Earl Shoemaker Nominated Log Editor-in-Chief

Earle C. Shoemaker, Jr., has been selected as editor of the 1954-1955 *Technician's Log*. Mr. Shoemaker, whose home is in Bridgeton, New Jersey, is a student in the Building Construction Department.

Selected to serve with Mr. Shoemaker as associate editor is Jennings G. Bell, of Orange, Texas, a student in the Mechanical Department. William P. Dozier, a Building Construction student from Thomson, Georgia, was chosen as business manager.

The editor, the associate editor, and the business manager are appointed by the Student Activities Committee upon the recommendation of the faculty adviser. The other officers will be elected by the staff within the near future.

Work Is Underway

Work on the year book is already underway. Pictures of individual students are scheduled to be made on November 2, 3, and 4. Students who had pictures in the 1953-54 year book may have reprints if they wish. Students who did not have pictures made last year and those who wish new pictures must pay \$1.25 to the treasurer in Building 24 and get receipts to show the photographer when pictures are made. Those who wish to use last year's pictures must pay the treasurer 50c and take the receipts to the photographer and order reprints.

The staff urges everyone to have his picture in the yearbook this year. Prospective employers often refer to yearbooks when considering graduates for positions. Faculty members and administrators often use the yearbook pictures to identify students for recommendations or for other important matters. The photographer can make enlargements or smaller pictures for placement purposes. Any student who fails to have his picture made may

EDITOR SHOEMAKER

find himself seriously handicapped because his picture did not appear. (Continued on Page 4)

School Enrolls 618 For Fall — A 30% Increase; 240 Are New

Six hundred and eighteen students, the largest group ever to enroll for study in Southern Technical Institute's six-and-a-half-year history, registered for work during the week of September 27-October 2. This figure represents an increase of about 30 per cent over the fall quarter, 1953, at which time 479 men and women enrolled for technical institute study. Two hundred and forty of the total are new students, 378 returning.

A few statistics give a better picture of the make-up of this fall's student body. Of the 618, 479 are residents of the state of Georgia, and 139, coming from five countries and 20 states other than Georgia, are classified as non-residents. The student body is about equally divided between boarding and non-boarding students.

Three hundred of the 618 are non-veteran students. Veterans attending on all four of the G.I. bills—P.L. 346, 16, 550, and 894—number 318. Two hundred and sixty-one of the 318 are P.L. 550 veterans.

What are these 618 students studying? More of them—174, to be exact—are in the Electronics and Communications course than in any other. Mechanical has 102, Building Construction 78, Electrical 75, Heating and Air Conditioning 67, Industrial 51, Gas Fuel 37, and Civil 34.

For the first time in several years Southern Tech has no co-eds.

A staff of 33 full-time teachers and 6 part-time assistants is required to handle adequately the basic subjects and the technical specialities in the curricula of the 618 students.

Nine Teachers Added

Nine of the 39 teachers are new to STI. Though they are discussed more at length elsewhere in this issue, they and their subject fields are Mr. Robert A. Burgkart, Mechanical; Mr. Kermit Hutcheson, physics and mathematics; Mr. Robert L. Myatt, Civil; Mr. Turner M. Sullivan,

mathematics and physics; Mr. Albert L. Steinkamp, Industrial; Dr. Raymond A. Cook, English; Mr. Ray Taylor, mathematics; Mr. Charles G. Crews, Electronics; and Mr. Earl C. Shoemaker, drawing.

Mr. Ralph P. Youngblood replaced Mr. Howard Parrish, resigned, as a permanent member of the Electrical-Electronics staff.

Several important changes in the mathematics curriculum were made. (Continued on Page 3)

Warren Resigns; Editor Needed

The *Technician* is editor-in-chiefless.

Stanley L. Warren, who has served the paper for the past eight months as editor-in-chief, has resigned his job, effective with this issue, because of the necessity of spending all his spare time in more remunerative work.

Adviser L. Y. Bryant praised Editor Warren's work very highly and expressed regret at his having to give up the paper. "The *Technician* has been most fortunate in having men of superior abilities as its editor, and Stan has been among the best," Mr. Bryant stated.

Wanted—A new editor-in-chief of *The Technician*. Anyone who dares to take on the job see Adviser Bryant.

Mech Equipment Bought; Gym To Be Gas Heated

STI administrative officials report the purchase of several thousand dollars worth of equipment of various kinds which will help to care for the needs of an increased enrollment and contribute towards the school's maintaining its high place among technical institutes in the nation.

Mr. C. A. Arntson, head of the Mechanical Department, announces the purchase of new equipment for the mechanical laboratories. Already engaged are two South Bend lathes and one Universal testing machine. This equipment is scheduled for delivery in the near future, certainly before the end of this quarter, and will cost between \$7,500 and \$8,000.

Mr. Arntson also reports, this time in the role of Coach, that a new heating system is planned for the STI gymnasium. The system will consist of four individual gas heating units to be mounted overhead. The dressing rooms are to have independent heating systems.

It is certain that spectators and players alike will welcome this newest improvement. The heating systems are scheduled for completion before the opening of the basketball season.

Mr. B. T. Tate, of Buildings and Grounds, releases information concerning the purchase and installation of a new electric clock which serves all the buildings. This clock is a Simplex Time Recorder and is automatically set to change to the short-period schedule for Thursday and then back to regular schedule.

The clock system was installed by Mr. M. J. Pennington, local manager for the Simplex Time Recorder Company. Mr. Pennington states that this clock is the simplest and most economical of all automatic time recorders. The unit was installed at a cost of \$125, reportedly \$200 below the price of any other such clock.

STI officials feel that Thursday's schedule confusion should be no more.

61 Make Summer Quarter Honor Roll; 5 Achieve 4.00 Average

Sixty-one students, slightly over one-fifth of the student body of 303, achieved the STI Honor Roll for the summer quarter. Five of the 61 came through with 4.00 or all-"A" averages.

A list of these superior students follows. Names are arranged in groups according to point averages achieved and alphabetically within the groups.

4.00 5 Students

Gordon S. Barbee, E&C; Charles G. Crews, E&C; Mervin S. Disharoon, Gas Fuel; James L. Mizell, E&C; and Gerald H. Spikes, E&C.

3.76—3.99 8 Students

Leonard Allison, E&C, 3.89; Thomas H. Blackstock, E&C, 3.94; Raymond H. Eckman, E&C, 3.82; Kramer B. Griffin, ET, 3.85; Sheldon S. Hammond, ET, 3.83; David S. Hamrick, ET, 3.76; James N. Reed, BC, 3.89; Robert F. Savage, E&C, 3.84.

3.51—3.75 15 Students

Jake T. Bius, H&AC, 3.70; Charles M. Butler, IT, 3.62; Ernest W. Dyer, BC, 3.65; Max H. Dyer, BC, 3.65; John B. Deans, H&AC, 3.70; Hiram H. Doster, E&C, 3.52; James H. Edsall, BC, 3.56; Robert N. Foster, H&AC, 3.75; Dana H. Jobson, E&C, 3.75; Harry Kent, IT, 3.69; George Lawson, IT, 3.64; Avery Mackey, E&C, 3.57; Carl H. Moss, E&C, 3.69; Otis H. Smith, E&C, 3.75; John E. Tarpley, E&C, 3.64.

3.26—3.50 10 Students

Donald Carter, E&C, 3.42; Robert Cavazo, Civil, 3.26; Rupert H. Charles, H&AC, 3.35; Brady E. Drummond, GF, 3.28; Henry J. DuPree, BC, 3.36; Charles R. Englert, GF, 3.26; Roscoe T. Holder, E&C, 3.38; Obrie W. Joyner, BC, 3.50; Yalmer Malmberg, IT, 3.29; Norman M. Schwartz, H&AC, 3.26.

3.00—3.25 23 Students

Jack E. Alexander, H&AC, 3.21; Robert C. Burns, Civil, 3.00; Hiram R. Cannon, BC-Civil, 3.21; Louis D. Daniell, E&C, 3.00; Donald D. Dobbings, H&AC, 3.05; James L. Floyd, H&AC, 3.10; Willie J. Gray, H&AC, 3.00; J. H. Hayes, IT, 3.11; Carol R. Henry, IT, 3.12; Steve L. Jones, GF, 3.05; Harry V. King, E&C, 3.23; John S. Kytell, IT, 3.06; Oswald M. Lord, H&AC, 3.10; James D. Lowe, E&C, 3.16; Jimmy E. Moss, E&C, 3.00; Maurice E. McMican, BC, 3.05; Needham Parrish, GF, 3.25; J. Alvin Ray, E&C, 3.09; Charles L. Reep, Mech, 3.05; Ernest E. Roberts, BC, 3.06; Thomas E. Shields, IT, 3.20; Jesse H. Stone, Civil, 3.18.

Requirements Stated

Beginning students should be interested to know that these 61 superlatives made the Honor Roll by carrying at least 15 credit hours, having no failures or offenses, and achieving an average of at least 3.00.

In all fairness it should be reported that a number of students attained the required average but were kept off the Honor Roll because they did not carry the re-

Marietta's Freddie Brooke Wins Alumni Scholarship

FREDDIE BROOKE

Freddie D. Brooke, 18, of Marietta, Georgia, was the winner of the all-expense-paid scholarship offered by the STI Alumni Association for 1954-55. Recognizing it as one of the most rapidly expanding technical fields, Freddie is now enrolled in STI in Electronics and Communications Technology and plans to graduate in June, 1956.

An honor graduate of Robert L. Osborne High School in Marietta, Freddie finished among the top ten in his class with a 91.0 average overall and excelled in mathematics, English, and science

In addition he was president of his Senior Class and a member of the Beta Society, an honorary scholastic fraternity. He was sports editor for both the school newspaper, *The Cardinal*, and the annual, the *Souvenirian*. An avid sportsman, Freddie made both varsity baseball and basketball teams at Osborne High.

Freddie is the youngest of three children, having a sister who is married and a housewife, and a brother who is a Navy career man with some ten years' experience as a radarman. Freddie's father is a steelworker with the Atlantic Steel Company. Freddie himself is employed, and has been for several years, as a clothing salesman at Miller's Department Store in Marietta.

Scholarship Fund Serves Students

Contributions to the STI Alumni Association Scholarship Fund now total \$838.50. It is presently supporting one all-expense-paid scholarship as well as another half-scholarship. Hereafter the fund will be devoted solely to this purpose; student tuition loans formerly made from this fund will be made from the trust funds of Georgia Tech.

Among the largest contributors (Continued on Page 3)

TECHNICIAN EDITORIAL

Don't Be a 'Litter-Bug'; Cans Are The Place for Trash, Not Campus

Is it not true that everyone likes to live in a clean, orderly home? It is a safe bet that not one among us would open a candy bar or remove the last cigarette from a package and then toss the remains on his living room floor. Nor would he read his morning paper and then drop it on his lawn.

Then wouldn't it be nice for the student to have as much pride in his campus! The campus is actually a temporary home to most of us and a majority of our time is spent here. We know there are more beautiful campuses and many with more of the typical "college atmosphere." But this is a campus, nevertheless, and most of us are very proud of it.

Don't Be A "Litter-Bug"

However, there are some individuals who unthinkingly litter the areas around the class buildings with refuse of all sorts. This is especially true of the area around Building 13, where many of the students eat lunch out on the grass. Several of these students have been observed carelessly leaving sandwich wrappers, paper bags, and similar items on the ground when they are finished.

We have visitors on the campus every day. Many of these visitors are people who are in a position to help us as students be-

cause they are prospective employers of STI graduates. It would be much more impressive to these visitors if they were to find the grounds neat and well cared for. On the contrary, they could easily form the opinion that we have a group of careless students here if there is evidence of "litter-bugs."

It's a simple matter to drop our waste matter in a trash can. There are plenty of such cans placed around each building. Let's all use them and keep our campus clean. The cooperation of each student is needed and will be greatly appreciated.

This Day

This day is mine to mar or make, God keep us strong and true, Let me no erring bypath take, No doubtful action do.

Grant me when the setting sun, This fleeting day shall end, May I rejoice o'er something done, Be richer by a friend.

Let all I meet along the way, Speak well of me tonight, I would not have the humblest say, I'd hurt him by a slight.

Let there be something true and fine,

When night slips down to tell, That I have lived this day of mine Not selfishly but well.

—Author Unknown

'Bouquets for Breakfast' Pays Tribute to School, Director

Southern Tech, its faculty, and its director, Mr. L. V. Johnson, were honored on October 18 on WQXI's 7:25 program "Bouquets for Breakfast," a five-minute daily feature which pays special tribute to an individual, an industry, a school, or some other institution that has recently achieved a piece of meritorious work.

On this particular day the program consisted of approximately three minutes of ad-libbed salute to Southern Tech with a discussion of its program, its rapid growth in enrollment, and words of appreciation to the Director and the faculty.

The announcer's salute was followed by a record, "You've Gotta Come in Through the Door," dedicated to the school, its faculty, and Director Johnson.

The Citizens and Southern National Bank is sponsor of this program, and as an added feature it sent a beautiful bouquet of flowers to the school. The program is handled regularly by Announcer Bob McKee.

Being what we editors think is a vital part of STI, The Technician likes to see such tributes come our way and adds its appreciation for them.

W. E. Leverett's Letter Reveals Quality Brand of Alumni Spirit

Technician editors intend to include in the paper this year more news about Southern Tech alumni than has been published in years before.

They begin this column with a letter which they feel illustrates the real STI spirit, in that it indicates William E. Leverett's desire to belong to the Alumni Association, to keep in touch with STI activities, to serve the school by passing the word on to a friend, and expresses his pride in the course of study he pursued at Southern Tech.

He writes:

Dear Mr. Bryant:

Perhaps you remember me and perhaps not. I have been in the Navy now for two and a half years and I am still getting a few breaks (even in Uncle Sam's Navy) as a result of my training at Southern Tech. At the same time, I am getting more experience and training in the course of study that I took at Southern Tech. You see the Navy is sending me, at my request, to their eight-week Air Conditioning and Refrigeration school. It is a short time to cover such a technical subject, but they are surprising me with the thoroughness with which they are covering it. I think it will prove very beneficial to me.

One of the boys here with me is very interested in this type of training. I told him about Southern Tech and he seemed interested, so I told him I would try to get him a catalogue. So if you have one you could possibly send me, I would sure appreciate it.

You have probably noticed the enclosed dollar. That is another purpose for my writing this letter. I thought that some time ago I sent my alumni dues, but I have noticed here lately that I haven't been receiving the Technician; so I guess I failed to send the dues after all. I'm not certain that the dollar is the correct amount. If the dues are more I would appreciate it if you would let me know, because I want very much to remain a member of the Alumni and also to receive the Technician.

I will surely appreciate it if you can take care of these two matters for me.

The Corn Crop

"Could I have tomorrow off to help my wife with the house cleaning?" a junior exec asked his boss.

"No! We're much too busy!" the boss snapped.

"Thank you, sir. I knew I could depend on you," said the junior exec.

PROPOSAL: THE COMMERCIAL OF THE COURTSHIP.

Carl Bovay, graduate in Gas Fuel Technology and former editor of The Technician, is now attending the University of Connecticut. Very soon after his resignation there he was called upon to assume the editorship of the monthly paper, The Bengalite. In one of his weak moments he accepted. STI folks congratulate him in being roped in for this vital job and wish him all success in the world in it.

Jerre O'Neal, Douglasville boy who finished the Mech and the E&C courses at STI, dropped in several days ago to check up on placement opportunities. He was recently discharged from Service after a stretch which kept him busy most of the time instructing others. He's ready for industry now.

He had a word of advice for those just out of high school, too: "Get your technical college training before joining up. Military life will be easier, and you'll get many more opportunities to keep learning profitably."

As you know, Mr. Wilkinson and the Placement Office are now conducting their annual job sur-

SAM'S CORNER

SAM Lists Advantages, Chooses Officers, Drives for Members

The Southern Tech Chapter of SAM (Society for Advancement of Management) has a drive on for new members.

If one is an outstanding student with an interest in management, the SAM has several benefits to offer him: (1) membership in a national organization consisting of 85 chapters; (2) a monthly magazine containing articles on the latest in management; (3) a chance to meet and hear top-flight speakers monthly; and (4) a chance to become acquainted with fellow students who are interested in the progress of modern management.

To become a member of SAM,

see your departmental representative.

Lawson Named President

George Lawson was recently elected president of the organization for the fall quarter. Bert Temples was chosen vice president, M. S. Disharoon secretary, and T. E. Shields, treasurer.

Departmental representatives are BC, E. W. Dailey; Civil, Mr. C. T. Holladay; Industrial, Harry Kent and B. S. Temples; ET and E&C, C. H. Moss and C. G. Crews; Gas Fuel, M. S. Disharoon; Mech, W. P. Beauchamp and C. L. Reep; and Heating & Air Conditioning, Mr. L. H. Taylor.

9 New Members Join STI Staff; 5 Are Full Time

Five full-time teachers joined the Southern Tech staff at the beginning of the fall quarter. So that STI students and other staff members will know them better, The Technician presents these thumbnail sketches.

Mr. Robert A. Burgkart

Born in St. Petersburg, Fla. . . . Graduated from University of Florida with BS in Industrial Arts . . . Has degree of Master of Fine Arts in Industrial Crafts . . . While at University of Florida was Instructor of Craft Shop . . . Served two years in Navy during World War II and one year in Army during the Korean Conflict . . . Mr. Burgkart is married and has two children . . . His chief hobby is basketball . . . Is teaching Mechanical courses here at STI.

Mr. Kermit Hutcheson

From Wrightsville, Georgia . . .

that all alumni will cooperate by supplying information and giving suggestions, for these are of inestimable value in carrying on the work of the school. Your help will be greatly appreciated.

Graduated from Georgia Teachers College with a BS in Education . . . Studied mathematics at University of Miami and was a graduate assistant in math while studying there . . . Was an IBM operator while in Army and also an operator for E. I. Du Pont for a year . . . Married and has two children.

Mr. Robert L. Myatt

Comes from Raleigh, North Carolina . . . Stayed at home to obtain his degree . . . Has a BS in Civil Engineering from N. C. State . . . He is married and has two boys . . . Golf is chief hobby . . . Was employed by J. E. Serrine Company of Greenville, S. C. . . . Just finished second tour in Navy . . . as Flight Instructor at Pensacola, Florida, and a Naval aviator out of Naples, Italy.

Mr. Albert Steinkamp

Graduated from Purdue University with a BS in Electrical Engineering and took his graduate work in Industrial also at Purdue . . . Taught Industrial Relations at Purdue for three years . . . Also taught at Indiana Technical College . . . Employed by E. I. Du

CLUB NEWS ROUNDUP

Organizations Emphasize Elections, Membership Drives, Entertainments

Fall quarter is here again, and the time has come for all clubs and fraternities to reorganize and elect new officers. Here are some of the happenings of recent meetings.

Industrial Club (Iota Tau) elected Bill Pinyan president, George Lawson vice president, Bobby Beiter secretary, William Lee treasurer, and George Lawson and C. A. Burns as their representatives to the Student Council. They plan to have a party to welcome new members into the club. Last but not least, plans were made to sponsor the Christmas dance December 11.

Epsilon Club elected Jon Jones president, Jeff White vice president, Wesley Cantrell secretary and treasurer, and Carl Moss public relations officer. Plans are being made for a "get-acquainted" party sometime in the near future.

Alpha Beta chose James Edsall president, Louis Cambra vice president, Stanly Ziemer treasurer, and Henry Moody sergeant at arms.

Civil Club elected Wiley Busbin president, Frank Wildes vice president, Jack Diamond secretary and treasurer. Emmett Lollis sergeant at arms, and Bill Greenway sports manager. A "get-together" party was held Friday, October 2, and plans for another was discussed.

Gamma Phi Kappa, the Gas Fuel Fraternity, elected Wiley Cauthen president, Robert Murphy vice president, Don Pennington secretary and treasurer. Public relations officers are Harvey Macklin, Phillip Sullivan, and William Trimble. Activities officer is Needham Parrish, and sports manager Don Law. Sunday night suppers, establishing beneficial, social meetings, and initiation for all new members were discussed.

Heating and Air Conditioning selected James Floyd president, Billy Reynolds vice president, Donald Dobbings secretary and treasurer, Larry McCord as senior student counselor, and freshman John Deans as freshman

man counselor. Plans are in the process for a wiener roast in the near future.

The Alpha Mu Sigma Fraternity, of the Mechanical Department, held election recently and announced this slate of officers: President—David T. McKinney Vice President—Edward Cook Public Relations—William Felker Chaplain—Gerald Bell

The STI Christian Association held its first two meetings of the year on October 7 and 13. Many new men were present at both meetings, and applications for membership were taken on the 13th.

At the meetings, members and visitors were reminded of the unparalleled importance of the club because of its indomitable purpose: service to God—an activity of eternal value; and the planning of wholesome and recreational activities of value in the broadening of outside interest while students are here at school. At the last meeting Earl Shoemaker was elected president, Gerald Bell vice president, Don Cornett secretary and treasurer, and Paul Emerson public relations officer.

Toastmasters' Club Formed on Campus

A Toastmaster's Club has been organized on the Southern Tech campus.

The club held its initial meeting in early October. Guest speaker for this occasion was Mr. L. V. Johnson, who talked on the importance of possessing the ability to speak in public. This was a very informative talk and was enjoyed by all the members present.

After the speech the objective of the club and its functions were explained to those interested in becoming members.

Mr. Balcom Speaks

In a second meeting members elected officers and heard Mr. Mark Balcom, past president of the Student Chapter of Toastmaster International at Georgia Tech.

Officers for the STI chapter are president, Billy A. Pinyan; vice president, George Lawson; secretary, Donald O. McIntyre; treasurer, E. H. Scisson; and sergeant at arms, B. I. Hillman.

At this same meeting the schedule of meetings was made and time of meetings set as every Wednesday night at 6:00 P. M. in the banquet room on the campus. All men who are interested in the club will get a great deal of information from attending one of these meetings.

MARIAN TSAI

Miss Tsai, Mr. Wang Marry in New York

Marion Tsai, charming, intelligent former STI co-ed from Formosa and graduate in Gas Fuel Technology, confides in a recent letter to Mrs. L. V. Johnson that she was married in New York on September 25 to Robin Wang, fellow countryman studying at New York University.

She writes, "We just had a 'honey day' instead of 'honeymoon,' for both of us started to go to school on September 27."

Marian is a graduate student in Electrical Engineering in Brooklyn Polytechnic Institute. She is carrying six subjects, finds her work very much concerned with mathematics, and is enjoying a busy life of study.

Learning To Cook

She is also becoming domestic. She says, "I am learning how to cook now. To me, it is more difficult than my graduate courses at present. I have burned eggs three times. My goodness!"

Marian expressed keen interest in Southern Tech and its folks and admitted a touch of homesickness for them.

To her and her husband STI folks, through **The Technician**, send best wishes and all possible happiness.

Placement Office Excels In Matching Student, Job

The "Quarterly Memorandum to Industry" has been mailed by the Southern Tech placement office.

This memorandum gives information concerning 44 seniors who will complete graduation requirements at the end of this quarter.

Industrial representatives have been invited to visit the school to interview the seniors for possible openings in their concerns. This quarter's activities are devoted entirely to placing the December graduates.

At this writing a few inquiries from industries have been received by the placement office, and Mr. R. L. Wilkinson, STI placement director, sees no difficulty ahead in placing Southern Tech graduates.

It has been definitely proved

School Enrolls 618 For Fall

(Continued from Page 1)

made effective at the beginning of the quarter. T. Math. 10 (Remedial Algebra) was added for the benefit of students who had been out of school for several years or whose background in algebra was weak. T. Math. 11 Lab was dropped from T. Math. 11 (Algebra), and the analytical geometry portion of T. Math. 21 was moved up to T. Math. 31 (Applied Mathematics). Math. 11 will also be strengthened and

Officials Warn Students On Academic Regulations

Administration officials at Southern Tech feel that there are certain new regulations now in effect which merit the attention of all students. These regulations were placed in effect at the start of the fall quarter, and it is conceivable that some students may not be aware of them.

A student must pass 10 credit hours of work per quarter with an overall point average of at least 1.00, or be placed on academic probation for the following quarter. A student on probation must then pass 10 hours of scheduled work with a point average of 1.00 or be dropped from the rolls.

Upgrading Explained

A student classified as a "freshman" must, in four quarters of work, complete 50 credit hours with an overall point average of at least 1.50 before being upgraded in his classification to that of "senior." If the student fails to meet these requirements, he will be placed on probation for the following quarter. If he fails to meet the stated requirements for up-grading by the end of his fifth quarter, he will be dropped from the rolls.

A senior must meet the requirements for admission to candidacy for a degree after a maximum of eight total quarters or be placed on probation. If he fails to meet such requirements after the following quarter he will be dropped from the rolls.

A student who fails two or more repeated subjects or who fails a twice-repeated subject may be dropped from the rolls without reference to the minimum requirements given above.

Reinstatement Possible

A student who has been dropped from the rolls for scholastic deficiencies may petition the Committee on Standing for reinstatement if he believes there are extenuating circumstances in his

case. For instance, a student may be dropped from the STI rolls for scholastic reasons. He may enter another school and do the quality of work which will indicate his ability to do acceptable work. He may then petition for reinstatement if he so desires.

All students are reminded that the re-scheduling of failed subjects is the sole responsibility of the student concerned and he will be held accountable therefor.

In order for a student to drop a subject officially, he must (1) get written permission from his course adviser, (2) present the written permission to the Registrar, and (3) see that the subject is removed from his schedule and a notice sent to his instructor.

Get Absences Excused

It may be well to issue one more word of caution here. Any time a student is absent from a class, it is his responsibility to see the Registrar and fill out the necessary forms for an excused absence if the absence is excusable. Otherwise the absence will be counted as a "cut" and charged against the allowed number of such cuts for the subject.

Glee Club Awakens, Elects Fiorentino, Makes Year's Plans

On Tuesday, October 12, the Southern Tech Glee Club held its first meeting of the fall quarter, at which time officers were elected, plans for the group's activities were formulated, and practice of new music was begun.

The officers elected include Thomas Fiorentino, president; Harold James, vice president; and Jack Diamond, secretary-treasurer.

The accompanist for the organization is Miss Thressa Senkbeil. The director is Professor J. J. Defore.

Professor Defore states that the organization has made an excellent start with a fine group of singers and that all are looking forward to having a lot of fun as well as doing some serious work.

The Glee Club meets in the new dining room, Tuesday from 7 p.m. to about 8:30 p.m. A hearty welcome is extended to all students interested.

alumni group is being conducted at present, and results of this survey should be ready for next month's issue of **The Technician**.

Southern Tech's Hornets Open 25-Game Season on October 30

Crop of Freshmen, Five Varsity Men Form Good Nucleus

Coach "Arnie" Arnston's Southern Tech basketball team officially opens its 25-game, 1954-55 schedule when the Green Hornets travel to North Georgia Trade & Vocational School in Clarkesville, for a non-conference game on Saturday, October 30.

With five returning varsity lettermen and a large crop of freshmen prospects on hand, this game should be the beginning of a successful season.

Varsity Returns Five

Returning lettermen from varsity ball last year are Arthur Jordan, Bubber Wolfe, Pete Day, Jerry Wilhelm, and James Ambrose, a varsity man in the '52-'53 season. Two more seniors returning from last year's junior varsity are Jim Richards and Jimmy Hall. Promising freshmen competing for varsity are Harris Blake, Fred Carey, Zack Collins, Don Garrett, Harold Lee, Don McCord, Dean Rabitsch, Bill Smith, George Wallace, Dan Toler, Bob Williams, and L. P. Greer.

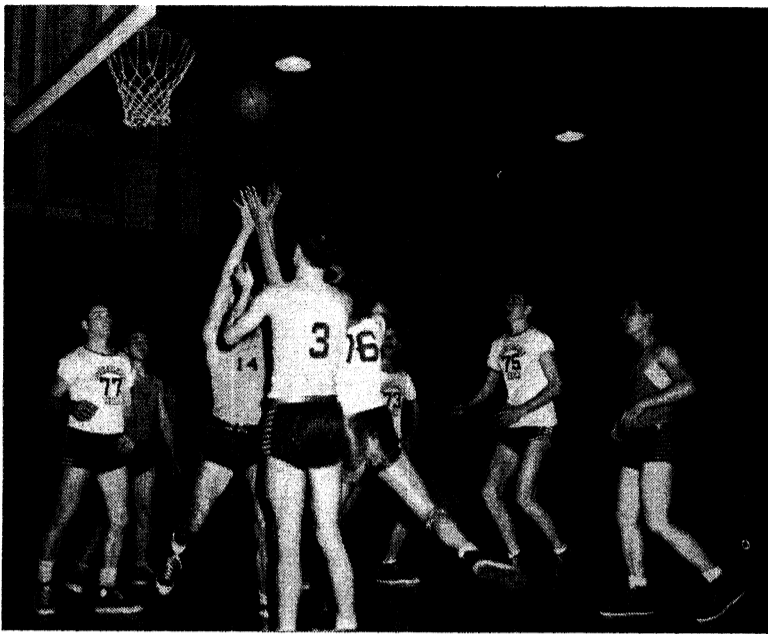

The varsity squad will consist of 12 men suited for home games this year with a traveling team of a few more.

The team has a lack of height especially in the reserves, but there is a lot of experience in every player. A fast-breaking offense will be used, at least for the start of the season.

The Schedule

This year the schedule is:

Oct. 30—	North Ga. Vocational ...	There
Nov. 10—	North Ga. Vocational ...	Home
Nov. 13—	Norman Park	Home
Nov. 20—	A.D. Univ. of Ga.	Home

Dec. 11—	Ga. Southwestern	There
Jan. 7—	Ga. Military College	There
Jan. 8—	Brewton-Parker	There
Jan. 14—	Young Harris	Home
Jan. 17—	Truett-McConnell	There
Jan. 20—	ABAC	Home
Jan. 22—	Armstrong	Home
Jan. 24—	Berry	There
Jan. 26—	A.D. Univ. of Ga.	There
Jan. 28—	Ga. Military College	Home
Jan. 29—	Ga. Southwestern	Home
Feb. 4—	ABAC	There
Feb. 5—	Armstrong	There
Feb. 7—	Oglethorpe	Home
Feb. 12—	Middle Georgia	Home

Tau Alpha Phi Names Holt, Makes Plans for Initiation, Banquet

The Alpha Alpha chapter of the Tau Alpha Pi National Honor Society held its first meeting of the fall quarter on October 7. Officers were elected and plans made for initiation of new members.

The officers elected include W. B. Holt, president; J. R. Pattillo, vice president; R. T. Holder, secretary-treasurer; and J. W. Ma-

lone, public relations officer.

Plans for an initiation ceremony and a banquet, to be held October 19, were made.

Society Founded Here

Tau Alpha Pi National Honor Society is a national organization designed to provide recognition of outstanding achievement by students in technical institutes. It was founded on the Southern Technical Institute campus in January of 1953 and now has five affiliate chapters which include one in Ohio, one in Massachusetts, two in New York, and the one here. The total membership exceeds 400.

Two members of the STI faculty now serve on the National Executive Council of the Society. These are Professors R. L. Wilkinson and J. J. Defore. Professor Defore is national executive secretary.

Membership in the local chapter is tendered those whose names have appeared on the STI Honor Roll for two consecutive quarters.

Southern Tech People Bowl In Several Leagues

The Southern Tech Fall Bowling League opened on October 7 with six teams participating: Mech, H&AC, IT, BC, Faculty, and the Gals. The first night a high score of 191 was scored by B. Stephens of the BC team and last week a 182 by C. Arntson.

In an election held on October 14 June Stenger was chosen president and Ed Cook secretary and treasurer.

The league will run for ten weeks, and play will take place every Thursday night at 7:30 at the Buckhead Bowling Center. There are still a few openings on teams, and persons interested in bowling are urged to contact one of the officers.

Compete In City League

STI also has two teams that participate in the City Tenpin Bowling League on Tuesday nights, Southern Tech and Technicians. The STI team is composed of Arntson, Crawford, Tackett, and two outsiders. The Technician's team consists of C. Reep, G. Lawson, D. Hornady, K. Davis, and C. Thomas.

Lois Arntson, Jo Tate, Julie Bryant, June Stenger, and Thresa-Senkbeil compose a team which competes every Wednesday at Buckhead in the Women's City Tenpin League.

Feb. 14—	Berry	Home
Feb. 18—	Young Harris	There
Feb. 25—	Tournament At Savannah	

INTRAMURAL PLAY

7 FOOTBALL TEAMS BEGIN COMPETITION

Intramural football is the inter-departmental sport for the fall quarter, and the seven competing teams are now well underway in the race for the championship.

The seven teams participating in the sport and their respective managers are Gas Fuel, Don Law; Electronics and Communications, Jeff White; Mechanical, Jim Henry; Heating and Air Conditioning, Donald Dobbings; Building Construction, Howard Leonard; Civil, Bill Greenway; Electronics, manager to be selected.

Mr. E. J. Muller, intramural director, comments that this year participation in the game is much better than it has been in years past and commends all the people out.

There is no way at this time to predict the outcome of this race. All the teams thus far have shown good material and lots of enthusiasm. None of these teams are pushovers.

The schedule permits one game between each team. The games are played on Tuesdays, Thursdays, and some Wednesdays.

The schedule is:

Thurs. Oct. 7	BC vs E&C
Tues. Oct. 12	GF vs Civil
Thurs. Oct. 14	H&AC vs Mech
Tues. Oct. 19	E&C vs Civil
Thurs. Oct. 21	BC vs Elect
Tues. Oct. 26	GF vs Mech
Wed. Oct. 27	H&AC vs Elect
Thurs. Oct. 28	H&AC vs Civil
Tues. Nov. 2	Mech vs Elect
Thurs. Nov. 4	BC vs GF
Tues. Nov. 9	GF vs E&C
Wed. Nov. 10	H&AC vs Elect
Thurs. Nov. 11	Mech vs Civil
Tues. Nov. 16	GF vs Elect
Thurs. Nov. 18	H&AC vs BC
Tues. Nov. 23	E&C vs H&AC
Tues. Nov. 30	GF vs H&AC

Thurs. Dec. 2	BC vs Mech
Tues. Dec. 7	Civil vs Elect
Thurs. Dec. 9	E&C vs Mech
Tues. Dec. 14	BC vs Civil

More Corn

The child prodigy had just finished her piano selection and her doting father foolishly asked a bored visitor: "And what do you think of her execution?"

"When is it going to be?" was the eager reply.

—STI—

First girl: "There's a man for every girl and a girl for every man. You can't improve on that arrangement."

Second girl: "I don't want to improve on it. I just want to get in on it!"
