. Meadows in the library.

Originally, a "Putting Hubby Through" Degree, it has now been adapted for use by both male and female graduates, and is a nice way of saying thanks to a wife or husband who has helped you through college.

There is no charge for this "degree." It is a service of the library.

Greek

IFC

There will be an IFC meeting on Tuesday, November 22 at 12 noon in Conference Room A of the Student Center. All members--please be there.

LAMBDA CHI ALPHA

In a daring move last Thursday evening, the associate members of Lambda Chi Alpha decided to make their presence known on campus. They captured and painted the rock a beautiful green and gold. The brothers would like to thank our associate members for their efforts to beautify the campus.

The unstoppable Lambda Chi football team devastated TKE on the STI Gridiron last week. Mike Anderson broke away in the first few minutes of the game to make the first touchdown and Chuck Hodges scored two TD's. One pass completion from quarterback Keith Fields (who's had an outstanding week) and Bubba Spiller converted an interception into another touchdown. This game puts Lambda Chi into the playoffs where the team meets Sigma Pi in the conference championship game. Congratulations on a great season!

We had a super successful food drive this past weekend for the Cobb County Emergency Aid. We surpassed all of our past records of collection and made it possible for many families to have a Happy Thanksgiving.

We thank the sisters of Alpha Xi Alpha for coming to our meeting last week. Clair Francis from Cobb County Juvenile Probation Office spoke about a project to help rehabilitate some of the problem kids in Cobb County.

Our Christmas Party has been set for Saturday, December 3 at Laurel Valley so mark your calander. If any brother or AM's plan on staying in the area for the holiday, be sure to contact M-6. Happy Thanksgiving!

SIGMA NU

Work projects have been keeping everyone busy. Thanks to everyone who helped make the doughnut sales and clean-up job a success.

The novices and brothers enjoyed a steak dinner at the Western Sizzler. This gave everyone a needed break from studying and gave the novices a chance to get to know the brothers.

Brothers--if you haven't paid your deposit for the ski trip, see Jim Guyton as soon as possible. Jim has done a great job on running activities.

Basketball season is here, and the Southern Tech Basketball Team needs your support. Help the team to be a winning one by our support!

The brothers of Sigma Nu wish everyone a safe and Happy Thanksgiving.

SIGMA PI

Here are the top four contributors to our Semi-Annual Un-Official Blood Drive participation award contest:

Sigma Pi	38 donors
Sigma Nu	38 donors
Independents	38 donors
Lambda Chi Alpha	26 donors

As sponsors, the brothers of Sigma Pi always try to have the most donors. However, this year our goal was to have more participation from every group on campus. Many thanks to Dave Duty everyone for helping us pass our previous donor record of 120.

Don't forget out Supermarket Sweep for MS. Tickets are on sale through Tuesday, November 22. Help us raise money for research by buying a ticket.

The Pi football team took on the Muskrats this past Tuesday, November 15. After a strong defensive battle, the "Rats" broke the scoreless tie with 14 seconds remaining, and won the game 7-0.

Congratulations to the following men who pledged Sigma Pi on October 27:

- Kenneth Cook Steve Inglett
- Dennis Giles Jamie Turner
- Mike Hulsey

We are making plans for our ski trip for winter quarter, and our beach trip during spring break.

Southern Tech has a basketball game on Tuesday, November 22. Let's get out and support the team!

We wish everyone a Happy Thanksgiving. Our formal initiation and Christmas party-banquet will be on Saturday, December 3. Everyone mark your calendar.

The last great rush party-where? when? Ask a Pi brother!!

TKE

This past weekend, the brothers of Tau Kappa Epsilon held Charity weekend. Activities included a roadblock for the March of Dimes, which collected four hundred dollars, and painting the Happiness Hills School for children. We thank all the brothers that helped out at these worthwhile events.

This Saturday, November 19, the brothers and associate members are looking forward to playing the TKE alumni in a football game. The game will be followed by a cookout and party.

TKE reminds all students of the upcoming basketball games. Come out and help us support a winning team.

Anyone interested in finding out more about the world's largest international fraternity, should stop by our meetings in room 358 or stop by our house at 1420 Canton Highway.

ORGANIZATIONS

AIA

The Southern Tech AIA will hold the final meeting of fall quarter on Tuesday, November 29. in room 568 at 12 noon. The meeting will feature Herman Handcock, AIA - CSI presenting a slide presentation on the Sydney Opera House.

ASME: NIGHT SECTION

The night section of ASME will show a movie entitled "OSHA-16 Major Violations" on Tuesday evening, November 22 at 7:30 p.m. in room 601 of the Mechanical Building.

Anyone interested is invited to see this twenty minute film.

SWE

The Society of Women Engineers will meet for the last time this quarter on Tuesday, November 22 at 12 noon in Conference Room A. A movie, "Anything You Want to Be," will be shown. A short business meeting will be held afterwards.

On Wednesday, November 23, an orange Datsun station wagon will be parked at the flag pole for dust collection. Please bring your dust to us! All vacuum cleaner bags will be accepted. We do get money for this dust.

ROVING BAND BAG

Bill Strickland

From the Eagles to the Kingston Trio- from heavy to slow snuggle, versatility is a mild description of the new duo appearing at the lounge of Steak and Ale (Hiway 41 and 285).

Moston and Moore provide an evening of music ranging from slow easy listening to foot-stomping, hand clapping bluegrass, to versatile arrangements of top-40, all without blowing your brains out with volume.

Joe Moston (guitar and bass pedals- this you've got to see to believe) and Rusty Moore (banjo, guitar, and fiddle), together for four years in and around Tampa, have just moved into the Atlanta area. They will be with the Steak and Ale chain for the next few months. An album within the next three months is in the works for these two, but meanwhile catch them at Steak and Ale.

It's worth your time for a super evening.

- Nov. 22(F) General Faculty Meeting, 12 noon, Library Seminar Room
- 24-27 Thanksgiving Recess.
- Dec. 2-7 Final Exams. End of Term.
- 8(Th) Final Grades due in Registrar's Office no later than 12 noon.
- Dec. 8-Jan. 2 Christmas Recess.
- Jan. 3(T) Registration Winter Quarter '78.

AUTO SHOP HOURS

The Auto Shop is manned by members of SME- Society of Manufacturing Engineers. It's a great place to do repairs on your car and is located in the MET building.

Fall quarter hours are:

- Monday 2-5 p.m.
- Tuesday 9-11 a.m., 12-5 p.m.
- Wednesday 10-11 a.m., 2-5 p.m.
- Thursday 9 a.m.-5 p.m.
- Friday 9-11 a.m.

The Auto Shop will be open some extra hours in addition to these.

Come and tune-up your car.

YOUR HOROSCOPE

SAGITTARIUS:

Early afternoon could be troublesome. And you are the cause of it all.

CAPRICORN:

Don't get up until you go to bed tomorrow.

AQUARIUS:

Good day for flying. Bad day for landing.

PISCES:

You are wise, witty and wonderful, but you spend too much time reading this sort of stuff.

ARIES:

Bad time for production. Avoid mate.

TAURUS:

Good day to deal with people in high places. Particularly lonely stewards/stewardesses.

GEMINI:

Ignore failure in P.M. Try again next A.M.

CANCER:

What the hell, go ahead and put all your eggs in one basket.

LEO:

A long forgotten loved one will appear soon. Buy the negative at any price.

VIRGO:

Good day to make advances. Wink at someone.

LIBRA:

Important that you buy something expensive.. even if you have to pay for it yourself.

SCORPIO:

As good a day as any to accept the inevitable. You're a loser and you might as well face it.

ANNOUNCEMENTSSTING STAFF PICTURES TAKEN

The STING's staff picture for the LOG will be taken this Wednesday, November 23 around 2:30 p.m.

LIBRARY HOURS FOR THE HOLIDAYS

The STI Library will be closed on Thanksgiving Day and the Friday following. It will be open the usual hours (2-6 p.m.) the Saturday and Sunday following Thanksgiving.

SHORT-TERM LOANS FOR WINTER QUARTER

All students who are applying for short-term loans through Georgia Tech for the winter quarter '78, need to have their applications submitted to the Financial Aid Office by Monday, December 5.

CLASSIFIEDSTYPING

Professional work- \$1 per page. Near Cumberland Mall. Phone 435-5538 after 5 p.m.

HELP WANTED:

BUSINESS MANAGER-for the STING Beginning Winter Quarter '78, \$50 per quarter plus commission on ads. Duties include: advertising, distribution and bookkeeping. To apply-leave name and number in STING box in the Student Center.

RIDE WANTED

Ride needed to New Jersey or vicinity at the end of fall quarter. Will split cost of gas, etc. Please contact: Frank Rosenbach, Dorm 2-room 410; or Box 9120.

RIDE WANTED:

Co-op students desperately needs ride for the winter quarter to and from Georgia Power Company in Smyrna (Plant Atkinson). Please contact: Rose Johnson at 427-9260. URGENT REPLY IS NEEDED. Terms shall be discussed.

PLACEMENT AND CO-OPPLACEMENT

Interviews for the week of November 21, for graduates:

Monday, November 21-Wallace Power Co., MET
Monday, November 21-Southern Engineering Co., MET

Tuesday, November 22-Bell System, CET,
EET, IET

Wednesday, November 23-Stahl Urban, IET,
AMET

Wednesday, November 23-Lithonia Lighting Co., EET, IET, MET

Campus interviews are almost completed for the quarter; however, new jobs continue to come in daily, so check the job folders often.

IMMEDIATE-HESS OIL COMPANY-Clay Street and Fairground Street locations -Call Mr. Thompson at 427-9119, or 427-9655, or go by the Stations and apply.

M. Hugh Roberts, Industrial Relations Director, Southwire Company, spoke to Al Hunkin's Career Planning and Preparation Class at 12 noon on Wednesday, November 16. We are continuing to assist the departments in bringing industrial representatives to the campus to provide career education to the student body.

CO-OP

The following companies have co-op openings for winter quarter:

Union Special-TET, AMET
Wellington Mills-IET
Austin Co.-MET(HVAC)
Southern Iron & Equipment Co.-CET, MET
Coats & Clark-IET, TET
Burch Lowe-Sales-Any degree
J.L. Underwood-Sales-MET, EET

To apply for co-op, come by room 125 and see Mrs. Euchanan, the co-op secretary.

Co-op students who will be working winter quarter can begin signing out on Monday, November 28. New co-ops should check with the co-op office and be sure all paperwork is in order.
