Hays Versatile STI Professor

First Of A Series Of STI Faculty Vignettes

Mr. Robert W. Hays, associate professor and head of the English Department of Southern Tech, is widely known among the students and alumni.

Mr. Hays graduated from North Fulton High School, Atlanta, and then enrolled in Presbyterian College to study for the ministry. After a brief enrollment at Presbyterian College, Mr. Hays resigned and entered the Navy, where he received his ensign's commission at 18 years of age. After 40 months' active duty during World War II, he was released from the Navy and returned to Presbyterian College to receive his AB in English. Mr. Hays graduated *summa cum laude*, and was valedictorian for his class.

After his graduation from Presbyterian College, Mr. Hays became commercial manager, script

R. W. HAYS

Head of English Department

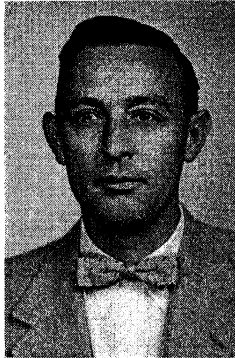

writer, and announcer for WSFT radio station in Thomaston, Georgia. As an announcer, Mr. Hays served as "Mee Cee" of a "hillbilly" program, "Uncle Bob and the Hillbilly Jamboree." From radio station WSFT, Mr. Hays transferred to radio station WLBG, Clinton, South Carolina. Mr. Hays resigned from WLBG to sell Plexiglas and Lucite plastics.

Convening Grads Given Facts About New STI Campus

Southern Tech alumni from practically all of the southeastern states gathered at the Officers' Club, Naval Air Base, Chamblee, Saturday evening, November 15, for the Alumni Association's annual banquet.

This year the banquet was a dinner-dance and according to Mrs. Mildred T. Wilson, Acting Placement Director, approximately 250 reservations were made for alumni and guests. This is the largest number of alumni to attend an STI banquet.

WELDON T. THOMAS

Head of Gas Fuel

Dr. Dan Boone, president of L.P. Gas Association of Georgia, has announced the appointment of Mr. Weldon T. Thomas, head of Gas Fuel Department at Southern Tech, to the L. P. Gas Pamphlets and Publication Committee.

The Pamphlets and Publication Committee is designed to prepare and publicize a pamphlet for distribution to mechanical engineers, architects, and L. P. Gas dealers of Georgia. This pamphlet will contain rules, specifications, and answers to problems which occur in designing, installing and servicing L. P. Gas systems.

Mr. Thomas reports that the majority of the work for the publication will be done at Southern Tech with the help of Gas Fuel students. Many problems which are found in the L. P. Gas Industries will be solved by Southern Tech Gas Fuel students, results proved, and then recorded as rules to guide and help the L. P. Gas Industry.

Although this program is designed primarily for the L. P. Gas Industry in Georgia, it is the ultimate goal, according to Mr. Thomas, to distribute this aid to L. P. Gas Industries throughout the United States.

Thanksgiving Recess Of 4 Days Delights STI Staff, Students

Southern Tech will close for Thanksgiving Holidays at the end of the school day on Wednesday, November 26, and remain closed until 8 A.M. Monday, December 1.

Students are obligated to remain and meet all classes and other scholastic requirements throughout Wednesday and to be on time for classes on Monday, Dec. 1.

Dinner And Dancing Relieves Strenuous Business Discussion

The emphasis this year was on the social aspects of the event, which gave the members a chance to renew old acquaintances and meet more recent graduates.

All deans and department heads of Southern Tech were invited as guests of the Alumni Association.

Mr. and Mrs. R. L. Wilkinson, former Placement Director and Head of the Math Department, were also guests. Mr. Wilkinson is now associated with International Business Machines Corporation in Atlanta.

MR. HAYS GUEST SPEAKER

Mr. Robert W. Hays, head of the STI English Department, spoke to alumni on plans for the new cam-

pus in Marietta and on some of the details of the projected move. Mr. R. N. Edwards, Library Supervisor, made an appeal for alumni support for Southern Tech's new library facilities.

HOSKINS IS ELECTED PRESIDENT

During the business session, the following officers were elected for the coming year:

C. Neel Hoskins, president; Lester Scott, vice president; Robert U. Beiter, secretary and treasurer.

Following the dinner and business session, the group remained for dancing to the music of the club orchestra.

(Continued on Page 6)

Inter-Club Council To Help Unify Activities

The first meeting of the Inter-Club Council was held Thursday, October 30, under the direction of Mr. Maddox, with the discussion being led by Mr. Carey Waldrip.

Members present were: Sherman Forehand, Monogram Club; Hugh Faulk, Radio Club; Garcia Rene, International Club; Charles Parker, A.S.T.E. Club; Bunyan L. Rudd, Iota Tau Club; Bobby Strickland, Student Council and Toastmaster; Glenn Rhoads, Gamma Phi Chi Club; Frank W. Fleming, Alpha Beta Club; Franklin Brown, B.S.U. Club; Allen Long, Tau Alpha Pi Club; Johnny Martin, Heating & Air Conditioning Club; Paul Shivers, Dorm Supervisory Council;

R. L. Platt, S.A.M. Club; Jacob Freeman, Sigma Chi Tau Club; Terry Coleman, Circle "K" Club; William P. Edmondson, Alpha Mu Sigma Club; Mrs. Nancy P. Wolfe, Tech Anne Club; Carey Waldrip, Epsilon Pi Chi Club; and Russel Mayo, The Technician.

The purpose of this meeting was to discuss the activities of the club and hearing arguments for and against forming such a club.

The membership will be made up of one representative from each departmental and campus club.

Some of the advantages of such a club are:

1. Co-ordinate activities on the campus.
2. Sponsor campus-wide activities.
3. Furnish means of communication between clubs.
4. Help new organizations on the campus to be successful.
5. Eliminate conflicts of dates for club activities.
6. Help to build projects on the campus such as the library.

The original plan was that the new club be made up of presidents or vice presidents of each departmental and campus wide club. Because these people have a big responsibility to their own clubs, a representative will be elected to sponsor each club at the Inter-Club Council.

It was decided at this meeting that more discussion be held within each club, and a meeting was called for Monday, November 17, at 7 P.M. in the Green Room. At this meeting, a decision will be made whether or not such a club should be formed.

If you have any argument for or against such a club contact your club president so that at this next meeting your representative can voice your opinion. This is very urgent to you as it concerns your school, STI, to make it a better school for you and your classmates to follow.

Johnsons Honor New Faculty Staff

Mr. and Mrs. L. V. Johnson entertained the Southern Tech faculty at a tea, honoring the new members of the faculty, on Sunday afternoon, November 2, at their home on Ivy Road.

The beautiful tea table was decorated with roses. Gladioli and fall leaves were used throughout the house. Mrs. Johnson was assisted at the tea table by Mesdames Crawford, Carroll, Maddox, Bryant, Goodwin, McClure, Taylor, Vaughn, and Steinkamp.

This gala affair was attended by nearly all members of the faculty and their wives, and those who were unable to attend missed an enjoyable event. A big vote of thanks to Mr. and Mrs. Johnson for bringing the Southern Tech family together for an hour of wonderful fellowship!

The following are the new members of the Southern Tech faculty: Joseph E. Bowles, Clifford W. Cowan, Myung Soo Chun, Thomas E. Flanders, Harold R. Ingle, Jr., Charles S. Martin, John Henry Marvin, George M. Richardson, Jr., Padermrata Saeng-Xuto, Claude L. Lynn.

Robert Strickland Elected President Student Council

The Student Council held its first regular meeting on October 16. The first item on the agenda was the election of officers for the present quarter. Robert Strickland was elected president; William Morris, vice president; and Don Duckworth, secretary-treasurer.

New members of the Student Council are John E. Moultrie and Herbert E. Thompson, BC; Claude B. Hayes and David Johnson, Civil;

J. Gerald Cote and Carl Carter, E&C; Ray DeLong, EI; John W. Cocroft and I. Ben-Moshe, G&F; Roy L. Pippins and Wayne (Rose, H&AC; Robert W. Strickland and Alsie Rutland Industrial; William Morris and Don Duckworth, Mechanical; Paul H. Shivers and Barry L. Bloser, Dormitory Representatives.

President Of Oglethorpe Given Facts As To STI

Five faculty members from neighboring Oglethorpe University visited the STI campus on Thursday, November 6. Headed by Dr. Donald Agnew, president of Oglethorpe, the group included Dr. George Seward, vice president; and Dr. B. A. Bohnhorst, Mr. Roy Goslin, and Mr. L. Crow, faculty members.

Southern Tech's director L. V. Johnson explained the purpose and philosophy of Southern Tech, and Professor J. J. Defore explained scholastic standards and entrance requirements. Following the talks by Mr. Johnson and Mr. Defore, Dean G. L. Carroll and several Southern Tech department heads offered facts about the basic studies of Southern Tech.

The group of visitors had lunch in the Southern Tech dining hall. After lunch, Professor McClure took the group on a tour of the Chemistry Lab and the Plant Layout Lab. Then Professor Myatt and Professor Barksdale showed the group through the Materials Testing Lab.

This inspection by Oglethorpe had the purpose of acquainting educators about the technical-insti-

tute program in general and about Southern Tech in particular. A Director Johnson expressed the STI plan of publicizing the college, "Southern Tech is a new idea in education, and we want to inform the public fully about this unique mission of our school."

AGNEW AND STAFF INFORMED OF S.T.I.'s NEW CAMPUS

According to a recent conference held November 11, preliminary plans for Southern Tech new campus have been complete. The selected architects for Southern Tech's new home are Mangione and Savini, an Atlanta firm, and Tapp, an architectural firm Marietta.

Dates for completion of preliminary plans are as follows:

- 1.—Completion of presentation drawings—January 1, 1958.
2. Completion of engineering drawings—June 1, 1958.
3. Construction bidder chosen July 1, 1958.
4. Completion of outside construction, which will be masonry to be finished by the winter 1960.
5. Very Tentative date of moving will be in the summer of 1961.

Honesty—Best Policy

By G. L. ERVIN

To some students, honesty is a trait or characteristic that is taken too lightly. Because no one has eyes in the back of his head, it is impossible to see everyone who is watching when a person's honor is broken. For instance, no one could have possibly seen the child put rocks in the food tray; but, because "childish" attention was wanted, the rocks became topic of conversation. A sneeze or cough could have been an excuse to glance at a neighbor's quiz for an answer; two wrong answers with identical ideas can be noted quite rapidly by a trained educator.

Honor, like charity, begins at home. To be honest with his fellowmen, a person must first be honest with himself. Neglect of personal responsibility is a break of honor.

By refusing to study, a person breaks his honor code to himself—that of securing an education. Because a person does not maintain a high moral standard, again he breaks his honor code to himself.

No one could exist in our society if a code of honor was not maintained between the individual and his society. No business transactions would be successful, legally, if honor is not respected; no son or daughter could truly qualify as a member of society and leave home unless he or she maintained high standards of honor.

Because our society is democratic, everyone is accepted. But, there are degrees of acceptance. A normal society has no honor or respect for the man who wilfully breaks society's rules. A look into any prison will prove this. On the other hand, anyone who has broken his honor can "reinstate" himself by proving he knows how to secure and maintain honor.

One of the best traits of character is honor. It costs nothing except time and effort.

Remember . . . "If You Can't Take Part In Sports, Be One Anyway."

By R. W. STRICKLAND

Good attendance at STI's baseball games and basketball games seems to be too much for the average STI student. Reviewing the poor attendance at past sport functions at STI, I thought it would be well to ask the students themselves why they did not support our athletic teams by attending the games, and if football on the inter-collegiate basis were to be added to the curricula of sports at STI, would it help the attendance. Here are a few of the answers given by outstanding students.

MELVIN COOK said, "Sports is one of my favorite pastimes, but finding time to pass is the problem. I live quite a distance from the school and by the time I drive to the school, watch a basketball game, and return home, my studying time is gone. With the load a student carries, he needs all the time he can get to study. I certainly think inter-collegiate football would help the school in many ways, but I don't think it would help attendance at sport functions. Also, the team would have to travel so far to play other teams and the players would lose out on so much schooling, I don't think it would be worth it all."

GUY PLATT said, "Too many courses and too many hours—this I think is the best explanation for the poor attendance at the baseball and basketball games at STI. However, if the students would put forth a little more effort, they could support the games better than they do. Inter-collegiate football would increase STI's enrollment, and would create more interest in the sports at STI. It seems where there is no football, there is no participation from the student body toward sports."

JOE JONES said, "Sports are not publicized enough at STI. If people do not know about something, they surely are not going to support it. STI has departmental pride instead of school pride. Inter-collegiate football would be a big success as there are a number of qualified players attending STI, but the studies limit their participation. The school would be better known and school spirit would increase tremendously."

BOB MATTHEWS said, "STUDYING, that is the reason most of the STI students are here and not for attending baseball games and football games. Athletics at STI are not emphasized. The facilities at STI for sport functions are very inadequate and this adds to the lack of interest of the students. It seems that there is more competition among the students in the departments rather than on the athletic facilities. Inter-collegiate football has nothing to offer to STI. We have trouble getting students to our games now and are not very successful, so we do just as well without football."

JAKE FREEMAN said, "Most of the teams at STI are not very good and students aren't going to support a losing team. I attribute poor teams to the fact that it is hard for a player to get a schedule that will permit him to practice as much as he should. Time is of the essence and not football; therefore, I do not feel STI would gain anything by adding inter-collegiate football."

It is obvious from these comments that the average student at STI does not have time to engage in sports activities. I think DON DUCKWORTH summed the whole question up very well when he said, "The emphasis at the school is where it belongs—ON THE BOOKS."

Drive Carefully—Relax At Home

By CHARLES G. JACOBS

What does Thanksgiving mean to you? Four days of release from the rigorous routine of college life, rest, relaxation and just plain enjoyment of life are some of the things we think of when we think of this holiday. A quick drive home will be the order of the day for most of us on Wednesday afternoon. A big dinner Thursday and three full days of relaxation and easy living follow.

A pause to reflect on the meaning of Thanksgiving should be in order at some time during this period. Surely we are all thankful that we have the freedoms granted us by our forefathers and can spare a few moments of meditation and prayer in thanksgiving for the many every day liberties we enjoy.

Each of us will hear the horrible results of reckless driving during this holiday period; therefore, a word of caution need not be said here, but should be said to yourself each time you drive during the holiday period.

The Technician staff heartily wishes each and every student a joyous holiday and a safe return to school.

Alumni Corner

By MILDRED T. WILSON

Dinner And Dance Success; Hoskins Is Elected President

The Alumni wish to express their appreciation to President James O. Stewart for working so diligently with them for the past 18 months. They feel that he has done an outstanding job and commend him for the work he has done. They also offer their wholehearted support to the incoming president, C. Neel Hoskins; Lester Scott, vice president; and Robert U. Beiter, secretary and treasurer.

Letters from: Phenix City, Alabama—GORDON A. CUMBAA (Civil '52) had the pleasure of hearing Governor Griffin address the Georgia Division United Daughters of the Confederacy at their 63rd annual convention in Columbus, Georgia.

Governor Griffin's theme centered around the future industrial expansion of Georgia as being dependent on technical education in Georgia. In the course of the Governor's speech, he brought out strongly what is being done toward the development of a greater Southern Technical Institute and told of his action in support of this, including the new location plans for Cobb County. Cumbaa said that the Governor appeared to take considerable pride in his part in this project. Following the speech, Cumbaa introduced himself to the Governor, informing him that he is a graduate of STI and thanking him for his recognition of the caliber of training given at Southern Tech. Cumbaa and the Governor discussed STI for at least five minutes, even though nearly 200 people were there to shake hands with the Governor and greet him.

Curundu, Canal Zone—RASON H. DOBBS (BC, '58) is touring the Canal Zone looking over the employment situation. (Dobbs, be sure to let us hear the outcome). Warner Robins AFB, Ga.—CHARLES R. HORTON (E&C, '58) is working in fire control radar for big jet bombers. Waverly, Tenn.—ROY D. LESTER (BC, '57) is employed by E. I. duPont as a Sketcher and Material Take-off Man. Ft. Leonard Wood, Missouri—BENNO FRIEDRICH (Ind-Mech, '58) writes that he misses school a great deal—that army life leaves a lot to ask for. Says "you have no idea how much I miss the

friendly staff and student body." Memphis, Tenn.—BRADY DRUMMOND (GF, '55) writes from this area. Brady, are you employed by Inland Container Corp.? You failed to give complete details. Utica, New York—JOEL E. WALLACE (E&C, '58) is now enrolled in the Remington-Rand Univac school in Utica studying computers. Says the best description he has heard is that the computer is a "complexity of simplicity."

HOWARD CALLAWAY (we mentioned in the last issue of The Technician) is in Utica also but is going to Washington, D. C. to operate Capital Air Lines, UFC, (Univac File Computer). Savannah, Georgia—OSCAR B. COVINGTON, JR. (BC, '55) writes concerning three STI alumni. ROBERT BURNS (Civil '54) and JOHN CARTER (Civil, '58), and Covington are employed by construction companies engaged in constructing the Bestwall Gypsum Plant in Brunswick, Ga. The plant is composed of two sections—one a dock which runs well over a million dollars and the plant which is estimated over a million dollars also. Burns and Carter are engaged in surveying and instrument work for this plant and dock. Covington is engaged as field engineer for the prime contract. Everything is going well. Canton, Ohio—

JAMES L. ROSE (BC, '58) writes that he is very pleased with his work. He is employed by Macomber, Inc. and says Macomber is everything he expected and—in some cases—more. He is working in the export division doing design work for the most part. He says thanks to Mr. Myatt and Mr. Vaughn. He is well prepared for this job. Hickory, N. C.—BILL JOHNSON (IND., '58) is employed by Superior Cable Company and likes his job very much. Says everyone has been so wonderful to them that they don't feel like strangers at all. Bill is an engineering trainee and is making several studies on different problems throughout the plant (company manufactures wire cable) which is a real challenge—says he still has a lot to learn. Riverton, Wyoming—JON R. JONES (E&C, '55) is now with W. A. Brown & Asso-

ciates as a Field Engineer, is interested in hearing from ET and E&C graduates of '55. His address is Glencoe St., S.E., Winston-Salem, N. C. Baxley, Ga.—JERE ALLNOCH (E&C, '58) is employed as an announcer and assistant engineer with a radio station in south Georgia. Newark, Delaware—FRANKLIN ANDERSON (GF-H&AC, '57) is now employed by E. I. duPont in Wilmington, Delaware. Frank was by the office recently while on vacation. On his way back home he stopped by for a visit with JERRY BRANTLEY (GF, '57) who is employed as a Lab Technician at Union Carbide Nuclear Company, Oak Ridge, Tenn. Hampton, Va.—L. P. (Slim) GREER (H&AC, '57) writes that all the alumni at Newport News Shipbuilding and Dry Dock Co. are doing fine. Huntsville, Ala.—

CONNIE M. CRAWLEY (E&C, '56) is now an instructor in guided missiles with RCA in Huntsville, Ala. Connie and Betty like Huntsville very much. Cuahaven, Germany—RUDOLPH WANKE (Mech, '58) arrived in Germany the first of November. Rudolph will continue his education at one of the universities in Germany. PASSERS-BY:

J. L. SEABOLT, JR. (Ind. '55) now resides in Decatur and is seeking employment in this area. CLARENCE O. SHAW (E&C, '55) is with Carter Oil, Oklahoma City, Okla. BEAUFORD I. HILLMAN, (Ind., '56) is now a Plant Supt. with Southeastern Newspapers, Inc., Augusta, Ga. HUGH A. BATE (H&AC, '54) is with Lockwood-Green, Spartanburg, S. C. ROBERT E. STANLEY (H&AC, '53) is now a senior at Georgia Tech in IE.

BIRTH ANNOUNCEMENTS:

A boy to the BEN HUFFS (E&C, '56) they have named him Stephen Hall. The J. T. GOGGANS have named their new daughter Sherrie Nan. The HARVEY RITCH family (E&C, '57) added a baby girl as did the JOE BARNETTS (ET, '57). Both Ritch and Barnett are employed by Square D Company here in Atlanta.

Note: Keep the letters coming in with the news so we can keep The Alumni Corner going.

First Truly American Holiday Is Thanksgiving

Thanksgiving Day, the first truly American holiday, in its deepest meaning expresses at the same time one of man's greatest and most misused opportunities. "Thanks-giving," the combination of two words expressive of inner rejoicing, calls for the recounting of life's blessings and God's providence.

In so many ways November 27, 1958, is like that first Thanksgiving Day—the clouds of hatred, fear, anxiety, and sorrow are balanced against domestic tranquility, bountiful harvests, and a common faith in the eternal presence of an All Wise and Beneficent God of mercy and love. Again, in 1958 as in 1621, congregations will gather to recount the progress in peace, love, and the welfare of humanity. They will sing the Psalms of praise, and hearts will be once again revived and inspired with strength, faith, and optimism for a new Day of "Peace on earth, good will toward men." For out of common sorrow, trials, and distress grows strength for the journey of life—out of blessings and

success grows encouragement for the new task—out of unity of spirit, purpose, and faith grows a nation.

Our forefathers met to worship, to pray, and to play and gain strength to develop our great nation. From the glow of the torch they lighted, America stands a free nation today. We are in debt

to them for the freedom we enjoy today. The manner of our "Thanksgiving" on this 337th anniversary of the First Thanksgiving Day may well determine the nature of freedom our children enjoy.

"Count your many blessings, See what God hath done."

THE ANNUAL CHRISTMAS DANCE FRIDAY NIGHT, DECEMBER 5
 FLOOR SHOW ★ ★ ★ ★ SPONSORED BY IOTA TAU ★ ★ ★ ★ DOOR PRIZES

International

THE INTERNATIONAL CLUB, the former Latin American Club, held elections on October 9 in which Mr. Garcia, Mr. Vaca and Mr. Wilson were elected to the respective offices of president, vice-president and treasurer.

The club wishes to extend an invitation to all of the students who wish to join the International Club to come to the next meeting. The club is now open to all students, not as before when it was exclusively for Spanish speaking students.

In the very near future the main project of the club is to carry out a major campaign to raise funds for our badly needed library. This will be done by Mr. Nahari's collaboration and the help of the staff. The manner in which the campaign will be carried out will be to solicit all of the clubs on the campus to join in with the International Club in carrying out this campaign. The first fund raising activity will be to patronize an election for the purpose of electing a Southern Tech queen. This will be done by soliciting each club to select a candidate to compete in the contest. The contest will terminate with a coronation ball in honor of the queen elected. The grand ball will be open to all who wish to attend. Further information on this activity will be given in the next issue.

B and C Club

The B. C. Club remained active during the summer quarter, although many members were out of school. The club undertook no special projects because of low attendance, but did have an end of the quarter party at Lake Allatoona. Following regular procedure, the club elected these officers for fall quarter: president, F. W. Fleming; vice-president, Bobby Nelson; secretary, Allan Ivemeyer; treasurer, Robert Sumner; and sgt.-at-arms, Cecil Cannon.

The club had 17 new students present at the first meeting of this quarter. A program has been launched to obtain new members.

A football team has been formed with Cecil Cannon acting as captain. The first game was played on October 15 and won by a 6-0 margin over the Civil Department, and the team promises to develop into a top winning team.

Tentative plans of BC Club include the showing of architectural films, a tour of a local manufacturing establishment, and the quarterly club party. The BC Club is looking forward to the best quarter in its history.

Model Home Shown At Fair

Southern Tech was represented this year at the Southeastern Fair with a model home from the Building Construction Department.

The house was of a colonial style and showed well developed design and construction methods. By use of cut-away sections. The house was designed by Daniel Deffenbaugh and built during the summer quarter by Daniel Deffenbaugh, J. M. Ramsey, W. G. Seay and F. W. Fleming under the supervision and with the help of Mr. E. J. Muller, Course Instructor.

Dear the peoples coming home,
 Dear glad faces long away,
 Dear the merry cries, and dear
 All the glad and happy play.
 Dear the thanks, too, that we give
 For all of this thanksgiving day.
 —H. P. Spofford

CLUB NOTES

Tau Alpha Pi

The Alpha Alpha Chapter of Tau Alpha Pi National Honor Society held its regular meeting Thursday, October 30, and welcomed seven new members to its ranks. Chapter president, Mr. Jerry W. Dryden, welcomed the new members in the name of the society.

New members present included Mr. Barrie L. Bloser, Industrial Department; Mr. Norman B. De Loach, Civil Department; Mr. Thomas W. Efird, Mechanical Department; Mr. Jack E. Lindsay, Electrical Department; Mr. David J. Mabry, Heating & Air Conditioning Department; Mr. Waldo F. Roescher, Jr., Heating and Air Conditioning Department; Mr. Charles G. West, Building and Construction Department.

The Chapter voted and made plans for their quarterly banquet and initiation ceremonies. The initiation ceremonies will be held at the school and the banquet will follow at the Dogwood Motel Restaurant.

Monogram

The Monogram Club held a meeting on November 5, and plans another meeting November 19 during club period. All members are urged to attend.

Sherman Forehand, president called the meeting to order. The club discussed the membership of the club, the situation of dues, and the support of the school, Sherman read the by laws and the club discussed the dues. All members are required to pay a \$4 entrance fee plus quarterly dues.

Guy Platt, treasurer stated that the members should pay \$2 by next meeting, November 19.

The club has 30 members now and we desire that all be present in Room 12 of Building 24, November 19, during club period.

Iota Tau

Members of Iota Tau are working hard to put on the The Annual Christmas Dance at STI on Friday night, December 5. This is the BIG dance of the year for all students, Alumni, and faculty, when everyone gets together for a night of dancing, floor show, door prizes, and fellowship. SO COME ON OUT.

Officers of Iota Tau for this quarter are as follows: Bunyan L. Rudd, president; Bob Shumake, vice president; Charlie Parker, secretary; Larry Johnson, treasurer; J. C. Findley, social chairman. Alsie Rutland and Bobby Strickland are our student council representatives for the Industrial Department.

Glee Club

The STI Glee Club is proud to announce that they have outgrown their present rehearsal quarters. With the full cooperation of Mr. Johnson, new quarters were made available in the building which now houses the reading room.

Our meetings are now being held there every Thursday evening at 7:00 p.m. We have plenty of room and there is no excuse why we can't expand the Glee Club to the biggest and best ever on the STI campus. We would like to extend our appreciation to Gerald Ervin, who has joined the club as accompanist.

We have grown to approximately 40 active members and would like to have 40 more. Come on out and join the good times. We want to see more new faces along with the regular members.

Dear Lord, you'll have to forgive us Americans if we don't actually name all the blessings for which we give thanks this Thanksgiving. We haven't time enough or memory enough.

—Onen Arnold in The Kiwanis Mag.

Epsilon Pi Chi

The members of Epsilon Pi Chi enjoyed their first party of the fall quarter on October 31. It was held at Chastain Memorial Park. Barbecue, served with other refreshments was followed by movies of a fashion show put on by members of Epsilon Pi Chi last quarter. After the movies, a new fashion show was held, demonstrating the new styles, and was enjoyed by all present.

There were about 70 persons present including members, their dates, and last, but not least, extra girls for the members without dates. A very enjoyable evening was had by everyone present and a much larger attendance is expected at the next party.

Plans are that we will have our second party of the fall quarter November 21 at Chastain Memorial Park. It will be a dance with a Space Age theme. Entertainment will be provided by members of Epsilon Pi Chi and is expected to be most entertaining.

Tech Annes

The regular monthly meeting of the Tech Annes was held Thursday, November 13, in the Green Room at Southern Tech.

The club will hold a Thanksgiving Turkey Raffle November 21. All members are urged to attend this meeting so that they may receive raffle tickets.

After the business of the evening, Mrs. Abbie McCumber will head a program on Civil Defense. A movie entitled "A Day Called X" will be shown.

Approximately 100 were on hand to enjoy the Western Square Dance, sponsored by the Tech Annes, held in the Green Room last Saturday.

All enjoyed both round and square dancing to the call of Mr. Joe Bagwell, who also instructed those of us who had two left feet. Even the stags enjoyed a few dances with the high school girls and nurses invited as guests.

Toastmasters

October 25 was a big day in the eyes of Southern Tech Toastmasters, members attended the Fall Educational conference held on the Georgia Tech Campus.

Toastmasters clubs throughout Georgia participated in this event and various duties were assigned to each club. Southern Tech Club acted as the reception committee. The day consisted of three main attractions: a fun luncheon, which was held at the Progressive Club on Techwood drive; an Educational Workshop — with the following classroom instructions: Public Relations, Evaluation Techniques, Microphone Techniques, Parliamentary Procedure, Speech Craft and Voice Gestures; and a dinner-dance at the Naval Air Station, Chamblee.

More than seventy-five Toastmasters of the state of Georgia attended. Members of Southern Tech Toastmasters were: Bob Strickland, Dick Platt, Metz Holcombe, Prof. Steinkamp, George Davis, Bob Shumake, William Shaw, Harold and Glen Walker, Kelly Iny, and Oliver Skeen.

The president of the Toastmasters of Southern Tech Club extends his appreciation to the chairman of the reception committee and fellow Toastmasters for participating in this event, and hopes to inject the knowledge received at the conference into our club throughout the coming year.

The Green Room, decorated with corn stalks and hay, provided the perfect atmosphere for high stepping. Even a few Southern Tech Professors and their ladies were seen tripping the light fantastic.

After the door prize, two dinners at the Dogwood Restaurant, was given to the lucky couple holding the number drawn, each of us took pleasure in bursting at least one balloon and cleared out. As we rounded the corner of the building, all that was heard was the swishing of brooms—that poor clean up committee!

All agreed—Let's do it again soon!

Tribute Given To Veterans By Nation On Veterans' Day

Armistice Day, November 11, was established in 1926 to commemorate the ending of World War I. The veterans in this war were the only ones considered in this plan. On June 1, 1954, the name Armistice Day was changed to Veterans Day to honor all men and women who have served the United States in the Armed Forces.

Southern Tech is fortunate to have had hundreds of these fine men in school, and there are at present 225 veterans enrolled. Under the P.L. 894 are 8 students. Korean Vets under Public Law 550 number 215 students. Only one

student from World War II is attending under P.L. 346, and one under P.L. 634.

The large majority of these men have done and are doing satisfactory or better scholastic work. Most of them, a large number of whom are married and have children, are taking an active part in the school's extracurricular activities. A great many have to work after school and on weekends to live; and yet most are doing a very creditable though difficult job.

On this day set aside as a tribute to you, we say "Thank you, congratulations, and good luck!"

Enrollment Represents Small United Nations

Southern Tech is a popular school in the technical field from reports given by the students who are at present enrolled at Southern Tech.

This year there are students from 29 states and 9 foreign countries represented at STI. Of course Georgia has contributed the greatest part of the 917 students. Georgia students total 743. The neighboring states North Carolina, South Carolina, Alabama, and Florida contribute another 145 students.

But do not think that Southern Tech doesn't have its share of students from all over the world. Students from Haiti, Cuba, Iraq, Arabia, and other foreign countries are attending. More foreign students will be enrolled next year if all expectations are fulfilled.

Even if Southern Tech is only

a two year school, students from everywhere find that technicians are in demand more than ever, and STI is one of the best places to study toward this goal.

REPRESENTATION AT STI:

Alabama, 22; Arizona, 1; Arkansas, 1; California, 2; Colorado, 1; Connecticut, 1; Florida, 58; Georgia, 743; Idaho, 1; Illinois, 1; Indiana, 3; Iowa, 2; Kansas, 1; Louisiana, 1; Maine, 1; Michigan, 2; Minnesota, 2; Missouri, 1; Nebraska, 1; New York, 1; North Carolina, 12; North Dakota, 2; Ohio, 1; Oregon, 1; Pennsylvania, 2; South Carolina, 23; Tennessee, 8; Texas, 1; Virginia, 4.

FOREIGN COUNTRIES:

Haiti, 1; Cuba, 3; Colombia, S. A., 2; Israel, 1; El Salvador, C. A., 1; Venezuela, 4; Arabia, 1; Iraq, 1; Peru, 1.

Views Of New Campus

Turning from the sports view at Southern Tech to a more academic picture, we see the new campus at Marietta, for Southern Tech in the very near future. Wondering how some of the students feel about our new location, they were asked just how they did feel.

MICHAEL REDFERN said, "I do not feel like we are getting a better geographical location; however, the benefits for the school seem to be better. It is possible the enrollment of the Atlanta students will drop because of being located in Marietta. The offers Cobb County have made seem to be very generous and kind ones. The Southern Technical Institute has a very bright future and I am glad that I could be a part of it."

JAMES A. McDONALD said, "The new campus site is much better than the present one. Eating facilities for the students are much more conveniently located at the Marietta site. There are two drive-in movies near by, giving the students with a little spare time—something to do. For people living in the Atlanta area, the school will be much more accessible in that the N.W. leg of the expressway will lead them to within one block of the school. In summarizing, I can see no drawbacks in Southern Tech moving to Marietta."

SANDY LYONS said, "The fact that we will have a campus is enough for Southern Tech to move to Marietta. Our recreational facilities will be more adequate at Marietta than the ones we now enjoy."

BILL CARSON said, "Naturally I am going to say it is a good

move, because the Book Store, of which I am manager, will have approximately three times as much space as our present location. The total space at the new location for the Book Store is around 3,600 square feet. It is a prediction that STI will have an enrollment of 1,600 students by the time we move to Marietta, so there will be twice as many students with three times the space to serve them. We plan to feature a more varied line of jewelry and novelties at our new location."

The important thing about our move to Cobb County is that "We will have a campus," as Sandy Lyons put it. The Southern Tech alumni, administration and present student body are very deserving of an outstanding campus.

Participation In Club Activities Brings Benefits

Students, have you stopped to think of the many advantages of being an active member of the club in your department? Perhaps it has never occurred to you that there are advantages in club membership.

One outstanding advantage is that you will meet the men in your department who have the same interests and problems as you. Also you often have as speakers, representatives from plants in your field, who give interesting talks about the opportunities and advancement in this particular field. They sometimes show films on the new equipment being used in your future work.

OTHER ADVANTAGES

Other advantages are the social and recreational activities through which your wives and friends may get better acquainted.

Each club has a representative in the Student Council, which fact enables you to have a voice in solving campus problems and making new rules.

And finally, when you are at last being interviewed for a job, your good background in club activities will prove an asset.

CLUB PICTURES MADE DECEMBER 2 AND 3

Be sure and have your coat and tie with you December 2 so that you will be eligible to have your picture included in your club group.

Schedule For Log Pictures Club--Dec. 2; Individual--Dec. 3

Club and individual pictures for The Log will be taken in the Green Room, Tuesday and Wednesday, December 2 and 3; individual pictures will be taken December 3 between 2:00 and 3:00 P.M. If you have failed to make an appointment, please contact R. W. Strickland, or Mr. Sojourner.

No one will be allowed in any picture without a coat and tie. Bring any flags or emblems of your club which should appear in the picture. If you have any questions in regard to club pictures, see R. W. Strickland, Club Editor, or Mr. Sojourner in the Log office.

Bring a typewritten list of the members and the club data that the club would like to have under the picture in The Log.

Pictures will be taken promptly as per schedule. A student will be excused from class by his instructor.

SCHEDULE AS FOLLOWS:

Tuesday, December 2		Wednesday, December 3	
Time	Club	Time	Club
9:00	Student Council	9:00	Heating & Air Conditioning
9:30	A. S. T. E.	9:30	Iota Tau
10:00	Alpha Beta	10:00	Latin American Club

HORNETS LOSE TO WHIRLWINDS BY 100-63

By **TEDDY RAY JONES**

Southern Tech's Hornets were outscored in their first opening by North Georgia Trade Whirlwinds by 101-63 on the Hornets' home floor. "The Hornets had a good percentage for their 60 shots, but not enough shots were attempted," Coach Lockhart said.

Referee Sackett stated at the close of the game, "This team (Southern Tech) is better than the score indicated."

The starting five for Southern Tech were Johnny Walton (23), Wendell Shearouse (21), Nolan Wallace (24), Richard Tyler (20) and Byron Todd (25).

Whirlwinds' first five were Don Wilson (11), Bob Eaker (15), Lewis Hobbs (35), James Patterson (13), and Lewis Gailey (23).

The high point man for Southern Tech was Nolan Wallace with a total of 18; second was Richard Tyler with his total of 12; third was Byron Todd with 11 points.

Trade School's high point man was Bob Eaker with 23 points; second was Charles Baldwin with 13, and third was Lewis Gailey with 11.

STUDENTS SUPPORT TEAM

Southern Tech was well supported by the student body. Coach Lockhart and others stated, "This was the largest crowd Southern Tech had ever seen come out for a basketball game." If everyone of the students can keep this spirit, Southern Tech will be victorious in the final count of games.

The Hornets are practicing every night at the Navy gym for their next game here with Truett-McConnell from Cleveland. To

those who didn't like the way Southern Tech's basketball team is trying to get into the winning column, we will be glad to give you a basketball uniform and let you help the team.

This is a box basketball run-down: The abbreviations are field goals (FG); free throws (FT); fouls (F); and total points (Pts). This is the way the book shows that game.

Name	FG	FT	F	Pts.
Walton	2	1	4	5
Bentley	3	2	2	8
Shearouse	2	3	4	7
Saturday	0	0	1	0
Wallace	7	4	3	18
Tyler	5	2	3	12
Abrachinsky	0	1	2	1
Todd	4	3	3	11

Referees: Gene Sackett, Jack McKinney.

Bowling

Coach Lockhart has a list of students who like to bowl. The bowling will be departmental or individual grading. Coach has worked out a schedule for the bowlers. The price will be cut for Southern Tech bowlers in the school league. Anyone else interested in bowling see Coach Lockhart.

Body Building Is Encouraged

Anyone who is interested in building up his muscles and body structure see Mr. Randy Harden. Mr. Harden has been lifting weights every other day for over a year's time. He would like to organize a weight-lifting group here at Southern Tech. The Navy facilities are available at the Navy gym.

Students Watch The Professional

Southern Tech Golf Team is being organized for this year. Two returning players, Virgil Smith and Ronald Stephens, are preparing for their matches. The team from Southern Tech placed fourth in Junior College Tournament at Gordon Military College at Barnesville. Stephens and Smith go out for a round after school. Mr. Lawson is the adviser for the golf team. Anyone needing help please see Mr. Lawson.

Our golf team needs more players for this year. This is the time for all golfers to tee off for the spring matches. If anyone is interested in some rounds see Virgil Smith or Ronald Stephens. Let's put Southern Tech in first place this year for golfers. The practice matches are played with Stephens and Smith at the following courses: North Fulton, Forrest Hills, Bobby Jones and others.

The two golfers attended the Carling Open at Cherokee Country Club last Friday and Sunday.

Virgil Smith thought Arnold Palmer was the best golfer at the matches. Smith stated, "Palmer is better than the winners, but his game was inconsistent."

Stephens accepted Billy Casper as his favorite. Stephens said, "Casper's game was good although his putting was off."

Intramural Lead Headed By E&C

Electronics and Communications football team is leading the standings in the intramural football league. So far, E&C has four wins and no losses. Second, Hot Air has two wins and no losses with one tie. Third is Building Construction with three wins and one loss.

Fourth is Civil with two wins and one loss.

The four last teams are Textiles 1-2; Industrial, 1-3; Mechanical, 1-2; and Gas Fuel, 0-4.

Standings, Nov. 10.

	Wins	Lost	Tie
E&C	4	0	0
H&AC	2	0	0
BC	3	1	1
Civil	2	1	0
Textile	1	2	0
Ind.	1	3	0
Mech	1	2	1
Gas Fuel	0	4	0

The following is the schedule of the intramural football games. The games have stirred interest and activity among the students.

We hope they will support the school's basketball team as well.

SCHEDULE

Wednesday, Nov. 19—Ind vs. H&AC
Thursday, Nov. 20—Gas Fuel vs. Textile
Monday, Nov. 24—Civil vs Mech
Tuesday, Nov. 25—E&C vs. BC
Wednesday, Nov. 26—Thanksgiving Holidays
Thursday, Nov. 27—Thanksgiving Holidays
Tuesday, Dec. 2—Gas Fuel vs. Ind.
Wednesday, Dec. 3—Textile vs E&C
Thursday, Dec. 4—BC vs Mech
Monday, Dec. 8—Civil vs H&AC

Do You Think for Yourself? (THIS TEST WILL TELL YOU! *)

Do you often dislike doing favors for others, even though you tell yourself you enjoy it?

YES NO

Can you compete with another person without feeling hostile?

YES NO

Do you refuse to worry about things you can't do anything about?

YES NO

Do you ever say things you don't believe, just to start a discussion?

YES NO

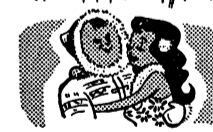

Would you be completely at ease if you found yourself suddenly in the spotlight at a social gathering?

YES NO

When you're very hungry, do you like to try out strange foods?

YES NO

Would you vote for establishing an international language other than English?

YES NO

Do you enjoy being called upon as an umpire to settle disputes?

YES NO

The Man Who Thinks for Himself Knows... ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Now answer this one: Do you really think about the filter cigarette you choose? YES ___ NO ___
If your answer is "Yes"... well, you're the kind of person who thinks for himself. You can be depended on to use judgment in everything you do. The fact is, men and women who really think for themselves usually smoke VICEROY. Their reason? Best in the world. They know for a fact that only VICEROY—no other cigarette—has a thinking man's filter and a smoking man's taste.

*IF YOU HAVE ANSWERED YES TO 6 OF THESE QUESTIONS, YOU ARE A PERSON WHO THINKS FOR HIMSELF!

Hays Is A Versatile STI Professor

Continued from Page 1

In 1949, Mr. Hays entered graduate school at Emory University for one and one-half years of graduate study in English. Mr. Hays then accepted a teaching position at Southern Tech. He resigned after two quarters to become supervisor of supervisory training, and then supervisor of training course development at Lockheed.

Mr. Hays couldn't forget teaching though — so he returned to Southern Tech in 1952 as an English professor. Since he returned to STI, he has been appointed Head of the English Department and Acting Manager of Public Relations for Southern Tech. Mr. Hays

received his master's degree in education from Emory University in 1957.

For his hobbies, Mr. Hays lists fishing, playing the stock market, building construction, and management of tenant houses for his wife. His ambition is to write a great American novel. So far, Mr. Hays has had little success as a novelist, but he has had about forty-five articles on English, supervision and education in such publications as *Research Engineer*, *LPGA Times*, *Manufacturers' Record*, *Georgia Industrialist*, *G.E.A. Journal*, *Technical Education News*, *Georgia Magazine*, *Young Men*,

Textile Industries, and Petroleum Refiner.

Besides the publication of his articles, Mr. Hays has had a collection of his World War II poems, entitled *Pacific Parodies*, published in 1947, by Jacobs Press. Also Mr. Hays is working with Mr. M. E. Blair, English professor at Southern Tech, on a remedial English textbook.

Mr. Hays' "life-philosophy" might be expressed in his pet peeve—"People Who Don't Work." He says, "I am trying to out-perform my father, one of the leading business and religious figures of the Southeast."

Alumni Banquet Held At Officers' Club

Continued from Page 1

This year's success of the Alumni Association is attributed to the untiring efforts of James O. Stewart, president, and Mrs. Mildred Wilson, Placement Director. Both have worked very diligently and their efforts have not been in vain. It has been one of the most successful years since the Alumni Association was organized. Other officers serving with Mr. Stewart are: Neel Hoskins, vice president and Joseph C. Wigley, secretary.

Co-op for Students

Southern Tech offers many facilities and services to its students. Among these, and one of the most important, is the co-op plan by which a student attends Southern Tech one quarter, works in industry one quarter, and continues to alternate his work and school quarters until he has completed his education.

The largest plan is in Civil Technology, in cooperation with the Georgia Highway Department. A co-op has just been introduced in Telephone Technology; also, Mechanical and Industrial Technology.

OFFER A CO-OP ASSISTANCE

Beginning the winter quarter, 1959, there will be a co-op plan in the Gas Fuel Department. This plan will be worked in cooperation with natural gas utilities throughout the country.

A co-op plan is very advantageous to students. When a co-op student graduates he has both education and experience, a knowledge of the company which they have worked, and generally are assured of a job with the company upon graduation. A co-op student is capable of earning a large portion of his school expenses.

Any students interested in the co-op plan should see Mr. Thomas, Co-Op Director.

CORN CRIB

What A Future!

A man is born with two ends; one to think with, and one to sit on. A man's success depends on which he uses the most. Heads he wins and tails he loses.

Stupid!

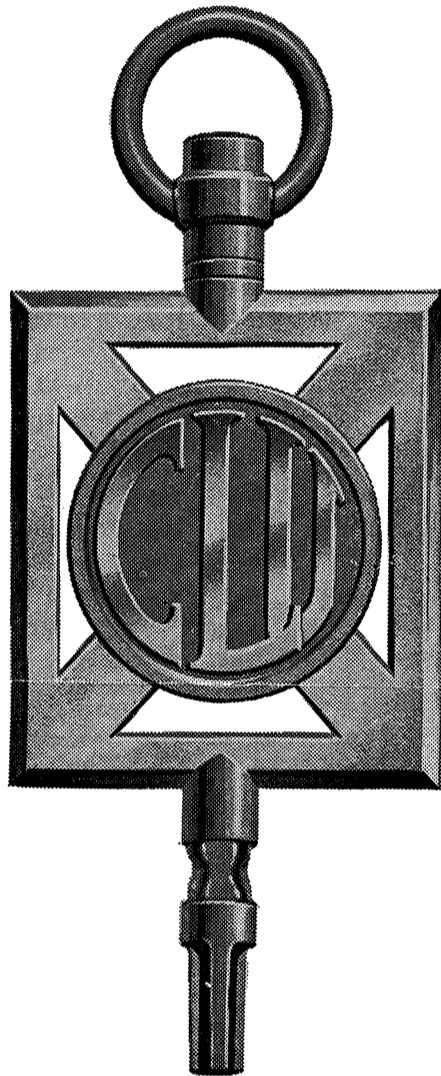

The Florida beach and blue sea looked inviting to the visitor, but before venturing out to swim he thought to make sure.

"You're certain there are no alligators here?" he inquired of the guide.

"Nossuh," replied the darky, grinning broadly. "Ain't no 'gators hyah."

Reassured the tourist started out. As the water lapped about his chest he called back: "What makes you so sure there aren't any alligators?"

"Dey's got too much sense," bellowed the guide. "De sharks done skeered 'em all away."

KEY OF AMERICAN COLLEGE OF LIFE UNDERWRITERS

To earn this key, a man must have spent a great deal of time and effort preparing himself for searching examinations in five fields of study. These are prescribed by The American College of Life Underwriters as essential to providing a high type of service to the public. Not only must he pass these examinations, but he solemnly subscribes to the following pledge:

"I shall, in the light of all the circumstances surrounding my client, which I shall make every effort to ascertain and to understand, give him that service, which, had I been in the same circumstances, I would have applied to myself."

We are proud of the high percentage of our organization who are members of this distinguished society.
